(iv) Notwithstanding the requirements of subparagraph (e)(6)(ii) of this section, compliance with the requirements of subparagraph (e)(4)(i)(*b*) of this section shall also be determined by using the methods described below at such times as may be specified by the Administrator. For all stacks equipped with the measurement system(s) required by subparagraph (e)(5) of this section, a 6-hour average sulfur dioxide emission rate (lbs SO_2/hr) shall be determined as follows:

(*a*) The test of each stack emission rate shall be conducted while the processing units vented through such stack are operating at or above the maximum rate at which they will be operated and under such other conditions as the Administrator shall specify.

(*b*) Concentrations of sulfur dioxide in emissions shall be determined by using Method 8 as described in Part 60 of this chapter. The analytical, and computational portions of Method 8 as they relate to determination of sulfuric acid mist and sulfur trioxide as well as isokinetic sampling may be omitted from the over-all test procedure.

(*c*) Three independent sets of measurements of sulfur dioxide concentrations and stack gas volumetric flow rates shall be conducted during three consecutive 2-hour periods for each stack. Measurements need not necessarily be conducted simultaneously of emissions from all stacks on the smelter premises.

(*d*) In using Method 8, Traversing shall be conducted according to Method 1 as described in Part 60 of this chapter. The minimum sampling volume for each 2-hour test shall be 40 ft^3 corrected to standard conditions, dry basis.

(*e*) The volumetric flow rate of the total effluent from each stack evaluated shall be determined by using Method 2 as described in Part 60 of this chapter and by traversing according to Method 1. Gas analysis shall be performed by using the integrated sample technique of Method 3 as described in Part 60 of this chapter. Moisture content shall be determined by use of Method 4 as described in Part 60 of this chapter except that stack gases arising only from a sulfuric acid production unit may be considered to have zero moisture content.

(*f*) The gas sample shall be extracted at a rate proportional to the gas velocity at the sampling point.

(*g*) For each 2-hour test period, the sulfur dioxide emission rate for each stack shall be determined by multiplying the stack gas volumetric flow rate (ft^3/hr at standard conditions, dry basis) by the sulfur dioxide concentration (lb/ft^3 at standard conditions, dry basis). The emission rate in lbs/hr-maximum 6-hour average for each stack is determined by calculating the arithmetic average of the results of the three 2-hour tests.

(*h*) The sum total of sulfur dioxide emissions from the smelter premises in lbs/hr is determined by adding together the emission rates (lbs/hr) from all stacks equipped with the measurement system(s) required by subparagraph (5) of this paragraph.

(7) The owner or operator of the smelter subject to this paragraph, in addition to meeting the emission limitation requirements of subparagraph (e)(4) of this section, shall employ supplementary control systems and/or such additional control measures as may be necessary to assure the attainment and maintenance of the National Ambient Air Quality Standards for sulfur dioxide.

(i) Such measures will be limited to those specified in the application submitted pursuant to subparagraph (e)(3)(i)(*g*) of this section.

(ii) Sulfur oxides emissions shall be curtailed whenever the potential for violating any National Ambient Air Quality Standard for sulfur dioxide is indicated at any point in a designated liability area by either of the following:

(*a*) Air quality measurement.

(*b*) Air quality prediction.

(8)(i) For the purposes of this paragraph the designated liability area shall be a circle with a radius of fifteen (15) statute miles (24 km) with the center point of such circle coinciding with the tallest stack serving the affected facility. The owner or operator of the smelter subject to this paragraph may submit a detailed report which justifies redefining the designated liability area specified by the Administrator. Such a justification shall be submitted with the application submitted pursuant to subparagraph (e)(3)(i) of this section and shall describe and delineate the requested designated liability area and discuss in detail the method used and the factors taken into account in the development of such area. Upon receipt and evaluation of such report, and after the public hearing described in subparagraph (e)(3)(ii) of this section, the Administrator shall issue his final determination.

(ii) If new information becomes available which demonstrates that the designated liability area should be redefined, the Administrator shall consider such and if appropriate, after notice and comment, redefine the designated liability area.

(9)(i) The owner or operator of the smelter subject to the paragraph shall submit with the application submitted pursuant to subparagraph (e)(3)(i) of this section, a detailed plan for the establishment of a supplementary control system and/or such other measures as may be proposed. Such plan shall describe all air quality and emission monitoring and meteorological equipment to be used, including instruments installed pursuant to subparagraph (5) of this paragraph for continuously monitoring and recording sulfur dioxide emissions and stack gas flow rate, the methods that will be used to determine emission rates to be achieved in association with various meteorological and air quality situations, and the general plan of investigations to be followed in developing the system and the operational manual.

(ii) Such plan shall include detailed specifications of any modifications to existing equipment including new stacks, stack extensions, stack heating systems or any process changes to be applied.

(iii) The monitoring described in the detailed plan submitted in accordance with this subparagraph and the appropriate recordkeeping requirements of subparagraph (e)(12) of this section shall commence and become applicable as of the date specified in subparagraph (e)(14)(i)(*b*)(*5*) of this section.

(10) The owner or operator of the smelter subject to this paragraph shall submit to the Administrator a comprehensive report of a study which demonstrates the capability of the supplementary control system, in conjunction with any other control measures, to reduce air pollution levels. The report shall describe a study conducted during a period of at least 120 days during which the supplementary control system was being developed and operated and shall be submitted no later than the date specified in subparagraph (e)(14)(i)(*b*)(*6*) of this section. The report shall:

(i) Describe the emission monitoring system and the air quality monitoring network.

(ii) Describe the meteorological sensing network and the meteorological prediction program.

XUM
V 40 26
FEB 6 75
XUM

(iii) Identify the frequency, characteristics, times of occurrence and durations of meteorological conditions associated with high ground-level concentrations.

(iv) Describe the methodology (e.g., dispersion modeling and measured air quality data) by which the source determines the degree of control needed under each meteorological situation.

(v) Describe the method chosen to vary the emission rate, the basis for the choice, and the time required to effect a sufficient reduction in the emission rate to avoid violations of National Ambient Air Quality Standards.

(vi) Contain an estimate of the frequency that emission rate reduction is required to prevent National Ambient Air Quality Standards from being exceeded and the basis for the estimate.

(vii) Include data and results of objective reliability tests. "Reliability," as the term is applied here, refers to the ability of the supplementary control system to protect against violations of the National Ambient Air Quality Standards.

(viii) Demonstrate that the supplementary control system and other measures expected to be employed after the date specified in subparagraph (e) (14) (i) (b) (6) of this section will result in attainment and maintenance of National Ambient Air Quality Standards.

(11) The owner or operator of the smelter subject to this paragraph shall submit to the Administrator an operational manual for the supplementary control system. Such manual shall be submitted no later than the date specified in subparagraph (e) (14) (i) (b) (6) of this section and is subject to the approval of the Administrator as satisfying the specific requirements of this subparagraph. Such approval shall not relieve the owner or operator of the smelter subject to this paragraph from its assumed liability for violations of any National Ambient Air Quality Standards for sulfur oxides in the designated liability area. Prior to making his final decision, the Administrator shall, after reasonable notice, provide an opportunity of not less than forty-five (45) days for public inspection and comment upon the manual. Such manual shall:

(i) Specify the number, type, and location of ambient air quality monitors, instack monitors and meteorological instruments to be used.

(ii) Describe techniques, methods, and criteria to be used to anticipate the onset of meteorological situations associated with ground-level concentrations in excess of National Ambient Air Quality Standards and to systematically evaluate and, as needed, improve the reliability of the supplementary control system.

(iii) Describe the criteria and procedures that will be used to determine the degree of emission control needed for each class of meteorological and air quality situations.

(iv) Specify maximum emission rates which may prevail during all probable meteorological and air quality situations, which rates shall be such that National Ambient Air Quality Standards will not be exceeded in the designated liability area. Such emission rates shall be determined by in-stack monitors. Data from such monitors shall be the basis for determining whether the emission rate provisions of the approved operational manual are adhered to.

(v) Describe specific actions that will be taken to curtail emissions when various meteorological conditions described in paragraph (e) (11) (ii) of this section exist or are predicted and/or when specified air quality levels occur.

(vi) Identify the company personnel responsible for initiating and supervising the actions that will be taken to curtail emissions. Such personnel must be responsible, knowledgeable and able to apprise the Administrator of the status of the supplementary control system at any time the source is operating.

(vii) Be modified only if approval by the Administrator is first obtained.

(12) The owner or operator of the smelter subject to this paragraph shall:

(i) Maintain, in a usable manner, records of all measurements and reports prepared as part of the supplementary control system described in the approved operational manual. Such records shall be retained for at least two years.

(ii) Submit, on a monthly basis, the hour by hour measurements made of air quality, emissions and meteorological parameters, and all other measurements made on a periodic basis, as part of the approved supplementary control system.

(iii) Submit a monthly summary indicating all places, dates, and times when National Ambient Air Quality Standards for sulfur oxides were exceeded and the concentrations of sulfur dioxide at such times.

(iv) Notify the Administrator of any violation of National Ambient Air Quality Standards within 24 hours of the occurrence of such violation.

(v) Submit a monthly summary report describing and analyzing how the supplementary control system was operated as related to the approved operations manual and how the system will be improved, if necessary, to prevent violations of the National Ambient Air Quality Standards for sulfur oxides or to prevent any other conditions which are not in accordance with the approved operational manual.

(13) (i) The owner or operator of the smelter subject to this paragraph shall participate in a research program to develop and apply constant emission reduction technology adequate to attain and maintain the national standards. Such program shall be carried out in accordance with the plan submitted pursuant to subparagraph (e) (3) (i) (f) of this section.

(ii) The owner or operator of the smelter subject to this paragraph shall submit annual reports on the progress of the research and development program required by subparagraph (e) (13) (i) of this section. Each report shall also include, but not be limited to, a description of the projects underway, information on the qualifications of the personnel involved, information on the funds and personnel that have been committed, and an estimated date for the installation of the constant emission reduction technology necessary to attain and maintain the National Ambient Air Quality Standards.

(14) (i) The owner or operator of the smelter subject to this paragraph shall comply with the compliance schedules specified below.

(a) Compliance schedule for meeting the emission reduction requirements of subparagraph (e) (4) of this section:

(1) No later than thirty (30) days after the date of approval to meet the requirements of this paragraph—submit a final plan and schedule to the Administrator for meeting the requirements of subparagraph (4) of this paragraph.

(2) No later than thirty (30) days after the date of approval to meet the requirements of this paragraph—let contracts or issue purchase order for emission control systems or process modifications or provide evidence that such contracts have been let.

(3) July 1, 1975. Initiate on-site construction or installation of emission control equipment or process change.

(4) July 1, 1976. Complete on-site construction or installation of constant emission control equipment or process change.

(5) January 1, 1977. Achieve final compliance with the requirements of subparagraph (4) of this paragraph.

(b) Compliance schedule for implementing a supplementary control system or other measures which meet the requirements of subparagraphs (e) (7), (9), (10), and (11) of this section.

(1) No later than sixty (60) days after approval to meet the requirements of this paragraph—submit to the Administrator a detailed schedule for establishment and implementation of the supplementary control system and other measures in accordance with subparagraph (e) (9) of this section.

(2) No later than ninety (90) days after approval to meet the requirements of this paragraph—let contracts or issue purchase orders, or provide evidence that such contracts have been let, for ambient air quality monitors, meteorological instruments, and other component parts necessary to establish a supplementary control system.

(3) No later than ninety (90) days after approval to meet the requirements of this paragraph—let contracts or issue purchase orders, or provide evidence that such contracts have been let, for any stack extensions or modifications of equipment approved pursuant to subparagraph (e) (3) of this section.

(4) November 1, 1975. Complete installation of air quality and emission monitors and meteorological equipment.

(5) January 1, 1976. Complete installation of any stack extensions or modifications of equipment approved pursuant to subparagraph (3) of this paragraph.

(6) May 1, 1976. Submit to the Administrator the comprehensive report on the supplementary control system required by subparagraph (e) (10) of this section, and submit to the Administrator for his approval the operational manual required by subparagraph (e) (11) of this section.

(7) January 1, 1977. The National Ambient Air Quality Standards for sulfur dioxide shall not be violated in the designated liability area.

(ii) Any owner or operator subject to the requirements of this subparagraph shall certify to the Administrator within five (5) days after the deadline for each increment of progress whether or not the required increment of progress has been met.

(iii) Notice must be given to the Administrator at least ten (10) days prior to conducting a performance test to afford him the opportunity to have an observer present.

(iv) If the source subject to this paragraph is presently in compliance with any of the increments of progress set forth in this subparagraph, the owner or operator of such source shall certify such compliance to the Administrator within thirty (30) days of the effective date of this paragraph. The Administrator may request whatever supporting information he considers necessary to determine the validity of the certification.

(v) The owner or operator of the smelter subject to this paragraph may submit to the Administrator proposed alternative compliance schedules. Each such proposed compliance schedule shall be submitted with the application submitted pursuant to subparagraph (e) (3) (i) of this section. No such compliance schedule may provide for final compliance after January 1, 1977. If approved by the Administrator, such schedule shall replace the compliance schedule set forth in this subparagraph.

(vi) Any such compliance schedule submitted to the Administrator shall provide for increments of progress toward compliance. The dates for achievement of such increments of progress shall be specified. Increments of progress shall include, but not be limited to, the increments specified in the appropriate compliance schedule set forth in subparagraphs (e) (14) (i) (a) and (b) of this section.

(15) (i) The Administrator shall annually review the supplementary control system and shall deny continued use of the supplementary control system if he determines that:

(a) The review indicates that constant emission control technology has become available or that other factors which may bear on the conditions for use of a supplementary control system have changed to the extent that continued use of the supplementary control system would no longer be deemed approvable within the intent of subparagraph (e) (3) of this section; or

(b) The source owner or operator has not demonstrated good faith efforts to follow the stated program for developing constant emission reduction procedures; or

(c) The source owner or operator has not developed and employed a control program that is effective in preventing violations of National Ambient Air Quality Standards.

(ii) Prior to denying the continued use of a supplementary control system pursuant to subparagraph (e) (15) (i) of this section, the Administrator shall notify the owner or operator of the smelter subject to this paragraph of his intent to deny such continued use, together with:

(a) The information and findings on which such intended denial is based.

(b) Notice of opportunity for such owner or operator to present, within thirty (30) days, additional information or arguments to the Administrator prior to his final determination.

(iii) The Administrator shall notify the owner or operator of the smelter subject to this paragraph of his final determination within thirty (30) days after the presentation of additional information or arguments, or thirty (30) days after the final date specified for such presentation if no presentation is made. If the continued use of the supplementary control system is denied, the final determination shall set forth the specific grounds for such denial.

(16) Upon denial of the continued use of a supplementary control system pursuant to subparagraph (e) (15) of this section all the requirements of paragraph (d) of this section shall be immediately applicable to the owner or operator of the Kennecott Copper Company smelter located in White Pine County, Nevada, in the Nevada Intrastate Region and compliance therewith shall be achieved in accordance with such schedule as the Administrator shall order.

(17) The owner or operator of the smelter subject to this paragraph shall be in violation of a requirement of an applicable implementation plan and subject to the penalties specified in Section 113 of the Clean Air Act if:

(i) an increment of the compliance schedules set forth in subparagraph (14) is not met by the date specified; or

(ii) the total sulfur dioxide concentration determined according to subparagraph (e) (6) (i) or (iii) of this section exceeds the emission limitation set forth in subparagraph (e) (4) (i) (a) of this section; or

(iii) the total sulfur dioxide emission rate determined according to subparagraph (e) (6) (ii) or (iv) of this section exceeds the emission limitation set forth in subparagraph (e) (4) (i) (b) of this section; or

(iv) any National Ambient Air Quality Standards for sulfur oxides are violated in the designated liability area; or

(v) operations of the supplementary control system are not conducted in accordance with the approved operational manual; or

(vi) such owner or operator fails to submit any of the information required by this paragraph.

§ 52.1480 [Amended]

3. In § 52.1480, footnote (b) beneath the table setting forth dates of attainment of national standards is amended to read as follows:

"b: July 1977, except that in the event the source subject to § 52.1475(d) is granted permission to comply with § 52.1475(e) the attainment date for the national primary and secondary standards shall be January 1, 1977."

4. In § 52.1480, the letter "a" indicating the date for attainment of the National Primary Ambient Air Quality Standards for sulfur dioxide in the Nevada Intrastate Air Quality Control Region is amended to read "b".

5. Section 52.1481 is revised to read as follows:

§ 52.1481 Extensions.

The Administrator hereby extends to July 31, 1977, the attainment date for the primary standards of sulfur oxides in the Nevada Intrastate Air Quality Control Region. In the event that the source subject to § 52.1475(d) is granted permission to comply with § 52.1475(e) the attainment date for the primary standards for sulfur oxides in the Nevada Intrastate Air Quality Control Region shall be extended only to January 1, 1977.

APPENDICES B AND C [RESERVED]

6. Appendices B and C to Part 52 are reserved. Appendices D and E are added to Part 52 as follows:

APPENDIX D—DETERMINATION OF SULFUR DIOXIDE EMISSIONS FROM STATIONARY SOURCES BY CONTINUOUS MONITORS

1. *Definitions.*

1.1 *Concentration Measurement System.* The total equipment required for the continuous determination of SO_2 gas concentration in a given source effluent.

1.2 *Span.* The value of sulfur dioxide concentration at which the measurement system is set to produce the maximum data display output. For the purposes of this method, the span shall be set at the expected maximum sulfur dioxide concentration except as specified under section 5.2, Field Test for Accuracy.

1.3 *Accuracy (Relative).* The degree of correctness with which the measurement system yields the value of gas concentration of a sample relative to the value given by a defined reference method. This accuracy is expressed in terms of error which is the difference between the paired concentration measurements expressed as a percentage of the mean reference value.

1.4 *Calibration Error.* The difference between the pollutant concentration indicated by the measurement system and the known concentration of the test gas mixture.

1.5 *Zero Drift.* The change in measurement system output over a stated period of time of normal continuous operation when the pollutant concentration at the time for the measurement is zero.

1.6 *Calibration Drift.* The change in measurement system output over a stated period of time of normal continuous operation when the pollutant concentration at the time of the measurement is the same known upscale value.

1.7 *Response Time.* The time interval from a step change in pollutant concentration at the input to the measurement system to the time at which 95 percent of the corresponding final value is reached as displayed on the measurement system data presentation device.

1.8 *Operational Period.* A minimum period of time over which a measurement system is

XUM V40126 FEB 6 75 XUM

expected to operate within certain performance specifications without unscheduled maintenance, repair or adjustment.

1.9 *Reference Method.* The reference method for determination of SO_2 emissions shall be Method 8 as delineated in Part 60 of this chapter. The analytical and computational portions of Method 8 as they relate to determination of sulfuric acid mist and sulfur trioxide, as well as isokinetic sampling, may be omitted from the overall test procedure.

2. *Principle and Applicability.*

2.1 *Principle.* Gases are continuously sampled in the stack emissions and analyzed for sulfur dioxide by a continuously operating emission measurement system. Performance specifications for the continuous measurement systems are given. Test procedures are given to determine the capability of the measurement systems to conform to the performance specifications. Sampling may include either the extractive or nonextractive (in-situ) approach.

2.2 *Applicability.* The performance specifications are given for continuous sulfur dioxide measurement systems applied to nonferrous smelters.

3. *Apparatus.*

3.1 *Calibration Gas Mixture.* Mixture of a known concentration of sulfur dioxide in oxygen-free nitrogen. Nominal volumetric concentrations of 50 percent and 90 percent of span are recommended. The mixture of 90 percent of span is to be used to set and to check the span and is referred to as the span gas. The gas mixtures shall be analyzed by the Reference Method at least two weeks prior to use or demonstrated to be accurate and stable by an alternate method subject to approval of the Administrator.

3.2 *Zero Gas.* A gas containing less than 1 ppm sulfur dioxide.

3.3 Equipment for measurement of sulfur dioxide concentration using the Reference Method.

3.4 *Chart Record.* Analog chart recorder, input voltage range compatible with analyzer system output.

3.5 Continuous measurement system for sulfur dioxide.

4. *Measurement System Performance Specifications.*

The following performance specifications shall be met in order that a measurement system shall be considered acceptable under this method.

TABLE I.—*Performance specifications*

Parameter: [a]	Specification
1. Accuracy [a]	≤20 percent of reference mean value.
2. Calibration Error [a]	≤5 percent of each (50%, and 30%) calibration gas mixture.
3. Zero Drift (2-hours) [a]	≤2 percent of emission standard.
4. Zero Drift (24-hours) [a]	≤4 percent of emission standard.
5. Calibration Draft (2-hours) [a]	≤2 percent of emission standard.
6. Calibration Drift (24-hours) [a]	≤5 percent of emission standard.
7. Response Time	15 minutes maximum.
8. Operational Period	168 hours minimum.

[a] Expressed as sum of absolute mean value plus 95 percent confidence interval of a series of tests.

5. *Performance Specification Test Procedures.*

The following test procedures shall be used to determine compliance with the requirements of paragraph 4:

5.1 Calibration test.

5.1.1 Analyze each calibration gas mixture (50 percent, 90 percent) for sulfur dioxide by the Reference method and record the results on the example sheet shown in Figure D-1. This step may be omitted for nonextractive monitors where dynamic calibration gas mixtures are not used (see 5.1.2).

5.1.2 Set up and calibrate the complete measurement system according to the manufacturer's written instructions. This may be accomplished either in the laboratory or in the field. Make a series of five nonconsecutive readings with span gas mixtures alternately at each concentration (example, 50 percent, 90 percent, 50 percent, 90 percent, 50 percent). For nonextractive measurement systems, this test may be performed using procedures specified by the manufacturer and two or more calibration gases whose concentrations are certified by the manufacturer and differ by a factor of two or more. Convert the measurement system output readings to ppm and record the results on the example sheet shown in Figure D-2.

5.2 *Field Test for Accuracy (Relative), Zero Drift and Calibration Drift.* Install and operate the measurement system in accordance with the manufacturer's written instructions and drawings as follows:

5.2.1 *Conditioning Period.* Offset the zero setting at least 10 percent of span so that negative zero drift may be quantified. Operate the system for an initial 168-hour conditioning period. During this period the system should measure the SO_2 content of the effluent in a normal operational manner.

5.2.2 *Operational Test Period.* Operate the system for an additional 168-hour period. The system shall be monitoring the source effluent at all times when not being zeroed, calibrated or backpurged.

5.2.2.1 *Field Test for Accuracy (Relative).* The analyzer output for the following test shall be maintained between 20 percent and 90 percent of span. It is recommended that a calibrated gas mixture be used to verify the span setting utilized. During this 168-hour test period, make a minimum of nine (9) SO_2 concentration measurements using the Reference Method with a sampling period of one hour. If a measurement system operates across the stack or a portion of it, the Reference Method test shall make a four-point traverse over the measurement system operating path. Isokinetic sampling and analysis for SO_2 and H_2SO_4 mist are not required. For measurement systems employing extractive sampling, place the measurement system and the Reference Method probe tips adjacent to each other in the duct. One test will consist of two simultaneous samples with not less than two analyses on each sample. Record the test data and measurement system concentrations on the example sheet shown in Figure D-3.

5.2.2.2 *Field Test for Zero Drift and Calibration Drift.* Determine the values given by zero and span gas SO_2 concentrations at 2-hour intervals until 15 sets of data are obtained. Alternatively, for nonextractive measurement systems, determine the values given by an electrically or mechanically produced zero condition, and by inserting a certified calibration gas concentration equivalent to not less than 20 percent of span, into the measurement system. Record these readings on the example sheet shown in Figure D-4. These 2-hour periods need not be consecutive but may not overlap. If the analyzer span is set at the expected maximum concentration for the tests performed under 5.2.2, then the zero and span determinations to be made under this paragraph may be made concurrent with the tests under 5.2.2.1. Zero and calibration corrections and adjustments are allowed only at 24-hour intervals (except as required under 5.2.2) or at such shorter intervals as the manufacturer's written instructions specify. Automatic corrections made by the measurement system without operator intervention or initiation are allowable at any time. During the entire 168-hour test period, record the values given by zero and span gas SO_2 concentrations before and after adjustment at 24-hour intervals in the example sheet shown in Figure D-5.

5.3 Field Test for Response Time.

5.3.1 This test shall be accomplished using the entire measurement system as installed including sample transport lines if used. Flow rates, line diameters, pumping rates, pressures (do not allow the pressurized calibration gas to change the normal operating pressure in the sample line), etc., shall be at the nominal values for normal operation as specified in the manufacturer's written instructions. In the case of cyclic analyzers, the response time test shall include one cycle.

5.3.2 Introduce a zero concentration of SO_2 into the measurement system sampling interface as or as close to the sampling interface as possible. When the system output reading has stabilized, switch quickly to a known concentration of SO_2 at 70 to 90 percent of span. Record the time from concentration switching to final stable response. After the system response has stabilized at the upper level, switch quickly to a zero concentration of SO_2. Record the time from concentration switching to final stable response. Alternatively, for nonextractive monitors, a calibration gas concentration equivalent to 20 percent of span or more may be switched into and out of the sample path and response times recorded. Perform this test sequence three (3) times. For each test record the results on the example sheet shown in Figure D-6.

6. *Calculations, Data Analysis and Reporting.*

6.1 Procedure for determination of mean values and confidence intervals.

6.1.1 The mean value of a data set is calculated according to equation D-1.

$$\bar{x} = \frac{\sum_{i=1}^{n} x_i}{n} \qquad \text{Equation D-1}$$

where:

x_i = individual values.
Σ = sum of the individual values.
$\bar{x}$ = mean value.
n = number of data points.

6.1.2 The 95 percent confidence interval (two-sided) is calculated according to equation D-2.

$$\text{C.I.}_{95} = \frac{t_{.975}}{n\sqrt{n-1}} \sqrt{n(\Sigma x_i^2) - (\Sigma x_i)^2} \qquad \text{Equation D-2}$$

where:

Σx_i = sum of all data points.
$t_{.975}$ = $t_{1-\alpha/2}$, and
C.I.$_{95}$ = 95 percent confidence interval estimated of the average mean value.

Typical values for $t_{.975}$

n	$t_{.975}$	n	$t_{.975}$	n	$t_{.975}$
2	12.706	7	2.447	12	2.201
3	4.303	8	2.365	13	2.179
4	3.182	9	2.306	14	2.160
5	2.776	10	2.262	15	2.145
6	2.571	11	2.228	16	2.131

The values in this table are already corrected for n-1 degrees of freedom. Use n *equal to the number of samples* as data points.

6.2 Data Analysis and Reporting.

6.2.1 *Accuracy (Relative).* For each of the nine reference method testing periods, determine the average sulfur dioxide concentration reported by the continuous measurement system. These average concentrations shall be determined from the measurement system data recorded under 5.2.2.1 by integrating the pollutant concentrations over each of the time intervals concurrent with each reference method test, then dividing by the cumulative time of each applicable reference method testing period. Before proceeding to the next step, determine the basis (wet or dry) of the measurement system data and reference method test data concentrations.

If the bases are not consistent, apply a moisture correction to either the referenced method concentrations or the measurement system concentrations, as appropriate. Determine the correction factor by moisture tests concurrent with the reference method testing periods. Report the moisture test method and the correction procedure employed. For each of the nine test runs, subtract the Reference Method test concentrations from the continuous monitoring system average concentrations. Using these data, compute the mean difference and the 95 percent confidence interval using equations D-1 and D-2. Accuracy is reported as the sum of the absolute value of the mean difference and the 95 percent confidence interval expressed as a percentage of the mean reference method value. Use the example sheet shown in Figure D-3.

6.2.2 *Calibration Error.* Using the data from Section 5.1 of this Appendix, subtract the measured SO_2 value determined under 5.1.1 (Figure D-1) from the value shown by the measurement system for each of the 5 readings at each concentration measured under 5.1.2 (Figure D-2). Calculate the mean of these difference values and the 95 percent confidence intervals according to equations D-1 and D-2. The calibration error is reported as the sum of absolute value of the mean difference and the 95 percent confidence interval as a percentage of each respective calibration gas concentration. Use example sheet shown in Figure D-2.

6.2.3 *Zero Drift (2-hour).* Using the zero concentration values measured each two hours during the field test, calculate the differences between *consecutive* two-hour readings expressed in ppm. Calculate the mean difference and the confidence interval using Equations D-1 and D-2. Report the zero drift as the sum of the absolute mean value and the confidence interval as a percentage of the emission standard. Use example sheet shown in Figure D-4.

6.2.4 *Zero Drift (24-hour).* Using the zero concentration values measured every 24 hours during the field test, calculate the differences between the zero point after zero adjustment and the zero value 24 hours later just prior to zero adjustment. Calculate the mean value of these points and the confidence interval using Equations D-1 and D-2. Report the zero drift as the sum of the absolute mean and confidence interval as a percentage of the emission standard. Use example sheet shown in Figure D-5.

6.2.5 *Calibration Drift (2-hour).* Using the calibration values obtained at two-hour intervals during the field test, calculate the differences between *consecutive* two-hour readings expressed as ppm. These values should be corrected for the corresponding zero drift during that two-hour period. Calculate the mean and confidence interval of these corrected difference values using Equations D-1 and D-2. Do not use the differences between non-consecutive readings. Report the calibration drift as the sum of the absolute mean and confidence interval as a percentage of the emission standard. Use the example sheet shown in Figure D-4.

6.2.6 *Calibration Drift (24-hour).* Using the calibration values measured every 24 hours during the field test, calculate the differences between the calibration concentration reading after zero and calibration adjustment and the calibration concentration reading 24 hours later after zero adjustment but before calibration adjustment. Calculate the mean value of these differences and the confidence interval using equations D-1 and D-2. Report the sum of the absolute mean and confidence interval as a percentage of the emission standard. Use the example sheet shown in Figure D-5.

6.2.7 *Response Time.* Using the charts from section 5.3 of this Appendix, calculate the time interval from concentration switching to 95 percent to the final stable value for all upscale and downscale tests. Report the mean of the three upscale test times and the mean of the three downscale test times. For nonextractive instruments using a calibration gas cell to determine response time, the observed times shall be extrapolated to 90 percent of full scale response time. For example, if the observed time for a 20 percent of span gas cell is one minute, this would be equivalent to a 4½-minute response time when extrapolated to 90 percent of span. The two average times should not differ by more than 15 percent of the slower time. Report the slower time as the system response time. Use the example sheet shown in Figure D-6.

6.2.8 *Operational Period.* During the 168-hour performance and operational test period, the measurement system shall not require any corrective maintenance, repair, replacement, or adjustment other than that clearly specified as required in the operation and maintenance manuals as routine and expected during a one-week period. If the measurement system operates within the specified performance parameters and does not require corrective maintenance, repair, replacement or adjustment other than specified above, during the 168-hour test period, the operational period will be successfully concluded. Failure of the measurement to meet this requirement shall call for a repetition of the 168-hour test period. Portions of the test which were satisfactorily completed need not be repeated. Failure to meet any performance specifications shall call for a repetition of the one-week performance test period and that portion of the testing which is related to the failed specification. All maintenance and adjustments required shall be recorded. Output readings shall be recorded before and after all adjustments.

6.2.9 *Performance Specification Testing Frequency.* In the event that significant repair work is performed in the system, the company shall demonstrate to the Administrator that the system still meets the performance specifications listed in Table I of this appendix. The Administrator may require a performance test at any time he determines that such test is necessary to verify the performance of the measurement system.

APPENDIX E—PERFORMANCE SPECIFICATIONS AND SPECIFICATION TEST PROCEDURES FOR MONITORING SYSTEMS FOR EFFLUENT STREAM GAS VOLUMETRIC FLOW RATE

1. *Principle and applicability.*

1.1 *Principle.* Effluent stream gas volumetric flow rates are sampled and analyzed by a continuous measurement system. To verify the measurement system performance, values obtained from the measurement system are compared against simultaneous values obtained using the reference method. These comparison tests will be performed to determine the relative accuracy, and drift of the measurement system over the range of operating conditions expected to occur during normal operation of the source. If the measurement system is such that the specified tests in section 5.1 for drift do not apply, those test procedures shall be disregarded.

1.2 *Applicability.* This method is applicable to subparts which require continuous gas volumetric flow rate measurement. Specifications are given in terms of performance. Test procedures are given for determining compliance with performance specifications.

2. *Apparatus.*

2.1 Continuous measurement system for determining stack gas volumetric flow rate.

2.2 Equipment for measurement of stack gas volumetric flow rate as specified in the reference method.

3. *Definitions.*

3.1 *Measurement system.* The total equipment required for the determination of the gas volumetric flow rate in a duct or stack. The system consists of three major subsystems:

3.1.1 *Sampling Interface.* That portion of the measurement system that performs one or more of the following operations: Delineation, acquisition, transportation, and conditioning of a signal from the stack gas and protection of the analyzer from any hostile aspects of the source environment.

3.1.2 *Analyzer.* That portion of the measurement system which senses the stack gas flow rate or velocity pressure and generates a signal output that is a function of the flow rate or velocity of the gases.

3.1.3 *Data presentation.* That portion of the measurement system that provides a display of the output signal in terms of volumetric flow rate units, or other units which are convertible to volumetric flow rate units.

3.2 *Span.* The value of gas volumetric flow rate at which the measurement system is set to produce the maximum data display output. For the purposes of this method, the span shall be set at 1.5 times the maximum volumetric flow rate expected under varying operating conditions of the source.

3.3 *Zero drift.* The change in measurement system output over a stated period of time of normal continuous operation when gas volumetric flow rate at the time of the measurements is zero.

XUM V40-26 FEB 6 75 XUM

3.4 *Calibration drift.* The change in measurement system output over a stated time period of normal continuous operation when the gas volumetric flow rate at the time of the measurement is 67 percent of the span value.

3.5 *Operation period.* A minimum period of time over which a measurement system is expected to operate within certain performance specifications without unscheduled maintenance, repair, or adjustment.

3.6 *Orientation sensitivity.* The angular tolerance to which the sensor can be misaligned from its correct orientation to measure the flow rate vector before a specified error occurs in the indicated flow rate compared to the reference flow rate.

3.7 *Reference method.* Method 2 as delineated in 40 CFR Part 60.

4. *Measurement system performance specifications.* A measurement system must meet the performance specifications in Table E–1 to be considered acceptable under this method.

TABLE E–1

Parameter:	Specifications
Accuracy (relative)	≤10 percent of mean reference value (paragraph 6.3.1).
Zero drift (24 hours)	≤3 percent of span (paragraph 6.3.2).
Calibration drift (24 hours)	≤3 percent of span (paragraph 6.3.3).
Operational period	168 hours minimum.

5. *Test procedures.*

5.1 Field test for accuracy, zero drift, calibration drift, and operation period.

5.1.1 *System conditioning.* Set up and operate the measurement system in accordance with the manufacturer's written instructions and drawings. Offset the zero point of the chart recorder so that negative values up to 5 percent of the span value may be registered. Operate the system for an initial 168-hour conditioning period. During this initial period, the system should measure the gas stream volumetric flow rate in a normal operational manner. After completion of this conditioning period, the formal 168-hour performance and operational test period shall begin.

5.1.2 *Field test for accuracy and operational period.* During the 168-hour test period, the system should be continuously measuring gas volumetric flow rate at all times. During this period make a series of 14 volumetric flow rate determinations simultaneously using the reference method and the measurement system. The 14 determinations can be made at any time interval at least one hour apart during the 168-hour period except that at least one determination on five different days must be made with one determination on the last day of such period. The determinations shall be conducted over the range of volumetric flow rates expected to occur during normal operation of the source. The measurement system volumetric flow rate reading corresponding to the period of time during which each reference method run was made may be obtained by continuous integration of the measurement system signal over the test interval. Integration may be by use of mechanical integration of electrical units on the chart recorder or use of a planimeter on the strip chart recorder. The location and orientation of the reference method measurement device and the measurement system should be as close as practical without interference, but no closer than 1.3 cm (0.5 inch) to each other and shall be such that dilution air or other interferences cannot be interjected into the stack or duct between the pitot tube and the measurement system. Be careful not to locate the reference method pitot tube directly up or down stream of the measurement system sensor.

5.1.3 *Field test for calibration drift and zero drift.* At 24-hour intervals, but more frequently if recommended by the manufacturer, subject the measurement system to the manufacturer's specified zero and calibration procedures, if appropriate. Record the measurement system output readings before and after adjustment. Automatic corrections made by the system without operator intervention are allowable at anytime.

5.1.4 *Field test for orientation sensitivity.* If a velocity measurement system is either a single point measurement device or a pressure sensor or any other device such as pitot tube which uses the flow direction of the test gas, then the following test shall be followed and a performance specification of ±10 degrees device orientation sensitivity for ±4 percent flow rate determination accuracy must be met in order for the measurement system to be considered acceptable under this method. This is in addition to the performance specifications given in paragraph 4 of this appendix. During a period of relatively steady state gas flow, perform the following orientation test using the measurement system. The system should be continuously measuring gas velocity at all times. Rotate the measurement 10° on each side of the direction of flow in increments of 5°. Perform this test three times each at: (1) Maximum operating velocity (±15 percent); (2) 67 percent ±7.5 percent of the maximum operating velocity; and (3) 33 percent ±7.5 percent of the maximum operating velocity if (2) and (3) are normal operating practices.

6. *Calculations data analysis and reporting.*

6.1 *Procedure for determination of stack gas volumetric flow rate.* Calculate the reference stack gas velocity and corresponding stack gas volumetric flow rate with the calibrated type S pitot tube measurements by the reference method. Calculate the measurement systm stack gas volumetric flow rate as specified by the manufacturer's written instructions. Record the volumetric flow rates for each in the appropriate tables.

6.2 *Procedure for determination of mean values and 95 percent confidence intervals.*

6.2.1 *Mean value.* The mean value of a data set is calculated according to equation E–1.

EQUATION E–1

$$\bar{x}=\frac{1}{n}\sum_{i=1}^{n}x_i$$

where:

x_i = individual values.
Σ = sum of the individual values.
$\bar{x}$ = mean value.
n = data points.

6.2.2. *95 percent confidence level.* The 95 percent confidence level (two sided) is calculated according to Equation E–2.

EQUATION E–2

$$\text{C.I.}_{95}=\frac{t_{.975}}{n\sqrt{n-1}}\sqrt{n(\Sigma x_i 2)-(\Sigma x_i)^2}$$

where:

Σx_i = sum of all data points.
(Σx_i) = sum of squares of all data points.
C.I._{95} = 95 percent confidence interval estimate of the average mean value.

Values for $t_{.975}$

n	$t_{.975}$	n	$t_{.975}$	n	$t_{.975}$
2	12.706	7	2.447	12	2.201
3	4.303	8	2.365	13	2.179
4	3.182	9	2.306	14	2.160
5	2.776	10	2.262	15	2.145
6	2.571	11	2.228	16	2.131

The values in this table are already corrected for n-1 degrees of freedom. Use n equal to the number of samples as data points.

6.3 *Data analysis and reporting.*

6.3.1 *Accuracy (relative).* First, calculate the mean reference value (equation E–1) of the 14 average volumetric flow rates calculated by the reference method. Second, from the 14 pairs of average volumetric flow rates calculated by the reference method and measurement system volumetric flow rate readings, calculate the mean value (equation E–1) of the differences of the 14 paired readings. Calculate the 95 percent confidence interval (equation E–2) using the differences of fourteen paired readings. To calculate the values in the second part of this section substitute d_i for x_i and d for x in equations E–1 and E–2 where d_i equals the difference of each paired reading and d equals the mean value of the fourteen paired differences. Third, report the sum of the absolute mean value of the differences of the fourteen paired readings and the 95 percent confidence interval of the differences of value calculated in the first part of the section. Divide this total by the mean reference value and report the result as a percentage. This percentage is the relative accuracy.

6.3.2 *Zero drift (24 hour).* From the zero values measured each 24 hours during the field test, calculate the differences between successive readings expressed in volumetric flow rate units. Calculate the mean value of these differences and the confidence interval of these differences using equations E–1 and E–2. Report the sum of the absolute value of the mean difference and the confidence interval as a percentage of the measurement system span. This percentage is the zero drift.

6.3.3 *Calibration drift (24 hour).* From the calibration values measured every 24 hours during the field test calculate the differences between: (1) The calibration reading after zero and calibration adjustment, and (2) the calibration reading 24 hours later after zero adjustment but before calibration adjustment. Calculate the mean value of these differences and the confidence interval using equations E–1 and E–2. Report the sum of the absolute value of the mean difference and confidence interval as a percentage of the measurement system span. This percentage is the calibration drift.

6.3.4 *Operation period.* Other than that clearly specified as required in the operation and maintenance manual, the measurement system shall not require any corrective maintenance, repair, replacement or adjustment during the 168-hour performance and operational test period. If the measurement system operates within the specified performance parameters and does not require corrective maintenance, repair, replacement or adjustment other than as specified above during the 168-hour test period, the operational period will be successfully concluded. Failure of the measurement to meet this requirement shall call for a repetition of the 168-hour test period. Portions of the test, except for the 168-hour field test period, which were satisfactorily completed need not be repeated. Failure to meet any performance specifications shall call for a repetition of the one-week performance test period and that portion of the testing which is related to the failed specification. All maintenance and adjustments required shall be recorded.

Output readings shall be recorded before and after all adjustments.

6.3.5 *Orientation sensitivity.* In the event the conditions of paragraph 5.1.4 of this appendix are required, the following calculations shall be performed. Calculate the ratio of each measurement system reading divided by the reference pitot tube readings. Graph the ratio vs. angle of deflection on each side of center. Report the points at which the ratio differs by more than ±4 percent from unity (1.00).

§ 52.1479 [Amended]

7. In § 52.1479, paragraph (b) is revoked.

(b) [Revoked.]

[FR Doc.75–2961 Filed 2–5–75;8:45 am]

[FRL 318–8]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Maryland; Revocation of Regulation for Control of Photochemically Reactive Organic Solvents

On December 6, 1973 (38 FR 33702, 33716), and December 12, 1973 (38 FR 34240), the Administrator of the Environmental Protection Agency promulgated transportation control plans for the Maryland portion of the National Capital Interstate Air Quality Control Region and the Metropolitan Baltimore Intrastate Air Quality Control Region. These plans, which to the maximum extent reflected the preferences of the State of Maryland, included measures such as improved mass transit, emission inspection programs, and additional stationary source controls. One of the measures included in the Metropolitan Baltimore AQCR transportation plan, 40 CFR 51.1112 (Control of Organic Solvents), totally reflected the preferences of the State of Maryland.

On April 24, 1974, the State of Maryland proposed further amendments to their state implementation plan. These amendments included, but were not limited to, regulations for control of organic solvents (10.03.38.04J(1)i, 10.03.38.06G; 10.03.39.04J(1)i, 10.03.39.06G.

On April 26, 1974, the State provided certification that, after having given adequate notice to the public, hearings on these amendments had taken place on August 10, 1973, and November 30, 1973, in Baltimore, Maryland, on August 9, 1973, in Greenbelt, and on November 30, 1973, in Bethesda.

On August 29, 1974 (39 FR 31533), the Administrator announced receipt of these amendments and announced a 30 day period for public comment. A correction notice that appeared in the October 1, 1974, FEDERAL REGISTER extended the comment period for an additional 30 days (39 FR 35386).

On October 4, 1974, the State of Maryland was informed that regulations 10.03.38.06G(2) and 10.03.39.06G(2), which prevent existing sources in the Metropolitan Baltimore and Maryland portion of the National Capital AQCR currently emitting photochemically reactive solvents at the rate of greater than 550 pounds per day from increasing their emissions, would be unacceptable for the Administrator's approval. The specific objections were as follows:

1. Justification for the 550 pounds per day cutoff between regulated and unregulated sources was lacking.

2. The definition of "average daily emissions," and the base period on which the average was determined was too vague.

3. The time period over which the emissions would be measured to determine whether they are in violation or not was unclear.

On November 29, 1974, the State of Maryland requested that regulations 10.03.38.06G(2) and 10.03.39.06G(2) be withdrawn from consideration as a proposed amendment to the state implementation plan. The State agreed that the wording and intent of this regulation may be interpreted as vague and unclear. The State has also indicated that new amendments will be proposed shortly to replace the amendments being withdrawn.

The Administrator agrees with these findings and hereby rescinds 40 CFR 52.1112, the regulation which corresponds to State regulation 10.03.38.06G, as its wording and intent is similarly vague and unclear.

(42 U.S.C. 1857 c–5)

Dated: January 31, 1975.

JOHN QUARLES,
Acting Administrator.

Subpart V—Maryland

1. Section 52.1070 is amended by revising paragraph (c) as follows:

§ 52.1070 Identification of plans.

* * * * *

(c) Supplemental information was submitted on:

(1) February 25, March 3, March 7, April 4, April 28, and May 8, 1972, by the Maryland Bureau of Air Quality Control, and

(2) July 27, 1972, by the Maryland Department of Natural Resources, and

(3) April 10, May 5, June 15, June 22, June 28, July 9, July 31, 1973; and April 24 and November 29, 1974.

§ 52.1112 [Revoked]

2. Section 52.1112 is revoked.

SUBCHAPTER N—EFFLUENT GUIDELINES AND STANDARDS

[FRL 331–1]

PART 415—INORGANIC CHEMICALS MANUFACTURING POINT SOURCE CATEGORY

On August 8, 1974, the Environmental Protection Agency published a notice of proposed rulemaking (39 FR 28536) announcing its intention to amend Subpart U (Sulfuric Acid Production Subcategory) and Subpart V (Titanium Dioxide Production Subcategory) of 40 CFR Part 415 which was promulgated on March 12, 1974 (39 FR 9612). The amendments were proposed in order to define more precisely the applicability of the respective subparts.

In the case of the Sulfuric Acid Production Subcategory, the purpose of the proposed amendment to § 415.210 was to clarify the Agency's intent that the provisions of Subpart U apply to discharges of pollutants from point sources manufacturing sulfuric acid by the sulfur burning process and that they do not apply to discharges resulting from the manufacture of sulfuric acid by the sulfide burning process or to plants recovering sulfuric acid from wastes of other manufacturing processes.

In the case of the Titanium Dioxide Production Subcategory, the purpose of the proposed amendment to § 415.220 was to confine the applicability of Subpart V to discharges resulting from the manufacture of titanium dioxide by means of the chloride or sulfate processes and to exclude discharges resulting from the production of titanium dioxide by a process in which beneficiation of raw ilmenite ore and chlorination are inseparably combined.

Interested persons were afforded 30 days in which to submit comments, suggestions, or objections to the proposed amendments. No written objections have been received. Accordingly, the proposed amendments are adopted without change. Pursuant to Section 301, 304(b) and 501 (a) of the Federal Water Pollution Control Act, 86 Stat. 816, Pub. L. 92–500 (33 U.S.C. 1215, 1311, 1314(b), 1361(a)), 40 CFR, Chapter I, Subchapter N is hereby amended as set forth below. The revisions shall become effective March 10, 1975.

Dated: January 31, 1975.

JOHN QUARLES,
Acting Administrator.

Section 415.210 is amended to read as follows:

§ 415.210 Applicability; description of the sulfuric acid production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of sulfuric acid by the sulfur burning contact process in both single and double adsorption plants. The provisions of this subpart are not applicable to discharges from plants burning sulfides, or recovering sulfuric acid from waste streams of other processes such as oil refining or metallurgical operation.

Section 415.220 is amended to read as follows:

§ 415.220 Applicability; description of the titanium dioxide production subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of titanium dioxide by the sulfate process and by the chloride process. The provisions of this subpart are not applicable to the wastes resulting

XUM V40-26 FEB 6 75 XUM

from discharges from produtcion by processes in which beneficiation of raw ilmenite ore and chlorination are inseparably combined in the same process step.

[FR Doc.75-3450 Filed 2-5-75;8:45 am]

[FRL 326-6]

SUBCHAPTER C AIR PROGRAMS

PART 85—CONTROL OF AIR POLLUTION FROM NEW MOTOR VEHICLES AND NEW MOTOR VEHICLE ENGINES

Technical Amendments, Corrections

On June 20, 1973 (38 FR 16062), the Environmental Protection Agency published in the FEDERAL REGISTER a series of amendments to the motor vehicle air pollution control regulations. On June 28, 1973 (38 FR 17133), the regulations were reprinted in their entirety. The June 28 publication inadvertently negated the amendments published on June 20. In addition, similar errors of omission have been discovered in the regulations applicable to light duty diesel-powered vehicles and light duty trucks, as well as in other sections of the regulations.

These technical amendments are issued to become effective immediately February 6, 1975, as without exception they reflect existing operating procedures in effect since the beginning of the 1975 model year certification program.

Part 85 of Chapter I, Title 40 of the Code of Federal Regulations as applicable beginning with the 1975 model year is amended as follows, effective February 6, 1975.

The provisions of this Part 85 are issued under sections 202, 206, and 301(a) of the Clean Air Act, as amended (42 U.S.C. 1857f-1, 1857f-5, and 1857g(a)).

Dated: January 31, 1975.

JOHN QUARLES,
Acting Administrator.

1. In § 85.075-2, paragraph (a) is revised. As revised, the section reads as follows:

§ 85.075-2 Application for certification.

(a) An application for a certificate of conformity shall be made for each set of standards applicable to new motor vehicles. Such application shall be made to the Administrator by the manufacturer and shall be updated and corrected by amendment.

* * * * *

2. In § 85.075-5, paragraph (a) is amended as follows:

§ 85.075-5 Test vehicles.

(a)(1) The vehicles covered by the application for certification will be divided into groupings of vehicles whose engines are expected to have similar emission characteristics throughout their useful life. Each group of engines with similar emission characteristics shall be defined as a separate engine family.

(2) To be classed in the same engine family, engines must be identical in all of the following respects:

* * * * *

(viii) Catalytic converter characteristics.

(ix) Thermal reactor characteristics.

* * * * *

3. In § 85.075-28, paragraph (a) is amended as follows:

§ 85.075-28 Compliance with emission standards.

(a) The applicable exhaust and fuel evaporative emission standards in § 85.075-1 apply to the emissions of vehicles for their useful life.

* * * * *

4. In § 85.075-30, paragraph (a)(3) is added and paragraph (b)(2) is revised as follows:

§ 85.075-30 Certification.

(a) * * *

(3) One such certificate will be issued for each engine family and will certify compliance with no more than one set of applicable standards.

(b) * * *

(2) The Administrator will proceed as in paragraph (a) of this section with respect to the vehicles belonging to an engine family all of which comply with one set of applicable standards.

* * * * *

5. In § 85.075-35, paragraph (a)(4)(v) is revised as follows:

§ 85.075-35 Labeling.

(a) * * *

(4) * * *

(v) The statement: "This Vehicle Conforms to U.S.E.P.A. Regulations Applicable to 1975 Model Year New Motor Vehicles" or "This Vehicle Conforms to U.S.E.P.A. Regulations Applicable to 1975 Model Year New Motor Vehicles, with the exception of the carbon monoxide standard for California," whichever is applicable.

* * * * *

6. In § 85.175-2, paragraph (a) is revised as follows:

§ 85.175-2 Application for certification.

(a) An application for a certificate of conformity shall be made for each set of standards applicable to new motor vehicles. Such application shall be made to the Administrator by the manufacturer and shall be updated and corrected by amendment.

* * * * *

7. In § 85.175-28, paragraph (a) is revised as follows:

§ 85.175-28 Compliance with emission standards.

(a) The applicable exhaust and fuel evaporative emission standards in § 85.175-1 apply to the emissions of vehicles for their useful life.

* * * * *

8. In § 85.175-30, paragraph (a)(3) is added and paragraph (b)(2) is revised as follows:

§ 85.175-30 Certification.

(a) * * *

(3) One such certificate will be issued for each engine family and will certify compliance with no more than one set of applicable standards.

(b) * * *

(2) The Administrator will proceed as in paragraph (a) of this section with respect to the vehicles belonging to an engine family all of which comply with one set of applicable standards.

* * * * *

9. In § 85.175-35, paragraph (a)(4)(v) is revised as follows:

§ 85.175-35 Labeling.

(a) * * *

(4) * * *

(v) The statement: "This Vehicle Conforms to U.S.E.P.A. Regulations Applicable to 1975 Model Year New Motor Vehicles" or "This Vehicle Conforms to U.S.E.P.A. Regulations Applicable to 1975 Model Year New Motor Vehicles, with the exception of the carbon monoxide standard for California," whichever is applicable.

* * * * *

10. In § 85.275-5, paragraph (a) is amended as follows:

§ 85.275-5 Test vehicles.

(a)(1) The vehicles covered by the application for certification will be divided into groupings of vehicles whose engines are expected to have similar emission characteristics throughout their useful life. Each group of engines with similar emission characteristics shall be defined as a separate engine family.

(2) To be classed in the same engine family, engines must be identical in all the following respects:

* * * * *

(viii) Catalytic convertor characteristics.

(ix) Thermal reactor characteristics.

* * * * *

11. In § 85.077-30, paragraphs (a)(3), (4) and (5) are numbered incorrectly. In addition, paragraph (a)(3) was inadvertenly deleted. As corrected, paragraph (a) reads as follows:

§ 85.077-30 Certification.

(a) * * *

(3) One such certificate will be issued for each engine family and will certify compliance with no more than one set of applicable standards.

(4) A violation of section 203(a)(1) of the Clean Air Act occurs when any manufacturer sells, offers for sale, or delivers for introduction into commerce at high altitude locations any motor vehicle subject to the regulations under the Act which is not covered by a certificate of conformity issued under this subpart, unless such manufacturer has substantial reason to believe that such motor vehicle will not be sold to an ultimate purchaser for use at a high altitude location.

(5) For the purpose of paragraph (a)(4) "high altitude location" means the intended location of registration, licensing, or titling of such motor vehicle by the ultimate purchaser, such location identified by name and altitude.

(6) For the purpose of paragraph (a)(4) determination of "high altitude location" shall rest with the U.S. Geological Survey, as published in that Agency's 1:250,000 scale series of topographic maps for the United States.

* * * * *

12. In § 85.077-38, paragraphs (a)(3) and (4) are numbered incorrectly. In addition, paragraph (a)(3) was inadvertently deleted. As corrected, paragraph (a) reads as follows:

§ 85.077-38 Maintenance instructions.

(a) * * *

(3) Such instructions shall specify the performance of all scheduled maintenance performed by the manufacturer under § 85.077-6(a) and shall explain the conditions under which EGR system and catalytic converter maintenance is to be performed (e.g., what type of warning device is being employed and whether the device is activated by component failure or the need for periodic maintenance).

(4) Such instructions shall indicate, for vehicles to be sold to ultimate purchasers at low altitude, what adjustments or modifications, if any, are necessary to allow the vehicle to meet emissions standards at high altitude. The maintenance instructions shall, if applicable, include a statement that the vehicle's emission control system was not designed for conversion to allow the vehicle to meet emissions standards when operated at high altitude.

(5) Such instructions shall indicate, for vehicles to be sold to ultimate purchasers at high altitude, what adjustments or modifications, if any, are necessary to allow the vehicle to meet emissions standards at low altitude. The maintenance instructions shall, if applicable, include a statement that the vehicle's emission control system was not designed for conversion to allow the vehicle to meet emissions standards when operated at low altitude.

* * * * *

13. In § 85.177-30, paragraphs (a)(3), (4) and (5) are numbered incorrectly. In addition, paragraph (a)(3) was inadvertently omitted. As corrected, paragraph (a) reads as follows:

§ 85.177-30 Certification.

(a) * * *

(3) One such certificate will be issued for each engine family and will certify compliance with no more than one set of applicable standards.

(4) A violation of section 203(a)(1) of the Clean Air Act occurs when any manufacturer sells, offers for sale, or delivers for introduction into commerce at high altitude locations any motor vehicle subject to the regulations under the Act which is not covered by a certificate of conformity issued under this subpart, unless such manufacturer has substantial reason to believe that such motor vehicle will not be sold to an ultimate purchaser for use at a high altitude location.

(5) For the purpose of paragraph (a)(4) "high altitude location" means the intended location of registration, licensing, or titling of such motor vehicle by the ultimate purchaser, such location identified by name and altitude.

(6) For the purpose of paragraph (a)(4) determination of "high altitude location" shall rest with the U.S. Geological Survey, as published in that Agency's 1:250,000 scale series of topographic maps for the United States.

* * * * *

14. In § 85.277-38, paragraphs (a)(3), (a)(4) and (b) are numbered incorrectly. In addition, paragraph (a)(3) was inadvertently deleted. As corrected, § 85.277-38 reads as follows:

§ 85.277-38 Maintenance instructions.

(a) * * *

(3) Such instructions shall specify the performance of all scheduled maintenance performed by the manufacturer under § 85.275-6(a) and shall explain the conditions under which EGR system and catalytic converter maintenance is to be performed (e.g., what type of warning device is being employed and whether the device is activated by component failure or the need for periodic maintenance).

(4) Such instructions shall indicate, for vehicles to be sold to ultimate purchasers at low altitude, what adjustments or modifications, if any, are necessary to allow the vehicle to meet emissions standards at high altitude. The maintenance instructions shall, if applicable, include a statement that the vehicle's emission control system was not designed for conversion to allow the vehicle to meet emissions standards when operated at high altitude.

(5) Such instructions shall indicate, for vehicles to be sold to ultimate purchasers at high altitude, what adjustments or modifications if any, are necessary to allow the vehicle to meet emissions standards at low altitude. The maintenance instructions shall, if applicable, include a statement that the vehicle's emission control system was not designed for conversion to allow the vehicle to meet emission standards when operated at low altitude.

(b) The maintenance instructions required by this section shall contain a general description of the documentation which the manufacturer will require from the ultimate purchaser or any subsequent purchaser as evidence of compliance with the instructions.

* * * * *

Title 41—Public Contracts and Property Management

CHAPTER 114—DEPARTMENT OF THE INTERIOR

PART 114-30—FEDERAL CATALOG SYSTEM

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301 and Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c), Chapter 114, Title 41 of the Code of Federal Regulations, is amended as set forth below.

This amendment relates only to matters of internal Department practice. It is, therefore, determined that the public rulemaking procedure is unnecessary and this amendment shall become effective February 6, 1975.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

JANUARY 30, 1975.

Part 114-30 is added as follows:

Subpart 114-30.1—General

§ 114-30.103-2 Agency responsibilities.

(a) Each bureau and office of the Department shall:

(1) Cooperate in the conversion and utilization of the Federal Catalog System to the extent practicable and feasible without formal participation, and depend upon the General Services Administration to provide required information.

Subpart 114-30.5—Maintenance of the Federal Catalog System

§ 114-30.503 Maintenance actions required.

(a) Each bureau and office shall be responsible for submitting to the General Services Administration any GSA Form 1303 needed to request the performance of all cataloging functions and the preparation and transmission of data to DLSC when required.

(Sec. 205(c), 63 Stat. 390; (5 U.S.C. 301).

[FR Doc.75-3431 Filed 2-5-75;8:45 am]

PART 114-39—INTERAGENCY MOTOR VEHICLE POOLS

Subpart 114-39.6—Official Use of Government Motor Vehicles and Related Motor Pool Services

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301 and Sec. 205(c), 63 Stat. 390; 40 (U.S.C. 486(c)), Chapter 114, Title 41 of the Code of Federal Regulations, is amended by the addition of Subpart 114-39.6 as set forth below.

This amendment relates only to matters of internal Department practice. It is, therefore, determined that the public rulemaking procedure is unnecessary and this amendment shall become effective February 6, 1975.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

JANUARY 30, 1975.

XUM V40126 FEB 6 75 XUM

Subpart 114–39.6 is added to read as follows:

Sec.
114–39.601 General requirements.
114–39.602 Authorized use.
114–39.602–1 Government vehicles.

§ 114–39.601 General requirements.

(a) Leasing of motor vehicles. The head of each bureau and office is designated as responsible for certifying that leased vehicles larger than Type I (compact) passenger vehicles are essential to the mission of that particular bureau of office.

(1) New requirements for leased vehicles on a nationwide basis shall be submitted to the Director of Management Services (PM) for transmittal to the General Services Administration.

§ 114–39.602 Authorized use.

§ 114–39.602–1 Government vehicles.

(a) Subpart 114–38.50, Official Use of Motor Vehicles, prescribes Departmental policies and procedures governing the use of Government vehicles.

(b) The heads of bureaus and offices are responsible for compliance with FPMR 101–39.602–1(b).

(Sec. 205(c), 63 Stat. 390; (5 U.S.C. 301))

[FR Doc.75–3432 Filed 2–5–75;8:45 am]

MOTOR EQUIPMENT MANAGEMENT

Miscellaneous Amendments to Chapter

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301 and Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c), Chapter 114, Title 41 of the Code of Federal Regulations, is amended as set forth below.

This amendment relates only to matters of internal Department practice. It is, therefore, determined that the public rulemaking procedure is unnecessary and this amendment shall become effective February 6, 1975.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

JANUARY 30, 1975.

PART 114–38—MOTOR EQUIPMENT MANAGEMENT

Subpart 114–38.1—Reporting Motor Vehicle Data

Section 114–38.102–1 is revised to read as follows:

§ 114–38.102–1 Reporting period and submission.

Standard Form 82 shall be prepared as of June 30 of each year and submitted in triplicate to reach the Director of Management Services (PM) by September 1 of each year.

Subpart 114–38.4—Official Legend and Agency Identification

Section 114–38.401 paragraph (a) is revised to read as follows:

§ 114–38.402 Agency identification.

(a) Department of the Interior and Bureau or Office identification shall be displayed on motor vehicles, trailers, and motorcycles in conformance with 41 CFR 101–38.4 and 101–38.4903. Bureau emblems, or unusual legends, may not be displayed on Bureau-owned and interagency motor pool vehicles without the advance approval of the Administrator of General Services. Requests for such approval shall be referred to the Director of Management Services (PM), and should include a sample of the emblem or legend proposed to be displayed.

PART 114–39—INTERAGENCY MOTOR VEHICLE POOLS

Subpart 114–39.4—Establishment, Modification and Discontinuance of Motor Pools

Section 114–39.404–3 is revised to read as follows:

§ 114–39.404 Discontinuance or curtailment of service.

§ 114–39.404–3 Problems involving service or cost.

In any instance where problems involving motor pool service or cost arise, the affected bureau or office should bring the matter to the attention of the Chief of the motor pool prviding the vehicles for resolution. In the event a satisfactory solution does not result, full particulars should be forwarded to the Director of Management Services (PM) for consideration and possible referral to the Administrator, General Services Administration.

§ 114–39.404–4 Agency requests to withdraw participation.

Should circumstances arise at a given interagency motor pool location which tend to justify discontinuance or curtailment of participation in such motor pool by an Interior activity, the participating Bureau or Office should forward complete details concerning these circumstances to the Director of Management Services (PM) for consideration and possible referral to the Administrator, General Services Administration.

PART 114–40—TRANSPORTATION AND TRAFFIC MANAGEMENT

Subpart 114–40.3—Freight Rates, Routes, and Services

Section 114–40.307 is revised to read as follows:

§ 114–40.307 Tonnage reports.

In fulfilling the reporting requirements of 41 CFR 101–40.307, it is recognized that outbound shipments of 100 short tons or more will occur infrequently. Accordingly, a monthly report will be required only for the months in which such a shipment is made. This report, when required, shall be submitted in the form of Appendix I, in duplicate, to reach the Office of Management Services (PM) by not later than the 15th of the month following the month reported. Negative reports are not required.

PART 114–42—PROPERTY REHABILITATION SERVICES AND FACILITIES

Subpart 114–42.3—Reclamation of Precious Metals and Critical Materials

Section 114–42.302–2 is revised to read as follows:

§ 114–42.302–2 Reporting to GSA.

The annual report prescribed in 41 CFR 101–42.302–2 should be prepared in the format illustrated in section 101–42.4902 of this title, consolidated for the bureau, and submitted to the Director of Management Services (PM) by July 25 of each year.

§ 114–42.302–4 [Deleted]

Section 114–42.302–4 is deleted in its entirety.

PART 114–45—SALE, ABANDONMENT, OR DESTRUCTION OF PERSONAL PROPERTY

Subpart 114–45.3—Sale of Personal Property

Section 114–45.316 is revised to read as follows:

§ 114–45.316 Report on identical bids.

§ 114–45.316–2 Reporting requirements and procedures.

(a) The reporting requirements specified in 41 CFR 101–45.316–2 are applicable to all sales of Government-owned personal property made on a competitive basis, including program sales made pursuant to special statutes authorizing the Secretary of the Interior to sell specific items of personal property.

(b) Reports on identical bids required by 41 CFR 101–45.316–2 shall be submitted by the head of Bureaus and Offices directly to the Attorney General. A copy of the transmittal letter and a copy of the abstract of bids shall be furnished to the Director of Management Services (PM).

Section 114–45.317 paragraph (b) is revised to read as follows:

§ 114–45.317 Noncollusive bids and proposals.

* * * * *

(b) The authority to make the determinations referred to in 41 CFR 101–45.317(b) is vested in the heads of Bureaus and Offices and may not be redelegated.

* * * * *

Section 114–45.317–50 is revised to read as follows:

§ 114–45.317–50 Compliance review.

The head of each Bureau and Office engaged in programs which involve the conduct of sales of Government property shall install an appropriate monitoring system at the headquarters office level to ensure compliance with these reporting requirements and procedures.

Subpart 114–45.8—Mistakes in Bids

Subpart 114–45.8 is revised to read as follows:

§ 114–45.803 Other mistakes disclosed before award.

(a) The Director, Office of Management Services, is authorized to make the determinations contemplated by 41 CFR 101–45.803. This authority may not be redelegated.

(b) Each proposed determination shall be approved by the Solicitor, an Associate Solicitor, or comparable legal officer of the Department before it becomes effective.

(c) Where a bidder furnishes evidence in support of an alleged mistake in bid, the case shall be referred to the Director of Management Services (PM) for determination. The referral shall include the documents and data specified in 41 CFR 101–45.803(d)(3).

(d) The Office of Management Services shall maintain case file records of all administrative determinations made in accordance with 41 CFR 101–45.803. A copy of the determination shall be attached to each copy of any contract rescission or reformation resulting therefrom.

§ 114–45.804 Mistakes disclosed after award.

(a) The Director, Office of Management Services, is authorized to make the determinations contemplated by 41 CFR 101–45.804. This authority may not be redelegated.

(b) Each proposed determination shall be approved by the Solicitor, an Associate Solicitor, or comparable legal officer of the Department before it becomes effective.

(c) Where a bidder furnishes evidence in support of an alleged mistake in bid, the case shall be referred to the Director of Management Services (PM) for determination. The referral shall include the documents and data specified in 41 CFR 101–45.804(f)(2).

(d) The Office of Management Services shall maintain case file records of all administrative determinations made in accordance with 41 CFR 101–45.804. A copy of the determination shall be attached to each copy of any contract rescission or reformation resulting therefrom.

PART 114–46—UTILIZATION AND DISPOSAL OF PERSONAL PROPERTY PURSUANT TO EXCHANGE/SALE AUTHORITY

Subpart 114–46.2—Authorization

Subpart 114–46.2 is revised to read as follows:

§ 114–46.202 Restrictions and limitations.

(a) Basic responsibility for compliance with 41 CFR 101–46 rests with Bureaus and Offices. Consistent with Departmental financial management practices, Bureaus and Offices should establish procedures to provide adequate management control and documentation of exchange/sale transactions.

Subpart 114–46.4—Disposal

Section 114–46.407 is amended so the first sentence will read as follows:

§ 114–46.407 Reports.

The report required by this subpart shall be submitted to the Director of Management Services (PM), Office of the Assistant Secretary-Management, by not later than August 15 of each year. * * *

PART 114–47—UTILIZATION AND DISPOSAL OF REAL PROPERTY

Subpart 114–47.2—Utilization of Excess Real Property

Section 114–47.203–7 is amended so the first paragraph will read as follows:

§ 114–47.203–7 Transfers.

(a) One copy of GSA Form 1334, Request for Transfer of Excess Real Property and Related Personal Property, shall be furnished the Director of Management Services (PM), Office of the Assistant Secretary-Management, when:

* * * * *

Subpart 114–47.3—Surplus Real Property Disposal

Section 114–47.301–5 paragraph (b) is revised to read as follows:

§ 114–47.301–5 Records and reports.

* * * * *

(b) *Submission and due date.* GSA Form 1100 shall be submitted in original only, to the Director of Management Services (PM) by not later than the 25th of July of each year. Negative reports are required and may be submitted in the form of a memorandum in lieu of GSA Form 1100.

Section 114–47.304–8 paragraph (b) is revised to read as follows:

§ 114–47.304–8 Report of identical bids.

* * * * *

(b) Whenever identical bids or offers are received through closed competitive negotiations or through sealed or spot bid procedures for the sale of real property under the conditions set forth in paragraphs (1), (2), and (3) of this paragraph, a copy of the invitation and a copy of the completed abstract of bids with identical bids circled in red shall be submitted to the Director of Management Services (PM), for transmittal to the Attorney General. These documents shall be forwarded to reach the Office of Management Services within 15 days following the disposition of all bids received in response to the invitation involved whether by awarding of contract(s) or other action.

* * * * *

Section 114–47.304–51 paragraph (c)(2)(v) is revised to read as follows:

§ 114–47.304–51 Noncollusive bids and proposals.

* * * * *

(v) White letterhead tissue copy to be marked "Director of Management Services (PM)."

Subpart 114–47.8—Identification of Undesded Federal Real Property

Section 114–47.802–54 paragraph (d) is revised to read as follows:

§ 114–47.802–54 Annual report to the Department.

* * * * *

(d) Be prepared, in duplicate, and transmitted to reach the Director of Management Services (PM) by August 21 of each year.

PART 114–52—ESTABLISHMENT OF QUARTERS RENTAL RATES

Subpart 114–52.2—Surveys and Appraisals

Section 114–52.203 paragraph (b) is revised to read as follows:

§ 114–52.203 Establishment of basic rental rates.

* * * * *

(b) *FHA appraisers.* Rental rate appraisals made by Federal Housing Administration appraisers permit the use of generally accepted real estate concepts. Should any Bureau or Office desire to use this method to establish rates, it should submit its proposal to the Director of Management Services (PM) for consideration and referral to the Washington, D.C., headquarters office of the Federal Housing Administration.

* * * * *

PART 114–60—PERSONAL PROPERTY MANAGEMENT

Subpart 114–60.1—General

Section 114–60.104 is revised to read as follows:

§ 114–60.104 General ledger control accounts.

Each Bureau and Office shall establish and maintain general ledger control accounts to properly account for all personal property acquired or to be acquired in accordance with the provisions of this part 114–60. All basic property accounting systems and procedures shall be cleared with the Office of the Assistant Secretary-Management (Reference shall be made to the Budget and Accounting Procedures Act of 1950 (64 Stat. 832)).

(Sec. 205(c), 63 Stat. 390; (5 U.S.C. 301))

Title 43—Public Lands: Interior

SUBTITLE A—OFFICE OF THE SECRETARY OF THE INTERIOR

PART 4—DEPARTMENT HEARINGS AND APPEALS PROCEDURES

Subpart C—Special Rules Applicable To Contract Appeals

SPECIAL PROCEDURAL RULES

On November 20, 1974, there was published in the FEDERAL REGISTER (39 FR 40781–40782), pursuant to authority contained in 5 U.S.C. 301, a notice and text of proposed amendments of Department Hearings and Appeals Procedures in 43 CFR Part 4, Subpart C—Special Rules Applicable to Contract Appeals, by revising §§ 4.113, 4.115, and 4.116, pertaining,

XUM
V 40 26
FEB 6 75
XUM

respectively, to accelerated procedure; depositions; and interrogatories to parties, inspection of documents, and admission of facts. The notice stated that the revised rules provide for an optional accelerated procedure in the case of disputes involving $25,000 or less, and improved, clarifying language with respect to procedures for depositions, interrogatories to parties, inspection of documents, and admission of facts. As was pointed out in the notice, the Commission on Government Procurement, in a report issued in December 1972, recommended uniform procedures for contract appeals boards, particularly in the areas of the proposed regulations. Promulgation of the revised rules will bring the procedures of the Interior Board of Contract Appeals into uniformity with those of the Armed Services Board of Contract Appeals in these important areas and in line with the Procurement Commission's report.

Interested persons were given 30 days within which to participate in the rulemaking through submission of written comments, suggestions or objections. No comments, suggestions or objections were received.

In view of the foregoing, the proposed revised regulations are adopted, without change, as set forth below.

Effective date: These revised regulations shall be effective February 6, 1975.

Date: January 30, 1975.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

1. § 4.113 is revised to read as follows to provide for an optional accelerated procedure in disputes involving $25,000 or less:

§ 4.113 Optional accelerated procedure.

(a) In appeals involving $25,000 or less, either party may elect, in his notice of appeal, complaint, answer, or by separate correspondence or statement prior to commencement of hearing or settlement of the record, to have the appeal processed under a shortened and accelerated procedure. For application of this rule the amount in controversy will be determined by the sum of the amounts claimed by either party against the other in the appeal proceeding. If no specific amount of claim is stated, a case will be considered to fall within this rule if the sum of the amounts which each party represents in writing that it could recover as a result of a Board decision favorable to it does not exceed $25,000. Upon such election, a case shall then be processed under this rule unless the other party objects and shows good cause why the substantive nature of the dispute requires processing under the Board's regular procedures and the Board, acting through the Chairman, sustains such objection. In cases proceeding under this rule, parties are encouraged, to the extent possible consistent with adequate presentation of their factual and legal positions, to waive pleadings, discovery, and briefs.

(b) Written decisions by the Board in cases proceeding under this rule normally will be short and contain summary findings of fact and conclusions only. The Board will endeavor to render such decisions within 30 days after the appeal is ready for decision. Such decisions will be rendered for the Board by a single Board member with the concurrence of the Chairman; except that in cases involving $5,000 or less where there has been a hearing, the single Board member presiding at the hearing may, in his discretion, at the conclusion of the hearing and after entertaining such oral arguments as he deems appropriate, render on the record oral summary findings of fact, conclusions and decision of the appeal. In the latter instance, the Board will subsequently furnish the parties a typed copy of such oral decision for record and payment purposes and to establish the date from which the period for filing a motion for reconsideration under § 4.125 commences.

2. §§ 4.115 and 4.116 are revised to read as follows to provide improved, clarifying language:

§ 4.115 Discovery—Depositions.

(a) *General policy and protective orders.* The parties are encouraged to engage in voluntary discovery procedures. In connection with any deposition or other discovery procedure, the Board may make any order which justice requires to protect a party or person from annoyance, embarrassment, oppression, or undue burden or expense, and those orders may include limitations on the scope, method, time and place for discovery, and provisions for protecting the secrecy of confidential information or documents.

(b) *When depositions permitted.* After an appeal has been docketed and complaint filed, the parties may mutually agree to, or the Board may, upon application of either party and for good cause shown, order the taking of testimony of any person by deposition upon oral examination or written interrogatories before any officer authorized to administer oaths at the place of examination, for use as evidence or for purpose of discovery. The application for order shall specify whether the purpose of the deposition is discovery or for use as evidence.

(c) *Orders on depositions.* The time, place, and manner of taking depositions shall be as mutually agreed by the parties, or, failing such agreement, governed by order of the Board.

(d) *Use as evidence.* No testimony taken by depositions shall be considered as part of the evidence in the hearing of an appeal unless and until such testimony is offered and received in evidence at such hearing. It will not ordinarily be received in evidence if the deponent is present and can testify personally at the hearing. In such instances, however, the deposition may be used to contradict or impeach the testimony of the witness given at the hearing. In cases submitted on the record, the Board may in its discretion receive depositions as evidence in supplementation of that record.

(e) *Expenses.* Each party shall bear its own expenses associated with the taking of any deposition.

§ 4.116 Interrogatories to parties; inspection of documents; admission of facts.

Under appropriate circumstances, but not as a matter of course, the Board will entertain applications for permission to serve written interrogatories upon the opposing party, applications for an order to produce and permit the inspection of designated documents, and applications for permission to serve upon the opposing party a request for the admission of specified facts. Such applications shall be reviewed and approved only to the extent and upon such terms as the Board in its discretion considers to be consistent with the objective of securing just and inexpensive determination of appeals without unnecessary delay, and essential to the proper pursuit of that objective in the particular case.

(5 U.S.C. 301)

Title 46—Shipping

CHAPTER IV—FEDERAL MARITIME COMMISSION

SUBCHAPTER B—REGULATIONS AFFECTING MARITIME CARRIERS AND RELATED ACTIVITIES

[Domestic Tariff Circular No. 3]

PART 531—FILING OF FREIGHT AND PASSENGER RATES, FARES AND CHARGES IN THE DOMESTIC OFFSHORE TRADE, PUBLICATION AND POSTING

Transportation of U.S. Government Personnel and Property; Revocation of Special Permission

Section 6 of the Intercoastal Shipping Act, 1933, previously permitted domestic offshore carriers subject to Federal Maritime Commission jurisdiction to provide services to the United States, state, and municipal governments or for charitable purposes free or at reduced rates. The shipping acts did not permit carriers in the domestic offshore trades to carry property or passengers lawfully at any rate different from that specified in its effective tariff on file with the Commission. Because the reduced governmental rates were permitted by section 6 of the Intercoastal Shipping Act, 1933, were subject to the approval of the government agency involved, were not held out to the general public, and were not then subject to full economic regulation by this Commission, and because the Commission was of the opinion that no useful regulatory purpose would be served by requiring the carriers to comply with all of the tariff circular rules, which were promulgated to protect the public interest, the Federal Maritime Commission, on August 25, 1967, adopted regulations (Rule 25, Domestic Tariff Circular No. 3, as amended; 46 CFR 531.25) to govern the submission to the Commission, on one-day's notice, of quotations or tenders of rates, fares, or charges for the transportation, storage, or handling of property or the transportation of persons for the United States Government, or any agency or department thereof, free or at reduced rates, pursuant to the provisions of section 6 of the Intercoastal Shipping Act, 1933, as amended (46 U.S.C. 846).

On October 26, 1974, section 6 of the Intercoastal Shipping Act, 1933, was repealed. The purpose and effect of the new legislation, designated Pub. L. 93-487, is to provide for the full economic regulation by the Federal Maritime Commission of the carriage, storage, and handling of governmental and charitable cargo in the domestic offshore trades of the United States so as to insure that the rates on such cargo meet the same statutory standards of reasonableness and fairness currently applicable to commercial cargo rates.

Since the publications, the filing of which were governed by Rule 25, are no longer permitted, and since the special permission authority for one-day's notice authorized by Rule 25 has no further force nor effect, the rule serves no useful purpose and should be revoked.

§ 531.25 [Revoked]

Therefore, pursuant to section 4 of the Administrative Procedure Act, (5 U.S.C. 553) and section 43 of the Shipping Act, 1916 (46 U.S.C. 841a) Title 46 CFR is hereby amended by revoking § 531.25 *Transportation of U.S. Government Personnel and Property; Special Permission* (Rule 25 of Domestic Tariff Circular No. 3), effective on February 6, 1975. Carriers which have effective quotations or tenders on file with the Commission shall, on or before April 7, 1975, cancel or reissue such quotations or tenders in tariff form.

Notice and public procedure are not required for this revocation since Rule 25 applied only to those quotations or tenders permitted by section 6 of the Intercoastal Shipping Act, 1933. That section having been repealed, Rule 25 no longer has any applicability.

By the Commission, January 23, 1975.

FRANCIS C. HURNEY,
Secretary.

Title 49—Transportation

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 74-25; Notice 2]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

New Pneumatic Tires for Passenger Cars and Vehicles Other Than Passenger Cars; Definition of Test Rim

This notice amends the definition of "test rim" in 49 CFR 571.109 (Motor Vehicle Safety Standard No. 109) and modifies related provisions of that section and § 571.110 (Motor Vehicle Safety Standard No. 110). A conforming amendment is made to similar provisions in § 571.119 (Motor Vehicle Safety Standard No. 119). The notice of proposed rulemaking on which this amendment is based was published on July 10, 1974 (39 FR 25329).

The definition of "test rim" has previous to this amendment referenced the 1967 and earlier editions of publications of various foreign and domestic tire and rim associations as the source for determining rim specifications and appropriate tire/rim matching information for testing tires to the requirements of Motor Vehicle Safety Standard No. 109, and for equipping passenger cars pursuant to Motor Vehicle Safety Standard No. 110. The Rubber Manufacturers' Association petitioned that this reference be changed because the publications have become outdated in terms of the rim information they provide. This amendment, which adopts the proposed rule of July 10, 1974, in essentially the form proposed, deletes the references to the 1967 and earlier publications and substitutes for them the publications of the various associations current at the time of tire manufacture.

Under the amendment, a "test rim" will be any rim listed for use with a tire size designation in any of the current publications of the various foreign and domestic tire and rim associations. The listing will apply to all tires that fit the description (by tire size designation, use category, etc.) unless the publication itself or a separately published manufacturer's document states otherwise. A manufacturer wishing to except any tire manufactured by him from any listing would be expected to request the association to publish the exception in its publication. If it does not, the manufacturer must himself publish the exception in his own listing, which he must distribute to his dealers, this agency, and to any member of the public on request. The language of the proposal is clarified, and a conforming amendment made to Standard No. 119 to show that an exception must be published in each association publication listing the tire and rim combination. The amendment further specifies that a "listing" of a rim must contain dimensional specifications, including diagrams, for the rim. This is necessary to provide for uniformity of rim dimensions and reflects the present practice of association publications of publishing such dimensional specifications. However, dimensional specifications or a diagram of a rim need not be included in manufacturers' separate listings if the specifications and diagram for the rim appear in each association publication where it is listed.

By referencing the current publications, the amendment ends the need for Appendix "A" of Standard No. 110, which lists tire/rim combinations approved for use subsequent to the 1967 and earlier associations publications. The associations and various manufacturers should ascertain that all tire/rim combinations presently listed in that Appendix are incorporated into at least one of their respective publications before the effective date of this amendment. Moreover, the addition of new tire/rim combinations subsequent to the effective date becomes the sole responsibility of the industry. Appendix "A" of Standard No. 109, listing tire size designations, is not affected by this amendment.

An effect of the amended definition of test rim is to clarify this agency's position that each tire must be able to pass each performance requirement (except that for physical dimensions) of Standard No. 109 with any rim with which it is listed, regardless of rim width, unless that tire is specifically excepted from each listing where it appears. The requirements for physical dimensions must be met only on a test rim of the width specified for the tire size designation in Standard No. 109. A tire failing the requirements on any test rim would be considered as having failed the requirements on all test rims. This continues existing NHTSA enforcement policy.

One of the two comments received regarding the proposal objected to this aspect of the amendment, arguing that some manufacturers have traditionally certified conformity on the basis of test results using only the test rims of the specified test rim width and that no safety problems had been encountered. The NHTSA believes, however, that the interest of safety demands that manufacturers ensure that tires certified as conforming to Standard No. 109 will conform to the standard's requirements on any rim which the manufacturer lists for use with the tire and with which the tire may consequently be used in service. This position has been reflected in the guidelines for the additions of new tire/rim combinations to the Appendix of Standard No. 110, which have required that the manufacturer demonstrate conformity to Standard No. 109 on each newly requested rim. If a manufacturer doubts the ability of his tires to conform to the standard on certain recommended rims, he has the option of excepting his tires from being used with those rims. No other objections to the proposed rule were received.

In light of the above, the following amendments are made to 49 CFR 571.109, 571.110, and 571.119:

§ 571.109 [Amended]

A. Section 571.109 is amended as follows:

1. The definition of "test rim" in S3. is revised to read:

"Test rim" means, with reference to a tire to be tested, any rim that is listed as appropriate for use with that tire in accordance with S4.4. For purposes of this section and § 571.110, each rim listing shall include dimensional specifications and a diagram of the rim.

* * * * * *

2. A new paragraph S4.4, *Tire and rim matching information*, is added to read:

S4.4 *Tire and rim matching information.*

XUM
V40126
FEB 6 75
XUM

S4.4.1 Each manufacturer of tires shall ensure that a listing of the rims that may be used with each tire that he produces is provided to the public. A listing compiled in accordance with paragraph (a) of this section need not include dimensional specifications or diagram of a rim if the rim's dimensional specifications and diagram are contained in each listing published in accordance with paragraph (b). The listing shall be in one of the following forms:

(a) Listed by manufacturer name or brand name in a document furnished to dealers of the manufacturer's tires, to any person upon request, and in duplicate to: Tire Division, National Highway Traffic Safety Administration, 400 Seventh Street SW. Washington D.C. 20590; or

(b) Contained in publications current at the date of manufacture of the tire or any later date of at least one of the following organizations:

The Tire and Rim Association.
The European Tyre and Rim Technical Organisation.
Japanese Industrial Standards.
Deutsche Industrie Norm.
The Society of Motor Manufacturers & Traders, Ltd.
British Standards Institution.
Scandinavian Tire and Rim Organisation.

S4.4.2 Information contained in any publication specified in S4.4.1(b) which lists general categories of tires and rims by size designation, type of construction and/or intended use, shall be considered to be manufacturer's information pursuant to S4.4.1 for the listed tires and rims, unless the publication itself or specific information provided according to S4.4.1(a) indicates otherwise.

3. Paragraph S5.1(a) is revised to read:

(a) Mount the tire on a test rim having the test rim width specified in Appendix A of this section for that tire size designation and inflate it to the applicable pressure specified in Table III.

§ 571.110 [Amended]

B. Section 571.110 is amended as follows:

1. Paragraph S4.4.1(a) is revised to read:

(a) Be constructed to the dimensions of a rim that is listed pursuant to the definition of "test rim" in paragraph S3. of § 571.109 (Standard No. 109) for use with the tire size designation with which the vehicle is equipped.

2. Appendix A is deleted.

§ 571.119 [Amended]

C. Section 571.119 is amended as follows:

1. Paragraph S5.1 is amended to read:

S5. *Tire and rim matching information.*

S5.1 Each manufacturer of tires shall ensure that a listing of the rims that may be used with each tire that he produces is provided to the public. For purposes of this section each rim listing shall include dimensional specifications and a diagram of the rim. However a listing compiled in accordance with paragraph (a) of this section need not include dimensional specifications or a diagram of a rim if the rim's dimensional specifications and diagram are contained in each listing published in accordance with paragraph (b). The listing shall be in one of the following forms:

(a) Listed by manufacturer name or brand name in a document furnished to dealers of the manufacturer's tires to any person upon request and in duplicate to: Tire Division, National Highway Safety Administration, 400 Sevnth Street SW., Washington, D.C. 20590; or

(b) Contained in publications, current at the date of manufacture of the tire or any later date, of at least one of the following organizations:

The Tire and Rim Association.
The European Tyre and Rim Technical Organisation.
Japanese Industrial Standards.
Deutsche Industrie Norm.
The Society of Motor Manufacturers and Traders, Ltd.
British Standards Institution.
Scandinavian Tire and Rim Organisation.

. . . . . .

Effective date. August 5, 1975, for Standard No. 109; March 1, 1975, for Standard No. 119. The amendment to Standard No. 119 is of a clarifying nature, and should be made effective with the existing effective date of that standard. The amendment does not require substantial leadtime for conformity, and it is found for good cause shown that an effective date less than 180 days from publication is in the public interest.

(Secs. 103, 119, 201, 202, Pub. L. 89-563, 80 Stat. 718; 15 U.S.C. 1392, 1407, 1421, 1422; delegation of authority at 49 CFR 1.51.)

Issued on January 31, 1975.

JAMES B. GREGORY,
Administrator.

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 28—PUBLIC ACCESS, USE, AND RECREATION

PART 33—SPORT FISHING

Sequoyah National Wildlife Refuge, Oklahoma; Correction

In FR Doc.75-1811, appearing on pages 3297 and 3298 of the issue for Tuesday, January 21, 1975, special conditions 1 and 2 should read as follows:

(1) The open season for sport fishing on the refuge extends from January 1 through December 31, 1975, inclusive, except for an area of approximately 2,200 acres south of Vian Creek, as posted, to be closed during the periods January 1 through March 31, 1975, inclusive, and October 1 through December 31, 1975, inclusive.

(2) Some refuge roads leading to waters open to fishing may be closed during the periods January 1 through March 31, 1975, inclusive, and October 1 through December 31, 1975, inclusive.

The following special regulation is issued and is effective February 6, 1975.

§ 28.28 Special regulations; public access, use, and recreation; for individual wildlife refuge areas.

The Sequoyah National Wildlife Refuge, Oklahoma, is open to public access, use, and recreational activity from January 1 through December 31, 1975, inclusive, subject to the provisions of Title 50, Code of Federal Regulations, and all applicable Federal and State laws and regulations and all official signs posted in the area. The refuge area, comprising approximately 20,800 acres, is delineated on maps available at refuge headquarters, 412 N. Maple, Sallisaw, Oklahoma, and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 1306, Albuquerque, New Mexico 87103, and is subject to the following special conditions:

(1) An area of approximately 2,200 acres, south of Vian Creek and east of the refuge tour road, shall be closed, as posted, to all public access during the periods January 1 through March 31, 1975, inclusive, and October 1 through December 31, 1975, inclusive. This land is set aside to provide an area of minimum disturbance for waterfowl and other wildlife during the winter months.

(2) Sightseeing, nature observation, photography and hiking are permitted.

(3) Picknicking is permitted only at the Vian Creek Recreation Area. Picnic fires may be built at the recreation area only in the fire grills provided or in camp stoves or charcoal grills.

(4) Overnight camping is not permitted except for youth conservation groups supervised by adults. Permits must be obtained in advance from the refuge manager.

(5) Firearms are prohibited except during authorized hunting seasons when only shotguns are permitted. Firearms being transported in a motor vehicle must be unloaded and dismantled or cased. Possession of any firearm on the refuge at night is prohibited. Long bows and arrows are permitted only as authorized in current refuge hunting and State fishing regulations.

(6) Boating is permitted in accordance with Federal and State regulations.

(7) Waterskiing is prohibited in all refuge waters.

(8) Pets must be kept in a vehicle or on a leash. Dogs may be used for hunting in accordance with refuge hunting regulations.

(9) Pecan picking is limited to one quart per person per day.

The provisions of this special regulation supplement the regulations which govern public access, use, and recreation on national wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through December 31, 1975.

W. O. NELSON, Jr.,
Regional Director, U.S. Fish and Wildlife Service, Albuquerque, New Mexico.

JANUARY 28, 1975.

[FR Doc.75-3342 Filed 2-5-75;8:45 am]

PART 33—SPORT FISHING

Sherburne National Wildlife Refuge, Minn.

The following special regulation is issued and is effective on February 6, 1975.

§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.

MINNESOTA

SHERBURNE NATIONAL WILDLIFE REFUGE

Sport fishing on the Sherburne National Wildlife Refuge is permitted only on the areas designated by signs as open to public fishing. These open areas, comprising approximately 1,000 acres, are delineated on maps available at the refuge headquarters, Route 2, Zimmerman, Minnesota 55398, and from the office of the Regional Director, U.S. Fish and Wildlife Service, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

(1) The open season for sport fishing extends from May 1, 1975 to March 1, 1976, inclusive.

(2) During periods when no ice exists, fishing activity is confined to the St. Francis River.

(3) Access to all fishing areas is permitted only at designated access sites.

(4) Boats, without motors, may be used on the St. Francis River only from designated access sites.

(5) The use of snowmobiles, all terrain vehicles, trail bikes, motorcycles, minibikes, and other such conveyances are prohibited on the refuge at all times.

JOHN E. WILBRECHT,
Refuge Manager, Sherburne National Wildlife Refuge, Zimmerman, Minnesota.

JANUARY 24, 1975.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 338]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period February 7–13, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907. The quantity of Navel oranges so fixed was arrived at after consideration of the total available supply of Navel oranges, the quantity currently available for market, the fresh market demand for Navel oranges, Navel orange prices, and the relationship of season average returns to the parity price for Navel oranges.

§ 907.638 Navel Orange Regulation 338.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of Navel oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Navel orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Navel oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Navel oranges continues very good.

Prices f.o.b. averaged $3.69 per carton on a reported sales volume of 1,278 carlots last week, compared with an average f.o.b. price of $3.44 per carton and sales of 1,121 carlots a week earlier.

Track and rolling supplies at 536 cars were up 108 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Navel oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on February 4, 1975.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period February 7, 1975, through February 13, 1975, are hereby fixed as follows:

(i) District 1: 1,392,000 cartons;

(ii) District 2: 208,000 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674))

Dated: February 6, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Administrator,
Farmers Home Administration.

[FR Doc.75-3441 Filed 2-5-75;8:45 am]

Title 12—Banks and Banking

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER B—FEDERAL HOME LOAN BANK SYSTEM

PART 522—ORGANIZATION OF THE BANKS

The Federal Home Loan Bank System was created by the Federal Home Loan Bank Act, Pub. L. 304, 72d Congress, approved July 22, 1932. Until recently, section 7(a) of the Act provided, with exceptions not relevant in this connection, that the management of each Federal Home Loan Bank shall be vested in a board of directors, eight of whom shall be elected by the members of the Bank and four of whom shall be appointed by this Board. Section 522.20 of the Board's Regulations for the Federal Home Loan Bank System (12 CFR 522.20) implements section 7(a).

Pub. L. 93-541, approved December 26, 1974, amended section 7(a) to increase the number of directorships which are filled by appointment by the Board from a minimum of four to a minimum of six. The enactment of Pub. L. 93-541 thus requires a conforming amendment to § 522.20.

In addition, § 522.26 of the Board's regulations for the Federal Home Loan Bank System (12 CFR 522.26) has now become obsolete. Section 522.26 provides that directors of the Federal Home Loan Banks who were serving prior to the amendment of section 7 of the Federal Home Loan Bank Act in 1961 by Pub. L. 87-211 would continue to serve until the expiration date of their terms.

Accordingly, the Board considers it desirable to amend Part 522 by amending § 522.20 and by deleting § 522.26, as set forth below, effective February 7, 1975.

§ 522.20 Appointive Directors.

(a) The Board will appoint six directors for each Bank. Each director must be a citizen of the United States and a bona fide resident of the district in which the Bank is located.

* * * * *

§ 522.26 [Deleted]

Since the above amendments are, respectively, required by statute and delete an obsolete provision, affording public notice and procedure on these amendments would be unnecessary and contrary to the public interest under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and since publication of said amendments for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of said amendments would in the opinion of the Board be unnecessary for the same reasons, the Board hereby provides that said amendments shall become effective as hereinbefore set forth.

(Section 17, 47 Stat. 736, as amended; 12 U.S.C. 1437, Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071.)

Dated: January 30, 1975.

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, JR.,
Assistant Secretary.

[FR Doc.75-3438 Filed 2-5-75;8:45 am]

CHAPTER VIII—FEDERAL FINANCING BANK

PART 811—BOOK-ENTRY PROCEDURE FOR FEDERAL FINANCING BANK SECURITIES

Adoption of Regulations

The regulations governing the book-entry procedure for Federal Financing Bank securities, set forth below, are issued under authority of the Federal Financing Bank Act of 1973, sections 9-11, 87 Stat. 939, 940; 12 U.S.C. 2288, 2289, 2290.

As these regulations relate to the fiscal policy of the United States, notice and public procedures thereon are unnecessary.

The regulations were adopted on January 31, 1975.

Dated: January 31, 1975.

JOHN K. CARLOCK,
Vice President and Treasurer,
Federal Financing Bank.

Sec.
811.0 Definition of terms.
811.1 Authority of Reserve Banks.
811.2 Scope and effect of book-entry procedure.
811.3 Transfer or pledge.
811.4 Withdrawal of Federal Financing Bank securities.
811.5 Delivery of Federal Financing Bank securities.
811.6 Registered bonds and notes.
811.7 Servicing book-entry Federal Financing Bank securities; payment of interest; payment at maturity or upon call.

§ 811.0 Definition of terms.

In this part, unless the context otherwise requires or indicates:

(a) "Reserve Bank" means the Federal Reserve Bank of New York (and any other Federal Reserve Bank which agrees to issue Federal Financing Bank securities in book-entry form) as fiscal agent of the United States acting on behalf of the Federal Financing Bank and, when indicated, acting in its individual capacity.

(b) "Federal Financing Bank security" means a Federal Financing Bank bond, note, certificate of indebtedness, or bill issued under the Federal Financing Bank Act of 1973, in the form of a definitive Federal Financing Bank security or a book-entry Federal Financing Bank security.

(c) "Definitive Federal Financing Bank security" means a Federal Financing Bank bond, note, certificate of indebtedness, or bill issued under the Federal Financing Bank Act of 1973, in engraved or printed form.

(d) "Book-entry Federal Financing Bank security" means a Federal Financing Bank bond, note, certificate of indebtedness, or bill issued under the Federal Financing Bank Act of 1973, in the form of an entry made as prescribed in this part on the records of a Reserve Bank.

(e) "Pledge" includes a pledge of, or any other security interest in, Federal Financing Bank securities as collateral for loans or advances or to secure deposits of public monies or the performance of an obligation.

(f) "Date of call" is the date fixed in the official notice of call published in the FEDERAL REGISTER on which the Federal Financing Bank will make payment of the security before maturity in accordance with its terms.

(g) "Member bank" means any national bank, State bank or bank or trust company which is a member of a Reserve Bank.

§ 811.1 Authority of Reserve Banks.

Each Reserve Bank is hereby authorized, in accordance with the provisions of this part, to (a) issue book-entry Federal Financing Bank securities by means of entries on its records which shall include the name of the depositor, the amount, the loan title (or series) and maturity date; (b) effect conversions between book-entry Federal Financing Bank securities and definitive Federal Financing Bank securities; (c) otherwise service and maintain book-entry Federal Financing Bank securities; and (d) issue a confirmation of transaction in the form of a written advice (serially numbered or otherwise) which specifies the amount and description of any securities, that is, loan title (or series) and maturity date, sold or transferred and the date of the transaction.

§ 811.2 Scope and effect of book-entry procedure.

(a) A Reserve Bank, as fiscal agent of the United States acting on behalf of the Federal Financing Bank, may apply the book-entry procedure provided for in this part to any Federal Financing Bank securities which have been or are hereafter deposited for any purpose in accounts with it in its individual capacity under terms and conditions which indicate that the Reserve Bank will continue to maintain such deposit accounts in its individual capacity, notwithstanding application of the book-entry procedure to such securities. This paragraph is applicable, but not limited, to securities deposited:

(1) As collateral pledged to a Reserve Bank (in its individual capacity) for advances by it;

(2) By a member bank for its sole account;

(3) By a member bank held for the account of its customers;

(4) In connection with deposits in a member bank of funds of States, municipalities, or other political subdivisions; or,

(5) In connection with the performance of an obligation or duty under Federal, State, municipal, or local law, or judgments or decrees of courts.

The application of the book-entry procedure under this paragraph shall not derogate from or adversely affect the relationship that would otherwise exist between a Reserve Bank in its individual capacity and its depositors covering any deposits under this paragraph. Whenever the book-entry procedure is applied to such Federal Financing Bank securities, the Reserve Bank is authorized to take all action necessary in respect of the book-entry procedure to enable such Reserve Bank in its individual capacity to perform its obligations as depositary with respect to such Federal Financing Bank securities.

(b) A Reserve Bank, as fiscal agent of the United States acting on behalf of the Federal Financing Bank, shall apply the book-entry procedure to Federal Financing Bank securities deposited as collateral pledged to the United States under current revisions of Department of the Treasury Circulars Nos. 92 and 176 (31 CFR, Parts 203 and 202), and may apply the book-entry procedure, with the approval of the Secretary of the Treasury, to any other Federal Financing Bank securities deposited with a Reserve Bank, as fiscal agent of the United States.

(c) Any person having an interest in Federal Financing Bank securities which are deposited with a Reserve Bank (in either its individual capacity or as fiscal agent of the United States) for any purpose shall be deemed to have consented to their conversion to book-entry Federal Financing Bank securities pursuant to the provisions of this part, and in the manner and under the procedures prescribed by the Reserve Bank.

(d) No deposits shall be accepted under this section on or after the date of maturity or call of the securities.

§ 811.3 Transfer or pledge.

(a) A transfer or a pledge of book-entry Federal Financing Bank securities to a Reserve Bank (in its individual capacity or as fiscal agent of the United States), or to the United States, or to any transferee or pledgee eligible to maintain an appropriate book-entry account in its name with a Reserve Bank under this part, is effected and perfected, notwithstanding any provision of law to the contrary, by a Reserve Bank making an appropriate entry in its records of the securities transferred or pledged. The making of such an entry in the records of a Reserve Bank shall (1) have the effect of a delivery in bearer form of definitive Federal Financing Bank securities; (2) have the effect of a taking of delivery by the transferee or pledgee; (3) constitute the transferee or pledgee a holder; and (4) if a pledge, effect a perfected security interest therein in favor of the pledgee. A transfer or pledge of book-entry Federal Financing Bank securities effected under this paragraph shall have priority over any transfer, pledge, or other interest, theretofore or thereafter effected or perfected under paragraph (b) of this section or in any other manner.

(b) A transfer or a pledge of transferable Federal Financing Bank securities, or any interest therein, which is maintained by a Reserve Bank (in its individual capacity or as fiscal agent of the United States) in a book-entry account under this part, including securities in book-entry form under § 811.2(a)(3), is effected, and a pledge is perfected, by any means that would be effective under applicable law to effect a transfer or to effect and perfect a pledge of the Federal Financing Bank securities, or any interest therein, if the securities were maintained by the Reserve Bank in bearer definitive form. For purposes of transfer or pledge hereunder, book-entry Federal Financing Bank securities maintained by a Reserve Bank shall, notwithstanding any provision of law to the contrary, be deemed to be maintained in bearer definitive form. A Reserve Bank maintaining book-entry Federal Financing Bank securities either in its individual capacity or as fiscal agent of the United States is not a bailee for purposes of notification of pledges of those securities under this subsection, or a third person in possession for purposes of acknowledgement of transfers thereof under this subsection. Where transferable Federal Financing Bank securities are recorded on the books of a depositary (a bank, banking institution, financial firm, or a similar party, which regularly accepts in the course of its business Federal Financing Bank securities as a custodial service for customers, and maintains accounts in the names of such customers reflecting ownership of or interest in such securities) for account of the pledgor or transferor thereof and such securities are on deposit with a Reserve Bank in a book-entry account hereunder, such depositary shall, for purposes of perfecting a pledge of such securities or effecting delivery of such securities to a purchaser under applicable provisions of law, be the bailee to which notification of the pledge of the securities may be given or the third person in possession from which acknowledgement of the holding of the securities for the purchaser may be obtained. A Reserve Bank will not accept notice or advice of a transfer or pledge effected or perfected under this subsection, and any such notice or advice shall have no effect. A Reserve Bank may continue to deal with its depositor in accordance with the provisions of this part, notwithstanding any transfer or pledge effected or perfected under this subsection.

(c) No filing or recording with a public recording office or officer shall be necessary or effective with respect to any transfer or pledge of book-entry Federal Financing Bank securities or any interest therein.

(d) A Reserve Bank shall, upon receipt of appropriate instructions, convert book-entry Federal Financing Bank securities into definitive Federal Financing Bank securities and deliver them in accordance with such instructions; no such conversion shall affect existing interests in such Federal Financing Bank securities.

(e) A transfer of book-entry Federal Financing Bank securities within a Reserve Bank shall be made in accordance with procedures established by the Bank not inconsistent with this part. The transfer of book-entry Federal Financing Bank securities by a Reserve Bank may be made through a telegraphic transfer procedure.

(f) All requests for transfer or withdrawal must be made prior to the maturity or date of call of the securities.

§ 811.4 Withdrawal of Federal Financing Bank securities.

(a) A depositor of book-entry Federal Financing Bank securities may withdraw them from a Reserve Bank by requesting delivery of like definitive Federal Financing Bank securities to itself or on its order to a transferee.

(b) Federal Financing Bank securities which are actually to be delivered upon withdrawal may be issued either in registered or in bearer form, except that Federal Financing Bank bills will be issued in bearer form only.

§ 811.5 Delivery of Federal Financing Bank securities.

A Reserve Bank which has received Federal Financing Bank securities and effected pledges, made entries regarding them, or transferred or delivered them according to the instructions of its depositor is not liable for conversion or for participation in breach of fiduciary duty even though the depositor had no right to dispose of or take other action in respect of the securities. A Reserve Bank shall be fully discharged of its obligations under this part by the delivery of Federal Financing Bank securities in definitive form to its depositor or upon the order of such depositor. Customers of a member bank or other depository (other than a Reserve Bank) may obtain Federal Financing Bank securities

XUM
V 4 0 2 6
FEB 6 75
XUM

in definitive form only by causing the depositor of the Reserve Bank to order the withdrawal thereof from the Reserve Bank.

§ 811.6 Registered bonds and notes.

Registered Federal Financing Bank securities deposited with a Reserve Bank for any purpose specified in § 811.2 shall be assigned for conversion to book-entry Federal Financing Bank securities. The assignment, which shall be executed in accordance with the provisions of Subpart F of 31 CFR, Part 306, so far as applicable, shall be to "Federal Reserve Bank of ----------, as fiscal agent of the United States acting on behalf of the Federal Financing Bank for conversion to book-entry Federal Financing Bank securities."

§ 811.7 Servicing book-entry Federal Financing Bank securities; payment of interest; payment at maturity or upon call.

Interest becoming due on book-entry Federal Financing Bank securities shall be charged against the special agent account maintained by the Department of the Treasury for the Federal Financing Bank on the interest due date and remitted or credited in accordance with the depositor's instructions. Such securities shall be redeemed and charged against the above said account on the date of maturity or call, and the redemption proceeds, principal and interest, shall be disposed of in accordance with the depositor's instructions.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

REGULATIONS RELATING TO EXCEPTION FOR CERTAIN INSURANCE CONTRACT PLANS FROM MINIMUM FUNDING STANDARDS

Notice of Proposed Rule Making

Notice is hereby given that the regulations set forth in tentative form in the attached appendix are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by March 10, 1975. Pursuant to 26 CFR 601.601(b), designations of material as confidential or not to be disclosed, contained in such comments, will not be accepted. Thus, a person submitting written comments should not include therein material that he considers to be confidential or inappropriate for disclosure to the public. It will be presumed by the Internal Revenue Service that every written comment submitted to it in response to this notice of proposed rule making is intended by the person submitting it to be subject in its entirety to public inspection and copying in accordance with the procedures of 26 CFR 601.702(d)(9). Any person submitting written comments who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by March 10, 1975. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 412(i) and 7805 of the Internal Revenue Code of 1954 (88 Stat. 919, 68A Stat. 917; 26 U.S.C. 412(i) and 7805).

[SEAL] DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

This document contains a proposed amendment to the Income Tax Regulations (26 CFR Part 1) to reflect the addition of section 412 to the Internal Revenue Code of 1954, as added by section 1013(a) of the Employee Retirement Income Security Act of 1974 (88 Stat. 914), relating to minimum funding standards. This document also contains proposed regulations to implement section 412(i) of the Code and section 301(b) of such Act (88 Stat. 869), relating to the requirements which an insurance contract plan must satisfy to be treated as described in section 412(i) of such Code and section 301(b) of such Act.

Under section 412(h)(2) of the Code, as added by section 1013(a) of the Employee Retirement Income Security Act of 1974, any insurance contract plan described in section 412(i) of the Code for a plan year is not subject to the minimum funding requirements of section 412 of the Code for that plan year. Section 412(i) of the Code sets forth certain requirements which an individual insurance contract plan must meet in order to qualify for this exception from the minimum funding requirements.

Under section 412(i) of the Code, a plan funded exclusively by the purchase of group insurance contracts is treated as a plan described in section 412(i) if it is determined under regulations prescribed by the Secretary of the Treasury or his delegate to have the same characteristics as an individual insurance contract plan. In general, these rules apply to plans in existence on January 1, 1974, for plan years beginning after December 31, 1975, and to other plans for plan years beginning after September 2, 1974.

The proposed regulations provide requirements which an individual contract plan or a group insurance contract plan must satisfy in order to be considered described in section 412(i) of the Code. Both types of plans must be funded exclusively by the purchase of annuity or life insurance contracts from an insurance company. Other requirements which must be satisfied by individual and group plans relate to the manner of premium payments, benefit levels under the contracts, a guarantee of benefits, and the prohibition of security interests or loans with respect to the contracts. The proposed regulations also provide that a group insurance contract plan must have certain minimum benefits guaranteed by the insurance company for individual participants in the plan.

PROPOSED AMENDMENTS TO THE REGULATIONS

In order to conform the Income Tax Regulations (26 CFR Part 1) to reflect the addition of section 412 to the Internal Revenue Code of 1954 by section 1013(a) of the Employee Retirement Income Security Act of 1974 (88 Stat. 914), and to prescribe rules under section 412(i) of the Code and section 301(b) of such Act (88 Stat. 869), the following new sections are added immediately after § 1.405-3:

§ 1.412(a) Statutory provisions; minimum funding standards; general rule.

Sec. 412. *Minimum funding standards*—(a) *General rule.* Except as provided in subsection (h), this section applies to a plan if, for any plan year beginning on or after the effective date of this section for such plan—

(1) Such plan included a trust which qualified (or was determined by the Secretary or his delegate to have qualified) under section 401(a), or

(2) Such plan satisfied (or was determined by the Secretary or his delegate to have satisfied) the requirements of section 403(a) or 405(a).

A plan to which this section applies shall have satisfied the minimum funding standard for such plan for a plan year if as of the end of such plan year, the plan does not have an accumulated funding deficiency. For purposes of this section and section 4971, the term "accumulated funding deficiency" means for any plan the excess of the total charges to the funding standard account for all plan years (beginning with the first plan year to which this section applies) over the total credits to such account for such years or, if less, the excess of the total charges to the alternative minimum funding standard account for such plan years over the total credits to such account for such years.

[Section 412(a) added by sec. 1013(a), Employee Retirement Income Security Act 1974 (88 Stat. 914)]

§ 1.412(b) Statutory provisions; minimum funding standards; funding standard account.

Sec. 1.412. Minimum funding standards. * * *

(b) *Funding standard account*—(1) *Account required.* Each plan to which this section applies shall establish and maintain a funding standard account. Such account shall be credited and charged solely as provided in this section.

(2) *Charges to account.* For a plan year, the funding standard account shall be charged with the sum of—

(A) The normal cost of the plan for the plan year,

(B) The amounts necessary to amortize in equal annual installments (until fully amortized)—

(i) In the case of a plan in existence on January 1, 1974, the unfunded past service liability under the plan on the first day of the first plan year to which this section applies, over a period of 40 plan years,

(ii) In the case of a plan which comes into existence after January 1, 1974, the unfunded past service liability under the plan on the first day of the first plan year to which this section applies, over a period of 30 plan years (40 plan years in the case of a multiemployer plan),

XUM V40-26 FEB 6 75 XUM

(iii) Separately, with respect to each plan year, the net increase (if any) in unfunded past service liability under the plan arising from plan amendments adopted in such year, over a period of 30 plan years (40 plan years in the case of a multiemployer plan),

(iv) Separately, with respect to each plan year, the net experience loss (if any) under the plan, over a period of 15 plan years (20 plan years in the case of a multiemployer plan), and

(v) Separately, with respect to each plan year, the net loss (if any) resulting from changes in actuarial assumptions used under the plan, over a period of 30 plan years,

(C) The amount necessary to amortize each waived funding deficiency (within the meaning of subsection (d)(3)) for each prior plan year in equal annual installments (until fully amortized) over a period of 15 plan years, and

(D) The amount necessary to amortize in equal annual installments (until fully amortized) over a period of 5 plan years any amount credited to the funding standard account under paragraph (3)(D).

(3) *Credits to account.* For a plan year, the funding standard account shall be credited with the sum of—

(A) The amount considered contributed by the employer to or under the plan for the plan year,

(B) The amount necessary to amortize in equal annual installments (until fully amortized)—

(i) Separately, with respect to each plan year, the net decrease (if any) in unfunded past service liability under the plan arising from plan amendments adopted in such year, over a period of 30 plan years (40 plan years in the case of a multiemployer plan),

(ii) Separately, with respect to each plan year, the net experience gain (if any) under the plan, over a period of 15 plan years (20 plan years in the case of a multiemployer plan), and

(iii) Separately, with respect to each plan year, the net gain (if any) resulting from changes in actuarial assumptions used under the plan, over a period of 30 plan years,

(C) The amount of the waived funding deficiency within the meaning of subsection (d)(3) for the plan year, and

(D) In the case of a plan year for which the accumulated funding deficiency is determined under the funding standard account if such plan year follows a plan year for which such deficiency was determined under the alternative minimum funding standard, the excess (if any) of any debit balance in the funding standard account (determined without regard to this subparagraph) over any debit balance in the alternative minimum funding standard account.

(4) *Combining and offsetting amounts to be amortized.* Under regulations prescribed by the Secretary or his delegate, amounts required to be amortized under paragraph (2) or paragraph (3), as the case may be—

(A) May be combined into one amount under such paragraph to be amortized over a period determined on the basis of the remaining amortization period for all items entering into such combined amount, and

(B) May be offset against amounts required to be amortized under the other such paragraph, with the resulting amount to be amortized over a period determined on the basis of the remaining amortization periods for all items entering into whichever of the two amounts being offset is the greater.

(5) *Interest.* The funding standard account (and items therein) shall be charged or credited (as determined under regulations prescribed by the Secretary or his delegate) with interest at the appropriate rate consistent with the rate or rates of interest used under the plan to determine costs.

[Sec. 412(b) added by sec. 1013(a), Employee Retirement Income Security Act 1974 (88 Stat. 914)]

§ 1.412(c) Statutory provisions; minimum funding standards; special rules.

Sec. 1.412. *Minimum funding standards.* • • •

(c) *Special rules*—(1) *Determinations to be made under funding method.* For purposes of this section, normal costs, accrued liability, past service liabilities, and experience gains and losses shall be determined under the funding method used to determine costs under the plan.

(2) *Valuation of assets*—(A) *In general.* For purposes of this section, the value of the plan's assets shall be determined on the basis of any reasonable actuarial method of evaluation which takes into account fair market value and which is permitted under regulations prescribed by the Secretary or his delegate.

(B) *Election with respect to bonds.* The value of a bond or other evidence of indebtedness which is not in default as to principal or interest may, at the election of the plan administrator, be determined on an amortized basis running from initial cost at purchase to par value at maturity or earliest call date. Any election under this subparagraph shall be made at such time and in such manner as the Secretary or his delegate shall by regulations provide, shall apply to all such evidences of indebtedness, and may be revoked only with the consent of the Secretary or his delegate.

(3) *Actuarial assumptions must be reasonable.* For purposes of this section, all costs, liabilities, rates of interest, and other factors under the plan shall be determined on the basis of actuarial assumptions and methods which, in the aggregate, are reasonable (taking into account the experience of the plan and reasonable expectations) and which, in combination, offer the actuary's best estimate of anticipated experience under the plan.

(4) *Treatment of certain changes as experience gain or loss.* For purposes of this section, if—

(A) A change in benefits under the Social Security Act or in other retirement benefits created under Federal or State law, or

(B) A change in the definition of the term "wages" under section 3121, or a change in the amount of such wages taken into account under regulations prescribed for purposes of section 401(a)(5), results in an increase or decrease in accrued liability under a plan, such increase or decrease shall be treated as an experience loss or gain.

(5) *Change in funding method or in plan year requires approval.* If the funding method for a plan is changed, the new funding method shall become the funding method used to determine costs and liabilities under the plan only if the change is approved by the Secretary or his delegate. If the plan year for a plan is changed, the new plan year shall become the plan year for the plan only if the change is approved by the Secretary or his delegate.

(6) *Full funding.* If, as of the close of a plan year, a plan would (without regard to this paragraph) have an accumulated funding deficiency (determined without regard to the alternative minimum funding standard account permitted under subsection (g)) in excess of the full funding limitation—

(A) The funding standard account shall be credited with the amount of such excess, and

(B) All amounts described in paragraphs (2)(B), (C), and (D) and (3)(B) of subsection (b) which are required to be amortized shall be considered fully amortized for purposes of such paragraphs.

(7) *Full funding limitation.* For purposes of paragraph (6), the term "full funding limitation" means the excess (if any) of—

(A) The accrued liability (including normal cost) under the plan (determined under the entry age normal funding method if such accrued liability cannot be directly calculated under the funding method used for the plan), over

(B) The lesser of the fair market value of the plan's assets or the value of such assets determined under paragraph (2).

(8) *Certain retroactive plan amendments.* For purposes of this section, any amendment applying to a plan year which—

(A) Is adopted after the close of such plan year but no later than 2 and one-half months after the close of the plan year (or, in the case of a multiemployer plan, no later than 2 years after the close of such plan year),

(B) Does not reduce the accrued benefit of any participant determined as of the beginning of the first plan year to which the amendment applies, and

(C) Does not reduce the accrued benefit of any participant determined as of the time of adoption except to the extent required by the circumstances, shall, at the election of the plan administrator, be deemed to have been made on the first day of such plan year. No amendment described in this paragraph which reduces the accrued benefits of any participant shall take effect unless the plan administrator files a notice with the Secretary of Labor notifying him of such amendment and the Secretary of Labor has approved such amendment, or within 90 days after the date on which such notice was filed, failed to disapprove such amendment. No amendment described in this subsection shall be approved by the Secretary of Labor unless he determines that such amendment is necessary because of a substantial business hardship (as determined under subsection (d)(2)) and that a waiver under subsection (d)(1) is unavailable or inadequate.

(9) *3-year valuation.* For purposes of this section, a determination of experience gains and losses and a valuation of the plan's liability shall be made not less frequently than once every 3 years, except that such determination shall be made more frequently to the extent required in particular cases under regulations prescribed by the Secretary or his delegate.

(10) *Time when certain contributions deemed made.* For purposes of this section, any contributions for a plan year made by an employer after the last day of such plan year, but not later than two and one-half months after such day, shall be deemed to have been made on such last day. For purposes of this paragraph, such two and one-half month period may be extended for not more than six months under regulations prescribed by the Secretary or his delegate.

[Section 412(c) added by sec. 1013(a), Employee Retirement Income Security Act 1974 (88 Stat. 914)]

§ 1.412(d) Statutory provisions; minimum funding standards; variance from minimum funding standard.

Sec. 1.412. *Minimum funding standards.* • • •

(d) *Variance from minimum funding standard*—(1) *Waiver in case of substantial business hardship.* If an employer or in the case of a multiemployer plan, 10 percent or more of the number of employers contributing to or under the plan, are unable to satisfy the minimum funding standard for

a plan year without substantial business hardship and if application of the standard would be adverse to the interests of plan participants in the aggregate, the Secretary or his delegate may waive the requirements of subsection (a) for such year with respect to all or any portion of the minimum funding standard other than the portion thereof determined under subsection (b)(2)(C). The Secretary or his delegate shall not waive the minimum funding standard with respect to a plan for more than 5 of any 15 consecutive plan years.

(2) *Determination of substantial business hardship.* For purposes of this section, the factors taken into account in determining substantial business hardship shall include (but shall not be limited to) whether or not—

(A) The employer is operating at an economic loss,

(B) There is substantial unemployment or underemployment in the trade or business and in the industry concerned,

(C) The sales and profits of the industry concerned are depressed or declining, and

(D) It is reasonable to expect that the plan will be continued only if the waiver is granted.

(3) *Waived funding deficiency.* For purposes of this section, the term "waived funding deficiency" means the portion of the minimum funding standard (determined without regard to subsection (b)(3)(C)) for a plan year waived by the Secretary or his delegate and not satisfied by employer contributions.

[Sec. 412(d) added by sec. 1013(a), Employee Retirement Income Security Act 1974 (88 Stat. 914)]

§ 1.412(e) Statutory provisions; minimum funding standards; extension of amortization periods.

Sec. 1.412. *Minimum funding standards.* • • •

(e) *Extension of amortization periods.* The period of years required to amortize any unfunded liability (described in any clause of subsection (b)(2)(B)) of any plan may be extended by the Secretary of Labor for a period of time (not in excess of 10 years) if he determines that such extension would carry out the purposes of the Employee Retirement Income Security Act of 1974 and would provide adequate protection for participants under the plan and their beneficiaries and if he determines that the failure to permit such extension would—

(1) Result in—

(A) A substantial risk to the voluntary continuation of the plan, or

(B) A substantial curtailment of pension benefit levels or employee compensation, and

(2) Be adverse to the interests of plan participants in the aggregate.

[Sec. 412(e) added by section 1013(a), Employee Retirement Income Security Act 1974 (88 Stat. 914)]

§ 1.412(f) Statutory provisions; minimum funding standards; benefits may not be increased during waiver or extension period.

Sec. 1.412. *Minimum funding standards.* • • •

(f) *Benefits may not be increased during waiver or extension period*—(1) *In general.* No amendment of the plan which increases the liabilities of the plan by reason of any increase in benefits, any change in the accrual of benefits, or any change in the rate at which benefits become nonforfeitable under the plan shall be adopted if a waiver under subsection (d)(1) or an extension of time under subsection (e) is in effect with respect to the plan, or if a plan amendment described in subsection (c)(8) has been made at any time in the preceding 12 months (24 months for multiemployer plans). If a plan is amended in violation of the preceding sentence, any such waiver or extension of time shall not apply to any plan year ending on or after the date on which such amendment is adopted.

(2) *Exception.* Paragraph (1) shall not apply to any plan amendment which—

(A) The Secretary of Labor determines to be reasonable and which provides for only de minimis increases in the liabilities of the plan,

(B) Only repeals an amendment described in subsection (c)(8), or

(C) Is required as a condition of qualification under this part.

[Sec. 412(f) added by section 1013(a), Employee Retirement Income Security Act 1974 (88 Stat. 914)]

§ 1.412(g) Statutory provisions; minimum funding standards; alternative minimum funding standard.

Sec. 1.412. *Minimum funding standards.* • • •

(g) *Alternative minimum funding standard*—(1) *In general.* A plan which uses a funding method that requires contributions in all years not less than those required under the entry age normal funding method may maintain an alternative minimum funding standard account for any plan year. Such account shall be credited and charged solely as provided in this subsection.

(2) *Charges and credits to account.* For a plan year the alternative minimum funding standard account shall be—

(A) Charged with the sum of—

(i) The lesser of normal cost under the funding method used under the plan or normal cost determined under the unit credit method,

(ii) The excess, if any, of the present value of accrued benefits under the plan over the fair market value of the assets, and

(iii) An amount equal to the excess (if any) of credits to the alternative minimum standard account for all prior plan years over charges to such account for all such years, and

(B) Credited with the amount considered contributed by the employer to or under the plan for the plan year.

(3) *Special rules.* The alternative minimum funding standard account (and items therein) shall be charged or credited with interest in the manner provided under subsection (b)(5) with respect to the funding standard account.

[Section 412(g) added by section 1013(a), Employee Retirement Income Security Act 1974 (88 Stat. 914)]

§ 1.412(h) Statutory provisions; minimum funding standards; exceptions.

Sec. 1.412. *Minimum funding standards.* • • •

(h) *Exceptions.* This section shall not apply to—

(1) Any profit-sharing or stock bonus plan,

(2) Any insurance contract plan described in subsection (i),

(3) Any governmental plan (within the meaning of section 414(d)),

(4) Any church plan (within the meaning of section 414(e)) with respect to which the election provided by section 410(d) has not been made,

(5) Any plan which has not, at any time after the date of the enactment of the Employee Retirement Income Security Act of 1974, provided for employer contributions, or

(6) Any plan established and maintained by a society, order, or association described in section 501(c)(8) or (9), if no part of the contributions to or under such plan are made by employers of participants in such plan.

No plan described in paragraph (3), (4), or (6) shall be treated as a qualified plan for purposes of section 401(a) unless such plan meets the requirements of section 401(a)(7) as in effect on the day before the date of the enactment of the Employee Retirement Income Security Act of 1974.

[Section 412(h) added by section 1013(a), Employee Retirement Income Security Act of 1974 (88 Stat. 914)]

§ 1.412(i) Statutory provisions; minimum funding standards; certain insurance contract plans.

Sec. 1.412. *Minimum funding standards.* • • •

(i) *Certain insurance contract plans.* A plan is described in this subsection if—

(1) The plan is funded exclusively by the purchase of individual insurance contracts,

(2) Such contracts provide for level annual premium payments to be paid extending not later than the retirement age for each individual participating in the plan, and commencing with the date the individual became a participant in the plan (or, in the case of an increase in benefits, commencing at the time such increase becomes effective),

(3) Benefits provided by the plan are equal to the benefits provided under each contract at normal retirement age under the plan and are guaranteed by an insurance carrier (licensed under the laws of a State to do business with the plan) to the extent premiums have been paid,

(4) Premiums payable for the plan year, and all prior plan years, under such contracts have been paid before lapse or there is reinstatement of the policy,

(5) No rights under such contracts have been subject to a security interest at any time during the plan year, and

(6) No policy loans are outstanding at any time during the plan year.

A plan funded exclusively by the purchase of group insurance contracts which is determined under regulations prescribed by the Secretary or his delegate to have the same characteristics as contracts described in the preceding sentence shall be treated as a plan described in this subsection.

[Section 412(i) added by sec. 1013(a), Employee Retirement Income Security Act 1974 (88 Stat. 914)]

§ 1.412(i)–1 Certain insurance contract plans.

(a) *In general.* Under section 412(h)(2) of the Internal Revenue Code of 1954, as added by section 1013(a) of the Employee Retirement Income Security Act of 1974 (88 Stat. 914) (hereinafter referred to as "the Act"), an insurance contract plan described in section 412(i) for a plan year is not subject to the minimum funding requirements of section 412 for that plan year. Consequently, if an individual or group insurance contract plan satisfies all of the requirements of paragraph (b)(2) or (c)(2) of this section, whichever are applicable, for the plan year, the plan is not subject to the requirements of section 412 for that plan year. The effective date for section 412 of the Code is determined under section 1017 of the Act. In general, in the case of a plan which was not in existence on January 1, 1974, this section applies for plan years beginning after September 2, 1974, and in the case of a plan in

XUM V40026 FEB 6 75 XUM

existence on January 1, 1974, to plan years beginning after December 31, 1975.

(b) *Individual insurance contract plans.* (1) An individual insurance contract plan is described in section 412(i) during a plan year if the plan satisfies the requirements of paragraph (b)(2) of this section for the plan year.

(2) The requirements of this paragraph are:

(i) The plan must be funded exclusively by the purchase from a life insurance company (licensed under the law of a State or the District of Columbia to do business with the plan) of individual annuity or individual insurance contracts, or a combination thereof. The purchase may be made either directly by the employer or through the use of a custodial account or trust.

(ii) The individual annuity or individual insurance contracts issued under the plan must provide for level annual, or more frequent, payments to be paid for the period commencing with the date each individual participating in the plan became a participant and ending not later than the normal retirement age for that individual or, if earlier, the date the individual ceases his participation in the plan. In the case of an increase in benefits the contracts must provide for level annual payments with respect to such increase to be paid for the period commencing at the time the increase becomes effective. If payment commences on the first payment date under the contract occurring after the date an individual becomes a participant or after the effective date of an increase in benefits, the requirements of this subdivision will be satisfied even though payment does not commence on the date on which the individual's participation commenced or on the effective date of the benefit increase, whichever is applicable. If an individual accrues benefits after his normal retirement age, the requirements of this subdivision are satisfied if payment is made at the time such benefits accrue. If the provisions required by this subdivision are set forth in a separate agreement with the issuer of the individual contracts, they need not be included in the individual contracts.

(iii) The benefits provided by the plan for each individual participant must be equal to the benefits provided under his individual contracts at his normal retirement age under the plan provisions.

(iv) The benefits provided by the plan for each individual participant must be guaranteed by the life insurance company, described in paragraph (b)(2)(i) of this section, issuing the individual contracts to the extent premiums have been paid.

(v) Except as provided in the following sentence, all premiums payable for the plan year, and for all prior plan years, under the insurance or annuity contracts must have been paid before lapse. If the lapse has occurred during the plan year, the requirements of this subdivision will be considered to have been met if reinstatement of the insurance policy, under which the individual insurance contracts are issued, occurs during such year.

(vi) No rights under the individual contracts may have been subject to a security interest at any time during the plan year. This subdivision shall not apply to contracts which have been distributed to participants if the security interest is created after the date of distribution.

(vii) No policy loans, including loans to individual participants, on any of the individual contracts may be outstanding at any time during the plan year. This subdivision shall not apply to contracts which have been distributed to participants if the loan is made after the date of distribution.

(c) *Group insurance contract plans.* (1) A group insurance contract plan is described in section 412(i) during a plan year if the plan satisfies the requirements of subparagraph (2) for the plan year.

(2) The requirements of this subparagraph are:

(i) The plan must be funded exclusively by the purchase from a life insurance company, described in paragraph (b)(2)(i) of this section, of group annuity or group insurance contracts, or a combination thereof. The purchase may be made either directly by the employer or through the use of a custodial account or trust.

(ii) In the case of a plan funded by a group insurance contract or a group annuity contract the requirements of paragraph (b)(2)(ii) of this section must be satisfied by the group contract issued under the plan. Thus, for example, each individual participant's benefits under the group contract must be provided for by level annual, or more frequent, payments equivalent to the payments required to satisfy such paragraph. The requirements of this subdivision will not be satisfied if benefits for any individual are not provided for by level payments made on his behalf under the group contract.

(iii) The group annuity or group insurance contract must satisfy the requirements of clauses (iii), (iv), (v), (vi), and (vii) of paragraph (b)(2). Thus, for example, each participant's benefits provided by the plan must be equal to his benefits provided under the group contract at his normal retirement age.

(iv)(A) If the plan is funded by a group annuity contract, the value of the benefits guaranteed by the insurance company issuing the contract under the plan with respect to each participant under the contract must not be less than the value of such benefits which the cash surrender value would provide for that participant under any individual annuity contract plan satisfying the requirements of paragraph (b) and delivered in the State where the principal office of the plan is located.

(B) If the plan is funded by a group insurance contract, the value of the benefits guaranteed by the insurance company issuing the contract under the plan with respect to each participant under the contract must not be less than the value of such benefits which the cash surrender value would provide for that participant under any individual insurance contract plan satisfying the requirements of paragraph (b) and delivered in the State where the principal office of the plan is located.

(v) Under the group annuity or group insurance contract, premiums or other consideration received by the insurance company (and, if a custodial account or trust is used, the custodian or trustee thereof) must be allocated to purchase individual benefits for participants under the plan. A plan which maintains unallocated funds in an auxiliary trust fund or which provides that an insurance company will maintain unallocated funds in a separate account, such as a group deposit administration contract, does not satisfy the requirements of this subdivision.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

[7 CFR Part 1867]

[FmHA Instruction 452.1]

REAMORTIZING AND RENEWING OPERATING LOANS

Proposed Revision

Notice is hereby given that the Farmers Home Administration has under consideration the revision of Part 1867, Title 7 of the Code of Federal Regulations (36 FR 17843; 37 FR 23628). The major proposed changes are as follows:

1. A delinquent Operating loan note may be reamortized within seven years from the date of its execution.

2. A delinquent Operating loan note may be renewed after the end of the seventh year from the date of its execution.

3. An Operating loan note may be reamortized or renewed when extra payments or refunds have been made totaling at least 10 percent of the balance owed on the note.

4. Reamortized or renewed notes will be retained in the borrower's case file.

5. The interest rate will be the current rate in effect at the time of reamortization or renewal.

Interested persons are invited to submit written comments, suggestions, data or arguments to the Office of the Deputy Administrator Comptroller, Farmers Home Administration, U.S. Department of Agriculture, Room 5007, South Building, Washington, D.C. 20250, on or before March 10, 1975. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Deputy Administrator Comptroller during regular business hours. (8:15 a.m.-4:45 p.m.)

As proposed, Part 1867 is revised to read as follows:

Part 1867—Reamortizing and Renewing Operating Loans

Sec.

1867.1 Introduction.
1867.2 Definitions.
1867.3 Eligibility requirements.
1867.4 Reamortization and renewal prohibitions.
1867.5 Rates and terms.
1867.6 Security.
1867.7 County Committee considerations.
1867.8 Processing the renewal promissory note.
1867.9 Approval authority.
1867.10 Disposition of promissory notes.

AUTHORITY: 7 U.S.C. 1989; delegation of authority by the Secretary of Agriculture, 7 CFR 2.23; delegation of authority by the Assistant Secretary for Rural Development, 7 CFR 2.70.

§ 1867.1 Introduction.

All borrowers are expected to repay their Operating loans in accordance with the planned repayment schedules. However, circumstances may occur which will not permit them to pay as scheduled or to refinance their loans with credit from other sources. This regulation prescribes the policy and procedure for reamortizing or renewing Operating loans made under the Consolidated Farm and Rural Development Act.

§ 1867.2 Definitions.

(a) *"Reamortize."* Reschedule the payments of an original note within seven years from the date of its execution.

(b) *"Renew."* Reschedule the payments of an original note after the end of the seventh year from the date of its execution.

§ 1867.3 Eligibility requirements.

(a) *Delinquent Operating loans.* A delinquent Operating loan note may be reamortized or renewed, as appropriate, when:

(1) The borrower is unable to refinance his Operating loan indebtedness;

(2) The borrower is making satisfactory progress under prevailing conditions in establishing his enterprise(s);

(3) The inability of the borrower to pay his Operating loan note(s) on schedule was due to circumstances beyond his control, such as depressed prices; adverse weather conditions which materially reduced income; accident or serious illness; substantial loss of livestock or crops due to disease, pestilence, or catastrophe; major tenure adjustments, etc.;

(4) The borrower's plan for the next operating year (or typical year if the next year will not be typical) shows that he can realistically meet the terms of the proposed payment schedule on the reamortized or renewed note(s) under the conditions which will likely prevail; and

(5) The reasons for the delinquency and the justification for the reamortization or renewal are fully documented in the running case record.

(b) *Other Operating loans.* An Operating loan note, regardless of whether it is delinquent, may be reamortized or renewed, as appropriate, when:

(1) The borrower has made extra payments or refunds, both totaling 10 percent or more of the principal balance of the note being reamortized or renewed;

(2) The refund or extra payment will result in a significantly reduced income for the remaining period of the loan;

(3) The borrower is unable to refinance his Operating loan indebtedness;

(4) The borrower is making satisfactory progress under prevailing conditions in establishing his enterprise(s);

(5) The borrower's plan for the next operating year (or typical year if the next year will not be typical) shows that he can realistically meet the terms of the proposed payment schedule on the reamortized or renewed note under the conditions which will likely prevail;

(6) The approving official determines that the borrower cannot reasonably be expected to meet the repayment schedule in the original note(s); and

(7) The justification for the reamortization or renewal is fully documented in the running case record.

§ 1867.4 Reamortization and renewal prohibitions.

An Operating loan note will not be reamortized or renewed when:

(1) The account is being serviced or may be serviced in the near future by the State Office, or has been referred to the Office of the General Counsel or the U.S. Attorney; or

(2) The rescheduling is solely for the purpose of improving the Farmers Home Administration's (FmHA) record with respect to delinquencies.

§ 1867.5 Rates and terms.

(a) The interest rate will be the current rate in effect at the time Form FmHA 452-1, "Renewal Promissory Note," is signed by the borrower. The unpaid accrued interest will be scheduled in the first installment. In some cases this will affect the scheduling of the unpaid principal.

(b) The repayment terms may include installments which are either unequal or equal, depending on the circumstances, and may also include a balloon installment when such arrangement is appropriate to the borrower's financial situation.

(c) The repayment period on a reamortized note will not extend beyond 7 years from the date of the original promissory note.

(d) The repayment period on a renewed note will not commence until after the end of the seventh year or extend beyond 12 years from the date of the original promissory note.

(e) The repayment period on a reamortized or renewed note will not exceed the useful life of the security.

§ 1867.6 Security.

A new security instrument will not be obtained as a prerequisite to reamortization or renewal, unless required for other reasons.

§ 1867.7 County committee considerations.

Before the reamortization or renewal of an Operating loan note is processed, the County Supervisor will take into consideration recommendations of the County Committee as a result of:

(a) The graduation review;

(b) The annual review of delinquent and other problem cases; and

(c) Consideration and certification of eligibility for any FmHA loan.

§ 1867.8 Processing the renewal promissory note.

A separate Form FmHA 452-1 will be prepared for each Operating loan note being reamortized or renewed. All parties who executed the note being reamortized or renewed will be required to execute Form FmHA 452-1, unless otherwise authorized by the State Director.

(a) If the County Office is in possession of the original note being reamortized or renewed, Form FmHA 452-1 will be processed in accordance with the provisions of the guidelines for completing this form available in any FmHA office and this regulation.

(b) If the County Office is not in possession of the original note being reamortized or renewed, the County Supervisor will request the Finance Office to have the note assigned to the insurance fund and returned to the County Office before processing Form FmHA 452-1.

§ 1867.9 Approval Authority.

Loan approval officials are hereby authorized to approve the reamortization or renewal of Operating loans subject to the policies within this regulation, and provided the principal amount owed on the Operating loan note being reamortized or renewed plus the outstanding total principal balance owed by the borrower on other Operating and Emergency loans does not exceed the loan approval official's authority shown in Subpart B of Part 1810 of this Chapter.

§ 1867.10 Disposition of promissory notes.

The original and County Office copy of all notes that are reamortized or renewed will be stamped "RENEWED, NOT PAID" or "REAMORTIZED, NOT PAID," as appropriate, by the County Office and retained in the borrower's case file. When a renewed or reamortized note has been paid in full or otherwise satisfied, it will be handled in accordance with the provisions of Subpart A of Part 1861 or Part 1864 of this Chapter.

Dated: January 30, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[7 CFR Part 1871]

[FmHA Instruction 455.1]

CHATTEL SECURITY

Liquidation of Chattel Security and Related Actions

Notice is hereby given that the Farmers Home Administration has under consideration a proposed amendment to Subpart B of Part 1871, Title 7, Code of Federal Regulations (36 FR 1118). The proposed change in § 1871.40(c)(3) will provide that the interest rate on Operating and Emergency loans to be paid by an ineligible transferee will be the current interest rate in effect at the time the transfer is approved or the rate in the note(s) being assumed, whichever is greater.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed amendment to the Deputy Administrator Comptroller, Farmers Home Administration, United States Department of Agriculture, Room 5007, South Building, Washington, D.C. 20250, on or before March 10, 1975. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Deputy Administrator Comptroller during regular business hours. (8:15 a.m. to 4:45 p.m.)

As proposed, § 1871.40(c)(3) will read as follows:

§ 1871.40 Transfer of chattel security and EO property and assumption of debts not provided for in § 1871.39 and release of liability.

• • • • • •

(c) *Transfer to ineligibles* • • •

• • • • • •

(3) FmHA debts assumed will be scheduled for repayment in amortized

XUM V40126 FEB 6 75 XUM

installments not to exceed five years, using Form FmHA 460-5. Interest to the transferee for Operating and EM loans will be the current interest rate in effect at the time of approval of the transfer or the rate specified in the note(s) evidencing the loan(s) being assumed, whichever is the greater. The interest rate for EO loans will be 6 percent. The transferred property (including EO property) will be made subject to any existing lien in favor of FmHA or by execution of new lien instruments.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social Security Administration

[20 CFR Part 404]

[Regulations No. 4]

FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE

Exclusion from Social Security Coverage of Certain Farm Rental Income Received by a Landowner or Tenant

Notice is hereby given, pursuant to the Administrative Procedure Act (5 U.S.C. 553) that the amendments to the regulations set forth in tentative form below are proposed by the Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare. The proposed amendments reflect the provisions of section 10 of Pub. L. 93-368, enacted August 7, 1974, which provide for the exclusion from social security coverage of farm rental income received by a landowner or tenant who turns over the management of his farm to an agent and does not himself materially participate in the farm operation.

Under present law, farm rental income is covered under social security if the rental arrangement provides that the landowner or tenant materially participate in the production of the agricultural or horticultural commodities on his land and if there is material participation by the landowner or tenant. In determining whether the landowner's or tenant's actions contribute in a material way to the production of the commodities raised on his farm, his own actions plus actions of his agent are considered. Actions by an agent are attributed to the farm landowner or tenant, so that if the agent participates in the management and operation of the farm, the farmowner or tenant is also deemed to be participating even though he does not personally participate.

A problem has arisen in the case of landowners who enter into an agreement with a professional farm management company or other person who has the responsibility to choose a tenant and to manage and supervise the farm operation. In such a situation, the landowner does not participate in the operation of the farm and views his income as investment income rather than income from farm self-employment.

Accordingly, the amendment provides that in such a situation the landowner would not be considered to participate in the operation of the farm. Therefore, his farm income would not count for social security purposes if he entered into an agreement with another person to manage or supervise the farm operation, including the selection of tenants, when there is in fact no participation on his part.

Consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare Building, Fourth and Independence Avenue SW, Washington, D.C. 20201, on or before March 10, 1975. The amendments will be effective upon final publication in the FEDERAL REGISTER.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue SW., Washington, D.C. 20201.

The proposed regulations are to be issued under the authority of sections 205(a), 211(a)(1), and 1102 of the Social Security Act, as amended, 53 Stat. 1368, as amended, 64 Stat. 502, as amended, 49 Stat. 647, as amended; 42 U.S.C. 405(a), 411(a)(1), and 1302.

(Catalog of Federal Domestic Assistance Program No. 13.803, Social Security—Retirement Insurance.)

Dated: January 20, 1975.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: January 31, 1975.

CASPAR W. WEINBERGER,
Secretary of Health, Education and Welfare.

Subpart K—Employment—Wages—Self-Employment—Self-Employment Income

Subpart K of Regulation No. 4 of the Social Security Administration, as amended (20 CFR Part 404), is further amended by revising paragraph (c)(5) and examples (5) and (6) in paragraph (c)(6) of § 404.1053 to read as follows:

§ 404.1053 Rentals from real estate; material participation.

• • • • • •

(c) *Special rule for "includible farm rental income"* • • •

• • • • • •

(5) ***Employees or agents.*** Any arrangement entered into by an employee or agent of an owner or tenant and another person is considered an arrangement entered into by the owner or tenant for purposes of satisfying the requirement set forth in paragraph (c)(2) of this section that the income must be derived under an arrangement between the owner or tenant and another person. For purposes of determining whether the arrangement satisfies the requirement set forth in paragraph (c)(3) of this section that the parties contemplate that the owner or tenant is to materially participate in the production or management of production of a commodity: (i) for taxable years ending after 1955 and beginning before January 1, 1974, services performed by such an employee or agent are considered services performed by the owner or tenant in determining the extent to which the owner or tenant has participated in the production or management of production of a commodity; (ii) for taxable years beginning after December 31, 1973, the activities (including services) of such an employee or agent shall not be considered as the activities (including services) of the owner or tenant in determining the extent to which the owner or tenant has participated in the production or management of production of a commodity.

(6) *Examples* • • •

• • • • • •

Example 5. J owned a farm several miles from the town in which he lived. He rented the farm to K under an arrangement which contemplated J's material participation in the management of production of wheat. J furnished one-half the seed and fertilizer and all the farm equipment and livestock. He employed H to perform all the services in advising, consulting, and inspecting which were contemplated by the arrangement, effective with taxable years beginning after December 31, 1973. J is not materially participating in the management of production of wheat by K. The work done by J's employee, H, is not attributable to J in determining the extent of J's participation. J's rental income from the arrangement is not to be included in computing his net earnings from self-employment.

Example 6. Assume the same facts as in the previous example except that J appointed the X Bank as his agent to enter into the rental arrangement with K and to perform the services which were contemplated by the arrangement, effective with taxable years beginning after December 31, 1973. J is not materially participating in the management of production of wheat by K because the work done by X Bank is not attributable to J in determining the extent of J's participation. J's rental income from the arrangement would not be included in computing his net earnings from self-employment.

Social and Rehabilitation Service

[45 CFR Part 205]

GENERAL ADMINISTRATION—PUBLIC ASSISTANCE PROGRAMS

Proposed Cost Allocation

Notice is hereby given that the regulation set forth in tentative form below is proposed by the Administrator, Social and Rehabilitation Service, with the approval of the Secretary of Health, Education, and Welfare. The proposed revision is necessary as we found the existing regulation, 45 CFR 205.150 (published in the FEDERAL REGISTER on September 26, 1973 (38 FR 26804)) deficient in two areas: (1) The existing regulation provides that no Federal financial participation will be allowed in the costs of administration, services (excluding those purchased) and training if a State fails to submit a revised cost allocation plan within 3 months after a request by the SRS Regional Commissioner, and the regulation does not clearly provide for reinstatement of the disallowed expenditures upon receipt of an approved cost allocation plan. (2) It inadvertently provides that FFP will be based on the old plan even where the State submits a new plan within the prescribed three months.

The proposal provides for deferring payment of any overstated portions of expenditures due to use of an outdated cost allocation plan until a new plan is filed with and approved by the SRS Regional Commissioner, rather than a total withdrawal of Federal financial participation in all allocated expenditures as required under the existing regulation. In addition, it places responsibility on the State to revise its cost allocation plan whenever it is outdated due to organizational changes within the State agency, changes in Federal law or regulations, or other similar changes, rather than only when the SRS Regional Commissioner requests a revised cost allocation plan.

Prior to the adoption of the proposed regulation, consideration will be given to any comments, suggestions or objections thereto which are received in writing by the Administrator, Social and Rehabilitation Service, Department of Health, Education, and Welfare, P.O. Box 2366, Washington, D.C. 20013, on or before March 10, 1975. Comments received will be available for public inspection in room 5324 of the Department's offices at 330 C Street, SW, Washington, D.C., on Monday through Friday of each week from 8:30 am to 5 pm (area code 202-245-0950).

(Section 1102, 49 Stat. 647 (42 U.S.C. 1302)) (Catalog of Federal Domestic Assistance Program Nos. 13.707, Child Welfare Services; 13.714, Medical Assistance Program; 13.724, Public Assistance—State and Local Training; 13.748, Work Incentive Program—Child Care; 13.754, Public Assistance Social Services; 13.761, Public Assistance—Maintenance Assistance (State Aid)).

Dated: December 16, 1974.

JAMES S. DWIGHT, JR.,
Administrator, Social and Rehabilitation Service.

Approved: January 31, 1975.

CASPAR W. WIENBERGER,
Secretary.

Section 205.150 of Part 205, Chapter II, Title 45, of the Code of Federal Regulations is revised to read as set forth below:

§ 205.150 Cost allocation.

(a) *State plan requirements.* (1) (i) A State plan under Titles I, IV-A, IV-B, VI, X, XIV, XVI or XIX of the Social Security Act must provide that the Single State Agency will have an approved cost allocation plan on file with the SRS Regional Commissioner which identifies and describes the methods and procedures the State has established for properly charging the costs of administration, services, and training activities under the plan in accordance with the Federal requirements set out in 45 CFR Part 74, Appendix C, and in Department and Social and Rehabilitation Service regulations and instructions.

(ii) The cost allocation plan shall include descriptions of the functions and activities by organizational units; *estimated costs for an annual period by organizational units* (unless *specifically waived by the Regional Commissioner*); and the basis used for allocating the various pools of costs to programs and activities (with justification for each).

The cost allocation plan must contain such other information as is necessary to document the validity of the cost allocation methods and precedures and must include methods and procedures for:

(A) Allocating all such administrative costs of the State Department in which the State agency is located between Federal and non-Federal programs;

(B) Identifying, of the costs applicable to more than one of the Federal programs, those applicable to each of the separate programs, in accordance with program classifications specified by the Secretary; and

(C) Segregating costs in paragraph (a)(1)(ii)(B) of this section by service and income maintenance functions, where applicable, and by such other classifications as are found necessary by the Secretary.

(iii) The estimated costs are included solely to permit evaluation of the methods of allocation, and therefore approval of the cost allocation plan shall not constitute approval of these estimated costs for use in calculating claims for Federal financial participation.

(2) A State shall revise its cost allocation plan when the allocation method shown in the existing plan is outdated due to organizational changes within the State agency, changes in Federal law or regulations, or other similar changes.

(b) *Federal financial participation.* (1) As a condition for receipt of Federal financial participation in administration, services and training for any quarterly period, a State's claim for such expenditures must be in accord with a cost allocation plan on file with and approved by the Regional Commissioner for that period.

(2) If a State fails to revise its cost allocation plan as required by paragraph (a)(2) of this section within the quarter that such changes are effective, the Regional Commissioner will defer payment of any overstated portions of expenditures which he determines to result from the State using an outdated cost allocation method until the State has submitted a revised cost allocation plan which is approved by him and the State has revised its claim accordingly.

(3) If a State does not have any cost allocation plan on file with the Regional Commissioner, payment will be made only for those costs of administration, services, and training which are entirely chargeable to a function or activity within a given title having one rate of Federal financial participation. Payment for the remaining cost of administration, services and training which requires an allocation method, will be deferred until such time as a cost allocation plan has been submitted and is approved by the Regional Commissioner.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 117]

[CGD 75-035]

FOX RIVER, WISC.

Proposed Drawbridge Operation Regulations

At the request of the City of Oshkosh, Wisconsin, the Coast Guard is considering revising the regulations for the 4 highway drawbridges across the Fox River and Portage Canal located within the City of Oshkosh, to provide periods during which the draws would not be required to open for the passage of vessels. The periods are 11:45 a.m. to 12:15 p.m., 12:45 p.m. to 1:15 p.m., and 3 p.m. to 5 p.m. In addition, the draws would open from 12 midnight to 8 a.m. only if at least 4 hours notice is given. The draws of these bridges are presently required to open on signal. This change is being considered because of increased vehicular traffic during the day and few vessel passages during the midnight to 8 a.m. period.

Interested persons may participate in the this proposed rule making by submitting written data, views, or arguments to the Commander (oan), Ninth Coast Guard District, 1240 East 9th Street, Cleveland, Ohio 44199. Each person submitting comments should include his name and address, identify the bridge, and give reason for any recommended

XUM
V40-26
FEB 6 75
XUM

change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Ninth Coast Guard District.

The Commander, Ninth Coast Guard District, will forward any comments received before March 7, 1975, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by adding a new paragraph (d) to § 117.643 to read as follows:

§ 117.643 Fox River and Portage Canal, Wis.

* * * * *

(d) Highway bridges at Oshkosh, Wisconsin

(1) The owners of or agencies controlling the bridges shall provide the necessary drawtenders and properly maintain operating machinery to ensure the safe opening of the draws.

(2) Signals.

(i) The signal for opening the bridges shall be one long blast followed by one short blast of a whistle, horn or other sound producing device.

(ii) The acknowledging signal from the drawtender when the draw shall open is one long blast followed by one short blast.

(iii) When the draw cannot be opened, the drawtender shall sound four short, rapid blasts.

(3) The draws shall be opened promptly on signal between the hours of 8 a.m. and 12 midnight except that on Monday through Friday from 11:45 a.m. to 12:15 p.m., 12:45 p.m. to 1:15 p.m., and 3 p.m. to 5 p.m. the draw need not open for the passage of vessels other than public vessels of the United States.

(4) Between the hours of 12 midnight and 8 a.m., the draws of the bridges shall open for the passage of the vessels if at least four hours notice is given to the Winnebago County Highway Department.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937 (33 U.S.C. 499, 49 U.S.C. 1655(g)(2)); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4))

Dated: January 30, 1975.

R. I. PRICE,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

Federal Aviation Administration

[14 CFR Part 45]

[Docket No. 14130; Notice No. 74-36A]

NATIONALITY AND REGISTRATION MARKS ON FIXED-WING AIRCRAFT

Extension of Comment Period

This notice extends the period for comments on notice 74-36 (published November 21, 1974; 39 FR 40862), proposing to regulate the size and location of registration marks on fixed-wing aircraft. The present comment period terminates on February 19, 1975.

This extension of the comment period is provided in response to a petition submitted by the Experimental Aircraft Association (EAA). The EAA states that additional time is needed because the Notice of Proposed Rule Making is of great interest to its members and because it plans to publish the full text of the notice in the January issue of its publication, "Sport Aviation." The EAA expects that its publication of the notice will result in numerous pertinent comments from its readers, inasmuch as the proposals therein will have a direct affect on their operations. The Experimental Aircraft Association requests that the period for comment be extended 30 days to March 19, 1975.

The FAA agrees that the members of the EAA have a particular interest in this notice because they build, own, and operate many types of aircraft which will be subject to the proposed rule. Moreover, the EAA submitted the original petition which led to the development of this notice, and we expect the EAA to contribute many useful and pertinent comments. Accordingly, we conclude that the public interest will be served by granting the extension. Further, we do not believe that granting the exemption will have any adverse effect on safety nor appreciably delay the completion of this regulatory action.

I find that the petitioners have shown a substantive interest in the proposed amendment, that good cause exists for an extension of the comment period until March 19, 1975, and that the extension is consistent with the public interest.

Therefore, pursuant to the authority delegated to me by the Administrator (14 CFR 11.45), the closing date for public comment on notice 74-36 is extended to March 19, 1975.

Issued in Washington, D.C., on January 29, 1975.

R. P. SKULLY,
Director, Flight Standards Service.

[Airspace Docket No. 74-GL-52]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the control zone and transition area at Escanaba, Michigan.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before March 10, 1975, will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposals contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Great Lakes Region, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A review of controlled airspace at Escanaba, Michigan, indicates the airspace should be changed to conform with present operation.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.171 (39 FR 354), the following control zone is amended to read:

ESCANABA, MICHIGAN

Within a 5-mile radius of Delta County Airport (Latitude 45°43'25" N., Longitude 87°05'56" W.); within 8 miles each side of the Escanaba VORTAC 007°, 101°, and 266° radials, extending from the 5-mile radius zone to 8 miles north, east and west of the VORTAC.

In § 71.181 (39 FR 440), the following transition area is amended to read:

ESCANABA, MICHIGAN

That airspace extending from 700 feet above the surface within a 6 mile radius of the Delta County Airport (Latitude 45°43'-25" N., Longitude 87°05'56" W.); that airspace extending from 1200 feet above the surface within a 19-mile radius of Escanaba VORTAC, excluding that portion which overlies the Marquette, Michigan transition area and that portion south of the 45°45' parallel.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Illinois, on January 13, 1975.

R. O. ZIEGLER,
Acting Director, Great Lakes Region.

[Airspace Docket No. 75-GL-2]

CONTROL ZONE

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the

Federal Aviation Regulations so as to designate a control zone at Waukesha, Wisconsin.

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Federal Aviation Administration, 2300 East Devon Avenue, Attention: Chief, Air Traffic Division, Des Plaines, Illinois 60018. All communications received on or before March 10, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Great Lakes Region, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A non-federal tower has been established on the Waukesha County Airport. The tower has official weather reporting capability. All requirements for a control zone have been met and one has been requested by the airport manager.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.171 (39 FR 354), the following control zone is added:

WAUKESHA, WISCONSIN

Within a 5 mile radius of the Waukesha County Airport (Latitude 43°02'25" N., Longitude 88°14'00" W.); within 2½ miles each side of the 272° bearing from the airport extending from the 5 mile radius area to 5.5 miles west. This control zone shall be effective during the specific dates and times established in advance by a notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Illinois, on January 13, 1975.

R. O. ZIEGLER,
Acting Director, Great Lakes Region.

[Airspace Docket No. 74-GL-55]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the control zone and transition area at Ironwood, Michigan.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before March 10, 1975, will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposals contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Great Lakes Region, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

The instrument approach procedures for the Gogebic County Airport have been revised. This requires a change in the controlled airspace required to protect the procedures. Accordingly it is necessary to alter the Ironwood, Michigan, control zone and transition area to adequately protect aircraft executing the revised procedures.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.171 (39 FR 354), the following control zone is amended to read:

IRONWOOD, MICHIGAN

Within a 6½-mile radius of Gogebic County Airport (Latitude 46°31'32" N., Longitude 90°07'54" W.); within 3 miles each side of the Ironwood VORTAC 258° radial, extending from the 6½-mile radius zone to 8 miles west of the VORTAC.

In § 71.181 (39 FR 440), the following transition area is amended to read:

IRONWOOD, MICHIGAN

That airspace extending upward from 700 feet above the surface within a 13-mile radius of the Gogebic County Airport (Latitude 46°31'32" N., Longitude 90°07'54" W.); within 3 miles each side of the 272° radial, extending from the 13-mile radius to 15 miles west of the Ironwood VORTAC and that airspace extending upward from 1200 feet above the surface within a 24-mile radius of the Ironwood VORTAC excluding the portion in the State of Wisconsin.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Illinois, on January 14, 1975.

H. W. POGGEMEYER,
Acting Director, Great Lakes Region.

[14 CFR Part 71]

[Airspace Docket No. 75-GL-41]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to designate a transition area at East Liverpool, Ohio.

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before March 10, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois.

A new instrument approach procedure has been developed for the Columbiana County Airport, East Liverpool, Ohio. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this new approach procedure by designating a transition area at East Liverpool, Ohio.

V40-26 FEB 6 75 XUM

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (39 FR 440), the following transition area is added:

EAST LIVERPOOL, OHIO

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Columbiana County Airport (Latitude 40°40'24'' N., Longitude 80°38'30'' W.); within 8 miles each side of the 070° bearing from the airport, extending from the 5-mile radius area to 8.5 miles east of the airport, excluding that portion which overlies the Beaver Falls, PA transition area.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Illinois, on January 20, 1975.

H. W. POGGEMEYER,
Acting Director,
Great Lakes Region.

WESTERN SLOPE GAS CO.

Pipeline Application

JANUARY 29, 1975.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (41 Stat. 449), as amended (30 U.S.C. 185), Northwest Pipeline Corporation, P.O. Box 1526, Salt Lake City, Utah 84110, has applied for a right of way for installation of the Rocky Mountain Exchange Meter Station Site across the following lands:

SIXTH PRINCIPAL MERIDAN, COLORADO

T. 8 S., R. 103 W.,
Sec. 29, NE¼SW¼ in Mesa County, Colorado.

The facility is necessary for the metering and regulation of natural gas moving through an already existing and approved pipeline system.

The purposes of this notice are: to inform the public that the Bureau of Land Management will be proceeding with the preparation of environmental and other analyses necessary for determining whether the application should be approved and, if so, under what terms and conditions; to allow interested parties to comment on the application, and to allow any persons asserting a claim to the lands or having bona fide objections to the proposed meter station right of way to file their objections in this office. Any person asserting a claim to the lands or having bona fide objections must include evidence that a copy thereof has been served on the applicant.

Any comment, claim, or objections must be filed with the Chief, Branch of Land Operations, Bureau of Land Management, Colorado State Office, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colorado 80202, on or before March 10, 1975.

have filed a petition to modify the application of 30 CFR 75.1201 to the following mines located in Lee County, Virginia:

L. & M. Coal Co., Inc.	No. 2 Mine
Glenwood Coal Co.	No. 1 Mine
H. & R. Coal Co., Inc.	No. 1 Mine
Bee Coals, Ltd.	No. 1 Mine
C. & C. Coal Co.	No. 1 Mine
Lawrence F. Williams Coal Co., Inc.	No. 1 Mine

30 CFR 75.1201 provides:

Such [mine] map shall be made or certified by a registered engineer or a registered surveyor of the State in which the mine is located.

In support of their petition to secure a waiver of Section 75.1201, Petitioners state:

(1) Due to a shortage of certified engineers in the Lee County, Virginia area, Petitioners have utilized the services of a person who has experience, but not a degree, in engineering. The materials prepared by this individual were certified and accepted by the Mining Enforcement and Safety Administration during the period from July, 1971, to September, 1974. On September 25, 1974, Petitioners were issued notices of violation for failure to have mine maps which were made or certified by a registered engineer or a registered surveyor.

(2) Petitioners' employee has experience in all phases of mine engineering including: planning, projection, mapping, surveying, and plotting. In addition, this individual is certified by the State of Virginia as a mine foreman for both deep and surface mines.

(3) Petitioner's alternate method of employing a person who is not an engineer to supplement and revise mine maps will at all times guarantee no less than the same measure of protection afforded by the application of the mandatory standard.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before March 10, 1975. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

[Designation Number A133]

PENNSYLVANIA

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in Clarion County, Pennsylvania, as a result of a natural disaster consisting of a hailstorm, wind, and rain on September 9, 1974.

Therefore, the Secretary has designated this area as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Milton J. Shapp that such designation be made.

Applications for Emergency loans must be received by this Department no later than March 21, 1975, for physical losses and October 21, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 30th day of January, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

INDIANA

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following counties in Indiana:

Greene	Marshall
Hamilton	Parke
Lawrence	

The Secretary has found that this need exists as a result of a natural disaster shown on the attached sheet.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Otis R. Bowen that such designation be made.

Applications for Emergency loans must be received by this Department no later than March 21, 1975, for physical losses and October 21, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 31st day of January, 1975.

Forest Service

CLEAR CREEK PLANNING UNIT

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Clear Creek Planning Unit, Gifford Pinchot National Forest, Washington. USDA-FS-R6-DES-(Adm)-75-08).

The environmental statement concerns a revised land use plan for the Clear Creek Planning Unit. The proposed action describes how the various resources of the Unit would be used and what the output for each resource is expected to be.

This draft environmental statement was transmitted to CEQ on January 29, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3231, 12th St. & Independence Ave., SW., Washington, D.C. 20250.

Gifford Pinchot National Forest, 500 West 12th Street, Vancouver, Washington 98660.

USDA, Forest Service, Pacific Northwest Region, 319 Southwest Pine Street, Portland, Oregon 97204.

A limited number of single copies are available upon request to Forest Supervisor, Spencer T. Moore, Gifford Pinchot National Forest, 500 West 12th Street, Vancouver, Washington 98660.

Copies of the environmental statement have been sent to various Federal, state and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public and from state and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Spencer T. Moore, Forest Supervisor, Gifford Pinchot National Forest, 500 West 12th Street, Vancouver, Washington 98660. Comments must be received by March 31, 1975 in order to be considered in the preparation of the final environmental statement.

JANUARY 29, 1975.

ROBERT R. TYRREL,
Director, Planning, Programing and Budgeting.

Office of the Secretary

ADVISORY COMMITTEE ON HOG CHOLERA ERADICATION

Notice of Determination

Notice is hereby given that the Secretary of Agriculture proposes to establish the Advisory Committee on Hog Cholera Eradication for a 2-year period. The Secretary has determined that establishment of the Committee is in the public interest in connection with the duties imposed on the Department by law.

The purpose of the Committee will be to advise the Secretary regarding program operations and measures to prevent, suppress, control or eradicate hog cholera. Membership will include representatives of the swine and related industries, State and local government agencies, professional and scientific groups, an officer or employee of the Department, and the general public.

This notice is given in compliance with Pub. L. 92-463. Views and comments of interested persons may be submitted to the Administrator, Animal and Plant Health Inspection Service, South Building, Room 312-E, Washington, D.C. 20250, until February 24, 1975. All written submissions made pursuant to this notice will be made available for public inspection at the Federal Building, 6505 Belcrest Road, Room 705, Hyattsville, Maryland 20782, during regular hours of business (8 a.m. to 4:30 p.m., Monday to Friday, except holidays) in a manner convenient to the public business (7 CFR 1.27(b)).

JOSEPH R. WRIGHT, JR.,
Assistant Secretary for Administration.

FEBRUARY 3, 1975.

Soil Conservation Service

UPPER BRUSHY CREEK WATERSHED, ALABAMA

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines 39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Upper Brushy Creek Watershed Project, Alabama, USDA-SCS-EIS-WS-(ADM)-75-1-(D)-AL.

The environmental impact statement concerns a plan for watershed protection, flood prevention, and drainage. The planned works of improvement include conservation land treatment, supplemented by 7.2 miles of channel work and one grade stabilization structure. The channel work will involve enlargement by excavation to provide a more efficient and unrestricted stream flow in a flatland watershed that is about 60 percent agricultural cropland and pastureland. Of the 7.2 miles of work proposed on existing streams or channels, none involves streams with perennial flow. There is practically no defined channel on 5.8 miles of which one-half involves ponded water and the rest ephemeral or intermittent flow. The balance of 1.4 miles is manmade or previously modified channels which involves ponded water and ephemeral flow.

A limited supply of copies is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, 138 South Gay Street, Auburn, Alabama 36830.

Copies of the draft environmental impact statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to W. B. Lingle, State Conservationist, Soil Conservation Service, 138 South Gay Street, Auburn, Alabama 36830.

Comments must be received on or before April 1, 1975, in order to be considered in the preparation of the final environmental impact statement.

Dated: January 30, 1975.

WILLIAM B. DAVEY,
Deputy Administrator for Water Resources Soil Conservation Service.

ELECTRONIC INSTRUMENTATION TECHNICAL ADVISORY COMMITTEE

Partially Closed Meeting and Correction

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. App. I (Supp. III, 1973), and Office of Management and Budget Circular A-63 (Revised), Advisory Committee Management, effective May 1, 1974, notice was given (40 FR 3485) of a meeting of the Electronic Instrumentation Technical Advisory Committee to be held Tuesday, February 25, 1975, at 9:30 a.m. in Room 5230, Main Commerce Building, 14th and Constitution Avenue NW., Washington, D.C. 20230. The Notice of Determination, approved by the Assistant Secretary of Commerce for Administration and the delegate of the General Counsel of the Department of Commerce on December 16, 1974 and December 12, 1974 respectively, to close a portion of such meeting to the public, was incorrectly published and should read as set forth below.

Dated: January 29, 1975.

RAUER H. MEYER,
Director, Office of Export Administration, Bureau of East-West Trade.

NOTICE OF DETERMINATION

In response to written requests of representatives of a substantial segment of the electronic industry, the Electronic Instrumentation Technical Advisory Committee was established by the Secretary of Commerce pursuant to section 5(s)(1) of the Export Administration Act of 1969, 50 U.S.C. App. Section 2404(c)(1) (Supp. III, 1973), as amended, Public Law No. 93-500, section 5(b) (October 29, 1974), to advise the Department of Commerce with respect to questions involving technical matters, worldwide availability, and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to electronic instrumentation, including technical data related thereto, and including those whose export is subject to multilateral (COCOR) controls.

The Committee, which currently has eleven members representing industry and eight members representing government agencies, will terminate no later than October 23, 1975, unless extended by the Secretary of Commerce. All members of the Committee have the appropriate security clearance.

The Committee's activities are conducted in accordance with the provisions of section 5(c)(1) of the Export Administration Act of 1969, as amended, the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. III, 1973), and Office of Management and Budget Circular A-63 (Revised), Advisory Committee Management, effective May 1, 1974. Section 10 of the Federal Advisory Committee Act provides, among other

XUM
V40-26
FEB 6 75
XUM

things, that the meetings of advisory committees are to be open to the public, and to public participation, unless the head of the agency (or his delegate) to which the committee reports determines in writing that all, or some portion, of the agenda of the meeting of the committee is concerned with matters listed in section 552(b) of Title 5 of the United States Code.

Section 552(b)(1) of Title 5, United States Code, provides that information may be withheld from the public if it concerns matters specifically required by Executive Order to be kept secret in the interest of the national defense or foreign policy.

Notices of Determination authorizing the closing of meetings, or portions thereof, of the Electronic Instrumentation Technical Advisory Committee and its formal subcommittees, dealing with security classified matters, were approved on March 12, 1974 for the Committee's first meeting on April 9, 1974; on April 25, 1974, for the meeting of May 9, 1974; and on May 28, 1974, covering a series of meetings for the period May 28, 1974 through January 3, 1975.

In order to provide advice to the Department under the terms of its charter, the Committee and formal subcommittees thereof will continue to hold a series of meetings dealing with the matters set forth in the first paragraph of this Determination. These meetings will include discussions of the COCOM control list as it relates to the commodities and technical data under its purview, and with the foreign availability of these commodities and technical data. In addition, the Committee and its formal subcommittees will be preparing recommendations for the Department's consideration relating to the U.S. Government's negotiating position on COCOM-related matters. Much of the information relating to the COCOM control list, as well as proposed changes, is now or will be security classified for national security or foreign policy reasons, pursuant to Executive Order No. 11652, 3 C.F.R. 339 (1974). In order for the Committee and its formal subcommittees to provide required advice to the U.S. Government, it will be necessary to provide the Committee and its formal subcommittees with such classified material. Therefore, the portions of the series of meetings of the Committee and of subcommittees thereof that will involve discussions of matters specifically authorized under criteria established by an executive order to be kept secret in the interest of national defense or foreign policy and are in fact properly classified pursuant to such executive order, must be closed to the public. The remaining portions of the series of meetings will be open to the public.

Accordingly, I hereby determine, pursuant to section 10(d) of the Federal Advisory Committee Act that those portions of the series of meetings of the Committee and of any subcommittees thereof, dealing with the aforementioned classified materials shall be exempt, for the period January 4, 1975, to October 22, 1975, from the provisions of section 10(a)(1) and (a)(3), relating to open meetings and public participation therein, because the Committee and subcommittee discussions will be concerned with matters listed in section 552(b)(1) of Title 5, United States Code. The remaining portions of the meetings will be open to the public.

Dated: December 16, 1974.

GUY W. CHAMBERLIN, JR.,
Assistant Secretary for Administration.

ALFRED MEISNER,
Acting General Counsel.

National Oceanic and Atmospheric Administration

COHANZICK ZOO, BRIDGETON, N.J.

Withdrawal of Permit Application for Marine Mammals

On February 26, 1974, notice was published in the FEDERAL REGISTER (39 FR 7476), that an application had been filed with the National Marine Fisheries Service by the Cohanzick Zoo, Cumberland County, Bridgeton, New Jersey 08302, for a public display permit to take one (1) California sea lion (*Zalophus californianus*).

Notice is hereby given that the Cohanzick Zoo has requested to withdraw the application, and that the request to withdraw was acknowledged and accepted without prejudice by the National Marine Fisheries Service on January 27, 1975.

Dated: January 30, 1975.

ROBERT F. HUTTON,
Acting Director,
National Marine Fisheries Service.

[FR Doc.75-3402 Filed 2-5-75;8:45 am]

LLOYD SMALLEY

Issuance of Permit for Marine Mammals

On October 31, 1974, notice was published in the FEDERAL REGISTER (39 FR 38403) that an application had been filed with the National Marine Fisheries Service by Lloyd Smalley, 212 Belle Avenue, San Rafael, California 94901, to take an unspecified number of beached and stranded California sea lions (*Zalophus californianus*), harbor seals (*Phoca vitulina*), and northern elephant seals (*Mirounga angustirostris*) from the beaches of California for the purposes of rehabilitating the animals and returning them to their natural habitat. This application was for the purpose of scientific research.

Notice is hereby given that on January 31, 1975, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the National Marine Fisheries Service issued a Permit to Lloyd Smalley, subject to certain conditions set forth therein. The Permit authorizes the taking of up to twenty-five (25) of the above requested marine mammals in any combination each year through calendar year 1979, provided no more than ten animals are maintained at any one time. The Permit is available for review by interested persons in the office of the Director, National Marine Fisheries Service, Washington, D.C. 20235, and in the Office of the Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Dated: January 31, 1975.

JOHN W. GEHRINGER,
Acting Director,
National Marine Fisheries Service.

PAUL J. PONGANIS

Issuance of Permit for Marine Mammals

On November 18, 1974 notice was published in the FEDERAL REGISTER (39 FR 40522), that an application had been filed with the National Marine Fisheries Service by Paul J. Ponganis, Division of Natural Sciences, Coastal Marine Laboratory, University of California, Santa Cruz, California 95064, for a scientific research permit to take twelve (12) Pacific white-sided dolphins (*Lagenorhynchus obliquidens*), removing up to four (4) muscle tissue samples from each dolphin.

Notice is hereby given that, on January 31, 1975, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the National Marine Fisheries Service issued a Permit for the above mentioned taking to Paul J. Ponganis, subject to certain conditions set forth therein. The Permit is available for review by interested persons in the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235, and in the Office of the Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Dated: January 31, 1975.

JOHN W. GEHRINGER,
Acting Director, National
Marine Fisheries Service.

ROEDING PARK ZOO

Issuance of a Permit for Marine Mammals

On July 15, 1974, notice was published in the FEDERAL REGISTER (39 FR 25967) that an application had been filed with the National Marine Fisheries Service by Roeding Park Zoo, 890 W. Belmont Street, Fresno, California 93728, to take two (2) California sea lions (*Zalophus californianus*) for the purpose of public display.

Notice is hereby given that on January 27, 1975, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the National Marine Fisheries Service issued a Permit to the Roeding Park Zoo, subject to certain conditions set forth therein. The Permit is available for review by interested persons in the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235 and in the Office of the Regional Director, Southwest Region, 300 South Ferry Street, Terminal Island California 90731.

Dated: January 27, 1975.

JOHN W. GEHRINGER,
Acting Director,
National Marine Fisheries Service.

[FR Doc.75-3399 Filed 2-5-75;8:45 am]

SEA-ARAMA MARINEWORLD

Issuance of Permit for Marine Mammals

On May 20, 1974, notice was published in the FEDERAL REGISTER (39 FR 17783), that an application had been filed with the National Marine Fisheries Service by Sea-Arama Marineworld, Seawall Boulevard at 91st Street, P.O. Box 3086, Galveston, Texas 77550, for a permit to take seven (7) Atlantic bottlenosed dolphins (*Tursiops truncatus*) for the purpose of public display, and to subsequently maintain a permanent inventory of no more than fifteen (15) Atlantic bottlenosed dolphins (*Tursiops truncatus*), through the replacement of animals lost in the course of normal attrition.

Notice is hereby given that, on January 30, 1975, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407), the National Marine Fisheries Service issued a Permit to Sea-Arama Marineworld, for four (4) Atlantic bottlenosed dolphins.

Sea-Arama was denied a permit to maintain a permanent inventory of marine mammals. The policy statement regarding permanent inventory was published in the FEDERAL REGISTER (39 FR 29607). The Permit is available for review by interested persons in the Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235, and the Office of the Regional Director, National Marine Fisheries Service, Southeast Region, Duval Building, 9450 Gandy Boulevard, St. Petersburg, Florida 33702.

Dated: January 30, 1975.

JOHN W. GEHRINGER,
Acting Director, National
Marine Fisheries Service.

WAIKIKI AQUARIUM, UNIVERSITY OF HAWAII

Notice of Receipt of Application

Notice is hereby given that the following applicant has applied in due form for a permit to take marine mammals as authorized by the Marine Mammal Protection Act of 1972 and the Regulations Governing the Taking and Importing of Marine Mammals.

Waikiki Aquarium, University of Hawaii, 2777 Kalakaua Avenue, Honolulu, Hawaii 96815, to take one female monk seal (*Monachus schauinslandi*) for the purpose of public display.

The Hawaiian monk seal will be taken from Laysan Islands. The animal would be taken by the applicant or appropriate members of the Armed Forces, such as the Coast Guard or Navy.

The animal will be maintained in a 70,000 gallon pool, within a fenced off area 58 feet long, 20 feet wide and 5½ feet deep. There is an island, 19 feet long and 8 feet wide for basking with coves underneath for hiding and privacy. A total of two monk seals and three harbor seals will be maintained in this fenced-in area.

The Curator/Acting Director, has worked with captive animals for 5½ years with experience in captive pinniped husbandry. The Aquarium's leading caretaker has 28 years of experience in the maintenance of pinnipeds in captivity.

The Waikiki Aquarium is an educational branch of the University of Hawaii, which hosts approximately 229,000 visitors annually.

The arrangements and facilities for transporting and maintaining the marine mammals requested in the above application have been inspected by licensed veterinarians, who have certified that such arrangements and facilities are adequate to provide for the well-being of the Hawaiian monk seals.

Documents submitted in connection with the above application are available for review at the following locations:

Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235 (telephone 202/634-7529);

Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731 (telephone 213/548-2575).

Concurrent with the publication of this notice in the FEDERAL REGISTER, the Secretary of Commerce is forwarding copies of this application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Interested parties may submit written data or views on this application within 30 days of the publication of this notice to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235.

All statements and opinions contained in support of this application are summaries based upon information supplied by the applicant and, therefore, do not necessarily reflect the views of the National Marine Fisheries Service.

Dated: January 30, 1975.

ROBERT F. HUTTON,
Associate Director for Resource
Management, National Marine
Fisheries Service.

Office of the Secretary

[Department Organization Order 45-1]

ECONOMIC DEVELOPMENT ADMINISTRATION

Organization and Functions

SECTION 1. *Purpose.* .01 This order prescribes the organization and assignment of functions within the Economic Development Administration (EDA). Department Organization Order 10-4, "Assistant Secretary for Economic Development," prescribes the scope of authority of the Assistant Secretary for Economic Development and the functions of EDA.

.02 This revision provides for decentralization of approval authority of projects under sections 101 and 201 of the Public Works and Economic Development Act of 1965, as amended, (42 U.S.C. 3121) (the "Act"), to the Regional Directors.

SEC. 2. *Organization Structure.* The principal organization structure and line of authority of the Economic Development Administration shall be as depicted in the attached organization chart (Exhibit 1).[1] A copy of the organization chart is attached to the original of this document on file in the Office of the Federal Register.

SEC. 3. *Office of the Assistant Secretary for Economic Development.* .01 *The Assistant Secretary* directs the programs and is responsible for the conduct of all activities of the Economic Development Administration subject to the policies and directives prescribed by the Secretary of Commerce.

.02 *The Deputy Assistant Secretary* shall act as principal adviser to the Assistant Secretary in the formulation, development and definition of policy issues; serve as Executive Secretary and provide or arrange for staff support, as required, for the National Public Advisory Committee on Regional Economic Development; represent the Administration on international organizations when so designated; provide overall direction and coordination of the Regional Offices, and establish uniform overview standards and procedures to be followed by the Regional Offices' Environmental Specialists in their review of projects under Sections 101 and 201 of the Act; supervise the

[1] Exhibit 1 filed as part of the original document.

XUM
V 40 26 FEB 6 75 XUM

activities of the Investigations and Inspections Staff and the Indian Program Staff; assist the Assistant Secretary in all matters affecting the Economic Development Administration; and perform the duties of the Assistant Secretary during the latter's absence.

.03 *The Investigations and Inspections Staff* shall investigate alleged violations of law or other impropriety on the part of applicants or recipients; conduct inspections relating to the conduct and performance of field personnel and review the suitability of applicants for financial assistance. The Staff shall also conduct special investigations requested by the Assistant Secretary, as well as inspections to assure the physical security of all EDA offices.

.04 *The Indian Program Staff* shall administer the Indian economic development program and advise the Deputy Assistant Secretary concerning its general effectiveness. It shall recommend approval or denial of projects proposed for Indian areas except all projects under sections 101 and 201 of the Act which do not require special action; and negotiate and monitor interagency agreements relating to Indian economic development. (Projects requiring special action are those which are called to Washington for purposes of monitoring, involve controversial aspects, or—for example—require an environmental impact statement which must be approved by the Special Assistant for Environmental Affairs.)

SEC. 4. *Deputy Assistant Secretary for Economic Development Planning.*

.01 The Deputy Assistant Secretary for Economic Development Planning is the principal adviser to the Assistant Secretary on matters of development planning, including the development of policies for improving Federal, State, and local government economic programming. Through the offices reporting to him, the Deputy Assistant Secretary shall:

a. Coordinate and direct EDA economic development planning activities relating to regions, districts (including economic development centers), redevelopment areas, and other areas of substantial needs;

b. Formulate and recommend to the Assistant Secretary standards and criteria for administration of economic development planning by Regional Offices;

c. Exercise responsibility for EDA's interagency and inter-governmental relations and its relations with those quasi-public and private agencies interested in economic development for districts and areas;

d. Recommend designation of economic development districts, economic development centers, redevelopment areas, and Title I areas which fulfill the statutory criteria;

e. Conduct an annual review of the areas and districts designated for assistance under the Act, and recommend such modifications or terminations of eligibility as may be appropriate;

f. Provide economic data, analyses and studies, and planning grants to development districts and areas; and

g. Recommend technical assistance proposals for areas and districts.

.02 The Deputy Assistant Secretary for Economic Development Planning shall direct and supervise the following organization elements:

a. *The Office of Planning and Program Support* which shall:

1. Have prime responsibility for coordinating the preparation, review and approval of EDA-developed planning documents;

2. Develop analyses and recommended strategies of economic development, including a system of priorities of EDA's financial assistance, for areas and districts;

3. Develop economic development planning systems that reflect EDA objectives and respond to local and regional problems and potentials;

4. Develop the methods and techniques needed to evaluate established planning systems including the ability of local representatives to understand and utilize the planning system as well as the compatibility of locally developed plans with annual agency objectives;

5. Participate in the development of budgetary requirements and coordinate with the Office of Administration and Program Analysis in the allocation of resources among Regional Offices as well as among EDA programs;

6. Provide information and special services on domestic and international regional development planning;

7. Provide guidance to Regional Offices on the application of economic development planning techniques and systems to the specific problems of the Region;

8. Advise and assist Regional Offices in implementing economic planning activities after the formal designation of economic development districts and areas;

9. Guide Regional Offices in assisting development organizations to prepare Overall Economic Development Programs (OEDPs);

10. In coordination with Regional Offices, provide guidance to economic development district and area organizations on the techniques and methods of economic analysis;

11. Formulate planning and development policies and procedures for guiding the preparation and submission of district and area OEDPs, including the establishment of policies and standards for their review by Regional Offices;

12. Initiate suspension of the receipt and processing of all applications for assistance from areas and districts which fail to submit acceptable OEDP progress reports;

13. Evaluate services, efficient existing capacity, and competitive producers for use in making determinations on excess capacity, pursuant to section 702 of the Act; and

14. Identify industries which have demonstrated growth trends for the purpose of relating those industries to agency plans.

b. *The Office of Economic Research* which shall:

1. Direct and conduct a program of internal and external economic research designed to meet both planning and operating needs and concerned with economic development problems and opportunities for geographical subdivisions (e.g., regions, development districts, redevelopment areas, etc.);

2. Arrange for and monitor EDA-sponsored research conducted by other elements of the Department, other Government agencies, or private organizations;

3. Encourage and stimulate research and data collection on economic development, both in and out of Government;

4. Review, evaluate, integrate and disseminate (a) the results of research sponsored by EDA, and (b) current methodological and other research findings wherever generated that are relevant to EDA's objectives and programs;

5. Maintain a central reference collection of economic development materials; and

6. Study and evaluate the effects of Government policies on sub-national economic development.

c. *The Office of Development Organizations* which shall:

1. Design and direct a program to establish multi-county development districts in consultation and with the assistance and cooperation of EDA Regional Offices, and with the concurrence of the States affected;

2. Initiate policy guidelines and criteria concerning the development district and area organizations for use by other elements of EDA, and by appropriate State and local agencies;

3. Evaluate and approve proposed area and district economic development organizations;

4. Assist Regional Office efforts to organize economic development districts, including the recruitment of staff;

5. Develop and recommend model administrative budgets, reporting procedures, and job specifications for use by area and district economic development organizations;

6. Establish policies and standards for the review of progress reports by Regional Offices in cooperations with the Office of Planning and Program Support;

7. Design a system of records to indicate progress as compared to planned objectives on all grants made under section 301(b) of the Act and assist Regional Offices in implementing system;

8. Provide guidelines to Regional Offices in order to administer planning grants made under the Act to State, district, and area agencies;

9. Evaluate and recommend candidates for appointments to professional staff positions in economic development districts in cooperation with the Regional Offices;

10. Review Regional Office recommendations for the designation and/or termination of economic development district and economic development centers;

11. Promptly advise interested Federal, State, and local agencies of all changes affecting the eligibility status of existing or proposed economic development districts;

12. Prepare and distribute maps and related materials showing organizational and designation status of economic development districts;

13. Determine whether an area meets the statistical criteria to qualify as a redevelopment area or a Title I area;

14. Recommend changes in the qualification status of redevelopment areas and Title I areas;

15. Recommend designation or change in the designation status of redevelopment or Title I areas;

16. Conduct an annual review of area eligibility and recommend termination of areas no longer eligible for designation; and

17. Recommend minor adjustments to boundaries of redevelopment areas.

SEC. 5. *Deputy Assistant Secretary for Economic Development Operations.*

.01 The Deputy Assistant Secretary for Economic Development Operations, through the offices reporting to him, shall:

a. Provide coordinated direction of all EDA activities related to financial assistance for or to physical projects which will improve local economies and supervise the execution of this aspect of EDA's program;

b. Recommend standards, policies and criteria for the technical evaluation and processing of project applications for financial assistance, including public works grants and loans, business loans, and technical assistance;

c. Direct, conduct, coordinate, monitor and, where appropriate, originate technical assistance projects (including management assistance and feasibility studies) subject to coordination with the Deputy Assistant Secretary for Economic Development Planning on proposed technical assistance projects related to area, district or center planning;

d. Review and recommend approval or denial of project applications except all projects under sections 101 and 201 of the Act, which do not require special action. (Projects requiring special action are those which are called to Washington for purposes of monitoring, involve controversial aspects, or—for example—require an environmental impact statement which must be approved by the Special Assistant for Environmental Affairs.)

e. Evaluate activities of the Regional Offices in applying policies, standards, and procedures for processing project applications to assure efficient, effective, and economical accomplishment of approved projects;

f. Execute agreements with other Federal departments and agencies for the conduct of specialized technical assistance; and

g. Study and evaluate the manpower development and training needs of redevelopment areas and of economic development districts, and recommend appropriate joint action with the Departments of Labor and Health, Education, and Welfare.

.02 The Deputy Assistant Secretary for Economic Development Operations shall direct and supervise the following organization elements:

a. *The Office of Public Works* which shall:

1. Direct and oversee all phases of the Public Works program;

2. Recommend policies, standards and procedures for accepting, processing, reviewing, and approving requests for public works grants and loans, consistent with the procedures contained in the Act;

3. Maintain surveillance, evaluate progress, and submit reports on the application by Regional Offices of standards, policies, and procedures to assure efficient, effective, and economical accomplishment of the approved projects;

4. Arrange for services from other Federal agencies for the administration of approved public works grants and loans;

5. Maintain operating liaison with Federal agencies having grant-in-aid programs which may supplement EDA programs, and with those Federal agencies delegated responsibility for administering or servicing EDA projects;

6. Make program and policy reviews and initiate action for the reservation of funds for all public works grants and loans, overruns, amendments and revisions, and concur in all major amendments and major revisions to approved projects which require no additional funding; and

7. For projects which require special action at the Washington level, review the project file and recommend approval or disapproval to the Assistant Secretary.

b. *The Office of Business Development* which shall:

1. Recommend policies, standards, and procedures for processing and approving applications for financial assistance for industrial or commercial usage, consistent with the criteria contained in the Act;

2. Review applications for commercial or industrial loans and working capital guarantees, and recommend approval or denial;

3. Maintain surveillance over the implementation by Regional Offices and policies, standards and procedures related to processing loan of applications for business development to assure efficient, effective, and economical accomplishment of the business development programs;

4. Develop and implement EDA approved agreements with the Small Business Administration and other Federal agencies to secure support of the business development programs;

5. Monitor operations of industrial and commercial projects approved by EDA, including outstanding loans for projects approved under provisions of the Area Redevelopment Act, and prepare reports of accomplishments;

6. Arrange for or provide needed specialized assistance to recipients of EDA industrial and commercial loans and guarantees and Area Redevelopment Act loans;

7. Develop policies, plans, and procedures to improve or terminate projects in default of loan conditions;

8. Provide assistance in the liquidation of the affairs and functions conducted under the Area Redevelopment Act;

9. Establish contact and promote large scale involvement of the private sector in EDA's economic development activities; and

10. Maintain operating liaison with other agencies concerned with the activities of this Office.

c. *The Office of Technical Assistance* which shall:

1. Propose policies, standards, and procedures pertaining to the acceptance, review, and approval of requests for technical assistance, consistent with the criteria of the Act;

2. Plan and develop technical assistance projects in cooperation with other offices, where appropriate;

3. Direct or monitor the performance and implementation of approved technical assistance projects;

4. Recommend policies, standards, and procedures for evaluating and utilizing the results of technical assistance projects;

5. Execute agreements with other Federal departments and agencies for the conduct of specialized technical assistance;

6. Recommend policies and practices to facilitate effective relationships with other Government agencies which have complementary programs for technical assistance;

7. Maintain surveillance over the application of policies, standards, and procedures by the Regional Offices in processing project applications;

8. Review and recommend project applications for approval or denial; and

9. Coordinate the efforts of EDA in the manpower training program.

SEC. 6. *Office of Administration and Program Analysis.* The Office of Administration and Program Analysis shall be responsible for providing the full range of administrative management services and for program analysis and evaluation functions with respect to EDA's substantive programs. These functions shall be carried out through the principal organizational elements of the Office, as prescribed below, except that personnel management services, accounting for administrative funds, and inhouse equal opportunity staff services shall be obtained from the appropriate Departmental offices.

.01 *The Program Analysis Division* shall develop and implement measures of resources utilization for programming and budgeting purposes; develop and conduct a systematic program evaluation effort for EDA; prepare the annual Program Memorandum and analytical studies required by the Office of Management and Budget; and develop cost benefits studies to aid the Assistant Secretary in making choices and decisions between alternative programs for economic development projects, activities, and programs in achieving the objectives of the Act and EDA.

XUM
V40126
FEB 6 75
XUM

.02 *The Management Analysis Division* shall conduct organization and management studies and surveys; plan and conduct a program for achieving maximum economy, effectiveness, and efficiency, and for obtaining optimum personnel utilization; develop and conduct a program for the efficient management of all official records, including an issuance system for administrative and program orders, and the design and control of official forms; and develop and administer a report control system for all administrative and operational reports.

.03 *The Budget Division* shall develop and manage an integrated financial management and budgeting system for EDA. It shall develop and prepare the annual budget for EDA; be responsible for the total financial program of EDA, and for the fiscal aspects of EDA programs entrusted to other Federal agencies; and operate a fiscal control system for both program and administrative expenses consistent with the requirements of the Anti-Deficiency Act, which shall include but not be restricted to, allotment of funds, operating budgets, employment limitations, and analyses of reports and proposed actions relating thereto.

.04 *The Accounting Division* shall develop and maintain accounting systems and prepare financial reports for internal and external use, according to the needs of management, the requirements of laws or regulations, and established policies; analyze financial and operating data to assure that financial and management policies are being followed; and serve as the liaison with the Office of the Secretary and other Federal agencies in all accounting matters.

.05 *The Information Systems and Services Division* shall plan, develop, acquire, and coordinate the use of automatic data processing systems and equipment for EDA; provide data processing services, including the conduct of feasibility studies and the development of systems and programs for the applications of automatic data processing techniques; develop and maintain a comprehensive information and data base system to meet specified requirements for administrative, planning, operational, program management, and program evaluation purposes; and provide periodic and special summary reports on current optional trends and performance comparisons to planned goals.

.06 *The Office Services Division* shall provide or arrange for office services for EDA's headquarters and, as required, for the Regional Offices, including the procurement of administrative supplies, vehicle hire, furniture, equipment, and the distribution of printed and bound materials; evaluate, report on, and make recommendations on the utilization of space, supplies, equipment, communications, and related services within EDA; and serve as liaison with the Office of the Secretary on office services matters.

.07 *The Executive Secretariat* shall receive all correspondence addressed to the Office of the Assistant Secretary, and assign it to the appropriate office for action; record controlled and non-controlled correspondence, maintain prompt followup of replies to insure that deadlines are met; and provide a selective reference service to files as requested by EDA officials.

SEC. 7. *Office of the Chief Counsel. The Office of the Chief Counsel* shall:

a. Render all necessary legal services, subject to the provisions of Department Organization Order 10–6;

b. Have primary responsibility for the preparation, coordination, and clearance of all legislation, regulations, and external orders subject to the provisions of applicable Department orders; and

c. Establish uniform overview standards and procedures to be followed by the Regional Offices' legal staffs in their review of projects under sections 101 and 201 of the Act.

SEC. 8. *Office of Public Affairs. The Office of Public Affairs* shall:

a. Advise on all public information matters;

b. Conduct a public information program under the policy guidance of the Assistant Secretary; and

c. Provide assistance in the editing, printing or reproduction, and distribution of technical materials and publications.

SEC. 9. *Office of Congressional Relations. The Office of Congressional Relations* shall:

a. Advise on all Congressional matters pertinent to the activities under the direction of the Assistant Secretary; and

b. Serve as the primary point of coordination for continuing liaison with the Congress in collaboration with the Deputy Under Secretary for Legislative Affairs.

SEC. 10. *Office of Civil Rights. The Office of Civil Rights* shall:

a. Advise the Assistant Secretary in the development and implementation of policy and guidance affecting equality of opportunity connected with economic development programs;

b. Maintain liaison with Federal, State and local governmental organizations and with non-governmental organizations to coordinate and assist in planning operations aimed at achieving nondiscrimination and equality of opportunity;

c. Provide leadership, staff services and advice in matters affecting nondiscrimination to economic development program units, to organizations obligated as participants in an economic development program to achieve nondiscrimination, and to ultimate beneficiaries of economic development program activities;

d. Conduct, sponsor, or coordinate meetings, conferences, and training courses for equal employment specialist, program managers, and executives to achieve nondiscrimination in economic development programs;

e. Establish effective systems throughout EDA to obtain and monitor reports concerning the program of equality of opportunity and assure conformance thereto;

f. Establish report requirements to insure equality of opportunity by participants in economic development programs, conduct on-site inspections, and receive, investigate, and adjust complaints;

g. Receive, investigate, review, adjust complaints, and evaluate EDA experience relating to the Equal Employment Opportunity program and make recommendations to the Assistant Secretary for improvement of employment practices within EDA; and

h. Establish uniform overview standards and procedures to be followed by the Regional Offices' Civil Rights staffs in their reviews of projects under sections 101 and 201 of the Act.

SEC. 11. *Economic Development Regional Offices.*

.01 The Economic Development Regional Offices, headed by Regional Directors, are as follows:

Name	Located at	Serves
Atlantic	Philadelphia, Pa.	Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Puerto Rico, Rhode Island, Vermont, Virginia, Virgin Islands, and West Virginia.
Southeastern	Atlanta, Ga.	Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee.
Midwestern	Chicago, Ill.	Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin.
Rocky Mountain	Denver, Colo.	Colorado, Kansas, Iowa, Missouri, Montana, Nebraska, North Dakota, South Dakota, Utah, and Wyoming.
Southwestern	Austin, Tex.	Arkansas, Louisiana, New Mexico, Oklahoma, and Texas.
Western	Seattle, Wash.	Alaska, American Samoa, Arizona, California, Guam, Hawaii, Idaho, Nevada, Oregon, and Washington.

.02 Each Regional Director, for the EDA programs in his region, shall:

a. Assist designated areas and districts in organizing, staffing, and funding for economic planning through the development of OEDPs;

b. Assist local communities in the development of applications for financial assistance to meet the needs of areas and districts serviced by the Regional Office;

c. Approve all projects except projects requiring special action under sections 101 and 201 of the Act. (Projects requiring special action are those which are called to Washington for purposes of monitoring, involve controversial aspects, or—for example—require an environmental impact statement which must be approved by the Special Assistant for Environmental Affairs.)

d. Process applications for economic development assistance, monitor and service approved projects, including appropriate public works construction projects and, when appropriate, liquidate projects.

.03 The geographic areas of the EDA Regional Offices are depicted in Exhibit 2.[1]

This order, effective December 24, 1974, supersedes the material appearing at 39 FR 3702 of January 29, 1974.

WILLIAM W. BLUNT, Jr.,
Assistant Secretary for Economic Development.

Approved:

GUY W. CHAMBERLIN,
Acting Assistant Secretary for Administration.

[FR Doc.75–3312 Filed 2–5–75;8:45 am]

[Department Organization Order 25–5B; Amdt. 3]

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

Organization and Functions

Department Organization Order 25–5B dated April 25, 1974 is hereby further amended as follows:

1. SECTION 4. *Special Staff Offices.* a. Paragraph .01 is revised to read as follows:

.01 The *Office of the General Counsel* shall provide legal services for all components of NOAA and shall be responsible for the preparation or review of all legislative proposals emanating from any component of NOAA, for the expression of NOAA's views as to the merits of proposed or pending legislation, and for statements concerning pending legislation to be made before committees of Congress. These activities shall be carried out subject to the overall authority of the Department's General Counsel as provided in Department Organization Order 10–6.

b. Paragraph .02 is revised to read as follows:

.02 The *Office of Congressional Liaison* shall coordinate contacts with the Congress, except for matters relating to appropriations. These activities shall be carried out in coordination with and in recognition of the responsibilities of the Departmental Office of Congressional Relations.

2. SEC. 5. *Associate Administrator for Marine Resources.* The opening paragraph is revised to read as follows:

The Associate Administrator for Marine Resources shall maintain cognizance over and establish policy for NOAA's marine resources, marine environment management and protection, mapping, charting, and geodetic programs, as well as those programs closely related thereto. He shall not maintain cognizance over or establish policy for NOAA's real time marine environmental predictions (including observations related thereto) which are assigned to the Associate Administrator for Environmental Monitoring and Prediction, or the coastal zone management and marine sanctuaries programs which are assigned to the Assistant Administrator for Coastal Zone Management. As the primary program policy officer for marine resources, marine environment management and protection, mapping, charting, and geodetic programs, he shall:

3. a. Renumber sections 7 and 8 as sections 8 and 9, respectively.

b. Delete the present *Section 9. Office of Coastal Zone Management*, in its entirety.

4. Add a new section 7 to read as follows:

SEC. 7. *Assistant Administrator for Coastal Zone Management.* The Assistant Administrator for Coastal Zone Management shall maintain cognizance over and establish policy for NOAA's coastal zone management and marine sanctuaries programs and other closely related programs. This shall not include NOAA's marine resources, marine environment management and protection, mapping, charting, or geodetic programs. As the primary program policy officer for coastal zone management and marine sanctuaries programs, he shall:

Serve as the focal point for the coordination with state, Federal and other governmental institutions concerned with the implementation of the Coastal Zone Management Act of 1972 (16 U.S.C. 1451–1464).

Develop policies and guidelines on a continuing basis to assist State and local governments in the effective management, and where possible, restoration and enhancement, of the land and water resources of the coastal zone of the nation within the context of the coastal zone management program.

Administer and monitor annual grants to states in support of the development and administration of coastal zone management programs.

Administer and monitor annual grants to states in support of the acquisition, development and operation of estuarine sanctuaries.

Develop policies and guidelines and administer the marine sanctuaries program authorized under Title III of the Marine Protection, Research, and Sanctuaries Act of 1972 (16 U.S.C. 1431–1434).

Develop NOAA policy, promulgate regulations, and implement procedures necessary for Federal review and approval of state coastal zone management programs and the execution of Federal consistency provisions which then come into force.

5. SEC. 8. *Assistant Administrator for Administration.*

a. Amend paragraph .01 by deleting the term "reports management," from the third and fourth lines.

b. Paragraph .02 is revised to read as follows:

.02 *The Office of Management and Computer Systems* shall conduct studies and provide analytical assistance to develop or improve the organization and staffing structure and other management systems within NOAA; provide management staff services in the application of advance management principles and techniques; carry out the NOAA committee and reports management functions; develop and maintain a central system for collecting, analyzing, presenting and disseminating information on program status and performance; develop systems for measuring productivity and performance; exercise overall management, planning and coordination of NOAA's automatic data processing and telecommunications needs and facilities including serving as the focal point within NOAA for intra- and interagency matters, and the review and evaluation of proposals for automatic data processing and telecommunications requirements and systems; coordinate the Federal planning program for environmental telecommunications systems; and engage in research into advance system concepts and apply or provide guidance in the application of these concepts. It shall provide systems analysis and programming support to NOAA's executive and administrative management functions and to other NOAA functions as requested, and shall operate and provide system and special software support for automatic data processing facilities for all NOAA components except where separate facilities are approved."

6. SEC. 17. *Environmental Research Laboratories.* Subparagraph .01d. is revised to read as follows:

d. The *Program Manager for Weather Modification* shall have technical cognizance over laboratory and field work in experimental weather modification: and, in particular, shall have line management authority over the hurricane and cumulus research and the flight and instrumentation support activities.

7. The organization chart Exhibit 1, attached to this amendment, supersedes the organization chart dated November 14, 1974. A copy of the organization chart is attached to the original of this document on file in the Office of the Federal Register.

This order, effective January 16, 1975, further amends the material appearing at 39 FR 17786 of May 20, 1974; 39 FR 26766 of July 23, 1974; and 39 FR 43565 of December 16, 1974.

ROBERT M. WHITE,
Administrator, National Oceanic and Atmospheric Administration.

Approved:

GUY W. CHAMBERLAIN,
Acting Assistant Secretary for Administration.

NATIONAL ADVISORY COUNCIL ON EXTENSION AND CONTINUING EDUCATION

Meeting

Notice is hereby given, pursuant to the Federal Advisory Committee Act, Pub. L. 92-463, that a meeting of the Title I Committee of the National Advisory Council on Extension and Continuing Education will be held on February 17-18, 1975, in the Executive Suite of the Statler Hilton Hotel, 16th and K Streets NW, Washington, D.C. Meetings on both days will begin at 9 a.m.

The National Advisory Council on Extension and Continuing Education is authorized under Pub. L. 89-329. The Council is directed to advise the Commissioner of Education in the preparation of general regulations and with respect to policy matters arising in the administration of Title I, and to report annually to the President on the administration and effectiveness of all federally supported extension and continuing education programs, including community service programs.

The meeting of the Title I Committee will be open to the public, but because of the limited space available at the hotel, anyone wishing to attend the meeting should inform the Council's staff office (382-7991) no later than February 12, 1975. The purpose of the meeting will be to discuss portions of the Council's report on the Evaluation of Title I which is scheduled to be sent to Congress on March 31, 1975. All records of Council proceedings are available for public inspection at the Council's Staff Office, located in Suite 710, 1325 G Street NW, Washington, D.C.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration

[Docket No. NFD-249; FDAA-45-DR]

MISSISSIPPI

Major Disaster and Related Determinations

Pursuant to the authority vested in the Secretary of Housing and Urban Development by the President under Executive Order 11795 of July 11, 1974, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-74-285; and by virtue of the Act of May 22, 1974, entitled "Disaster Relief Act of 1974" (88 Stat. 143); notice is hereby given that on January 30, 1975, the President declared a major disaster as follows:

I have determined that the impact of tornadoes on the State of Mississippi, occurring on January 10, 1975, is of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 93-288. I therefore declare that such a major disaster exists in the State of Mississippi.

This declaration of a major disaster supersedes the President's January 18, 1975, declaration of an emergency for the State of Mississippi, FDAA-3006-EM.

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development under Executive Order 11795, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-74-285, I hereby appoint Mr. Thomas P. Credle, HUD Region IV, to act as the Federal Coordinating Officer for this declared major disaster.

I do hereby determine the following areas of the State of Mississippi to have been adversely affected by this declared major disaster:

The Counties of:

Lincoln Pike

(Catalog of Federal Domestic Assistance No. 14.701, Disaster Assistance.)

Dated: January 30, 1975.

Federal Highway Administration

DISTRICT OF COLUMBIA'S PROPOSED ACTION PLAN

The District of Columbia Department of Highways and Traffic has submitted to the Federal Highway Administration of the U.S. Department of Transportation a proposed Action Plan as required by 23 CFR Part 795 (39 FR 41819, December 2, 1974). The Action Plan outlines the organizational relationships, the assignments of responsibility, and the procedures to be used by the District to assure that economic, social and environmental effects are fully considered in developing highway projects and that final decisions on highway projects are made in the best overall public interest, taking into consideration: (1) needs for fast, safe and efficient transportation; (2) public services; and (3) costs of eliminating or minimizing adverse effects.

The proposed Action Plan is available for public review at the following locations:

1. District of Columbia Department of Highways and Traffic, Office of Planning and Programming, Room 519, 415 12th Street, NW., Washington, D.C. 2004.
2. District of Columbia Division Office—FHWA, Pennsylvania Building, Room 1248, 425 13th Street, NW., Washington, D.C. 20004.
3. FHWA Regional Office—Region 3, George H. Fallon Federal Building, 31 Hopkins Plaza, Baltimore, Maryland 21201.
4. U.S. Department of Transportation, Federal Highway Administration, Environmental Development Division, Nassif Building, Room 3246, 400 Seventh Street, SW., Washington, D.C. 20590.

Comments from interested groups and the public on the proposed Action Plan are invited. Comments should be sent to the FHWA Regional Office shown above before March 3, 1975.

Issued on: January 29, 1975.

NORBERT T. TIEMANN,
Federal Highway Administrator.

Federal Railroad Administration

[Docket No. RAR-2]

RAILROAD ACCIDENT/INCIDENT REPORTING

Public Meeting

The Federal Railroad Administration (FRA) promulgated reporting and record keeping requirements, entitled "Railroad Accident/Incidents: Reports Classification, and Investigations", in the December 11, 1974 FEDERAL REGISTER (39 FR 23222). These rules constituted a revision to Part 225 of Title 49 of the Code of Federal Regulations, and became effective as of January 1, 1975. The revision has changed the reporting and record keeping requirements imposed upon railroads.

In an effort to familiarize railroad personnel with the new requirements under Part 225, the FRA is conducting a number of briefings in a series of public meetings. Earlier meetings were held in Washington, D.C. and Chicago, Illinois. Further meetings will be held on Monday, February 10, 1975 at the Federal Office Building, 601 East 12th Street, Kansas City, Missouri, at 9:30 a.m. in Room 140; and on Thursday, February 13, 1975 at the Federal Aviation Administration Building (adjacent to the Atlanta Airport), 3400 Whipple Street, East Point, Georgia, at 9:30 a.m. in Room 702.

At each of these meetings FRA Office of Safety personnel will explain the new reporting requirements and the use of new reporting forms.

DONALD W. BENNETT,
Chief Counsel.

[FR Doc.75-3392 Filed 2-5-75;8:45 am]

National Highway Traffic Safety Administration

[Docket No. EX75-2; Notice 1]

EXECUTIVE INDUSTRIES, INC.

Petition for Temporary Exemption From Federal Motor Vehicle Safety Standards

Executive Industries, Inc. of Anaheim, California, has applied for temporary exemption for a new passenger car from Standards Nos. 215, *Exterior Protection*, and 216, *Roof Crush Resistance*, on grounds of substantial economic hardship.

Executive is a manufacturer of motor homes, producing 1183 such vehicles in its fiscal 1974 (October 1, 1974-September 30, 1974). Anticipating the energy crisis and a decline in demand for recreational vehicles, Executive began in July 1973 to develop a two-passenger sports car. Although the company planned to conform to all applicable Federal motor vehicle safety standards, an outside review of its compliance status in October 1974 disclosed two areas of concern: The corner impact requirements of Standard No. 215 (49 CFR 571.215) and the roof crush resistance test of Standard No. 216 (49 CFR 571.216).

With respect to Standard No. 215, Executive's vehicle will meet all requirements other than corner impact protection. To immediately redesign and retool the body structure and panels of its prototypes would add an estimated $850 to the target retail price of $6,900, and delay its initial production by 6 months. It asks a 3-year exemption during which it would design a bumper system meeting the additional corner impact requirements effective September 1, 1975, and a "no damage" bumper standard issued under the Motor Vehicle Information and Cost Savings Act.

Concerning Standard No. 216, the company asks whether its vehicle is a "convertible" and hence excepted from the roof crush resistance requirements by the terms of the standard. It bases its requests upon the fact that the roof of its small vehicle contains a removable panel 31½ inches by 21½ inches in size, which forms the major portion of the top. Although NHTSA has not defined the term "convertible," the configuration of Executive's vehicle is more like that of a vehicle with a "sun roof" (i.e., a fixed top with a sliding panel) than it is of a vehicle which has no top, or a removable top. With the panel removed, Executive's car is still basically an enclosed vehicle with substantial body structure above the windshield and side windows, unlike a vehicle such as the Porsche Targa which features a removable top. Therefore, NHTSA has decided that Executive's vehicle is not a "convertible" within the normal or intended meaning of that term, and must comply with Standard No. 216 unless exempted under Part 555. Although its designs indicate that the production vehicle will meet Standard No. 216, Executive prefers the security of an exemption until it can produce a prototype and test it. If the tests indicate a failure it believes that the redesign of the vehicle would add $1,300 to manufacturing costs alone. The vehicle utilizes a rollbar and has a center of gravity behind the occupants which, in the event of a rollover, would, in its manufacturer's opinion, provide protection equivalent to that provided by windshield pillars strong enough to meet Standard No. 216.

In support of its petition, the company states that "the commitment of another quarter million dollars to product development before preliminary market testing is completed is not economically viable." With the costs of EPA certification and "validation of FMVSS compliance," start up costs for initial vehicle production are estimated at $500,000. The company's net income for fiscal 1974 was $1,103,976, representing almost a 50

V 40 26 FEB 6 75 XUM

per cent drop from 1973's $2,088,831. Denial of the application would force the company "to abandon this vehicle project, at a monetary loss of more than $215,000 and with a concomitant loss of employment opportunities for its work force." The company believes that an exemption would serve the public interest by allowing it to develop a lightweight bumper system, contributing to better fuel mileage and energy savings over the life of the vehicle, as well as marketing a handcrafted low-volume vehicle of a type usually manufactured abroad. This, if successful, might lessen dollar outflow and would create job opportunities in the United States.

This notice of receipt of a petition for a temporary exemption is published in accordance with the NHTSA regulations on this subject (49 CFR 555.7), and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Interested persons are invited to submit comments on the petition of Executive Industries, Inc. described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, SW, Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials and all comments received, are available for examination in the docket both before and after the closing date. Comments received after the closing date will also be filed and will be considered to the extent possible. Notice of final action on the petition will be published in the FEDERAL REGISTER pursuant to the authority indicated below.

Comment closing date: March 10, 1975.

Proposed effective date: Date of issuance of the exemption.

(Sec. 3, Pub. L. 92-548, 86 Stat. 1159 (15 U.S.C. 1410); delegations of authority at 49 CFR 1.51 and 49 CFR 501.8)

Issued on February 3, 1975.

ROBERT L. CARTER,
Associate Administrator,
Motor Vehicle Programs.

CITIZENS' ADVISORY COMMITTEE ON ENVIRONMENTAL QUALITY

MEETING

The Citizens' Advisory Committee on Environmental Quality will meet on February 14, 1975, at 10 a.m. in Room 500, 1700 Pennsylvania Avenue NW., Washington, D.C.

The Committee advises the President and the Council on Environmental Quality on matters pertaining to environmental quality. The purpose of the meeting is to review pending Committee business and to consider Committee activities for the coming year. Subjects discussed will include legislation, Committee publications, land use, energy, solid waste, and other current environmental issues.

A limited number of seats—approximately 10—will be available to observers from the press and the public on a reserved, first-come basis. Requests to attend the meeting must be submitted in writing or by telephone no later than Thursday, February 13, 1975, to Lawrence N. Stevens, Executive Director, Citizens' Advisory Committee on Environmental Quality, 1700 Pennsylvania Avenue NW., Washington, D.C. 20006, telephone (202) 233-3040. Oral statements or questioning of Committee members or other participants by observers in attendance at the meeting will not be permitted. Members of the public may file written statements with the Committee before or after the meeting.

Requests for information should be submitted to Lawrence N. Stevens (address given above).

LAWRENCE N. STEVENS,
Executive Director, Citizens' Advisory Committee on Environmental Quality.

CIVIL AERONAUTICS BOARD

[Docket No. 25990; Agreements C.A.B. 24827-24832; Order 75-1-140]

AMERICAN AIRLINES, INC. ET AL.

Order Regarding Capacity Agreement To Implement Fuel Allocation Program

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 31st day of January 1975.

By joint application, American Airlines, Inc. (American), Trans World Airlines, Inc. (TWA), and United Air Lines, Inc. (United) request approval pursuant to section 412 of the Federal Aviation Act of 1958, as amended, (the Act) of six agreements limiting capacity in 23 markets[1] for the period February 1, 1975 through June 14, 1975. The agreements were negotiated pursuant to authority granted by Order 74-11-35, November 7, 1974, authorizing inter-carrier discussions concerning, inter alia, extension of the fuel-related capacity limitation agreements approved in Order 74-7-105, July 24, 1974.

In support of their application, the joint applicants state, inter alia, that the form and substance of the agreements are similar to earlier agreements approved in this docket; with a few exceptions, capacity levels will be unchanged from last year's off-peak level;[2] the load factors projected in each agreement market fully meet the criteria established by the Board for fuel restraint agreements;[3] current jet fuel allocations are at the same 100 percent of 1972 levels as when the Board initially approved fuel restraint agreements in Order 73-10-110, but foreign as well as domestic carriers now have the right to draw on the domestic jet fuel pool; the coal strike combined with a predicted unusually severe winter will adversely affect the supply of middle distillate fuels; the international fuel situation shows no sign of improvement; the Board has already approved capacity agreements in numerous international markets for the winter of 1975; the agreements benefit both the agreement carriers and the traveling public by enabling the carriers to raise load factors in the agreement markets to levels approximating those attained on the remainder of their systems, thereby allowing the carriers to continue to offer more services on nonagreement routes than would otherwise be possible; the agreements will save over 110,000,000 gallons of fuel during their 4½ month term; the applicants will not use released capacity to increase competition with other carriers; and all three carriers will again ground aircraft this winter because of lack of fuel.[4]

Answers in opposition to these agreements have been filed by Frontier Airlines, Inc., the City of Chicago, the Las Vegas Parties, the Cincinnati Parties, Northwest Airlines, Inc., the National Air Carrier Association (NACA), the Department of Transportation, Braniff Airways,

[1] The markets and agreements to which they relate are as follows:

Agreement C.A.B. 24827, American, TWA, and United, New York/Newark-Los Angeles, New York/Newark-San Francisco, Washington/Baltimore-Los Angeles, and Chicago-San Francisco.

Agreement C.A.B. 24828, American, TWA and United, Philadelphia-Los Angeles, Detroit-Los Angeles, Hartford-Los Angeles, Boston-Los Angeles, and Cleveland-Los Angeles.

Agreement C.A.B. 24829, American and TWA, New York-Cincinnati, New York-Dayton, and Chicago-Phoenix.

Agreement C.A.B. 24830, American and United, Chicago-San Diego, and Washington-San Diego.

Agreement C.A.B. 24831, TWA and United, Boston-San Francisco, Philadelphia-San Francisco, Washington/Baltimore-San Francisco, New York-Denver, Washington-Denver, New York-Las Vegas, Chicago-Las Vegas, and Philadelphia-Chicago.

Agreement C.A.B. 24832, American, TWA and United, New York-Chicago.

[2] The following changes have been made from the September 15-December 14, 1974 level: New York-San Francisco, eleven percent reduction in seats; Chicago-San Francisco, six percent reduction in seats; Detroit-Los Angeles, substitution of one narrow-body for one wide-body; Cleveland-Los Angeles, elimination of one narrow-body; Chicago-Las Vegas, substitution of two wide-bodies for two narrow-bodies; New York-Denver, two additional narrow-bodies weekly; Chicago-Phoenix, February 1-April 14, substitution of two wide-bodies for two narrow-bodies, April 15-June 14, substitution of two narrow-bodies for two wide-bodies.

[3] The projected industry load factor for all markets combined is 55 percent and the highest projected load factor is 66 percent in the Chicago-Las Vegas market. The carriers assume no traffic growth in any market except for Chicago-Las Vegas in which 10 percent growth was assumed.

[4] As of February 1, 1975, American expects to have grounded four B-747's; TWA will have grounded three L-1011's, one B-747, and one B-707; and United will have grounded 15 DC-8's.

Inc., Delta Air Lines, Inc., the Department of Justice, the Airline Pilots Association (ALPA),[5] Continental Air Lines, Inc., and the State of Maryland.[6] These answers are summarized in Appendix A, as are the consolidated replies of American and TWA.

In general, the answers in opposition to these agreements are based on five major contentions: (1) Approval of the agreements would be contrary to the Initial Decision in the Capacity Reduction Agreements Case[7] and would constitute prejudgment of that case; (2) the agreements are not needed as no fuel shortage currently exists and the applicants appear to have ample fuel to operate without the benefit of capacity agreements over the peak holiday period;[8] (3) the agreements will not result in any saving of aviation fuel as any fuel not used in the agreement markets will be used in other markets to the detriment of competing nonagreement carriers; (4) the schedule reductions resulting from approval of these agreements will adversely affect the traveling public; and (5) the applicants have failed to provide justification based specifically on summer operations and specific information describing the actual amount of fuel that will be saved within the agreement markets as required by previous Board orders.

Upon consideration of the pleadings and all the relevant facts, we have concluded that Agreements C.A.B. 24827 through 24832, if made subject to certain conditions, are neither adverse to the public interest nor in violation of the Federal Aviation Act and, accordingly, should be approved pending final Board decision in the Capacity Case, or until they expire by their terms on June 14, 1975, whichever first occurs.[9]

[5] ALPA has also filed an amendment to its answer with a motion for leave to amend. For good cause shown, the motion will be granted.

[6] The State of Maryland's answer was filed four days late and was accompanied by a motion for leave to file an otherwise unauthorized document. We will consider that motion as a motion for leave to file late under Rule 17 and will grant the motion, excusable neglect having been demonstrated.

[7] Initial Decision of Administrative Law Judge E. Robert Seaver in the Capacity Reduction Agreements Case, Docket 22908, served November 18, 1974, concludes that capacity agreements are adverse to the public interest and not justified on either economic or fuel-saving grounds. By Order 75-1-32, January 8, 1975, the Board took review and stayed the effectiveness of Judge Seaver's Initial Decision. Hereinafter, the proceeding in Docket 22908 will be referred to as the Capacity Case.

[8] The predecessor agreements of those currently in issue, which were approved by Order 74-7-105, July 24, 1974, expired December 14, 1974. The instant agreements would not become applicable until February 1, 1975.

[9] In our view the applicants have sufficiently met the evidentiary requirements imposed in Orders 74-7-105 and 74-11-35 to warrant our considering the Joint Application on its merits. See application for a discussion authorization filed in this docket on September 24, 1974; TWA's Consolidated Reply herein; Attachment VIII to the Joint Application; Reply of American at Appendix A; Reply of TWA at Appendix B.

In several previous orders the Board approved capacity agreements because it was the Board's conclusion that the agreements would result in a better allocation of fuel resources in circumstances in which the carriers could not obtain the quantities of fuel they needed to meet the public's needs for air transportation services. This same concern was expressed by the Board in Order 74-11-35, in which the Board authorized the discussions that led to the agreements here under consideration. More specifically, the Board authorized the discussions because, at that time (early November), it appeared that the fuel shortage was still with us and that this shortage could be further exacerbated by a lengthy coal workers' strike, heavy use of middle distillate fuels for home heating, and so forth.

There is no doubt that the fuel shortage which faced the nation when the capacity agreements were last approved has changed considerably.[10] But one fact is clear. A very serious fuel problem continues to exist. Previously the unavailability of fuel called for extraordinary measures for allocation of scarce supplies. Presently the critical national need is for reduction in the use of available fuel supplies in order to reduce this nation's dependence on imported oil, and eliminate the drain on our national wealth and exposure of our economy to serious disruption that are the consequences of such dependence.

The critical necessity for fuel conservation has been central to the programs of both the President and Congress. Thus, in his State of the Union Message the President pointed to the urgent need to reduce oil imports by one million barrels per day by the end of 1975, and by two million barrels per day by the end of 1977, with an end to the vulnerability of our economy to foreign suppliers by 1985.[11]

Congress fully shares the goal of reduction in energy consumption. The Senate Majority Leader recently remarked, "to cope effectively with exorbitant and arbitrary prices for petroleum * * * a reduction of consumption equal to at least two million barrels per day, and preferably more, must be achieved." He added, "Unless we put an end to the superfluous and extravagant, supplies, no matter how great, will never be sufficient." Remarks of Senator Mansfield, 121 Cong. Rec. S 16, January 15, 1975 (Daily Ed.).

Indeed, many members of both Houses of Congress of both political parties have made statements urging the conservation of scarce energy resources. Another Senator, in outlining a comprehensive program for fuel conservation, stated his view that, "The very health of our economy, and our position as a World economic power, may depend on our will to adopt tough fuel conservation measures." (Senator Charles H. Percy, 120 Cong. Rec. S. 20920, December 10, 1974 (Daily Ed.)).

The Recommendations of the President's Labor-Management Committee were to the same effect. The Committee emphasized that, "Conservation in every way is essential, and the present level of imports of oil should be promptly reduced significantly." Its proposed program included, "* * * the establishment of formalized energy conservation programs throughout industry and all levels of Government to economize on energy use * * *." Recommendations of the President's Labor-Management Committee Concerning Economic Initiatives and National Energy Policy, December 30, 1974, 11 Weekly Compilation of Presidential Documents at 35 (1975).

The Board also has a responsibility to carefully consider measures proposed by the carriers to eliminate superfluous or extravagant utilization of fuel supplies. We recognized that responsibility when capacity agreements were granted interim approval by the Board in the transcontinental markets in Order 73-7-147. That Order set for hearing the joint application of American, TWA and United for approval of an agreement comparable to Agreement C.A.B. 24827, here before us. One of the prime considerations which the Board found warranted that interim approval was its conclusion that the agreement would save substantial quantities of fuel.

As noted, the applicants allege that substantial fuel savings will be accomplished by maintenance of reduced capacity under the agreements. Moreover, it is axiomatic that to the extent overall reduced capacity may be attributed to the agreements, fuel savings will result.[12] The opposing parties urge that minimal fuel savings have in fact resulted, since savings in agreement markets have been expended in nonagreement markets, and unilateral restraint would be equally effective in maintaining the present reduced capacity in the agreement markets.

Whether substantial fuel savings will in fact result from capacity agreements in appropriate markets, and whether any such fuel savings and other benefits

[10] Fuel limitations nevertheless remain. Thus, Federal Energy Administration Regulations continue to provide for the allocation of aviation fuels. Carriers are currently limited to no more than their 1972 fuel usage unless they can show compelling situations requiring adjustments to the base period use. Mandatory Petroleum Allocation Regulations, 10 C.F.R. Part 211, Subpart H; 39 Fed. Reg. 37969.

[11] 11 Weekly Compilation of Presidential Documents 49(1975). Other Presidential Statements are to the same effect. See, 10 Weekly Compilation of Presidential Documents 1239, 1272, 1321 and 1556 (1974).

[12] The most recent data available (from Forms 41, Schedule P5(b)) indicate that, during the past year when capacity agreements covering the 23 markets were in effect, the three agreement carriers decreased their fuel use substantially more than did the nonagreement carriers (using 1972 as a base: See, *e.g.* Mandatory Petroleum Allocation Regulations, 39 Fed. Reg. 37969 (1974)). Moreover, data filed with the Board show a decrease in fuel consumption, *e.g.* for the month of October 1974 alone, compared to October 1973, in the 23-agreement markets, consumption was down 16.9 million gallons, with a total cost savings of some $4.0 million (based on October 1974 fuel costs).

outweigh other detrimental effects, are questions which will be determined in the pending Capacity Case proceeding, Docket 22908. That case involves agreements substantially similar to those here before us.[13] However, the question which we now must resolve is whether, pending that determination, the Board should create a risk that the benefits, particularly in the form of fuel conservation, which appear to have been derived from the agreements, might be lost by premature disapproval of the agreements prior to our final determinations as to the public interest of such agreements in the Capacity Case. Considering the short duration of the agreements, the very serious present necessity for fuel conservation, and the Board's responsibility to give very careful consideration to proposed fuel conservation measures, we conclude that that risk is one which the Board should not take. We will, therefore, grant interim approval of these agreements through June 14, 1975, or until the final Board order in the Capacity Case.

There are additional reasons which lend support to our conclusion that continued interim approval of these agreements should be granted. In Order 73–7–147 we tentatively concluded that capacity reduction agreements also have beneficial effects on the financial health of the parties to such agreements. In this respect we take note of the recent slump in the traffic picture of the airlines, and the various projections of a continuation, at least for the immediate future, of the current recession. Coupled with the gloomy traffic picture are steeply rising carrier costs.[14] Thus the prospects are not bright with respect to the carriers' finances, a matter of serious concern in view of TWA's already mounting losses and the fact that American's present period of profitability has not been a lengthy one.[15]

Further, while we would be reluctant to continue to approve capacity limitation agreements based on tentative views if final resolution of the matter were not in sight, the Capacity Case is fast drawing to a close. (Briefs to the Board are due on February 7, and we contemplate that oral argument will be held as soon thereafter as is practicable.) With the exception of a few short periods, agreements covering New York/Newark-Los Angeles/San Francisco, Chicago-San Francisco and Baltimore/Washington-Los Angeles have been in effect for more than three years. Agreements covering capacity in the other 19 markets have been in effect for most of the past 14 months. Even were the apparent public interest benefits of the agreements (as discussed above) less compelling, we could not conclude that operation of the agreement pendente lite in the Capacity Case would be adverse to the public interest since it does not appear that the agreements will have any overriding detrimental effects for the relatively brief period February-June, and since such agreements to all intents and purposes continue the status quo.[16]

As we have touched on above, the place that capacity agreements should have in the regulation of the nation's air transportation system will be resolved in the Capacity Case. The question of the validity of the Board's tentative views about capacity agreements will be answered there. As we have also discussed, however, in the meantime, and necessarily without the understanding of the record in the Capacity Case that will be gained from a study of the parties' briefs and arguments, the Board remains of the tentative view that capacity agreements such as those before us benefit the public interest. The applicants should be on notice, however, that if the Board's study of the record and Initial Decision in the Capacity Case leads us to conclude that it would be in the public interest to do so, we will order that the agreements be brought to an end forthwith.

As we have repeatedly said, we will also order an end to the agreements if it appears that the agreement carriers are misusing the resources that the agreements free: See, e.g., Order 73–4–98, at 5. This, in turn, brings us to the claims of the various competitors of the agreement carriers that the agreements have, in fact, had a detrimental impact on these competitors.

Continental's contentions have already been disposed of in Order 74–7–105, and Delta's complaint against American is currently pending in Docket 26995.[17] Braniff alleges that, on June 15, 1974, American increased its Chicago-Dallas frequencies from 6 to 10 nonstop round-trip flights. American admits that it increased its Chicago-Dallas frequencies on June 15 from 6½ to 10½ nonstop round trips; however, American contends that it was forced to do so in order to maintain its capacity share and keep Braniff from driving it out of the market.[18] Upon consideration of available information, we have concluded that American was attempting to maintain its competitive position in the face of Braniff's increased frequencies, and that the capacity agreements had no causative effect on American's actions. As we have stated in the past, we do not believe it equitable to place agreement carriers at a competitive disadvantage in nonagreement competitive markets by precluding them from responding to a competitor's increase in such markets.[19]

We have also concluded that the service proposed in the agreements will reasonably satisfy the needs of the traveling public. A number of civic parties argue that capacity agreements have unduly limited service to those cities. The City of Chicago asserts that approval of the agreements may result in a further deterioration of business travel; however,

[13] Various parties to the present proceeding also urge us to take into consideration the findings and conclusions of the Initial Decision in the Capacity Case. As noted earlier, the Administrative Law Judge there concluded that capacity limitation agreements are, except in extraordinary circumstances, contrary to the public interest. However, as also noted above, petitions seeking review have been filed which take issue with practically all aspects of the Initial Decision and the Board has agreed to review the case. Accordingly, reliance by the Board on any of the Initial Decision's findings and conclusions would, at this juncture, be unfair and inappropriate.

[14] Fuel costs, for example, have virtually doubled since the year ended June 30, 1973, when the average price per gallon for the domestic trunks and local service carriers was only 11.745 cents. The latest available data (November 1974) shows the average price per gallon is 23.129 cents. Moreover, if the President's proposed petroleum taxes are implemented, further increases in fuel costs are likely to result.

[15]

(12 months ended September 30)

	Net income (thousands)		Rate of return (percent)	
	1974	1973	1974	1973
American	$14,400	($34,400)	4.2	0.3
TWA	(1,900)	52,000	4.4	8.1
United	97,400	45,000	9.2	6.0

[16] In view of the fact that the Capacity Case will soon be completed and that the instant agreements will be in operation for such a short term, we have not undertaken to attempt to determine precisely their fuel savings, financial and environmental effects: Compare Order 73–7–147. However, we tentatively conclude that the agreement will considerably reduce capacity in the agreement markets compared to what would be offered but for the agreements. Since we continue to adhere to our tentative view that such reductions will not be counterbalanced by unreasonable capacity increases elsewhere, we also tentatively conclude that the savings and reductions, in terms of fuel use, costs, and noise and air pollution, will be substantial. In respect to alleged alternative measures for reducing capacity we adhere to the views expressed in Order 73–7–147.

[17] By letter dated December 17, 1974, the Bureau of Enforcement notified Delta of its determination that it would not be in the public interest to institute an enforcement proceeding on the basis of Delta's complaint. Delta has sought Board review of that determination. Under the circumstances, it would be inappropriate for us to consider the merits of that complaint here.

[18] On April 1, 1974, Braniff increased its nonstop round-trip frequencies in the Chicago-Dallas market from 8 to 10. OAG, March 15 and April 1, 1974.

[19] See Orders 72–4–63 at 7 and 73–4–98 at 5, n. 10.

based on this record we cannot agree. Load factors in the Chicago-New York and Chicago-Philadelphia markets, which the city mentions as important business markets, were 60 percent during the off-peak period of February through May 1974, and are projected at 60 percent under the instant agreements. The Las Vegas parties expressed concern about the Chicago-Las Vegas market, which had 70 percent load factors in the February-May 1974 off-peak period. However, the applicants intend to substitute two wide-bodies for two narrow-bodies and project a 66 percent load factor during the term of the instant agreement. We think that the actual load factor will be no higher in the Chicago markets than the applicants' project (and probably will be lower) and that those load factors are reasonable.[20]

The Cincinnati parties complain of high load factors in the New York/Newark-Cincinnati market and the absence of nonstop Newark-Cincinnati service. The industry load factors in the New York/Newark-Cincinnati market were 62 percent during the February-May 1974, off-peak season and are projected to be at the same level under the instant agreements. Again, we estimate that load factors will be no higher than as projected by the applicants, and we cannot conclude that such load factors are excessive. As to the lack of nonstop Newark-Cincinnati service, that market currently receives two one-stop round trips daily from TWA and the Cincinnati parties have provided no evidence to indicate that nonstop service is needed in the market, particularly in light of the availability of nonstop service from LaGuardia. The State of Maryland's complaint of insufficient service at Baltimore/Washington International Airport has been dealt with in a prior order[21] and is a question which will be resolved in the Capacity Case.

We have also considered the possible impact of the agreements on competition between the agreement carriers and on their employees. In respect to the competitive impact of the agreements, they will, of course, reduce or eliminate nonstop capacity competition in the markets involved. That is a debit to be chalked up against the agreements. On the other hand, we again find no reason to depart here from the Board's earlier expressed view that agreements like the ones before us do not have a detrimental effect on other forms of competition.[22] As to impact on employees, we have concluded that that impact will be limited, given the fact that the agreements in the main preserve the status quo and that the agreements will be in effect for 4½ months (or less), and that such effect, together with the agreements' effects on competition and on passenger convenience, will not outweigh the agreements' beneficial effects: see Order 73–7–147 at 14.

Jurisdiction over the agreements will be retained, pursuant to section 412 of the Act, for the purpose of amending, modifying, or revoking our approval at any future time.[23] We shall also require the applicants to submit a variety of reports: See, *e.g.*, Orders 73–7–147 and 74–7–105.[24] If these reports or other information coming to our attention indicate that the agreements may be working to the detriment of the public interest for any reason, the Board will exercise its discretionary powers of review under section 412(b) of the Act.[25]

Accordingly, *It is ordered*, That:

1. Effective February 1, 1975 through June 14, 1975, or until final Board order in the Capacity Reduction Agreements Case, whichever first occurs, Agreements C.A.B. 24827, 24828, 24829, 24830, 24831, and 24832, be and they hereby are approved subject to the following conditions:

a. Within 15 days after the end of each calendar month each applicant shall submit to the Board's Docket Section three copies of a report in the form required by Order 72–4–63, stating for each total market affected by the agreements (including satellite airports in each market) and for each flight flown therein (including extra sections), by flight number, departure time and aircraft type, the revenue passengers carried, number of seats flown, and load factor for each day of the week and for the month; and as an attachment to that report, each applicant shall report the number of times an aircraft being operated in any of the agreement markets departed with 95 percent or more of its seats filled; [26]

b. A copy of such reports shall be served upon each airport operator in the cities which are the subject of the report;

c. Within 15 days after the end of each month each carrier shall file a report with the Board's Docket Section stating, on a systemwide basis, average seat-miles operated per gallon of fuel used, by type of equipment;

d. Each carrier shall maintain records, subject to inspection by the Board, or by such other persons as the Board may authorize, of the fuel used each month by the carrier, throughout its system, on a city-pair and flight-by-flight basis (including charter operations);

e. Any schedule changes resulting pursuant to the agreements approved herein shall be reported to the Board within 15 days after the end of each month in accordance with the format in Appendix D to Order 74–7–105. Copies of such reports shall be provided to all carriers and interested civic parties requesting them; and

f. Schedule deletions resulting pursuant to the agreements herein approved which occur at any of the controlled high-density airports,[27] and which result in the vacating of slots allocated by the Airline Schedule Committees of the respective airports pursuant to authority granted in Order 72–11–72, shall not be refilled by the air carrier applicants, nor be reallocated to other carriers by the Airline Scheduling Committee, *Provided, however*, That slots originally vacated may be reinstated by the vacating carrier to the extent such carrier vacates another flight at the same airport which operated plus or minus three hours of the flights to be reinstated; [28]

2. The reports required by ordering paragraph 1 above, shall be filed for the period December 1, 1974 through June 14, 1975;

3. The Board shall retain jurisdiction over this proceeding in order to modify, amend or revoke our approval at any time, or take whatever other action may be deemed appropriate in the public interest, without a hearing;

4. The motions of the Air Line Pilots Association and the State of Maryland, be and they hereby are granted;

5. Copies of this order shall be served on the U.S. Postal Service and all certificated air carriers as well as the parties named in Appendix A; and

6. Except to the extent granted herein, all outstanding requests be and they hereby are denied.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[29]

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[20] See, in this regard, the discussion of appropriate projected load-factor levels in Orders 73–4–98 and 73–7–147. We would only add that the intensified national goal of favoring actions that save fuel reinforces our view that projected mid-60's load factors in agreement markets are entirely acceptable.

[21] See Order 73–7–147, at 10.

[22] See, Orders 73–7–147 at 11 and 74–7–105 at 7. See also, the recent discount-fare proposals of American, TWA and United, Dockets 27273–77, 27280, 27328, 27335, 27337–38.

[23] We have touched on this matter earlier. We would also note that such action will be taken if it appears that traffic in any of the agreement markets turns out to be materially greater than expected and the carriers fail to react by adding appropriate amounts of extra capacity. In this regard, while we have retained the requirement that capacity be added if load factors average more than 72 percent over any two-month period, we note that the carriers' forecast load factors are considerably below this level, and we expect them to use best efforts not to exceed their forecast load factors.

[24] In order that we may have a complete picture of the situation, we shall require these reports to be filed for the 2½ month hiatus period between the predecessor and the instant agreements (see footnote 8, above) as well as for the period covered by these agreements.

[25] Consistent with past orders, we will not impose the restrictive charter service condition proposed by NACA. NACA's proposed cure, it seems to us, is considerably worse than the claimed disease. Of course the subject is specifically in issue in the Capacity Case.

[26] For purposes of the 95 percent reports, the applicants shall take into account both revenue and positive space nonrevenue passengers. Such reports shall include flight numbers.

[27] Airport scheduling agreements affect John F. Kennedy International Airport, O'Hare International Airport, Washington National Airport and LaGuardia Airport. See Order 72–11–72.

[28] See Order 73–12–32, December 7, 1973, at p. 7.

[29] Members Minetti and West dissented. Members Minetti and West reserve the right to set forth their views in a dissent to follow.

APPENDIX A

SUMMARY OF ANSWERS IN OPPOSITION

Frontier states that: the oil embargo has been lifted and fuel is available as needed; the benefits derived from the agreements are no longer of such critical importance as to warrant their continuation; pendente lite approval should not be granted because the Initial Decision in the Capacity Reduction Agreements Case[1] found the agreements contrary to the public interest; the agreements afford United and TWA an unfair competitive advantage in nonagreement markets.[2]

The City of Chicago opposes approval of the agreements in the six Chicago markets in issue, asserting that: approval may result in a further deterioration of business travel; the coal strike will result in little, if any, diversion of aviation fuel because coal users cannot readily switch to middle distillate fuels; the lack of opposition to international capacity agreements is an attempt to assist Pan Am which is unrelated to domestic markets; the Initial Decision in the Capacity Case concludes that the agreement is not saving and will not save any aviation fuel; and the discussions leading up to this agreement do not indicate any efforts to save fuel.

The Las Vegas Parties oppose the application on the grounds that it failed to "include a justification based specifically on the summer operations pursuant to the agreements, focusing, inter alia, on the data included in the reports being filed in this docket" as required by Order 74–7–105, p. 16, ordering paragraph (3); the Initial Decision in the Capacity Case found such agreements adverse to the public interest in the economic area and unnecessary as a fuel conservation device; extension of the agreements without hearing would raise a serious question of Board prejudgment of that proceeding; applicants appear to have ample fuel to operate without agreements over the peak holiday period since the new agreement will not start until February 1; the coal strike is now over; the new agreements threaten substantial damage to the traveling public and the tourism industry[3]; ordering paragraph 1(h) of Order 74–7–105 is ineffective as the condition can easily be met by dumping extra section capacity into the market at the tail end of the period; and the Board has been unresponsive to Las Vegas' pleas for relief from oppressive load factors (actual load factors in the Denver-Las Vegas market ran close to 90 percent during February and March, 1974); and the only way carriers will properly respond to the needs of major markets is through the stimulus of competition.

The Cincinnati Parties contend that: The agreements are not justified based on summer operations pursuant to the agreements, as required by Order 74–7–105; the carriers have not justified the agreement on fuel-conservation grounds; the carriers cannot be concerned about fuel supplies this winter since the new agreements will not commence until February 1, after the holiday peak is over; approval threatens substantial injury to the traveling public in a number of markets[4]; the applicants have presented no valid reason for any further interim approvals and the Board should cease its practice in granting long-term authorizations to these agreements through the mechanism of a series of short-term approvals.

Northwest asserts that: the instant agreement is for the spring, not for this winter as contemplated in the order approving discussions; the applicants' justifications are directed to winter fuel supplies and do not justify approval through June; the coal strike has been settled without reducing airline fuel allocations and an unusually severe winter cannot justify a spring agreement; the applicants admit that these agreements are not needed to conserve fuel this winter; the applicants have failed to justify approval on the basis of their summer operations as required by Order 74–7–105; the carriers have sufficient fuel to meet the public's needs, as no agreement is necessary during the winter; in light of a projected absence of traffic growth, the applicants will act rationally and not add excessive capacity in the agreement markets; and the Initial Decision in the Capacity Case found that fuel-related agreements are unnecessary through mid-1975. Northwest further alleges that the agreement carriers will obtain control of each other within the meaning of section 408(a)(5); that section 408 requires a hearing before these agreements can be approved; the time span of the proposed agreement would extend the fuel-related agreements to the end of the period that the carriers had sought approval of an economic agreement in Docket 22908; and approval of the agreements would be arbitrary.

The National Air Carrier Association avers that: they are a clear violation of the antitrust laws; the Initial Decision in the *Capacity* Case concluded that the agreements are detrimental to the public interest and harmful to both nonagreement and agreement carriers; failure to disapprove the agreements would constitute prejudgment of the issues in that case; the supply of aviation fuel is increasing; the coal strike is settled; the agreements will not save fuel as any fuel saved in the agreement markets would be immediately used in other markets; and, if the instant agreements are approved, that approval should be subject to a condition that the agreement carriers' available seat miles operated in charter service not exceed the ASMs operated in calendar year 1971 unless the carrier can demonstrate that the additional capacity has not been made available as a result of any capacity agreement or is needed to meet a demand for charter service which cannot be met by an supplemental or other nonagreement carrier.

The Department of Transportation asserts that the agreements are contrary to antitrust policy and may only be approved if they are required by a serious transportation need, necessary to secure important public benefits, or are in furtherance of a valid regulatory purpose, and if less anticompetitive alternatives are unavailable. In the absence of substantial evidence, which is here lacking, there is absolutely no justification for the Board authorizing new capacity agreements in light of the Initial Decision in the Capacity Case.

Braniff Airways opposes the agreements on the grounds that the Initial Decision in the Capacity Case rejects all of the purported justifications advanced by the applicants for approval of these agreements. Braniff states that: the applicants admit that freed resources will be used in non-agreement markets[5]; contrary to Order 74–11–35, the applicants have not been specific in describing the actual amount of fuel that will be saved by approval of these agreements; it is impossible to verify their fuel saving estimate; and the calculations bear no relationship whatsoever to fuel savings which may properly be attributed to the agreements.

Delta Air Lines states that: by arguing that the over-capacity situation in the 23 agreement markets will return, with an attendant reduction in service in other markets because of lack of spare fuel, the applicants admit that fuel saved from earlier agreements has been used in nonagreement markets; there is no further need for such agreements as the industry is able to make necessary schedule adjustments on a unilateral basis during the fuel shortage while maintaining fully adequate levels of service; the fuel savings alleged to flow from the agreements are unsubstantiated and depend upon the invalid assumption that pre-agreement schedules would be reinstated in the absence of agreements; the agreements have serious anticompetitive potential and do not meet the Board's standards for approving such agreements; any fuel "saved" will be used for competitive purposes elsewhere; approval of the agreements would prejudice the Board's final decision in the Capacity Case; applicants have failed to provide specific information in describing the actual amount of fuel that will be saved as required by Order 74–11–37; there is no way to verify the claimed savings since the applicants have not supplied any fuel-burned data by which their assertions can be tested; and the Board's conditions against transfer of freed fuel capacity to nonagreement markets have been proved ineffective in Delta's complaint in Docket 28995.

The Department of Justice asserts that: these agreements do not save fuel on a systemwide basis and do not facilitate a more equitable distribution of short supplies of fuel among various markets than is available through less anticompetitive means; the Board has failed to determine whether any less anticompetitive alternative remedy exists; the Initial Decision in the Capacity Case compels rejection to this application; and the applicants at no point argue that there will be any jet fuel savings on a systemwide basis.

The Air Line Pilots Association maintains that: Approval is not justified by reason of a serious transportation need and will not achieve substantial public interest benefits; approval will not result in fuel savings; while the fuel shortage exists in the sense that carriers are limited to 100% of 1972 levels, the affect is not at all drastic because traffic levels have diminished to or below 1972 levels; and, if the Board approves the proposed agreements, labor protective provisions should be imposed.

Continental Air Lines states that: The agreements do not meet the standards of

[1] Docket 22908. Hereinafter referred to as Capacity Case.

[2] During the term of the agreement, United inaugurated a DC–10 round trip between Denver and Las Vegas in competition with Frontier. While Frontier cannot prove that this equipment escalation was attributable to capacity released by virtue of the agreements in other markets, but for the artificially restrained competition between United, TWA, and American, United might have concentrated more on the 23 markets included in the proposed agreements.

[3] The carriers have consistently underestimated traffic in the Las Vegas-Chicago market, for example.

[4] For example, neither carrier offers nonstop service between Newark and Cincinnati despite clear evidence of public need for such service; and load factors have consistently run on the high side in this market and are quite excessive during peak times of the day.

[5] *E.g.*, on June 15, 1974, American increased its frequency of service in the Chicago-Dallas market from 6 to 10 nonstop round trips and admitted in the Capacity Case that it expected that this increase would produce losses by both American and braniff in that market.

sections 412(b) and 102(d) of the Act and are also in violation of the antitrust law; no conditions of economic stringency exist to support approval as the applicants are all experiencing operating profits; low load factors no longer exist in the markets in question; the fuel crisis is no longer a legitimate justification for the agreements; the use of freed capacity has an adverse impact on nonagreement carriers; the agreements shelter the applicants in their major markets thereby enabling them to unleash their greater marketing power in nonagreement markets; the decreasing capacity in the agreement markets has lowered the quality of service provided in those markets; and there is no serious risk of the return to excess capacity in the agreement markets.

The State of Maryland also opposes the application asserting that: the agreements do not save fuel; the carriers generally are now operating at reduced levels of fuel consumption and can continue to do so unilaterally; the record of recent discussions is barren of any discussion of fuel economy; the applicants are making adequate profits and will continue to do so in the absence of capacity agreements; and the reduction of service in the Baltimore-Los Angeles market has significantly impaired the generation of traffic in this market and has resulted in public inconvenience and a failure to provide ample flights.

SUMMARY OF REPLIES

Trans World Airlines states that: There is a need to conserve fuel and extension of this agreement will serve that purpose; a comparison of domestic ASM's operated during September, October and November, 1974, versus the same months in 1972 shows that the agreement carriers have exercised considerably more scheduling restraint than the nonagreement carriers; for the last four months of 1974, TWA's fuel consumption was 3.1 percent below that of the comparable 1972 period and the gap between 1974/1972 fuel consumption is increasing; approval of the agreements will not only permit the agreement carriers to equitably allocate fuel in order to maintain a balance between their highly competitive, less competitive and monopoly routes, but will also permit the agreement carriers to continue to save fuel in absolute terms; the agreements have not unduly inconvenienced the traveling public, as load factors in each agreement market have been reasonable even during the peak summer months of July and August, 1974; the objecting carriers have not been harmed as each of them has logged substantial profits during the term of the agreement; the contention that the agreement carriers have diverted fuel saved in agreement markets to other markets is invalid because the agreement carriers are not using all of the fuel to which they are entitled; the Initial Decision in the *Capacity* Case is directed at economic agreements rather than fuel agreements; and the only reason February 1 was established as the effective date of the agreements was to give opponents sufficient time to answer the application, the agreement carriers sufficient time to reply, and the Board sufficient time to consider the pleadings before issuing an order.

American Airlines states that nonbonded aviation fuel is still allocated at the same 100% of 1972 level as when the Mandatory Fuel Allocation Program was first established; the fuel outlook, both as to supply and price, is most unclear; the agreements have enabled their participants to save more fuel than other carriers[6]; there is evidence of excess capacity on the long-haul routes of nonagreement carriers; American plans schedule reductions in January that will result in fuel usage at approximately 92 percent of its 1972 consumption during the period of the agreement; the Initial Decision in the Capacity Case should not be relied upon here because it is subject to petitions for review and the present fuel restraint application involves a substantially different basic rationale than the agreements considered in that decision; summer 1974 data required by Order 74–7–105 was included in American's application filed in this docket on September 24, 1974, requesting authority to discuss an extension of the agreements; as the purpose of these agreements is to save fuel and achieve an equitable allocation of the scarce resource among markets, arguments regarding the profitability of the agreement carriers are largely irrelevant; the agreement carriers, operating profits fall far short of a reasonable rate of return; American was forced to add Chicago-Dallas frequencies in order to maintain its capacity share and keep Braniff from driving it out of the market[7]; Delta's complaint in Docket 26995 has been rejected by the Bureau of Enforcement; NACA's proposed condition is designed to protect NACA from legitimate competition and is unwarranted in that there have been significant increases in commercial charter traffic since 1971, through normal growth and the expansion of types of charters, as well as reductions in military charters resulting in the transfer of equipment to commercial operations; the Cincinnati parties' allegations of excessive load factors in the Cincinnati-New York market are without merit,[8] and the alleged need for Newark-Cincinnati nonstop service is unsubstantiated;[9] and labor protective provisions have previously been rejected by the Board.

[FR Doc.75–3468 Filed 2–5–75;8:45 am]

[Docket No. 26776, etc.; Order 75–1–136]

CANADIAN FOREIGN AIR CARRIERS

Order Regarding Charter Authority

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 31st day of January, 1975.

By Order 74–11–154 the Board delegated authority to the Director, Bureau of Operating Rights, to issue foreign air carrier permits to 57 Canadian air carriers, listed in Appendix A of that Order, authorizing charter operations between the United States and Canada pursuant to the Nonscheduled Air Service Agreement executed May 8, 1974 by the Governments of Canada and the United States. The permits were to be issued upon evidence of compliance with certain requirements[1] of the Federal Aviation Act. For the interim, the Board granted waivers of certain regulations to the Canadian carriers so as to authorize them to perform charter services contemplated by the Agreement under their existing permits. The waivers were to be in effect for 60 days from the date of Order 74–11–154.

Twenty-two of the fifty-seven carriers listed in Appendix A[2] of Order 74–11–154 have provided evidence to the Board of compliance with the requirements of the Federal Aviation Act and have been issued their new permits. Several of the remaining carriers have fulfilled some of the requirements, but have experienced difficulty in completing documentation of other requirements. In view of the evidence that effort has and is continuing to be made to reach compliance and in order to prevent the possible disruption in the nonscheduled air services between the two countries, we believe it to be in the public interest to extend for a further period of 60 days the waivers provided for by ordering paragraphs 1, 2, 4, 5, and 6 of Order 74–5–37, finalized by Order 74–7–140 for those carriers that have not yet received their new permit as set forth in Appendix A of this order. Upon the expiration of the extended time period, the Board will proceed to cancel the existing permits of those carriers failing to comply with the requirements as set forth in Order 74–11–154.

Accordingly, it is ordered, That:

1. Ordering paragraph 8 of Order 74–11–154 is hereby amended to read:

8. Ordering paragraphs 1, 2, 4, 5, and 6 of Order 74–5–37, finalized by Order

[6] The agreement carriers' fuel consumption during the first half of 1974 was 11.5 percent less than the comparable period in 1972. The nonagreement trunks reduced consumption by only 6.5 percent. The agreement carriers have reduced ASM's by 3.8 percent compared to the remaining trunks' increase of 2.1 percent.

[7] On June 15, 1974, American increased its Chicago-Dallas round-trip frequencies from 6½ to 10½ in response to Braniff's April 1, 1974 increase to 10 round-trip frequencies. As of August 1, 1974, both carriers were operating 11 round-trip frequencies. American's testimony was that while Braniff's added frequencies had probably driven the total market into a loss situation, and American's added flights would place it in a better financial posture than not matching Braniff's schedules.

[8] Cincinnati-New York load factors were 62 percent during the February–May 1974 period, 60 percent during July and August, 1974, and are projected at 62 percent under the proposed agreement. They are entirely reasonable for a market of 585 miles in length.

[9] TWA currently provides 2 daily one-stop round trips in the Cincinnati-Newark market. If traffic volumes were sufficient for nonstop service, it would clearly be in the carrier's interest to provide it.

[1] Specifically, the requirements are that the carrier: (1) has been granted by the Federal Aviation Administration the Operating Specifications required under Part 129 of the Federal Aviation Regulations, or other appropriate aircraft operating authority; (2) has designated in writing pursuant to section 1005(b) of the Federal Aviation Act an agent upon whom service of all notices and process and all orders, decisions, and requirements of the Board and the Secretary of Transportation may be made for and on behalf of such carrier; (3) has filed with the Board a signed counterpart of CAB Agreement 18900; and (4) has in effect third-party liability insurance in the amount of $1,000,000 or more to meet potential liability claims which may arise in connection with its operations under the permit, and liability insurance with respect to passengers sufficient to cover the obligations assumed in CAB Agreement 18900 (the evidence of such insurance to be in the form specified in the proposed new permits).

[2] Appendix A filed as part of original document.

V 40 26 FEB 6 75 XUM

74–7–140, be revoked, effective (a) immediately with respect to those carriers that have been issued new permits on or before January 31, 1975, pursuant to ordering paragraph 2 of Order 74–11–154, and (b) March 31, 1975 with respect to those carriers (as listed in Appendix A to Order 75–1–136) that have not been issued new permits pursuant to ordering paragraph 2 of Order 74–11–154 on or before January 31, 1975.

2. This order shall be served upon the Departments of State and Transportation, the carriers listed in Appendix A, and the Ambassador of Canada.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 326–5]

LOW-EMISSION VEHICLE CERTIFICATION BOARD

Determination Regarding Suitability of Purchase by Federal Government

On November 2, 1973, the Battronic Truck Corporation Division of the Boyertown Auto Body Works submitted an application for certification of six battery-powered vehicles under section 212 of the Clean Air Act.

On June 18, 1974, the Administrator of the Environmental Protection Agency determined under section 212(c) that the vehicles covered by this application qualify as low-emission vehicles. Notice to this effect was published in the FEDERAL REGISTER (39 FR 21068). No comments have been received in response to this notice.

On December 2, 1974 the Low Emission Vehicle Certification Board (LEVCB) met to determine whether these vehicles are suitable substitutes for any vehicles presently being purchased by the Federal government in accordance with the criteria specified in section 212(d) of the Clean Air Act. The LEVCB determined that the applicant vehicles are not suitable substitutes for any government purchased vehicles. The vehicles covered by the application were rejected as substitutes for existing vehicles covered by the General Services Administration procurement specifications, since they do not meet performance requirements of these specifications in terms of acceleration, high speed passing, maximum sustained velocity and maximum range.

The record of the Board's proceedings is available for inspection in the Public Docket at the Office of Public Affairs, Room 329 West Tower, Environmental Protection Agency, 401 M Street SW, Washington, D.C. 20460.

Date: January 29, 1975.

JOHN QUARLES,
Acting Chairman.

[FRL 330–5]

NATIONAL DRINKING WATER ADVISORY COUNCIL

Notice of Meeting

Pursuant to Pub. L. 92–463, notice is hereby given that a meeting of the National Drinking Water Advisory Council established under Pub. L. 93–523, the "Safe Drinking Water Act", will be held at 9:30 a.m. on February 26 and 27, 1975 in Conference Room 3908, Environmental Protection Agency, Waterside Mall, 401 M Street SW., Washington, D.C. 20460.

The purpose of the meeting will be:

(1) To brief the Council on provisions of the "Safe Drinking Water Act" and seek its advice on matters relating to the Act.
(2) To discuss the role of the Council and ways of assuring its effectiveness; and
(3) To consult with the Council on the proposed National Interim Primary Drinking Water Regulations.

The agenda will also include brief reports or informational items of current interest to the members.

The meeting will be open to the public. This is a tentative meeting date and any member of the public wishing to attend or submit a written statement should contact the Acting Executive Secretary, Mr. Lawrence C. Gray, Water Supply Division [WH–450], Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460, by February 20, 1975, for confirmation of the meeting arrangements.

The telephone number is Area Code: 202–426–8847.

JAMES L. AGEE,
Assistant Administrator for Water and Hazardous Materials.

JANUARY 31, 1975.

[FR Doc.75–3339 Filed 2–5–75;8:45 am]

FEDERAL ENERGY ADMINISTRATION

COAL INDUSTRY ADVISORY COMMITTEE

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770), notice is hereby given that the Coal Industry Advisory Committee will meet on Tuesday, February 25, 1975, at 10 a.m., Conference Room B, Interdepartmental Auditorium, Labor Building, between 12th and 14th on Constitution Avenue, NW., Washington, D.C.

The Committee was established to assist the Administrator of the Federal Energy Administration in encouraging the expansion of a readily-usable energy source—coal—and maintaining a fair and reasonable consumer price for such supplies subject to the Federal Energy Administration Act of 1974.

The agenda for the meeting is as follows:

1. President's Energy Message—
a. Surface Mining Legislation.
b. Coal Leasing Policy.
c. Clean Air Act Amendment.
2. Present Constraints to Achieving Significant Increased Coal Production or Meeting Presidential Goals.
3. Research and Development—What is Needed in Extraction and Demethanization.
4. Coal Pricing and Profits.

The meeting is open to the public; however, space and facilities are limited.

The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Any member of the public who wishes to file a written statement with the Committee will be permitted to do so, either before or after the meeting. Members of the public who wish to make oral statements should inform Lois Weeks, Advisory Committee Management Office, (202) 961–7022, at least 5 days before the meeting and reasonable provision will be made for their appearance on the agenda.

Further information concerning this meeting may be obtained from the Advisory Committee Management Office.

Minutes of the meeting will be made available for public inspection at the Federal Energy Administration, Washington, D.C.

Issued at Washington, D.C. on February 3, 1975.

ROBERT E. MONTGOMERY, Jr.,
General Counsel.

R.C.D. SHIPPING SERVICES

Petition Filed

Notice is hereby given that the following petition has been filed with the Commission for approval pursuant to section 14b of the Shipping Act, 1916, as amended (75 Stat. 762, 46 U.S.C. 813a).

Interested parties may inspect a copy of the current contract form and of the petition, reflecting the changes proposed to be made in the language of said contract, at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126 or at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments with reference to the proposed changes and the petition, including a request for hearing, if desired, may be submitted to the Secretary, Federal Maritime Commission, 1100 L Street NW., Washington, D.C., 20573, on or before February 26, 1975. Any person desiring a hearing on the proposed modification of the contract form and/or the approved contract system shall provide a clear and concise statements of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the petition, (as indicated hereinafter), and the statement should indicate that this has been done.

Notice of Agreement filed by:

L. A. Parish, Agent, L. A. Parish Company, 61 Saint Joseph Street, P.O. Box 231, Mobile, Alabama 36601.

Agreement No. 9490 D.R. 1 revises the Merchant's Contract of R.C.D. Shipping Services to conform more closely to the form of contract contained in the Commission's General Order 19.

By order of the Federal Maritime Commission.

Dated: January 30, 1975.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. E–9211]

CINCINNATI GAS & ELECTRIC CO.

Changes in Rates and Charges

JANUARY 30, 1975.

Take notice that The Cincinnati Gas & Electric Company (Cincinnati) tendered for filing on January 13, 1975 a First Supplemental Agreement dated as of January 1, 1975, to the Interconnection Agreement dated September 15, 1969, between Cincinnati and the City of Hamilton, Ohio (Hamilton) designated Cincinnati's Rate Schedule FPC No. 32.

Section 1 of this First Supplemental Agreement provides for a new Revised Sheet No. 7, to supersede Original Sheet No. 7 of the service schedule identified in the 1969 Agreement as, Exhibit D–Short Term Power Service. This new Revised Sheet No. 7 provides for an increase in the Demand Charge from 30¢ per kilowatt per week to 45¢ per kilowatt per week.

Cincinnati has requested waiver of the Commission's regulations in order that the proposed filing will be effective as of January 1, 1975. Cincinnati asks for waiver of any other Commission Rules or Regulations with which Cincinnati has not already complied. Cincinnati states that a copy of the filing has been sent to Hamilton.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 18, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP71–106 (1973 Phase)]

CITIES SERVICE GAS CO.

Notice of Compliance Filing

JANUARY 29, 1975.

Take notice that on January 16, 1975, Cities Service Gas Company tendered for filing copies of its Report of Collections from jurisdictional customers. The company states that its tender is made in accordance with the Commission's September 5, 1974 order in the above docket, which approved and adopted the stipulation and agreement, dated April 24, 1974, in this docket.

The company also states that copies of the filing are being served on each customer receiving a refund, interested state commissions, and all parties in the above docket.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 10, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP75–216]

COLORADO INTERSTATE GAS CO. ET AL.

Notice of Application

JANUARY 29, 1975.

Take notice that on January 27, 1975, Colorado Interstate Gas Company, a division of Colorado Interstate Corporation (CIG), P.O. Box 1087, Colorado Springs, Colorado 80944, Cascade Natural Gas Corporation (Cascade), P.O. Box 24464, Seattle, Washington 98124, and Mountain Fuel Supply Company (Mountain Fuel), P.O. Box 11368, Salt Lake City, Utah 84139, filed a joint application pursuant to section 7 of the Natural Gas Act for authority to continue to implement a short-term sale of natural gas by CIG to Rocky Mountain Natural Gas Company, Inc. (Rocky Mountain), all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

By the instant application, CIG requests authority to sell up to 10,000 Mcf of gas per day for a period commencing February 2, 1975, and terminating April 15, 1975, to Rocky Mountain. According to the application the sale is expected to average about 6,000 Mcf of gas

XUM
V 40 26
FEB 6 75
XUM

per day or less and will be interruptible, subject to the operations of CIG's system. CIG states that it will charge Rocky Mountain 72.17 cents per Mcf for deliveries up to 6,000 Mcf per day and 97.57 cents for all volumes delivered in excess of 6,000 Mcf per day. The application states that Applicants are advised that Rocky Mountain will not require any additional authorizations to undertake the proposed transaction.

Applicants state that the short-term sale is proposed because Rocky Mountain, which endeavors to obtain its gas supply entirely within the state of Colorado, has been forced to enter into several short-term gas supply arrangements similar to the one proposed in the instant application as a result of declines in local gas production. Applicants further state that Rocky Mountain has informed CIG that without this supplemental supply of gas Rocky Mountain will be forced to curtail partially its firm deliveries in February and March 1975, including residential and small commercial customers.

In order to implement the subject sale, according to the application, CIG, whose system does not connect with Rocky Mountain's, has entered into a gas exchange agreement with Cascade and Mountain Fuel whereby Cascade will make deliveries to Rocky Mountain for CIG's account from an existing interconnection in the Divide Creek Field in Mesa County, Colorado, and reduce deliveries to Mountain Fuel at Bonanza, Utah, under Cascade's FPC Rate Schedule No. 1, by a volume equal to the volume delivered to Rocky Mountain, and whereby CIG will deliver to Mountain Fuel for Cascade's account volumes, equal to those which Cascade delivered to Rocky Mountain, at an existing interconnection between CIG's and Mountain Fuel's systems in Sweetwater County, Wyoming. The application further states that should the exchange account between CIG and Mountain Fuel not be in balance on April 15, 1975, the account will be balanced within a reasonable time. No new facilities are proposed by Applicants to effectuate said gas exchange.

The application relates that CIG has been selling gas to Rocky Mountain and that the subject exchange has been in operation pursuant to § 157.22 of the Commission's regulations under the Natural Gas Act (18 CFR 157.22) since December 4, 1974. Said emergency operations were originally scheduled to terminate, according to the application, on February 1, 1975. Applicants, therefore, request authorization to continue the sale and exchange as heretofore described for the reasons hereinbefore explained.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before February 10, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

CONSOLIDATED GAS SUPPLY CORP.

Order Accepting for Filing and Suspending Proposed Revised Tariff Sheets and Establishing Procedures; Correction

JANUARY 17, 1975.

In the order accepting for filing and suspending proposed revised tariff sheets and establishing procedures, issued on January 15, 1975 and published in the FEDERAL REGISTER on January 22, 1975 (40 FR 3510, please change the heading at the top of page 3510, Change "Consolidated Natural Gas Company" to "Consolidated Gas Supply Corporation."

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3369 Filed 2-5-75;8:45 am]

[Docket No. RP72-134 (PGA75-7)]

EASTERN SHORE NATURAL GAS CO.

Purchased Gas Cost Adjustment to Rates and Charges

JANUARY 29, 1975.

Take notice that Eastern Shore Natural Gas Company (Eastern Shore) on January 17, 1975, tendered for filing Second Substitute Eleventh Revised Sheet No. 3A and Second Substitute Eleventh Revised PGA-1 to its FPC Gas Tariff, Original Volume No. 1 to become effective February 1, 1975. The proposed changes reflect the rates accepted by Commission letter order dated December 24, 1974, as adjusted to include the rate changes proposed by its supplier.

Pursuant to the Purchased Gas Adjustment Clause contained in its tariff, Eastern Shore proposes to decrease the demand charges and to increase the commodity or delivery charges in its rate schedules by amounts equivalent to the increases in the similar rates of its sole supplier, Transcontinental Gas Pipe Line Corporation, contained in the latter's filing in Docket No. RP75-3 on December 23, 1974. Eastern Shore requests waiver of the notice requirements of § 154.22 of the regulations under the Natural Gas Act and § 20.2 of the General Terms and Conditions of its Tariff, to the extent necessary, to permit the proposed tariff sheets to become effective as of February 1, 1975, coincident with the proposed effective date of Transcontinental's rate changes.

Copies of the filing have been mailed to each of the Company's jurisdictional customers and to interested State Commissions.

Any person desiring to be heard or to protest said filing should file a Petition to Intervene or Protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with § 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such Petitioners or Protests should be filed on or before February 11, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a Petition to Intervene. Copies of this filing are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Dockets Nos. G-13202, RP67-9, RP71-14, et al.]

EL PASO NATURAL GAS CO.

Payment of Refunds

JANUARY 30, 1975.

Take notice that on November 15, 1974, El Paso Natural Gas Company ("El Paso") tendered for filing a Report of Refunds made on October 11, 1974, to its former Northwest Division System jurisdictional customers.[1] El Paso states that such refunds were made in compliance with the Commission's two (2) letter orders issued September 11, 1974, in the captioned dockets and in accordance with the Stipulations and Agreements dated as of January 1, 1967, and July 19, 1973, approved at Dockets Nos. RP67-9 and RP71-14, et al., respectively.

El Paso further states that the refunds made, aggregating $10,726,269.74, encompass (i) $9,416,968.36 principal refunds, plus interest thereon of $1,181,096.21, applicable to the Stipulation and Agreement dated July 19, 1973, at Docket Nos. RP71-14, et al., and (ii) $86,150.04 in refunds received from gas suppliers, plus additional interest of $42,055.13 thereon, flowed through to the affected customers in accordance with the Stipulation and Agreement dated as of January 1, 1967, at Docket No. RP67-9. The above interest amounts on the said principal refunds were computed through October 10, 1974, at the interest rates specified by the Commission in each of the docketed proceedings.

El Paso states that copies of the filing were served on all of El Paso's former Northwest Division System customers subject to the proceedings at Docket No. RP67-9, all interested parties to the proceedings at Dockets Nos. RP71-14, RP71-84, RP71-137, and RP72-155 and interested state regulatory commissions.

Any person desiring to be heard or to make any protest with reference to said application should, on or before February 18, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3372 Filed 2-5-75;8:45 am]

[1] Effective as of January 31, 1974, El Paso's Northwest Division properties were divested to Northwest Pipeline Corporation pursuant to the Commission's order issued September 21, 1973, at Docket Nos. CP74-14 et al.

[Docket No. E-7942]

NANTAHALA POWER AND LIGHT CO.

Filing of Revised Tariff Sheet

JANUARY 29, 1975.

Take notice that on January 17, 1975, Nantahala Power and Light Company (Nantahala) tendered for filing Substitute First Revised Sheet No. 4 which supersedes First Revised Sheet No. 4. Nantahala states that the sole purpose of the instant filing is to eliminate from the availability clause of Schedule PL the potentially restrictive language.

Nantahala requests that the tendered tariff sheet be made retroactively effective as of March 30, 1973; the same effective date applicable to the superseded First Revised Sheet No. 4.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 15, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. RP74-35]

NATIONAL FUEL GAS SUPPLY CORP.

Filing of Refund Report

JANUARY 29, 1975.

Take notice that on January 27, 1975, National Fuel Gas Supply Corporation (National Fuel) tendered for filing a statement of the detail supporting the refunds which will be credited to jurisdictional customers' January, 1975 bills as a result of our order issued January 6, 1975 in the instant docket. National Fuel states that copies of this filing are being sent to purchasers and interested state commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE, Washington, D.C. 20426, in accordance with §§ 1.8 or 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 17, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any persons wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. E-9226]

OKLAHOMA GAS AND ELECTRIC CO. (OKLAHOMA)

Notice of Application

JANUARY 30, 1975.

Take notice that on January 23, 1975, Oklahoma Gas and Electric Company (Applicant) filed an application pursuant to section 204 of the Federal Power Act seeking an order authorizing the issuance of unsecured Promissory Notes to commercial banks and to commercial paper dealers in amounts not exceeding in the aggregate $65,000,000 outstanding at any one time.

The Promissory Notes to be issued by the Applicant to commercial banks will be issued on various days during the period ending December 31, 1975, but no Note will mature more than twelve months after date of issue or renewal. The interest rate of such Notes will be at the prime loan interest rate of the banks in effect from time to time.

The Promissory Notes issued to commercial paper dealers will be issued on various days during the period ending December 31, 1975, but no Note will mature more than nine months after date of issue nor will any Note be extended or renewed. The interest rate on such Notes will be dependent upon the term of the Notes and the money market conditions at the time of issuance.

According to the application, the aggregate amount of commercial paper to be outstanding at any one time will not exceed the sum of (1) the dollar amount of Applicant's receivables arising out of the sale of electric service and (2) the dollar amount of depreciation and amortization charges on plant and equipment for the preceding year.

The proceeds from the issuance of the Notes will be added to the general funds of the Applicant, which general funds will be used, among other things, to finance in part the Applicant's 1975 construction program. Applicant estimates that construction expenditures for the

V 40 26 FEB 6 75 XUM

year ending December 31, 1975 will total about $135,000,000.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 24, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties of the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

[Project No. 1121]

PACIFIC GAS AND ELECTRIC CO.

Application for Modification of Company Reservoirs

JANUARY 30, 1975.

Public notice is hereby given that application for Modification of Company Reservoirs was filed July 1, 1974, revised September 25, 1974, under the Federal Power Act (16 U.S.C. 791a–825r) by Pacific Gas and Electric Company (Correspondence to: Mr. J. F. Roberts, Jr., Vice President-Rates and Valuation, Pacific Gas and Electric Company, 77 Beale Street, San Francisco, California 94106) for Battle Creek Project No. 1121 located in the Counties of Shasta and Tehama, California.

Applicant seeks Commission approval of its proposal to modify the operation of eight company reservoirs including one reservoir at Project No. 1121. The modifications would permit applicant to increase the storage capacity of several of the reservoirs and provide a total increase in generation of 34,801,000 kwh annually. Applicant proposes to implement the modifications on a five-year temporary basis.

At Battle Creek Project No. 1121, the North Battle Creek Reservoir, applicant proposes to add 1 foot of flashboards to the existing 4 feet of flashboards during the period April through October. This modification would increase the reservoir area by about 4 acres and would increase the annual generation by 144,000 kwh.

Any person desiring to be heard or to make protest with reference to said application should on or before March 17, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary

[FR Doc.75-3376 Filed 2-5-75;8:45 am]

[Project No. 2310]

PACIFIC GAS AND ELECTRIC CO.

Application for Modification of Company Reservoirs

JANUARY 30, 1975.

Public notice is hereby given that application for Modification of Company Reservoirs was filed July 1, 1974, revised September 25, 1974, under the Federal Power Act (16 U.S.C. 791a–825r) by Pacific Gas and Electric Company (Correspondence to: Mr. J. F. Roberts, Jr., Vice President—Rates and Valuation, Pacific Gas and Electric Company, 77 Beale Street, San Francisco, California 94106) for Drum Spaulding Project No. 2310 located in the Counties of Nevada and Placer, California.

Applicant seeks Commission approval of its proposal to modify the operation of eight company reservoirs including one reservoir at Project No. 2310. The modifications would permit applicant to increase the storage capacity of several of the reservoirs and provide a total increase in generation of 34,801,000 kwh annually. Applicant proposes to implement the modifications on a five-year temporary basis.

At Drum Spaulding Project No. 2310, the Drum Forebay, applicant proposes to install 1 foot of flashboards year round. This modification would increase the reservoir area by about 22 acres if the reservoir water surface is at the top of the flashboards and would increase the annual generation by 749,000 kwh.

In addition, applicant is requesting the Commission to make the changes in the pending application for license for Drum Spaulding Project No. 2310 to show its proposal of modifying the unlicensed Halsey Forebay Reservoir. Applicant proposes to install 1 foot of flashboards year round. This modification would increase the annual generation by 188,300 kwh.

Any person desiring to be heard or to make protest with reference to said application should on or before March 17, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3377 Filed 2-5-75;8:45 am]

[Project No. 137]

PACIFIC GAS AND ELECTRIC CO.

Application for Modification of Company Reservoirs

JANUARY 30, 1975.

Public notice is hereby given that application for Modification of Company Reservoirs was filed July 1, 1974, revised September 25, 1974, under the Federal Power Act (16 U.S.C. 791a–825r) by Pacific Gas and Electric Company (Correspondence to: Mr. J. F. Roberts, Jr., Vice President—Rates and Valuation, Pacific Gas and Electric Company, 77 Beale Street, San Francisco, California 94106) for Mokelumne River Project No. 137, located on the Mokelumne River in the Counties of Alpine, Amador and Calaveras, California.

Applicant seeks Commission approval of its proposal to modify the operation of eight company reservoirs including three reservoirs at Project No. 137. The modifications would permit applicant to increase the storage capacity of several of the reservoirs and provide a total increase in generation 34,801,000 kwh annually. Applicant proposes to implement the modifications on a five-year temporary basis.

At Project No. 137, three reservoirs will be affected: (1) At Lake Tabeaud, applicant proposes to increase the water surface elevation 2 feet by installation of flashboards during the period April to October. The additional 2 feet of flashboard is being installed in order to retain 2 feet of freeboard on the spillway during normal operation. This modification would increase the reservoir area by an estimated 3 acres if the reservoir water surface is at the top of the flashboards. The annual increase in generation would be 599,200 kwh, (2) At Upper Bear River Reservoir applicant proposes a net increase of 2.0 feet in the operating level of the reservoir during the period April through October. The proposal would involve the removal of the existing 2 foot timber crest and replacing it with 4 feet of flashboards. This modification would increase the reservoir area by an estimated 4 acres. The annual increase in generation would be 1,366,000 kwh, and (3) At Lower Bear River Reservoir, applicant proposes a net increase of 4.0 feet in the operating level of the reservoir during the period April through October. This proposal would involve the removal of the existing .67 feet of timber crest and replacing it with 4.67 feet of flashboards. This modification would increase the reservoir area by an estimated 20 acres and would increase the annual generation by 12,916,800 kwh.

Any person desiring to be heard or to make protest with reference to said application should on or before March 17, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commisison's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commisison will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3378 Filed 2-5-75;8:45 am]

[Dockets Nos. RP71-119, RP74-31-26]

PANHANDLE EASTERN PIPE LINE CO. ET AL.

Petition for Extraordinary Relief

JANUARY 30, 1975.

Take notice that on January 24, 1975, Brockway Glass Company, Inc. ("Brockway") filed a petition for permanent extraordinary relief from the natural gas curtailments imposed by Panhandle Eastern Pipe Line Company ("Panhandle") on Brockway's glass container plant located at Lapel, Indiana. Brockway, a direct sale customer of Panhandle, states that due to unexpected additional curtailments being imposed this winter season by Panhandle, Brockway could effectively lose delivery of the required 644 Mcf per average day necessary to fuel the feeders, the annealing lehrs, and the mold heating oven at the Lapel plant. If the minimum 644 Mcf of process gas per average day is curtailed, Brockway will not have sufficent gas to maintain full production and will as a result suffer irreparable injury. Without relief, the Lapel plant will have to shut down, at least in part. This will create a significant loss of employment in the town of Lapel, in which Brockway is one of the largest employers. Irreparable injury will also occur to Brockway itself and to its customers.

Brockway states that, since it is installing propane facilities, full extraordinary relief is only necessary for the period March 1, 1975 through June 30, 1975, by which time it expects the propane facilities to be operational. Thereafter Brockway requests extraordinary relief only if, despite its efforts, it is unable to secure a propane supply which, along with the natural gas available from Panhandle, is equal to 644 Mcf per average day. Thus, in the event of such a shortfall, it would only be requesting extraordinary relief to the extent necessary to make up the difference between 644 Mcf per average day and the sum of the available propane and the available natural gas supply from Panhandle.

Any volumes delivered pursuant to such extraordinary relief in excess of entitlements under the effective Panhandle curtailment plan would be subject to payback out of subsequent daily entitlements in excess of 644 Mcf per average day.

In order to avoid irreparable injury pending hearings on its request for permanent relief, Brockway has also moved for immediate temporary relief identical with the permanent relief requested. In this connection, Brockway requested and Panhandle has agreed to a grant of emergency relief from curtailments during the months of January and February.

It appears reasonable and consistent with the public interest in this proceeding to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to protest said petition should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10) on or before February 11, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene in accordance with the Commission's rules. This filing which was made with the Commission is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3379 Filed 2-5-75;8:45 am]

[Docket No. RP74-51]

SOUTHWEST GAS CORP.

Compliance Filing

JANUARY 30, 1975.

Take notice that on January 9, 1975 and January 10, 1975, Southwest Gas Corporation (Southwest) tendered for filing proposed changes in the following:

Sheets	*Effective*
FPC Gas Tariff, Original Volume No. 1:	
Substitute, Substitute Sixth Revised Sheet No. 3A	June 30, 1974
Substitute, Second Substitute Sixth Revised Sheet No. 3A	Oct. 1, 1974
Substitute, Third Substitute Sixth Revised Sheet No. 3A	Dec. 1, 1974
Seventh Revised Sheet No. 3A	Jan. 1, 1975

Southwest states that the filing is in compliance with the Commission order of December 31, 1974 which accepted a proposed settlement and required Southwest file new rates to be effective January 1, 1975.

Southwest states that it has mailed a copy of the filing to all interested parties.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE, Washington, D.C. 20526, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 14, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3380 Filed 2-5-75;8:45 am]

[Docket No. E-9200]

UPPER PENINSULA POWER CO.

Order Accepting and Suspending Proposed Rate Increase, Establishing Procedures and Providing for Filing of Substitute Fuel Clause

JANUARY 30, 1975.

On December 30, 1974, the Upper Peninsula Power Company (Upper Peninsula) tendered for filing proposed changes in the rate schedules [1] for service to the Alger-Delta Cooperative Electric Association, the Ontonagon County Rural Electrification Association, the Village of Baraga, the City of Gladstone, the Village of L'Anse, the City of Negaunee, and to the Wisconsin Michigan Power Company.

The proposed changes would increase revenues from these jurisdictional sales by approximately $287,079 based on the 12-month period ended July 31, 1974 and would increase revenues by approximately $455,095 based on estimated sales for the year ending January, 1976. Upper Peninsula asserts that the proposed increased rates are required to overcome the revenue deficiency from this type of service occasioned by the continued inflationary impact on its costs during the 13-year period the existing rates have been in effect. Upper Peninsula's filing also includes a revised fuel adjustment clause which it contends conforms with Section 35.14 of the Commission's Regulations as set forth in Order No. 517.[2] Upper Peninsula has requested an effective date for its filing of January 31, 1975.

Notice of Upper Peninsula's filing was issued January 6, 1975 with comments, protests, or petitions to intervene due on or before January 22, 1975. On January 17, 1975, comments and protest to Upper Peninsula's proposed rate increase were filed by the Alger Delta Cooperative Electric Association.

[1] FPC Rate Schedule Nos. 14, 15, 6, 13, 7, 11, 2, and 3.

[2] Order No. 517, Docket No. R-479, issued November 13, 1974.

XUM
V40-26
FEB 6 75
XUM

Our review of Upper Peninsula's filing indicates that the fuel clause proposed herein provides for losses on a system basis rather than on a wholesale basis. Hence the rates resulting from the implementation of the proposed fuel clause may be excessive. Moreover the proposed rate increase of Upper Peninsula has not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential or otherwise unlawful. Upon this review we shall therefore suspend the effectiveness of Upper Peninsula's December 30, 1974 filing for 30 days until March 2, 1975, when it shall become effective subject to refund.

With respect to Upper Peninsula's tendered fuel clause, we note that Upper Peninsula had the alternative of filing a fuel clause conforming to the then effective Section 35.14 of our Regulations or an Order No. 517 fuel clause, since its filing preceded January 1, 1975, the date upon which Order No. 517 took effect as part of the Commission's Regulations. Because Upper Peninsula's purported Order No. 517 fuel clause was filed prior to the date upon which Order No. 517 became binding, its tender of a fuel clause not in conformance with the requirements of Order No. 517 does not give grounds for an outright rejection. We shall therefore provide that within thirty days of the issuance of this order Upper Peninsula shall file a substitute fuel clause providing for losses on a wholesale basis. Upon such a submittal and a finding that the revised fuel clause conforms to Order No. 517, we shall lift the suspension of the effectiveness of Upper Peninsula's fuel clause, make it effective on March 2, 1975 without further refund as may be required. In the event Upper Peninsula does not file a substitute fuel clause consistent with this order providing for losses on a wholesale, rather than on a system basis, the fuel clause tendered on December 30, 1974 and herein suspended will be subject to the hearing in this docket as hereinafter ordered.

The Commission finds: (1) It is necessary and appropriate in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission accept for filing Upper Peninsula's December 30, 1974, tendered proposed rate changes, suspend the effectiveness thereof for thirty days until March 2, 1975, and enter upon a hearing concerning the lawfulness of the proposed rates and charges contained therein as hereinafter ordered.

(2) It is necessary and appropriate in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that Upper Peninsula be directed to submit a substitute fuel clause providing for losses on a wholesale basis rather than on a system basis within thirty (30) days of the issuance of this order as hereinafter ordered and conditioned.

The Commission orders: (A) Pursuant to the authority of the Federal Power Act, particularly sections 205 and 206 thereof, the Commission's rules of practice and procedure, and the regulations under the Federal Power Act, a public hearing shall be held on June 10, 1975, at 10 a.m., in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, concerning the lawfulness of the proposed rates tendered herein by Upper Peninsula in Docket No. E-9200.

(B) Pending hearing and a final decision thereon, Upper Peninsula's proposed rate increases filed on December 30, 1974, in Docket No. E-9200 are hereby accepted for filing and suspended for 30 days and the use thereof deferred until March 2, 1975.

(C) On or before April 29, 1975, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of any intervenors shall be served on or before May 13, 1975. Any rebuttal evidence of Upper Peninsula shall be filed on or before May 27, 1975.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose, (See Delegation of Authority, 18 CFR 3.5 (d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(E) Upper Peninsula shall, within 30 days of the issuance of this order, file a substitute fuel clause providing for losses on a wholesale basis rather than a system basis to conform with Order No. 517. Upon such submittal and a finding that the substitute fuel clause conforms fully to Order No. 517, we shall lift the suspension of the effectiveness of the fuel clause, make it effective on March 2, 1975 without further refund obligation and order such interim refunds as may be required. Failure to file a revised fuel clause as provided above will require the fuel clause tendered on December 30, 1974 in Docket No. E-9200 to be a subject of the hearing as hereinbefore provided.

(F) Nothing contained herein should be construed as limiting the rights of the parties to this proceeding regarding the convening of conferences or offers of settlement pursuant to § 1.18 of the Commission's rules of practice and procedure.

(G) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. CP75-219]

TRANSCONTINENTAL GAS PIPE LINE CORP.

Notice of Application

JANUARY 31, 1975.

Take notice that on January 27, 1975, Transcontinental Gas Pipe Line Corporation (Applicant), P.O. Box 1396, Houston, Texas 77001, filed in Docket No. CP75-219 an applicaiton pursuant to Section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas in interstate commerce during a sixty-day period for New Jersey Zinc Company (Zinc), a resale customer of Union Gas Company (Union), which is a distributor customer of Applicant, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicant requests authorization to transport natural gas for Zinc from the tailgate of Mobil's Cameron Meadows Gas Plant, Cameron Parish, Louisiana, to Union at an existing point of delivery between Applicant and Union at Palmerton, Carbon County, Pennsylvania, for ultimate delivery to Zinc's smelting facility in Palmerton. Applicant proposes that this service continue for a period of sixty days after the date of first delivery at a price of 22.0 cents per Mcf delivered at Palmerton. Applicant states that it has agreed, by contract dated January 24, 1975, with Zinc to transport on an interruptible basis volumes purchased by Zinc in the Northwest Cameron Field, Cameron Parish, Louisiana, from Apexco, Inc., et al. (Apexco). Applicant states that said volumes are anticipated to be approximately 10,000 Mcf per day. The January 24, 1975, agreement states that 10 percent of the volumes purchased by Zinc from Apexco and delivered to Applicant shall be retained by Applicant as compensation for compressor fuel and line loss. The January 24, 1975, agreement further states that the daily volumes to be transported by Applicant pursuant to the agreement when combined with the curtailed volumes Union receives from Applicant pursuant to Applicant's rate schedule CD-3 will not exceed Union's total CD-3 entitlement, that the agreement is conditioned upon Union's agreement to transport the volumes from the Palmerton point of receipt to Zinc's plant, and that imbalances that occur in Applicant's line as a result of the subject deliveries will be balanced periodically as operations permit against deliveries to Union for Zinc's account.

Applicant states that, as a result of its current supply difficulties, it has decreased deliveries to Union and, consequently, deliveries by Union to Zinc have decreased to the point where continued operation of the smelting facilities is jeopardized. Applicant further states that, although Union's contract with Zinc is firm for the delivery of 10,500 Mcf per day, as a result of Applicant's curtailment of Union's supply, deliveries from Union to Zinc have decreased to as low as 2,100 Mcf per day, resulting in layoffs of Zinc's employees and possibilities of future layoffs. Applicant concludes that Zinc will be forced to take further steps to shut down its facility without the gas Applicant proposes to transport in the instant application. Applicant describes Zinc's plant as a manufacturing facility of zinc metal, zinc oxides and powders, ammonia and other items of importance to the American economy.

Zinc has contracted for the supply of gas pursuant to an agreement dated January 21, 1975, with Apexco. Said agreement provides for an emergency sale for a period of 60 days beginning February 5, 1975, of an estimated 8,000 to 10,000 Mcf per day of residue gas from Mobil's plant at a price of $1.25 per Mcf. The January 21, 1975, agreement is conditioned upon Zinc's furnishing to Apexco by February 3, 1975, any and all Commission disclaimers of jurisdiction which Apexco may require. The agreement is further conditioned upon issuance of a final non-appealable order of the Commission granting authorization for Applicant to transport the gas. If said conditions are not met by February 3, 1975, according to the agreement, Apexco may terminate the agreement at any time thereafter by giving written notice to Zinc.

It appears reasonable and consistent with the public interest in this case to provide a shortened period for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before February 11, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Federal Communications Commission; Receipt and Approval of Report Proposal

The following request for clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on January 23, 1975. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt and the action taken by GAO.

FEDERAL COMMUNICATIONS COMMISSION

Request was made for approval of a revision of FCC Form 755, Application for Restricted Radiotelephone Operator Permit by an Alien.

Public Law 93-505, enacted November 30, 1974, removes the restrictions in the Communications Act concerning the licensing of aliens and alien-affiliated entities in the Safety and Special and the Experimental Radio Services. Prior to this action, the only aliens entitled to apply for a Restricted Radiotelephone Operator Permit (RP) were those who held FAA Pilot Certificates and used the permit in connection with their piloting duties.

The Commission adopted an Order on January 22, 1975, permitting aliens to hold radio station licenses in the ship and aircraft radio services effective February 5, 1975. In order to operate such a station, the person must be granted an RP by the Commission. This action extends to aliens the privilege which heretofore has not been accorded them by statute.

The FCC, therefore, has requested emergency clearance of this form so that the benefits can be made available to aliens as soon as possible.

The GAO provided clearance on this revised form on January 31, 1975, under B-180227 (R0148). This clearance expires September 30, 1977.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

[FR Doc.75-3383 Filed 2-5-75;8:45 am]

REGULATORY REPORTS REVIEW

Federal Trade Commission; Receipt and Approval of Report Proposal

The following request for clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on January 15, 1975. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt and the action taken by GAO.

FEDERAL TRADE COMMISSION

Request was made for approval of a single-time supplemental form to FTC's Form MG, Quarterly Financial Report. The form will be used to evaluate the impact, on the Quarterly Financial Report series, of the change in accounting method of inventory valuation from first-in, first-out (FIFO) to last-in, first-out (LIFO).

Economic and tax income data being reported to the Department of Commerce, the Treasury Department, and the Federal Trade Commission by U.S. corporations for the year 1974 are increasingly being distorted as a result of the adoption of a change in accounting method of inventory valuation from Fifo to Lifo. The effect of this change poses serious problems for the Federal Trade Commission's Quarterly Financial Report which is a valuable statistical report for measuring quarter to quarter changes in the financial structure of an industry. For this measurement to be meaningful, comparable data must be assured. In the event that a change in accounting method will materially distort one quarter's results, the FTC's Division of Financial Statistics must be prepared to tabulate, evaluate and adjust the data accordingly. The change from Fifo to Lifo, although occurring throughout the year, escalated in the fourth calendar quarter of 1974 and must be monitored.

The FTC, therefore, requested emergency clearance of this supplement so that respondents would be able to submit the supplement with their current MG report for the three month period of October, November, December 1974.

The GAO provided clearance on this supplemental form on January 31, 1975, under number B-180229 (S75015). This clearance expires March 31, 1975.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

[FR Doc.75-3454 Filed 2-5-75;8:45 am]

REGULATORY REPORTS REVIEW

Interstate Commerce Commission; Receipt of Report Proposals

The following request for clearance of report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on January 31, 1975. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of the request received; the name of the agency sponsoring the proposed collection of information; the agency form number; and the frequency with which the information is proposed to be collected.

Written comments on the proposed ICC form are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments must be received on or before February 24, 1975, and should be addressed to Mr. Monte Canfield, Jr., Director, Office of Special Programs, United States General Accounting Office, 425 I Street NW, Washington, D.C. 20548.

XUM V40126 FEB 6 75 XUM

Further information about the items on this list may be obtained from the Regulatory Reports Review Officer, 202–376–5425.

INTERSTATE COMMERCE COMMISSION

Request for review and clearance of a renewal of Form OP–F–44, "Application for Authority Under Section 5, Interstate Commerce Act, to Consolidate, Merge, Purchase or Lease Operating Rights and Properties, or any Part Thereof, of a Motor Carrier." All motor carriers seeking to merge properties or franchises, and whose annual gross operating revenue in the aggregate exceeds $300,000, shall file Form OP–F–44. Fewer than 15,000 carriers are subject to the requirement and about 400 applications are received each year. Average number of man-hours required per response is estimated to be 80.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

[FR Doc.75–3453 Filed 2–5–75;8:45 am]

REGULATORY REPORTS REVIEW

Interstate Commerce Commission; Receipt of Report Proposals

The following requests for clearance of reports intended for use in collecting information from the public were received by the Regulatory Reports Review Staff, GAO, on January 29, 1975. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public of such receipt.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed forms are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments must be received on or before February 24, 1975, and should be addressed to Mr. Monte Canfield, Jr., Director, Office of Special Programs, United States General Accounting Office, 425 I Street NW, Washington, D.C. 20548.

Further information about the items on this list may be obtained from the Regulatory Reports Review Officer, 202–376–5425.

INTERSTATE COMMERCE COMMISSION

Request for clearance of revised Annual Report Form M–2, required to be filed by some 2,500 Class II Common and Contract Motor Carriers of Property (those with annual gross revenue averaging from $500,000 to 3 million dollars) pursuant to Section 220(a) of the Interstate Commerce Act. Data are used for economic regulatory purposes. Revisions made in this annual report form resulted from changes in the Uniform System of Accounts (49 CFR 1207) adopted through rulemaking proceedings. Estimated average number of man-hours required per response is 88. Estimated total man-hours of respondent burden is 224,400.

INTERSTATE COMMERCE COMMISSION

Request for clearance of revised Annual Report Form M–1, required to be filed by some 830 Class I Common and Contract Motor Carrier of Property (those with annual gross revenue averaging 3 million dollars or more) and 70 motor carrier holding companies, pursuant to Section 220(a) of the Interstate Commerce Act. Data are used for economic regulatory purposes. Revisions made in this annual report form resulted from changes in the Uniform System of Accounts (49 CFR 1207) adopted through rulemaking proceedings. Estimated average number of man-hours required per response is 118. Estimated total man-hours of respondent burden is 106,200.

NORMAN F. HEYL,
Regulatory Reports Review Officer.

INTERNATIONAL JOINT COMMISSION

LAKE ERIE ICE BOOMS

Public Hearing

The International Joint Commission will hold a public hearing at the place and date noted below for the purpose of reviewing 1974–75 winter operations, current and probable conditions for the remainder of the season on Lake Erie and the Upper Niagara River and to receive the views of any interested persons on the effects the operation of the ice boom has on the environment, navigation, power and other interests and also to consider the request to extend the authority to operate and maintain the ice boom.

10 a.m., Wednesday, March 5, 1975
Embassy Room
Statler Hilton Hotel
107 Delaware Avenue
Buffalo, New York 14202

The discussion of the 1974–75 operations relates to the advice the International Niagara Board of Control submits to the Commission as to the timing of the opening of the Boom in the Spring of 1975.

Under the terms of the Commission's Order of Approval of June 9, 1964, as supplemented by Orders of Approval of May 24, 1965, October 3, 1969, and by a minute of the Commission dated July 29, 1970, the authority granted to Ontario Hydro and the Power Authority of the State of New York to operate and maintain the boom expires on May 15, 1975.

The Power Entities have made a written request to the Commission for an indefinite extension for the authority to operate and maintain the ice boom in conformance with the terms and conditions of the present order of approval as supplemented. Therefore following the discussions relating to current conditions, the Commission will receive testimony from those interested on the desirability of approving the Power Entities' request.

At the meeting, submissions may be made orally or in writing and evidence submitted will be taken into account by the Commission when considering the Power Entities' request. Where written statements are provided it would be helpful to have sufficient copies deposited with the Secretaries for the use of the Commission, the news media and others interested. Copies of the Power Entities' request and the Orders of Approval governing the operation of the ice boom are available upon request to the Secretaries.

W. A. BULLARD,
Secretary, United States Section, International Joint Commission.

NATIONAL ENDOWMENT FOR THE HUMANITIES

NATIONAL COUNCIL ON THE HUMANITIES ADVISORY COMMITTEE

Notice of Meeting

FEBRUARY 3, 1975.

Pursuant to the Provisions of the Federal Advisory Committee Act (Pub. L. 92–463) notice is hereby given that a meeting of the National Council on the Humanities will be conducted at Washington, D.C. on February 27 and 28, 1975.

The purpose of the meeting is to advise the Chairman of the National Endowment for the Humanities with respect to policies, programs, and procedures for carrying out his functions, and to review applications for financial support and gifts offered to the Endowment and to make recommendations thereon to the Chairman.

The meeting will be held in the Shoreham Building, 806 15th Street NW, Washington, D.C. The session of the proposed meeting on February 27, 1975 and the afternoon session on February 28, 1975, will consider financial information and personnel and similar files the disclosure of which would constitute a clearly unwarranted invasion of privacy. Pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated August 13, 1973, I have determined that the meeting would fall within exemptions (4) and (6) of 5 U.S.C. 552(b) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with operation of the committee.

The morning session on February 28, 1975 will convene at 9 a.m. and will be open to the public. The agenda for the morning session will be as follows:

I. Minutes of Previous Meeting
II. Reports
  A. Summary of Recent Business.
  B. Application Report.
  C. Gifts and Matching Report.
  D. Chairman's Grants.
  E. Budget for FY 1976.
  F. Report on Science, Technology and Human Values Program.
  G. Analysis of NEH Awards to Institutions of Higher Education in FY 1974.
  H. Analysis of Employment of Humanities Ph D's.
  I. Arrangements for the Jefferson Lecture.
  J. Report on American Issues Forum.

The remainder of the proposed meeting will be closed to the public.

It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. John W. Jordan, 806 15th Street NW, Washington, D.C. 20605, or call area code 202–382–2031.

JOHN W. JORDAN,
Advisory Committee, Management Office.

NATIONAL SCIENCE FOUNDATION

ADVISORY PANEL FOR ANTHROPOLOGY

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92–463), notice is hereby given of a meeting of the Advisory Panel for Anthropology to be held at 9 a.m. on February 27, 28, and March 1, 1975, in room 338, 1800 G Street, NW, Washington, D.C.

The purpose of this Panel is to provide advice and recommendations as part of the review and evaluation process for specific proposals and projects.

This meeting will not be open to the public because the Panel will be reviewing, discussing, and evaluating individual research proposals. Also, these proposals contain information of a proprietary or confidential nature, including technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals. These matters are within the exemptions of 5 U.S.C. 552 (b) (4), (5) and (6). The closing of this meeting is in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of section 10(d) of Pub. L. 92–463.

For further information about this Panel, please contact Dr. Iwao Ishino, Program Director for Anthropology, Rm. 306, National Science Foundation, Washington, D.C. 20550, telephone 202/632–4208.

FRED K. MURAKAMI,
Committee Management Officer.

FEBRUARY 3, 1975.

WORKSHOP ON INSTITUTIONAL PROBLEMS OF ELECTRIC FACILITY SITING

Meeting

The National Science Foundation is convening a Workshop on Institutional Problems of Electric Facility Siting on February 27–28, 1975, in the Main Conference Center, the MITRE Corporation, Westgate Research Park, McLean, Virginia. Sessions on February 27 and 28 will commence at 9 a.m. The meeting will adjourn at 2 p.m. on February 28. The purpose of this Workshop is to provide a forum for discussion of institutional issues associated with the siting of electric facilities.

The agenda for the meeting is as follows:

FEBRUARY 27

Overview Paper on Electric Power Demand Projections
Relationships among Institutions and Groups Involved in Electric Facility Siting Process
Primary Issues and Desired Changes in the Siting-Decision Process
Alternative Regulatory Structures
Development of Detailed Agenda for Working Group Sessions

FEBRUARY 28

Working Group Session
Reports by Working Group Chairmen
Adjournment

The Workshop will be chaired by Mr. Edmond Rovner of the National Governor's Conference. The Workshop will be open to the public as observers only. Individuals who wish to attend should inform Dr. Hans L. Hamester, Energy Policy Analyst, Office of Energy R&D Policy, by phone 202/632–7804 or by mail (Room 537, 1800 G Street, NW., Washington, D.C. 20550) prior to the Workshop. Dr. Hamester should be contacted for further information concerning this Workshop or for a copy of summary proceedings of the Workshop.

PAUL P. CRAIG,
Deputy Director, Office of Energy R&D Policy.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–482A]

KANSAS GAS AND ELECTRIC CO. AND KANSAS CITY POWER AND LIGHT CO.

Memorandum and Order

In the matter of Kansas Gas and Electric Company and Kansas City Power and Light Company (Wolf Creek Generating Station, Unit No. 1).

The Staff has moved, with the consent of the applicants and the petitioners for intervention, for an extension of time until February 14, 1975, within which to respond to the petitions for leave to intervene filed by the Kansas Electric Cooperatives, Inc. and the city of Osawatomie. All parties who wish to respond to the petitions for leave to intervene should be allowed an equal opportunity to do so.

In view of the nature of the issues presented by the petitions, oral argument should be of assistance to the board in ruling upon such petitions. Parties should be prepared to identify and to address themselves to all significant issues of fact and law which are considered to be raised by the two petitions.

It is therefore ordered:

1. The time within which any party may respond to the petitions for leave to intervene filed by the Kansas Electric Cooperatives, Inc. and the City of Osawatomie is extended to and including February 14, 1975;

2. Oral argument will be held on said petitions in the Atomic Safety and Licensing Board Panel's hearing room, 12th floor, Landow Building, 7910 Woodmont Avenue, Bethesda, Maryland, at 9:30 a.m. on Friday, February 28, 1975.

Issued at Bethesda, Maryland, this 3rd day of February, 1975.

ATOMIC SAFETY AND LICENSING BOARD,
MARSHALL E. MILLER,
Chairman.

[Docket No. P–527–A]

LOUISIANA POWER AND LIGHT CO.

Partial Application for Construction Permits and Facility Licenses: Time for Submission of Views on Antitrust Matters

The Louisiana Power and Light Company, pursuant to section 103 of the Atomic Energy Act of 1954, as amended, has filed one part of an application, dated December 20, 1974, in connection with their plans to construct and operate two generating units utilizing two high temperature gas-cooled reactors. Each reactor will be designed for initial operation at approximately 3000 megawatts (thermal), with a net electrical output of approximately 1160 megawatts. The facility, designated as the St. Rosalie Generating Station, Units 1 and 2, will be located on the west bank of the Mississippi River at Alliance in Plaquemines Parish, Louisiana. The portion of the application filed contains the information requested by the Attorney General for the purpose of an antitrust review of the application as set forth in 10 CFR Part 50, Appendix L.

The remaining portion of the application consisting of a Preliminary Safety Analysis Report accompanied by an Environmental Report, pursuant to § 2.101 of Part 2, is expected to be filed in April 1975. Upon receipt of the remaining portions of the application dealing with radiological health and safety and environmental matters, separate notices of receipt will be published by the Commission including an appropriate notice of hearing.

A copy of the partial application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545. Docket No. P–527–A has been assigned to the application and it should be referenced in any correspondence relating to it.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before March 17, 1975.

OMAHA PUBLIC POWER DISTRICT

Partial Application for Construction Permit and Facility License: Time for Submission of Views on Antitrust Matters

Omaha Public Power District (the applicant), pursuant to section 103 of the Atomic Energy Act of 1954, as amended, has filed one part of an application, dated November 15, 1974, in connection with their plans to construct and operate a pressurized water nuclear reactor to be located at a site near Blair, Nebraska, in Washington County. The portion of the application filed contains the information requested by the Attorney General for the purpose of an antitrust review of the application as set forth in 10 CFR Part 50, Appendix L.

The remaining portion of the application consisting of a Preliminary Safety Analysis Report accompanied by an Environmental Report pursuant to § 2.101 of Part 2, is expected to be filed during July 1975. Upon receipt of the remaining portions of the application dealing with radiological health and safety and environmental matters, separate notices of receipt will be published by the Commission including an appropriate notice of hearing.

A copy of the partial application is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545, Docket No. P-556-A has been assigned to the application and it should be referenced in any correspondence relating to it.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing on or before March 17, 1975.

Dated at Bethesda, Maryland, this 9th day of January 1975.

For the Nuclear Regulatory Commission.

WALTER R. BUTLER,
Chief, Light Water Reactors Project Branch 1-2, Directorate of Licensing.

[Docket No. P-537-A]

TENNESSEE VALLEY AUTHORITY

Notice of Receipt of Partial Application for Construction Permits and Facility Licenses: Time for Submission of Views on Antitrust Matters

Tennessee Valley Authority (the applicant), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, has filed one part of an application, dated December 20, 1974, in connection with its plans to construct and operate two nuclear reactors at a site to be selected in the near future. The portion of the application filed contains the information requested by the Attorney General for the purpose of an antitrust review of the application as set forth in 10 CFR Part 50, Appendix L.

The remaining portion of the application consisting of a Preliminary Safety Analysis Report accompanied by an Environmental Report, pursuant to § 2.101 of Part 2, is expected to be filed during October 1975. Upon receipt of the remaining portions of the application dealing with radiological health and safety and environmental matters, separate notices of receipt will be published by the Commission including an appropriate notice of hearing.

A copy of the partial application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545. Docket No. P-537-A has been assigned to the application and it should be referenced in any correspondence relating to it.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before March 24, 1975.

Dated at Bethesda, Maryland, this 13th day of January, 1975.

For the Nuclear Regulatory Commission.

WALTER R. BUTLER,
Chief, Light Water Reactors Branch 1-2, Directorate of Licensing.

SELECTIVE SERVICE SYSTEM

REGISTRANTS PROCESSING MANUAL

The Registrants Processing Manual is an internal manual of the Selective Service System. The following portions of that Manual are considered to be of sufficient interest to warrant publication in the FEDERAL REGISTER:

Section 642.14 (new)
Temporary Instruction No. 632-18
Temporary Instruction No. 643-1
Current Temporary Instruction Check List (Rev. December 31, 1974)
Chapter 641—Duty of Registrants (Rev. February 1, 1975)
Temporary Instruction No. 622-7/680-3

BYRON V. PEPITONE,
Director.

FEBRUARY 3, 1975.

Section 642.14 *Reporting of alien registrants suspected of being illegally within the United States.* 1. Under the Military Selective Service Act, aliens who are illegally within the United States are nevertheless liable for registration and induction.

2. When any alien registrant is suspected of being illegally within the United States, the State Director will be notified by letter (See Attachment 642-7). The State Director will forward the information to the nearest field office of the Immigration and Naturalization Service.

SAMPLE LETTER FOR REPORTING AN ALIEN REGISTRANT SUSPECTED OF BEING ILLEGALLY WITHIN THE UNITED STATES

(See Section 642.14)

(Local Board Stamp)

Date of Mailing: ------

TO: The State Director

(Address)

DEAR SIR:

This registrant is suspected of being an alien illegally within the United States, and he is reported to you as such in accord with RPM Chapter 642.

Name: ------
SSN: ------ RSN: ------
Address: ------
Birthdate: ------
Place of Birth: ------
Present Citizenship: ------
Other Pertinent Information: ------

Sincerely,

Authorized Signature

[Temporary Instruction No. 632-18]

Issued: February 1, 1975.
Subject: Rescission of Temporary Instruction No. 632-17.

Temporary Instruction No. 632-17, Change In AFEES Procedures (Submission Of DD Form 44), is rescinded and should be withdrawn from the Registrants Processing Manual (RPM) and destroyed.

This Temporary Instruction will terminate upon implementation.

BYRON V. PEPITONE.

[Temporary Instruction No. 643-1]

Issued: February 1, 1975.
Subject: Rescission of Chapter 643, RPM.

Chapter 643, *Parole For Selective Service Law Violators*, is rescinded and should be withdrawn from the Registrants Processing Manual (RPM) and destroyed. The divider-label for Chapter 643 will be retained in the manual.

This Temporary Instruction will terminate upon implementation.

BYRON V. PEPITONE.

REGISTRANT PROCESSING MANUAL

CURRENT TEMPORARY INSTRUCTIONS CHECK LIST

1. The following list sets forth all current temporary instructions as of Dec. 31, 1974. Where 2 numbers are shown for a temporary instruction, it is issued in sufficient quantity so that a copy may be filed under each number.

Temporary instruction No.	Date issued or amended	Termination date
Apps. 1 to 7	Oct. 17, 1973	Upon amendment or rescission.
Apps. 1 to 8/608-3.	Dec. 18, 1973	Upon receipt of revised SSS form 725 or upon rescission thereof.
Apps. 1 to 10.	Jan. 21, 1974	Upon amendment or rescission.
Apps. 1 to 12.	Oct. 25, 1974	Do.
613-2	Dec. 19, 1972	Upon publication of revision to RPM changing references from SSS forms 2 and 110 to SSS form 7.
613-6	Apr. 29, 1974	May 31, 1975.
613-7/642-5 (corrected copy).	Sept. 21, 1974	Feb. 1, 1975.
619-3	Mar. 8, 1974	Upon publication of revision of ch. 619, RPM.
621-5/631-14	Mar. 20, 1974	Upon amendment or rescission.
622-4	Oct. 15, 1973	Do.
622-5/680-2	Nov. 30, 1973	Do.
622-6	Apr. 26, 1974	Do.
632-16	June 17, 1974	Upon receipt of revision to sec. 632.9 of the RPM.
632-17	do	If notice is received that inductions are to be resumed.

2. All temporary instructions not appearing in the above list have been terminated or rescinded.

CHAPTER 641 DUTY OF REGISTRANTS

Section 641.1 *Introduction.* Part 1641 of Selective Service Regulations, as amended January 31, 1975, is quoted below for the information and guidance of and compliance by all registrants and personnel of the Selective Service System.

1641.1 *Reporting by registrants of their current status.*

(a) It shall be the duty of every registrant, so long as his file is actively maintained by his local board, to keep his local board currently informed in writing of the address where mail will reach him.

(b) It shall be the duty of every registrant until his liability for training and service [1] has terminated, to inform his local board in writing of his entrance into a professional course of study leading to a professional degree in a medical, dental or allied specialist category, together with his current address, and to inform his local board in writing of the receipt of any such professional degree, together with his current address.

(c) It shall be the duty of every registrant to submit to his local board information concerning his status within ten days after the date on which the local board mails him a request therefor, or within such longer period as may be fixed by the local board.

"1641.3 *Waiver of right or privilege.*

If the registrant fails to claim and exercise any right or privilege within the required time, he shall be deemed to have waived the right or privilege.

1641.4 *Duty to report for and submit to Armed Forces examination.*

(a) When the local board mails to a registrant an Order to Report for Armed Forces Examination (SSS Form 223), it shall be the duty of the registrant to report for such examination at the time and place fixed in such order unless, after the date the Order to Report for Armed Forces Examination (SSS Form 223) is mailed and prior to the time fixed therein for the registrant to report for his Armed Forces examination, the local board cancels such Order to Report for Armed Forces Examination (SSS Form 223) or postpones that time when such registrant shall so report and advises the registrant in writing of such cancellation or postponement.

(b) If the time when the registrant is ordered to report for Armed Forces examination is postponed, it shall be the duty of the registrant to report for Armed Forces examination upon the termination of such postponement and he shall report for Armed Forces examination at such time and place as may be fixed by the local board. Regardless of the time when or the circumstances under which a registrant fails to report for Armed Forces examination when it is his duty to do so, it shall thereafter be his continuing duty from day to day to report for Armed Forces examination to his local board and to each local board whose area he enters or in whose area he remains.

(c) Upon reporting for Armed Forces examination, it shall be the duty of the registrant (1) to follow the instructions of a member, executive secretary, or local board clerk as to the manner in which he will be transported to the location where his Armed Forces examination will take place, (2) to obey the instructions of the leader or assistant leaders appointed for the group being forwarded for Armed Forces examination, (3) to appear at the place where such examination will be accomplished, (4) to obey the orders of the representatives of the Armed Forces while at the place where his examination will be accomplished, (5) to submit to examination, and (6) to follow the instructions of a member, executive secretary, or clerk of the local board as to the manner in which he will be transported on his return trip from the place where his Armed Forces examination takes place.

1641.5 *Duty to report for and submit to Induction.*

(a) When the local board orders the registrant for induction it shall be the duty of the registrant to report for induction at the time and place ordered by the local board. If the time when the registrant is ordered to report for induction is postponed, it shall be the continuing duty of the registrant to report for induction at such time and place as may be ordered by the local board. Regardless of the time when or the circumstances under which a registrant fails to report for induction when it is his duty to do so, it shall thereafter be his continuing duty from day to day to report for induction to his local board.

(b) Upon reporting for induction, it shall be the duty of the registrant (1) to follow the instructions of a member or clerk of the local board as to the manner in which he shall be transported to the location where his induction will be accomplished, (2) to obey the instructions of the leader or assistant leaders appointed for the group being forwarded for induction, (3) to appear at the place where his induction will be accomplished, (4) to obey the orders of the representatives of the Armed Forces while at the place where his induction will be accomplished, (5) to submit to induction, and (6) if he is found not qualified for induction, to follow the instructions of the representatives of the Armed Forces as to the manner in which he will be transported on his return trip to the local board.

1641.6 *Effect of failure to have unaltered documents in personal possession.*

The failure of any person to have his Registration Certificate (SSS Form 2) or Status Card (SSS Form 7) in his personal possession shall be prima facie evidence of his not having registered.

[Temporary Instruction No. 622-7/680-3]

Issued: February 1, 1975.
Subject: Rescission of Temporary Instructions 622-4, 622-5/680-2, and 622-6.

The following Temporary Instructions are rescinded and should be withdrawn from the Registrants Processing Manual and destroyed:

1. 622-4, Registrants Under Confinement or Court Supervision.
2. 622-5/680-2, Classification Of Medical Specialists Into Class 2-AM.
3. 622-6, Classification of Registrants Separated From The Armed Forces.

This Temporary Instruction will terminate upon implementation.

BYRON V. PEPITONE.

DEPARTMENT OF LABOR

Bureau of Labor Statistics

BUSINESS RESEARCH ADVISORY COUNCIL

Meeting

The regular winter meeting of the Business Research Advisory Council will be held on February 26, 1975, at 9:30 a.m. in Conference Room B of the Interdepartmental Auditorium, 14th and Constitution Avenue, NW., Washington, D.C. Agenda for the meeting follows:

1. Chairman's Opening Remarks
2. Commissioner's Remarks
3. Status Report of BLS Task Force on Hours Worked vs. Hours Paid. (Follow up on the earlier BRAC committee for this subject)
4. Committee Reports
   a. Committee on Consumer and Wholesale Prices (Plans for WPI and inquiries on CPI revision)
   b. Committee on Economic Growth (Assumptions underlying recent projection work)
   c. Committee on Manpower and Employment (Real spendable earnings, status of local area estimates)

It is suggested that persons planning to attend this meeting as observers contact Kenneth G. Van Auken, Executive Secretary, Business Research Advisory Council on (Area Code 202) 961-2559.

[1] Liability for training and service is a person's responsibility for service imposed by the Military Selective Service Act. This liability commences when he reaches the age of 18 years and 6 months after having been required to register. It terminates when he reaches the age of 26 unless extended to age 35.

XUM V40-026 FEB 6 75 XUM

Signed at Washington, D.C. this 30th day of January 1975.

JULIUS SHISKIN,
Commissioner of Labor Statistics.

Occupational Safety and Health Administration

NATIONAL ADVISORY COMMITTEE ON OCCUPATIONAL SAFETY AND HEALTH

Notice of Meeting

Notice is hereby given of a meeting of the National Advisory Committee on Occupational Safety and Health, established under section 7(b) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 656).

The meeting which was previously scheduled for January 24 and 25, 1975, will be held February 20 and 21, 1975, in Room 102 ABCD, Main Labor Building, 14th and Constitution Avenue, NW, Washington, D.C. The meeting will begin at 9 a.m. and will be open to the public.

The agenda will include presentations and discussions on the role of the states in the standards development process, a review of the activities of both the Occupational Safety and Health Administration and the National Institute for Occupational Safety and Health, a discussion of voluntary compliance programs, a presentation on statistics, and a report by NIOSH on its recently completed summary of training facilities.

Any written data or views concerning the subject to be considered which are received by the Committee's Executive Secretary by February 15, 1975, together with 20 duplicate copies, will be presented to the Committee and included in the official record of the meeting. Those persons desiring to make presentations at the meeting must also notify the Executive Secretary by February 15, 1975, of their desire to appear, stating the amount of time requested and the capacity in which they will appear as well as a brief outline of the content of their presentation. Oral presentations will be scheduled at the discretion of the Committee Chairman depending on the extent to which time permits.

Communications to the Executive Secretary should be addressed as follows:

Ms. J. Goodell, Executive Secretary,
National Advisory Committee on Occupational Safety and Health,
U.S. Department of Labor,
1726 M Street NW., Room 200,
Washington, D.C. 20210,
Phone: 202/961-2248, 2487

Signed at Washington, D.C. this 31st day of January, 1975.

J. GOODELL,
Executive Secretary.

[FR Doc.75-3404 Filed 2-5-75;8:45 am]

Office of the Secretary

LABOR RESEARCH ADVISORY COMMITTEE

Establishment

A. *Establishment.* The Secretary of Labor, having determined after consultation with the Director, Office of Management and Budget, that the establishment of a committee to deal with matters related to the Department of Labor research program is in the public interest, hereby establishes the Department of Labor Research Advisory Committee pursuant to the Federal Advisory Committee Act (Pub. L. 92-463).

B. *Duties, functions, and administrative provisions*—1. *Objectives and scope.* The Committee's objective will be to help improve the quality of the research program of the Department. It will deal with both the general direction of the Departmental research effort and the specific programs of each agency within the Department. 2. *Committee tenure.* The Committee will operate on a continuing basis.

3. *Official to whom committee reports.* The Committee will report to the Assistant Secretary for Policy, Evaluation and Research.

4. *Support services.* The Assistant Secretary for Policy, Evaluation and Research, and the Manpower Administration will provide the necessary support for the Committee.

5. *Committee duties.* The Committee will evaluate Departmental research on a continuing basis and will meet with the Department's Research Policy Committee to discuss current and planned areas of research. In addition, the Committee will serve as source of expertise for each agency-evaluating the problems in the research program that are specific to each agency.

6. *Estimated annual cost.* The estimated annual operating costs for the Committee are $6,000 and involve approximately one-fourth man years of staff support.

7. *Meetings.* The Committee will meet twice a year.

8. *Termination date.* Two years—renewable.

Signed at Washington, D.C. this 23rd day of January 1975.

PETER J. BRENNAN,
Secretary of Labor.

[Notice No. 10]

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

JANUARY 31, 1975.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. *Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the* FEDERAL REGISTER *of a notice that the proceeding has been assigned for oral hearing.*

No. MC 1103 (Sub-No. 16), filed December 12, 1974. Applicant: MAX H. KOFMAN, FREDA KOFMAN GAINES, BENJAMIN KOFMAN AND JOSEPH KOFMAN, doing business as KOFMAN'S, 130 Dunlop Street, Bellefonte, Pa. 16823. Applicant's representative: John W. Frame, Box 626, 2207 Old Gettysburg Road, Camp Hill, Pa. 17011. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Brass products, brass bars and brass rods, and unfinished shapes*, from points in Illinois, to points in Indiana, Michigan, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, and Ohio; (2) *copper, brass, and bronze bars and rods, and unfinished shapes* from points in Illinois, to Pittsburgh, Pa.; (3) *brass scrap and rejected or refused brass products*, from New Britain and Hartford, Conn.; Wilmington, Del.; Perth Amboy, Picatinny Arsenal, Newark, Trenton, Rahway, Waverly, Jersey City, and Camden, N.J.; Rochester, Buffalo, Brooklyn, Staten Island, Lockport, North River, Hoosick Falls, Tottenville, Auburn, Binghamton, Syracuse, and New York, N.Y.; Cleveland, and Maple Heights, Elyria, and Springfield, Ohio; Baltimore, Md.; Boston and Ashland, Mass.; Newport and Providence, R.I.; and the District of Columbia, to points in Illinois; (4) *loose brass, brass products, copper, copper products, and brass and copper scrap*, from Reedsville and Morgantown, W. Va. to points in Illinois;

(5) *brass rods and brass shapes*, from points in Illinois to Reedsville and Morgantown, W. Va.; (6) *aluminum bars, blanks, stampings, unfinished shapes, extensions, castings, forgings, molding, rods, scrap, twinings, borings, burnings, aluminum and aluminum products, zinc, lead, empty containers, and empty pallets*, from Reedsville and Morgantown, W. Va. to Baltimore, Md., Wilmington, Del., and points in Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Ohio, Indiana Michigan; (7) *aluminum billets, blooms, ingots, pigs, slabs borings, scrap, and twinings*, from Baltimore, Md., Wilmington, Del., and points in Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Ohio, Indiana, and Michigan, to points in Illinois; and (8) *aluminum bars, blanks, stampings, unfinished shapes, extensions, castings, forgings, moldings, rods, scrap, twinings, borings, turnings, aluminum and aluminum products, zinc, lead, empty containers and empty pallets*, from points in Illinois, to Baltimore, Md., Wilmington, Del., and points in Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Ohio, Indiana, and Michigan.

NOTE.—Applicant states it already holds the above authority via a gateway at Bellefonte, Penna. The purpose of this application is to eliminate the gateway of Bellefonte, Penna. If a hearing is deemed necessary, applicant requests it be held at Harrisburg, Pa.

No. MC 4963 (Sub-No. 47), filed January 14, 1975. Applicant: ALLEGHANY CORPORATION, doing business as, JONES MOTOR, Bridge Street and Schuylkill Road, Spring City, Pa. 19475. Applicant's representative: Roland Rice, Suite 618 Perpetual Building, 1111 E Street NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the site of Western Electric Company, Incorporated at the junction of New York State Highway 422 and Maple Street in Elma Township (Erie County), N.Y., as an off-route point in connection with applicant's authorized regular route operations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Buffalo, N.Y. or Washington, D.C.

No. MC 9692 (Sub-No. 4), filed January 10, 1975. Applicant: ROBERT D. ECKERT, 219 North President Avenue, Lancaster, Pa. 17603. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, Pa. 17101. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities, as are generally made by a manufacturer of rugs and linoleum, and equipment, materials and supplies incidental thereto* (except in bulk), *and rugs and carpets*, (1) from Lancaster, Pa., to Landover, Md., restricted to transportation to be performed under a continuing contract or contracts with the Jos. M. Zamoiski Co.; and (2) from Lancaster and Marietta, Pa., to points in Harford and Baltimore Counties, Md., restricted to transportation to be performed under a continuing contract or contracts with J. J. Haines & Company, Inc., at Baltimore, Md.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 13123 (Sub-No. 79), filed January 8, 1975. Applicant: WILSON FREIGHT COMPANY, a corporation, 3636 Follett Avenue, Cincinnati, Ohio 45223. Applicant's representative: Milton H. Bortz (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, com-

modities in bulk, and those requiring special equipment), serving the plantsite of General Cable Corporation at or near Lawrenceburg, Ky.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C., or Lexington, Ky.

No. MC 13845 (Sub-No. 4), filed January 3, 1975. Applicant: DONALD RUSSELL, doing business as FRANK RUSSELL & SON, 401 South Ida Street, West Frankfort, Ill. 62896. Applicant's representative: Donald Russell (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wood chips*, in bulk, from West Frankfort, Ill., to the plantsite of West Virginia Pulp and Paper Company at or near Wickliffe, Ky.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either St. Louis, Mo. or Springfield, Ill.

No. MC 27817 (Sub-No. 113), filed January 7, 1975. Applicant: H. C. GABLER, INC., Rural Delivery No. 3, Chambersburg, Pa. 17201. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, Pa. 17101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except frozen foods and commodities in bulk), from the facilities of Heinz U.S.A. Division, H. J. Heinz Co. located at Bowling Green, Fremont, and Toledo, Ohio, to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, North Carolina, Rhode Island, Vermont, and Virginia, points in New York on and east of a line beginning at Lake Ontario, thence along State Highway 57 to its junction with U.S. Highway 11 at Syracuse, thence along U.S. Highway 11 to the Pennsylvania State line, and points in Pennsylvania on and east of U.S. Highway 220.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Harrisburg, Pa. or Washington, D.C.

No. MC 27817 (Sub-No. 114), filed January 6, 1975. Applicant: H. C. GABLER, INC., Rural Delivery No. 3, Chambersburg, Pa. 17201. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, Pa. 17101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by retail, wholesale and chain grocery food business houses (except commodities in bulk and frozen foods), from points in Delaware, Maryland, New Jersey, New York, Ohio, Pennsylvania, Virginia, West Virginia and the District of Columbia, to points in Cumberland County, Pa. on and east of Pennsylvania Highway 34.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Harrisburg, Pa. or Washington, D.C.

No. MC 30237 (Sub-No. 29), filed January 10, 1975. Applicant: YEATTS TRANSFER COMPANY, a corporation, Box 66, Altavista, Va. 24517. Applicant's representative: Nancy Pyeatt, 1750 New York Avenue NW., Suite 210, Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *New furniture*, from the facilities of Keller Manufacturing Company, Inc., at or near Corydon and New Salisbury, Ind.; Tell City Chair Company, at Tell City, Ind.; Jackson of Danville, Inc., at or near Danville, Ky.; and Cresent Manufacturing Company, at Gallatin, Tenn.; to points in Delaware, Maryland, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, Virginia, West Virginia, and the District of Columbia; and (2) *damaged, rejected, and refused shipments of new furniture*, from points in Delaware, Maryland, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, Virginia, West Virginia, and the District of Columbia, to the facilities of Cresent Manufacturing Company, at Gallatin, Tenn.; Jackson of Danville, Inc., at or near Danville, Ky.; Tell City Chair Company, at Tell City, Ind.; and Keller Manufacturing Company, Inc., at or near Corydon and New Salisbury, Ind.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 30844 (Sub-No. 525), filed January 13, 1975. Applicant: KROBLIN REFRIGERATED XPRESS, INC., 2125 Commercial Street, Waterloo, Iowa 50702. Applicant's representative: Larry Strickler (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials, equipment, and supplies* (except commodities in bulk and those requiring special equipment) used in the manufacture and distribution of road building machinery, contractor's equipment and supplies, self-propelled vehicles (except passenger vehicles or truck tractors), and *attachments and parts therefor*, between the facilities of Schield Bantam, Division Koehring, at or near Waverly, Iowa, and Parsons, Division Koehring, at or near Newton, Iowa, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Minneapolis, Minn., or Washington, D.C.

No. MC 35320 (Sub-No. 145), filed January 2, 1975. Applicant: T.I.M.E.-DC, INC., P.O. Box 2550, Lubbock, Tex. 79408. Applicant's representative: Kenneth G. Thomas (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment), serving the plant site of General Cable Corporation on U.S. Highway 127 Bypass, in Anderson County, approximately 3 miles north of Lawrenceburg, Ky., as an off-route point in connection with applicant's regular route authority to serve Louisville, Ky.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 35334 (Sub-No. 77), filed January 8, 1975. Applicant: COOPER-JARRETT, INC., 23 South Essex Ave., Orange, N.J. 07051. Applicant's representative: Irving Klein, 280 Broadway, New York, N.Y. 10007. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those injurious or contaminating to other lading): Serving Clarksville, Ind., an off-route point in connection with applicant's regular route operating authority, to and from Cincinnati, Ohio.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 35807 (Sub-No. 54), filed November 22, 1974. Applicant: WELLS FARGO ARMORED SERVICE CORPORATION, P.O. Box 4313, Atlanta, Ga. 30302. Applicant's representative: Melvin E. Bailet (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Special nuclear materials*, (1) between points in Pike County, Ohio, on the one hand, and, on the other, points in Cleveland, Ohio, Commercial Zone, the Detroit, Mich., Commercial Zone, Montgomery County, Ohio, the New York, N.Y., Commercial Zone, and the Chicago, Ill., Commercial Zone, restricted to traffic having prior and subsequent movement by air; (2) between points in Pike County, Ohio, on the one hand, and, on the other, Baltimore, Md., Elizabeth, N.J., Norfolk, Va., and Portsmouth, Va., restricted to traffic having a prior or subsequent movement by water; (3) between points in Pike County, Ohio, on the one hand, and, on the other, points in Armstrong County, Pa., Allegheny County, Pa., Washington County, R.I., Campbell County, Va., Unicoi County, Tenn., Oak Ridge, Tenn., and Cattaraugus County, N.Y.; (4) between points in Washington County, R.I., on the one hand, and, on the other, points in the Boston, Mass., Commercial Zone, restricted to traffic having a prior or subsequent movement by air; (5) between Oak Ridge, Tenn., on the one hand, and, on the other, points in Pike County, Ohio, Washington County, R.I., Campbell County, Va., and Cattaraugus County, N.Y.; (6) between Oak Ridge, Tenn., on the one hand, and, on the other, points in Blount County, Tenn., and the Atlanta, Ga., Commercial Zone, restricted to traffic having a prior or subsequent movement by air; (7) between Oak Ridge, Tenn., on the one hand, and, on

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 106497 (Sub-No. 106), filed January 10, 1975. Applicant: PARKHILL TRUCK COMPANY, a corporation, P.O. Box 912, Joplin, Mo. 64801. Applicant's representative: A. N. Jacobs, P.O. Box 113, Joplin, Mo. 64801. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from Hope, Ark., to points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Nashville, Tenn.

No. MC 106497 (Sub-No. 109), filed January 13, 1975. Applicant: PARKHILL TRUCK COMPANY, a corporation, P.O. Box 912 (Bus. Rte 1–44 east), Joplin, Mo. 64801. Applicant's representative: A. N. Jacobs, P.O. Box 113, Joplin, Mo. 64801. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Conveyor systems, and conveyor system parts;* (2) *heating equipment and parts*, from points in Campbell County, Tenn., to points in the United States (except Alaska and Hawaii); and (3) *parts, equipment, machinery, materials and supplies*, used in the manufacturing, processing and fabrication of heating equipment and conveyor systems, from points in the United States (except Alaska and Hawaii), to points in Campbell County, Tenn.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn., or Washington, D.C.

No. MC 106644 (Sub-No. 200), filed January 6, 1975. Applicant: SUPERIOR TRUCKING COMPANY, INC., 2770 Peyton Road NW., P.O. Box 916, Atlanta, Ga. 30301. Applicant's representative: W. Randall Tye, 1500 Candler Building, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Tractors*, with or without attachments (except tractors used for pulling highways trailers), *lift trucks, excavators, motor graders, scrapers, engines, generators, generators and engines combined, road rollers, pipe layers, dump trucks* designed for off-highway use; and (2) *parts, attachments and accessories* for the commodities described in (1) above, (A) from ports of entry in Maine, Massachusetts, New York, New Jersey, Delaware, Maryland, and Virginia, to points in Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia; and (B) from ports of entry in Alabama, Mississippi, Louisiana, and Texas, to points in Alabama, Florida, Georgia, Iowa, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, and Virginia; and (C) from ports of entry in North Carolina, South Carolina, Georgia, and Florida, to points in Alabama, Arkansas, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia, restricted in (1) and (2) above to traffic moving in foreign commerce, having a prior movement by water and originating at facilities of Caterpillar Tractor Co. and its subsidiaries.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Atlanta, Ga., or Washington, D.C.

No. MC 107162 (Sub-No. 37), filed January 13, 1975. Applicant: NOBLE GRAHAM TRANSPORT, INC., Route #1, Brimley, Mich. 49715. Applicant's representative: John Duncan Varda, 121 South Pinckney Street, Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt, and salt products* with or without mineral additives, in bags, and in block form, from Manistee, Mich., to the ports of entry on the International Boundary line between the United States and Canada located in Minnesota and Michigan, having a subsequent movement to points in Ontario, Canada.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Green Bay, Wis.; Milwaukee, Wis. or Chicago, Ill.

No. MC 107403 (Sub-No. 927) (Correction), filed December 13, 1974, published in the FEDERAL REGISTER issue of January 16, 1975, and republished as corrected, this issue. Applicant: MATLACK, INC., Ten West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: Harry C. Ames, Jr., 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Liquid pitch*, in bulk, in tank vehicles, from Lima, Ohio, to West Bend, Wis.; (2) *methyl chloride*, in bulk, in tank vehicles, from Institute, W. Va., to Chattanooga, Tenn., and Beaumont, Tex.; (3) *Lead oxides*, in bulk, in tank vehicles, from Hammond Lead Products, Inc. (West Pottsgrove Township, Montgomery County), Stowe, Pa., to Huguenot, N.Y.; Trenton, N.J.; Beltsville, Md.; Secaucus, N.J.; Sumter, S.C., Bennington, Vt.; Middletown, Del.; Port Jervis, N.Y., and Lynchburg, Va.; and (4) *dry adipic acid*, in bulk, in tank vehicles, from Hopewell, Va., to Chestertown, Md.

NOTE.—The purpose of this correction is to indicate the correct commodity description in part (4) above, as dry *adipic* acid, in lieu of dry *adinic* acid. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 108185 (Sub-No. 50), filed January 10, 1975. Applicant: JACK COLE-DIXIE HIGHWAY COMPANY, a corporation, 2625 Territorial Road, St. Paul, Minn. 55114. Applicant's representative: Cecil L. Goettsch, 1100 Des Moines Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* (except truck tractors), from the plantsite of the Ford Motor Company, at Romeo, Mich., to points in Alabama, Florida, Georgia, Louisiana, and Mississippi, restricted to the transportation of traffic originating at the origin point and destined to the named destination states.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich.; Chicago, Ill.; or Washington, D.C.

No. MC 108676 (Sub-No. 75) (Correction), filed December 12, 1974, published in the FEDERAL REGISTER issue, January 9, 1975 and republished as corrected, this issue. Applicant: A. J. METLER HAULING & RIGGING, INC., 117 Chicamauga Avenue, N.E., Knoxville, Tenn. 37917. Applicant's representative: William T. McManus (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Cast iron pipe and valves, cast iron pressure pipe fittings, fire hydrants and fire hydrant sections*, and (2) *components, parts, attachments, accessories and supplies* used in connection with commodities described in (1) above, (a) from the plantsite and storage facilities of Mueller Co., located at or near Albertsville, Ala., to points in the United States (except Alaska and Hawaii) and (b) from the plantsite and storage facilities of Mueller Co., located at Chattanooga, Tenn., to points in the United States located east of New Mexico, Colorado, Wyoming, and Montana.

NOTE.—The purpose of this republication is to state the correct territorial description. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C. or Atlanta, Ga.

No. MC 110325 (Sub-No. 62), filed January 8, 1975. Applicant: TRANSCON LINES, 101 Continental Boulevard, El Segundo, Calif. 90245. Applicant's representative: Jerome Biniasz, P.O. Box 92220, Los Angeles, Calif. 90009. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those injurious or contaminating to other lading), Between Albany, N.Y., and Springfield, Mass., in connection with carrier's authorized regular-route operations, serving no intermediate points, but serving Albany, N.Y. and Springfield, Mass., for purposes of joinder: From Albany, N.Y., over Interstate Highway 87, to junction Interstate Highway 90, thence over Interstate Highway 90 to junction U.S. Highway 5, thence over U.S. Highway 5, to Springfield, Mass., and return over the same route, restricted to be used only as an alternate route for operating convenience, for movement of traffic to or from points west of the States of New York and Pennsylvania.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Buffalo, N.Y., or Washington, D.C.

No. MC 110325 (Sub-No. 63), filed January 8, 1975. Applicant: TRANSCON LINES, a corporation, P.O. Box 92220, Los Angeles, Calif. 90009. Applicant's representative: Jerome Biniasz (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), Between Memphis, Tenn. and Denver, Colo.: From Memphis, Tenn. over Interstate Highway 55 to junction U.S. Highway 63, thence over U.S. Highway 63 to junction U.S. Highway 60, thence over U.S. Highway 60 to junction Missouri Highway 13, at or near Springfield, Mo., thence over Missouri Highway 13 to junction Missouri Highway 7, thence over Missouri Highway 7 to junction U.S. Highway 71, thence over U.S. Highway 71 to junction Interstate Highway 70, thence over Interstate Highway 70 to Denver, Colo., and return over the same route, serving no intermediate points, but serving Memphis, Tenn. and Denver, Colo. for joinder purposes only, as an alternate route for operating convenience only.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla. or Washington, D.C.

No. MC 110325 (Sub-No. 64), filed January 9, 1975. Applicant: TRANSCON LINES, 101 Continental Boulevard, El Segundo, Calif. 90245. Applicant's representative: Jerome Biniasz, P.O. Box 92220, Los Angeles, Calif. 90009. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, livestock, Classes A and B explosives, household goods, as defined by the Commission, commodities in bulk, and commodities requiring special equipment): Serving the Turner Industrial Park, near Tupelo, Miss., as an off-route point in connection with carrier's authorized regular-route operations, between Memphis, Tenn., and Tupelo, Miss.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Memphis, Tenn., or Washington, D.C.

No. MC 111320 (Sub-No. 63), filed January 6, 1975. Applicant: KEEN TRANSPORT, INC., 2001 Barlow Road, P.O. Box 668, Hudson, Ohio 44236. Applicant's representative: James E. Wilson, Suite 1032 Pennsylvania Building, Pennsylvania Ave. & 13th St., NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Tractors*, with or without attachments (except tractors used for pulling highway trailers), *lift trucks, excavators, motor graders, scrapers, engines, generators, generators and engines combined, road rollers, pipe layers, dump trucks* designed for off-highway use; and (2) *parts, attachments and accessories* for the commodities described in (1) above, (A) from ports of entry in Maine, Massachusetts, New York, New Jersey, Delaware, Maryland, and Virginia, to points in Connecticut, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Ohio, Pennsylvania, Rhode Island, South Dakota, Vermont, and Wisconsin; and (B) from ports of entry in Wisconsin, Illinois, Michigan, and Ohio, to points in the United States (except Alaska and Hawaii), restricted to traffic moving in foreign commerce, having a prior movement by water and originating at facilities of Caterpillar Tractor Co. and its subsidiaries.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at the same time and place as similar applications filed simultaneously herewith on behalf of C & H Transportation Co., Inc.

No. MC 111729 (Sub-No. 496), filed January 7, 1975. Applicant: PUROLATOR COURIER CORP., 2 Nevada Drive, Lake Success, N.Y. 11040. Applicant's representative: John M. Delany (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cut flowers and decorative greens*, when moving at the same time and in the same vehicle with commodities the transportation of which is subject to economic regulation, (a) between Emerson, N.J., on the one hand, and, on the other, points in New Jersey and New York, on traffic having an immediately prior or subsequent movement by air or motor vehicle, (b) between Emerson, N.J., and Newark, N.J., on traffic having an immediately prior or subsequent movement by air.

NOTE.—Applicant holds contract carrier authority in MC 112750 and other subs, therefore dual operations may be involved. Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at New York, N.Y.

No. MC 111729 (Sub-No. 501), filed January 10, 1975. Applicant: PUROLATOR COURIER CORP., 2 Nevada Drive, Lake Success, N.Y. 11040. Applicant's representative: Peter A. Greene, 1625 K St. NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Business papers, records, audit and accounting media of all kinds*, from Dothan and Ozark, Ala.; Dalton, Dawson, Fitzgerald, Manchester, Milledgeville, Moultrie, Toccoa, and Winder, Ga.; Myrtle Beach, S.C.; Cookeville, Tenn.; and Bluefield, W. Va., to Durham, N.C.; and (2) *radiopharmaceuticals, radioactive drugs, and medical isotopes, and related supplies and accessories*, (a) between Arlington Heights, Ill., on the one hand, and, on the other, points in Georgia, and Tennessee; and (b) between Arlington Heights, Ill., on the one hand, and, on the other, points in Alabama, Florida, North Carolina, and South Carolina.

NOTE.—Applicant holds contract carrier authority in MC 112750 and Subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 112750 (Sub-No. 317), filed January 7, 1975. Applicant: PUROLATOR COURIER CORP., 2 Nevada Drive, Lake Success, N.Y. 11040. Applicant's representative: Russell S. Bernhard, 1625 K Street, NW., Washington, D.C. 20006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Commercial papers, documents and written instruments* (except currency and negotiable securities), between Atlanta, Augusta and Savannah, Ga., on the one hand, and, on the other, points in South Carolina.

NOTE.—Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 112822 (Sub-No. 361), filed January 13, 1975. Applicant: BRAY LINES INCORPORATED, 1401 N. Little Street, P.O. Box 1191, Cushing, Okla. 74023. Applicant's representative: Charles D. Midkiff (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sugar*, liquid, in tank vehicles, from Lenexa, Kans., to Tulsa, Okla.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Kansas City, or St. Louis, Mo.

No. MC 113024 (Sub-No. 135), filed December 20, 1974. Applicant: ARLINGTON J. WILLIAMS, INC., Rural Delivery No. 2, South DuPont Highway, Smyrna, Del. 19977. Applicant's representative: Samuel W. Earnshaw, 833 Washington Building, Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Ground oyster shells*, in bags, from Berwick, La., to McCook, Nebr., and Wilmington, Del., under contract with Electric Hose & Rubber Company, at Wilmington, Del.

NOTE.—Applicant holds common carrier authority in MC 135046 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 113678 (Sub-No. 574) (Correction), filed December 6, 1974 published in the FEDERAL REGISTER issue of January 9, 1975, and republished, as corrected, this issue. Applicant: CURTIS, INC., 4810 Pontiac Street, Commerce City (Denver), Colo. 80022. Applicant's representative: Richard A. Peterson, P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned and preserved foodstuffs* (except in bulk), from the plantsite and storage facilities of Paramount Foods, Inc., at Louisville, Ky., to points in Arkansas, Kansas, Louisiana, Maryland, Missouri, New Jersey, New York, Oklahoma, Pennsylvania, Texas, and West Virginia, restricted to traffic originating at the above named origin, and destined to the above named points.

Applicant's representative: Herbert Alan Dubin, 1819 H St. NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Candy and confectionary products*, from the plantsites and storage facilities of Luden's, Inc., located at or near Reading, Pa., to points in California, Colorado, Illinois, Iowa, Kansas, Louisiana, Minnesota, Ohio, Tennessee, Texas, Utah, and Washington.

NOTE.—Applicant holds contract carrier authority in MC 133106 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 139495 (Sub-No. 28), filed December 31, 1974. Applicant: NATIONAL CARRIERS, INC., 1501 East 8th Street, P.O. Box 1358, Liberal, Kans. 67901. Applicant's representative: Herbert Alan Dubin 1819 H Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Office supplies*, from the plantsite and storage facilities of National Blank Book Company, Inc. located at or near Holyoke and Springfield, Mass., to points in Illinois, Missouri, Nebraska, Kansas, Oklahoma, Arkansas, Texas, and California.

NOTE.—Applicant holds contract carrier authority in MC 133106 and other subs, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 139781 (Sub-No. 1), filed December 19, 1974. Applicant: LOCH RAVEN ENTERPRISES, INC., doing business as LOCH RAVEN TOWING, Joppa and Satyr Hill Roads, Baltimore County, Md. 21234. Applicant's representative: Joel H. Pachino, 210 Dunkirk Building, Dundalk, Md. 21222. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Wrecked, disabled, inoperative and abandoned motor vehicles and trailers and replacement motor vehicles and trailers; and* (B) *trailers*, (except mobile homes), between points in Virginia, West Virginia, New Jersey, Pennsylvania, Delaware, New York, and Maryland, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Baltimore, Md., or Washington, D.C.

No. MC 139810 (Sub-No. 1), filed January 7, 1975. Applicant: TRI-STATE CONTRACT CARRIER CORPORATION, a Corporation, P.O. Box 153, Bethel Springs, Tenn. 38315. Applicant's representative: R. Connor Wiggins, Jr., 909-100 North Main Building, Memphis, Tenn. 38103. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Vinyl plastic*, from Corinth, Miss., to points in the United States (except Alaska and Hawaii); and (2) *materials and supplies* (except commodities in bulk) used in the manufacture of vinyl plastic and returned shipments of *vinyl plastic* from points in the United States (except Alaska and Hawaii), to Corinth, Miss., under a continuing contract or contracts with Southbridge Plastics Division of W. R. Grace & Co.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Nashville or Memphis, Tenn.

No. MC 140162 (Sub-No. 1), filed January 9, 1975. Applicant: SCHNEIDER MOTORWAYS, INC., Rural Route #1, Postville, Iowa 52162. Applicant's representative: William J. Boyd, 29 South La Salle Street, Suite 330, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Canned goods*, from Knowlton, Waupun, Pardeeville, Reeseville, and Friesland, Wis., to points in Michigan, Indiana, Illinois, Missouri, Iowa, and Minnesota; and (a) *canned goods*, from Elgin, Iowa, to points in Michigan, Indiana, Illinois, Missouri, Minnesota, and Wisconsin.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Milwaukee, Wis.

No. MC 140388, filed October 31, 1974. Applicant: EVELYN DETERT, doing business as ROCKET TRANSFER COMPANY, 3350 Cambridge Street, St. Louis County, Mo. 63143. Applicant's representative: John J. Riley, 7777 Bonhomme Avenue, Suite 2300, Clayton, Mo. 63105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk, in tank vehicles or uncrated furniture and household goods as defined by the Commission), between points in the St. Louis, Mo.-East St. Louis, Ill., Commercial Zone as defined by the Commission, Alton, Ill., and its commercial zone, and Valley Park, Mo., and its commercial zone.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at St. Louis, Mo.

No. MC 140511, filed December 20, 1974. Applicant: AUTOLOG CORPORATION, a Corporation, 319 West 101st Street, New York, N.Y. 10025. Applicant's representative: Myron Levine (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Shipper owned or operated *used automobiles with accompanying baggage, contents thereof and/or other effects* transported for shipper's use and not for resale, all to be transported on a trailer capable of carrying approximately six to eight automobiles, between points in Massachusetts, Connecticut, New Jersey, and Florida and those points in New York east of Interstate Highway 81, restricted against (1) passengers; (2) commodities other than used automobiles with accompanying baggage, contents and/or other effects; (3) new automobiles; (4) automobiles from or to a shipper acting as a dealer in automobiles; (5) automobiles to be carried to their ultimate destination by means other than by conveyance on a trailer; (6) automobiles to be shipped distances of less than seven hundred miles; and (7) automobiles having an immediate prior or subsequent movement by rail.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at New York, N.Y.

No. MC 140545, filed January 6, 1975. Applicant: MIDWEST VAN & STORAGE, INC., 6400 Central Ave., N.E., Fridley, Minn. 55432. Applicant's representative: Will Harris (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, as defined by the Commission, between points in Anoka, Carver, Chisago, Dakota, Hennepin, Ramsey, Scott and Washington Counties, Minn., and Eau Claire, Dunn, Pierce and St. Croix Counties, Wis., restricted to the transportation of traffic having a prior or subsequent movement beyond said points in containers, and further restricted to the performance of pickup crating, and containerization or unpacking and decontainerization of such traffic.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Minneapolis, or St. Paul, Minn.

No. MC 140546, filed December 31, 1974. Applicant: ROADHOUND TRUCK COMPANY, a corporation, 811 W. Hale Street, Osceola, Ark. 72370. Applicant's representative: Gerald K. Gimmel, 303 N. Federick Avenue, Gaithersburg, Md. 20760. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel and iron and steel products and copper and copper products*, between Osceola, Ark., on the one hand, and, on the other, points in Arkansas, Kentucky, Tennessee, Missouri, and Illinois.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Osceola, Ark., Memphis, Tenn., or Little Rock, Ark.

APPLICATIONS OF PASSENGER(S)

No. MC 228 (Sub-No. 75), filed January 7, 1975. Applicant: HUDSON TRANSIT LINES, INC., 17 Franklin Turnpike, Mahwah, N.J. 07340. Applicant's representative: Samuel B. Zinder, 98 Cutter Mill Road, Great Neck, N.Y. 11021. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage* in charter operations, from Dutchess County, N.Y., to points in the United States including Alaska and Hawaii.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either New York City, N.Y. or Poughkeepsie, N.Y.

No. MC 140554, filed January 13, 1975. Applicant: HEY INC., Box 366, Jasper, Minn. 56144. Applicant's representative: Val M. Higgins, 1000 First National Bank Bldg., Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage, in the same vehicle with passengers, and baggage of passengers in a separate vehicle*, in charter operations, and in round-trip sightseeing and pleasure tours, beginning and ending at points in Chippewa, Lac Qui Parle, Renville, Yellow Medicine, Lyon, and Redwood Counties, Minn., and points in Lincoln County, Minn. (except Lake Benton and Tyler), and extending to points in the United States (including Alaska, but excluding Hawaii).

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

BROKER APPLICATION(S)

No. MC 21763 (Sub-No. 2), filed December 16, 1974. Applicant: ALLIED BUS CORP., a corporation, 165 West 46th Street, New York, N.Y. 10036. Applicant's representative: Sidney J. Leshin, 575 Madison Avenue, New York, N.Y. 10022. Authority sought to engage in operation, in interstate or foreign commerce, as a *broker* at New York, N.Y. and Los Angeles, Calif., to sell or offer to sell the transportation of *passengers* as individuals and in groups, *and their baggage*, in the same vehicle with passengers, by motor common carrier, in all expense tours in special and charter operations, between points in the United States, including Alaska and Hawaii, restricted to passengers having an immediately prior or immediately subsequent movement by air to or from a foreign country.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 130285, filed December 13, 1974. Applicant: SPECIAL FREIGHT SYSTEMS, INC., 7703 Main Street, N.E., Fridley, Minn. 55432. Applicant's representative: Samuel Rubenstein, 301 North Fifth Street, Minneapolis, Minn. 55403. Authority sought to engage in operation, in interstate or foreign commerce, as a *broker* at Fridley, Minn., to sell or offer to sell the transportation by motor vehicle, of *General Commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, and bulk commodities in tank vehicles), between points in Minnesota and Wisconsin, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Minneapolis or St. Paul, Minn.

No. MC 130289, filed December 26, 1974. Applicant: R A TRANSPORTATION, INC., 115 Jacobus Avenue, S. Kearny, N.J. 07032. Applicant's representative: S. Michael Richards, 44 North Avenue, Webster, N.Y. 14580. Authority sought to engage in operation, in interstate or foreign commerce, as a *broker* at S. Kearny, N.J., to sell or offer to sell by motor, rail and water carriers, the transportation of *General commodities* (except commodities in bulk), from New York, N.Y., points in Nassau and Suffolk Counties and points in New Jersey, to points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

WATER CARRIER APPLICATION(S)

No. W-536 (Sub-No. 15), filed December 27, 1974. Applicant: HENNEPIN TOWING COMPANY, a corporation, 7703 Normandale Road, Minneapolis, Minn. 55435. Applicant's representative: William F. King, Suite 400 Overlook Building, 6121 Lincolnia Road, Alexandria, Va. 32312. Authority sought to engage in operation, in interstate or foreign commerce as a *common carrier by water* in the transportation of *General Commodities*, by non-self-propelled vessels with the use of separate towing vessels and by towing vessels in the performance of general towage (1) between ports and points along the Gulf Intracoastal Waterway between Brownsville, Tex. and Carrabelle, Fla., including the Atchafalaya River and the Port Allen Section of the Waterway, the Pearl and West Pearl Rivers below and including Bogalusa, La., the Victoria Channel to and including Victoria, Tex., the Arroyo Colorado to and including Harlingen, Tex., the Mississippi River-Gulf Outlet Channel, the Mobile River, the Tombigbee River, the Warrior River, including the Locust and Mulberry Forks, the Black Warrior River, the Alabama River, the Apalachicola River, the Chattahoochee River, the Flint River, and including all connecting streams and ship channels relating to such waterways and rivers; (2) between Carrabelle, Fla. and Tampa, Fla., including Port Tampa and East Tampa, Fla. along the Gulf of Mexico, serving all ports and points in Florida between Carrabelle and Tampa; (3) between Tampa, Fla., on the one hand, and, on the other, Miami, Fort Lauderdale and Port Everglades, Fla. along the Gulf of Mexico, the Caloosahatchee River, the St. Lucie Canal, and the Atlantic Intracoastal Waterway, serving all intermediate ports and points; and (4) between the ports and points in (1) and (2) above (except ports and points in the Mississippi River, below and including Baton Rouge, La., on the one hand, and, on the other, Miami,

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

FEBRUARY 3, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before February 17, 1975 from the date of this publication. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 200 (Sub-No. E1), filed June 4, 1974. Applicant: RISS INTERNATIONAL CORPORATION, P.O. Box 2809, Kansas City, Mo. 64142. Applicant's representative: Ivan E. Moody (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, Classes A and B explosives, livestock, household goods, as defined by the Commission, commodities in bulk, and those requiring special equipment, between Philadelphia, Pa., on the one hand, and, on the other, points in Nassau and Suffolk Counties, New York. The purpose of this filing is to eliminate the gateway of Rockland County, N.Y.

No. MC 13134 (Sub-No. E1) (correction), filed May 30, 1974, published in the FEDERAL REGISTER January 16, 1975. Applicant: GRANT TRUCKING, INC., P.O. Box 266, Oak Hill, Ohio 45656. Applicant's representative: John P. McMahon, Suite 1800, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel products, glassware, and clay refractory products*, except commodities in bulk, lime, limestone, and lime and limestone products, (a) between points in that part of Ohio on, north, and east of a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 30 to junction Interstate Highway 77, thence along Interstate Highway 77 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction Ohio Highway 57, thence along Ohio Highway 57 to Lorain, on the one hand, and, on the other, points in that part of West Virginia on and east of a line beginning at the West Virginia-Pennsylvania State line and extending along U.S. Highway 19 to junction U.S. Highway 60 thence along U.S. Highway 60 to the West Virginia-Virginia State line; (b) between points in that part of Ohio on, north, and east of a line beginning at the Ohio-Pennsylvania State line and extending along Interstate Highway 80 to junction Ohio Highway 45, thence along Ohio Highway 45 to Lake Erie, on the one hand, and, on the other, points in West Virginia on and south of Interstate Highway 70 (Washington, Pa., and points in Pennsylvania within 5 miles of Washington*);

(2) *clay products, and refractories* (except furnace and stove lining shapes and plastic brick), from Oak Hill, Ohio, and points within 14 miles thereof, to points in Florida, Georgia, North Carolina, South Carolina, and Louisiana, (Ironton, Ohio*); (3) *clay products and refractories*, from the plant site of the Esso-Ramite Co., near Siloam, Ky., to points in Alabama, Connecticut, Delaware, Florida, Georgia, Iowa, Louisiana, Maryland, Massachusetts, Minnesota, Missouri, New Jersey, North Carolina, Rhode Island, South Carolina, Tennessee, Virginia, and Wisconsin, and *damaged* or *returned shipments* of clay products and *pallets* used in the transportation of clay products from points in the States described above to the named plant site, (Ironton, Ohio, and those points in Kentucky within the Ironton Commercial Zone*); (4) *clay products and refractories*, except furnace and stove lining shapes and plastic brick, from the plant site of the Esso-Ramite Co., near Siloam, Ky., to points in the District of Columbia, Maine, New Hampshire, Texas, Vermont, Alabama, Connecticut, Delaware, Iowa, Maryland, Massachusetts, Minnesota, Missouri, New Jersey, Rhode Island, Tennessee, Virginia, and Wisconsin, and *damaged or returned shipments* of clay products and *pallets* used in the transportation of clay products from points in the States described above to the named plant site, (Ironton, Ohio*);

(5) *Clay products and refractories* from the plant site of the Lawrence Refractories Clay Company, in Elizabeth Township, Lawrence County, Ohio, to all points in Alabama, Connecticut, Delaware, Florida, Georgia, Iowa, Louisiana, Maryland, Massachusetts, Minnesota, Missouri, New Jersey, North Carolina, Rhode Island, South Carolina, Tennessee, Virginia, and Wisconsin; and *damaged or returned shipments* of such commodities, and *pallets, containers*, or *other packing materials* used in the transportation of clay products, from points in the States described above to the named plant site, (Ironton, Ohio and points in Kentucky within the Ironton Commercial Zone*); (6) *iron and steel articles*, from the plant site of the Bethlehem Steel Corporation, located at Burns Harbor, Porter County, Ind., direct to all points in Washington County, Pa., restricted to shipments originating at or destined to the named plant site, (points in Ohio*); and (7) (a) *iron and steel articles*, except commodities in bulk, from the plant site of Jones & Laughlin Steel Corporation located in Putnam County, Ill., to points in Washington County, Pa., restricted to shipments originating at the named plantsite, and, (b) *materials, equipment, and supplies*, except commodities in bulk, used in the manufacture and processing of iron and steel articles, from points in Washington County, Pa., to the plant site of Jones & Laughlin Steel Corporation, located in Putnam County, Ill., restricted to shipments destined to the named plant site (points in Ohio*). The purpose of this filing is to eliminate the gateways indicated by asterisks above. The purpose of this correction is to clarify the elimination points above.

No. MC 16682 (Sub-No. E13), filed May 16, 1974. Applicant: MURAL TRANSPORT, INC., 2900 Review Ave., Long Island City, N.Y. 11101. Applicant's representative: Robert L. Shapiro (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commercial and institutional furniture and fixtures* (except commodities the transportation of which requires the use of special equipment), (1) between points in Connecticut, Massachusetts, New Jersey, New York and Pennsylvania, on the one hand, and, on the other, points in Arizona, California, Colorado, Idaho, Montana, Nevada, Oregon, Utah, Washington, and Wyoming; (Cuyahoga County, Ohio and Nebraska)*; (2) between points in Delaware, Maryland, Rhode Island, and the District of Columbia, on the one hand, and, on the other, points in Arizona, California, Colorado, Idaho, Montana, Nevada, Oregon, Utah, Washington, and Wyoming; (Pennsylvania, Cuyahoga County, Ohio, and Nebraska)*; (3) between points in Maine, New Hampshire and Vermont, on the one hand, and, on the other, points in Arizona, California, Colorado, Idaho, Montana, Nevada, Oregon, Utah, Washington and Wyoming. (New York, Cuyahoga County, Ohio and Nebraska)*. The purpose of this filing is to eliminate the gateway indicated by the asterisks above.

No. MC 31462 (Sub-No. E317), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Missouri, on the one hand, and, on the other, points in Nebraska. The purpose of this filling is to eliminate the gateways of Omaha, Nebr., or any point in Nebraska within 100 miles thereof.

No. MC 31462 (Sub-No. E318), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Missouri, on the one hand, and, *on* the other, points in South Carolina. The purpose of this filing is to eliminate the gateways of (1) any point in Missouri within 25 miles of Cairo, Ill., (2) any point in Georgia; and (3) any point in Tennessee.

No. MC 31462 (Sub-No. E319), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Missouri, on the one hand, and, on the other, points in North Carolina. The purpose of this filing is to eliminate the gateway of (1) any point in Missouri within 25 miles of Cairo, Ill.; (2) any point in Georgia; and (3) any point in Tennessee.

No. MC 31462 (Sub-No. E320), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Missouri on and north of a line beginning at the Kansas-Missouri State line, thence along U.S. Highway 50 to the Missouri-Illinois State line, on the one hand, and, on the other, points in that part of Virginia on and north of a line beginning at the Virginia-West Virginia State line, thence along Virginia Highway 39 to junction U.S. Highway 60, thence along U.S. Highway 60 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction U.S. Highway 301, thence along U.S. Highway 301 to the Virginia-North Carolina State line. The purpose of this filing is to eliminate the gateways of (1) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof; (2) any point in Missouri within 50 miles of Burlington, Iowa.

No. MC 31462 (Sub-No. E322), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Tennessee on and east of a line beginning at the Mississippi River, thence along Tennessee Highway 20 to the Mississippi-Tennessee State line, on the one hand, and, on the other, points in that part of Missouri on and north of a line beginning at the Missouri-Oklahoma State line, thence along U.S. Highway 60 to the Missouri-Illinois State line. The purpose of this filing is to eliminate the gateway of any point in Missouri within 25 miles of Cairo, Ill.

No. MC 31462 (Sub-No. E323), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Missouri, on the one hand, and, on the other, points in that part of Texas on and west of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 271 to Paris, Tex., thence from Paris along U.S. Highway 24 to junction Texas Highway 19, thence along Texas Highway 19 to junction Texas Highway 31, thence along Texas Highway 31 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction U.S. Highway 79, thence along U.S. Highway 79 to junction Texas Highway 6, thence along Texas Highway 6 to junction Texas Highway 21, thence along Texas Highway 21 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Texas Highway 113, thence along Texas Highway 113 to junction Texas Highway 35, thence along Texas Highway 35 to Copano Bay, Tex. The purpose of this filing is to eliminate the gateway of any point in Okmulgee County, Okla.

No. MC 31462 (Sub-No. E324), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in the District of Columbia. The purpose of this filing is to eliminate the gateways of (1) East St. Louis, Ill., or any point within 50 miles thereof; (2) Fort Wayne, Ind., or any point in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E325) filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Missouri, to points in New Jersey. The purpose of this filing is to eliminate the gateways of (1) East St. Louis, Ill., and points within 50 miles thereof, and (2) Ft. Wayne, Ind., and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E326), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Missouri, to points in New York. The purpose of this filing is to eliminate the gateways of (1) East St. Louis, Ill., and points within 50 miles thereof, and (2) Ft. Wayne, Ind., and points in Indiana within 40 miles thereof.

No. MC 31462 (Sub-No. E327), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Missouri, to points in Pennsylvania. The purpose of this filing is to eliminate the gateways of (1) East St. Louis, Ill., and points within 50 miles thereof, and (2) Ft. Wayne, Ind., and points within 40 miles thereof.

No. MC 31462 (Sub-No. E328), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Missouri, on the one hand, and, on the other, points in North Dakota. The purpose of this filing is to eliminate the gateways of (1) Kansas City, Mo., and points within 30 miles thereof, (2) Burlington, Iowa, and points within 50 miles thereof, and (3) any point which is both within 35 miles of Alden, Minn., and within that part of Minnesota or Iowa on and south of a line beginning at the Mississippi River, thence along U.S. Highway

16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Mississippi River.

No. MC 31462 (Sub-No. E329), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in Missouri, to points in New Hampshire. The purpose of this filing is to eliminate the gateways of (1) St. Louis, Mo., and East St. Louis, Ill., thereof; (2) Ft. Wayne, Ind., and points in Indiana within 40 miles thereof; and (3) Hoosick Falls, N.Y.

No. MC 31462 (Sub-No. E330), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission from points in Missouri, to points in Vermont. The purpose of this filing is to eliminate the gateways of (1) St. Louis, Mo., and East St. Louis, Ill., thereof; (2) Ft. Wayne, Ind., and points in Indiana within 40 miles thereof; and (3) Hoosick Falls, N.Y.

No. MC 31462 (Sub-No. E332), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, from points in that part of Missouri on and north of a line beginning at the Missouri-Illinois State line, thence along U.S. Highway 66 to the Missouri-Kansas State line, to points in Wisconsin. The purpose of this filing is to eliminate the gateways of Burlington, Iowa and points within 50 miles.

No. MC 31462 (Sub-No. E333), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Missouri on and east of a line beginning at the Missouri-Iowa State line, thence along U.S. Highway 66 to the Missouri-Arkansas State line, on the one hand, and, on the other, points in that part of Montana bounded on, north, and east of a line beginning at the Montana-North Dakota State line on U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction U.S. Highway 89, thence along U.S. Highway 89 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 91, thence along U.S. Highway 91 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 89, thence along U.S. Highway 89 to Browning, thence from Browning along U.S. Highway 2 to junction U.S. Highway 91, thence along U.S. Highway 91 to the International Boundary line between the United States and Canada. The purpose of this filing is to eliminate the gateways of (1) Burlington, Iowa, and points within 50 miles thereof; (2) Alden, Minn., and points in Minnesota within 35 miles thereof; and (3) Williston, N. Dak., and points in North Dakota within 200 miles thereof.

No. MC 31462 (Sub-No. E334), filed May 13, 1974. Applicant: PARAMOUNT MOVERS, INC., P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: R. L. Rork (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in that part of Missouri on and east of a line beginning at the Missouri-Iowa State line extending along U.S. Highway 63 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Missouri Highway 5, thence along Missouri Highway 5 to the Missouri-Arkansas State line, on the one hand, and, on the other, points in South Dakota on and north of a line beginning at the South Dakota-Minnesota State line extending along U.S. Highway 212, thence along U.S. Highway 212 to junction South Dakota Highway 73, thence along South Dakota Highway 73 to junction South Dakota Highway 34, thence along South Dakota Highway 34 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction U.S. Highway 16, thence along U.S. Highway 16 to the South Dakota-Wyoming State line. The purpose of this filing is to eliminate the gateways of (1) Burlington, Iowa, and points within 50 miles thereof; and (2) Alden, Minn., and points in Minnesota within 35 miles thereof.

No. MC 53269 (Sub-No. E3), filed June 3, 1974. Applicant: EDITH R. ALLEN, dba S. P. RUTHERFORD TRANSFER AND STORAGE, Bristol, Tenn. Applicant's representative: James F. Flint, Suite 600, 1250 Connecticut Ave. NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Heavy machinery;* between points in Virginia within 150 miles of Bristol, Tenn., on the one hand, and, on the other, points in Georgia; between points in Tennessee within 150 miles of Bristol, Tenn., on the one hand, and, on the other, points in Maryland, New Jersey, West Virginia (except those in Cabell and Wayne Counties, W. Va.), and Virginia (except those points within 150 miles of Bristol, Tenn.); between points in Lee, Scott, Wise, Dickenson, Russell, Washington, and Buchanan Counties, Va., on the one hand, and, on the other, points in Maryland and New Jersey; between points in Washington, Carter, Johnson, Sullivan, Hawkins, Hancock, and Greene Counties, Tenn., on the one hand, and, on the other, points in Maryland, New Jersey, Virginia (except those points within 150 miles of Bristol, Tenn.), West Virginia, and North Carolina (except those points in Mitchell, Avery, Burke, McDowell, Rutherford, Yancy, Buncombe, Polk, Henderson, Haywood, Transylvania, Swain, Jackson, Macon, Graham, Cherokee, and Clay Counties, N.C.). The purpose of this filing is to eliminate the gateway of Bristol, Tenn.

No. MC 106401 (Sub-No. E1), filed May 13, 1974. Applicant: JOHNSON MOTOR LINES, INC., P.O. Box 10877, Charlotte, N.C. 28234. Applicant's representative: Thomas G. Sloan (same as above). Authority sought to operate as a *common carrier*, by motor vehicles, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, livestock, and commodities injurious or contaminating to other lading), (1) from points in that part of South Carolina south and west of a line beginning at the Georgia-South Carolina State line, thence along U.S. Highway 1 to junction U.S. Highway 76, thence along U.S. Highway 76 to junction U.S. Highway 15, thence along U.S. Highway 15, to junction South Carolina Highway 64, thence along South Carolina Highway 64 to junction U.S. Highway 17, thence along U.S. Highway 17 to junction South Carolina Highway 174, thence along South Carolina Highway 174 to the Atlantic Ocean, and to points in that part of North Carolina, Virginia, District of Columbia, Maryland, Delaware, and Pennsylvania on a line beginning at Greensboro, N.C., thence along Alternate U.S. Highway 70 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction U.S. Highway 158, thence along U.S. Highway 158 to junction U.S. Highway 1, thence along U.S. Highway 1 to Baltimore, Md., thence along U.S. Highway 40 to junction U.S. Highway 13, thence along U.S. Highway 13 to Philadelphia, Pa.; and to points in that part of North Carolina on a line beginning at Durham, N.C., thence along U.S. Highway 70 to junction North Carolina Highway 54, thence along North Carolina Highway 54 to junction U.S. Highway 1, thence along U.S. Highway 1 to junction Alternate U.S. Highway 1, thence along Alternate U.S. Highway 1 to junction U.S. Highway 1, thence along U.S. Highway 1 to Henderson, N.C.; and to points in that part of North Carolina and Virginia on a line beginning at Greensboro, N.C., thence along U.S. Highway 29 to junction U.S. Highway 58, thence along U.S. Highway 58 to junction U.S. Highway 1, thence along U.S. Highway 1 to South Hill, Va.; and to Camden, N.J., and points in Allegany, Baltimore, Frederick, and Washington Counties, Md., and points in Berks, Bucks, Chester, Dauphin, Delaware, Lancaster, Lebanon, Lehigh, Monroe, Montgomery, Northampton, and Schuylkill Counties, Pa.; and (2) from points in that part of

South Carolina east and east of a line beginning at the Atlantic Ocean, thence along South Carolina Highway 174 to junction U.S. Highway 17, thence along U.S. Highway 17 to junction South Carolina Highway 64, thence along South Carolina Highway 64 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction U.S. Highway 76, thence along U.S. Highway 76 to the South Carolina-North Carolina State line, and to points in that part of North Carolina, Virginia, District of Columbia, Maryland, Delaware, and Pennsylvania on a line beginning at Greensboro, N.C., thence along Alternate U.S. Highway 70 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction U.S. Highway 158, thence along U.S. Highway 158 to junction U.S. Highway 1, thence along U.S. Highway 1 to Baltimore, Md., thence along U.S. Highway 40 to junction U.S. Highway 13; thence along U.S. Highway 13 to Philadelphia, Pa.; and to points in that part of North Carolina and Virginia on a line beginning at Greensboro, N.C., thence along U.S. Highway 29 to Danville, Va.; and to Camden, N.J., and points in Allegany, Baltimore, Frederick, and Washington Counties, Ind., and points in Berks, Bucks, Chester, Dauphin, Delaware, Lancaster, Lebanon, Lehigh, Monroe, Montgomery, Northampton, and Schuylkill Counties, Pa. The purpose of this filing is to eliminate the gateways of Guilford and Albemarle, N.C.

No. MC 106401 (Sub-No. E10), filed May 13, 1974. Applicant: JOHNSON MOTOR LINES, INC., P.O. Box 10877, Charlotte, North Carolina 28234. Applicant's representative: Thomas G. Sloan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, Classes A & B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, livestock, and commodities injurious or contaminating to other lading, from points in Russell County, Alabama to points in that part of North Carolina, Virginia, District of Columbia, Maryland, Delaware, and Pennsylvania on a line beginning at the North Carolina-South Carolina State line, thence along alternate U.S. Highway 29 to junction U.S. Highway 29, thence along North Carolina Highway 49 to junction unnumbered Highway to Concord, North Carolina, thence along alternate U.S. Highway 29 to junction U.S. Highway 29, thence along U.S. Highway 29 to junction alternate U.S. Highway 29, thence along alternate U.S. Highway 29 to junction alternate U.S. Highway 70, thence along alternate U.S. Highway 70 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction U.S. Highway 158, thence along U.S. Highway 158 to junction U.S. Highway 1, thence along U.S. Highway 1 to Baltimore, Md., thence along U.S. Highway 40 to junction U.S. Highway 13, thence along U.S. Highway 13 to Philadelphia, Pa.; to points in that part of North Carolina on a line beginning at the North Carolina-South Carolina State line thence along U.S. Highway 1 to junction U.S. Highway 220, thence along U.S. Highway 220 to junction U.S. Highway 311, thence along U.S. Highway 311 to High Point, N.C.; to points in that part of North Carolina on a line beginning at Durham, N.C., thence along U.S. Highway 70 to junction unnumbered Highway, thence along unnumbered Highway to junction North Carolina Highway 54.

Thence along North Carolina Highway 54 to junction U.S. Highway 1, thence along U.S. Highway 1 to junction alternate U.S. to junction U.S. Highway 1, thence along U.S. Highway 1 to Henderson, N.C.; to points in North Carolina and Virginia on a line beginning at Greensboro, N.C., thence along U.S. Highway 29 to junction U.S. Highway 58, thence along U.S. Highway 58 to junction U.S. Highway 1, thence along U.S. Highway 1 to South Hill, Va.; to points in that part of North Carolina on a line beginning at Salisbury, N.C., thence along U.S. Highway 70 to junction U.S. Highway 321, thence along U.S. Highway 321 to junction alternate U.S. Highway 321, thence along alternate U.S. Highway 321 to Valmead, N.C.; to points in that part of North Carolina on a line beginning at the junction of U.S. Highway 29 and North Carolina Highway 49, Northeast of Charlotte, N.C.; thence along U.S. Highway 29 to China Grove, N.C.; and to points in Allegany, Baltimore, Frederick, and Washington Counties, Md., and Bucks, Chester, Dauphin, Delaware, Lancaster, Lebanon, Lehigh, Monroe, Montgomery, North ampton, and Schuylkill Counties, Pa. The purpose of this filing is to eliminate the gateways of Columbus, Ga., Graniteville, S.C., and Pineville, N.C.

No. MC 106401 (Sub-No. E13), filed May 13, 1974. Applicant: JOHNSON MOTOR LINES, INC., P.O. Box 10877, Charlotte, N.C. 28234. Applicant's representative: Thomas G. Sloan (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment, livestock and commodities injurious or contaminating to other lading, (1) from points in that part of Georgia on and south of a line beginning at the South Carolina-Georgia State line, thence along Interstate Highway 85 to junction Georgia Highway 120, thence along Georgia Highway 120 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction Georgia Highway 115, thence along Georgia Highway Highway 115 to junction Georgia Highway 254, thence along Georgia Highway 254 to junction U.S. Highway 23, thence along U.S. Highway 23 to junction Georgia Highway 17, thence along Georgia Highway 17 to junction U.S. Highway 123, thence along U.S. Highway 123 to the South Carolina-Georgia State line, and to points in that part of Virginia, District of Columbia, Maryland, Delaware, and Pennsylvania on a line beginning at the North Carolina-Virginia State line, thence along U.S. Highway 1 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction U.S. Highway 13, thence along U.S. Highway 13 to Philadelphia, Pa.; and to points in that part of Virginia on a line beginning at the North Carolina-Virginia State line, thence along U.S. Highway 29 to junction U.S. Highway 58, thence along U.S. Highway 58 to junction U.S. Highway 1, thence along U.S. Highway 1 to South Hill, Va.; and to points in Allegany, Baltimore, Frederick, and Washington Counties, Md., and

Berks, Bucks, Chester, Dauphin, Delaware, Lancaster, Lebanon, Lehigh, Monroe, Montgomery, Northamption, and Schuylkill Counties, Pa.;

(3) from points in that part of Georgia bounded by a line beginning at the Alabama-Georgia State line, thence along U.S. Highway 278 to junction Georgia Highway 120, thence along Georgia Highway 120 to junction U.S. Highway 19, thence along U.S. Highway 19 to junction Georgia Highway 52, thence along Georgia Highway 52 to junction U.S. Highway 76, thence along U.S. Highway 76 to junction U.S. Highway 411, thence along U.S. Highway 411 to the Georgia-Tennessee State line, and to points in that part of Virginia, District of Columbia, Maryland, Delaware, and Pennsylvania on a line beginning at the North Carolina-Virginia State line, thence along U.S. Highway 1 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction U.S. Highway 13, thence along U.S. Highway 13 to Philadelphia, Pa., and to points in Baltimore County, Md., and Berks, Bucks, Chester, Dauphin, Delaware, Lancaster, Lebanon, Lehigh, Monroe, Montgomery, Northampton, and Schuylkill Counties, Pa.; and (4) from points in that part of Georgia bounded by a line beginning at the Georgia-Tennessee State line, thence along U.S. Highway 411 to junction U.S. Highway 76, thence along U.S. Highway 76 to junction Georgia Highway 52, thence along Georgia Highway 52 to junction Georgia Highway 115, thence along Georgia Highway 115 to junction Georgia Highway 254, thence along Georgia Highway 254 to junction U.S. Highway 23, thence along U.S. Highway 23 to junction Georgia Highway 17, thence along Georgia Highway 17 to junction U.S. Highway 123, thence along U.S. Highway 123 to the Georgia-South Carolina State line, and to points in that part of Virginia, District of Columbia, Maryland, Delaware, and Pennsylvania on a line beginning at Fredericksburg, Va., thence along U.S. Highway 1 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction U.S. Highway 13, thence along U.S. Highway 13 to Philadelphia, Pa.; and to points in that part of Maryland and Pennsylvania on a line beginning at Baltimore, Md., thence along U.S. Highway 1 to Philadelphia, Pa.; and to points in Baltimore County, Md., and Berks, Bucks, Chester, Dauphin, Delaware, Lancaster, Lebanon, Lehigh, Monroe, Montgomery, Northampton, and Schuylkill Counties, Pa. The purpose of this filing is to eliminate the gateways of Graniteville, S.C., and Pineville, N.C.

No. MC 104654 (Sub-No. E3), filed May 14, 1974. Applicant: COMMERCIAL TRANSPORT, INC., South 20th St., Belleville, Ill. 62222. Applicant's representative: Edward G. Villalon, 13th and Penn. Ave. NW., Suite 1032 Penn Bldg., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, (except liquid chemicals), as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209, in bulk, in tank vehicles, from St. Elmo, Ill., to points in West Virginia. The purpose of this filing is to eliminate the gateway of Jackson County, Ind., and Butler County, Ohio.

No. MC 106920 (Sub-No. E32), filed June 4, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sweet cream and milk*, processed or unprocessed, except concentrated whole milk and concentrated skim milk, in bulk, in tank vehicles, from points in Wisconsin on and north of a line beginning at the Wisconsin-Minnesota State line and extending along U.S. Highway 8 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Wisconsin Highway 77, thence along Wisconsin Highway 77 to Wisconsin Highway 13, thence along Wisconsin Highway 13 to junction Wisconsin Highway 77, thence along Wisconsin Highway 77 to the Wisconsin-Michigan State line, to points in Indiana south of a line beginning at the Indiana-Ohio State line and extending along U.S. Highway 40 to junction Interstate Highway 65, thence along Interstate Highway 65 to junction Indiana Highway 7, thence along Indiana Highway 7 to the Indiana-Kentucky State line. The purpose of this filing is to eliminate the gateways of Darke, Mercer, and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E33), filed June 4, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Milk, cream and buttermilk*, except concentrated whole milk and concentrated skim milk, in bulk, in tank vehicles, from points in Minnesota north of a line beginning at the North Dakota-Minnesota State line and extending along Minnesota Highway 1 to junction Minnesota Highway 38, thence along Minnesota Highway 38 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction Minnesota Highway 1, thence along Minnesota Highway 1 to Lake Superior, to points in Tennessee east of a line beginning at the Mississippi-Tennessee State line and extending along Tennessee Highway 22 to junction U.S. Highway 64, thence along U.S. Highway 64 to junction Tennessee Highway 13, thence along Tennessee Highway 13 to junction U.S. Highway 79, thence along U.S. Highway 79 to the Alabama Tennessee State line, and west of a line beginning at the Alabama Tennessee State line and extending along Interstate Highway 65 to the Kentucky Tennessee State line. The purpose of this filing is to eliminate the gateway of Darke, Mercer and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E51), filed June 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities* classified as dairy products, under B in the Appendix to the Report in *Modification of Permits of Motor Contract Carriers* of Packing-house products, 48, M.C.C. 628, from points in Texas West of a line beginning at the United States-Mexico International Boundary line and extending along U.S. Highway 67 to junction Interstate Highway 10, thence along Interstate Highway 10 to junction Texas Highway 18, thence along Texas Highway 18 to junction Interstate Highway 20, thence along Interstate Highway 20 to junction Texas Highway 349, thence along Texas Highway 349 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction U.S. Highway 380, thence along U.S. Highway 380 to junction Texas Highway 207, thence along Texas Highway 207 to junction U.S. Highway 62, thence along U.S. Highway 62 to the Texas-Oklahoma State line. The purpose of this filing is to eliminate the gateways of Darke, Mercer and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E53), filed June 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities* classified as dairy products, under Section B of the Appendix to the report in *Modification of permits of Motor Contract Carriers* of Packing house products, 48 M.C.C. 628, from points in Texas on and west of a line beginning at the Texas-Mexico International Boundary line and extending along U.S. Highway 80 to junction Texas Highway 115, thence along Texas Highway 115 to junction U.S. Highway 385, thence along U.S. Highway 385 to junction U.S. Highway 62, thence along U.S. Highway 62 to the Texas-Oklahoma State line, to points in Tennessee on and east of a line beginning at the Tennessee Virginia State line and extending along U.S. Highway 23 to junction U.S. Highway 321, thence along U.S. Highway 321 to the Tennessee-North Carolina State line. The purpose of this filing is to eliminate the gateway of Darke, Mercer and Auglaize Counties, Ohio.

No. MC 106920 (Sub-No. E63), filed May 3, 1974. Applicant: RIGGS FOOD EXPRESS, INC., P.O. Box 26, New Bremen, Ohio 45869. Applicant's representative: E. Stephen Heisley, 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities* classified as dairy products, under B in the Appendix to the report in *Modification of Permits of Motor Contract Carriers* of Packing

house products, 48 M.C.C. 628, from the Upper Peninsula of Michigan to points in Kentucky on and east of a line beginning at the Indiana-Kentucky State line extending along Kentucky Highway 79 to junction Kentucky Highway 185, thence along Kentucky Highway 185, to junction Interstate Highway 65, thence along Interstate Highway 65 to the Kentucky-Tennessee State line. The purpose of this filing is to eliminate the gateway of Darke, Mercer and Auglaize Counties, Ohio.

No. MC 107064 (Sub-No. E9), filed May 21, 1974. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (Same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from points in that part of Texas on and south of U.S. Highway 66, and on and west of U.S. Highway 83 (except points in Gray, Wheeler, Donley, Collingsworth, and Childress Counties), to points in Vermont. The purpose of this filing is to eliminate the gateway of any point in Ector County, Tex.

No. MC 107064 (Sub-No. E10), filed May 21, 1974. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (Same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products, in bulk*, in tank vehicles, from points in that part of Texas on, south and west of a line beginning at the Texas-New Mexico State line, thence along U.S. Highway 66 to Amarillo, thence along U.S. Highway 287 to Clarendon, thence along Texas Highway 70 to Sweetwater, thence along U.S. Highway 80 to Abilene, thence along U.S. Highway 83 to the International Boundary line between the United States and Mexico at Laredo, (except points in Donley County, Tex.), to points in New Jersey. The purpose of this filing is to eliminate the gateway of any point in Ector County, Tex.

No. MC 107064 (Sub-No. E13), filed May 21, 1974. Applicant: STEERE TANK LINES, INC., P.O. Box 2998, Dallas, Tex. 75221. Applicant's representative: H. L. Rice, Jr. (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from points in that part of Texas in and south of Bailey, Lamb, Floyd, Dickens, and Stonewall Counties, and on and west of U.S. Highway 83, to points in Pennsylvania. The purpose of this filing is to eliminate the gateway of any points in Ector County, Tex.

No. MC 107515 (Sub-No. E209) (Correction), filed May 29, 1974, published in the FEDERAL REGISTER December 27, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd., N.E., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (7) *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), from San Angelo, Tex., to points in Indiana, Michigan, West Virginia, Virginia, Pennsylvania, that part of Wisconsin on and east of U.S. Highway 51, restricted against the transportation originating at Nashville, Tenn.; and (13) *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), from Palestine, Tex., to points in Indiana, Michigan, Pennsylvania, Virginia, West Virginia, that part of Wisconsin on and east of a line beginning at the Wisconsin-Michigan State line, thence along Wisconsin Highway 169 to junction Wisconsin Highway 13, thence along Wisconsin Highway 13 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction Wisconsin Highway 104, thence along Wisconsin Highway 104 to the Wisconsin-Illinois State line, and that part of Illinois on and east of a line beginning at the Wisconsin-Illinois State line, thence along U.S. Highway 51 to junction Illinois Highway 121, thence along Illinois Highway 121 to junction Illinois Highway 32, thence along Illinois Highway 32 to junction U.S. Highway 45, thence along Illinois Highway 45 to junction Illinois Highway 1, thence along Illinois Highway 1 to the Ohio River, restricted against the transportation of traffic originating at Nashville, Tenn. The purpose of this filing is to eliminate the gateway of the plant site of Odom's Sausage Co., at Madison, Tenn. The purpose of this partial correction is to include (7) above and to delete (12) which was published twice and to include (13) above. The remainder of this letter-notice remains as previously published.

No. MC 111496 (Sub-No. E2), filed June 4, 1974. Applicant: TWIN CITY FREIGHT, INC., 2550 Long Lake Road, Roseville, Minnesota 55113. Applicant's representative: R. E. Caturia (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment. (1) from Grand Forks, North Dakota, to those points in North Dakota on and north of North Dakota Highway 5. (2) from Minot, North Dakota, to those points in North Dakota on and north of North Dakota Highway 5 on and east of North Dakota Highway 20. The purpose of this filing is to eliminate the gateways of points in Walsh County, North Dakota.

No. MC 111496 (Sub-No. E3), filed June 4, 1974. Applicant: TWIN CITY FREIGHT, INC., 2550 Long Lake Road, Roseville, Minnesota 55113. Applicant's representative: R. E. Caturia (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment. (1) from Williston, North Dakota, to those points in North Dakota on and north of North Dakota Highway 5 and on and east of North Dakota Highway 20 (points in Walsh County, North Dakota)*, (2) from points in Norman County, Minn. The purpose of this filing is to eliminate the gateways indicated by asterisks above.

No. MC 114019 (Sub-No. E419), filed May 19, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Road, Chicago, Illinois 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Packinghouse products and by-products, and packinghouse supplies*, from Sioux City and Des Moines, Iowa, St. Joseph, Kansas City, and St. Louis, Mo., Kansas City, and Wichita, Kansas, Omaha, Nebraska, on the other, points in New York, Massachusetts, Connecticut, Rhode Island, and New Jersey. The purpose of this filing is to eliminate the gateway of Chicago, Ill., and Cleveland, Ohio.

No. MC 114019 (Sub-No. E420), filed May 19, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Road, Chicago, Illinois 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products and articles distributed by meat packinghouses* in the appendix to the report in *Modification of Permits of Motor Contract Carriers of Packing House Products*, 46 M.C.C. 23, Madison, Wis., St. Louis, Mo., Chicago, Peoria, and Carbondale, Ill., Ft. Wayne, Indianapolis, and Evansville, Ind., Bellevue, Covington, and Louisville, Ky., and Toledo, Akron, Dayton, Columbus, and Cincinnati, Ohio, on the one hand, and, on the other, points in New York, Massachusetts, Connecticut, Rhode Island, and New Jersey. The purpose of this filing is to eliminate the gateway of Cleveland, Ohio.

No. MC 114019 (Sub-No. E421), filed May 19, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Road, Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transport-

ing: *Paper cartons, and paper accessories* used for glassware and glass containers, from Monroe, Mich., to points in Minnesota, North Dakota, South Dakota, Nebraska, Montana, Wyoming, and Colorado. The purpose of this filing is to eliminate the gateway of the facilities of Anchor Hocking Glass Corporation at or near Gurnee, Ill.

No. MC 114211 (Sub-No. E268), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe and fittings and accessories* therefor when moving with such pipe, from points in that part of Illinois on and south of a line beginning at the Iowa-Illinois State line extending along U.S. Highway 34 to junction Illinois Highway 116, thence along Illinois Highway 116 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Indiana State line, thence along the Illinois-Indiana State line to junction U.S. Highway 40, thence along U.S. Highway 40 to the Illinois-Missouri State line to points in that part of North Dakota on and west of a line beginning at the South Dakota-North Dakota State line extending along North Dakota Highway 1, thence along North Dakota Highway 1 to the U.S.-Canada Boundary line; points in that part of Nebraska on and north of a line beginning at the Iowa-Nebraska State line extending along Interstate Highway 80 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction Nebraska Highway 33, thence along Nebraska Highway 33 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction Nebraska Highway 27, thence along Nebraska Highway 27 to the Nebraska-Kansas State line; points in that part of Kansas on and northwest of a line beginning at the Nebraska-Kansas State line extending along Kansas Highway 27 to junction U.S. Highway 36.

Thence along U.S. Highway 36 to the Kansas-Colorado State line; points in that part of Colorado on, north and west of a line beginning at the Kansas-Colorado State line extending along U.S. Highway 36 to junction U.S. Highway 385, thence along U.S. Highway 385 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Interstate Highway 25, thence along Interstate Highway 25 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction U.S. Highway 285, thence along U.S. Highway 285 to the Colorado-New Mexico State line; points in that part of New Mexico on and west of a line beginning at the Colorado-New Mexico State line extending along U.S. Highway 285 to junction New Mexico Highway 4, thence along New Mexico Highway 4 to junction New Mexico Highway 44, thence along New Mexico Highway 44 to junction Interstate Highway 25, thence along Interstate Highway 25 to junction New Mexico Highway 90, thence along New Mexico Highway 90 to junction Interstate Highway 10, thence along Interstate Highway 10 to the New Mexico-Arizona State line; and points in Montana, South Dakota and Wyoming, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of the plant site of the Griffin Pipe Company at or near Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E514), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Tractors, stationary engines and attachments and parts* therefor when moving incidental to and in the same vehicle with tractors and stationary engines (not including tractors with vehicle beds, bed frames, or fifth wheels, nor any of the above-specified commodities which, because of size or weight, require the use of special equipment), restricted to the transportation of traffic originating at the Deere & Company, from points in that part of Nebraska on and west of a line beginning at the South Dakota-Nebraska State line extending along U.S. Highway 81 to junction Nebraska Highway 12, thence along Nebraska Highway 12 to junction Nebraska Highway 14, thence along Nebraska Highway 14 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction Nebraska Highway 95, thence along Nebraska Highway 95 to junction Nebraska Highway 11, thence along Nebraska Highway 11 to junction Nebraska Highway 91, thence along Nebraska Highway 91 to junction Nebraska Highway 2, thence along Nebraska Highway 2 to junction Nebraska Highway 70, thence along Nebraska Highway 70 to junction Nebraska Highway 40, thence along Nebraska Highway 40 to junction Nebraska Highway 47, thence along Nebraska Highway 47 to junction Nebraska Highway 23, thence along Nebraska Highway 23 to junction U.S. Highway 83, thence along U.S. Highway 83 to the Nebraska-Kansas State line, and from points in that part of Colorado on and west of a line beginning at the Nebraska-Colorado State line extending along Interstate Highway 80 to junction Colorado Highway 71, thence along Colorado Highway 71 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Interstate Highway 25, thence along Interstate Highway 25 to junction U.S. Highway 50.

Thence along U.S. Highway 50 to junction U.S. Highway 285, thence along U.S. Highway 285 to junction Colorado Highway 17, thence along Colorado Highway 17 to junction U.S. Highway 285, thence along U.S. Highway 285 to the Colorado-New Mexico State line, to points in that part of Ohio on and northeast of a line beginning at the Indiana-Ohio State line extending along Ohio Highway 119 to junction Ohio Highway 65, thence along Ohio Highway 65 to junction Ohio Highway 47, thence along Ohio Highway 47 to junction Ohio Highway 235, thence along Ohio Highway 235 to junction Ohio Highway 41, thence along Ohio Highway 41 to junction Ohio Highway 73, thence along Ohio Highway 73 to junction U.S. Highway 23, thence along U.S. Highway 23 to the Ohio-West Virginia State line; to points in that part of Indiana on and northeast of a line beginning at Gary, Ind., extending along Indiana Highway 53 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Indiana Highway 15, thence along Indiana Highway 15 to junction Indiana Highway 26, thence along Indiana Highway 26 to the Indiana-Ohio State line; to points in that part of Virginia on and east of a line beginning at the West Virginia-Virginia State line extending along U.S. Highway 460 to junction Virginia Highway 8, thence along Virginia Highway 8 to junction Virginia Highway 57, thence along Virginia Highway 57 to junction U.S. Highway 220, thence along U.S. Highway 220 to the Virginia-North Carolina State line; and to points in that part of West Virginia on and east of a line beginning at the Ohio-West Virginia State line extending along U.S. Highway 60 to junction Interstate Highway 77, thence along Interstate Highway 77 to junction U.S. Highway 460, thence along U.S. Highway 460 to the West Virginia-Virginia State line. The purpose of this filing is to eliminate the gateways of Dubuque, Iowa and Harlcon, Wis.

No. MC 114211 (Sub-No. E550), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Tractors and stationary engines and attachments and part therefor* when moving incidental to and in the same vehicle with tractors and stationary engines (not including tractors with vehicle beds, bed frames, or fifth wheels, nor any of the above-specified commodities which, because of their size or weight, require the use of special equipment), from points in that part of Illinois on and west of a line beginning at the Kentucky-Illinois State line, thence along U.S. Highway 51 to junction Illinois Highway 29, thence along Illinois Highway 29 to junction Illinois Highway 97, thence along Illinois Highway 97 to junction Interstate Highway 74, thence along Interstate Highway 74 to junction Interstate Highway 84, thence along Interstate Highway 84 to points in that part of Wisconsin on and north of a line beginning at the Illinois-Wisconsin State line, thence along U.S. Highway 151 to junction Wisconsin Highway 26, thence along Wisconsin Highway 26 to junction U.S. Highway 41, thence along U.S. Highway 41 to Green Bay, Wisc., and to points in the Upper Peninsula of Michigan, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Dubuque, Iowa.

No. MC 114211 (Sub-No. E551), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from points in that part of Iowa on and east of a line beginning at the Minnesota-Iowa State line, thence along U.S. Highway 71 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction U.S. Highway 169, thence along U.S. Highway 169 to the Iowa-Missouri State line to points in that part of New Mexico on, west and south of a line beginning at the Texas-New Mexico State line, thence along U.S. Highway 285 to junction Interstate Highway 40, thence along Interstate Highway 40 to the New Mexico-Arizona State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Ottumwa, Iowa.

No. MC 114211 (Sub-No. E552), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe and fittings and accessories* therefor when moving with such pipe, the transportation of which, because of size or weight, requires special equipment, from points in Missouri to points in that part of Nebraska on and north of a line beginning at the Iowa-Nebraska State line, thence along Nebraska Highway 92 to junction U.S. Highway 281, thence along U.S. Highway 281 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction U.S. Highway 283, thence along U.S. Highway 283 to junction U.S. Highway 34, thence along U.S. Highway 34 to the Nebraska-Colorado State line, and to points in that part of Colorado on and north of a line beginning at the Nebraska-Colorado State line, thence along U.S. Highway 34 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction Colorado Highway 119, thence along Colorado Highway 119 to junction Colorado Highway 93, thence along Colorado Highway 93 to junction U.S. Highway 6, thence along U.S. Highway 6 to junction Interstate Highway 70, thence along Interstate Highway 70 to the Colorado-Utah State line. The purpose of this filing is to eliminate the gateway of Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E553), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe and fittings and accessories* therefor when moving with such pipe, the transportation of which, because of size or weight, requires the use of special equipment, from points in that part of Nebraska on and west of a line beginning at the Iowa-Nebraska State line, thence along Interstate Highway 80 to junction U.S. Highway 15, thence along Nebraska Highway 15 to the Nebraska-Kansas State line to points in Illinois. The purpose of this filing is to eliminate the gateway of Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E555), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road-making machinery, and contractors' equipment and supplies*, the transportation of which, because of size or weight, requires special equipment, from points in Missouri to points in that part of North Dakota on and north of a line beginning at the North Dakota-Canada International Boundary line, thence along Interstate Highway 29 to junction North Dakota Highway 5, thence along North Dakota Highway 5 to junction North Dakota Highway 8, thence along North Dakota Highway 8 to junction U.S. Highway 2, thence along U.S. Highway 2 to the North Dakota-Montana State line, and to points in that part of Idaho on and north of a line beginning at the Montana-Idaho State line, thence along Idaho Highway 200 to junction U.S. Highway 95, thence along U.S. Highway 95 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Idaho-Washington State line, and to points in that part of Montana on and north of a line beginning at the North Dakota-Montana State line, thence along U.S. Highway 2 to the Montana-Idaho State line, and to points in that part of Washington on and north of a line beginning at the Idaho-Washington State line, thence along U.S. Highway 12 to junction Washington Highway 126, thence along Washington Highway 126 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Washington Highway 11, thence along Washington Highway 11 to the Washington-Oregon State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateways of Minneapolis, Minn., to points in Iowa.

No. MC 114211 (Sub-No. E556), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, the transportation of which, because of size or weight, requires the use of special equipment, from points in Missouri to points in that part of North Dakota on and north of a line beginning at the North Dakota-Canada International Boundary line, thence along Interstate Highway 29 to junction North Dakota Highway 5, thence along North Dakota Highway 5 to junction North Dakota Highway 8, thence along North Dakota Highway 8 to junction U.S. Highway 2, thence along U.S. Highway 2 to the North Dakota-Montana State line, and to points in that part of Idaho on and north of a line beginning at the Montana-Idaho State line, thence along Idaho Highway 200 to junction U.S. Highway 95, thence along U.S. Highway 95 to junction U.S. Highway 12, thence along U.S. Highway 12 to the Idaho-Washington State line, and to points in that part of Montana on and north of a line beginning at the North Dakota-Montana State line, thence along U.S. Highway 2 to the Montana-Idaho State line, and to points in that part of Washington on and north of a line beginning at the Idaho-Washington State line, thence along U.S. Highway 12 to junction Washington Highway 126, thence along Washington Highway 126 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Washington Highway 11, thence along Washington Highway 11 to the Washington-Oregon State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateways of Minneapolis, Minn., to points in Iowa.

No. MC–114211 (Sub-No. E559), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road making machinery and contractors' equipment and supplies*, from points in that part of Minnesota on, south, and west of a line beginning at the South Dakota-Minnesota State line extending along U.S. Highway 12 to junction Interstate Highway 494, thence along Interstate Highway 494 to junction Interstate Highway 35, thence along Interstate Highway 35 to the Minnesota-Iowa State line, to points in that part of Louisiana beginning at the Gulf of Mexico extending along Louisiana Highway 317 to junction U.S. Highway 90, thence along U.S. Highway 90 to junction U.S. Highway 167, thence along U.S. Highway 167 to junction U.S. Highway 190, thence along U.S. Highway 190 to junction U.S. Highway 61, thence along U.S. Highway 61 to the Mississippi-Louisiana State line; to points in that part of Mississippi on and east of a line beginning at the Mississippi-Louisiana State line extending along U.S. Highway 80 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Natchez Trace Parkway, thence along Natchez Trace Parkway to junction U.S.

The purpose of this filing is to eliminate the gateways of Dubuque, Iowa, and that part of the Fargo, N. Dak., Commercial Zone located in Moorhead, Minn.

No. MC 114211 (Sub-No. E563), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grading, paving, and finishing machinery, equipment, parts, accessories and attachments*, between points in that part of South Dakota on and north of a line beginning at the South Dakota-Minnesota State line extending along U.S. Highway 14 to junction South Dakota Highway 34, thence along South Dakota Highway 34 to junction U.S. Highway 212, thence along U.S. Highway 212 to the South Dakota-Wyoming State line, on the one hand, and, on the other, points in that part of Wisconsin on and east of a line beginning at the Wisconsin-Michigan State line extending along U.S. Highway 141 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Wisconsin Highway 44, thence along Wisconsin Highway 44 to junction Wisconsin Highway 23, thence along Wisconsin Highway 23 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction Interstate Highway 90, thence along Interstate Highway 90 to the Illinois-Wisconsin State line, and points in that part of the Upper Peninsula of Michigan on and east of a line beginning at Marquette, extending along U.S. Highway 41 to junction Michigan Highway 95, thence along Michigan Highway 95 to junction U.S. Highway 141, thence along U.S. Highway 141 to the Wisconsin-Michigan State line. The purpose of this filing is to eliminate the gateway of Canton, S. Dak.

No. MC 114211 (Sub-No. E564), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelsen (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Grading, paving and finishing machinery, equipment, parts, accessories and attachments* between points in that part of Kansas on and west of a line beginning at the Nebraska-Kansas State line, thence along U.S. Highway 283 to junction U.S. Highway 56, thence along U.S. Highway 56 to junction U.S. Highway 83, thence along U.S. Highway 83 to the Kansas-Oklahoma State line, on the one hand, and, on the other, points in Wisconsin. The purpose of this filing is to eliminate the gateway of Canton, S. Dak.

No. MC 114211 (Sub-No. E565), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe* (other than pipe used in, or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission and distribution of natural gas, and petroleum and their products and by-products) and *fittings and* accessories therefor when moving with such pipe, from points in that part of Illinois on and north of a line beginning at the Iowa-Illinois State line, thence along U.S. Highway 34 to junction Illinois Highway 116, thence along Illinois Highway 116 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Indiana State line to points in Idaho, Utah and Arizona with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of the plant site of the Griffin Pipe Company located at or near Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E566), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe* (other than pipe used in or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, distribution of natural gas and petroleum and their products and by-products) and *fittings and accessories* therefor when moving with such pipe, from points in that part of Tennessee on and west of a line beginning at the Kentucky-Tennessee State line, thence along U.S. Highway 25E to junction Tennessee Highway 63, thence along Tennessee Highway 63 to junction Interstate Highway 75, thence along Interstate Highway 75 to junction Tennessee Highway 61, thence along Tennessee Highway 61 to junction Tennessee Highway 58, thence along Tennessee Highway 58 to junction Tennessee Highway 153, thence along Tennessee Highway 153 to junction Interstate Highway 75, thence along Interstate Highway 75 to the Tennessee-Georgia State line to points in Idaho and points in that part of Utah on and north of a line beginning at the Colorado-Utah State line, thence along U.S. Highway 50 to junction Utah Highway 128, thence along Utah Highway 128 to junction U.S. Highway 163, thence along U.S. Highway 163 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction U.S. Highway 89, thence along U.S. Highway 89 to junction Utah Highway 20, thence along Utah Highway 20 to junction U.S. Highway 91, thence along U.S. Highway 91 to the Utah-Arizona State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of the plant site of the Griffin Pipe Company located at or near Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E567), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Hod buggies and self-propelled sweepers*, from points in that part of Minnesota on and north and west of a line beginning at the South Dakota-Minnesota State line thence along U.S. Highway 12 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Minnesota Highway 210 thence along Minnesota Highway 210 to junction Minnesota Highway 6, thence along Minnesota Highway 6 to junction U.S. Highway 71, thence along U.S. Highway 71 to, the Minnesota-Canada International Boundary line to points in Virginia, Maryland, Delaware, Pennsylvania, New Jersey, New York, Connecticut and Massachusetts. The purpose of this filing is to eliminate the gateway of Minneapolis, Minnesota.

No. MC 114211 (Sub-No. E568), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *self-propelled rollers* from points in that part of Kansas on and west of a line beginning at the Nebraska-Kansas State line thence along U.S. Highway 183 to junction Kansas Highway 9, thence along Kansas Highway 9 to junction Kansas Highway 23, thence along Kansas Highway 83, thence along U.S. Highway 83 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction Kansas Highway 25, thence along Kansas Highway 25 to junction U.S. Highway 160, thence along U.S. Highway 160 to the Kansas-Colorado State line to points in Massachusetts and Connecticut, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Minneapolis, Minnesota.

No. MC 114211 (Sub-No. E569), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, to points in that part of North Dakota on and east of a line beginning at the South Dakota—North Dakota State line, thence along North Dakota Highway 20 to the North Dakota—Canada International Boundary line to points in Oklahoma and Texas, with no transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling and restructed against the transportation of those commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of Omaha, Nebraska, Beatrice, Nebraska and Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E571), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* (except those with vehicle beds, bed frames, and fifth wheels), *equipment* designed for use in conjunction with tractors, *attachments* for the above-described commodities, and *parts*, from points in that part of Illinois on and east of a line beginning at the Iowa-Illinois State line extending along U.S. Highway 30 to junction Illinois Highway 88, thence along Illinois Highway 88 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction Illinois Highway 51, thence along Illinois Highway 51 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Indiana State line, and points in that part of Iowa on and east of a line beginning at the Minnesota-Iowa State line extending along U.S. Highway 52, to junction Iowa Highway 24, thence along Iowa Highway 24 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Iowa Highway 38, thence along Iowa Highway 38 to junction Iowa Highway 64, thence along Iowa Highway 64 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction U.S. Highway 30, thence along U.S. Highway 30 to the Iowa-Illinois State line to points in that part of Montana on and north of a line beginning at the North Dakota-Montana State line extending along U.S. Highway 12 to junction U.S. Highway 312, thence along U.S. Highway 312 to junction U.S. Highway 212, thence along U.S. Highway 212 to the Montana-Wyoming State line; to points in that part of California on and east of a line beginning at the Nevada-California State line extending along U.S. Highway 6 to junction U.S. Highway 395.

Thence along U.S. Highway 395 to junction California Highway 14, thence along California Highway 14 to junction California Highway 138, thence along California Highway 138 to junction U.S. Highway 395, thence along U.S. Highway 395 to junction California Highway 91, thence along California Highway 91 to junction California Highway 55, thence along California Highway 55 to Santa Ana, Calif.; to points in that part of Nevada on, north, and south of a line beginning at the Idaho-Nevada State line extending along Nevada Highway 51 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction Nevada Highway 21, thence along Nevada Highway 21 to junction Nevada Highway 8A, thence along Nevada Highway 8A to junction U.S. Highway 6, thence along U.S. Highway 6 to the Nevada-California State line; to points in that part of Idaho on and northwest of a line beginning at the Wyoming-Idaho State line extending along U.S. Highway 20/191 to junction Interstate Highway 15, thence along Interstate Highway 15 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Idaho Highway 51, thence along Idaho Highway 51 to the Idaho-Nevada State line; and to points in Washington, Oregon, and North Dakota, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of that part of the Fargo, N. Dak., commercial zone located in Moorhead, Minn.

No. MC 114211 (Sub-No. E572), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery and parts thereof*, each weighing 15,000 pounds or more, from points in that part of Missouri on and south of a line beginning at the Kansas-Missouri State line, thence along U.S. Highway 24 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 36 thence along U.S. Highway 36 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction Missouri Highway 6, thence along Missouri Highway 6 to junction Missouri Highway 15, thence along Missouri Highway 15 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Missouri-Illinois State line to points in that part of Montana on and north of a line beginning at the North Dakota-Montana State line thence along U.S. Highway 12 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction Montana Highway 41 to junction Interstate Highway 15 thence along Interstate Highway 15 to junction Beaverhead County Highway 324 to the Montana-Idaho State line, and to points in that part of Idaho on and north of a line beginning at the Montana-Idaho State line, thence along the southern boundary of Idaho County to the Idaho-Oregon State line, and to points in that part of Oregon on and north of a line beginning at the Washington-Oregon State line, thence along Oregon Highway 11 to junction Interstate Highway 80, thence along Interstate Highway 80 to junction Interstate Highway 5, thence along Interstate Highway 5 to junction Oregon Highway 126, Florence, Oreg., and to points in Washington and North Dakota, with no transportation for compensation on return except as otherwise authorized restricted to commodities which are transported on trailers. The purpose of this filing is to eliminate the gateways of Minneapolis, Minnesota and points in Iowa.

No. MC 114211 (Sub-No. E573), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe and fittings and accessories therefor* when moving with such pipe, from points in that part of Indiana on and south of a line beginning at the Illinois-Indiana State line extending along U.S. Highway 40 to the Indiana-Ohio State line, and points in that part of Kentucky on and west of a line beginning at the Ohio-Kentucky State line extending along U.S. Highway 127 to the Tennessee-Kentucky State line, to points in that part of Nebraska on, north, and west of a line beginning at the Iowa-Nebraska State line extending along Interstate Highway 80 to junction U.S. Highway 77, thence along U.S. Highway 77 to junction U.S. Highway 136, thence along U.S. Highway 136 to junction Nebraska Highway 15, thence along Nebraska Highway 15 to junction Nebraska Highway 8, thence along Nebraska Highway 8 to junction U.S. Highway 81, thence along U.S. Highway 81 to the Nebraska-Kansas State line; to points in that part of Kansas on, west, and north of a line beginning at the Nebraska-Kansas State line extending along U.S. Highway 77 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 183, thence along U.S. Highway 183 to junction Kansas Highway 9, thence along Kansas Highway 9 to junction U.S. Highway 83, thence along U.S. Highway 83 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Kansas-Colorado State line; to points in that part of Colorado on and north of a line beginning at the Kansas-Colorado State line extending along U.S. Highway 24 to junction Colorado Highway 115, thence along Colorado Highway 115 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 285, thence along U.S. Highway 285 to junction Colorado Highway 17, thence along Colorado Highway 17 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction U.S. Highway 550, thence along U.S. Highway 550 to the Colorado-New Mexico State line; to points in that part of New Mexico on and north of a line beginning at the Colorado-New Mexico State line extending along U.S. Highway 550 to junction New Mexico Highway 504, thence along New Mexico Highway 504 to the New Mexico-Arizona State line; and to points in Montana, North Dakota, Wyoming, South Dakota, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of the plant site of the Griffin Pipe Co., located at or near Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E574), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled, farm machinery and parts thereof*, from points in that part of Minnesota on and north and west of a line beginning at the South Dakota-Minnesota State line, thence along U.S. Highway 12 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Minnesota Highway 25, thence along Minnesota Highway 25 to junction Minnesota Highway 210, thence along Minnesota Highway 210 to junction Minnesota Highway 6, thence along Minnesota Highway 6 to junction U.S. Highway 71, thence along U.S. Highway 71 to the Minnesota-Canada International Boundary line to points in New York, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of the plant site of the Stinai Corporation at Minneapolis, Minnesota.

No. MC 114211 (Sub-No. E575), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road making machinery and contractors' equipment and supplies*, from points in that part of Minnesota on and northwest of a line beginning at the Minnesota-South Dakota State line extending along U.S. Highway 12 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Minnesota Highway 25, thence along Minnesota Highway 25 to junction Minnesota Highway 210, thence along Minnesota Highway 210 to junction Minnesota Highway 6, thence along Minnesota Highway 6 to junction U.S. Highway 71, thence along U.S. Highway 71 to the United States-Canada International Boundary line, to points in Maine, Vermont, New Hampshire, Rhode Island, Ohio, West Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Arkansas, Tennessee, Kentucky, Indiana, Illinois, Arizona, Highway 96, thence along Interstate 21 to the United States-Canada International Boundary line, to points in that and to points in that part of California on and south of a line beginning at the Nevada-California State line extending along U.S. Highway 6 to junction U.S. Highway 395, thence along U.S. Highway 395 to junction California Highway 120, thence along California Highway 120 to junction California Highway 140, thence along California Highway 140 to junction

California Highway 99, thence along California Highway 99 to junction California Highway 32, thence along California Highway 32 to junction Interstate Highway 5, thence along Interstate Highway 5 to junction California Highway 20, thence along California Highway 20 to Ft. Bragg, Calif., to points in that part of Nevada on and south of a line beginning at the Nevada-Utah State line extending along New York Highway 25 to junction U.S. Highway 6, thence along U.S. Highway 6 to the Nevada-California State line; and to points in that part of Utah on and west of a line beginning at the Utah-Nevada State line extending along Utah Highway 56 to junction Utah Highway 14, thence along Utah Highway 14 to junction U.S. Highway 89, thence along U.S. Highway 89 to the Utah-Arizona State line; to points in that part of Colorado on and south of a line beginning at the Colorado-New Mexico State line extending along U.S. Highway 160 to junction U.S. Highway 84.

Thence along U.S. Highway 84 to the Colorado-New Mexico State line; to points in that part of New Mexico on and southwest of a line beginning at the New Mexico-Colorado State line extending along U.S. Highway 84, thence along U.S. Highway 84 to the New Mexico-Texas State line; to points in that part of Texas on and south of a line beginning at the Texas-New Mexico State line extending along U.S. Highway 84 to junction U.S. Highway 82, thence along U.S. Highway 82 to junction U.S. Highway 75, thence along U.S. Highway 75 to the Texas-Oklahoma State line; to points in that part of Oklahoma on and east of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 69 to junction Interstate Highway 44, thence along Interstate Highway 44 to the Oklahoma-Missouri State line; to points in that part of Kansas on and east of a line beginning at the Kansas-Missouri State line extending along U.S. Highway 66 to junction Kansas Highway 26, thence along Kansas Highway 26 to junction U.S. Highway 69, thence along U.S. Highway 69 to the Kansas-Missouri State line; to points in that part of Missouri on and east of a line beginning at the Missouri-Kansas State line extending along U.S. Highway 69, thence along U.S. Highway 69 to the Missouri-Iowa State line; to points in that part of Iowa on and east of a line beginning at the Iowa-Missouri State line extending along U.S. Highway 69 to junction Iowa Highway 3, thence along Iowa Highway 3 to junction U.S. Highway 65, thence along U.S. Highway 65 to the Iowa-Minnesota State line; to points in that part of Michigan on and south of a line beginning at Lake Michigan extending along U.S. Highway 10 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction Interstate Highway 96 to junction Michigan Highway 21, thence along Michigan Highway part of Wisconsin on and south of a line beginning at the Wisconsin-Minnesota State line extending along U.S. Highway 12 to junction Interstate Highway 94, thence along Interstate Highway 94 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 41, thence along U.S. Highway 41 to Green Bay, Wis., with no compensation for transportation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E576), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe* (other than pipe used in or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas, and petroleum, and their products and by-products and by-products) and *fittings and accessories* therefor when moving with such pipe, the transportation of which, because of size or weight, requires special equipment, from points in Missouri to points in that part of Utah on and north of a line beginning at the Arizona-Utah State line thence along U.S. Highway 91 to junction Utah Highway 4, thence along Utah Highway 4 to junction U.S. Highway 89, thence along U.S. Interstate Highway 89 to junction Interstate Highway 70 thence along Interstate Highway 70 to junction U.S. Highway 173, thence along U.S. Highway 163 to junction Utah Highway 46, thence along Utah Highway 46 to the Utah-Colorado State line and to points in Idaho, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Council Bluffs, Iowa.

No. MC 119641 (Sub-No. E3), filed May 9, 1974. Applicant: RINGLE EXPRESS, INC., P.O. Box 335, Moline, Ill. 61265. Applicant's representative: Robert C. Doran (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Insulating, insulating materials, siding and siding materials*, from Lockland, Ohio, to points in Iowa (except Mose within one mile of the Mississippi River, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Lowell, Ind.

No. MC 119988 (Sub-No. E28), filed June 3, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., P.O. Box 1384, Lufkin, Texas 75902. Applicant's representative: Joe E. Kinard, 201 W. Commerce St., Dallas, Texas 75208. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Printed advertising matter*, and (2) *newspaper supplements*, otherwise exempt from economic regulation under section 203(b)(7) of the Interstate Commerce Commission Act when transported in mixed loads with printed advertising matter, from the facilities of the Oklahoma Publishing Co., Web Offset Division, at or near Oklahoma City, Okla., to points in Louisiana. The purpose of this filing is to eliminate the gateway of that part of Texas on and east of a line begining at the Texas-Oklahoma State line and extending along U.S. Highway 81 to junction U.S. Highway 181, thence along U.S. Highway 181 to the Gulf of Mexico.

No. MC 119988 (Sub-No. E117), filed June 3, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., P.O. Box 1384, Lufkin, Tex. 75902. Applicant's representative: Joe E. Kinard, 201 W. Commerce St., Dallas, Tex. 75208. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Printed advertising matter*, and (2) *newspaper supplements* otherwise exempt from economic regulation under Section 203(b)(7) of the Interstate Commerce Act when transported in mixed loads with printed advertising matter, from points in that part of Texas on and east of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 81 to junction U.S. Highway 181, thence along U.S. Highway 181 to the Gulf of Mexico, to points in New York. The purpose of this filing is to eliminate the gateway of Montgomery County, Kans.

No. MC 119988 (Sub-No. E119), filed June 3, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., P.O. Box 1384, Lufkin, Tex. 75902. Applicant's representative: Joe E. Kinard, 201 W. Commerce St., Dallas, Tex. 75208. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *printed advertising matter*, and (2) *newspaper supplements* otherwise exempt from economic regulation under section 203(b)(7) of the Interstate Commerce Act when transported in mixed loads with printed advertising matter, from points in that part of Texas on and east of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 81 to junction U.S. Highway 181, thence along U.S. Highway 181 to the Gulf of Mexico, to points in New Hampshire. The purpose of this filing is to eliminate the gateway of Montgomery County, Kans.

No. MC 119988 (Sub-No. E120), filed June 3, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., P.O. Box 1384, Lufkin, Tex. 75902. Applicant's representative: Joe E. Kinard, 201 W. Commerce St., Dallas, Tex. 75208. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Printed advertising matter*, and (2) *newspaper supplements* otherwise exempt from economic regulation under section 203(b)(7) of the Interstate Commerce Act when transported in mixed loads with printed advertising matter, from points in that part of Texas on and east of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 81 to junction U.S. Highway 181, thence along U.S. Highway 181 to the Gulf of Mexico, to points in Vermont. The purpose of this filing is to eliminate the gateway of Montgomery County, Kans.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER F—QUARANTINE, INSPECTION, LICENSING

PART 72—INTERSTATE QUARANTINE

Transfer of Regulations

The Commissioner of Food and Drugs, for the purpose of establishing an orderly development of informative regulations coordinated and consolidated under Chapter I of Title 21 of the Code of Federal Regulations, is transferring sections of 42 CFR Part 72 appropriate to his function under the Public Health Service and Federal Food, Drug, and Cosmetic Acts, and reorganizing and recodifying them under 21 CFR Parts 1240 and 1250.

The seventh in a series of recodification documents, which is also the third document transferring regulations from Chapter I of Title 42 to Chapter I of Title 21, appears elsewhere in this issue of the FEDERAL REGISTER. Sections 72.1, 72.25, and 72.201 through 72.207 remain behind in Title 42 of the Code of Federal Regulations. An extracted version of § 72.1 has been added to Title 21 under 21 CFR 1240.3 and 1250.3.

Therefore, the regulations appropriate to Food and Drug Administration function, formerly appearing in Part 72 of Chapter I of Title 42 of the Code of Federal Regulations, are hereby transferred to Chapter I of Title 21 and redesignated as Parts 1240 and 1250 of that chapter. Accordingly, the sections so affected in Part 72 are hereby vacated.

Effective date. This transfer of regulations becomes effective February 6, 1975.

Dated: January 30, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

[Recodification Docket No. 7]

SUBCHAPTER L—REGULATIONS UNDER CERTAIN OTHER ACTS ADMINISTERED BY THE FOOD AND DRUG ADMINISTRATION

PART 1240—CONTROL OF COMMUNICABLE DISEASES

PART 1250—INTERSTATE CONVEYANCE SANITATION

Transfer of Regulations

The Commissioner of Food and Drugs, for the purpose of establishing an orderly development of informative regulations for the Food and Drug Administration, has initiated a recodification program for Chapter I of Title 21 of the Code of Federal Regulations. This is the seventh in a series of recodification documents that will eventually include all regulations administered by the Food and Drug Administration.

It is also the third document transferring regulations from Chapter I of Title 42 of the Code of Federal Regulations to Chapter I of Title 21, effected for the purpose of coordinating and consolidating under one title of the Code the regulatory responsibility of the Commissioner of Food and Drugs under the Public Health Service and Federal Food, Drug, and Cosmetic Acts.

Only the sections of 42 CFR Part 72 appropriate to Food and Drug Administration function have been transferred; §§ 72.1, 72.25, and 72.201 through 72.207 remain behind. New §§ 1240.3 and 1250.3 (21 CFR 1240.3 and 1250.3), an extracted form of 42 CFR 72.1, have been added to reflect the definitions which apply to both material being transferred to Title 21 and material remaining in Title 42. In the interest of clarity, the transferred sections have been organized into two parts, Part 1240—Control of Communicable Diseases and Part 1250—Interstate Conveyance Sanitation. The changes being made are nonsubstantive in nature and for this reason notice and public procedure are not prerequisites to this publication. The following table shows the relationship of the regulations under their assigned section numbers in 42 CFR Part 72 prior to this republication, and their redesignations reflected in 21 CFR Parts 1240 and 1250:

Old section	*New section*	*Old section*	*New section*
72.1 (extracted)	1240.3, 1250.3	72.133	1250.62
72.2	1240.54	72.134	1250.63
72.3	1240.30	72.135	1250.65
72.4	1240.10	72.136	1250.67(a)
72.11	1240.40	72.137	1250.67(b)
72.12	1240.50	72.139	1250.67(c)
72.13	1240.55	72.140	1250.70
72.14	1240.57	72.141	1250.75
72.15	1240.45	72.142	1250.79
72.21	1240.70	72.146	1250.40
72.22	1240.65	72.147	1250.41
72.23	1240.75	72.148	1250.42
72.24	1240.60	72.149	1250.44
72.26	1240.62	72.150	1250.50
72.101	1240.80	72.151	1250.45
72.102	1240.83	72.152	1250.49
72.103	1240.90	72.153	1250.43
72.104	1240.95	72.154	1250.51
72.105	1240.86	72.155	1250.53
72.111	1250.80	72.156	1250.52
72.112	1250.81	72.161	1250.20
72.113	1250.82	72.162	1250.21
72.114	1250.83	72.163	1250.22
72.115	1250.84	72.164	1250.25
72.116	1250.86	72.165	1250.26
72.117	1250.85	72.166	1250.27
72.118	1250.87	72.167	1250.28
72.119	1250.89	72.168	1250.30
72.120	1250.90	72.169	1250.33
72.121	1250.93	72.170	1250.34
72.122	1250.95	72.171	1250.39
72.123	1250.96	72.172	1250.38
72.131	1250.60	72.173	1250.32
72.132	1250.61	72.174	1250.35
		72.181	1240.20

Therefore, Parts 1240 and 1250, formerly appearing in Part 72 of Title 42, are hereby added to Subchapter L of Chapter I of Title 21 of the Code of Federal Regulations, without substantive change, to read as set forth below.

Dated: January 30, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

PART 1240—CONTROL OF COMMUNICABLE DISEASES

Subpart A—General Provisions

Sec.
1240.3 General definitions.
1240.10 Effective bactericidal treatment.

Subpart B—Administrative Procedures

1240.20 Issuance and posting of certificates following inspections.
1240.30 Measures in the event of inadequate local control.

Subpart C—Restrictions on Travel of Persons

1240.40 All communicable diseases.
1240.45 Report of disease.
1240.50 Certain communicable diseases; special requirements.
1240.54 Apprehension and detention of persons with specific diseases.
1240.55 Responsibility with respect to minors, wards, and patients.
1240.57 Members of military and naval forces.

Subpart D—Specific Administrative Decisions Regarding Interstate Shipments

1240.60 Shellfish.
1240.62 Turtles.
1240.65 Pattacine birds.
1240.70 Lather brushes.
1240.75 Garbage.

Subpart E—Source and Use of Potable Water

1240.80 General requirements for water for drinking and culinary purposes.
1240.83 Approval of watering points.
1240.86 Protection of pier water system.
1240.90 Approval of treatment aboard conveyances.
1240.95 Sanitation of water boats.

AUTHORITY: Secs. 215, 361, 58 Stat. 690, 703, as amended; (42 U.S.C. 216, 264).

Subpart A—General Provisions

§ 1240.3 General definitions.

As used in this part, terms shall have the following meaning:

(a) *Bactericidal treatment.* The application of a method or substance for the destruction of pathogens and other organisms as set forth in § 1240.10.

(b) *Communicable diseases.* Illnesses due to infectious agents or their toxic products, which may be transmitted from a reservoir to a susceptible host either directly as from an infected person or animal or indirectly through the agency of an intermediate plant or animal host, vector, or the inanimate environment.

(c) *Communicable period.* The period or periods during which the etiologic agent may be transferred directly or indirectly from the body of the infected person or animal to the body of another.

(d) *Contamination.* The presence of a certain amount of undesirable substance or material, which may contain pathogenic microorganisms.

(e) *Conveyance.* Conveyance means any land or air carrier, or any vessel as defined in paragraph (n) of this section.

(f) *Garbage.* (1) The solid animal and vegetable waste, together with the natural moisture content, resulting from the handling, preparation, or consumption of foods in houses, restaurants, hotels, kitchens, and similar establishments, or (2) any other food waste containing pork.

(g) *Incubation period.* The period between the implanting of disease organisms in a susceptible person and the appearance of clinical manifestation of the disease.

(h) *Interstate traffic.* (1) The movement of any conveyance or the transportation of persons or property, including any portion of such movement or transportation which is entirely within a State or possession, (i) from a point of origin in any State or possession to a point of destination in any other State or possession, or (ii) between a point of origin and a point of destination in the same State or possession but through any other State, possession, or contiguous foreign country.

(2) Interstate traffic does not include the following:

(i) The movement of any conveyance which is solely for the purpose of unloading persons or property transported from a foreign country, or loading persons or property for transportation to a foreign country.

(ii) The movement of any conveyance which is solely for the purpose of effecting its repair, reconstruction, rehabilitation, or storage.

(i) *Minimum heat treatment.* The causing of all particles in garbage to be heated to a boiling temperature and held at that temperature for a period of not less than 30 minutes.

(j) *Possession.* Any of the possessions of the United States, including Puerto Rico and the Virgin Islands.

(k) *Potable water.* Water which meets the standards prescribed in the Public Health Service Drinking Water Standards as set forth in 42 CFR 72.201 through 72.207.

(l) *State.* Any State, the District of Columbia, Puerto Rico and the Virgin Islands.

(m) *Utensil.* Includes any kitchenware, tableware, glassware, cutlery, containers, or equipment with which food or drink comes in contact during storage, preparation, or serving.

(n) *Vessel.* Any passenger-carrying, cargo, or towing vessel exclusive of:

(1) Fishing boats including those used for shell-fishing;

(2) Tugs which operate only locally in specific harbors and adjacent waters;

(3) Barges without means of self-propulsion;

(4) Construction-equipment boats and dredges; and

(5) Sand and gravel dredging and handling boats.

(o) *Watering point.* The specific place or water boat from which potable water is loaded on a conveyance.

(p) *Shellfish.* Any fresh, frozen, or incompletely cooked oysters, clams, or mussels, either shucked or in the shell, and any fresh, frozen, or incompletely cooked edible products thereof.

§ 1240.10 Effective bactericidal treatment.

Whenever, under the provisions of this part, bactericidal treatment is required, it shall be accomplished by one or more of the following methods:

(a) By immersion of the utensil or equipment for at least 2 minutes in clean hot water at a temperature of at least 170° F or for one-half minute in boiling water;

(b) By immersion of the utensil or equipment for at least 2 minutes in a lukewarm chlorine bath containing at least 50 ppm of available chlorine if hypochlorites are used or a concentration of equal bactericidal strength if chloramines are used;

(c) By exposure of the utensil or equipment in a steam cabinet at a temperature of at least 170° F for at least 15 minutes or at a temperature of 200° F for at least 5 minutes;

(d) By exposure of the utensil or equipment in an oven or hot air cabinet at a temperature of at least 180° F for at least 20 minutes;

(e) In the case of utensils or equipment so designed or installed as to make immersion or exposure impractical, the equipment may be treated for the prescribed periods of time either at the temperatures or with chlorine solutions as specified above, (1) with live steam from a hose if the steam can be confined, (2) with boiling rinse water, or (3) by spraying or swabbing with chlorine solution;

(f) Any other method determined by the Surgeon General, upon application of an owner or operator of a conveyance, to be effective to prevent the spread of communicable disease.

Subpart B—Administrative Procedures

§ 1240.20 Issuance and posting of certificates following inspections.

The Surgeon General may issue certificates based upon inspections provided for in this part and Part 1250. Such certificates shall be prominently posted on conveyances.

§ 1240.30 Measures in the event of inadequate local control.

Whenever the Surgeon General determines that the measures taken by health authorities of any State or possession (including political subdivisions thereof) are insufficient to prevent the spread of any of the communicable diseases from such State or possession to any other State or possession, he may take such measures to prevent such spread of the diseases as he deems reasonably necessary, including inspection, fumigation, disinfection, sanitation, pest extermination, and destruction of animals or articles believed to be sources of infection.

Subpart C—Restrictions on Travel of Persons

§ 1240.40 All communicable diseases.

A person who has a communicable disease in the communicable period shall not travel from one State or possession to another without a permit from the health officer of the State, possession, or locality of destination, if such permit is required under the law applicable to the place of destination. Stop-overs other than those necessary for transportation connections shall be considered as places of destination.

§ 1240.45 Report of disease.

The master of any vessel or person in charge of any conveyance engaged in interstate traffic, on which a case or suspected case of a communicable disease develops shall, as soon as practicable, notify the local health authority at the next port of call, station, or stop, and shall take such measures to prevent the spread of the disease as the local health authority directs.

§ 1240.50 Certain communicable diseases; special requirements.

The following provisions are applicable with respect to any person who is in the communicable period of cholera, plague, smallpox, typhus or yellow fever, or who, having been exposed to any such disease, is in the incubation period thereof:

(a) *Requirements relating to travelers.* (1) No such person shall travel from one State or possession to another, or on a conveyance engaged in interstate traffic, without a written permit of the Surgeon General or his authorized representative.

(2) Application for a permit may be made directly to the Surgeon General or to his representative authorized to issue permits.

(3) Upon receipt of an application, the Surgeon General or his authorized representative shall, taking into consideration the risk of introduction, transmission, or spread of the disease from one State or possession to another, reject it, or issue a permit which may be conditioned upon compliance with such precautionary measures as he shall prescribe.

(4) A person to whom a permit has been issued shall retain it in his possession throughout the course of his authorized travel and comply with all conditions prescribed therein, including presentation of the permit to the operators of conveyances as required by its terms.

(b) *Requirements relating to operation of conveyances.* (1) The operator of any conveyance engaged in interstate traffic shall not knowingly (i) accept for transportation any person who fails to present a permit as required by paragraph (a) of this section, or (ii) transport any person in violation of conditions prescribed in his permit.

(2) Whenever a person subject to the provisions of this section is transported on a conveyance engaged in interstate traffic, the operator thereof shall take such measures to prevent the spread of

XUM
V40-26
FEB 6 75
XUM

the disease, including submission of the conveyance to inspection, disinfection and the like, as an officer of the Public Health Service designated by the Surgeon General for such purposes deems reasonably necessary and directs.

§ 1240.54 Apprehension and detention of persons with specific diseases.

Regulations prescribed in Parts 1240 and 1250 are not applicable to the apprehension, detention, or conditional release of individuals except for the purpose of preventing the introduction, transmission, or spread of the following diseases: Anthrax, chancroid, cholera, dengue, diphtheria, granuloma inguinale, infectious encephalitis, favus, gonorrhea, leprosy, lymphogranuloma venereum, meningococcus meningitis, plague, poliomyelitis, psittacosis, relapsing fever, ringworm of the scalp, scarlet fever, streptococcic sore throat, smallpox, syphilis, trachoma, tuberculosis, typhoid fever, typhus, and yellow fever.

§ 1240.55 Responsibility with respect to minors, wards, and patients.

A parent, guardian, physician, nurse, or other such person shall not transport, or procure or furnish transportation for any minor child or ward, patient or other such person who is in the communicable period of a communicable disease, except in accordance with provisions of this subpart.

§ 1240.57 Members of military and naval forces.

The provisions of §§ 1240.40, 1240.45, 1240.50, 1240.55 and 1240.57 shall not apply to members of the military or naval forces, and medical care or hospital beneficiaries of the Army, Navy, Veterans' Administration, or Public Health Service, when traveling under competent orders: *Provided*, That in the case of persons otherwise subject to the provisions of § 1240.50 the authority authorizing the travel requires precautions to prevent the possible transmission of infection to others during the travel period.

Subpart D—Specific Administrative Decisions Regarding Interstate Shipments

§ 1240.60 Shellfish.

A person shall not offer for transportation, or transport, in interstate traffic any shellfish handled or stored in such an insanitary manner, or grown in an area so contaminated, as to render such shellfish likely to become agents in, and their transportation likely to contribute to the spread of communicable disease from one State or possession to another.

§ 1240.62 Turtles.

(a) *Definitions.* As used in this section:

(1) The term "turtles" includes all animals commonly known as turtles, tortoises, terrapins, and all other animals of the order *Testudinata*, class *Reptilia* except marine species (families *Dermachelidae* and *Chelonidae*).

(2) The term "State of origin" as used in paragraph (b) of this section means the State or possession in which the turtles or turtle eggs were originally hatched or produced.

(b) *Interstate shipment; general prohibition.* Except as otherwise provided in this section, viable turtle eggs and live turtles with a carapace length of less than 4 inches shall not be transported or offered for sale after shipment in interstate commerce, unless the shipment is accompanied by a certificate issued by the health authority of the State of origin certifying that each shipment of live turtles or viable turtle eggs is free of bacteria of the *Salmonella* and *Arizona* genera. After shipment in interstate commerce the same intact shipment of live turtles or viable turtle eggs shall not require further such certification under provisions of this section; however, if at any subsequent point in its distribution such shipment becomes commingled or intermingled with a lot that has not been so certified, then such turtles or turtle eggs shall not be offered for sale or further transported in interstate commerce unless the entire lot has been tested and certified free of bacteria of the *Salmonella* and *Arizona* genera by the health authority of the State or possession in which such commingling or intermingling occurred.

(c) *Certification; test procedures.* Certification of freedom from bacteria of the *Salmonella* and *Arizona* genera may be issued by the health authority of the appropriate State or possession on the basis of the examination of 60 turtles or 60 turtle eggs from each shipment, regardless of the size of the shipment. The examination shall be conducted in a laboratory licensed in microbiology pursuant to section 353 of the Public Health Service Act and shall utilize the following procedure adapted from "Official Methods of Analysis of the Association of Official Analytical Chemists," 11th ed. 1970, sections 41.024–41.040, pages 845–851.[1]

(1) Place five turtles in each of 12 sterile glass containers with a capacity of 1,000 milliliters. Larger capacity containers should be used if necessary to avoid overcrowding.

(2) Add 50 milliliters of sterile distilled water to each of the containers of turtles.

(3) Cover each container with sterile aluminum foil and hold the turtles in the containers at room temperature, about 25° C for at least 72 hours.

(4) Do not remove the foil cover or add food, water, or other materials to the containers during the holding period.

(5) After a minimum of 72 hours remove the turtles from the containers using a sterile forceps.

(6) For each of the 12 containers transfer 1 milliliter of the residual water into a separate tube containing 10 milliliters of tetrathionate broth, with iodine and brilliant green, and incubate these 12 tetrathionate enrichment cultures for 24 hours at 35° to 37° C.

(7) After 24 hours incubation, subculture each of the 12 tetrathionate enrichment cultures to brilliant green agar and complete isolation and identification according to methods specified in "Official Methods of Analysis of the Association of Official Analytical Chemists," 11th ed. 1970, section 41.024–41.040, pages 845–851.[1]

(8) In the examination of turtle eggs, rinse 60 eggs with sterile distilled water to remove visible extraneous matter from the shells. Place the 60 cleansed eggs into a sterile blender cup. Replace blender lid and homogenize eggs for 2 minutes at low speed. Transfer 1 milliliter of the blended egg material into 10 milliliters of tetrathionate broth, and proceed as in paragraphs (c) (6) and (7) of this section.

(9) Upon completion of the laboratory examination, the examining laboratory shall submit a report to the health officer of the appropriate State or possession, or his delegated representative. The laboratory report shall specify the name and address of the producer or shipper (consignor) and of the consignee, the number and species of turtles or turtle eggs intended for interstate shipment, and the results of the examination, and it shall be signed by the examining microbiologist or director of the examining laboratory. Certification of freedom from bacteria of the *Salmonella* and *Arizona* genera may be issued if, to the satisfaction of the health authority of the appropriate State or possession, the laboratory examination has been performed according to the procedure specified in this section, and all specimens examined were free of bacteria of the *Salmonella* and *Arizona* genera.

(d) *Destruction of turtles or turtle eggs; criminal penalties*—(1) *Destruction.* Any live turtles or viable turtle eggs which have been transported in interstate commerce without a certificate required by paragraph (b) of this section, and any live turtles or viable turtle eggs which are held for sale or offered for any other type of commercial or public distribution and are found to contain bacteria of the *Salmonella* or *Arizona* genera when sampled and tested by a method appropriate for determination of the presence of such bacteria in the turtles or turtle eggs, and any live turtles or viable turtle eggs which are held for sale or offered for any other type of commercial or public distribution and are found to be held in water which contains bacteria of the *Salmonella* or *Arizona* genera when tested by an appropriate method, shall be subject to destruction, by or under the supervision of an officer or employee of the Food and Drug Administration in accordance with the following procedures:

(i) Any District Office of the Food and Drug Administration, upon detecting live turtles or viable turtle eggs which have been transported in interstate commerce without a certificate required by paragraph (b) of this section, or which are held for sale or offered for any other type of commercial or public distribution and which contain, or are held in water containing, bacteria of the *Salmonella* or *Arizona* genera, shall serve upon the person in whose possession such turtles or turtle eggs are found a written demand that such turtles or turtle eggs be destroyed, under the supervision of said District Office, within 10 working days from the date of promulgation of the demand. The demand shall recite with particularity the facts which justify the demand. After service of the demand, the person in possession of the turtles or turtle eggs shall not sell, distribute, or otherwise dispose of any of the turtles or turtle eggs except to destroy them under the supervision of the District Office, unless and until the Director of the Bureau of Foods withdraws the demand for destruction after an appeal pursuant to paragraph (d) (1) (ii) of this section.

(ii) The person on whom the demand for destruction is served may either comply with the demand or, within 10 working days from the date of its promulgation, appeal the demand for destruction to the Director of the Bureau of Foods, Food and Drug Administration. The demand for destruction may also be appealed, within the same period of 10 working days, by any other person having a pecuniary interest in such turtles or turtle eggs. In the event of such an appeal, the Bureau Director shall provide an opportunity for a hearing, by written notice to the appellant(s) specifying a time and place for the hearing, to be held within 14 days from the date of the notice but not within less than 7 days unless by agreement with the appellant(s).

(iii) Appearance by any appellant at the hearing may be by mail or in person, with or without counsel. The hearing shall be conducted by the Bureau Director or his designee, and a written summary of the proceedings shall be prepared by the person presiding. Any appellant shall have the right to hear and to question the evidence on which the demand for destruction is based, including the right to cross-examine witnesses, and he may present oral or written evidence in response to the demand.

(iv) If, based on the evidence presented at the hearing, the Bureau Director finds that the turtles or turtle eggs were transported in interstate commerce without a certificate in violation of this section, or that the turtles or turtle eggs were held for sale or offered for any other type of commercial or public distribution and that they contain, or are held in water which contains, bacteria of the *Salmonella* or *Arizona* genera, the Bureau Director shall affirm the demand that they be destroyed under the supervision of an officer or employee of the Food and Drug Administration; otherwise, the Bureau Director shall issue a written notice that the prior demand by the District Office is withdrawn. If the Bureau Director affirms the demand for destruction he shall order that the destruction be accomplished within 10 working days from the date of the promulgation of his decision. The Bureau Director's decision shall be accompanied by a statement of the reasons for the decision. The decision of the Bureau Director shall constitute final agency action, appealable in the courts.

(v) If there is no appeal to the Director of the Bureau of Foods from the demand by the FDA District Office and the person in possession of the turtles or turtle eggs fails to destroy them within 10 working days, or if the demand is affirmed by the Director of the Bureau of Foods after an appeal and the person in possession of the turtles or turtle eggs fails to destroy them within 10 working days, the District Office shall designate an officer or employee to destroy the turtles or turtle eggs. It shall be unlawful to prevent or to attempt to prevent such destruction of turtles or turtle eggs by the officer or employee designated by the District Office. Such destruction will be stayed if so ordered by a court pursuant to an appeal in the courts as provided in paragraph (d) (1) (iv) of this section.

(2) *Criminal penalties.* Any person who violates any provision of this section, including but not limited to any person who transports live turtles or viable turtle eggs in interstate commerce without a certificate required by paragraph (b) of this section, or who offers for sale, live turtles or viable turtle eggs which have been transported in interstate commerce without such a certificate, or who refuses to comply with a valid final demand for destruction of turtles or turtle eggs, i.e., either an unappealed demand by an FDA District Office or a demand which has been affirmed by the Director of the Bureau of Foods pursuant to appeal, shall be subject to a fine of not more than $1,000 or imprisonment for not more than 1 year, or both, for each violation, in accordance with section 368 of the Public Health Service Act (42 U.S.C. 271).

(e) *Exceptions.* The provisions of this section are not applicable to:

(1) Live turtles and viable turtle eggs used for bona fide scientific, educational, or exhibitional purposes, other than use as pets.

(2) Lots of less than seven live turtles or less than seven viable turtle eggs or any combination of such turtles and turtle eggs totaling less than seven.

(3) Marine turtles excluded from this regulation under the provisions of paragraph (a) (1) of this section and eggs of such turtles.

§ 1240.65 Psittacine birds.

(a) The term psittacine birds shall include all birds commonly known as parrots, Amazons, Mexican double heads, African grays, cocatoos, macaws, parakeets, love birds, lories, lorikeets, and all other birds of the psittacine family.

(b) No person shall transport, or offer for transportation, in interstate traffic any psittacine bird unless the shipment is accompanied by a permit from the State health department of the State of destination where required by such department.

(c) Whenever the Surgeon General finds that psittacine birds or human beings in any area are infected with psittacosis and there is such danger of transmission of psittacosis from such area as to endanger the public health, he may declare it an area of infection. No person shall thereafter transport, or offer for transportation, in interstate traffic any psittacine bird from such area, except shipments authorized by the Surgeon General for purposes of medical research and accompanied by a permit issued by him, until the Surgeon General finds that there is no longer any danger of transmission of psittacosis from such area. As used in this paragraph, the term "area" includes, but is not limited to, specific premises or buildings.

§ 1240.70 Lather brushes.

(a) *General requirements.* A person shall not transport, or offer for transportation by the owner or operator of a conveyance, nor shall the owner or operator of a conveyance knowingly transport for another person, in interstate traffic lather brushes made from animal hair or bristles unless:

(1) Such brushes have been imported in compliance with the provisions of 42 CFR 71.151; or

(2) Such brushes have been manufactured in the United States, its territories, or possessions in compliance with the provisions of paragraphs (b), (c), (d), (e), and (f) of this section.

(b) *Treatment.* The hair or bristles used in such brushes, if other than badger hair, shall be subjected to sterilization or to a treatment found by the Surgeon General, upon application of an interested person and the submission by such person of supporting data, to be effective to destroy anthrax spores in the hair or bristles to be treated. Badger hair shall be subject to the requirement of sterilization or other treatment only if the Surgeon General finds, and so notifies the manufacturer, that the hair was secured from areas, or has been stored or handled under circumstances, likely to render it an agent in the spread of communicable diseases from one State or possession to another.

(c) *Sterilization.* Sterilization shall consist of:

(1) Exposure to steam under pressure in an autoclave at a minimum temperature of 120° C (248° F) for 15 minutes for bristles and 20 minutes for hair; or

(2) Exposure to streaming steam in an autoclave (not under pressure) at 100° C (212° F) for 30 minutes for bristles and 40 minutes for hair.

In either case, the steam temperature shall be measured in the exhaust line at its exit from the autoclave by an indicating thermometer found by the Surgeon General to give reasonable assurance of accuracy, and by a recording thermometer adjusted to read no higher at any time than the indicating thermometer. The time of exposure shall be measured from the moment at which the indicating thermometer reaches the specified sterilization temperature. Record-

[1] Copies may be obtained from: Association of Official Analytical Chemists, P.O. Box 540, Benjamin Franklin Station, Washington, DC 20044.

XUM V40126 FEB 6 75 XUM

ing thermometer charts for each sterilization shall be kept readily available. The hair or bristles shall be sterilized in tied or wrapped bundles not exceeding 2½ inches in diameter and 5 inches in length, or in untied and unwrapped lots not exceeding 2½ inches in depth. The bundle or lots shall be placed on racks or trays in single layers, with the racks or trays separated from each other sufficiently to assure free circulation of the steam and the exposure of all the hair or bristles to such steam. If the hair or bristles are placed in the autoclave in wrapped bundles, the ends of the bundles shall be left open.

(d) *Handling and storage.* Hair or bristles which have been treated, by sterilization or otherwise, shall be marked with the date of treatment, the method used, and name and location of the establishment at which treatment occurred, and shall be so handled and stored as to prevent their contamination or recontamination with anthrax spores.

(e) *Identifying marks.* Lather brushes shall be marked permanently with the name of the manufacturer or with an identifying mark of the manufacturer registered with the Surgeon General.

(f) *Inspection.* Persons engaged in processing or other handling of hair or bristles for use in lather brushes manufactured for transportation in interstate traffic and persons engaged in manufacturing such lather brushes from hair or bristles shall permit authorized representatives of the Surgeon General to make at any reasonable time such inspection of the plants or other places, including the equipment, operations, and products thereof, at which such manufacturing, processing or handling is carried on as may be necessary in the judgment of such representatives to determine compliance with the provisions of this section.

§ 1240.75 Garbage.

(a) A person shall not transport, receive, or cause to be transported or received, garbage in interstate traffic and feed such garbage to swine unless, prior to the feeding, such garbage has received minimum heat treatment.

(b) A person transporting garbage in interstate traffic shall not make, or agree to make, delivery thereof to any person with knowledge of the intent or customary practice of such person to feed to swine garbage which has not been subjected to minimum heat treatment.

Subpart E—Source and Use of Potable Water

§ 1240.80 General requirements for water for drinking and culinary purposes.

Only potable water shall be provided for drinking and culinary purposes by any operator of a conveyance engaged in interstate traffic, except as provided in § 1250.84(b) of this chapter. Such water shall either have been obtained from watering points approved by the Surgeon General, or, if treated aboard a conveyance, shall have been subjected to treatment approved by the Surgeon General.

§ 1240.83 Approval of watering points.

(a) The Surgeon General shall approve any watering point if (1) the water supply thereat meets the standards prescribed in the Drinking Water Standards as set forth in 42 CFR 72.201 through 72.207, and (2) the methods of and facilities for delivery of such water to the conveyance and the sanitary conditions surrounding such delivery prevent the introduction, transmission, or spread of communicable diseases.

(b) The Surgeon General may base his approval or disapproval of a watering point upon investigations made by representatives of State departments of health or of the health authorities of contiguous foreign nations.

(c) If a watering point has not been approved, the Surgeon General may permit its temporary use under such conditions as, in his judgment, are necessary to prevent the introduction, transmission, or spread of communicable diseases.

(d) Upon request of the Surgeon General, operators of conveyances shall provide information as to watering points used by them.

§ 1240.86 Protection of pier water system.

No vessel engaged in interstate traffic shall make a connection between its nonpotable water system and any pier potable water system unless provisions are made to prevent backflow from the vessel to the pier.

§ 1240.90 Approval of treatment aboard conveyances.

(a) The treatment of water aboard conveyances shall be approved by the Surgeon General if the apparatus used is of such design and is so operated as to be capable of producing and in fact does produce, potable water.

(b) The Surgeon General may base his approval or disapproval of the treatment of water upon investigations made by representatives of State departments of health or of the health authorities of contiguous foreign nations.

(c) Overboard water treated on vessels shall be from areas relatively free of contamination and pollution.

§ 1240.95 Sanitation of water boats.

No vessel engaged in interstate traffic shall obtain water for drinking and culinary purposes from any water boat unless the tanks, piping, and other appurtenances used by the water boat in the loading, transportation, and delivery of such drinking and culinary water, have been approved by the Surgeon General.

PART 1250—INTERSTATE CONVEYANCE SANITATION

Subpart A—General Provisions

Sec.
1250.3 Definitions.

Subpart B—Food Service Sanitation on Land and Air Conveyances, and Vessels

1250.20 Applicability.
1250.21 Inspection.
1250.22 General requirements.
1250.25 Source identification and inspection of food and drink.
1250.26 Special food requirements.
1250.27 Storage of perishables.
1250.28 Source and handling of ice.
1250.30 Construction, maintenance and use of places where food is prepared, served, or stored.
1250.32 Food-handling operations.
1250.33 Utensils and equipment.
1250.34 Refrigeration equipment.
1250.35 Health of persons handling food.
1250.38 Toilet and lavatory facilities for use of food-handling employees.
1250.39 Garbage equipment and disposition.

Subpart C—Equipment and Operation of Land and Air Conveyances

1250.40 Applicability.
1250.41 Submittal of construction plans.
1250.42 Water systems; constant temperature bottles.
1250.43 Ice.
1250.44 Drinking utensils and toilet articles.
1250.45 Food handling facilities on railroad conveyances.
1250.49 Cleanliness of conveyances.
1250.50 Toilet and lavatory facilities.
1250.51 Discharge of wastes on railroad conveyances.
1250.52 Discharge of wastes on highway conveyances.
1250.53 Discharge of wastes on air conveyances.

Subpart D—Servicing Areas for Land and Air Conveyances

1250.60 Applicability.
1250.61 Inspection and approval.
1250.62 Submittal of construction plans.
1250.63 General requirements.
1250.66 Drainage.
1250.67 Watering equipment.
1250.70 Employee conveniences.
1250.75 Disposal of human wastes.
1250.79 Garbage disposal.

Subpart E—Sanitation Facilities and Conditions on Vessels

1250.80 Applicability.
1250.81 Inspection.
1250.82 Potable water systems.
1250.83 Storage of water prior to treatment.
1250.84 Water in galleys and medical care spaces.
1250.85 Drinking fountains and coolers; ice; constant temperature bottles.
1250.86 Water for making ice.
1250.87 Wash water.
1250.89 Swimming pools.
1250.90 Toilets and lavatories.
1250.93 Discharge of wastes.
1250.95 Insect control.
1250.96 Rodent control.

AUTHORITY: Secs. 215, 361, 58 Stat. 690, 703, as amended; (42 U.S.C. 216, 264).

Subpart A—General Provisions

§ 1250.3 Definitions.

As used in this part, terms shall have the following meaning:

(a) *Bactericidal treatment.* The application of a method or substance for the destruction of pathogens and other organisms as set forth in § 1240.10 of this chapter.

(b) *Communicable diseases.* Illnesses due to infectious agents or their toxic products, which may be transmitted from a reservoir to a susceptible host either directly as from an infected person or animal or indirectly through the agency of an intermediate plant or animal host, vector, or the inanimate environment.

(c) *Communicable period.* The period or periods during which the etiologic agent may be transferred directly or indirectly from the body of the infected person or animal to the body of another.

(d) *Contamination.* The presence of a certain amount of undesirable substance or material, which may contain pathogenic microorganisms.

(e) *Conveyance.* Conveyance means any land or air carrier, or any vessel as defined in paragraph (m) of this section.

(f) *Existing vessel.* Any vessel the construction of which was started prior to the effective date of the regulations in this part.

(g) *Garbage.* (1) The solid animal and vegetable waste, together with the natural moisture content, resulting from the handling, preparation, or consumption of foods in houses, restaurants, hotels, kitchens, and similar establishments, or (2) any other food waste containing pork.

(h) *Interstate traffic.* (1) The movement of any conveyance or the transportation of persons or property, including any portion of such movement or transportation which is entirely within a State or possession, (i) from a point of origin in any State or possession to a point of destination in any other State or possession, or (ii) between a point of origin and a point of destination in the same State or possession but through any other State, possession, or contiguous foreign country.

(2) Interstate traffic does not include the following:

(i) The movement of any conveyance which is solely for the purpose of unloading persons or property transported from a foreign country, or loading persons or property for transportation to a foreign country.

(ii) The movement of any conveyance which is solely for the purpose of effecting its repair, reconstruction, rehabilitation, or storage.

(i) *Possession.* Any of the possessions of the United States, including Puerto Rico and the Virgin Islands.

(j) *Potable water.* Water which meets the standards prescribed in the Public Health Service Drinking Water Standards as set forth in 42 CFR 72.201 through 72.207.

(k) *State.* Any State, the District of Columbia, Puerto Rico and the Virgin Islands.

(l) *Utensil.* Includes any kitchenware, tableware, glassware, cutlery, containers, or equipment with which food or drink comes in contact during storage, preparation, or serving.

(m) *Vessel.* Any passenger-carrying, cargo, or towing vessel exclusive of:

(1) Fishing boats including those used for shell-fishing;

(2) Tugs which operate only locally in specific harbors and adjacent waters;

(3) Barges without means of self-propulsion;

(4) Construction-equipment boats and dredges; and

(5) Sand and gravel dredging and handling boats.

(n) *Wash water.* Water suitable for domestic uses other than for drinking and culinary purposes, and medical care purposes excluding hydrotherapy.

(o) *Shellfish.* Any fresh, frozen, or incompletely cooked oysters, clams, or mussels, either shucked or in the shell, and any fresh, frozen, or incompletely cooked edible products thereof.

Subpart B—Food Service Sanitation on Land and Air Conveyances, and Vessels

§ 1250.20 Applicability.

All conveyances engaged in interstate traffic shall comply with the requirements prescribed in this subpart and § 1240.20 of this chapter.

§ 1250.21 Inspection.

The Surgeon General may inspect such conveyances to determine compliance with the requirements of this subpart and § 1240.20 of this chapter.

§ 1250.22 General requirements.

All food and drink served on conveyances shall be clean, wholesome, and free from spoilage, and shall be prepared, stored, handled, and served in accordance with the requirements prescribed in this subpart and § 1240.20 of this chapter.

§ 1250.25 Source identification and inspection of food and drink.

(a) Operators of conveyances shall identify, when requested by the Surgeon General, the vendors, distributors or dealers from whom they have acquired or are acquiring their food supply, including milk, fluid milk products, ice cream and other frozen desserts, butter, cheese, bottled water, sandwiches and box lunches.

(b) The Surgeon General may inspect any source of such food supply in order to determine whether the requirements of the regulations in this subpart and in § 1240.20 of this chapter are being met, and may utilize the results of inspections of such sources made by representatives of State health departments or of the health authorities of contiguous foreign nations.

§ 1250.26 Special food requirements.

Milk, fluid milk products, ice cream and other frozen desserts, butter, cheese, and shellfish served or sold on conveyances shall conform to the following requirements:

(a) Milk and fluid milk products, including cream, buttermilk, skim milk, milk beverages, and reconstituted milk, shall be pasteurized and obtained from a source of supply approved by the Surgeon General. The Surgeon General shall approve any source of supply at or from which milk or fluid milk products are produced, processed, and distributed so as to prevent the introduction, transmission, or spread of communicable diseases. If a source of supply of milk or fluid milk products has not been approved, the Surgeon General may permit its temporary use under such conditions as, in his judgment, are necessary to prevent the introduction, transmission, or spread of communicable diseases. Containers of milk and fluid milk products shall be plainly labeled to show the contents, the word "pasteurized", and the identity of the plant at which the contents were packaged by name and address, provided that a code may be used in lieu of address.

(b) Ice cream, other frozen desserts, and butter shall be manufactured from milk or milk products that have been pasteurized or subjected to equivalent heat treatment.

(c) Cheese shall be (1) pasteurized or subjected to equivalent heat treatment, (2) made from pasteurized milk products or from milk products which have been subjected to equivalent heat treatment, or (3) cured for not less than 60 days at a temperature not less than 35° F.

(d) Milk, buttermilk, and milk beverages shall be served in or from the original individual containers in which received from the distributor, or from a bulk container equipped with a dispensing device so designed, constructed, installed, and maintained as to prevent the transmission of communicable diseases.

(e) Shellfish purchased for consumption on any conveyance shall originate from a dealer currently listed by the Public Health Service as holding an unexpired and unrevoked certificate issued by a State authority.

(f) Shucked shellfish shall be purchased in the containers in which they are placed at the shucking plant and shall be kept therein until used. The State abbreviation and the certificate number of the packers shall be permanently recorded on the container.

§ 1250.27 Storage of perishables.

All perishable food or drink shall be kept at or below 50° F, except when being prepared or kept hot for serving.

§ 1250.28 Source and handling of ice.

Ice coming in contact with food or drink and not manufactured on the conveyance shall be obtained from sources approved by competent health authorities. All ice coming in contact with food or drink shall be stored and handled in such manner as to avoid contamination.

§ 1250.30 Construction, maintenance and use of places where food is prepared, served, or stored.

(a) All kitchens, galleys, pantries, and other places where food is prepared, served, or stored shall be adequately lighted and ventilated: *Provided, however,* That ventilation of cold storage rooms shall not be required. All such places where food is prepared, served, or stored shall be so constructed and maintained as to be clean and free from flies, rodents, and other vermin.

(b) Such places shall not be used for sleeping or living quarters.

XUM V40-26 FEB 6 75 XUM

(c) Water of satisfactory sanitary quality, under head or pressure, and adequate in amount and temperature, shall be easily accessible to all rooms in which food is prepared and utensils are cleaned.

(d) All plumbing shall be so designed, installed, and maintained as to prevent contamination of the water supply, food, and food utensils.

§ 1250.32 Food-handling operations.

(a) All food-handling operations shall be accomplished so as to minimize the possibility of contaminating food, drink, or utensils.

(b) The hands of all persons shall be kept clean while engaged in handling food, drink, utensils, or equipment.

§ 1250.33 Utensils and equipment.

(a) All utensils and working surfaces used in connection with the preparation, storage, and serving of food or beverages, and the cleaning of food utensils, shall be so constructed as to be easily cleaned and self-draining and shall be maintained in good repair. Adequate facilities shall be provided for the cleaning and bactericidal treatment of all multi-use eating and drinking utensils and equipment used in the preparation of food and beverages. An indicating thermometer, suitably located, shall be provided to permit the determination of the hot water temperature when and where hot water is used as the bactericidal agent.

(b) All multi-use eating and drinking utensils shall be thoroughly cleaned in warm water and subjected to an effective bactericidal treatment after each use. All other utensils that come in contact with food and drink shall be similarly treated immediately following the day's operation. All equipment shall be kept clean.

(c) After bactericidal treatment, utensils shall be stored and handled in such manner as to prevent contamination before reuse.

§ 1250.34 Refrigeration equipment.

Each refrigerator shall be equipped with a thermometer located in the warmest portion thereof. Waste water drains from ice boxes, refrigerating equipment, and refrigerated spaces shall be so installed as to prevent backflow of contaminating liquids.

§ 1250.35 Health of persons handling food.

(a) Any person who is known or suspected to be in a communicable period or a carrier of any communicable disease shall not be permitted to engage in the preparation, handling, or serving of water, other beverages, or food.

(b) Any person known or suspected to be suffering from gastrointestinal disturbance or who has on the exposed portion of the body an open lesion or an infected wound shall not be permitted to engage in the preparation, handling, or serving of food or beverages.

§ 1250.38 Toilet and lavatory facilities for use of food-handling employees.

(a) Toilet and lavatory facilities of suitable design and construction shall be provided for use of food-handling employees. Railroad dining car crew lavatory facilities are regulated under § 1250.45.

(b) Signs directing food-handling employees to wash their hands after each use of toilet facilities shall be posted so as to be readily observable by such employees. Hand washing facilities shall include soap, sanitary towels and hot and cold running water or warm running water in lieu of hot and cold running water.

(c) All toilet rooms shall be maintained in a clean condition.

§ 1250.39 Garbage equipment and disposition.

Watertight, readily cleanable nonabsorbent containers with close-fitting covers shall be used to receive and store garbage. Garbage and refuse shall be disposed of as frequently as is necessary and practicable.

Subpart C—Equipment and Operation of Land and Air Conveyances

§ 1250.40 Applicability.

The sanitary equipment and facilities on land and air conveyances engaged in interstate traffic and the use of such equipment and facilities shall comply with the requirements prescribed in this subpart.

§ 1250.41 Submittal of construction plans.

Plans for the construction or major reconstruction of sanitary equipment or facilities for such conveyances shall be submitted to the Surgeon General for review of the conformity of such plans with the requirements of this subpart, except that submittal of plans shall not be required for any conveyance under reconstruction if the owner or operator thereof has made arrangements satisfactory to the Surgeon General for inspections of such conveyances while under reconstruction for the purpose of determining conformity with those requirements.

§ 1250.42 Water systems; constant temperature bottles.

(a) The water system, whether of the pressure or gravity type, shall be complete and closed from the filling ends to the discharge taps, except for protected vent openings. The water system shall be protected against backflow.

(b) Filling pipes or connections through which water tanks are supplied shall be provided on both sides of all new railway conveyances and on existing conveyances when they undergo heavy repairs. All filling connections shall be easily cleanable and so located and protected as to minimize the hazard of contamination of the water supply.

(c) On all new or reconstructed conveyances, water coolers shall be an integral part of the closed system.

(d) Water filters if used on dining cars and other conveyances will be permitted only if they are so operated and maintained at all times as to prevent contamination of the water.

(e) Constant temperature bottles and other containers used for storing or dispensing potable water shall be kept clean at all times and shall be subjected to effective bactericidal treatment as often as may be necessary to prevent the contamination of water so stored and dispensed.

§ 1250.43 Ice.

Ice shall not be permitted to come in contact with water in coolers or constant temperature bottles.

§ 1250.44 Drinking utensils and toilet articles.

(a) No cup, glass, or other drinking utensil which may be used by more than one person shall be provided on any conveyance unless such cup, glass, or drinking utensil shall have been thoroughly cleaned and subjected to effective bactericidal treatment after each individual use.

(b) Towels, combs, or brushes for common use shall not be provided.

§ 1250.45 Food handling facilities on railroad conveyances.

(a) Both kitchens and pantries of cars hereafter constructed or reconstructed shall be equipped with double sinks, one of which shall be of sufficient size and depth to permit complete immersion of a basket of dishes during bactericidal treatment; in the pantry a dishwashing machine may be substituted for the double sinks. If chemicals are used for bactericidal treatment, 3-compartment sinks shall be provided.

(b) A sink shall be provided for washing and handling cracked ice used in food or drink and shall be used for no other purpose.

(c) Lavatory facilities for the use of the dining car crew shall be provided on each dining car. Such facilities shall be conveniently located and used for hand and face washing only: *Provided, however,* That where the kitchen and pantry on a dining car hereafter constructed or reconstructed are so partitioned or separated as to impede free passage between them lavatory facilities shall be provided in both the kitchen and the pantry.

(d) Wherever toilet and lavatory facilities required by paragraph (c) of this section are not on the dining car, a lavatory shall be provided on the dining car for the use of employees. The lavatory shall be conveniently located and used only for the purpose for which it is installed.

§ 1250.49 Cleanliness of conveyances.

Conveyances while in transit shall be kept clean and free of flies and mosquitoes. A conveyance which becomes infected with vermin shall be placed out of service until such time as it shall have been effectively treated for the destruction of the vermin.

§ 1250.50 Toilet and lavatory facilities.

Where toilet and lavatory facilities are provided on conveyances they shall be so designed as to permit ready cleaning. On conveyances not equipped with retention facilities, toilet hoppers shall be of such design and so located as to prevent spattering of water filling pipes or hydrants.

§ 1250.51 Discharge of wastes on railroad conveyances.

(a) *New railroad conveyances.* Human wastes, garbage, waste water, or other polluting materials shall not be discharged from any new railroad conveyance except at servicing areas approved by the Commissioner of Food and Drugs. In lieu of retention pending discharge at approved servicing areas, human wastes, garbage, waste water, or other polluting materials that have been suitably treated to prevent the spread of communicable diseases may be discharged from such conveyances, except at stations. For the purposes of this section, "new railroad conveyance" means any such conveyance placed into service for the first time after July 1, 1972, and the terms "waste water or other polluting materials" do not include drainage of drinking water taps or lavatory facilities.

(b) *Nonnew railroad conveyances.* Human waste, garbage, waste water, or other polluting materials shall not be discharged from any railroad conveyance after December 31, 1974, except at servicing areas approved by the Commissioner of Food and Drugs. If justified, an extension may be granted by the Commissioner of Food and Drugs, but in no case beyond December 31, 1977. In lieu of retention pending discharge at approved servicing areas, human wastes, garbage, waste water, or other polluting materials that have been suitably treated to prevent the spread of communicable diseases may be discharged from such conveyances, except at stations. The terms "waste water or other polluting materials" do not include drainage of drinking water taps or lavatory facilities.

(c) *Toilets.* When railroad conveyances, occupied or open to occupancy by travelers, are at a station or servicing area, toilets shall be kept locked unless means are provided to prevent contamination of the area or station.

(d) *Requests for approvals or extensions.* Requests for approval of servicing areas or extensions of compliance time under the provisions of this section should be addressed to the Commissioner, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852.

§ 1250.52 Discharge of wastes on highway conveyances.

There shall be no discharge of excrement, garbage, or waste water from a highway conveyance except at servicing areas approved by the Surgeon General.

§ 1250.53 Discharge of wastes on air conveyances.

There shall be no discharge of excrement or garbage from any air conveyance except at servicing areas approved by the Surgeon General.

Subpart D—Servicing Areas for Land and Air Conveyances

§ 1250.60 Applicability.

Land and air conveyances engaged in interstate traffic shall use only such servicing areas within the United States as have been approved by the Surgeon General as being in compliance with the requirements prescribed in this subpart.

§ 1250.61 Inspection and approval.

The Surgeon General may inspect any such areas to determine whether they shall be approved. He may base his approval or disapproval on investigations made by representatives of State departments of health.

§ 1250.62 Submittal of construction plans.

Plans for construction or major reconstruction of sanitation facilities at servicing areas shall be submitted to the Surgeon General for review of the conformity of the proposed facilities with the requirements of this subpart.

§ 1250.63 General requirements.

Servicing areas shall be provided with all necessary sanitary facilities so operated and maintained as to prevent the spread of communicable diseases.

§ 1250.65 Drainage.

All platforms and other places at which water or food supplies are loaded onto or removed from conveyances shall be adequately drained so as to prevent pooling.

§ 1250.67 Watering equipment.

(a) *General requirements.* All servicing area piping systems, hydrants, taps, faucets, hoses, buckets, and other appurtenances necessary for delivery of drinking and culinary water to a conveyance shall be designed, constructed, maintained and operated in such a manner as to prevent contamination of the water.

(b) *Outlets for nonpotable water.* Outlets for nonpotable water shall be provided with fittings different from those provided for outlets for potable water and each nonpotable water outlet shall be posted with permanent signs warning that the water is unfit for drinking.

(c) *Ice.* If bulk ice is used for the cooling of drinking water or other beverages, or for food preservation purposes, equipment constructed so as not to become a factor in the transmission of communicable diseases shall be provided for the storage, washing, handling, and delivery to conveyances of such bulk ice, and such equipment shall be used for no other purposes.

§ 1250.70 Employee conveniences.

(a) There shall be adequate toilet, washroom, locker, and other essential sanitary facilities readily accessible for use of employees adjacent to places or areas where land and air conveyances are serviced, maintained, and cleared. These facilities shall be maintained in a clean and sanitary condition at all times.

(b) In the case of diners not in a train but with a crew on board, adequate toilet facilities shall be available to the crew within a reasonable distance but not exceeding 500 feet of such diners.

(c) Drinking fountains and coolers shall be constructed of impervious, nonoxidizing material, and shall be so designed and constructed as to be easily cleaned. The jet of a drinking fountain shall be slanting and the orifice of the jet shall be protected by a guard in such a manner as to prevent contamination thereof by droppings from the mouth. The orifice of such a jet shall be located a sufficient distance above the rim of the basin to prevent backflow.

§ 1250.75 Disposal of human wastes.

(a) At servicing areas and at stations where land and air conveyances are occupied by passengers the operations shall be so conducted as to avoid contamination of such areas and stations by human wastes.

(b) Toilet wastes shall be disposed of through sanitary sewers or by other methods assuring sanitary disposal of such wastes. All soil cans and removable containers shall be thoroughly cleaned before being returned to use. Equipment for cleaning such containers and for flushing nonremovable containers and waste carts shall be so designed as to prevent backflow into the water line, and such equipment shall be used for no purpose connected with the handling of food, water or ice.

(c) All persons who have handled soil cans or other containers which have come in contact with human wastes shall be required to wash their hands thoroughly with soap and warm water and to remove any garments which have become soiled with such wastes before engaging in any work connected with the loading, unloading, transporting or other handling of food, water or ice.

§ 1250.79 Garbage disposal.

(a) Water-tight, readily cleanable, nonabsorbent containers with close-fitting covers shall be used to receive and store garbage.

(b) Can washing and draining facilities shall be provided.

(c) Garbage cans shall be emptied daily and shall be thoroughly washed before being returned for use.

Subpart E—Sanitation Facilities and Conditions on Vessels

§ 1250.80 Applicability.

The sanitation facilities and the sanitary conditions on vessels engaged in interstate traffic shall comply with the requirements prescribed in this subpart, provided that no major structural change will be required on existing vessels.

XUM V40126 FEB 675 XUM

§ 1250.81 Inspection.

The Surgeon General may inspect such vessels to determine compliance with the requirements of this subpart.

§ 1250.82 Potable water systems.

The following conditions must be met by vessel water systems used for the storage and distribution of water which has met the requirements of § 1240.80 of this chapter.

(a) The potable water system, including filling hose and lines, pumps, tanks, and distributing pipes, shall be separate and distinct from other water systems and shall be used for no other purposes.

(b) All potable water tanks shall be independent of any tanks holding nonpotable water or other liquid. All potable water tanks shall be independent of the shell of the ship unless (1) the bottom of the tank is at least 2 feet above the maximum load water line, (2) the seams in the shell are continuously welded, and (3) there are no rivets in that part of the shell which forms a side of a tank. A deck may be used as the top of a tank provided there are no access or inspection openings or rivets therein, and the seams are continuously welded. No toilet or urinal shall be installed immediately above that part of the deck which forms the top of a tank. All potable water tanks shall be located at a sufficient height above the bilge to allow for draining and to prevent submergence in bilge water.

(c) Each potable water tank shall be provided with a means of drainage and, if it is equipped with a manhole, overflow, vent, or a device for measuring depth of water, provision shall be made to prevent entrance into the tank of any contaminating substance. No deck or sanitary drain or pipe carrying any nonpotable water or liquid shall be permitted to pass through the tank.

(d) Tanks and piping shall bear clear marks of identification.

(e) There shall be no backflow or cross connection between potable water systems and any other systems. Pipes and fittings conveying potable water to any fixture, apparatus, or equipment shall be installed in such way that backflow will be prevented. Waste pipes from any part of the potable water system, including treatment devices, discharging to a drain, shall be suitably protected against backflow.

(f) Water systems shall be cleaned, disinfected, and flushed whenever the Surgeon General shall find such treatment necessary to prevent the introduction, transmission, or spread of communicable diseases.

§ 1250.83 Storage of water prior to treatment.

The following requirements with respect to the storage of water on vessels prior to treatment must be met in order to obtain approval of treatment facilities under § 1240.90 of this chapter.

(a) The tank, whether independent or formed by the skin of the ship, deck, tank top, or partitions common with other tanks, shall be free of apparent leakage.

(b) No sanitary drain shall pass through the tank.

(c) The tank shall be adequately protected against both the backflow and discharge into it of bilge or highly contaminated water.

§ 1250.84 Water in galleys and medical care spaces.

(a) Potable water, hot and cold, shall be available in the galley and pantry except that, when potable water storage is inadequate, nonpotable water may be piped to the galley for deck washing and in connection with garbage disposal. Any tap discharging nonpotable water which is installed for deck washing purposes shall not be more than 18 inches above the deck and shall be distinctly marked "For deck washing only".

(b) In the case of existing vessels on which heat treated wash water has been used for the washing of utensils prior to the effective date of the regulations in this part, such water may continue to be so used provided controls are employed to insure the heating of all water to at least 170° F before discharge from the heater.

(c) Potable water, hot and cold, shall be available in medical care spaces for hand-washing and for medical care purposes excluding hydrotherapy.

§ 1250.85 Drinking fountains and coolers; ice; constant temperature bottles.

(a) Drinking fountains and coolers shall be constructed of impervious, nonoxidizing material, and shall be so designed and constructed as to be easily cleaned. The jet of a drinking fountain shall be slanting and the orifice of the jet shall be protected by a guard in such a manner as to prevent contamination thereof by droppings from the mouth. The orifice of such a jet shall be located a sufficient distance above the rim of the basin to prevent backflow.

(b) Ice shall not be permitted to come in contact with water in coolers or constant temperature bottles.

(c) Constant temperature bottles and other containers used for storing or dispensing potable water shall be kept clean at all times and shall be subjected to effective bactericidal treatment after each occupancy of the space served and at intervals not exceeding one week.

§ 1250.86 Water for making ice.

Only potable water shall be piped into a freezer for making ice for drinking and culinary purposes.

§ 1250.87 Wash water.

Where systems installed on vessels for wash water, as defined in § 1250.3(n), do not comply with the requirements of a potable water system, prescribed in § 1250.82, they shall be constructed so as to minimize the possibility of the water therein being contaminated. The storage tanks shall comply with the requirements of § 1250.83, and the distribution system shall not be cross connected to a system carrying water of a lower sanitary quality. All faucets shall be labeled "Unfit for drinking".

§ 1250.89 Swimming pools.

(a) Fill and draw swimming pools shall not be installed or used.

(b) Swimming pools of the recirculation type shall be equipped so as to provide complete circulation, replacement, and filtration of the water in the pool every six hours or less. Suitable means of chlorination and, if necessary, other treatment of the water shall be provided to maintain the residual chlorine in the pool water at not less than 0.4 part per million and the pH (a measure of the hydrogen ion concentration) not less than 7.0.

(c) Flowing-through types of salt water pools shall be so operated that complete circulation and replacement of the water in the pool will be effected every 6 hours or less. The water delivery pipe to the pool shall be independent of all other pipes and shall originate at a point where maximum flushing of the pump and pipe line is effected after leaving polluted waters.

§ 1250.90 Toilets and lavatories.

Toilet and lavatory equipment and spaces shall be maintained in a clean condition.

§ 1250.93 Discharge of wastes.

Vessels operating on fresh water lakes or rivers shall not discharge sewage, or ballast or bilge water, within such areas adjacent to domestic water intakes as are designated by the Surgeon General.

§ 1250.95 Insect control.

Vessels shall be maintained free of infestation by flies, mosquitoes, fleas, lice, and other insects known to be vectors in the transmission of communicable diseases, through the use of screening, insecticides, and other generally accepted methods of insect control.

§ 1250.96 Rodent control.

Vessels shall be maintained free of rodent infestation through the use of traps, poisons, and other generally accepted methods of rodent control.

NOTE: Incorporation by reference provisions approved by the Director of the Office of the Federal Register on March 20, 1973.

SPECIAL MESSAGE TO CONGRESS ON BUDGET RESCISSIONS AND DEFERRALS

V 40 26
FEB 6 75
XUM

Special Message to Congress on Budget Rescissions and Deferrals

To the Congress of the United States

I herewith report on additional rescissions and deferrals for fiscal year 1975, as required by the Congressional Budget and Impoundment Control Act of 1974.

Thirty-five new rescissions and 14 new deferrals are proposed in the amounts of $1,097 million and $769 million, respectively. In addition, five revised rescission reports reduce by $178 million the amounts proposed for rescission in earlier reports, and 12 revised deferral reports increase the amounts reported as deferred in earlier reports by $111 million.

In the main, the rescissions and deferrals transmitted herein seek to reduce the increased Federal spending that would otherwise result from four recently-enacted 1975 appropriation bills—Labor-Health, Education, and Welfare, Agriculture-Environmental and Consumer Protection, the First Supplemental; and the Urgent Supplemental. The 93rd Congress, in the conference report on the Labor-HEW bill, indicated its willingness "* * * to give full consideration to such rescissions and deferrals * * *" as might be required to keep 1975 spending within the total estimate for the bill.

If the Congress does not agree to the rescissions and deferrals accompanying this message, the 1975 deficit will grow by $357 million and the 1976 deficit by $675 million. I ask the 94th Congress to give full consideration to the question of whether increased Federal spending—with its associated inflationary effects and implied longer-term commitments—is warranted for these programs at this time.

Gerald R. Ford

THE WHITE HOUSE,
January 30, 1975.

SUMMARY OF PROPOSED RESCISSIONS AND DEFERRALS

(Dollars in thousands)

Proposal No.: R75-47

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency: Department of Agriculture	New budget authority (P.L. 93-563)	$ 215,357,000
Bureau: Extension Service	Other budgetary resources	--
Appropriation Title & Symbol: Extension Service: 1250502	Total budgetary resources	215,357,000
	Amount proposed for rescission	3,200,000

Justification

Rescission of $3,200,000 for Expanded Food & Nutrition Education Program is one of the special actions proposed by the President to restrain the 1975 budget outlays. This program provides educational assistance to improve the nutritional level of low income families. In addition, a program evaluation is currently underway and its expected results could produce greater efficiencies and improve participant benefits. Until this determination is completed, the current program level should be continued.

Estimated Effects

The fiscal year 1975 grant level of $47,360,000 will provide for the highest priority needs for this program.

Total 1975 Outlays	Dollars in Millions
1975 Budget (February Transmittal)	206.9
Without rescission (current estimates)	214.1
With rescission (revised estimate)	210.9
(Effect of action on 1976 outlays	---)

DEPARTMENT OF AGRICULTURE

Nutrition and Family Education Programs

Appropriations provided under this head in the Agriculture-Environmental and Consumer Protection Appropriation Act of 1975 are rescinded in the amount of $3,200,000.

Rescission Proposal No.: R75-48

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency Department of Agriculture	New budget authority (P.L. 93-563)	$ 190,000,000
Bureau Agricultural Stabilization and Conservation Service	Other budgetary resources	--
Appropriation Title & Symbol	Total Budgetary Resources	190,000,000
Agricultural Conservation Program 125/73315	Amount proposed for rescission	156,250,000

Justification: Rescission of $156,250,000 of the contract authority authorized in the 1975 Agriculture-Environmental Consumer Protection Appropriation Act for the Agricultural Conservation Program is one of the special actions proposed by the President to restrain 1975 budget outlays as part of his program to combat inflation. This program provides cost-sharing assistance to farmers for carrying out practices for the conservation of soil and water resources on the Nation's agricultural land. The value of carrying out such practices has proven to be beneficial to farmers in terms of increased income through the years since the program's inception in 1936. With average farm income at high levels relative to the past, farmers are in a better position to meet the cost of resource conservation from their own income and should be expected to do so.

Estimated Effects: The proposed rescission will reduce the Agricultural Conservation Program contract authorization for fiscal year 1975 to $33,750,000. This amount will be sufficient authorization to cover remaining increments of long-term agreements under the 1974 Agricultural Conservation Program (REAP). No new program will be implemented for 1975.

Total 1975 Outlays	Dollars in Millions
1975 Budget (February transmittal)	255.0 1/
Without rescission (current estimate)	274.1
With rescission (revised estimate)	239.1
(Effect of action on 1976 outlays	-121.0)

1/ Includes budget amendment.

Contract authority provided under this head in the Agriculture-Environmental and Consumer Protection Appropriation Act of 1975 is rescinded in the amount of $156,250,000.

Rescission No. R75-8A

SUPPLEMENTARY REPORT

Report Pursuant to Sec. 1014(c) of P.L. 93-344

This supplementary message modifies Rescission No. R75-8 transmitted in the special message of November 26, 1974, and printed as House Document No. 93-398.

The previous proposal reflected the rescission of $11,212,940 of the funds provided in the Agriculture-Environmental and Consumer Protection Appropriation Act of 1974. The current proposal includes this amount and $10,000,000 of the funds provided in the Agriculture-Environmental and Consumer Protection Appropriation Act of 1975 for a total rescission proposal of $21,212,940.

Rescission Proposal No.: R75-8A

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency Department of Agriculture	New budget authority (P.L. 93-563)	$ 10,000,000
Bureau Agricultural Stabilization and Conservation Service	Other budgetary resources	17,553,712 1/*
Appropriation Title & Symbol	Total Budgetary Resources	27,553,712 *
Water Bank Program - 1975 12X3320	Amount proposed for rescission	21,212,940 1/*

Justification *

Rescission of $10,000,000 of the fiscal year 1975 appropriation for the Water Bank Program is one of the special actions proposed by the President to restrain 1975 budget outlays. The Water Bank Program was authorized by the Water Bank Act, Public Law 91-559, approved December 19, 1970. The Act authorized the Secretary of Agriculture to enter into agreements for a period of 10 years with landowners and operators to preserve and improve migratory waterfowl habitat.

The Administration proposes no new program for 1975. Payments under agreements for 1972 and 1974 programs will continue to be made for the term of the agreements.

This program provides only limited wildlife and conservation benefits. It duplicates the objectives of a program currently being carried out by the Department of the Interior. For these reasons, it is a prime candidate for termination as a nonessential government program.

Estimated Effect *

The 1975 Water Bank Program can be terminated with little adverse impact to the Nation since it provides minimum conservation benefits.

Total 1975 Outlays *	Dollars in Millions
1975 Budget (February transmittal)	3.8

Water Bank Program

Appropriations provided under this head in the Agriculture-Environmental and Consumer Protection Appropriation Acts for 1974 and 1975 are rescinded in the amount of $21,212,940.

Rescission Proposal No.: R75-49

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency Department of Agriculture	New budget authority (P.L. 93-563)	$ 25,000,000
Bureau Agricultural Stabilization and Conservation Service	Other budgetary resources	--
Appropriation Title & Symbol Forestry Incentives Program - 1975 12X3336	Total Budgetary Resources	25,000,000
	Amount proposed for rescission	25,000,000

Justification

Rescission of the entire appropriation of $25,000,000 for the Forestry Incentives Program is one of the special actions proposed by the President to restrain 1975 budget outlays as part of his program to combat inflation.

This is a new program which would provide for government participation through cost-sharing for stimulating long-term sawtimber production on private, nonindustrial lands.

The Administration understands the concerns related to reforestation of lands and present and future needs of forests and forest products. But there is no indication of economic justification at this time for government participation through cost sharing for stimulating long-term sawtimber production on private, nonindustrial lands.

Estimated Effects

The 1975 Forestry Incentives Program can be terminated with little adverse impact to this Nation. Government technical assistance and advice would still remain available to owners of such lands who wish to carry out tree planting as a conservation measure or desire help to establish at their own expense a timber stand based on their assessment that such an undertaking is a sound economic investment.

Total 1975 Outlays	Dollars in Millions
1975 Budget (February transmittal)	6.2
Without rescission (current estimate)	6.2
With rescission (revised estimate)	---
(Effect of action on 1976 outlays	-8.0)

Rescission Proposal No.: R75-50

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Department of Agriculture	New budget authority PL 93-563	$ 13,750,000
Farmers Home Administration	Other budgetary resources	-
Rural Development Grants 1252065	Total Budgetary Resources	13,750,000
	Amount proposed for rescission	3,750,000

Justification

Rescission of $3,750,000 of the annual appropriation for rural development grants is one of the special actions proposed by the President to restrain 1975 budget outlays. This program supplements business and industrial loans made in rural areas for the purpose of improving, developing, or financing business, industry, and employment and improving the economic and environmental climate in rural communities.

The rescission of $3,750,000 is justified due to the lower demand for capital expansion in rural communities at this time. In addition, loan funds are available to fund this type program at reasonable interest rates and terms through the community facilities loan program. Also, the water and waste development grant program is funded at the highest level in its history making funds available for extension of water and waste facilities to rural industrial areas.

Estimated Effects

The estimated effects of the proposed rescission of $3,750,000 of funds available under the Rural Development Grant program is considered negligible for three reasons. First, the program is funded at the level provided in the prior year which is considered adequate for projects considered essential. Second, the amount of funds involved in the rescission is extremely small considered on a nation-wide basis. Third, funds are available from other sources through the water and waste development program and the community facilities loan program to fund necessary projects.

Total 1975 Outlays	Dollars in Millions
1975 Budget (February transmittal)	$6.0
Without rescission (current estimate)	6.8
With rescission (revised estimate)	6.0

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

Rural Development Grants

Appropriations provided under this head in the Agriculture-Environmental and Consumer Protection Appropriation Act of 1975 are rescinded in the amount of $3,750,000.

Rescission Proposal No.: R75-51

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Department of Agriculture	New budget authority PL 93-563	$3,500,000
Farmers Home Administration	Other budgetary resources	-
Rural Community Fire Protection Grants 1252067	Total Budgetary Resources	3,500,000
	Amount proposed for rescission	3,500,000

Justification

Rescission of the $3,500,000 appropriated for rural community fire protection grants is one of the special actions proposed by the President to restrain 1975 budget outlays. This program, authorized under the Rural Development Act of 1972, would provide fire fighting equipment and funds for organizing and training of personnel to rural communities to assist in fire control. Procurement of equipment is a low priority in investment capital in view of the number of people benefitting from the program. In addition, adequate credit assistance to provide this equipment is available at reasonable interest rates and terms through the community facilities loan program.

Estimated Effects,

The estimated effects of the proposed rescission is negligible for the following reasons: First, community facilities loans are available at reasonable interest rates and terms; Second, the Forest Service makes surplus fire fighting equipment available to rural communities; and Third, the amount of funds involved is small when considering the number of communities that would be helped on a nationwide basis.

Total 1975 Outlays	Dollars in Millions
1975 Budget (February transmittal)	---
Without rescission (current estimate)	3.5
With rescission (revised estimate)	---

Rescission No. R75-15A

SUPPLEMENTARY REPORT

Report Pursuant to Sec. 1014(c) of P.L. 93-344

This supplementary message revises Proposed Rescission No. 75-15A transmitted in the message of November 26, 1974 and printed as House Document No. 93-398.

An additional $2,727,000 is now proposed for rescission. These funds were previously reported as deferrals for the entire year in Deferral No. D75-94.

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1014(c) of P.L. 93-344

R75-15A

Agency Department of Commerce	New budget authority (P.L. 93-433)	$ 440,930,000
Bureau National Oceanic and Atmospheric Administration	Other budgetary resources	$ 4,175,851
Appropriation Title & Symbol Operations, Research and Facilities 13X1450	Total Budgetary Resources	$ 445,105,851
	Amount proposed for rescission	$ 3,227,000 *

JUSTIFICATION: *

This withholding of funds is one of several special actions proposed by the President to restrain 1975 budget outlays. These funds were placed in reserve on December 16, 1974.

It is proposed that a total of $3,227,000 of the 1975 appropriation for Operations, research, and facilities be rescinded. Projects which would not be carried out are: data gathering by the Atlantic, Gulf, and Pacific Marine Fisheries Commissions leading to the development of a national fisheries plan; construction and operation of four salmon and steelhead rearing ponds in the Columbia River hatchery system; initiation of a marine ecosystems analysis project in Puget Sound; and procurement and deployment of four data buoys.

The Congress appropriated $500,000 in FY 1975 for use by Interstate Fisheries Commissions in gathering data leading to the development of a national fisheries policy. NOAA is currently in the advanced stages of developing a national fisheries plan. Since the plan is due to be completed in 1975, the input that would be provided by this research would not be available in time for inclusion in the plan.

Congress also appropriated $1,300,000 in FY 1975 for the construction, maintenance, and operation of four salmon and steelhead rearing ponds on the Columbia River. These ponds, when in operation, would eventually increase the supply of these fish available for harvest. However, 21 fish hatcheries are already operated on the Columbia River, at an annual cost of $5.1 million, and high priority is being given to actions which will provide for the conservation and better management of these fish stocks. For example, through the International North Pacific Fisheries Commission, NOAA is attempting to lower the foreign catch of anadromous species on the high seas. Additional fishery stock assessments and joint State-Federal fisheries management efforts are being directed to this end.

Also in 1975, $500,000 was appropriated to initiate a marine ecosystems analysis project in Puget Sound. This would eventually require a three to five year effort costing several million dollars. NOAA is presently conducting a similar project in the area of the New York Bight which is expected to result in the development of techniques and procedures which will enable future marine ecosystems analysis projects to be conducted more efficiently and effectively. Consequently, delay in initiation of the Puget Sound project is proposed until the new techniques and procedures are more fully developed.

*Revised from previous submission.

A total of $8.8 million was appropriated in FY 1975 for procurement, deployment and maintenance of data buoys. Rescission of $927,000 of this amount is proposed. A data buoy program adequate to present needs and conditions can be operated in FY 1975 at the reduced level.

The funds proposed for rescission are available without regard to fiscal year limitation.

ESTIMATED EFFECTS: *

The proposed rescission of $500,000 for Fisheries Commission data gathering should have no effect on the development of a national fisheries policy. NOAA has a direct program of fisheries research which contributes a broad range of scientific knowledge on fisheries problems. This, along with public comment and input from private research groups, should provide adequate information for development of the national plan.

Rescission of $1,300,000 for rearing pond construction is expected to have no immediate impact on Columbia River fishery conditions. The lead time involved in construction of the facilities and in rearing a nature crop of fish would have required a number of years before the harvestable supply could have been increased. Alternative methods are already being implemented which are expected to improve conditions.

Rescission of $500,000 for initiation of a marine ecosystems analysis project in Puget Sound will delay the start of the project. However, it is expected that this delay can be made up in future years so that there will be no long-term effect.

The number of data buoys deployed as part of NOAA's marine observations program will be reduced in 1975 from 13 to 9 by the rescission of $927,000. NOAA is presently reviewing its long-term requirements for data buoy observations, so it is not possible to determine the eventual effect of the rescission at the current time.

TOTAL 1975 OUTLAYS: *

	DOLLARS IN MILLIONS
1975 Budget (February transmittal)	$ .9
Without rescission (current estimate)	3.2
With rescission (revised estimate)	.0
(Effect of action on 1976 outlays	(.0)

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Operations, Research, and Facilities

Appropriations provided under this head in the Department of Commerce Appropriation Act, 1975, are rescinded in the amount of $3,227,000: Provided, That no part of the remaining sums shall be subject to the second proviso of said appropriation.

Rescission No.: R75-52

R75-52

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency Department of Commerce	New budget authority (P.L. _____)	$ --
Bureau United States Travel Service	Other budgetary resources	5,159,704
	Total Budgetary Resources	5,159,704
Appropriation Title & Symbol Inter-American Cultural and Trade Center 13X1804	Amount proposed for rescission	4,999,704

Justification:

Funds were appropriated in 1966 for a Federal exhibit at the Inter-American Cultural and Trade Center (Interama) in Dade County, Florida. These Federal funds were appropriated for the purpose of thematic design and operation of a Federal exhibit at Interama. These funds are available without regard to fiscal year limitation. Dade County has had responsibility for financing and construction of the Interama facility since 1966. Since then Dade County has been unable to obtain financing for the Interama facility and it now appears financing for the facility will not be forthcoming. Accordingly, it is now proposed to end Federal planning for the project, and the funds appropriated will not be needed.

Deferral of funds for this program was planned for the entire year and reported to the Congress. This rescission report serves to cancel deferral number D75-93 transmitted on November 26, 1974 and printed as House Document No. 93-398.

Estimated Effects:

This rescission reflects the termination of the Interama project because of the inability of the local government to obtain required financing. Thus, the withholding action has no economic or budgetary effect.

Total 1975 Outlays	Dollars in Millions
1975 Budget (February transmittal)	0.1
Without deferral (current estimate)	0.2
With deferral (revised estimate)	0.2
(Effect of action on 1976 outlays	0.0)

SUPPLEMENTARY REPORT
REPORT PURSUANT TO SEC. 1014(C) OF P.L. 93-344

This supplementary message modifies rescission number R75-27 transmitted in the Special Message of November 26, 1974, and printed as House Document 93-398. The amount proposed for rescission has been reduced by $7.8 million in order to permit the obligation of funds during the 45 days in which the Congress has to enact this proposal. This will ensure that no cost penalties will result if this rescission is not enacted.

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency Department of Defense	New budget authority (P.L. 93-437)	$ 242,800,000
Bureau	Other budgetary resources	984,900,000
	Total Budgetary Resources	1,227,700,000
Appropriation Title & Symbol Aircraft Procurement, Army 1975/1977 212031	Amount proposed for rescission	5,700,000 *

Justification *

This withholding of funds is one of several special actions proposed by the President to restrain 1975 budget outlays. This rescission of multi-year funds results from the decision not to procure any UH-1H aircraft in 1975. These items are considered marginal in light of the present and projected aircraft inventory.

Estimated Effects *

This rescission will reduce 1975 budget authority by $5.7 million and result in outlay reductions of $.4 million in 1975 and $2.1 million in 1976.

Total 1975 Outlays	Dollars in millions
1975 Budget (February transmittal)	$119.0
Without rescission (current estimate)	77.1
With rescission (revised estimate)	76.7
(Effect of action on 1976 outlays	-2.1)

*Revised from previous submission.

SUPPLEMENTARY REPORT
REPORT PURSUANT TO SEC. 1014(C) OF P.L. 93-344

This supplementary message modifies rescission number R75-28 transmitted in the Special Message of November 26, 1974, and printed as House Document 93-398. The amount proposed for rescission has been reduced by $95.5 million in order to permit the obligation of funds during the 45 days in which the Congress has to enact this proposal. This will ensure that no cost penalties will result if this rescission is not enacted.

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency: Department of Defense	New budget authority (P.L. 93-437)	$ 3,062,800,000
Bureau	Other budgetary resources	718,600,000
Appropriation Title & Symbol: Aircraft Procurement, Air Force 1975/1977 5730010	Total Budgetary Resources	3,781,400,000
	Amount proposed for rescission	152,500,000 *

Justification *

This withholding of funds is one of several special actions proposed by the President to restrain 1975 budget outlays. This rescission of multi-year funds results from the decision not to procure 24 A-7D's and 12 F-111's in 1975. These items were not requested by the Air Force, nor included in the President's 1975 budget and are considered marginal in light of present and projected aircraft inventory.

Estimated Effects *

This rescission will reduce 1975 budget authority by $152.5 million and result in outlay reductions of $16.0 million in 1975 and $66.3 million in 1976.

Total 1975 Outlays	Dollars in millions
1975 Budget (February transmittal)	$2,888.0
Without rescission (current estimate)	2,669.0
With rescission (revised estimate)	2,653.0
(Effect of action on 1976 outlays	-66.3)

*Revised from previous submission.

Rescission Proposal No.: R75-53

PROPOSAL RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency Department of Defense	New budget authority (P.L. ___ ___)	$ ___
Bureau	Other budgetary resources	2,255,171
Appropriation Title & Symbol Special Foreign Currency Program 1973/1975 973/50800	Total budgetary resources	2,255,271
	Amount proposed for rescission	915,000

Justification

Funds in this multi-year appropriation are used exclusively for the purchase from the Department of the Treasury excess foreign currency for projects of insufficient priority for inclusion in other DOD appropriations. A shortage in the availability of U.S. owned Yugoslavian dinars has resulted in the cancellation of four projects. No new projects have been identified that could utilize these funds. These funds are proposed for rescission under the provisions of the Anti-Deficiency Act (31 U.S.C. 665).

Estimated Effects

This rescission will reduce unobligated balances by $915,000. No reduction in outlays will result from this action.

DEPARTMENT OF DEFENSE - MILITARY

Special Foreign Currency Program

Appropriations provided under this head in the Department of Defense Appropriation Act, 1973, are rescinded in the amount of $915,000.

Rescission Proposal No.: R75-54

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency Department of Defense	New budget authority (P.L. _____)	$ _____
Bureau	Other budgetary resources	2,600,000
Appropriation Title & Symbol	Total Budgetary Resources	2,600,000
Special Foreign Currency Program 1974/1975 974/50800	Amount proposed for rescission	40,000

Justification

Funds in this multi-year appropriation are used exclusively for the purchase from the Department of the Treasury excess foreign currency for projects of insufficient priority for inclusion in other DOD appropriations. The costs of these projects is now estimated to be $40,000 less than the amount originally budgeted. No new projects have been identified that could utilize these funds. These funds are proposed for rescission under the provisions of the Anti-Deficiency Act (31 U.S.C. 665).

Estimated Effects

This rescission will reduce unobligated balances by $40,000. No reduction in outlays will result from this action.

DEPARTMENT OF DEFENSE - MILITARY

Special Foreign Currency Program

Appropriations provided under this head in the Department of Defense Appropriation Act, 1974, are rescinded in the amount of $40,000.

Rescission Proposal No.: R75-55

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency Department of Health, Education and Welfare	New budget authority (P.L. 93-517)	$ 496,177,000
Bureau Health Services Administration	Other budgetary resources	85,878,000
Appropriation Title & Symbol Health Services 7550350 (See activities below)	Total Budgetary Resources	582,055,000
	Amount proposed for rescission	25,681,000

Justification

Program/Activity	Total Budgetary Resources	Total Reduction	Amount of Reduction to be Used for Pay Increase	Net Amount Prop. for Rescission
Community Health Services:				
Maternal and Child Health Grants to States	$277,423,000	$23,000,000	---	$23,000,000
Research & Training	25,917,000	4,716,000	$4,168,000	548,000
Sudden Infant Death Syndrome	2,000,000	2,000,000	1,116,000	884,000
Subtotal, Community Health Services	$305,340,000	$29,716,000	$5,284,000	$24,432,000
Patient Care and Special Health Services	112,684,000	4,448,000	3,199,000	1,249,000
Emergency Medical Services	37,000,000	10,000,000	10,000,000	---
Total affected by the reacission	$455,024,000	$44,164,000	$18,483,000	$25,681,000
Total unaffected by the rescission	127,031,000			
Total Budgetary Resources	$582,055,000			

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 budget outlays, and is consistent with the Conference Report on the Labor/HEW Appropriations Bill, which indicated Congressional willingness "...to give full consideration to such rescissions and deferrals..." as might be required to keep 1975 spending within the total budget estimate for the bill (p. 21, House Report No. 93-1489). Accordingly, a rescission of annual appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344) is proposed.

In 1976, the Federal Government will spend over $22 billion in health care financing through Medicare and Medicaid. These funds will provide financing to many of the individuals now receiving care through narrow categorical grant programs.

Maternal and Child Health

This reduction is proposed on the grounds that the major program priorities can be achieved without the $24.4 million proposed for rescission. FY 1975 will be the first year that formula and project grant funds will be combined and allocated as formula grants to States. Therefore, States will have the option of determining priorities, including activities related to Sudden Infant Death Syndrome. At the same time, total program expenditures can be maintained at the 1974 level.

Patient Care and Special Health Services

The current network of eight PHS hospitals will be maintained, as required by law. Funding is provided to meet the statutory patient workload. Between FY 1974 and FY 1975, approximately $24 million appropriated by the Congress to modernize these hospitals will have been spent. However, the patient load has declined in recent years to an estimated 65 percent of capacity in FY 1975 and further expansion of the hospitals as envisioned by the Congressional add-on (which is the amount proposed for rescission) is not warranted at this time.

Estimated Effects

Maternal and Child Health

Grants to States -- The proposed program level includes $10.5 million over the program level of 1974. The proposed level will continue to support formula grants to States for Maternal and Child Health and Crippled Children's health services and support for the continuation of approximately 117 service projects formerly supported by project grant funds. This change in the method of distributing funds among the States and other jurisdictions means that 38 States will receive less in 1975 than they did in 1974 while the other 16 jurisdictions will receive more. If the funds proposed for rescission were obligated, those States slated for increases would receive them, and all other States would be maintained at the FY 1974 level.

Research and Training -- The President's proposed level of $21,917,000 would provide training funds to support the twenty existing university-affiliated centers for the mentally retarded and continue training for 150 nurses and other physicians' assistants. Also, 68 research projects focused on improving health and medical services to mothers and children would be continued. The funds proposed for rescission would provide $750,000 for a new university-affiliated training center, $1,250,000 for strengthening existing university-affiliated centers and training physician assistants and nurse

practitioners, $2,000,000 for 25 research studies and $716,000 for evaluation activities.

Sudden Infant Death Syndrome -- The funds proposed for rescission would support ten positions, initiate a program for the preparation and dissemination of information materials, and support the development of SIDS information centers. States may use Maternal and Child Health formula grant funds to support these activities if they are considered of sufficient importance.

Patient Care -- This proposal would permit the PHS hospitals and clinics to maintain the 1974 level of operations. The reduction of $4,488,000 includes $3,500,000 that would enable the hospitals to recruit an additional staff of 393. The balance of the proposed rescission includes $594,000 for evaluation activities, and $354,000 for administrative travel.

Emergency Medical Services -- The proposed program level would support the funding of 130 grant and contract awards. The $10,000,000 proposed for rescission would allow for an additional 49 grant and contract awards.

	Amount proposed for rescission	9,805,000

Justification

Program/Activity	Total Budgetary Resources	Total Reduction	Amount of Reduction to be Used for Pay Increase	Net Amount Proposed for Rescission
Disease control:				
Program grants				
Venereal diseases	$28,000,000	$4,345,000	$ 1,612,000	$2,733,000
Immunization	6,206,000	300,000	-	300,000
Lead-based paint	9,000,000	2,500,000	-	2,500,000
Subtotal Project Grants	$43,206,000	7,145,000	1,612,000	5,533,000
Disease investigations, surveillance & control	40,049,000	299,000	299,000	-
Laboratory improvement	9,558,000	750,000	530,000	220,000
Health education	3,232,000	42,000	21,000	21,000
Subtotal Disease Control	96,045,000	8,236,000	2,462,000	5,774,000
Occupational health:				
Grants	4,252,000	2,000,000	-	2,000,000
Direct operations	27,734,000	2,580,000	549,000	2,031,000
Subtotal Occupational health	31,986,000	4,580,000	549,000	4,031,000
Total affected by rescission	$128,031,000	12,816,000	3,011,000	9,805,000
Total unaffected by rescission	12,140,000			
Total budgetary resources	140,171,000			

a/ Excludes $13,100,000 for rate control project grants authorized by continuing resolution, which is unaffected by the proposed rescission.

This withholding of funds is one of several special actions proposed by the President to restrain 1975 budget outlays and is consistent with the conference report on the Labor/HEW appropriations bill which indicated Congressional willingness "...to give consideration to such rescissions and deferrals..." as might be required to keep 1975 spending within the total budget estimate for the bill (p. 21, House Report 93-1489). Accordingly, a rescission of annual appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344) is proposed.

Disease control: This proposal would permit funding for venereal disease and immunization project grants at a level sufficient to accomplish program objectives - among them, raising the level of immunity to diseases such as measles, polio, diptheria and tetanus in central city and rural areas (particularly among pre-school age children) and improving the quality of epidemiology used to reduce syphilis.

In keeping with the Department's view that the problem of lead-based paint poisoning is not effectively addressed by project grants to a few communities and that the Department's responsibilities in this area are better met (a) by encouraging early diagnosis and treatment under Medicaid and other health service delivery programs and (b) by strengthening the capability of State health laboratories to perform blood lead analysis, this proposal would hold funding for lead-based paint poisoning prevention project grants to the level of the 1975 budget request.

This proposal would maintain laboratory improvement activities at the level recommended in the 1975 budget request.

Occupational health: The proposed funding level for occupational health is $1.6 million higher than the level originally proposed in the 1975 budget and $1.9 million higher than the 1974 appropriation (exclusive of non-recurring costs). This proposal would provide for additional research necessary to develop criteria for occupational safety and health standards.

Estimated effects

Disease control: This proposal would hold the amounts for venereal disease, immunization, and lead-based paint poisoning prevention project grants to the 1974 level, but would not reduce the number of grant awards.

The proposed funding level would eliminate 40 positions and $700,000 added to the budget request for laboratory improvement. However, the purpose for which the Congress appropropriated the additional funds--to accelerate development of standards for diagnostic products in cooperation with the Food and Drug Administration--can be accomplished in spite of the proposed rescission.

Occupational health: This proposal would maintain funds for research grants at the level recommended in the 1975 budget. The proposal for direct operations will permit NIOSH to initiate sufficient research to be able to recommend to the Department of Labor criteria for standards on 20 rather than 14 as proposed in the original 1975 budget. If the amount proposed for rescission were obligated, NIOSH would be able to recommend criteria on 26 hazardous substances each year (beginning in FY 1977).

	Amount Proposed for Rescission	$123,006,000

Justification

Program/Activity	Total Budgetary Resources	Total Reduction	Amount of reduction to be used for Pay Increases	Net Amount Proposed for Rescission
Research Grants	$276,050,000	$56,237,000	---	$56,237,000
Fellowships & Training Grants	22,163,000	4,000,000	---	4,000,000
Research & Development Contracts	198,994,000	34,306,000	---	34,306,000
Direct Operations	106,361,000	9,667,000	$2,146,000	7,521,000
Construction	38,000,000	16,000,000	---	16,000,000
Cancer Control	50,098,000	5,000,000	58,000	4,942,000
Total affected by the rescission	$691,666,000	$125,210,000	$2,204,000	$123,006,000
Total unaffected by the rescission	7,712,000			
Total Budgetary Resources	$699,378,000			

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 budget outlays and is consistent with the Conference Report on the Labor/DHEW Appropriation Bill which indicated Congressional willingness... "to give full consideration to such rescissions and deferrals"... as might be required to keep 1975 spending within the total budget estimate for the bill (p. 21, House Report No. 93-1489). Accordingly, a rescission of annual appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344) is proposed.

The proposed rescission can be accomplished without seriously altering the momentum in biomedical research achieved by sustained and substantial growth in the National Institutes of Health in recent years.

1/ This figure will be further reduced by $55 thousand as a result of the transfer of public affairs activities to the Office of the Director, NIH.

Research Grants and Contracts. A cutback is proposed in each research program to reduce outlays. Funding is being restricted to the highest priority projects for new and competing research programs. A reduction of approximately 5 percent is being made for continuation costs of ongoing projects.

Fellowships and Training Grants. Training funds proposed for rescission are unnecessary because the revised estimate provides postdoctoral fellowship support in areas of specific research manpower shortages which, for this Institute, includes radiologists, chemotherapists and immunologists. Financial assistance is available under the general student assistance loan program of the Office of Education.

Direct Operations. The proposed rescission will be directed primarily toward reducing overhead costs related to research grants and contracts management, and other program activities. The cutback should not seriously affect the overall management or research capability of the Institute.

Construction. Since the inception of the special Cancer initiative in FY 1972, $127,361,000 has been obligated to fund 58 cancer construction projects. This is the only Institute with a construction appropriation and the funds to date have provided the necessary stimulus to provide support to expand cancer research significantly. Even with the rescission, $29,010,000 will be available to support projects in FY 1975 of which $7,010,000 is available for obligation in 1975 from 1974 funds carried forward.

Cancer Control. The proposed rescission eliminates additional increases for cancer control. The funds that would remain available still provide an increase of over $10,000,000 between 1974 and 1975 (a growth rate exceeding 30%) that will permit the orderly expansion of the cancer control effort.

Estimated Effects:

Research Grants and Contracts. Funds planned for this program will permit the funding of about 580 new and competing grants and 36 new contracts. If the funds proposed for rescission were obligated, approximately 641 additional grants and 142 additional contracts would be made.

Fellowships and Training Grants. Planned funding for this program will permit the award of approximately 269 continuation awards and 671 new and competing awards. If the funds proposed for rescission were obligated, funding for existing training awards would be increased.

Direct Operations. In line with the program reductions mentioned above, corresponding reductions would be made for related supporting management services. Under the proposed rescission, $42,691,000 for management overhead and related administrative costs and $54,003,000 for laboratory and clinical research would be funded during 1975. The management and research activities would be reduced $6,640,000 and $3,027,000 respectively.

Construction. Funds planned for this program will permit the award of 7 construction projects. If the funds proposed for rescission were obligated, approximately 4 additional construction awards would be made.

Cancer Control. This proposal would permit the funding of 180 cancer control awards. If the funds proposed for rescission were obligated, an additional 24 awards could be made.

Appropriations under this head for the fiscal year 1975 are rescinded in the amount of $123,006,000.

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Rescission No.: R75-58

Agency: Department of Health, Education, and Welfare	New budgetary resources (P.L. 93-517) $324,130,000
Bureau: National Institutes of Health	Other Budgetary Resources 3,227,000
Appropriation Title and Symbol:	Total Budgetary Resources 327,357,000a/
National Heart and Lung Institute 7550872	Amount proposed for rescission 37,730,000
(See activities below)	

Justification Program/Activity	Total Budgetary Resources	Total Reduction	Amount of Reduction to be Used for Pay Increases	Net Amount Proposed for Rescission
Research Grants	$184,581,000	$19,774,000	---	$19,774,000
Research Contracts	83,408,000	18,513,000	$557,000b/	17,956,000
Direct Operations	40,521,000	643,000	643,000	---
Total affected by the rescission	308,510,000	38,930,000	1,200,000	37,730,000
Total unaffected by the rescission	18,847,000			
Total Budgetary Resources	327,357,000			

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 budget outlays and is consistent with the Conference Report on the Labor/HEW Appropriation Bill which indicated Congressional willingness..."to give full consideration to such rescissions and deferrals"... as might be required to keep 1975 spending within the total budget estimate for the bill (p. 21, House Report No. 93-1489). Accordingly, a rescission of annual appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-1489) is proposed.

The proposed rescission can be accomplished without seriously altering the momentum in biomedical research achieved by sustained and substantial growth in the National Institutes of Health in recent years.

Research Grants and Contracts. In order to restrict outlays, a cutback is proposed in each research program. For new and competing research programs, funding is being restricted to the highest priority projects. For continuation costs of ongoing projects, a reduction of approximately five percent is being made.

a/ This figure will be further reduced by $37 thousand as a result of the transfer of public affairs activities to the Office of the Director, NIH.
b/ Includes pay increases to be used in the area of Direct Operations

Direct Operations. In line with the program reductions mentioned above, corresponding reductions would be made for related supporting management services. The proposed rescission will be directed primarily toward reducing overhead costs such as research grants and contracts management, services and supplies, and program evaluation contracts.

Estimated Effects

Research Grants and Contracts. This proposal would permit the funding of about 311 new and competing grants and 60 new and competing contracts. Continuation awards would be reduced by about 5%, though no projects would be terminated as a result. If the funds proposed for rescission were obligated, approximately 229 additional grants and 60 additional contracts would be made.

Direct Operations. Under this proposal, $17,245,000 for management overhead and related administrative costs and $23,833,000 for laboratory and clinical research would be funded during 1975. Reductions of approximately $303,000 and $340,000 would be made in the management and research activities respectively. Funding would not be available for 29 positions.

Rescission Proposal No. R75-59

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency Department of Health, Education and Welfare	New budgetary resources (P.L. 93-517)	$ 49,864,000
Bureau National Institutes of Health	Other Budgetary Resources	—
Appropriation Title and Symbol National Institute of Dental Research 7550873	Total Budgetary Resources	$ 49,864,000 a/
(See activities below)	Amount proposed for rescission	$ 7,489,000

Justification Program/Activity	Total Budgetary Resources	Total Reduction	Amount of Reduction to be Used for Pay Increases	Net Amount Proposed for Rescission
Research Grants.....	$20,349,000	$6,908,000	$156,000 b/	$6,752,000
Research Contracts....	4,171,000	750,000	13,000 b/	737,000
Direct Operations.....	12,086,000	219,000	219,000	0
Total affected by the rescission.....	$36,606,000	$7,877,000	$388,000	$7,489,000
Total unaffected by the rescission.....	13,258,000			
Total Budgetary Resources.	49,864,000			

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 budget outlays and is consistent with the Conference Report on the Labor/DHEW Appropriation Bill which indicated Congressional willingness ... "to give full consideration to such rescissions and deferrals" ... as might be required to keep 1975 spending within the total budget estimate for the bill (p. 21, House Report No. 93-1489). Accordingly, a rescission of annual appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344) is proposed.

The proposed rescission can be accomplished without seriously altering the momentum in biomedical research achieved by sustained and substantial growth in the National Institutes of Health in recent years.

Research Grants and Contracts. A cutback is proposed in each research program to reduce outlays. For new and competing research programs, funding is being limited to the highest priority projects. A reduction of approximately five percent is being made for continuation costs of ongoing projects.

a/ This figure will be further reduced by $9,000 as a result of the transfer of activities to the Office of Director, NIH.

b/ Includes pay increases to be used for direct operations.

Direct Operations. In line with the program reductions mentioned above, corresponding reductions would be made for related supporting management services. The proposed rescission will be directed primarily toward reducing overhead costs such as research grants and contracts management, services and supplies, and program evaluation contracts. The cutback would not seriously affect the overall management of research capability of the Institute.

Estimated Effects

Research Grants and Contracts. This proposal would permit the funding of about 69 new and competing grants and 25 new and competing contracts. Continuation awards would be reduced by about 5%, though no projects would be terminated as a result. If the funds proposed for rescission were obligated, approximately 130 additional grants and 10 additional contracts would be made.

Direct Operations. Under the proposed rescission, $4,306,000 for management overhead and related administrative costs, and $7,980,000 for intramural, laboratory and clinical research, would be funded during 1975. Management overhead and the research activities would be reduced by $191,000 and $28,000 respectively.

Total 1975 Outlays a/	Dollars in Millions
1975 Budget (February transmittal).....	$31

Bureau: National Institutes of Health
Appropriation Title and Symbol:
National Institute of Arthritis, Metabolism, and Digestive Diseases

7550884
753/50884

(See activities below)

New budgetary resources (P.L. 93-517) $173,121,000
Other Budgetary Resources 81,000
Total Budgetary Resources 173,202,000

Amount proposed for rescission 28,473,000

Justification Program/Activity	Total Budgetary Resources	Total Reduction	Amount of Reduction to be Used for Pay Increases	Net Amount Proposed for Rescission
Research Grants	$119,567,000	$18,054,000	---	$18,054,000
Research Contracts	9,275,000	1,512,000	$93,000 a/	1,419,000
Training Awards	14,448,000	9,000,000	---	9,000,000
Direct Operations	29,831,000	714,000	714,000	---
Total affected by rescission	173,121,000	29,280,000	807,000	28,473,000
Total unaffected by rescission	81,000			
Total budgetary resources	173,202,000			

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 budget outlays and is consistent with the Conference Report on the Labor/DHEW Appropriation Bill which indicated Congressional willingness..."to give full consideration to such rescissions and deferrals"... as might be required to keep 1975 spending within the total budget estimate for the bill (p. 21, House Report No. 93-1489). Accordingly, a rescission of these appropriations, available only through fiscal year 1975, is proposed under Section 1012 of the Impoundment Control Act (P.L. 93-344).

The proposed rescission can be accomplished without seriously altering the momentum in biomedical research achieved by sustained and substantial growth in the National Institutes of Health in recent years.

a/ Includes pay increases for direct operations.

Research Grants and Contracts. A cutback is proposed in each research program to reduce outlays. Funding is being restricted to the highest priority projects for new and competing research programs. A reduction of approximately five percent is being made for continuation costs of ongoing projects.

Fellowships and Training Grants. Additional training funds are unnecessary because in most research specialities, sufficient predoctoral students are being attracted to biomedical research without additional specific Federal inducements; financial assistance is available under the general student assistance loan programs of the Office of Education; and the Budget provides postdoctoral fellowship support in areas of specific research manpower shortages.

Director Operations. In line with the program reductions mentioned above, corresponding reductions would be made for related supporting management services. The proposed rescission will be directed primarily towards reducing overhead costs. The cutback should not seriously affect the overall management or research capability of the Institute.

Estimated Effects

Research Grants and Contracts. Funds planned for this program will permit the funding of about 339 new and competing grants and 119 new and competing contracts. Continuation awards would be reduced by about 5 percent, though no projects would be terminated as a result. If the funds proposed for rescission were obligated, approximately 280 additional grants and 24 additional contracts would be made.

Training Awards. Planning funding for this program will permit the award of approximately 243 continuation awards and 80 new and competing awards. If the funds proposed for rescission were obligated, approximately 159 additional awards would be made.

Direct Operations. Under the proposed rescission, $6,249,000 for management overhead and related administrative costs, and $23,998,000 for intramural, laboratory and clinical research would be funded during 1975. The management and research activities would be reduced $377,000 and $337,000 respectively.

Appropriation Title and Symbol: National Institute of Neurological Diseases and Stroke 7550886 (See activities below)	Total Budgetary Resources	142,531,000 a/
	Amount proposed for rescission	30,283,000

Justification Program/Activity	Total Budgetary Resources	Total Reduction	Amount of Reduction to be Used for Pay Increases	Net Amount Proposed for Rescission
Research Grants	$ 91,748,000	$27,066,000	$ ---	$27,066,000
Research Contracts	10,060,000	1,431,000	---	1,431,000
Training Awards	14,156,000	1,513,000	---	1,513,000
Direct Operations	26,234,000	995,000	722,000	273,000
Total affected by rescission	142,198,000	31,005,000	722,000	30,283,000
Total unaffected by rescission	333,000			
Total budgetary resources	142,531,000			

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 budget outlays and is inconsistent with the Conference Report on the Labor/HEW Appropriation Bill which indicated Congressional willingness..."to give full consideration to such rescissions and deferrals"...as might be required to keep 1975 spending within the total budget estimate for the bill (p. 21, House Report No. 93-1489). Accordingly, a rescission of annual appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344)is proposed.

The proposed rescission can be accomplished without seriously altering the momentum in biomedical research achieved by sustained and substantial growth in the National Institutes of Health in recent years.

Research Grants and Contracts. A cutback is proposed in each research program to reduce outlays. Funding is being restricted to the highest priority projects for new and competing research programs. Continuation costs of ongoing projects will be reduced approximately five percent.

a/ This figure will be further reduced by $300 thousand as a result of the transfer of activities to Research Resources.

Fellowships and Training Grants. The funds proposed for rescission are unnecessary because in most research specialties, sufficient predoctoral students are being attracted to biomedical research without additional specific Federal inducements. Financial assistance is available under the general assistance loan programs of the Office of Education and the post-doctoral fellowship support in areas of specific research manpower shortages will be provided.

Direct Operations. In line with program reductions mentioned above, corresponding reductions would be made for related management support services. The proposed rescission will be directed primarily toward reducing overhead costs such as research grants and contracts management, services and supplies, and program evaluation contracts. The cutback should not seriously affect the overall management or research capability of the Institute.

Estimated Effects

Research Grants and Contracts. This proposal would permit the funding of about 171 new and competing grants and 19 new and competing contracts. Continuation awards would be reduced by about 5%, though no projects would be terminated as a result. If the funds proposed for rescission were obligated, approximately 437 additional grants and 11 additional contracts would be made.

Fellowships and Training Grants. Planned funding for this program will permit the award of approximately 190 continuation awards and 206 new and competing awards. If the funds proposed for rescission were obligated, approximately 108 additional new and competing awards would be made.

Direct Operations. Under the proposed rescission, $4,241,000 for management overhead and related administrative costs and $21,720,000 for laboratory and clinical research would be funded during 1975. Management and research activities would be reduced by $312,000 and $683,000 respectively.

Justification Program/Activity	Total Budgetary Resources	Total Reduction	Amount of Reduction to be Used for Pay Increases	Net Amount Proposed for Rescission
Research Grants	$124,568,000	$22,503,000	---	$22,503,000
Training Awards	51,867,000	8,000,000	---	8,000,000
Direct Operations	6,972,000	462,000	$171,000	291,000
Total affected by Rescission	183,407,000	30,965,000	171,000	30,794,000
Total unaffected by Rescission	6,517,000			
Total budgetary resources	189,924,000			

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 budget outlays and is consistent with the Conference Report on the Labor/DHEW Appropriation Bill which indicated Congressional willingness ..."to give full consideration to such rescissions and deferrals"... as might be required to keep 1975 spending within the total budget estimate for the bill (p. 21, House Report No. 93-1489). Accordingly, a rescission of annual appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344) is proposed.

The proposed rescission can be accomplished without seriously altering the momentum in biomedical research achieved by sustained and substantial growth in the National Institutes of Health in recent years.

Research Grants. A cutback is proposed in each research program to reduce outlays. Funding for new and competing research grants is being restricted to the highest priority projects. A reduction of approximately 5 percent is being made for continuation of ongoing projects.

a/ The figure will be further reduced by $30 thousand as a result of the transfer of funds to the Office of the Director.

Fellowships and Training Grants. Training funds proposed for rescission are unnecessary because provision is made for postdoctoral fellowship support in areas of specific research manpower shortages which for this Institute includes basic pathobiology, genetics, trauma and burn research, cellular and molecular biology, pharmacological sciences, systems and integrative biology, behavioral sciences related to medicine, clinical laboratory sciences, epidemiology and anesthesiology. Financial assistance is available under the general student loan program of the Office of Education.

Direct Operations. In line with the program reductions mentioned above, corresponding reductions would be made for related supporting management services. The proposed rescission will be directed primarily toward reducing overhead costs. The cutback should not seriously affect the overall management or research capability of the Institute.

Estimated Effects

Research Grants. Funds planned for this program will permit the funding of about 595 new and competing grants. Continuation awards would be reduced by about 5 percent, though no projects would be terminated as a result. If the funds proposed for rescission were obligated, approximately 22 additional grants would be made.

Training Awards. Planning funding for this program will permit the award of approximately 584 continuation awards and 260 new and competing awards. If the funds proposed for rescission were obligated, approximately 182 additional new and competing awards would be made.

Direct Operations. Under the proposed rescission, $6,651,000 for management overhead and related administrative costs would be funded during 1975. A reduction of $462,000 would be made.

Total budgetary resources	142,005,000 a/			

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 budget outlays and is consistent with the Conference Report on the Labor/HEW Appropriation Bill which indicated Congressional willingness..."to give full consideration to such rescissions and deferrals"...as might be required to keep 1975 spending within the total budget estimate for the bill (p. 21, House Report No. 93-1489). Accordingly, a rescission of annual appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344) is proposed.

The proposed rescission can be accomplished without seriously altering the momentum in biomedical research achieved by sustained and substantial growth in the National Institutes of Health in recent years.

Research Grants and Contracts. A cutback is proposed in each research program to reduce outlays. Funding is being restricted to the highest priority projects for new and competing research programs. A reduction of approximately 5 percent is being made for continuation costs of ongoing projects.

a/ This figure will be further reduced by $25,000 as the result of transferring public information functions to the Director, NIH.

Direct Operations. In line with the program reductions mentioned above, corresponding reductions would be made for related supporting management services. The proposed rescission will be directed primarily toward reducing overhead costs such as research grants and contracts management, services and supplies, and equipment. The cutback should not seriously affect the overall management or research capability of the Institute.

Estimated Effects

Research Grants and Contracts. This proposal will permit the funding of approximately 204 new and competing grants and 40 new and competing contracts. Continuation awards would be reduced by approximately 5 percent, though no projects would be terminated as a result. If the funds proposed for rescission were obligated, approximately 342 additional new and competing grants and 13 additional contracts would be made.

Direct Operations. Under the proposed rescission, $8,170,000 for management overhead and related administrative costs and $15,552,000 for intramural, laboratory and clinical research would be funded during 1975. This would reduce the management and research activities by $651,000 and $212,000 respectively. Funding would not be available for about 23 positions.

Appropriation Title and Symbol:	Total Budgetary Resources	44,148,000
National Eye Institute 75 0887	Amount proposed for rescission	6,512,000

Justification

Program/Activity	Total Budgetary Resources	Total Reduction	Amount of Reduction to be Used for Pay Increase a/	Net Amount Proposed for Rescission
Research Grants	$29,635,000	$5,919,000	---	$5,919,000
Research Contracts	2,322,000	198,000	---	198,000
Direct Operations	7,529,000	624,000	229,000	395,000
Total affected by rescission	39,486,000	6,741,000	229,000	6,512,000
Total unaffected by rescission	4,662,000			
Total budgetary resources	44,148,000			

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 budget outlays and is consistent with the Conference Report on the Labor/DHEW Appropriation Bill which indicated Congressional willingness ... "to give full consideration to such rescissions and deferrals"... as might be required to keep 1975 spending within the total budget estimate for the bill (p. 21, House Report No. 93-1489). Accordingly, a rescission of annual appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344) is proposed.

The proposed rescission can be accomplished without seriously altering the momentum in biomedical research achieved by sustained and substantial growth in the National Institutes of Health in recent years.

Research Grants and Contracts. A cutback is proposed in each research program to reduce outlays. Funding is being restricted to the highest priority projects for new and competing research programs. A reduction of approximately 5 percent is being made for continuation costs of ongoing projects.

Direct Operations. In line with the program reductions mentioned above, corresponding reductions would be made for related supporting management services. The proposed rescission will be directed primarily toward reducing overhead costs such as research grants, and contract management, services and supplies. The cutback should not seriously affect the overall management or capability of the Institute.

Estimated Effects

Research Grants and Contracts. Funds planned for this program will permit the funding of about 72 new and competing grants and 2 new and competing contracts. Continuation awards would be reduced by about 5 percent, though no projects would be terminated as a result. If the funds proposed for rescission were obligated, approximately 79 additional grants and 2 additional contracts would be made.

Direct Operations. Under the proposed rescission, $2,495,000 for management overhead and related administrative costs and $4,722,000 for laboratory and clinical research would be funded during 1975. The management and research activities would be reduced by $291,000 and $333,000 respectively. Funding would not be available for 30 positions.

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency Department of Health, Education, and Welfare	New budget authority (P.L. 93-517)	$ 34,999,000
Bureau National Institute of Health	Other budgetary resources	844,000
Appropriation Title & Symbol National Institute of Environmental Health Sciences 75508621	Total Budgetary Resources	35,793,000
	Amount proposed for rescission	6,922,000

Justification

Program/Activity	Total Budgetary Resources	Total Reduction	Amount of Reduction to be Used for Pay Increases	Net Amount Proposed for Rescission
Research grants.....	$17,602,000	$4,120,000	-	$4,120,000
Research contracts....	2,949,000	1,313,000	$ 11,000	1,302,000
Training awards.....	3,275,000	1,500,000	-	1,500,000
Direct operations.....	11,123,000	211,000	211,000	-
Total affected by the rescission.....	34,999,000	$7,144,000	$222,000	$6,922,000
Total unaffected by the rescission.....	844,000			
Total Budgetary Resources.....	$35,793,000			

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 budget outlays and is consistent with the Conference Report on the Labor/HEW Appropriation Bill which indicated Congressional willingness "...to give full consideration to such rescissions and deferrals..." as might be required to keep 1975 spending within the total budget estimate for the bill (p. 21, House Report No. 93-1489). Accordingly, a rescission of annual appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344) is proposed.

The proposed rescission can be accomplished without seriously altering the momentum in biomedical research achieved by sustained and substantial growth in the National Institutes of Health in recent years.

Research Grants and Contracts. A cutback is proposed in each research program to reduce outlays. Funding is being restricted to the highest priority projects for new and competing research programs. A reduction of approximately 5 percent is being made to continuation costs of ongoing projects.

Fellowships and Training Grants. Training funds proposed for rescission are unnecessary because financial assistance is available under the general student assistance programs of the Office of Education. Also, this proposal provides postdoctoral fellowship support in areas of specific research manpower shortages. The, for this institute, includes Environmental Biology - (Mutagenesis). Environmental Epidemiology and Statistics, Environmental Pathology-Pathophysiology, and Environmental Toxicology.

Direct Operations. In line with the program reductions mentioned above, corresponding reductions would be made for related supporting management services. The proposed rescission will be directed primarily toward reducing overhead costs such as research grants and contracts management, services and supplies, and program evaluation contracts. The cutback should not seriously affect the overall management or research capability of the Institute.

Estimated Effects

Research Grants and Contracts. Funds planned for this program would permit the funding of approximately 14 new and competing research grants (including Research Career Development Awards and Environmental Health Sciences Centers) and 4 new research contracts. Continuation awards would be reduced by approximately 5 percent. If the funds proposed for rescission were obligated, approximately 56 additional research grant awards and 12 additional research contract awards would be made.

Fellowships and Training Grants. Planned funding for this program will permit the award of 17 continuation training grants and 25 postdoctoral fellowships in areas of specific manpower shortages. If the funds proposed for rescission were obligated, training grant continuation reductions would be restored and an additional 7 new training grants would be awarded.

Direct Operations. Under the proposed rescission, $1,514,000 for management overhead and related administration costs and $9,609,000 for laboratory and clinical research would be funded during 1975. The management and research activities would be reduced by $79,000 and $132,000 respectively.

Total 1976 Outlays a/	Dollars in Millions
1975 Budget (February transmittal).....	$34
Without rescission (current estimate).....	35
With rescission (revised estimate).....	31
(Effect of action on 1976 outlays.....	-3)

a/ Includes only activities proposed for reduction.

National Institute of Environmental Health Sciences

Appropriations under this head for the fiscal year 1975 are rescinded in the amount of $6,922,000.

Rescission Proposal No. R75-67

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency: Department of Health, Education, and Welfare
Bureau: National Institutes of Health
Appropriation Title and Symbol:

Research Resources

7550848

New budgetary resources (P.L. 93-517)	$127,200,000
Other Budgetary Resources	---
Total Budgetary Resources	127,200,000[a/]
Amount proposed for reascission	$ 40,560,000

Justification Program/Activity	Total Budgetary Resources	Total Reduction	Amount of Reduction to be Used for Pay Increases	Net Amount Proposed for Rescission
Research Grants [d/]	$ 78,019,000	$ 3,679,000	---	$ 3,679,000
General Research Support Grants [d/]	43,000,000	43,000,000	6,219,000 [b/]	36,781,000
Training Awards	434,000	100,000	--- [b/]	100,000
Direct Operations	2,532,000	160,000	160,000 [b/]	---
Total affected by rescission	123,985,000	46,939,000	6,379,000	40,560,000
Total unaffected by rescission (Contracts)	3,215,000			
Total budgetary resources	127,200,000			

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 budget outlays and is consistent with the Conference Report on the Labor/DHEW Appropriation Bill which indicated Congressional willingness "...to give full consideration to such rescissions and deferrals..." as might be required to keep 1975 spending within the total budget estimate for the bill (p. 21, House Report No. 93-1489). Accordingly, a rescission of annual appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344) is proposed.

The proposed rescission can be accomplished without seriously altering the momentum in biomedical research achieved by sustained and substantial growth in the National Institutes of Health in recent years.

a/ This figure will be further increased by $300 thousand as a result of a transfer from the National Institute of Neurological Diseases and Stroke for funding the Caribbean Primate Center.
b/ Funds in the amount of $6,255,000 will be transferred to other agencies within the Department of Health, Education, and Welfare. Research Resources increased pay costs for Direct Operations equals $74,000.

Research Grants. A cutback is proposed in each research program to reduce outlays. Funding for new and competing research programs is being restricted to the highest priority projects. A reduction of approximately 5 percent is being made for continuation costs of ongoing projects.

General Research Support Grants. This rescission is proposed for the following reasons:

- The original intent of the General Research Support Grant program--to build up institutional biomedical research capabilities--has been largely accomplished;
- The institutions which are best able to compete for regular NIH project support--usually the wealthiest institutions--are also the ones which receive the largest formula awards through this program.

Fellowships and Training Grants. Training funds proposed for rescission are unnecessary because the proposed funding level provides postdoctoral fellowship support in areas of specific research manpower shortages, which for this Division includes laboratory animal sciences.

Director Operations. In line with the program reductions mentioned above, corresponding reductions would be made for related management support services. The proposed rescission will be directed primarily toward reducing overhead costs such as research grants and contracts management, services and supplies, and program evaluation contracts. The cutback should not seriously affect the overall management or research capability of the Division.

Estimated Effects

Research Grants. This proposal would permit the funding of about 23 new and competing grants. Continuation awards would be reduced by about 5 percent; though no projects would be terminated as a result. If the funds proposed for rescission were obligated, approximately 14 additional grants would be made.

General Research Support Grants. Under the rescission, no funding is planned for this program.

Training Awards. Funding for this program would provide for approximately 5 continuation awards and 15 new and competing awards. If the funds proposed for rescission were obligated, 1 new training award would be funded.

Direct Operations. Under the proposed rescission, $2,446,000 for management overhead and related administrative costs would be funded during 1975; and a reduction of approximately $160,000 would be made.

Total 1975 Outlays c/	Dollars in Millions
1975 Budget (February transmittal)	137
Without rescission (current estimate)	121
With rescission (revised estimate)	105
(Effect of action on 1976 outlays	-25)

c/ Includes only activities proposed for reduction.

d/ Minority Biomedical Support (competitive research grants to minority group-oriented institutions) is shown in "Research Grants," although its legislative authority is derived from "General Research Support." This proposal would fund the program at approximately the same level as 1974.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Research Resources

Appropriations under this head for fiscal year 1975 are rescinded in the amount of $40,560,000.

Rescission Proposal No. R75-68

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P. L. 93-344

Agency: Department of Health, Education, and Welfare	New budgetary resources (P. L. 93-517)	$5,589,000
Bureau: National Institutes of Health	Other Budgetary Resources	185,000
Appropriation Title and Symbol: Fogarty International Center for Advanced Study in the Health Sciences 7550819	Total Budgetary Resources	5,774,000 a/
	Amount proposed for rescission	1,020,000

Justification

Program/Activity	Total Budgetary Resources	Total Reduction	Amount of Reduction to be Used for Pay Increases	Net Amount Proposed for Rescission
Scholars	$2,185,000	$805,000	---	$805,000
Direct Operations	3,044,000	274,000	$59,000	215,000
Total affected by rescission	5,229,000	1,079,000	59,000	1,020,000
Total unaffected by rescission	545,000			
Total budgetary resources	5,774,000			

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 budget outlays and is consistent with the Conference Report on the Labor/HEW Appropriation Bill which indicated Congressional willingness..."to give full consideration to such rescissions and deferrals"...as might be required to keep 1975 spending within the total budget estimate for the bill (p.21, House Report No. 93-1489). Accordingly, a rescission of annual appropriations under Section 1012 of the Impoundment Control Act (P. L. 93-344) is proposed.

The proposed rescission can be accomplished without seriously altering the momentum in biomedical research achieved by sustained and substantial growth in the National Institutes of Health in recent years.

a/ This figure will be further reduced by $45 thousand as a result of the transfer costs of Public Affairs activities to the Office of the Director, NIH.

Scholars A cutback in scholarship awards is proposed to reduce outlays.

Direct Operations. In line with the program reductions mentioned above, corresponding reductions would be made for related supporting management services. The proposed rescission will be directed toward reducing research management and program services. The cutback should not seriously affect the overall management capability of the Center.

Estimated Effects

Scholars. This proposal would permit the award of approximately 70 scholarships. If the funds proposed for rescission were obligated, approximately 40 additional awards would be made.

Direct Operations. The reduction of $274,000 would be applied to the Center's Advanced Study Program, especially in the Preventive Medicine Studies.

Total 1975 Outlays a/	Dollars in Millions

Rescission Proposal No.: R75-69

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency Department of Health, Education, and Welfare	New budget authority (P.L. 93-517) $ 28,450,000
Bureau National Institutes of Health	Other budgetary resources $ 182,000
Appropriation Title & Symbol	Total Budgetary Resources $ 28,632,000
Appropriation Title & Symbol National Library of Medicine 7550807	Amount proposed for rescission $ 385,000

Justification

Program/Activity	Total Budgetary Resources	Total Reduction	Amount of Reduction to be Used for Pay Increases	Net Amount Proposed for Rescission
Medical Library Assistance	6,682,000	605,000	220,000 a/	385,000
Direct Operations	4,618,000	223,000	223,000	---
Total affected by rescission	11,300,000	828,000	443,000	385,000
Total unaffected by rescission	17,332,000			
Total budgetary resources	28,632,000			

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 budget outlays and is consistent with the Conference Report on the Labor/DHEW Appropriation Bill which indicated congressional willingness "...to give full consideration to such rescissions and deferrals..." as might be required to keep 1975 spending within the total budget estimate for the bill (p. 21, House Report No. 93-1489). Accordingly, a rescission of annual appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344) is proposed.

Medical Library Assistance. The proposed rescission includes the elimination of lower priority new and competing grants and contracts to regional medical libraries and approximately a five percent reduction in the continuation costs of previously-funded projects.

Direct Operations. The proposed rescission will be directed primarily towards reducing management and administrative costs. With the remaining funds available, the Library will be able to continue to operate at its 1974 level.

Estimated Effects

a/ Includes pay increases to be used for Direct Operations.

R75-69

Medical Libraries Assistance Grants and Contracts. This proposal would permit the funding of about 34 new and competing grants and 12 new and competing contracts. Continuation awards would be reduced by five percent, though no projects would be terminated as a result. If the funds proposed for rescission were obligated, approximately 27 additional grants and five additional contracts would be made.

Direct Operations. This proposal would provide $4,438,000 for management overhead and $23,809,000 for Library program services during 1975. The approximately $180,000 and $205,000 would be reduced respectively. Management and library program activities would be reduced $180,000 and $205,000 respectively.

Total 1975 Outlays a/	Dollars in Millions

Appropriations under this head for the fiscal year 1975 are rescinded in the amount of $385,000.

Rescission No: R75-70

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency - Department of Health, Education and Welfare	New budget authority (P.L. 93-517)	$ 781,358,000
	Other budgetary resources	58,949,000
Bureau - Alcohol, Drug Abuse, and Mental Health Administration	Total Budgetary Resources	840,307,000
Appropriation Title & Symbol - Alcohol, Drug Abuse and Mental Health 7551361	Amount proposed for rescission	103,894,000

Justification:

Program/Activity	Total Budgetary Resources	Total Reductions	Amount of Reduction to be used for Pay Increase b/	Net Amount Proposed for Rescission
Mental Health:				
Research	$94,243,000	$11,930,000	$ 322,000	$11,608,000
Training	97,737,000	30,839,000	1,574,000	29,265,000
Management and Information	19,025,000 a/	40,000	40,000	---
Subtotal	211,005,000	42,809,000	1,936,000	40,873,000
Drug Abuse:				
Research	34,000,000	2,477,000	65,000	2,412,000
Training	14,035,000	4,066,000	238,000	3,828,000
Project Grants and Contracts	122,000,000	1,123,000	---	1,123,000
Management and Information	14,880,000 a/	1,520,000	217,000	1,303,000
Subtotal	184,915,000	9,186,000	520,000	8,666,000
Alcohol:				
Research	10,998,000	1,984,000	12,000	1,972,000
Training	11,420,000	5,900,000	1,348,000	4,552,000
Project Grants and Contracts	80,940,000	40,407,000	---	40,407,000
Grants to States	57,000,000	6,400,000	---	6,400,000
Management and Information	10,435,000 a/	1,124,000	100,000	1,024,000
Subtotal	165,793,000	55,815,000	1,460,000	54,355,000
Total Affected by Rescission	561,713,000	107,810,000	3,916,000	103,894,000
Total Unaffected by Rescission	278,594,000			
Total Budgetary Resources	840,307,000			

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 budget outlays, and is consistent with the Conference Report on the Labor/HEW Appropriations Bill which indicated Congressional willingness "...to give full consideration to such rescissions and deferrals..." as might be required to keep 1975 spending within the total budget estimate for the bill (p. 21, House Report 93-1489). Accordingly, a rescission of annual appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344) is proposed.

Research: In order to restrict outlays, a cutback is proposed in each research program. For new and competing research programs, funding is being restricted to the highest priority projects. For continuation costs of ongoing projects, approximately a 5 percent reduction is being made.

Training Grants and Fellowships: For new and competing training programs, funding is being restricted to the highest priority projects. Additional training funds are proposed for rescission because:

-- in most research specialties, sufficient predoctoral students are being attracted to biomedical research without additional specific Federal inducements.
-- financial assistance is available under the general student assistance loan programs of the Office of Education.
-- the President's Budget provides postdoctoral fellowship support in areas of specific research manpower shortages.

Project Grants and Contracts

Drug Abuse: The proposed program level allows continued support of the 95,000 treatment slots supported in FY 1974. In addition, some new demonstration grants can be supported without the Congressional increase. Funds to support drug projects will continue to be provided through formula grants, for which the revised budget is $10 million above the FY 1974 appropriation.

Alcohol: The proposed program level provides for all non-competing continuations, competing continuation awards to Indian and poverty projects and new funds for awards such as the Uniform Act and incentive contracts. In addition, funds for alcohol projects are available through formula grants at the same level as in FY 1974.

Grants to States (Alcohol): The proposal provides the same amount for alcohol awards to States as the FY 1974 appropriation and recommends rescission of the Congressional increase as being an unwarranted increase given the restrictive fiscal situation.

Management and Information: The proposed program level will be directed primarily toward reducing overhead costs such as travel, information systems, and funds to fill additional positions.

Estimated Effects

General Mental Health:

Research - This proposal would still permit the funding of 84 competing and 800 non-competing priority awards. Continuation awards would be reduced by 5 percent, but no projects should terminate as a result. If the funds proposed for rescission were obligated, approximately 300 additional new and competing grants would be awarded.

Training - This proposal would support the students in the ongoing training grant programs and would provide funds for 1,216 training grant and fellowship continuation awards and 300 new followship awards. If the funds proposed for rescission were obligated, 515 new training grant and fellowship awards would be made. The funds would also be used to permit institutions with ongoing training grants to make new individual awards as students complete their committed training periods.

Management and Information - Travel funds would be reduced by $40,000.

Drug Abuse:

Research - This proposal would permit the funding of 59 competing and 236 non-competing priority awards. Continuation awards will be reduced by 5 percent, but no projects should terminate as a result. If the funds proposed for rescission were obligated, approximately 23 additional new awards would be made.

Training - Planned funding for this program would permit the phase-out of the training grant program as individual students complete their commitments, and the award of approximately 59 continuation grants and contracts and fellowships. If the rescinded funds were obligated, approximately 41 new and competing awards would be made. The funds would also be used to permit institutions with ongoing training grants to make new individual awards as students complete their committed training periods.

Community Programs - Planned funding for this program permits the funding of 95,000 drug abuse treatment slots, 15 continuation awards in the drug abuse education area, and 31 new and continuation treatment demonstration projects. If the rescinded amounts were obligated an additional 2 new treatment demonstration projects could be awarded.

Management and Information - Planned rescissions would reduce funds available to support the Drug Abuse Financial Management Information System and for technical assistance in other Drug Abuse Information Systems.

Alcoholism:

Research - Funds planned for this program will permit the funding of 32 competing and 79 non-competing awards. If the rescinded funds were obligated, approximately 32 additional new and competing awards would be made.

Training - Planned funding for this program will permit the phase-out of the training grant programs as individual students complete their commitments, and the awarding of approximately 29 continuation awards and approximately 76 new awards. If the rescinded funds were obligated, 70 new training grant awards could be made. The funds would also be used to permit institutions with ongoing training grants to make new individual awards as students complete their committed training periods.

Project Grants and Contracts - Under the plan, 217 new and competing and 78 non-competing awards will be made for a variety of project grants and contracts including 96 to provide an additional year of funding to a select number of high priority projects. If the rescinded funds were obligated, approximately 534 new projects could be awarded as well as 188 competing renewals.

Grants to States - Under the plan, all States and territories will receive the same amount of funds as in FY 1974. If the rescinded funds were obligated, most States would receive additional funding.

Management and Information - Under the rescission, 20 positions would not be filled and the National Alcohol Education Center contract would be reduced.

Total 1975 Outlays c/	Dollars in Millions
1975 Budget (February Transmitted)	$587
Without Rescission (Current Estimate)	597
With Reacission (Revised Estimate)	581
(Effect of Action on 1976 Outlays	-57)

Footnotes:

a/ Adjusted from $19,240,000 for Mental Health, $14,864,000 for Drug Abuse, and $10,163,000 for Alcohol to reflect a redistribution among the three Institutes and Program Direction of the $3,500,000 increase for restored positions and the reduction of $234,000 in travel. In addition, $344,000 is proposed for reprogramming from General Mental Health Research to cover the cost of physician's bonus pay. With this exception, the total available for ADAMHA direct operations remains the same as the amount made available by Congress in the HEW-Labor Appropriations Bill.

b/ Includes pay raise for Saint Elizabeths Hospital ($2,326,000) and ADAMHA Program Direction ($373,000).

c/ Includes only activities proposed for reduction.

Department of Health, Education, and Welfare

Alcohol, Drug Abuse, and Mental Health

Appropriations under this head for the fiscal year 1975 are rescinded in the amount of $103,894,000.

Rescission Proposal No.: R75-71

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency: Department of Health, Education, & Welfare	New budgetary resources (P.L. 93-517 and 93-554)	$ 155,433,000
Bureau: Health Resources Administration	Other budgetary resources	5,055,336
Appropriation Title & Symbol: Health Resources 7550712 (See activities below)	Total Budgetary Resources	160,488,336
	Amount proposed for rescission	$ 25,477,000

Justification

Program/Activity	Total Budgetary Resources	Total Reduction	Amount of Reduction to be Used for Pay incr.	Net Amount Proposed for Rescission
Health Manpower:				
Health Professions Student Loans	$ 36,000,000	$ 6,000,000	$ 2,823,000	$ 3,177,000
DC Medical/Dental Manpower Assistance	7,500,000	7,500,000	---	7,500,000
National Health Service Scholarships	22,500,000	10,000,000	---	10,000,000
Nursing Student Loans	22,800,000	4,800,000	---	4,800,000
Total affected by rescission	$ 88,800,000	$28,300,000	$ 2,823,000	$25,477,000
Total unaffected by rescission	71,688,336			
Total Budgetary resources	$160,488,336			

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 budget outlays, and is consistent with the Conference Report on the Labor/HEW Appropriations Bill which indicated Congressional willingness"...to give full consideration to such rescissions and deferrals..." as might be required to keep 1975 spending within the total budget estimate for the bill (p. 21, House Report No. 93-1489). Accordingly, a rescission of annual appropriations under Section 1012 of the Impoundment Control Act (P. L. 93-344) is proposed.

The rescission of all increases above the budget request is proposed to effect fiscal restraint. In addition, rescission of $10 million below the budget request is proposed for the National Health Service Scholarship program.

Estimated Effects

Health Professions Student Loans

This program is funded on a current year basis and is now supporting approximately 23,000 students. This level of support can be maintained despite the rescission. If the amount proposed for rescission were obligated, an additional 4,000 students would be assisted in academic year 1974-75.

DC Medical/Dental Manpower Assistance

This action would rescind institutional support funds appropriated specifically for the George Washington University Medical School, the Georgetown Medical School and the Georgetown Dental School. In the current 1974-75 academic year these schools have approximately $11.6 million in 1974 health manpower appropriations available for institutional support. These schools will be eligible to compete on the same terms with all other medical and dental schools for funding comparable to the 1974 amount from funds appropriated to the Department in 1975.

National Health Service Scholarships

The current program level would support 1,100 students. This level of support can be maintained despite the rescission. If the amount proposed for rescission were obligated, an additional 1,000 students would be assisted.

Nursing Student Loans

This program is funded on a current year basis with approximately 22,500 students currently supported. This level of support can be maintained despite the rescission. If the rescinded amount were obligated, an additional 4,800 students would be assisted in academic year 1974-75.

Total 1975 outlays a/	Dollars in Millions
1975 Budget	$89

Health Resources

Appropriations under this head for the fiscal year 1975 are rescinded in the amount of 25,477,000, of which $7,500,000 shall be from funds provided under the District of Columbia Medical and Dental Manpower Act of 1970, as amended.

SUPPLEMENTARY REPORT

Report pursuant to Sec. 1014(c)
of P.L. 93-344

This supplementary message modifies Rescission No. R75-29 transmitted in the special message of November 26, 1974, and printed as House Document No. 93-398. That rescission was submitted in order to achieve the withholding of the unobligated balances of 1973 and 1974 appropriations for medical facilities construction (Hill-Burton program) allotted to States, but not approved or obligated for specific construction projects by the Department of Health, Education, and Welfare.

Rescission No. R75-29 identified as the amount proposed for rescission the sum of $372,465,933, representing the unobligated balance of 1973 and 1974 appropriations brought forward on July 1, 1974. Between July 1, 1974, and December 16, 1974 -- the effective date of this rescission proposal -- additional obligations and commitments under the Hill-Burton program were incurred in the amount of $87,746,601. This included: $46,270,810 in obligations for construction projects initiated during this period; $3,729,190 for the Federal share of the State Hill-Burton agencies' administrative expenses; and $37,746,601 in total commitments to construction projects that received Part I approvals before December 16, 1974. The remaining amount of the proposed rescission, therefore, is $284,719,332. No other changes have been made from the previous report.

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency Department of Health Education and Welfare	New budget authority (P.L.)	$ ---
Bureau Health Resources Administration	Other budgetary resources	284,719,332*
Appropriation Title & Symbol	Total Budgetary Resources	284,719,332*
Health Services Planning, and Development 753/50321 754/60321	Amount proposed for rescission	284,719,332*

Justification*

Program/Activity	Total Budgetary Resources	Total Reduction	Amount of Reduction to be Used For Pay Increase	Net Amount Proposed for Rescission
Medical Facilities Construction.....	$284,719,332	$284,717,332	---	$284,719,332

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 budget outlays. A rescission of annual appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344) is proposed.

In order to avoid further stimulation of hospital construction at a time of a general national oversupply of hospital beds, a rescission of 1973 and 1974 appropriations for medical facilities construction is proposed. The suboptimal occupancy rates associated in large part with that oversupply are a factor contributing to the growing cost of medical care generally, and of hospital costs in particular. Based upon the spending history of the Hill-Burton program, $284 million in Federal matching grants could be expected to help fund construction projects totaling $1.1 billion. This sum translates to the potential addition of approximately 22,000 new hospital beds. Although many of these new beds would be replacing obsolete ones, a significant percentage would represent an increment to the current national oversupply of hospital beds.

Funds proposed for rescission would include those unobligated balances for which there have been no Part I approvals or obligations for specific construction projects by the Department. A Part I approval of an application (in a four part review process) represents a genuine funding commitment to a project

* Revised from previous submission.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Health Resources Administration
Health Resources

Unobligated balances of appropriations for grants under Part A of Title VI of the Public Health Service Act are rescinded in the amount of $284,719,332.

by the Federal government, although an actual obligation of funds has not taken place. Therefore, funds for projects which received such approvals prior to December 16, 1974 are not included in the amount proposed for rescission.

Estimated Effects*

Of the $384.5 million appropriated in 1973 and 1974 for medical facilities construction, $99.6 million has been committed to fund approximately 200 construction projects. If the rescinded amount were obligated an estimated 630 additional projects would be assisted.

Rescission Proposal No. R75-72

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency Department of Health, Education, and Welfare	New budgetary resources (P.L. 93-517 and 93-554)	$4,465,893,000
Bureau Office of Education	Other budgetary resources	8,000,000
Appropriation Title & Symbol Elementary and Secondary Education - 7550279 7550279 75/50279	Total Budgetary Resources	4,473,893,000
	Amount proposed for rescission	35,856,250

JUSTIFICATION

Program/Activity	Total Budgetary Resources	Total Reduction	Amount of Reduction To Be Used For Pay Increases	Net Amount Proposed For Rescission
-Strengthening State Departments of Education.....	$ 39,425,000	$ 9,856,250	---	$ 9,856,250
-Bilingual Education...	85,000,000	15,000,000	---	15,000,000
-Follow Through.....	53,000,000	6,000,000	---	6,000,000
-Educational Broadcasting Facilities....	12,000,000	5,000,000	---	5,000,000
Total Affected By Rescission.....	189,425,000	35,856,250	---	35,856,250
Total Budgetary Resources Not Affected By Rescission.....	4,284,468,000			
Total.....	$4,473,893,000			

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 and 1976 budget outlays, and is consistent with the Conference Report on the Labor/DHEW Appropriations Bill which indicated Congressional willingness "...to give full consideration to such rescissions and deferrals..." as might be required to keep 1975 spending within the total budget estimate for the bill (p. 21, House Report No. 93-1489). Accordingly, a rescission of annual appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344) is proposed.

Strengthening State Departments of Education--The proposed rescission would encourage States to control overhead and administrative expenses as the Federal Government is in the process of doing. Only the amount of the fourth quarter allocation would be rescinded.

Bilingual Education--Funds are proposed for rescission on the grounds that the Congressional increase of $15,000,000 beyond the budget request of $70,000,000 is excessive. The 1975 budget request included an increase of nearly 20 percent over the 1974 level. The amount included by the Congress represents about a 45 percent increase over the 1974 level.

These funds are considered excessive because they build in a basis for an even larger Federal role in this program, even without any formal expansion of a defined Federal role.

Follow Through--Follow Through is an experimental compensatory education program designed to test and validate effective approaches to the education of disadvantaged children in early primary grades (kindergarten-3). The 1975 budget reflects plans initiated in 1974 to phase out this program upon successful completion of experimental objectives and in coordination with an extensive evaluation. The proposed rescission eliminates funding to support a new entry level class. Additional classes are not necessary for achievement of the experimental purposes of this program.

Educational Broadcasting Facilities--This program already provides more than 80 percent of the Nation with ETV coverage and more than 65 percent with full-service public radio coverage. At a $7 million level, an emphasis on the replacement or updating of equipment will be made while coverage goals are achieved. The reduced level is a step towards phasing out Office of Education support of broadcast facilities.

ESTIMATED EFFECTS

Strengthening State Departments of Education--The rescission of $9,856,250 would mean that States would have to absorb or find alternate sources of funds to pay part or all of the salaries of about 2,300 persons employed by State Educational Agencies and about 105 persons employed by local school districts for the fourth quarter of 1975.

Bilingual Education--The proposed funding level of $70,000,000 for this program would permit 311 continuing classroom projects serving about 217,000 students and providing inservice training for some 12,000 classroom personnel; support 100 graduate fellowships; provide preservice training funds for 714 students (at an average grant of $3,500); and support for an estimated 13 grants for materials development, assessment and dissemination. The funds proposed for rescission would allow an estimated 22 new classroom projects serving about 15,000 more students, support an additional 270 graduate fellowships, provide preservice training funds for an

additional 855 students, and initiate bilingual-vocational education programs newly authorized by Part J of the Vocational Education Act.

Follow Through--The proposed funding level of $47,000,000 for this program will permit continuation in school year 1975-76 of the kindergarten, first, and second grade classes currently enrolled. The funds proposed for rescission would provide partial funding for a new entry class to be included in 1975.

Educational Broadcasting Facilities--The President's proposed funding level of $7,000,000 for this program will permit the award of 40-45 new grants. The funds proposed for rescission would allow an additional 15 new grants to be awarded.

	Amount proposed for rescission	102,500,000

JUSTIFICATION

Program/Activity	Total Budgetary Resources	Total Reduction	Amt. of Red. to be used for Pay Increases	Net Amt. Prop. for Rescission
-State grant program, FY 1975	$100,000,000	52,500,000	--	52,500,000
-State grant program, FY 1976	100,000,000	50,000,000	--	50,000,000
Total affected by proposed rescission	200,000,000	102,500,000	--	102,500,000
Total not affected by proposed rescission ..	99,609,000			
Total	299,609,000			

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 and 1976 budget outlays, and is consistent with the Conference Report on the Labor/HEW Appropriations Bill, which indicated Congressional willingness "... to give full consideration to such rescissions and deferrals..." as might be required to keep 1975 spending within the total budget estimate for the bill (p. 21, House Report No. 93-1489). Accordingly, a rescission of 1975 and 1976 appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344) is proposed.

State grant program, 1975--The proposed rescission of $52,500,000 maintains the 1974 level of $47,500,000. The proposed rescission assumes that the primary responsibility for providing basic educational services to handicapped children should remain a State and local responsibility. State and local governments now spend over $2 billion for such services. The proposed rescission assumes that the Federal role should be one of leadership and improving the capacity of the educational system through demonstration, research and training activities for which funds are included in the budget.

State grant program, FY 1976--Funds for fiscal year 1976 (school year 1975-76) were requested along with the 1975 budget in order to place the State grant program on an advance-funded basis. A rescission is requested now for FY 1976 funds to maintain the program at the 1975 proposed level with only a slight increase to cover the increased minimum State allotments provided for in the Education Amendments of 1974.

ESTIMATED EFFECTS

State grant program, FY 1975--The President's proposed level would provide educational services to a quarter of a million children in nearly 2,000 projects. The funds proposed for rescission could support an additional 2,200 projects serving 200,000 new studenta.

State grant program, FY 1976--The President's proposed level for 1976 will continue the program at the 1975 proposed level of funding. The funds proposed for rescission would continue support for the 2,200 projects serving 200,000 new students provided for in the increased appropriation for 1975.

a/Includes $7,161,455 of permanent appropriation authorized by Smith-Hughes Act.

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 and 1976 budget outlays, and is consistent with the Conference Report on the Labor/DHEW Appropriations Bill which indicated Congressional willingness "...to give full consideration to such rescissions and deferrals..." as might be required to keep 1975 spending within the total budget estimate for the bill (p. 21, House Report No. 93-1489). Accordingly, a rescission of 1975 appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344) is proposed.

Basic Vocational Education Grants--The Congressional increase of $15,631,000 beyond the 1974 level is proposed for rescission on the grounds that vocational education already receives high priority among the States and many States are likely to meet any need for increased funding. In fact, all States currently overmatch the 50-50 matching requirement in the basic grants program. On the average, States overmatch by as much as 5 to 1, and some States overmatch by as much as 10 to 1.

Consumer and Homemaking Education, Work-Study--The proposed rescissions of the Congressional increases of $5,000,000 for consumer and homemaking education and $2,000,000 for work-study would reduce available funding to the President's original budget request. Further expansion is not recommended at this time because legislation to consolidate vocational education activities is being developed.

Vocational Education, EPDA, Part F--The proposed rescission of $9,000,000 would terminate this categorical training program in 1975. This activity provides support to assist State and local education agencies and institutions of higher education in their efforts to recruit and train individuals in the areas of career and vocational education. Financial assistance for those who wish to pursue a career in vocational education will be available in the form of general student support under the Higher Education budget. In addition, vocational education basic grants may be used for this purpose.

Higher Education, EPDA, Part E--The proposed rescission of $2,100,000 would terminate this program in 1975. This program authorizes training for present or prospective college teachers, administrators and educational specialists at less than the doctoral level. No funds are needed for this program because of the general surplus of persons available to teach at the postsecondary level and because funding of general student support under the Higher Education budget will enable students to finance their own education.

Adult Education--The $4,181,000 appropriated above the President's budget request is designed to carry out the "hold harmless" provisions in the substantive legislation. The rescission is proposed on the grounds that a slight decrease in funds from 1974 for some States is appropriate in the light of the need for fiscal restraint. Appropriation language is included to eliminate the "hold harmless" requirement for FY 1975 only.

Ethnic Heritage Studies--The proposed rescission of $1,800,000 would terminate this program. The principal reason for not requesting support is that there is additional authority for ethnic heritage studies programs without the funding of this particular categorical authority. For example, curriculum materials can be developed and disseminated by the National Institute of Education and the Office of Education within their present authorities. Assistance is provided in the 1975 budget for bilingual-bicultural programs benefitting several ethnic groups. Assistance is also provided for developing institutions of higher education enrolling large numbers of minority students. These institutions are able to provide special programs in ethnic studies.

ESTIMATED EFFECTS

Basic Vocational Education Grants--The proposed funding level for this program will permit us to provide the same level of support to the States as in 1974. The impact of the rescission will either be to support approximately 9.5 million students (about 1.2 million less than if the rescinded funds were obligated) or to make a prorata reduction in per pupil expenditure for all students.

Consumer and Homemaking Education--The impact of the President's proposed funding level of $30,994,000 for this program will either be to support approximately 3.6 million students (about 400,000 less than if the rescinded funds were obligated) or to make a prorata reduction in per pupil expenditure for all students.

Work-Study--The impact of the proposed funding level of $7,849,000 for this program will either be to support approximately 30,000 students (about 3,000 less than if the rescinded funds were obligated) or to make a prorata reduction in per pupil expenditure for all participants.

Vocational Education, EPDA, Part F--The President's budget proposed the termination of this categorical training program in 1975 and reliance on general student aid for training purposes. Of the funds proposed for rescission, $5.0 million would be used for 56 State-wide systems and $4.0 million would support 10 institutes serving 200 individuals.

Higher Education, EPDA, Part E--The President's budget proposed termination of this training program in 1975 and reliance on general student aid for training purposes. The funds proposed for rescission would allow continuation of 80 fellowships ($530,000) and 28 institutes for 840 individuals ($1,570,000).

Adult Education--The proposed funding level of $63,319,000 for this program would provide the same level of support to the States as in 1974 when nearly 820,000 persons were served. The amount proposed for rescission would support an additional estimated 340,000 persons and would permit funding of a "hold harmless" provision in the authorizing legislation specifying that no State shall receive less than 90 percent of the grant amounts received in FY 1973.

Ethnic Heritage Studies--The funds proposed for rescission would provide for 32 new grants.

Total affected by proposed rescissions	$70,000,000	$58,300,000	---	$58,300,000
Total not affected by proposed rescission	2,496,841,213			
Total	2,566,841,213			

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 and 1976 budget outlays, and is consistent with the Conference Report on the Labor/DHEW Appropriations Bill which indicated Congressional willingness "...to give full consideration to such rescissions and deferrals..." as might be required to keep 1975 spending within the total budget estimate for the bill (p. 21, House Report No. 93-1489). Accordingly, a rescission of annual appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344) is proposed.

Language Training and Area Studies--The proposed rescission of $4,000,000 would reduce support of this program to the level requested by the President. Over the past 17 years this program has helped establish more than 100 foreign language and area studies centers in American higher education and has helped develop a pool of more than 5,000 highly trained specialists on the non-Western world. Today more than 90% of the funding for this program comes from universities and external sources. The proposed rescission is based on a diminished need for Federal support.

Uuniversity Community Services (HEA I)--The proposed rescission would terminate a program which fails to direct aid to areas of greatest need. The campus and community cooperation facilitated by the program is regarded as primarily a State and local concern.

Aid to Land-Grant Colleges, Annual Appropriation--The proposed rescission would terminate a program which dates back to 1935 and represents a very small percentage of the operating costs of recipient schools, including some of the strongest and most prestigious institutions of learning in the country.

Postsecondary Education Commissions--The proposed rescission would eliminate grants for State planning of postsecondary education and for fourth quarter support of the State agency costs of administering programs of Federal grants for undergraduate construction (HEA VII-A) and undergraduate equipment (HEA VI-A). Planning of State postsecondary education is regarded as a State responsibility.

Veterans Cost of Instruction Program--The proposed rescission would terminate a program which helped some schools establish and operate special programs for returning Vietnam veterans. The high point of need for the funds has already passed, and the 1975 appropriation would not be expended by recipient institutions before fiscal year 1976.

Public Service & Mining Fellowship Programs--The proposed rescission assumes that Federal funds should be concentrated on general aid to students, that career selection is better left to the individual, and that institutions can and have established programs in response to student needs without the stimulus of a Federal program.

ESTIMATED EFFECTS

Language Training and Area Studies - Centers, Fellowships, and Research (NDEA VI)-- The proposed rescission would not reduce the 50 centers currently funded, the number funded during the two previous years. It is estimated that 14 undergraduate centers would be added at the appropriated level. The number of research and exemplary projects would be reduced from the appropriated level of 86 to the budgeted level of 47. The number of fellowships would be reduced to 604 versus about 690 at the appropriated level. The rescission would reduce the Fulbright-Hays program from the appropriated level of $2,700,000 to the 1974 level of $1,360,000.

University Community Services (HEA I)--The rescission would terminate the program, including fourth quarter State agency administrative expenses. The appropriation would fund an estimated 626 State grant projects and 11 experimental and demonstration projects.

Aid to Land-Grant Colleges, Annual Appropriation--The proposed rescission would eliminate grants to 72 land-grant institutions in 54 jurisdictions ranging from $200,000 to $383,900 per institution.

State Postsecondary Education Commissions--The proposed rescission would eliminate $2 million in grants to States for comprehensive planning of postsecondary education (HEA Sec. 1203) as well as fourth quarter support of State agencies administering Federal undergraduate construction and equipment programs.

Veterans Cost of Instruction Program--The proposed rescission would terminate the program. The funds proposed for rescission would provide grants of about $17,500 to approximately 1,350 institutions.

Public Service Fellowships--Under the proposed rescission, this new categorical program would not be initiated. The funds (under HEA IX-A and C) proposed for rescission would provide an estimated 23 grants to to graduate institutions and 261 fellowships to facilitate training for public service.

Mining Fellowships--Under the proposed rescission, this new categorical program would not be initiated. The funds proposed for rescission would provide 258 fellowships for persons interested in domestic mining and mineral conservation.

OFFICE OF EDUCATION
HIGHER EDUCATION

Appropriations under this head for the fiscal year 1975 are hereby rescinded in the amount of $58,300,000, of which $23,750,000 shall be from funds for carrying out section 420 of the Higher Education Act.

Rescission Proposal No.: R75-76

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency Department of Health, Education and Welfare	New budget authority (P.L.93-517 & 93-554)	$167,474,000
Bureau Office of Education	Other budgetary resources	5,224,000
Appropriation Title & Symbol	Total Budgetary Resources	172,698,000
Library Resources 7550212	Amount proposed for rescission	$49,433,000

JUSTIFICATION

Program/Activity	Total Budgetary Resources	Total Reduction	Amount of Reduction to be used for Pay Increases	Net Amount Proposed for Rescission
- Public libraries	$ 51,749,000	$26,750,000	$2,792,000	$23,958,000
- School library resources	95,250,000	5,000,000	---	5,000,000
- College library resources	9,975,000	9,975,000	---	9,975,000
- Undergraduate instructional equipment	7,500,000	7,500,000	---	7,500,000
- Training and demonstrations	3,000,000	3,000,000	---	3,000,000
Total affected by proposed rescissions	$167,474,000	$52,225,000	$2,792,000	$49,433,000
Total not affected by proposed rescission	5,224,000			
Total	172,698,000			

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 budget outlays, and is consistent with the Conference Report on the Labor/DHEW Appropriations Bill which indicated Congressional willingness "...to give full consideration to such rescissions and deferrals..." as might be required to keep 1975 spending within the total budget estimate for the bill (p. 21, House Report No. 93-1489). Accordingly, a rescission of annual appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344) is proposed.

Public libraries--The proposed reduction of $26,749,000 of which $2,792,000 would be transferred to other accounts for pay raise purposes would continue efforts to change the Federal role in this area. New legislation, the Library Partnership Act, has been proposed which would replace the present formula grant program with a project grant program which would target Federal resources more effektively on the integration of library and information services, the demonstration of new methods for delivery of library services, and the focusing of these services on higher priority target populations, such as the disadvantaged. The proposed rescission would avoid expanding the present program while this new legislation is being considered.

School library resources--The proposed rescission of $5 million would eliminate a marginal increase of this amount over the 1974 operating level of $90,250,000.

College library resources and undergraduate instructional equipment--Rescissions of $9,975,000 and $7,500,000, respectively, are proposed. The college library resources rescission is proposed on the grounds that this program is a marginal and inefficient source of support for higher education institutions. Small amounts are allocated annually to practically every institution of higher education, including some of the wealthiest in the country. In addition, both the library resources and instructional equipment programs are considered less effective forms of Federal support than student assistance programs which expand the opportunities of individuals to select the education of their choice.

Training and demonstrations--The proposed rescission of $3 million would eliminate Federal support of these activities. The proposed rescission of training funds is consistent with efforts to move away from specialized manpower training programs in favor of general student assistance programs which allow individuals to receive training in the area of their choice, including library training. The proposed elimination of support for library demonstrations is made on the grounds that such projects could supported under proposed Library Partnership Act.

ESTIMATED EFFECTS

Public libraries--The proposed rescission of $23,958,000 will require State and local governments to absorb a greater portion of the costs of basic public library services. To the degree that State and local

projects are dependent on Federal support and are unable to maintain current levels, there will be some reduction in hours of service, numbers of personnel and acquisition of books and materials.

School library resources--The President's proposed level would provide textbooks and instructional materials to approximately 48 million elementary and secondary school children. The funds proposed for rescission would provide additional textbooks and materials, but would not necessarily serve a larger number of children.

College library resources--The proposal in the President's budget was to terminate this program because it provides marginal support to colleges and universities irrespective of need. The $9,975,000 proposed for rescission would provide basic grants averaging about $4,300 to approximately 2,300 institutions of higher education.

Undergraduate instructional equipment--The proposed rescission would terminate this program. The $7,500,000 proposed for rescission would provide grants to 1,100 institutions of higher education.

Training and demonstrations--The proposed rescission would terminate this program. The $3,000,000 proposed for rescission would have provided 120 fellowships, the training or retraining of about 540 persons in educational institutions, and about 14 research awards.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE
OFFICE OF EDUCATION
LIBRARY RESOURCES

Appropriations under this head for the fiscal year 1975 for "Library Resources" are hereby rescinded in the following amounts:

$21,364,000 for title I and $2,594,000 for title III of the Library Services and Construction Act; $5,000,000 for title II of the Elementary and Secondary Education Act; and $12,975,000 for title II and $7,500,000 for title VI of the Higher Education Act.

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency Department of Health, Education and Welfare	New budgetary resources (P.L. 93-517) $ 12,111,731,000
Bureau Social and Rehabilitation Service	Unobligated balance from prior years ---
Appropriation Title & Symbol	Total Budgetary Resources 12,111,731,000
Public Assistance - 754/50581	Amount proposed for rescission 12,900,000

Justification:

Program/Activity	Total Budgetary Resources	Total Reduction	Amount of Reduction to be used for Pay Increases	Net Amount Proposed For Rescission
Child Welfare Services	$50,000,000	$4,000,000	---	$4,000,000
Training Projects	8,900,000	8,900,000	---	8,900,000
Total Affected by Rescission	58,900,000	12,900,000	---	12,900,000
Total Unaffected by Rescission	12,052,831,000			
Total Budgetary Resources	12,111,731,000			

This withdrawal of funds is one of several special actions to restrain 1975 budget outlays and is consistent with the Conference Report on the Labor/DHEW Appropriations Bill which indicated Congressional willingness to "...give full consideration to such rescissions and deferrals...." as might be required to keep 1975 spending within the total budget estimate for the bill (p.21, House Report No. 93-1489). Accordingly, a rescission of appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344) is proposed. The funds proposed for rescission are not available beyond fiscal year 1975.

Child Welfare Services

Funds are proposed for rescission on the grounds that their use would not result in a proportional increase in services. More likely, the effect would be to reduce the share of State funding, since Child Welfare Services are currently financed primarily with State funds; the Federal share representing only about 3% of the total.

Training Projects

Funds proposed for rescission reflect the phase-out of specialized categorical training projects. The majority of this money is now being used to support long-term training for students to receive graduate degrees in social work. This same activity is also funded under the Public Assistance State and Local Training program at a seventy-five percent matching rate. This latter program is initiated and carried out at the direction of the State and Local Welfare Agencies. As a result, it is more directly related to their needs for trained social workers.

ESTIMATED EFFECTS:

Child Welfare Services

If the $4.0 million proposed for rescission were obligated, it would be distributed on a formula basis to all jurisdictions. The use to which these funds would be put cannot be determined. The funds might be used simply to replace State funds.

Training Projects

This rescission would eliminate the categorical training projects authorized by Section 707 and 426 of the Social Security Act. The full amount proposed for rescission would support about 800 students.

Rescission Proposal No.: R75-78

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency Department of Health, Education and Welfare	New budgetary resources (P.L. 93-517)	$ 771,820,000
Bureau Social & Rehabilitation Service	Unobligated balance from prior years	—— a/
Appropriation Title & Symbol Rehabilitation Services - 7550508	Total Budgetary Resources	771,820,000
	Amount proposed for rescission	29,848,000

JUSTIFICATION:

Program/Activity	Total Budgetary Resources	Total Reduction	Amount of Reduc. to be used for Pay Increase	Net Amount Proposed for Rescission
Rehabilitation services and facilities:				
Innovation and expansion grants	23,000,000	23,000,000	----	23,000,000
Deaf-blind center	2,000,000	220,000	----	220,000
Training	22,200,000	6,628,000	----	6,628,000
Total affected by rescission	47,200,000	29,848,000	----	29,848,000
Total unaffected by rescission	724,620,000			
Total budgetary resources	771,820,000			

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 budget outlays, and is consistent with the Conference Report on the Labor/HEW Appropriations Bill which indicated Congressional willingness "...to give full consideration to such rescissions and deferrals..." as might be required to keep 1975 spending within the total budget estimate for the bill (p.21, House Report No. 93-1489). Accordingly, a rescission of annual appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344) is proposed.

Innovation and Expansion Grants--No funds were requested in the President's original budget for this activity since the Basic State Grant program has received increased funding to absorb the activities formerly carried out under the expansion grant program.

Deaf-Blind Center--The $1,780,000 funding level proposed for the Deaf-Blind Center is the amount requested by the Center, and repreaents the operating needs of the Center in fiscal year 1975.

Training--The Administration is unable to justify the funding of categorical training programs when general student assistance is available through Office of Education programs.

a/ Excludes programs for the developmentally disabled which are covered under the Continuing Resolution.

ESTIMATED EFFECTS:

Innovation and Expansion Grants--The funding level proposed would increase the number of people served under the Basic State Grant program by about 36,000 over the 1974 level. If the funds proposed for rescission were obligated, it is estimated that an additional 20,000 persons could be served under the expansion grant program.

Deaf-Blind Center--As noted above, the proposed funding level would provide the full range of services planned by the Center. If the funds proposed for rescission were obligated, these programs could be extended to the western half of the Nation.

Training--The proposed funding level provides an $8 million increase over the 1974 program level. The total amount appropriated provides an additional $2-3 million above this level. If the funds proposed for rescission were obligated, an additional 155 long-term trainees would be supported, and $4.5 million would be used to fund 1976 projects.

Total 1975 Outlays a/	Dollars in Millions
1975 Budget (February Transmittal)	$17

Rehabilitation Services

Appropriations under this head for the fiscal year 1975 are rescinded in the amount of $29,848,000, of which $23,000,000 shall be from funds for sections 120 and 130 of the Rehabilitation Act of 1973.

THE PRESIDENT

FEDERAL REGISTER, VOL. 40, NO. 26—THURSDAY, FEBRUARY 6, 1975

Rescission Proposal No. R75-79

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency Department of Health, Education, and Welfare	New budgetary resources (P.L. 93-517 and 93-554)	$ 312,950,000
Bureau Office of Human Development	Unobligated balance from prior years	---
Appropriation Title & Symbol Human Development - 7550136 (Programs for the Aging)	Total Budgetary Resources	312,950,000 a/
	Amount proposed for rescission	41,582,000

JUSTIFICATION:

Program/Activity	Total Budgetary Resources	Reduction	Amount of Resc. To Be Used For Pay Increases	Net Amount Proposed for Rescission
Programs for the Aging:				
a) State and Community Services	$105,000,000	$ 9,000,000	---	$ 9,000,000
b) Nutrition	125,000,000	25,400,000	---	25,400,000
c) Training	8,000,000	8,000,000	818,000	7,182,000
Total Affected by Rescisions	238,000,000	42,400,000	818,000	41,582,000
Total Unaffected by Rescisions	74,950,000			
Total Budgetary Resources	312,950,000			

This withdrawal of funds is one of several special actions proposed by the President to restrain 1975 budget outlays, and is consistent with the Conference Report on the Labor/DHEW Appropriations Bill which indicated Congressional willingness "...to give full consideration to such rescisions and deferrals..." as might be required to keep 1975 spending within the total budget estimate for the bill (p. 21, House Report No. 93-1489). Accordingly a rescission of appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344) is proposed.

State and Community Services--The proposed funding level would be the same as that of the two previous years. The principal program target of increasing the number of area agencies in planning and service areas, and strengthening State agency staff and make grants for Model Projects has been achieved.

Nutrition--The proposed level would enable the Department to provide about the same number of meals served as were served in 1974. Increases in costs of food will be partially offset by management improvement, savings from nonrecurring capital and administrative expenses incurred in 1974, and obtaining funds from other public and private sources.

a/ excludes the Head Start program and the Native Americans program which are covered under the Continuing Resolution.

Training--The Administration cannot justify the funding of categorical training programs when general student assistance is available through Office of Education programs.

ESTIMATED EFFECTS:

State and Community Services--The proposed funding level would provide support for 412 area agencies on aging. If the rescinded funds proposed for rescission were obligated, it is estimated that as many as 25-50 additional area agencies could be established.

Nutrition--The level of services provided in this proposal--200,000 daily meals, five days per week--is the same level provided in 1974. If the funds proposed for rescission were obligated, it is estimated that an additional 40,000 to 50,000 meals could be served.

Training--The rescission would have no effect on academic year 1974-1975 since the program is forward-funded from the 1974 appropriation. If the funds proposed for rescission were obligated, the $8 million Congressional increase would be used to continue this categorical training support in fiscal year 1976.

Total 1975 Outlays a/	Dollars in millions
1975 Budget (February Transmittal)	$49
Without Rescission (current estimate)	59
With Rescission (revised estimate)	50
(Effect of Action on 1976 Outlays	-23)

a/ includes only activities proposed for reduction.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Assistant Secretary for Human Development

Human Development

Appropriations under this head for the fiscal year 1975 are rescinded in the amount of $41,582,000.

Rescission Proposal No.: R75-80

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency: Department of Labor	New budget authority (P.L. 93-517)	$ 12,000,000
Bureau: Manpower Administration	Other budgetary resources	
Appropriation Title & Symbol: Community Service Employment for Older Americans 1650175	Total Budgetary Resources	12,000,000
	Amount proposed for rescission	$ 12,000,000

Justification

This proposed rescission is in recognition of the existence of identical authority under the Comprehensive Employment and Training Act (CETA) and adequate funding in the Comprehensive Manpower Assistance (CMA) account. The Congress and the Administration worked for several years to develop a comprehensive statute providing a full range of manpower activities. CETA is the result of that cooperative effort. The Community Service Employment program, Title IX of the Older Americans Comprehensive Services Amendments of 1973, unnecessarily duplicates CETA authority.

Estimated Effects

The Labor Department estimates that the funds proposed for rescission would have financed 2,970 part-time job opportunities and would have provided supplementary financing to comparable older worker activities funded by prior year appropriations for this account and in CMA. It is expected that States and localities will finance activities for older workers well in excess of this amount.

Total 1975 Outlays	Dollars in millions
1975 Budget (February transmittal)	10
Without rescission (current estimate)	14
With rescission (revised estimate)	10
(Effect of action on 1976 outlays	-8)

Community Service Employment for Older Americans

Appropriations provided under this head in the Department of Labor, Appropriation Act, 1975, are rescinded in the amount of $12,000,000.

Rescission Proposal No.: R75-81

PROPOSED RESCISSION OF BUDGET AUTHORITY
Report Pursuant to Sec. 1012 of P.L. 93-344

Agency: Consumer Product Safety Commission	New budget authority (P.L. 93-563)	$ $37,454,000
Bureau:	Other budgetary resources	---
Appropriation Title & Symbol: Salaries and Expenses - 6150100	Total Budgetary Resources	$37,454,000
	Amount proposed for rescission	$ 1,709,000

	Total Budgetary Resources	Total Reduction	Amount of Reduction to be Used for Pay Increases	Net Amount Proposed for Rescission
Consumer Product Safety Commission.....	37,454,000	2,454,000	745,000	1,709,000

JUSTIFICATION

This withholding of funds is one of several special actions proposed by the President to restrain 1975 budget outlays. Accordingly, a rescission of annual appropriations under Section 1012 of the Impoundment Control Act (P.L. 93-344) is proposed.

The proposed funding level of $35,745,000 provides for substantial expansion of the Commission's programs. If this rescission were enacted, this balance of funds available would still represent an increase of more than 20% above the 1974 program level. In the Administration's judgment, the amount proposed for rescissions is not warranted at this time given the need to effect fiscal restraint.

Estimated Effects: The Commission would apply the amount proposed for rescission over all budget activities and still meet its essential program objectives in 1975.

TOTAL 1975 OUTLAYS

1975 Budget (February transmittal).....	$41.9

Salaries and Expenses

Appropriations under this head for the fiscal year 1975 are rescinded in the amount of $1,709,000.

Deferral No. D75-139

PROPOSED DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency U. S. Department of Agriculture	New budget authority (P. L. 93-563)	$ 10,000,000
Bureau Agricultural Stabilization and Conservation Service	Other budgetary resources	$ 17,553,712
Appropriation Title & Symbol Water Bank Program Agricultural Stabilization and Conservation Service 12X3320	Total Budgetary Resources	$ 27,553,712 1/
	Amount to be deferred part of year	$ - -
	Amount to be deferred for entire year	$ 1,265,572

Justification:

This action would withhold $1,265,572 of no year funds which are not needed for obligation in F. Y. 1975.

The Water Bank Program was authorized by the Water Bank Act, Public Law 91-559, approved December 19, 1970. The Act authorized the Secretary of Agriculture to enter into agreements for a period of 10 years with landowners and operators to preserve and improve migratory waterfowl habitat. Under the act, funds appropriated remain available until expended.

The Water Bank program includes $2,973,677 for technical assistance to be provided in connection with the ten year agreements entered into under the 1972 and 1974 programs. It is estimated that only $1,708,105 will be required for technical assistance obligations through the end of F. Y. 1975. This leaves an unobligated balance of $1,265,572, which is not needed for obligation in F. Y. 1975 and should be deferred for the entire fiscal year.

Estimated Effects:

The deferral of $1,265,572 would have no effect on the Water Bank program in F. Y. 1975 since these funds are not required for obligation in the current fiscal year, but will be needed in subsequent fiscal years.

Total 1975 Outlays:	Dollars in Millions
1975 Budget (February transmittal)	3.8
Without deferral (current estimate)	4.1
With deferral (revised estimate)	4.1 2/
(Effect of action on 1976 outlays	---)

1/ Includes $21,212,940 proposed for rescission under R75-8A.

2/ Includes $1.3 million in outlays proposed for reduction under Rescisaion R75-8A.

D75-21A

SUPPLEMENTAL REPORT

Report Pursuant to Sec. 1014(c) of P.L. 93-344

This supplementary message modifies Deferral No. D75-21 transmitted in the Special Message of October 4, 1974, and printed as House Document No. 93-365.

The previous report reflected a deferral of $5,000,000 which was to be reserved for contingencies. The current proposal increases this reserve to a total of $11,687,589.

Deferral Proposal No. D75-21A

PROPOSED DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency U. S. Department of Agriculture	New budget authority (P. L. 93-563)	$ 10,000,000
Bureau Agricultural Stabilization and Conservation Service	Other budgetary resources	$ 19,687,589 *
Appropriation Title & Symbol Emergency Conservation Measures 12X3316	Total Budgetary Resources	$ 29,687,589 *
	Amount to be deferred part of year	$
	Amount to be deferred for entire year	$ 11,687,589 *

Justification: *

These funds are used for sharing the cost of emergency conservation measures to deal with cases of severe damage to farm and range lands as a result of natural disasters. Assistance is made available to treat new conservation problems which meet the criteria set forth in the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590(h)) and funds are allocated for use only in those counties designated by the Secretary of Agriculture as disaster counties. These allocations do not become obligations until agreements are signed to rehabilitate the land.

It is anticipated that $18,000,000 will be required for obligation during F. Y. 1975, leaving an unobligated balance of $11,687,589 for contingencies. These funds are available without regard to fiscal year limitation. The $11,687,589 deferred is reserved for contingencies pursuant to the Antideficiency Act (31 U.S.C. 665) and will be made available should additional emergency requirements arise.

Estimated Effects: *

There are no programmatic or budgetary effects as a result of this deferral. The reserved funds would only be made available and obligated if damage to farm and range lands exceeds the levels experienced in recent years. This action is being taken purely to satisfy requirements of the new Congressional Budget and Impoundment Control Act of 1974, P. L. 93-344.

Total 1975 Outlays: *	Dollars in Millions
1975 Budget (February transmittal)	10.0
Without deferral (current estimate)	12.0
With deferral (revised estimate)	12.0
(Effect of action on 1976 outlays	0)

*Revised from previous submission.

D75-22A

SUPPLEMENTARY REPORT

Report Pursuant to Sec. 1014(c) of P.L. 93-344

This supplementary message modifies Deferral No. D75-22 transmitted in the special message of October 4, 1974, and printed as House Document No. 93-365.

The previous report reflected the deferral of $903,000 of funds considered to be in excess of program requirements for fiscal year 1975. The current deferral increases this amount to $1,459,209 as the result of greater than anticipated carry-over of funds from fiscal year 1974.

Deferral No.: D75-22A

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency U.S. Department of Agriculture		
Bureau Agricultural Marketing Service	New budget authority (21 USC 1053)	$
Appropriation Title & Symbol	Other budgetary resources	3,521,209 *
12X2500 - Marketing Services, Agricultural Marketing Service (General fund financed from reimbursements)	Total Budgetary Resources	3,521,209 *
	Amount to be deferred part of year	- -
	Amount to be deferred for entire year	1,459,209 *

Justification:

The U.S. Grain Standards Act (7 USC 71, 74-79, 84-87h) provides for the establishment of official United States standards for grain and an official inspection system.

This system provides for appeal inspections when requested by an applicant who does not agree with the initial official grade designation and for collection of fees for this service. These fees . . ."shall be deposited into a fund which shall be available without fiscal year limitation". . .(7 USC 79).

The Egg Products Inspection Act (21 USC 1031-1056) provides for the mandatory continuous inspection of egg products processing plants and regulates the distribution of certain qualities of shell eggs in interstate, foreign, and intrastate commerce.

The cost of inspection and other costs of administration of this Act . . ."shall be borne by the United States, except that the cost of overtime and holiday work performed in official plants subject to the provisions of this Act at such rates as the Secretary may determine shall be borne by such official plants. Sums received by the Secretary from official plants under this section shall be available without fiscal year limitation to carry out the purposes of this Act." (21 USC 1053).

For FY 1975, the apportionment for this fund has been approved at the level of $2,062,000. This amount is sufficient to fully carry out the requirements of the law.

The budgetary reserve of $1,459,209 for these activities is in excess of the 1975 program requirements and is to be carried forward for use in FY 1976 in accordance with the provisions of the Anti-Deficiency Act (31 USC 665).

Estimated Effects:

None. It is not anticipated that additional funds would be expended unless either additional grain appeals occur or the need for overtime or holiday work in official plants subject to inspection under the Egg Products Inspection Act should develop.

D75-23A

SUPPLEMENTARY REPORT

Report Pursuant to Sec. 1014(c) of P.L. 93-344

This supplementary message modifies Deferral No. D75-23 transmitted in the special message of October 4, 1974, and printed as House Document No. 93-365.

The previous proposal reflected the deferral of $341,000 of funds considered to be in excess of program requirements for fiscal year 1975. The current deferral increases this amount to $511,330 as the result of greater than anticipated carry-over of funds from fiscal year 1974.

Deferral No.: D75-23A

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency U.S. Department of Agriculture	New budget authority (7 USC 490)	$ 1,640,000
Bureau Agricultural Marketing Service	Other budgetary resources	506,330*
Appropriation Title & Symbol 12X5070 - Perishable Agricultural Commodities Act Fund (Permanent indefinite special fund).	Total Budgetary Resources	2,146,330*
	Amount to be deferred part of year	- -
	Amount to be deferred for entire year	511,330*

Justification:*

Pursuant to the provisions of the Perishable Agricultural Commodities Act, license fees are collected from commission merchants, dealers, brokers and large retailers who handle fresh or frozen fruits and vegetables in interstate or foreign commerce. These license fees are deposited in the Perishable Agricultural Commodities Act Fund (7 USC 499c) and are available without fiscal year limitations to meet expenses of administering both the Perishable Agricultural Commodities Act (7 USC 499a-s) and the Produce Agency Act (7 USC 491-497). These laws are designed to protect producers, shippers, distributors and retailers from unfair and fraudulent practices in the marketing of perishable agricultural commodities and to prevent the unwarranted destruction or dumping of farm products handled for and on behalf of others.

For FY 1975, the apportionment for this fund has been approved at the level of $1,635,000. This amount is believed sufficient to fully carry out the requirements of the law.

The budgetary reserve of $511,330 represents estimates of receipts in excess of the 1975 program requirements to be carried forward for use in FY 1976, in accordance with the provisions of the Anti-Deficiency Act (31 USC 665).

Estimated Effects:*

None. It is not anticipated that additional funds would be expended unless additional license requests occur.

Total 1975 Outlays:*	Dollars in Millions
1975 Budget (February transmittal)	1.6
Without deferral (current estimate)	1.6

* Revised from previous submission.

D75-25A

SUPPLEMENTARY REPORT

Report Pursuant to Sec. 1014(c) of P.L. 93-344

This supplementary message modifies Deferral No. D75-25, transmitted in the special message of October 4, 1974, and printed as House Document No. 93-365.

The previous proposal reflected a deferral of $152,000 in receipts in excess of program needs for fiscal year 1975. The current proposal increases this amount to $173,499 due to higher than anticipated receipts in the current year and a larger carry-over from fiscal year 1974 than was estimated.

The present proposal also reflects an increase of $32,000, from $273,000 to $309,000, in funds made available for use in 1975. This increase is due to initiation of the anti-pollution program ($30,000) with royalties collected under license for the use of the "Woodsy Owl" character pursuant to P.L. 93-318 dated June 22, 1974, and $2,000 for increased pay costs pursuant to E.O. 11811.

Deferral No.: D75-25A

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency Agriculture	New budget authority (18 USC 711)	$ 265,000*
Bureau Forest Service	Other budgetary resources	217,499*
Appropriation Title & Symbol Forest Fire Prevention Forest Service 12X5214	Total Budgetary Resources	482,499*
	Amount to be deferred part of year	
	Amount to be deferred for entire year	173,499*

Justification: *

Royalties collected under licenses for use of the character "Smokey Bear" are permanently appropriated and utilized for furthering the nationwide forest fire prevention campaign as provided by the Act of May 23, 1952 (18 U.S.C. 711). Also, "Woodsy Owl" program receipts are collected pursuant to P.L. 93-318 and are similarly appropriated. The total budgetary resources available in this program for fiscal year 1975 consist of $217,499 in actual receipts earned in fiscal year 1974 and brought forward $265,000 in receipts anticipated for fiscal year 1975. In keeping with routine financial management practices maintained over the years, $173,499 of the total budgetary resources available has been reserved. The reserve is justified on two grounds.

First, the reserve contributes to a consistent, stable program level from year to year which, in turn, promotes more efficient operations. The fiscal year 1975 program is being funded, in part, from reserved balances carried forward from last year. The 1976 program will be partially funded by the estimated receipts being deferred in fiscal year 1975.

Second, reservation of funds is required to avoid the possibility of a violation of the Antideficiency Act (31 U.S.C. 665, (a), (b), (h)). A violation of the sections cited could occur if all the estimates of receipts now deferred were made available and obligated while estimated receipts were not fully realized.

This reserve action is taken under provisions of the Antideficiency Act that authorize the establishment of reserves for contingencies (31 U.S.C. 665(c)(2)).

Estimated Effects: *

The funds made available are sufficient to carry out 1975 program objectives. The deferred funds also assure sufficient carryover of funds to operate a 1976 program comparable to 1975.

* Revised from previous submission

Release of deferred funds would necessitate development of a plan for a substantially expanded 1975 program. The outlay impact would be an increase of about $142,000 in 1975 and $31,499 in 1976. The estimate of funds to be deferred assumes that receipt estimates in 1975 will be fully realized.

1/ Less than $50,000

SUPPLEMENTARY REPORT

Report Pursuant to Sec. 1014(c) of P.L. 93-334

This supplementary message modifies Deferral No. D75-26 transmitted in the special message of October 4, 1974, and printed as House Document No. 93-365.

The previous proposal reflected a deferral of $18,747,000, which was to be reserved for contingencies. The current proposal increases this amount to $26,141,027 due to higher than anticipated receipts during the current year.

The present proposal also reflects an increase of $4.4 million in funds made available for use in 1975. This increase is due to identification of additional work which can be accomplished ($1.6 million) and for increased pay costs pursuant to E.O. 11811 ($2.8 million).

Deferral No.: D75-26A

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency: Agriculture	New budget authority (16 USC 490)	$ 30,000,000 *
Bureau: Forest Service	Other budgetary resources	25,778,027 *
Appropriation Title & Symbol: Expenses, Brush Disposal 12X5206	Total Budgetary Resources	55,778,027 *
	Amount to be deferred part of year	
	Amount to be deferred for entire year	26,141,027 *

Justification: *

Purchasors of national forest timber are required to deposit the estimated cost to the Forest Service of disposing of brush and other debris resulting from their cutting operations pursuant to 16 USC 490. The deposits becoming available in the current year are estimated and the related disposal operations are planned for the following year. Efficient program planning and accomplishment is facilitated by operating a stable program well within the funds available in any one year for this purpose. An apportionment of $29.6 million has been made to the Forest Service for this program in the current fiscal year compared with $25.0 million in 1974 and $18.6 million in 1973. The current fiscal year reserve of $26.1 million was established pursuant to the Antideficiency Act (31 USC 665) as a reserve for contingencies compared with reserves of $21.6 million in 1974 and $23.3 million in 1973.

Disposal operations related to deposits made during certain periods of the year cannot be initiated until weather conditions permit. Thus, seasonal factors frequently require deferring use of deposits until the following fiscal year.

Estimated Effects: *

There are no programmatic or budgetary effects that result from this deferral action. Rather, the reserve merely reflects the seasonal nature of the program and the establishment of a reserve for contingencies pursuant to the Antideficiency Act (31 USC 665).

TOTAL 1975 OUTLAYS	Dollars in Millions

Deferral No.: D75-140

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency Department of Commerce	New budget authority (P.L. ---)	$ ---
Bureau General Administration	Other budgetary resources	$ 3,300,496
Appropriation Title & Symbol Special Foreign Currency 13X0160	Total Budgetary Resources	3,300,496
	Amount to be deferred part of year	0
	Amount to be deferred for entire year	$ 1,500,496

Justification:

The Department of Commerce Special Foreign Currency Program supplements the activities of the Domestic and International Business Administration, the National Bureau of Standards, and the National Oceanic and Atmospheric Administration. There was an obligational limitation placed on Special Foreign Currency in FY 1975 of $1,800,000 by the Department of the Treasury because of the shortages of excess currencies. The remaining $1,500,496 has been reserved for contingencies pursuant to the Antideficiency Act (31 U.S.C. 665).

Estimated Effects:

None. The obligational authority required to carry out this program in FY 1975 has been apportioned. This action has no effect upon the latest budget estimates, which assume no outlays in FY 1975 from the $1,500,496 being deferred.

Total 1975 Outlays	Dollars in thousands
1975 budget (February transmittal).....	$ 900
Without deferral (current estimate).....	1,900
With deferral (revised estimate).....	1,900
(Effect of action on 1976 outlays.....	0)

Deferral No.: D75-141

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency Department of Commerce	New budget authority (P.L. 93-624)	$125,000,000
Bureau Economic Development Administration	Other budgetary resources	---
Appropriation Title & Symbol Job Opportunities Program 135/62051	Total Budgetary Resources	125,000,000
	Amount to be deferred part of year	125,000,000
	Amount to be deferred for entire year	---

Justification:

These funds were appropriated in the Urgent Supplemental Appropriations Act (P.L. 93-624) to the Department of Labor and transferred to the Department of Commerce for the Title III program of the Emergency Jobs and Unemployment Assistance Act. This title requires each Federal agency to evaluate the job creation effectiveness of its 1975 programs and to submit to the Secretaries of Commerce and Labor its recommendations for programs which could be expanded to provide jobs for the unemployed. Funds could be allocated to programs selected by the Secretaries of Commerce and Labor based upon the criteria in the Act. These funds remain available for obligation until December 31, 1975.

The funds appropriated for this purpose could not be used properly until after these review and evaluation processes were completed. Further, it is not yet evident that any programs will be identified which make effective use of these resources.

Accordingly, the use of these funds by the Department of Commerce is being deferred, and supplemental appropriation action is being requested to restore these funds to the Department of Labor for use under Title I to the Emergency Jobs and Unemployment Assistance Act.

Estimated Effects:

This action, together with the supplemental request to transfer these funds to the Department of Labor, will permit the use of these funds for establishing 14,000 additional Title I public service jobs. It is not possible to estimate with accuracy the number of jobs that could be created under the Title III job opportunities program.

D75-97A

SUPPLEMENTARY REPORT
Report Pursuant to Sec. 1014(c) of P.L. 93-344

This supplementary message revises Deferral No. 75-97 transmitted in the message of November 26, 1974, and printed as House Document No. 93-398.

This revision reflects an $910,318 increase in the amount deferred for fiscal year 1975 for the Experimental Technology Incentive Program (ETIP) at the National Bureau of Standards. These funds, available from prior year appropriations, are not required to finance the fiscal year 1975 program.

As previously reported, the emphasis of the 1975 program will be on evaluating results of experiments initiated under this program in order to determine the future scope and direction of the program. The $3,477,000 apportioned for 1975 is considered sufficient for this purpose as well as to fund a reduced number of experiments in 1975.

Deferral No. D75-97A

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency Department of Commerce Bureau: National Bureau of Standards, Ofc. of Telecommunications Appropriation Title & Symbol Scientific and technical research and services 13X0500	New budget authority (P.L. 93-433)	$ 61,400,000
	Other budgetary resources	$ 10,310,054
	Total Budgetary Resources	$ 71,710,054
	Amount to be deferred part of year	$ [illegible]
	Amount to be deferred for entire year	$ 4,628,318*

JUSTIFICATION:*

This withholding of funds is one of several special actions proposed by the President to restrain 1975 budget outlays. Since these restraints are being proposed after Congressional action affecting most 1975 funds has been completed, this withholding will be delayed until February 15, 1975, to permit Congressional review of the action contemplated. This appropriation funds the activities of the National Bureau of Standards (NBS), which conducts research and develops standards to support the Nation's physical measurement system and equity in trade and performs technical services to promote public safety. The activities of the National Technical Information Service (NTIS) and the Office of Telecommunications (OT) are also funded through this appropriation.

It is proposed to defer NBS new initiatives in the following areas: radiation safety, water pollution and clinical measurements. On-going activities in electromagnetics, flow measurements, chemical materials, polymeric materials and experimental technology incentives will be deferred. Finally, it is proposed that programs in engineering mechanics and inventor assistance in NBS, and ionospheric research in OT, be terminated.

ESTIMATED EFFECTS:*

Deferral of NBS new initiatives will have the following effects: Delays in initiating aspects of the radiation safety program ($256,000) will defer by eighteen months the implementation of a national system of radiation calibrations. A one year delay in water pollution data gathering and development of detection methods ($80,000) will delay implementation of water pollution measurement and standards. Postponement of research on clinical measurement methods and materials ($190,000) will delay by one year the planned upgrading of the performance of clinical laboratories with respect to their measurement accuracy.

Deferrals in on-going programs would have the following impacts: Slowing development of an electromagnetic measurement capability ($153,000) will delay beyond FY 1976 the improved handling of data from research on broadcast waves. A two-year delay in implementing a field calibration program for flow measurement, postponement of achievement of improved methods for predicting pollution levels and a one-year delay in developing standards for high voltage distribution systems will result from proposed deferrals in flow measurements,

*Revised from previous submission.

chemical materials and polymeric materials ($245,000). The slowdown in the number of technology incentive experiments initiated ($3,539,318) will make possible a systematic evaluation of experiments which have already been initiated.

Termination of the activities in engineering mechanics ($91,000) will eliminate dissemination of some engineering data and development of new fiberglass test methods. Termination of National Inventors Council support ($50,000) will make it necessary for inventors to seek government assistance without benefit of a central advisory service. Termination of OT research in ionospheric modification ($24,000) will delay development and implementation of further application of this technique.

TOTAL 1975 OUTLAYS:	DOLLARS IN MILLIONS
1975 Budget (February transmittal)	$65
Without deferral (current estimate)	64
With deferral (revised estimate)	62
(Effect of action on 1976 outlays	-2)

D75-99A

Supplemental Report

Report Pursuant to Sec. 1014(c) of P.L. 93-344

This supplementary message revises deferral No. D 75-99, which was transmitted to Congress on November 26, 1974, (House Document No. 93-398):

As a result of the deobligation in FY 1975 of a prior year contract, the Maritime Administration's Research and Development appropriation will show a larger deferral of FY 1975 funds than had been previously reported. No adjustments in the FY 1975 or 1976 program are involved. The recovered funds are simply being carried forward into FY 1976 where they reduce the appropriation required to fund the previously planned program.

Deferral No.: D75-99A

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency Department of Commerce	New budget authority (P.L. 94-433)	$ 25,900,000
Bureau Maritime Administration	Other budgetary resources	193,000
Appropriation Title & Symbol Research and Development 13X1716	Total Budgetary Resources	26,093,000
	Amount to be deferred part of year	--
	Amount to be deferred for entire year	7,768,000 *

Justification:*

The deferral of $7,768,000 consists of two items: one is $3,468,000 deferred for fiscal policy reasons as proposed by the President in his message to Congress of November 26, 1974; the other item is $4,300,000 related to the deobligation in FY 1975 of a 1972 research contract.

This appropriation provides for research and development activities directed toward increasing the competitiveness of the U.S. merchant marine. Work is principally conducted through contracts, with many on a cost-sharing basis with private industry. The deferral of $3,468,000 will reduce nuclear R&D funding by $1,468,000 and other R&D projects by $2,000,000. The deferral of $4,300,000 is a result of the deobligation of a 1972 contract.

These funds are available without regard to fiscal year limitation.

Estimated Effects:*

Recent uncertainties concerning the commercial viability of nuclear-powered tankers have resulted in the need to re-evaluate the supporting nuclear R&D program. Thus, a portion of the program relating to the development of nuclear system components can be deferred in FY 1975. Deferrals, principally due to program slippages, will also be made in shipboard automation efforts, the start up of the ship operations simulator, ports and terminal development, and advanced communication systems development. The deferral of $4,300,000 as a result of the deobligation of a 1972 contract does not affect the current program; it simply frees up funds no longer needed for the prior year contract.

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency Department of Health, Education, and Welfare	New budget authority (P.L. 93-570)	$ 301,340,000
Bureau Health Resources Administration	Other budgetary resources	---
Appropriation Title & Symbol	Total Budgetary Resources	301,340,000
Health Resources 7550712	Amount to be deferred part of year	301,340,000
(Health Facilities Construction)	Amount to be deferred for entire year	---

Justification

	New Budget Authority	Amount Deferred
Health Facilities Construction		
Medical Facilities (Hill-Burton)	$187,340,000	$187,340,000
Health Teaching Facilities	114,000,000	114,000,000

This withholding of funds is one of several special actions proposed by the President to restrain 1975 budget outlays. This deferral action is being taken to preserve the flexibility of the Congress and the Administration in arriving at a final decision on funding for these programs. The funds proposed for deferral are authorized under the Continuing Resolution covering third quarter operations.

Estimated Effects:
Medical Facilities

Hill-Burton funds are available to the States for 3 years. The awards would be made for new projects; no continuations are involved. Thus, the only impact of deferring these allocations through the third quarter is to delay the date on which interested applicants can begin to pursue further development of their projects. In addition, the Conference report accompanying the National Health Planning and Resources Development Act of 1974 stated, "The conferees have not included an authorization for appropriations for fiscal year 1975 under Title VI (Public Health Service Act) and therefore do not contemplate that appropriations will be made under that authority pursuant to a continuing resolution."

Health Teaching Facilities

Construction grant funds are available without fiscal year limitations. The awards would be for new projects; no continuations are involved. Thus, the only impact of deferring the obligations through the third quarter is to delay the date on which interested applicants can begin to pursue further development of their projects.

D75-102A

Deferral No. D75-102A

SUPPLEMENTARY REPORT

Report pursuant to Sec. 1014(c)
of P.L. 93-344

This supplementary message modifies Deferral No. D75-102 transmitted in the special message of November 26, 1974, and printed as House Document No. 93-398. That deferral was submitted in connection with the withholding of $2,800 thousand in program management funds for the Health Resources Administration (HRA), made available under the Continuing Resolution in effect until adjournment of the 93rd Congress.

In the Supplemental Appropriation Act for Fiscal Year 1975 (P.L. 93-554), Congress reduced HRA program management funds by $1,540 thousand of the $2,800 thousand requested by the President. This supplementary report, therefore, is based upon an annual spending reduction of $1,260 thousand, the remaining amount needed to achieve the total reduction of $2,800 thousand proposed in the November 26, 1974 special message. Under the Continuing Resolution in effect through February 28, 1975, it is necessary to withhold $740 thousand to achieve the full year reduction of the remaining $1,260 thousand. No other changes have been made from the previous report.

Deferral No.: D75-102A

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency Department of Health, Education, and Welfare	New budget authority (P.L. 93-448)	$ 32,323,000
Bureau Health Resources Administration	Other budgetary resources	
Appropriation Title & Symbol	Total Budgetary Resources	32,323,000
Health Resources 7550712	Amount to be deferred part of year	740,000*
(Program Management)	Amount to be deferred for entire year	

Justification

*This withholding of funds is one of several special actions proposed by the President to restrain 1975 budget outlays. This deferral is proposed to preserve the flexibility of the Congress and the Administration in arriving at a final decision on funding for this program. The funds proposed for deferral are authorized under the Continuing Resolution.

Estimated Effects

*Deferral of the availability of funds through the third quarter will result in the delay of travel to various project sites and the use of fewer consultant services. This is consistent with recent congressional actions to reduce government-wide travel expenses.

Deferral No.: D75-147

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency: Department of Health, Education, and Welfare	New budget authority (P.L. 93-517)	$648,500,000 a/
Bureau: Office of Education	Other budgetary resources	288,714,000
Appropriation Title & Symbol	Total budgetary resources	937,214,000
Higher Education 755/60293	Amount to be deferred part of year	
(Basic Education Opportunity Grants)	Amount to be deferred for entire year	$298,714,000

Justification

Deferral is proposed for the portion of the Basic Education Opportunity Grants appropriation that will not be obligated until 1976. Although the Basic Grants program is forward funded, i.e., 1975 funds are for school year 1975-76, approximately half of the funds are obligated toward the end of FY 1975 for the summer and fall semesters of school year 1975-76. The remaining portion of the funds are obligated in FY 1976 for the spring semester of the same school year. This deferral action has been taken under provisions of the Antideficiency Act that authorize the establishment of reserves for contingencies.

Estimated effects

This action does not reflect a program reduction, but simply reflects the established pattern for obligating funds. The funds deferred will be used for the second half of the 1975-76 school year.

b/ Includes only activities deferred.

Deferral No. D75-42A

SUPPLEMENTARY REPORT

Report Pursuant to Sec. 1014(c) of P.L. 93-344

This supplementary message revises Deferral No. 75-42 transmitted in the special message of October 31, 1974 and printed as House Document No. 93-365.

This revision reflects an increase of $64,001,590 in the amount deferred through June 30, 1975, broken down as follows:

Construction subsidized loans annual interest grants	+$63,324,907
Graduate facilities construction	No change
Subsidized insured student loans: Reserve fund advances	+$676,581

The total deferral would increase from $8,788,102* to $72,789,590.

A change in the method of accounting for subsidized construction has resulted in de-obligation of funds from prior year appropriations. These unobligated funds are not needed for the 1975 program, but will be used in future years. The change in reserve fund advances for subsidized insured student loans reflects the latest estimate of 1975 requirements.

* Previously reported as $8,788,000

Deferral No.: D75-42A

DEFFERAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency: Department of Health, Education, and Welfare	New budget authority (P.L. 93-517)	---
Bureau: Office of Education	Other budgetary resources	$93,539,590*
Appropriation Title & Symbol	Total budgetary resources	93,539,590*
Higher Education 75X0293 (Construction Loan Subsidies, Graduate Construction Grants, Guaranteed Student Loan Program-Advances for Reserve Funds)	Amount to be deferred part of year	---
	Amount to be deferred for entire year	$72,789,590*

Justification*

Program	Total budgetary resources	Amount to be deferred
Construction		
Subsidized loans		
--Annual interest grants	$90,101,704	$70,101,704
Graduate facilities	375,232	375,232
Subsidized insured student loans		
Reserve fund advances	3,061,554	2,311,554
Total	$93,539,590	$72,789,590

The amounts shown as deferred are not necessary to meet program requirements during the current fiscal year.

Annual interest grants*--A change in the method of accounting for subsidized construction loans caused a substantial amount of prior year appropriations to be de-obligated. Obligations are not recorded now until payments are due. Funds on hand are more than adequate to cover anticipated obligations on annual interest grant contracts signed in prior years and no new starts are authorized or planned. The unobligated funds will be needed in the future, however, to pay continuation costs on loans the Federal government has agreed to subsidize.

Graduate facilities*--The amount shown as deferred results from cancellation of unused prior year obligations. The deferred funds will be retained to cover obligation adjustments in future years.

Subsidized insured student loans, reserve fund advances*--These funds were appropriated in 1969 to make advances to agencies guaranteeing student loans that could not meet reserve requirements. It is estimated that no more than $750,000 will be needed during 1975 to meet request from these agencies.

*Revised from previous submission.

Estimated Effects:*

These actions do not result in any reduction in program activity from the levels authorized in the appropriations process. The funds, however, will be available to meet future year requirements.

Deferral No.: D75-148

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency Department of Health, Education, and Welfare Bureau	New budget authority (P.L.)	$ 167,474,000
	Other budgetary resources	5,224,000
Appropriation Title & Symbol	Total Budgetary Resources	172,698,000
Library Resources 7550212	Amount to be deferred part of year	2,792,000
	Amount to be deferred for entire year	

Justification:

This withholding action has been taken under provisions of the Antideficiency Act (31 U.S.C. 665) that authorize the establishment of reserves for contingencies. The amount withheld has been placed in reserve for later use in the current year to meet increased pay costs in other HEW accounts. Authority to effect the transfer of the deferred funds will be proposed in the 1976 budget.

The increased costs result from pay increases granted to civilian personnel under provisions of Public Law 91-656 as implemented by Executive Order 11811, and pay increases granted wage board employees in accordance with 5 U.S.C. 5341, as amended.

Estimated Effects:

This deferral of $2,792,000 is part of a proposed $26,749,000 reduction affecting the appropriation for Public Libraries. The amount deferred will require states to absorb additional costs of basic public library services or to the degree they are dependent on Federal support and can not maintain current levels, there would be some reduction in hours of service, numbers of personnel, and acquision of books and materials.

Deferral No. D75-44B

SUPPLEMENTARY REPORT
Report Pursuant to Sec 1014 (c) of P.L. 93-344

This supplementary message revises Deferral No. D75-44A transmitted in the special message of December 27, 1974.

This revision reflects an increase of $8,048,000 in the amount deferred through June 30, 1975. These funds were appropriated for FY 1975 by P.L. 93-517 for district office programs and for purchase contract payments on three new program centers. Of the total $8,232,000 appropriated for FY 1975, only district office site studies requiring $184,000 will be obligated in the current fiscal year. The remaining funds for district offices are deferred until decisions are reached on the future of the program. Funds to support the program centers are not needed until FY 1976 when purchase contract payments will be made at the time of occupancy.

Deferral No. D75-44B

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency: Department of Health Education and Welfare	New budget authority (P.L. 93-517)	$ 8,232,000 *
Bureau: Social Security Admin.		15,393,497
Appropriation Title & Symbol:	Other budgetary resources	
Limitation on Construction	Total Budgetary Resources	23,625,497 *
75X8705	Amount to be deferred part of year	---
	Amount to be deferred for entire year	20,575,621 *

Justification

* Funds provided under the Limitation on Construction of the Social Security Administration remain available until expended in recognition of the long lead time between the provision of funds and their use in carrying out authorized construction projects. Previously, $15,393,497 was placed in deferral. In addition, we received new budget authority of $8,232,000 in FY 1975. We plan to obligate a part of this total in FY 1975, and now, a total of $20,575,621 has been placed in reserve pursuant to the Antideficiency Act (31 USC 665) and is proposed for deferral. This full amount is proposed to be deferred for the entire year. The amounts involved fall into two categories, discussed below.

Unused balances of funds provided for construction of program centers --

* In 1972, $18.2 million, to remain available until expended, was provided in the Departments of Labor and Health, Education, and Welfare Appropriation Act, 1972, for direct construction of program centers in Philadelphia, Chicago, and San Francisco. Subsequent to the provision of these funds, it was determined, with the concurrence of the Congress, that these centers would be built under the purchase contract method. This reduced the immediate funding requirements to $6.1 million, thus making $12.1 million available to meet other SSA construction requirements. In 1974, the Congress authorized $4.1 million to be reprogrammed for district office construction. Of these reprogrammed funds, $2.0 million was released for obligation in 1974, and $2.0 million is reserved for future obligation. Of the remaining 8.0 million of unused program center funds, $5.8 million

* Revised from previous submission.

XUM 576 BEF 6N104V XUM

is proposed for reprogramming in 1975 for district office construction and $1.1 million is to be reprogrammed to meet unexpected needs in headquarter's construction. If this reprogramming is approved by the Congress, it is expected that these funds will be released for obligation in future years. The balance of unused program center funds (about 1.1 million) is proposed for deferral through the end of 1975, remaining available to meet requirements in future years. In addition, $3.6 million was requested in 1975 to pay purchase contract payments on three new program centers. These will not be occupied until 1976.

Unused balances of funds provided for district office construction

* A total of $10,094 thousand (in addition to the $5.8 million mentioned above) is being reserved for future obligation. This includes $3,613 thousand remaining from the 1967 district office construction program, $2,033 thousand reprogrammed from the program center activity in 1974, and $4,448 thousand appropriated in 1975. The fact that these funds have not yet been obligated reflects a change in circumstances which required a re-evaluation of the district office construction program which had been approved in 1967. Subsequent to the provision of funds for this program, it was determined that efficiency of operations and better service to the public necessitated the development of a system of branch offices. The effect of this decision was to delay much of the district office construction that had been authorized in the 1967 program. The branch offices, however, are generally located in leased space, rather than in facilities constructed specifically for SSA use. Thus, they are not financed from this appropriation, and reprogramming of the unneeded district office funds for this purpose was not feasible. SSA is evaluating whether or not these funds are needed. A further complication in determining the appropriate use of the district office funds was introduced by the enactment of the Supplemental Security Income program, which has a significant impact on the requirements for district office space. As a result of these factors, plans have not yet been developed for the use of the remaining balances of these funds and their release is proposed to be deferred pending the development of such plans.

Estimated Effects

The funds intended to be apportioned for obligation in 1975 will permit SSA to carry out its authorized construction program in an orderly manner. No currently planned construction would be delayed by this deferral. Because of the time required to plan, authorize and carry out construction activity, release of the funds at this time would be unlikely to affect the level of outlays in 1975 and would have minimal impact on 1976 outlays. This deferral has no effect on the level of outlays forecast in the February budget.

Deferral No.: D75-149

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency Dept. of Health, Education, and Welfare Bureau Special Institutions	New budget authority (P.L. 93-517)	$ 10,465,000
	Other budgetary resources	2,218,373
Appropriation Title & Symbol Gallaudet College - 75X0102 (Construction)	Total Budgetary Resources	12,683,373
	Amount to be deferred part of year	---
	Amount to be deferred for entire year	1,267,482

Justification

The $1,267,482 represents funds appropriated in the 1975 Labor-HEW Appropriations Act (P.L. 93-517) for purchase of equipment and furnishings. The funds have not been utilized due to the slow pace of the new school construction on the Gallaudet campus. Contracts are expected to be let in calendar year 1976 for the purchase of equipment for the facilities under construction. The funds deferred will be apportioned when required by the construction timetable. This reserve action has been taken under provisions of the Anti-Deficiency Act (31 U.S.C. 665), that authorizes the establishment of reserves for contingencies.

Estimated Effect

This deferral has no restrictive effect on construction plans and there will be no budgetary impact on 1975 outlays. Upon completion of the facilities, these funds will be made available for purchase of equipment and furnishings and will be obligated in 1976.

Deferral No. D75-46A

SUPPLEMENTARY REPORT
Report Pursuant to Sec. 1014(c) of P.L. 93-344

This supplementary message revises Deferral No. D75-46A transmitted in the special message of October 4, 1974 and printed as House Document No. 93-365.

This revision reflects a decrease of $11,490,000 in the amount to be deferred for part of the year, and an increase of $6,323,110 in the amount to be deferred for the entire year--a net change of -$5,166,890 representing funding required to proceed with the planning and construction of authorized projects.

Deferral No.: D75-46A

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency Dept. of Health, Education, and Welfare Bureau Special Institutions	New budget authority (P.L. 93-517)	$ 12,500,000 *
	Other budgetary resources	18,092,389 *
Appropriation Title & Symbol Howard University - 75X0106 (Construction)	Total Budgetary Resources	30,592,389 *
	Amount to be deferred part of year	---
	Amount to be deferred for entire year	6,323,110 *

Justification *

The deferred funds have been reserved for contingencies pursuant to the Anti-Deficiency Act (31 U.S.C. 665) pending completion of plans and specifications for renovation, and construction of a new teaching hospital to replace the old Freedmen's Hospital. The deferred funds remain available without fiscal year limitation.

Estimated Effects: *

This deferral has no restrictive effects on construction plans and there will be no budgetary impact in FY 1975. These funds will be released in 1976 when required by the construction timetable.

*Revised from previous submission.

Deferral No. D75-63A

SUPPLEMENTARY REPORT
Report pursuant to Sec. 1014(c)
of P.L. 93-344

This supplementary report modifies Deferral No. D75-63 transmitted in the special message of October 4, 1974, and printed as House Document No. 93-365.

The revised report reflects an increase of $24,751,958 in the amount being deferred. The increase results from additional contract authority in the amount of $25 million provided in the Federal-Aid Highway Amendments of 1974 (P.L. 93-643) and an increase of $251,958 in unobligated balances brought forward from fiscal year 1974. The increase in unobligated balances represents the difference between estimates of balances made early in fiscal year 1974 and actual balances recently determined. In addition, congressional action to increase the appropriation required to liquidate contract authority resulted in a $500,000 increase in the program level since the previous report was submitted. A further increase of $600,000 in the program level is attributable to increased estimates of reimbursements from other Federal programs.

Deferral No.: D75-63A

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency Department of the Interior	New budget authority (23 USC 203) as amended	$ 100,000,000 *
Bureau Indian Affairs	Other budgetary resources	96,474,958 *
Appropriation Title & Symbol	Total Budgetary Resources	196,474,958 *
Road Construction 14X2364	Amount to be deferred part of year	---
	Amount to be deferred for entire year	135,174,958 *

Justification *

The Bureau of Indian Affairs road construction program level in FY 1975 is estimated to be $61,300,000 This amount represents the estimate of funds needed in the construction and rehabilitation of roads on Indian reservations. The Federal Aid Highway Act of 1973 (23 USC 203) as amended by the Federal-Aid Highway Amendments of 1974 (P.L. 93-643) provides contract authority of $83 million in fiscal year 1974, $84 million in fiscal year 1975, and $83 million in fiscal year 1976 and authorizes its use one year in advance and two years subsequent to the fiscal year for which it is designated. The unobligated contract authority available from previous years is $95,674,958 This amount plus the $100 million available in 1975, and $800,000 in reimbursements to be received for work performed for other agencies, allows for total available funding in FY 1975 of $196,474,958 This figure, less the estimated program amount of $60,700,000, leaves an unapportioned balance of $135,174,958 through the current fiscal year.

The amount of contract authority made available is consistent with the level of obligations implicitly approved by the Congress in its review of and action on the appropriation required to liquidate obligations.

Estimated Effects *

If all contract authority were to be released from reserve, the obligation plan would still have to take into consideration the amount of cash appropriated by the Congress to liquidate such obligations. Thus, there would be no significant change in the program plan if all of the contract authority were to be made available.

*Revised from previous submission.

Deferral No.: D75-150

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency Department of Labor	New budget authority (P.L. 93-517)	$ 200,000
Bureau Departmental Management	Other budgetary resources	16,049
Appropriation Title & Symbol	Total Budgetary Resources	216,049
Special Foreign Currency Departmental Management 16X0151	Amount to be deferred part of year	200,000
	Amount to be deferred for entire year	-0-

Justification

This deferral action involves the postponement of funds for foreign service consultations. This withholding of funds is taken under provisions of the Antideficiency Act (31 U.S.C. 665 et. seq.). This reserve will allow the Department of Labor to prepare a financial plan which describes the activities to be financed, the foreign currency to be used, the number of attendees and other supporting information.

Estimated Effects

Since the funds would in any event not be used in the absence of final determinations of the activities to be financed, there will be no delay in activities, generally international conferences of foreign service officers. Upon the transmittal of the necessary plan these funds will be released from reserve. The deferral is not expected to affect 1975 outlays.

1975 Budget (February transmittal)	(195)
Without deferral (current estimate)	230
With deferral (revised estimate)	230
(Effect of action on 1976 outlays...	---)

Deferral No.: D75-151

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency Department of Transportation	New budget authority (P.L. 93-391)	$ 42,764,000
Bureau National Highway Traffic Safety Administration	Other budgetary resources	44,360,632
Appropriation Title & Symbol Traffic and Highway Safety 69X0650	Total Budgetary Resources	87,124,632
	Amount to be deferred part of year	1,800,000
	Amount to be deferred for entire year	---

Justification:

Total funds of $17,482,000 were appropriated in fiscal years 1974 and 1975 to carry out five State diagnostic inspection demonstration projects, as required by Title III of the Motor Vehicle Information and Cost Savings Act (PL 92-513, Approved October 20, 1972). As the contract proposals were received from the States and evaluated, it was possible to negotiate final awards below original estimates. Thus, total costs of the projects are $1,900,000 less than was appropriated.

It is proposed to use $100,000 of these savings in FY 1975 and $1,800,000 in FY 1976 to initiate a special motor vehicle diagnostic inspection demonstration project, concentrating on advanced inspection equipment. This new project was authorized in an amendment to Title III of PL 92-513 pursuant to the Motor Vehicle and Schoolbus Safety Amendments of 1974 (PL 93-492, approved October 27, 1974).

The 1976 funding for this project has been placed in reserve for contingencies as authorized under provisions of the Antideficiency Act (31 USC 665).

Estimated Effects:

This deferral action has no programmatic effect since the five demonstration projects, for which the deferral funds were originally appropriated, will be completed as required by June 30, 1976.

Total 1975 Outlays:	Dollars in thousands
1975 Budget (February transmittal)	90,000

(Effect of action on 1976 outlays	---)

Deferral No.: D75-152

DEFERRAL OF BUDGET AUTHORITY
Report Pursuant to Sec. 1013 of P.L. 93-344

Agency Environmental Protection Agency	New budget authority (P.L. 93-563)	$ 100,875,000
Bureau	Other budgetary resources	14,170,000
Appropriation Title & Symbol Abatement and Control 68X0108 (Air and Water Control Agency Grants)	Total Budgetary Resources	115,045,000
	Amount to be deferred part of year	
	Amount to be deferred for entire year	9,375,000

Justification

Deferral of no-year funds is one of several special actions proposed by the President in his message of November 26, 1974 to restrain 1975 budget outlays. His message proposed deletion of the $9.4 million in excess of his budget request from the then-pending appropriation bill. Deletion was not effected because the request arrived too late for adequate consideration. The amount is, therefore, to be deferred until FY 1976, at which time it will be made available for obligation.

Estimated Effects

The impact of this deferral will be to delay the granting of approximately 8 percent of available FY 1975 funds until FY 1976. Based upon past experiences, it is estimated that some 380 grants would be affected, resulting in grant deferrals of $25,000 on an average grant of $303,000. Deferral of the $9.4 million appropriation will enable the maintenance of this program at a level of $91.5 million in both FY 1975 and FY 1976. This deferral will permit local, State, and interstate agencies to develop plans for a constant program level in lieu of planning for increases in FY 1975 and reductions in FY 1976.

Total 1975 Outlays	Dollars in Millions
1975 Budget (Feb. transmittal)	88.0
Without deferral (current estimate)	107.0
With deferral (revised estimate)	101.0
(Effect of action on 1976 outlays)	+6.0

[FR Doc.75-3390 Filed 2-5-75;8:45 am]

NOTICE TO FEDERAL REGISTER READERS

As part of its continuing program to improve the quality of the daily FEDERAL REGISTER and CODE OF FEDERAL REGULATIONS, the Office of the Federal Register is soliciting the views of interested persons on the effectiveness of individual Federal Register documents and on regulations contained in the CODE OF FEDERAL REGULATIONS.

Our goal is twofold:

First—to make each document published in the FEDERAL REGISTER easily understandable, thus making compliance easier, more efficient, and less costly; and

Second—to identify and correct any existing Federal regulations which are obsolete, unnecessarily wordy, or unclearly stated.

We believe this effort is consistent with the objectives stated by President Ford in his October 8th speech on the economy in which he announced "a joint effort by the Congress, the executive branch and the private sector to identify and eliminate existing Federal rules and regulations that increase costs to the consumer without any good reason in today's economic climate."

The Office of the Federal Register welcomes your comments and suggestions. The survey blank below is provided for that purpose. All comments received will be maintained in a public docket and will be available for inspection in the Office of the Federal Register to any interested persons or agencies. Comments which point out the need for substantive changes in existing regulations also will be forwarded to the responsible agency.

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

This list includes only rules that were published in the FEDERAL REGISTER after October 1, 1972.

DOT/FAA—Propeller airplanes; noise standards..... 1029; 1–6–75
Interior—Supply activity report.... 3596; 1–23–75

List of Public Laws

No acts approved by the President were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5282. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

HIGHLIGHTS—Continued

CANNED FRUITS—HEW/FDA amends identity standards (2 documents); effective 3–10–75..... 5762, 5772

FEDERAL EMPLOYEES LIFE INSURANCE—CSC increases withholding rates; effective first pay period after 2–28–75 5747

ALCOHOLIC BEVERAGES—CAB requires airlines to report expense of free service to coach passengers..... 5810

RIGHT TO READ PROGRAM—HEW/OE announces closing date of 3–24–75 for state grant applications..... 5804

MEETINGS—
Commerce: Voluntary Appliance Efficiency Program 2–20–75 5803
DIBA: Telecommunications Equipment Technical Advisory Committee, 3–11–75..... 5800

Title 3—The President

PROCLAMATION 4349

1974 Census of Agriculture

By the President of the United States of America

A Proclamation

A periodic census of all the American people is required by the Constitution as the basis for apportioning representation in Congress. In addition, Congress has since 1840 provided for a special census of agriculture to periodically meet the Nation's requirements for reliable and timely statistics on this indispensable segment of our economy.

The 1974 Census of Agriculture has just begun. Statistics for more than 2.5 million farms will be collected to provide measures of the farm industry and agricultural economy for the Nation, each State, and every county. These data will be aggregated for use by virtually every segment of American society—farmers and their representative groups, the Congress, Federal agencies, State and local governments, educational institutions, private businesses, and consumer organizations.

Under the statute authorizing this Census, receipients of census questionnaires are required to answer the questions in those questionnaires that apply to them, their families, and their farms to insure the accurate compilation of these statistics. The sole purpose of the Census is to secure general statistical information regarding agriculture and related resources of the country. No person can be harmed in any way by furnishing the information required. The Census has nothing to do with taxation or the enforcement of any National, State, or local law or ordinance. The Census Act expressly provides that there will be no public or private disclosure regarding any person or his affairs. To assure the due protection of the rights and interests of the persons furnishing information, every employee of the Census Bureau is prohibited, under heavy penalty, from disclosing any information that may thus come to his knowledge.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, do hereby declare and make known that under the law it is the duty of every person from whom information is sought in connection with the 1974 Census of Agriculture to reply to the questions in the questionnaire.

Prompt, complete, and accurate responses to all official inquiries made by Census officials are of great importance to our country. Therefore, I ask affected Americans for their full cooperation in the 1974 Census of Agriculture.

IN WITNESS WHEREOF, I have hereunto set my hand this sixth day of February, in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the one hundred and ninety-ninth.

Gerald R. Ford

Save Your Vision Week, 1975

PROCLAMATION 4350

By the President of the United States of America

A Proclamation

One of every twenty people in the United States suffers some degree of visual disability. Yet, many eye injuries and disorders could be prevented if Americans took greater care to preserve their vision. Simple measures, such as wearing protective goggles when engaged in hazardous activity, will help avoid eye injuries and save sight. Many disorders that impair vision or cause blindness can be arrested before the eyes become seriously damaged, if they are detected and treated early in their development. Even blindness can sometimes be cured. For example, 95 percent of the 5,000 Americans blinded or visually disabled by cataract, for whom surgery is recommended, could have their vision restored.

Researchers in the visual science are continually striving to reduce the toll of visual disability. Advances made in vision research, many of which have been supported by the Federal Government through the National Eye Institute, and by several philanthropic organizations, can benefit many Americans if only we avail ourselves of them. The simplest way is by making eye examinations a routine part of health care through the professional guidance of ophthalmologists, optometrists, and opticians. All of us should know where to go in our communities for assistance in visual problems. We must be aware of preventive measures that can be taken at home, school, work, and play to protect our vision. We must learn the warning signals of serious eye problems so we know when to seek professional attention.

To encourage all of us to protect our vision and to care properly for our eyes, Congress, by joint resolution, approved December 30, 1963 (77 Stat. 629; 36 U.S.C. 169a), has requested the President to proclaim the first week in March of each year as Save Your Vision Week.

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, do hereby designate the week of March 2 through March 8, 1975, as Save Your Vision Week. I urge all Americans to join in this observance by taking steps to assure eye safety and by making themselves aware of the vision care facilities available in their communities. I invite the appropriate officials of State and local governments to issue similar Proclamations.

I also invite the communications media, the health care professions, and all other agencies and individuals concerned with the improvement and preservation of vision, to join in public activities supporting programs to improve and protect the vision of Americans.

IN WITNESS WHEREOF, I have hereunto set my hand this sixth day of February in the year of our Lord nineteen hundred seventy-five, and of the Independence of the United States of America the one hundred ninety-ninth.

Gerald R. Ford

Amending Executive Order No. 11491, As Amended by Executive Orders 11616 and 11636, Relating to Labor-Management Relations in the Federal Service

EXECUTIVE ORDER 11838

By virtue of the authority vested in me by the Constitution and statutes of the United States, including sections 3301 and 7301 of title 5 of the United States Code, and as President of the United States, Executive Order No. 11491 [1] of October 29, 1969, as amended by Executive Orders 11616 [2] and 11636,[3] relating to labor-management relations in the Federal service, is further amended as follows:

1. Section 2(c) is amended by deleting the words "or to evaluate their performance,".

2. Section 2(d) is revoked.

3. Paragraph (1) of section 4(c) is amended to read as follows:

"(1) appeals from decisions of the Assistant Secretary issued pursuant to section 6 of this order, except where, in carrying out his authority under section 11(d), he makes a negotiability determination, in which instance the party adversely affected shall have a right of appeal;".

4. Paragraphs (4) and (5) of section 6(a) are amended to read as follows:

"(4) decide unfair labor practice complaints (including those where an alleged unilateral act by one of the parties requires an initial negotiability determination) and alleged violations of the standards of conduct for labor organizations; and

"(5) decide questions as to whether a grievance is subject to a negotiated grievance procedure or subject to arbitration under an agreement as provided in section 13(d) of this order."

5. Section 7(d) is amended to read as follows:

"(d) Recognition of a labor organization does not—

(1) preclude an employee, regardless of whether he is in a unit of exclusive recognition, from exercising grievance or appellate rights established by law or regulation, or from choosing his own representative in a grievance or appellate action, except when the grievance is covered under a negotiated procedure as provided in section 13;

(2) preclude or restrict consultations and dealings between an agency and a veterans organization with respect to matters of particular interest to employees with veterans preference; or

(3) preclude an agency from consulting or dealing with a religious, social, fraternal, professional or other lawful association, not qualified as a labor organization, with respect to matters or policies which involve individual members of the association or are of particular applicability to it or its members. Consultations and dealings under subparagraph (3)

[2] 3 CFR 1971 Comp., p. 191; 36 FR 17319.
[3] 3 CFR 1971 Comp., p. 232; 36 FR 24901.

XUM V40-27 FEB 7 75 XUM

of this paragraph shall be so limited that they do not assume the character of formal consultation on matters of general employee-management policy covering employees in that unit or extend to areas where recognition of the interests of one employee group may result in discrimination against or injury to the interests of other employees."

6. Section 7(c) is revoked.

7. Section 9(b) is amended by substituting the word "consult" for the word "confer" in the third sentence thereof.

8. Section 10(a) is amended to read as follows:

"(a) An agency shall accord exclusive recognition to a labor organization when the organization has been selected, in a secret ballot election, by a majority of the employees in an appropriate unit as their representative; provided that this section shall not preclude an agency from according exclusive recognition to a labor organization, without an election, where the appropriate unit is established through the consolidation of existing exclusively recognized units represented by that organization."

9. Paragraph (2) of section 10(b) is amended by adding at the end thereof the word "or".

10. Paragraph (3) of section 10(b) is revoked.

11. Section 10(c) is revoked.

12. Section 10(d) is amended to read as follows:

"(d) All elections shall be conducted under the supervision of the Assistant Secretary, or persons designated by him, and shall be by secret ballot. Each employee eligible to vote shall be provided the opportunity to choose the labor organization he wishes to represent him, from among those on the ballot, or 'no union', except as provided in subparagraph (4) of this paragraph. Elections may be held to determine whether—

(1) a labor organization should be recognized as the exclusive representative of employees in a unit;

(2) a labor organization should replace another labor organization as the exclusive representative;

(3) a labor organization should cease to be the exclusive representative; or

(4) a labor organization should be recognized as the exclusive representative of employees in a unit composed of employees in units currently represented by that labor organization or continue to be recognized in the existing separate units."

13. Section 11 is amended to read as follows:

"SEC. 11. *Negotiation of agreements.* (a) An agency and a labor organization that has been accorded exclusive recognition, through appropriate representatives, shall meet at reasonable times and confer in good faith with respect to personnel policies and practices and matters affecting working conditions, so far as may be appropriate under applicable laws and regulations, including policies set forth in the Federal Personnel Manual; published agency policies and regulations for which a compelling need exists under criteria established by the Federal Labor Relations Council and which are issued at the agency headquarters level or at the level of a primary national subdivision; a national or other controlling agreement at a higher level in the agency; and this order. They

may negotiate an agreement, or any question arising thereunder; determine appropriate techniques, consistent with section 17 of this order, to assist in such negotiation; and execute a written agreement or memorandum of understanding.

"(b) In prescribing regulations relating to personnel policies and practices and working conditions, an agency shall have due regard for the obligation imposed by paragraph (a) of this section. However, the obligation to meet and confer does not include matters with respect to the mission of an agency; its budget; its organization; the number of employees; and the numbers, types, and grades of positions or employees assigned to an organizational unit, work project or tour of duty; the technology of performing its work; or its internal security practices. This does not preclude the parties from negotiating agreements providing appropriate arrangements for employees adversely affected by the impact of realignment of work forces or technological change.

"(c) If, in connection with negotiations, an issue develops as to whether a proposal is contrary to law, regulation, controlling agreement, or this order and therefore not negotiable, it shall be resolved as follows:

(1) An issue which involves interpretation of a controlling agreement at a higher agency level is resolved under the procedures of the controlling agreement, or, if none, under agency regulations;

(2) An issue other than as described in subparagraph (1) of this paragraph which arises at a local level may be referred by either party to the head of the agency for determination;

(3) An agency head's determination as to the interpretation of the agency's regulations with respect to a proposal is final;

(4) A labor organization may appeal to the Council for a decision when—

(i) it disagrees with an agency head's determination that a proposal would violate applicable law, regulation of appropriate authority outside the agency, or this order, or

(ii) it believes that an agency's regulations, as interpreted by the agency head, violate applicable law, regulation of appropriate authority outside the agency, or this order, or are not otherwise applicable to bar negotiations under paragraph (a) of this section.

"(d) If, as the result of an alleged unilateral change in, or addition to, personnel policies and practices or matters affecting working conditions, the acting party is charged with a refusal to consult, confer or negotiate as required under this order, the Assistant Secretary may, in the exercise of his authority under section 6(a)(4) of the order, make those determinations of negotiability as may be necessary to resolve the merits of the alleged unfair labor practice. In such cases the party subject to an adverse ruling may appeal the Assistant Secretary's negotiability determination to the Council."

14. Section 13 is amended to read as follows:

"SEC. 13. *Grievance and arbitration procedures.* (a) An agreement between an agency and a labor organization shall provide a procedure, applicable only to the unit, for the consideration of grievances. The coverage and scope of the procedure shall be negotiated by the parties to the agreement with the exception that it may not cover matters for which a statutory appeal procedure exists and so long as it does not otherwise conflict with statute or this order. It shall be the exclusive procedure

XUM V40-27 FEB 7 75 XUM

available to the parties and the employees in the unit for resolving grievances which fall within its coverage. However, any employee or group of employees in the unit may present such grievances to the agency and have them adjusted, without the intervention of the exclusive representative, as long as the adjustment is not inconsistent with the terms of the agreement and the exclusive representative has been given opportunity to be present at the adjustment.

"(b) A negotiated procedure may provide for arbitration of grievances. Arbitration may be invoked only by the agency or the exclusive representative. Either party may file exceptions to an arbitrator's award with the Council, under regulations prescribed by the Council.

(c) [Revoked.]

"(d) Questions that cannot be resolved by the parties as to whether or not a grievance is on a matter for which a statutory appeal decision exists, shall be referred to the Assistant Secretary for decision. Other questions as to whether or not a grievance is on a matter subject to the grievance procedure in an existing agreement, or is subject to arbitration under that agreement, may by agreement of the parties be submitted to arbitration or may be referred to the Assistant Secretary for decision."

(e) [Revoked.]

15. Section 15 is amended to read as follows:

"SEC. 15. *Approval of agreements.* An agreement with a labor organization as the exclusive representative of employees in a unit is subject to the approval of the head of the agency or an official designated by him. An agreement shall be approved within forty-five days from the date of its execution if it conforms to applicable laws, the order, existing published agency policies and regulations (unless the agency has granted an exception to a policy or regulation) and regulations of other appropriate authorities. An agreement which has not been approved or disapproved within forty-five days from the date of its execution shall go into effect without the required approval of the agency head and shall be binding on the parties subject to the provisions of law, the order and the regulations of appropriate authorities outside the agency. A local agreement subject to a national or other controlling agreement at a higher level shall be approved under the procedures of the controlling agreement, or, if none, under agency regulations."

16. Section 21(a) is revoked.

17. Section 23 is amended by deleting at the end thereof the following:

"other than those for the implementation of section 7(e) of this order".

The amendments made by this order shall become effective ninety days from this date except that the amendments to sections 11(a) and 11(c) shall not become effective until ninety days after issuance by the Federal Labor Relations Council of the criteria for determining compelling need. Each agency shall issue appropriate policies and regulations consistent with this order for its implementation.

Gerald R. Ford

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Treasury Department

Section 213.3305 is amended to reflect the following title change from: one Secretary to the Assistant Secretary for Administration to one Staff Assistant to the Assistant Secretary for Administration.

Effective February 7, 1975, § 213.3305 (a)(39) is amended as set out below.

§ 213.3305 Treasury Department.

(a) *Office of the Secretary* • • •

(39) One Staff Assistant to the Assistant Secretary for Administration.

• • • • • •

(5 U.S.C. secs. 3301, 3302; E.O. 10577, 3 CFR 1954–58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES G. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.75-3476 Filed 2-6-75;8:45 am]

PART 213—EXCEPTED SERVICE

Department of Defense

Section 213.3306 is amended to show that one position of Confidential Assistant to the President of the Uniformed Services University of the Health Sciences is excepted under Schedule C.

Effective February 7, 1975, § 213.3306 (a)(17) is added as set out below.

§ 213.3306 Department of Defense.

(a) *Office of the Secretary* • • •

(17) One Confidential Assistant to the President of the Uniformed Services University of the Health Sciences.

• • • • • •

(5 U.S.C. secs. 3301, 3302; E.O. 10577, 3 CFR 1954–58 Comp. p. 218)

Executive Assistant to the Commissioners.

[FR Doc.75-3475 Filed 2-6-75;8:45 am]

PART 870—REGULAR LIFE INSURANCE

Increase in Employee Withholding for Insurance

The life insurance regulations are hereby amended to provide for an increase in the amount withheld for regular life insurance from the pay of an employee during any period in which the employee is in a pay status.

Effective on the first day of the first pay period beginning after February 28, 1975 § 870.401(a) and (b) are amended as set out below:

§ 870.401 Withholdings and contributions.

(a) During any period in any part of which an insured employee is in a pay status there shall be withheld from the biweekly pay of such employee the sum of 35.5 cents for each $1,000 of his regular insurance. The amount withheld from the pay of an employee who is paid on other than a biweekly basis is determined at a proportionate rate, adjusted to the nearest cent.

(b) The amount withheld from the pay of an insured employee whose annual pay is paid during a period shorter than 52 workweeks is the sum obtained by converting the biweekly rate of 35.5 cents for each $1,000 of his regular insurance to an annual rate and prorating the annual rate over the number of installments of pay regularly paid during the year.

• • • • • •

(5 U.S.C. 8707, 8716)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.75-3592 Filed 2-6-75;8:45 am]

Title 7—Agriculture

CHAPTER II—FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

[FSP No. 1975-2.2, Amdt. 46]

PART 271—PARTICIPATION OF STATE AGENCIES AND ELIGIBLE HOUSEHOLDS

Food Stamp Program; Alaska

Notice of proposed rulemaking was published in the FEDERAL REGISTER on December 6, 1974 (39 FR 42700) setting forth a proposal to amend the regulations governing the Food Stamp Program (7 CFR Part 271) to provide that, effective March 1, 1975, the amount each household will pay for its coupon allotment will be 30 percent of adjusted net monthly income; i.e., income after all allowable deductions have been made, except that one- and two-person households with net monthly income of less than $20 and all other households with net monthly income of less than $30 shall continue to receive their coupon allotments without paying anything.

Notice FSP No. 1975–2.1 currently provides that the percentage of income represented by the purchase requirements reflect historical differentials which show a wide variation of the percentage of income by household size and income. Additionally there are further distortions due to the use of income intervals which result in varying percentages of income within these intervals. Under the proposed amendment, these differentials and distortions would be removed, as every household with the same income will pay the same purchase requirement.

Interested persons were given 21 days in which to submit comments, suggestions, or objections to the proposed amendment. Comments on the proposed

XUM V40127 FEB 7 75 XUM

rulemaking were received from over 4,000 interested persons and organizations.

After consideration of all comments as presented by interested persons, the amendment so proposed to remove the current differentials and distortions is hereby adopted, subject to the following changes:

1. Less than whole dollar amounts shall be dropped in computing the amount that a household shall be required to pay for its total monthly coupon allotment, and

2. The maximum amount that a household shall be required to pay shall be $1.00 less than its total monthly coupon allotment.

Thus, Notice FSP No. 1975–2.1 for Alaska issued pursuant to a part of Subchapter C—Food Stamp Program, under Title 7, Chapter II, Code of Federal Regulations, is amended and superseded by this Notice FSP No. 1975–2.2 to read as follows:

MAXIMUM MONTHLY ALLOWABLE INCOME STANDARDS AND BASIS OF COUPON ISSUANCE: ALASKA

Households in which all members are included in the federally-aided public assistance grant, general assistance grant, or supplemental security income benefit shall be determined to be eligible to participate in the program while receiving such grants without regard to the income and resources of the household members.

The maximum allowable income standards for determining eligibility of all other applicant households, including those in which some members are recipients of federally-aided public assistance, general assistance or supplemental security income benefit, in Alaska shall be the higher of:

(1) The maximum allowable monthly income standards for each household size which were in effect in Alaska prior to July 29, 1971, or

(2) The following maximum allowable monthly income standards:

Household size:

1	[1] $229
2	360
3	546
4	693
5	826
6	946
7	1,066
8	1,186
Each additional member	+100

[1] Poverty Guideline

"Income" as the term is used in the notice is as defined in paragraph (c) of § 271.3 of the Food Stamp Program Regulations.

Section 7(a) of the Food Stamp Act, as amended, requires that the value of the coupon allotment be adjusted semi-annually by the nearest increment that is a multiple of two to reflect changes in the prices of food published by the Bureau of Labor Statistics.

Prior to the amendment to the Act requiring semi-annual adjustment of the value of the coupon allotment, the adjustments were made at the beginning of each fiscal year; i.e., in July based on the cost of the economy food plan in the preceding December. With the enactment of the semi-annual adjustment, the law specified that the first adjustment be made in January 1974 to reflect changes in food prices through August 1973. A similar procedure was used for the July 1, 1974 adjustment and for the January 1, 1975 adjustment in the value of the coupon allotment which is based on the cost of the economy food plan in August 1974.

The total monthly coupon allotments for some households are not divisible by four. This results in total coupon allotments of uneven dollar amounts for those households which choose to purchase one-fourth or three-fourths of their total coupon allotment. For such households, the State agency shall round the face value of one-fourth or three-fourths of the total coupon allotment up to the next higher whole dollar amount and shall not change the purchase requirements for such allotments.

Pursuant to section 7(a) of the Food Stamp Act, as amended (7 U.S.C. 2016, Pub. L. 91–671), the face value of the monthly coupon allotment which the State agency is authorized to issue to any household certified as eligible to participate in the Program in Alaska is as follows:

MONTHLY COUPON ALLOTMENTS

Household size:	Alaska
1	$62
2	114
3	164
4	206
5	248
6	284
7	320
8	356
Each additional person	+30

PURCHASE REQUIREMENTS

Pursuant to section 7(b) of the Food Stamp Act, as amended (7 U.S.C. 2016, Pub. L. 91–671), the amount that each household shall be required to pay for its total coupon allotment shall be 30 percent of adjusted net monthly income; i.e., income after all allowable deductions have been made; except that:

1. One- and two-person households with adjusted net income of less than $20 per month shall continue to receive their coupon allotments without paying anything; and

2. Households of three or more persons with adjusted net income of less than $30 per month shall continue to receive their coupon allotments without paying anything.

Less than whole dollar amounts shall be dropped in computing the amount that a household shall be required to pay for its total coupon allotment. The maximum amount that a household shall be required to pay shall be $1.00 less than the total coupon allotment for each household size.

Effective date. This amendment shall become effective March 1, 1975.

(78 Stat. 703, as amended; 7 U.S.C. 2011–2026) (Catalog of Federal Domestic Assistance Programs, No. 10.551, National Archives Reference Services)

Dated: February 4, 1975.

RICHARD L. FELTNER,
Assistant Secretary.

[FSP No. 1975–3.2, Amdt. 49]

PART 271—PARTICIPATION OF STATE AGENCIES AND ELIGIBLE HOUSEHOLDS

Food Stamp Program, Hawaii

Notice of proposed rulemaking was published in the FEDERAL REGISTER on December 6, 1974 (39 FR 42700) setting forth a proposal to amend the regulations governing the Food Stamp Program (7 CFR Part 271) to provide that, effective March 1, 1975, the amount each household will pay for its coupon allotment will be 30 percent of adjusted net monthly income; i.e., income after all allowable deductions have been made, except that one- and two-person households with net monthly income of less than $20 and all other households with net monthly income of less than $30 shall continue to receive their coupon allotments without paying anything.

Notice FSP No. 1975–3.1 currently provides that the percentage of income represented by the purchase requirements reflect historical differentials which show a wide variation of the percentage of income by household size and income. Additionally there are further distortions due to the use of income intervals which result in varying percentages of income within these intervals. Under the proposed amendment, these differentials and distortions would be removed, as every household with the same income will pay the same purchase requirement.

Interested persons were given 21 days in which to submit comments, suggestions, or objections to the proposed amendment. Comments on the proposed rulemaking were received from over 4,000 interested persons and organizations.

After consideration of all comments as presented by interested persons, the amendment so proposed to remove the current differentials and distortions is hereby adopted, subject to the following changes:

1. Less than whole dollar amounts shall be dropped in computing the amount that a household shall be required to pay for its total monthly coupon allotment, and

2. The maximum amount that a household shall be required to pay shall be $1.00 less than its total monthly coupon allotment.

Thus, Notice FSP No. 1975–3.1 for Hawaii issued pursuant to a part of Subchapter C—Food Stamp Program, under Title 7, Chapter II, Code of Federal Regulations, is amended and superseded by this Notice FSP No. 1975–3.2 to read as follows:

MAXIMUM MONTHLY ALLOWABLE INCOME STANDARDS AND BASIS OF COUPON ISSUANCE: HAWAII

Households in which all members are included in the federally-aided public assistance grant, general assistance grant, or supplemental security income benefit shall be determined to be eligible to participate in the program while receiving such grants without regard to the income and resources of the household members.

The maximum allowable income standards for determining eligibility of all other applicant households, including those in which some members are recipients of federally-aided public assistance, general assistance or supplemental security income benefit, in Hawaii shall be the higher of:

(1) The maximum allowable monthly income standards for each household size which were in effect in Hawaii prior to July 29, 1971, or

(2) The following maximum allowable monthly income standards:

Household size:

1	[1] $216
2	360
3	520
4	660
5	786
6	900
7	1,013
8	1,120
Each additional member	+93

[1] Poverty guideline.

"Income" as the term is used in the notice is as defined in paragraph (c) of § 271.3 of the Food Stamp Program Regulations.

Section 7(a) of the Food Stamp Act, as amended, requires that the value of the coupon allotment be adjusted semi-annually by the nearest increment that is a multiple of two to reflect changes in the prices of food published by the Bureau of Labor Statistics.

Prior to the amendment to the Act requiring semi-annual adjustment of the value of the coupon allotment, the adjustments were made at the beginning of each fiscal year; i.e., in July based on the cost of the economy food plan in the preceding December. With the enactment of the semi-annual adjustment, the law specified that the first adjustment be made in January 1974 to reflect changes in food prices through August 1973. A similar procedure was used for the July 1, 1974 adjustment and for the January 1, 1975 adjustment in the value of the coupon allotment which is based on the cost of the economy food plan in August 1974.

The total monthly coupon allotments for some households are not divisible by four. This results in total coupon allotments of uneven dollar amounts for those households which choose to purchase one-fourth or three-fourths of their total coupon allotment. For such households, the State agency shall round the face value of one-fourth or three-fourths of the total coupon allotment up to the next higher whole dollar amount and shall not change the purchase requirements for such allotments.

Pursuant to section 7(a) of the Food Stamp Act, as amended (7 U.S.C. 2016, Pub. L. 91–671), the face value of the monthly coupon allotment which the State agency is authorized to issue to any household certified as eligible to participate in the Program in Hawaii is as follows:

MONTHLY COUPON ALLOTMENTS

Household size:	Hawaii
1	$60
2	108
3	156
4	198
5	236
6	270
7	304
8	336
Each additional person	+28

PURCHASE REQUIREMENTS

Pursuant to section 7(b) of the Food Stamp Act, as amended (7 U.S.C. 2016, Pub. L. 91–671), the amount that each household shall be required to pay for its total coupon allotment shall be 30 percent of adjusted net monthly income; i.e., income after all allowable deductions have been made; except that:

1. One- and two-person households with adjusted net income of less than $20 per month shall continue to receive their coupon allotments without paying anything; and

2. Households of three or more persons with adjusted net income of less than $30 per month shall continue to receive their coupon allotments without paying anything.

Less than whole dollar amounts shall be dropped in computing the amount that a household shall be required to pay for its total coupon allotment. The maximum amount that a household shall be required to pay shall be $1.00 less than the total coupon allotment for each household size.

Effective date. This amendment shall become effective March 1, 1975.

(78 Stat. 703, as amended; (7 U.S.C. 2011–2026))

(Catalog of Federal Domestic Assistance Programs, No. 10.551, National Archives Reference Services)

Dated: February 4, 1975.

[FSP No. 1975–4.2; Amdt. 50]

PART 271—PARTICIPATION OF STATE AGENCIES AND ELIGIBLE HOUSEHOLDS

Food Stamp Program; Puerto Rico

Notice of proposed rulemaking was published in the FEDERAL REGISTER on December 6, 1974 (39 FR 42700) setting forth a proposal to amend the regulations governing the Food Stamp Program (7 CFR Part 271) to provide that, effective March 1, 1975, the amount each household will pay for its coupon allotment will be 30 percent of adjusted net monthly income; i.e., income after all allowable deductions have been made, except that one- and two-person households with net monthly income of less than $20 and all other households with net monthly income of less than $30 shall continue to receive their coupon allotments without paying anything. Under the proposed amendment, these differentials and distortions would be removed, as every household with the same income will pay the same purchase requirement.

Interested persons were given 21 days in which to submit comments, suggestions, or objections to the proposed amendment. Comments on the proposed rulemaking were received from over 4,000 interested persons and organizations.

After consideration of all comments as presented by interested persons, the amendment so proposed to remove the current differentials and distortions is hereby adopted, subject to the following changes:

1. Less than whole dollar amounts shall be dropped in computing the amount that a household shall be required to pay for its total monthly coupon allotment, and

2. The maximum amount that a household shall be required to pay shall be $1.00 less than its total monthly coupon allotment.

Thus, Notice FSP No. 1975–4.1 for Puerto Rico, issued pursuant to a part of Subchapter C—Food Stamp Program, under Title 7, Chapter II, Code of Federal Regulations, is amended and superseded, by this Notice FSP No. 1975–4.2 to read as follows:

MAXIMUM MONTHLY ALLOWABLE INCOME STANDARDS AND BASIS OF COUPON ISSUANCE: PUERTO RICO

Section 5(b) of the Food Stamp Act requires the establishment of special standards of eligibility and coupon allotment schedules which reflect the average per capita income and cost of obtaining a nutritionally adequate diet in Puerto Rico. Additionally, section 5(b) specifies that these special standards of eligibility or coupon allotments shall not exceed those in effect for the fifty States.

As provided in § 271.3(b), households in which all members are included in the federally-aided public assistance grant or general assistance grant, shall be determined to be eligible to participate in the Program while receiving such grants without regard to the income and resources of the household members.

The maximum allowable income standards for determining eligibility of all other applicant households, including

[FSP No. 1975-52, Amdt. 51]

PART 271—PARTICIPATION OF STATE AGENCIES AND ELIGIBLE HOUSEHOLDS

Food Stamp Program; Virgin Islands

Notice of proposed rulemaking was published in the FEDERAL REGISTER on December 6, 1974 (39 FR 42700) setting forth a proposal to amend the regulations governing the Food Stamp Program (7 CFR Part 271) to provide that, effective March 1, 1975, the amount each household will pay for its coupon allotment will be 30 percent of adjusted net monthly income; i.e., income after all allowable deductions have been made, except that one- and two-person households with net monthly income of less than $20 and all other households with net monthly income of less than $30 shall continue to receive their coupon allotments without paying anything.

Notice FSP No. 1975-5.1 currently provides that the percentage of income represented by the purchase requirements reflect historical differentials which show a wide variation of the percentage of income by household size and income. Additionally there are further distortions due to the use of income intervals which result in varying percentages of income within these intervals. Under the proposed amendment, these differentials and distortions would be removed, as every household with the same income will pay the same purchase requirement.

Interested persons were given 21 days in which to submit comments, suggestions, or objections to the proposed amendment. Comments on the proposed rulemaking were received from over 2,000 interested persons and organizations.

After consideration of all comments as presented by interested persons, the amendment so proposed to remove the current differentials and distortions is hereby adopted, subject to the following changes:

1. Less than whole dollar amounts shall be dropped in computing the amount that a household shall be required to pay for its total monthly coupon allotment, and

2. The maximum amount that a household shall be required to pay shall be $1.00 less than its total monthly coupon allotment for each household size.

Thus, Notice FSP No. 1975-5.1 for the Virgin Islands, issued pursuant to a part of Subchapter C—Food Stamp Program, under Title 7, Chapter II, Code of Federal Regulations, is amended and superseded, by this Notice FSP No. 1975-5.2 to read as follows:

MAXIMUM MONTHLY ALLOWABLE INCOME STANDARDS AND BASIS OF COUPON ISSUANCE: VIRGIN ISLANDS

Section 5(b) of the Food Stamp Act requires the establishment of special standards of eligibility and coupon allotment schedules which reflect the average per capita income and cost of obtaining a nutritionally adequate diet in the Virgin Islands. Additionally, section 5(b) specifies that these special standards of eligibility or coupon allotments shall not exceed those in effect for the fifty States.

As provided in § 271.3(b), households in which all members are included in the federally-aided public assistance grant or general assistance grant, shall be determined to be eligible to participate in the Program while receiving such grants without regard to the income and resources of the household members.

The maximum allowable income standards for determining eligibility of all other applicant households, including those in which some members are recipients of federally-aided public assistance or general assistance, in the Virgin Islands shall be as follows:

Household size:	
1	[1] $194
2	353
3	507
4	640
5	760
6	873
7	987
8	1,100
Each additional member	+93

[1] Poverty guideline.

"Income" as the term is used in the notice is as defined in paragraph (c) of § 271.3 of the Food Stamp Program Regulations.

Section 7(a) of the Food Stamp Act, as amended, requires that the value of the coupon allotment be adjusted semi-annually by the nearest increment that is a multiple of two to reflect changes in the prices of food published by the Bureau of Labor Statistics. The first coupon allotment schedules, effective July 1, 1974, were based on the economy food plan in February 1974. A similar procedure was used for the January 1, 1975 adjustment in the value of the coupon

allotment which is based on the cost of the economy food plan in August 1974.

The total monthly coupon allotments for some households are not divisible by four. This results in total coupon allotments of uneven dollar amounts for those households which choose to purchase one-fourth or three-fourths of their total coupon allotment. For such households, the State agency shall round the face value of one-fourth or three-fourths of the total coupon allotment up to the next higher whole dollar amount and shall not change the purchase requirements for such allotments.

Pursuant to section 7(a) of the Food Stamp Act, as amended (7 U.S.C. 2016, Pub. L. 91-671), the face value of the monthly coupon allotment which the State agency is authorized to issue to any household certified as eligible to participate in the Program in the Virgin Islands is as follows:

MONTHLY COUPON ALLOTMENTS

Household size:	*Virgin Islands*
1	$58

[FSP No. 1975-6.2, Amdt. 52]

PART 271—PARTICIPATION OF STATE AGENCIES AND ELIGIBLE HOUSEHOLDS

Food Stamp Program; Guam

Notice of proposed rulemaking was published in the FEDERAL REGISTER on December 6, 1974 (39 FR 42700) setting forth a proposal to amend the regulations governing the Food Stamp Program (7 CFR Part 271) to provide that, effective March 1, 1975, the amount each household will pay for its coupon allotment will be 30 percent of adjusted net monthly income; i.e., income after all allowable deductions have been made, except that one- and two-person households with net monthly income of less than $20 and all other households with net monthly income of less than $30 shall continue to receive their coupon allotments without paying anything.

Notice FSP No. 1975-6.1 currently provides that the percentage of income represented by the purchase requirements reflects historical differentials which show a wide variation of the percentage of income by household size and income. Additionally there are further distortions due to the use of income intervals which result in varying percentages of income within these intervals. Under the proposed amendment, these differentials and distortions would be removed, as every household with the same income will pay the same purchase requirement.

Interested persons were given 21 days in which to submit comments, suggestions, or objections to the proposed amendment. Comments on the proposed rulemaking were received from over 4,000 interested persons and organizations.

After consideration of all comments as presented by interested persons, the amendment so proposed to remove the current differentials and distortions is hereby adopted, subject to the following changes:

1. Less than whole dollar amounts shall be dropped in computing the amount that a household shall be required to pay for its total monthly coupon allotment, and

2. The maximum amount that a household shall be required to pay shall be $1.00 less than its total monthly coupon allotment.

Thus, Notice FSP No. 1975-6.1 for Guam, issued pursuant to a part of Subchapter C—Food Stamp Program, under Title 7, Chaper II, Code of Federal Regulations, is amended and superseded, by this Notice FSP No. 1975-6.2 to read as follows:

MAXIMUM MONTHLY ALLOWABLE INCOME STANDARDS AND BASIS OF COUPON ISSUANCE: GUAM

Section 5(b) of the Food Stamp Act requires the establishment of special standards of eligibility and coupon allotment schedules which reflect the average per capita income and cost of obtaining a nutritionally adequate diet in Guam. Additionally, section 5(b) specifies that these special standards of eligibility or coupon allotments shall not exceed those in effect for the fifty States.

As provided in § 271.3(b), households in which all members are included in the federally-aided public assistance grant or general assistance grant, shall be determined to be eligible to participate in the program while receiving such grants without regard to the income and resources of the household members.

The maximum allowable income standards for determining eligibility of all other applicant households, including those in which some members are recipients of federally-aided public assistance or general assistance, in Guam shall be as follows:

Household size:	
1	[1] $218
2	380
3	546
4	693
5	826
6	946
7	1,066
8	1,186
Each additional member	+100

[1] Poverty guideline.

"Income" as the term is used in the notice is as defined in paragraph (c) of § 271.3 of the Food Stamp Program Regulations.

Section 7(a) of the Food Stamp Act, as amended, requires that the value of the coupon allotment be adjusted semi-annually by the nearest increment that is a multiple of two to reflect changes in the prices of food published by the Bureau of Labor Statistics.

The cost of a nutritionally adequate diet—the economy food plan—is estimated by the Agricultural Research Service based on food prices published by the Bureau of Labor Statistics. Based on prices provided for Guam, the Agricultural Research Service estimated that the cost of the economy food plan would be higher than in the fifty States. Thus, the coupon allotments set forth for Guam are the same as those which became effective in Alaska on January 1, 1975.

The total monthly coupon allotments for some households are not divisible by four. This results in total coupon allotments of uneven dollar amounts for those households which choose to purchase one-fourth or three-fourths of their total coupon allotment. For such households, the State agency shall round the face value of one-fourth or three-fourths of the total coupon allotment up to the next higher whole dollar amount and shall not change the purchase requirements for such allotments.

Pursuant to section 7(a) of the Food Stamp Act, as amended (7 U.S.C. 2016, Pub. L. 91-671), the face value of the monthly coupon allotment which the State agency is authorized to issue to any household certified as eligible to

V 40 27 FEB 7 75 XUM

participate in the Program in Guam is as follows:

MONTHLY COUPON ALLOTMENTS

Household size:	Guam
1	$63
2	114
3	164
4	208
5	264
6	264
7	320
8	356
Each additional person	+30

PURCHASE REQUIREMENTS

Pursuant to section 7(b) of the Food Stamp Act, as amended (7 U.S.C. 2016, Pub. L. 91-671), the amount that each household shall be required to pay for its total coupon allotment shall be 30 percent of adjusted net monthly income; i.e., income after all allowable deductions have been made; except that:

1. One- and two-person households with adjusted net income of less than $20 per month shall continue to receive their coupon allotments without paying anything; and

2. Households of three or more persons with adjusted net income of less than $30 per month shall continue to receive their coupon allotments without paying anything.

Less than whole dollar amounts shall be dropped in computing the amount that a household shall be required to pay for its total coupon allotment. The maximum amount that a household shall be required to pay shall be $1.00 less than the total coupon allotment for each household size.

Effective date. This amendment shall become effective March 1, 1975.

(78 Stat. 703, as amended; 7 U.S.C. 2011-2026)

(Catalog of Federal Domestic Assistance Programs, No. 10.551, National Archives Reference Services)

Dated: February 4, 1975.

RICHARD L. FELTNER,
Assistant Secretary.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 678]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period February 9-15, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.978 Lemon Regulation 678.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons continues about unchanged from last week. Average f.o.b. price was $4.77 per carton the week ended February 1, 1975, compared to $4.90 per carton the previous week. Track and rolling supplies at 129 cars were down 1 car from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on February 4, 1975.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period February 9, 1975, through February 15, 1975, is hereby fixed at 210,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: February 5, 1975.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5464]

VIRGIN ISLANDS

Reserved Lands

1. Pursuant to the authority vested in me by section 3 of the Act of October 5, 1974, 88 Stat. 1210, the following described lands are hereby reserved to the United States:

a. The property known as the United States Coast Guard Light Attendant Station and Moorings, located in the city and harbor of Charlotte Amalie, St. Thomas, United States Virgin Islands which is currently used and occupied by the United States Coast Guard.

b. The property known as Nos. 47 and 48aa Norre Gade in the City of Charlotte Amalie, St. Thomas, United States Virgin Islands, currently used and occupied by the United States Post Office.

c. The property known as No. 48b, Norre Gade or Talbod Gade in the City of Charlotte Amalie, St. Thomas, United States Virgin Islands, currently used and occupied by the United States District Court, the United States Attorney's Office and the United States Immigration and Naturalization Service. This reservation is effective until such time as the Secretary of the Interior determines that the property is no longer needed by the United States Government.

2. The lands described in Paragraph 1 are for the use of the agencies involved or other United States Government agencies which may require them.

ROGERS C. B. MORTON,
Secretary of the Interior.

JANUARY 31, 1975.

[Montana 27716]

MONTANA

Withdrawal from Mineral Entry

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subect to valid existing rights, the following described national forest lands are hereby withdrawn from appropriation under the mining laws, 30 U.S.C. Ch. 2, but not from leasing under the mineral leasing laws, for the protection of a scenic and historic area that has been nominated for inclusion in the National Register of Historic Places:

CUSTER NATIONAL FOREST

MONTANA PRINCIPAL MERIDIAN

T. 3 S., R. 62 E.,
Sec. 16, SW¼SW¼NW¼, W½SW¼;
Sec. 17, SE¼SE¼NE¼, E½E½SE¼;
Sec. 20, E½NE¼NE¼;
Sec. 21, N½NW¼.

The area described contains 240 acres in Carter County.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of the national forest lands under lease, license, or permit or governing the disposal of their mineral or vegetative resources other than under the mining laws.

JACK O. HORTON,
Secretary of the Interior.

JANUARY 31, 1975.

[Public Land Order No. 5467]

[Idaho 5053]

IDAHO

Withdrawal for National Forest Research Natural Area

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described national forest lands are hereby withdrawn from appropriation under the mining laws, 30 U.S.C., Ch. 2, but not from leasing under the mineral leasing laws, in aid of programs of the Department of Agriculture:

ST. JOE NATIONAL FOREST

BOISE MERIDIAN

Upper Fishhook Research Natural Area

T. 44 N., R. 5 E.,
Sec. 32, N½.

The area described aggregates 320 acres in Shoshone County.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of the national forest land under lease, license or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

JACK O. HORTON,
Secretary of the Interior.

SOUTH DAKOTA

Partial Revocation of National Forest, Administrative Site Withdrawal

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Public Land Order No. 1744 dated October 6, 1958, withdrawing national forest lands is hereby revoked so far as it affects the following described lands:

XUM V40127 FEB 7 75 XUM

BLACK HILLS NATIONAL FOREST

BLACK HILLS MERIDIAN

Hill City Shop Administrative Site

T. 1 S., R. 4 E.,
Sec. 36, A tract of land described as follows:

Beginning at Corner No. 1, a point on the southeasterly boundary of right-of-way for U.S. Highway No. 85A within the Bonham Placer Mining Survey No. 626 located in sec. 36, T. 1 S., R. 4 E., B.H.M.; thence, S. 35°08' W., 600 feet along said right-of-way to Corner No. 2; S. 6°39' E., 84 feet to Corner No. 3, which is identical with Corner No. 4 of Bonham Placer, M.S. 626; N. 63°37' E., 866.4 feet to Corner No. 4, which is identical with Corner No. 5 of said M.S. 626; N. 68°42' W., 336 feet to Corner No. 5; N. 38°35' W., to Corner No. 1, the place of beginning.

The area described contains 4.05 acres in Pennington County.

2. The land was acquired by the Forest Service and has been used as an administrative site, and will continue to be used as such.

JACK O. HORTON,
Assistant Secretary of the Interior.

COLORADO

Revocation of Recreation Withdrawal No. 48

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. The departmental order of September 15, 1931, withdrawing lands for Recreational Withdrawal No. 48 is hereby revoked as to the following described lands:

NEW MEXICO PRINCIPAL MERIDIAN

T. 38 N., R. 6 E.,
Sec. 26, SE¼SW¼, SW¼SE¼.

The area described contains 80 acres in Rio Grande County.

2. At 10 a.m. on March 8, 1975, the lands shall be open to operation of the public land laws generally, including the United States mining laws, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on March 8, 1975, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing. The lands have been and continue to be open to the filing of applications and offers under the mineral leasing laws.

Inquiry concerning the lands should be addressed to the Chief, Technical Services Division, Colorado State Office, Bureau of Land Management, Colorado Bank Building, Denver, Colorado 80202.

JACK O. HORTON,
Assistant Secretary of the Interior.

Withdrawal for National Forest Recreation Sites

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described national forest lands are hereby withdrawn from appropriation under the mining laws, 30 U.S.C., Ch. 2, but not from leasing under the mineral leasing laws in aid of programs of the Department of Agriculture:

WHITE RIVER NATIONAL FOREST

SIXTH PRINCIPAL MERIDIAN

Eagle Park Campground

T. 7 S., R. 80 W.,
Sec. 22, lots 5, 6, 7, E½E½SE¼SW¼.

Yeoman Park Campground

T. 6 S., R. 83 W.,
Sec. 26, W½NE¼SW¼, N½SW¼SW¼;
Sec. 27, SW¼NE¼, N½NW¼SE¼.

Deep Creek Overlook

T. 4 S., R. 87 W.,
Sec. 19, S½NE¼SE¼SE¼, N½SE¼SE¼SE¼;
Sec. 20, S½NW¼SW¼SW¼, N½SW¼SW¼SW¼.

Trappers Lake Recreation Area

T. 1 S., R. 88 W. (Protraction Diagram No. 3, dated 10-10-61),
Secs. 2, 3, 10, 11, beginning at a point from which the outlet of Trappers Lake bears S. 44° W., 8 chains; thence N. 22 chains to a point on the north line of sec. 2 (protracted); thence W. 20 chains, thence S. 22 chains, thence W. 50 chains, thence S. 60 chains, thence W. 10 chains, thence S. 40 chains, thence E. 60 chains, thence S. 20 chains, thence E. 40 chains, thence N. 120 chains, thence W. 20 chains to the point of beginning.

Heart Lake Recreation Area Addition

T. 3 S., R. 88 W.,
Sec. 30, NE¼SW¼.
T. 3 S., R. 89 W.,
Sec. 25, N½SW¼.

Marvine Creek Campground

T. 1 N., R. 89 W. (Protraction Diagram #3, dated 10-10-61),
Sec. 31, beginning at the E¼ Corner of sec. 36, T. 1 N., R. 90 W., thence N. 15 chains, thence E. 10 chains, thence S. 30 chains, thence W. 10 chains, thence N. 15 chains to the point of beginning.
T. 1 N., R. 90 W.,
Sec. 36, SE¼SE¼NE¼, E½NE¼SE¼.

The areas described aggregate approximately 1,474.66 acres in Eagle, Garfield and Rio Blanco Counties.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of the national forest lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

JACK O. HORTON,
Assistant Secretary of the Interior.

JANUARY 31, 1975.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 74-NW-22-AD, Amdt. 39-2086]

PART 39—AIRWORTHINESS DIRECTIVES

Boeing Model 747-100 and -200 Series Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring the modification of the pitot-static tubes to include a vertical rise on the Boeing Model 747-100/200 series airplanes was published in FR Doc. 74-27567.

Interested persons have been afforded an opportunity to participate in the making of the amendment. Comments were received that the proposed AD is not justified because experience indicates that water in the Boeing 747 pitot-static system is not a significant problem. It was also suggested that only the installation of transparent drains be required if the FAA felt mandatory action was necessary. In addition, this commentator stated that a time period substantially greater than 3,500 hours will be required to prevent removal of aircraft from service for modification if mandatory action should be required. This is due to delivery time for modification kits and the time required after kit delivery to modify the airplanes.

Another commentator stated that its records show that the water ingestion problem has diminished during the last 1½ year period and it is believed that increased and proper maintenance has contributed to this improvement. Pitot-static systems were originally drained at every fifth "C" check and later the systems were drained at 4,000-hour intervals.

The FAA has reviewed 747 pitot-static drain service history, and the records show that five reports of pitot-static instrument error readings caused by water in the pitot-static lines were logged in the year 1971. Subsequently, in 1974, there were two reports of erratic air data indications. These were traced to ruptured pitot-static tubes due to water freezing in the lines. Investigation has not revealed the specific source of ingested water. Although the recorded incidents of water ingestion in the pitot-static lines are few and sporadic, the FAA cannot consider the problem and related instrument errors insignificant.

Water in the pitot-static system can be caused by condensation or improper protection of the pitot-static ports during airplane cleaning. The FAA will issue a companion maintenance alert bulletin recommending draining every "B" check, and in addition, the bulletin will emphasize the need for proper pitot-static port covers during cleaning.

A third source of ingested water in the pitot-static lines is direct impingement on pitot-static openings during extremely heavy driving rains. Experience has shown airplanes, like the Boeing 747 which do not have a sufficient rise in pitot-static lines adjacent to the pitot-static openings are susceptible to this type of water ingestion. The preventive measure is to install a riser in the pitot-static lines similar to that required on Model 737 airplanes by Airworthiness Directive 74-NW-4-AD.

As stated above, one commentator objected to the proposed 3,500 hours time for accomplishment of the AD as not adequate due to a delay in kit delivery. The FAA has determined that the delivery time for kit delivery can be shortened considerably. It is, therefore, not in the public interest to increase the compliance time from 3,500 hours.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

BOEING. Applies to all Model 747 airplanes, certificated in all categories, listed in Boeing Service Bulletin 747-34-2058 dated January 31, 1974, or later FAA approved revisions. To prevent erroneous information from being displayed on flight instruments.

Within the next 3,500 hours time in service after the effective date of this AD, modify the pitot-static tubing to include a vertical rise just inboard of each pitot-static probe in accordance with Work Package 1, 2, and 3 of Boeing Service Bulletin 747-34-2058, dated January 31, 1974, or later FAA approved revisions, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to the Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124. The documents may be examined at FAA Northwest Region, 9010 East Marginal Way, Seattle, Washington 98108.

This amendment becomes effective March 10, 1975.

(Sec. 313(a), 601, 603, Federal Aviation Act of 1958, (49 U.S.C. 1354(a), 1421, and 1423); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c))

Issued in Seattle, Wash., on January 31, 1975.

C. B. WALK, JR.,
Director Northwest Region.

NOTE: The incorporation by reference provisions in this document were approved by the Director of the Federal Register on June 19, 1967.

[FR Doc.75-3479 Filed 2-6-75;8:45 am]

[Airworthiness Docket No. 75-WE-5-AD, Amdt. 39-2085]

PART 39—AIRWORTHINESS DIRECTIVES

Douglas Model DC-10-10, -30, and -40 Series Airplanes

The Agency has received reports of failure to achieve 100 percent passenger oxygen mask deployment during periodic maintenance program drop tests. As many as 50% of the masks have failed to drop during these tests, and, during a recent decompression incident, approximately 25% of the masks failed to deploy. An airworthiness directive is being issued to require modifications to the passenger oxygen system to improve oxygen mask deployment reliability.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

MCDONNELL DOUGLAS. Applies to Douglas Model DC-10-10, -30, and -40 series airplanes, certificated in all categories.

Compliance required as follows unless already accomplished.

To improve cabin oxygen mask deployment reliability, accomplish the following:

A. Within the next 300 hours' additional time in service after the effective date of this AD, unless already accomplished within the last 300 hours' time in service:

1. Conduct an oxygen mask functional (drop) test, by cabin or by each section, in accordance with Paragraph IX of Douglas All Operators Letter No. 10-742, dated December 13, 1974, or 10-742A, dated January 24, 1975, or later FAA-approved revisions.

2. Oxygen compartments that fail to open must be inspected and modified in accordance with all of the applicable provisions of Douglas All Operators Letter No. 10-742, dated December 13, 1974, or 10-742A, dated January 24, 1975, or later FAA-approved revisions.

3. Repeat the oxygen mask functional test until 100% mask drops are achieved by cabin or by each section.

B. Within the next 1500 hours' additional time in service after the effective date of this AD:

1. Modify partition oxygen compartment doors to insure 180° opening in accordance with Douglas Service Bulletin No. 25-163, dated June 11, 1974, or later FAA-approved revisions.

2. Install pictorial warning placards on oxygen generator heat shields in accordance with Douglas Service Bulletin No. 35-12, dated April 26, 1974, or later FAA-approved revisions.

3. Modify oxygen compartments in passenger seat backs and partitions in accordance with Douglas Service Bulletin No. 35-16, dated August 19, 1974, or later FAA-approved revisions.

4. (a) Inspect and modify the cabin oxygen system, as applicable, in accordance with Douglas All Operators Letter No. 10-742, dated December 13, 1974, or 10-742A, dated January 24, 1975, or later FAA-approved revisions.

(b) Repeat the oxygen mask functional test until 100% mask drops are achieved by cabin or by each section.

C. Results of the functional tests required in paragraphs A. and B. must be forwarded within 30 days in a written report to the Chief, Aircraft Engineering Division, FAA Western Region. Recording approved by the Bureau of the Budget under Order BOB No. 04-R0174.

D. The Chief, Aircraft Engineering Division, FAA Western Region, may approve equivalent inspections and modifications upon submittal of substantiating data.

E. Aircraft may be flown to a base for accomplishment of the maintenance required by this AD per FAR's 21.197 and 21.199.

This amendment becomes effective February 14, 1975.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c))

Issued in Los Angeles, Calif., on January 29, 1975.

LYNN L. HINK,
Acting Director, FAA Western Region.

[FR Doc.75-3478 Filed 2-6-75;8:45 am]

[Docket No. 74-NE-46; Amdt. 39-2084]

PART 39—AIRWORTHINESS DIRECTIVES

Pratt & Whitney JT3D Engines

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive reducing the disk cyclic life on Pratt & Whitney JT3D engines containing tenth stage compressor disks, P/N 701810, was published in the FEDERAL REGISTER (39 FR 39733) on November 11, 1974.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

PRATT & WHITNEY AIRCRAFT. Applies to all Pratt & Whitney Aircraft JT3D-3, JT3D-3D, and JT3D-7 turbofan engines containing tenth stage compressor disk, P/N 701810.

Compliance required as indicated.

To ensure adequate life limit margin for tenth stage compressor disk, P/N 701810, the

XUM V40-27 FEB 7 75 XUM

cyclic life limits on these disks have been reduced below the figures currently approved. Unless already accomplished, remove from service the tenth stage compressor disk prior to exceeding the revised life limit listed below or within the next 25 cycles in service after the effective date of this AD, whichever comes later.

	Previous life limit (cycles)	Revised life limit (cycles)
Engine model:		
JT3D-3	30,000	25,000
JT3D-3B	30,000	25,000
JT3D-7	25,000	23,000

If a disk has been used in more than one engine model, the disk is limited to the lowest cyclic life permitted for the engine models in which it has been exposed.

This amendment becomes effective February 19, 1975.

Secs. 313(a), 601, 603, Federal Aviation Act of 1958, (49 U.S.C. 1354(a), 1421, 1423, sec. 6(c), Department of Transportation Act), (49 U.S.C. 1655(c))

Issued in Burlington, Mass., on January 29, 1975.

WILLIAM E. CROSBY,
Acting Director, New England Region.

[Airworthiness Docket No. 75-WE-9-AD, Amdt. 39-2087]

PART 39—AIRWORTHINESS DIRECTIVES

Rockwell International NA-265 Series Airplanes

There have been reports of fuel seepage from the engine fuel pressure switch due to internal failure of the switch, Hydra-Electric Co. P/N 12251, installed on Rockwell International NA-265 series airplanes. If this failure occurs fuel can be released into an undrained, nonventilated compartment of the airplane forward of the rear spar underneath the fuselage floor. When this condition continues undetected, a potential fire hazard can exist in an area not designated by Part 25 of the Federal Aviation Regulations (or CAR 4b) as a fire zone. While no fires have been reported to the agency as a result of this condition to date, the agency has determined that an airworthiness directive is required to ensure an adequate level of public safety.

Since this condition can exist or develop in other airplanes of the same type, an airworthiness directive is being issued to require replacement of the fuel pressure switch, Hydra-Electric Co. P/N 12251, with an improved Hydra-Electric Co. design or an alternate approved design which will preclude such fuel seepage.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure thereon are impracticable, and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

ROCKWELL INTERNATIONAL. Applies to all NA-265 Series Airplanes certificated in all categories.

Compliance as indicated, unless already accomplished.

To provide protection in the event of an unknown incipient failure condition in the engine fuel pressure switch, Hydra-Electric Co. P/N 12251, accomplish the following:

(a) Within 10 hours' time in service after the effective date of this AD, inspect the engine fuel pressure switches for fuel seepage or leakage.

(1) If seepage or leakage is found, replace the failed switch before further flight, in accordance with Sabreliner Service Bulletin 74-34, dated January 15, 1975, revised January 24, 1975, or later FAA-approved revisions.

(2) If seepage or leakage is not found, repeat the inspection at intervals not to exceed 10 hours' time in service until the inspection and installation described in (b) are accomplished.

(b) Within 90 days after the effective date of this AD, conduct an inspection to determine the part number of the engine fuel pressure switch installed in accordance with steps 1 through 3 of Sabreliner Service Bulletin 74-34, dated January 15, 1975, revised January 24, 1975, or later FAA-approved revisions.

(1) If Hydra-Electric Co. P/N 12251 is found installed, either

(i) Accomplish the installation described in steps 4 through 10 of Sabreliner Service Bulletin 74-34, dated January 15, 1975, revised January 24, 1975, or later FAA-approved revisions, prior to further flight; or

(ii) Repeat (a), above, until the installation described in (b)(1)(i) is accomplished. The installation required by (b)(1)(i) is to be performed within 90 days after the effective date of this AD.

(c) If P/N 1B2522-25 (Aero Instruments Co., or Century Electronics and Instrument Inc., or Hathaway Industries, or Electro Controls Inc., or P/N 685-1, Value Engineering Products, is installed, proceed with steps 5 through 10 of Sabreliner Service Bulletin 74-34, dated January 15, 1975, revised January 24, 1975, or later FAA-approved revisions.

(d) Airplanes may be flown to a base for the performance of the inspections and installations required by this AD, per FAR's 21.197 and 21.199, except when seepage or leakage is known to exist.

(e) Return P/N 12251 switches removed from service to Rockwell International, Aviation Service Division, Lambert Field, St. Louis, Mo. 63145.

(f) Equivalent inspections and installations may be approved by the Chief, Aircraft Engineering Division, FAA Western Region, upon submission of adequate substantiating data.

This amendment becomes effective February 18, 1975.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, (49 U.S.C. 1354(a), 1421 and 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))

Issued in Los Angeles, Calif., on January 31, 1975.

LYNN L. HINK,
Acting Director, FAA Western Region.

[FR Doc.75-3480 Filed 2-6-75;8:45 am]

[Airspace Docket No. 74-EA-70]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Extension of Effective Date

The Federal Aviation Administration has promulgated a rule designating a Clearfield, Pa., transition area (39 FR 42342) to be effective January 30, 1975.

Due to delays in the effectivity of an accompanying runway procedure, the effective date of this docket must be extended.

Since this is a change which is less restrictive, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In view of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective February 7, 1975, as follows:

1. Amend the effective date so as to delete January 30, 1975, and insert in lieu thereof March 20, 1975.

(Sec. 307(a), Federal Aviation Act of 1958, (72 Stat. 749; 49 U.S.C. 1348); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in Jamaica, N.Y., on January 27, 1975.

JAMES BISPO,
Acting Director, Eastern Region.

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER-896, Amdt. 37]

PART 288—EXEMPTION OF AIR CARRIERS FOR MILITARY TRANSPORTATION

Average Commercial and Military Fuel Prices

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., January 31, 1975.

On January 17, 1975, by ER-896, the Board adopted revised minimum rates applicable to various air transportation services performed by air carriers for the Department of Defense and set forth in Part 288 of the Board's Economic Regulations (14 CFR Part 288). The minimum rates adopted were subject to a surcharge based upon a comparison of average commercial and military fuel prices as of December 1, 1974, with the average fuel costs reflected in the rate base. In addition, the Board provided for monthly review of fuel prices and prospective adjustments of the surcharge rates to reflect fuel price changes reported as of the first of each month.[1]

Appendices A and B set forth the results of our computations of reported fuel price changes as of January 1, 1975, for both commercial and military fuel, based upon application of the "active stations" methodology to fuel consumption reported for the quarter ended September 30, 1974, and the rate impact of the change in average fuel prices from that reflected in the base rates. Based on these computations, we will revise the fuel surcharge rates established in ER-896 effective February 1, 1975, as follows: (a) Increase the long-range Category B and Category A rate from 1.30 to 1.53 percent; (b) increase the Pacific interisland short-range Category B rate from 1.66 to 1.72 percent; and, (c) increase the "all other" short-range Category B rate from 1.59 to 1.93 percent.

In view of the findings in ER-896 concerning the continuing need for a fuel surcharge to the minimum rates set forth in Part 288,[2] we find good cause exists to make the within amendments effective on less than thirty (30) days' notice.

In consideration of the foregoing, the Board hereby amends Part 288 of its Economic Regulations (14 CFR Part 288) effective February 1, 1975, as follows:

1. Section 288.7 is amended as follows:

a. The third proviso following the table in paragraph (a) is amended; and

b. In paragraph (d) the proviso to subparagraphs (1) and (2) is amended to read as follows:

[1] ER-896 at 9-10.

[2] ER-896 at 7-10.

§ 288.7 Reasonable level of compensation.

* * * * * * *

(a) * * *

(1) * * *

Provided, however, That effective February 1, 1975, the total minimum compensation pursuant to the rates set forth above for (i) services performed with regular jet, wide-bodied jet, and DC-8F-61/63 aircraft, (ii) Pacific interisland services performed with B-727 aircraft, and (iii) all other services performed with B-727 aircraft shall be increased by surcharges of 1.53 percent, 1.72 percent, and 1.93 percent, respectively.[3]

* * * * * * *

[3] The surcharge provisions for services performed with B-727 aircraft will be applied to all other common-rated aircraft types.

(d) For Category A transportation * * *

(1) * * *

(2) * * *

Provided, That effective February 1, 1975, the total minimum compensation pursuant to the rates specified in subparagraphs (1) and (2) of this paragraph shall be increased by a surcharge of 1.53 percent.

* * * * * * *

(Secs. 204, 403 and 416 of the Federal Aviation Act of 1958, as amended; 72 Stat. 743, 758 and 771, as amended; (49 U.S.C. 1324, 1373, 1386))

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[Reg. ER-899; Special Economic Reg.]

PART 288—EXEMPTION OF AIR CARRIERS FOR MILITARY TRANSPORTATION

Revision of Categories A and B Fuel Surcharges for Period January 1–January 16, 1975

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., January 31, 1975.

On January 17, 1975, by ER–896, the Board adopted revised minimum rates applicable to various air transportation services performed by air carriers for the Department of Defense and set forth in Part 288 of the Board's Economic Regulations (14 CFR Part 288). The revised rates were effective prospectively from the date adopted. The interim rates in effect prior to adoption of ER–896 were subject to a surcharge based upon commercial fuel prices which was reviewed monthly and retroactively adjusted to reflect price changes reported as of the first of each month compared to the base fuel prices reflected in the minimum rates. The purpose of this Special Regulation is to retroactively adjust the fuel surcharge rates applicable to the Categories A and B minimum rates in effect for the period January 1 through January 16, 1975, to reflect fuel price changes reported as of January 1, 1975.

In accordance with the procedures adopted by ER–860 and ER–862, May 24, 1974 and June 11, 1974, respectively, the Board has reviewed commercial fuel prices for foreign and overseas Military Airlift Command air transportation services as of January 1, 1975, and compared these fuel prices to the base fuel prices reflected in the rates established by ER–879, October 22, 1974. Based on the computations set forth in Appendices A and B, we will adjust the fuel surcharges effective for the period January 1 through January 16, 1975, as follows: Increase the long-range Category B and Category A rate from 6.09 to 6.11 percent; retain the short-range Category B rate at 1.75 percent; and decrease the "all other" short-range rate from 3.45 to 3.28 percent.

Since the interim rates in effect for the period during which these surcharges apply are no longer set forth in Part 288, we have determined to reflect our determinations herein by a Special Economic Regulation.

Accordingly, we find good cause exists to make the within final rates effective on less than thirty (30) days' notice.

In consideration of the foregoing, the Board hereby adopts the following Special Economic Regulation, effective for the period January 1 through January 16, 1975, as follows:

SECTION 1. Notwithstanding the provision of § 288.7(a), the minimum rates for long-range Category B services, short-range Pacific interisland Category B services, and "all other" short-range Category B services, other than specified in paragraph (c) of that section, for the period January 1, 1975, through January 16, 1975, are the minimum rates for those services set forth in ER–879, adopted October 22, 1974, increased by surcharges of 6.11 percent for services performed with regular jet, wide-bodied jet, and DC–8F–61–63 aircraft; 1.75 percent for Pacific interisland services performed with B–727 aircraft; and 3.28 percent for all other services performed with B–727 aircraft.[1]

SEC. 2. Notwithstanding the provisions of § 288.7(d) the minimum rates for Category A transportation services performed during the period January 1, 1975 through January 16, 1975, are the minimum rates for those services set forth in ER–879, adopted October 22, 1974, increased by a surcharge of 6.11 percent.

(Secs. 204(a), 403, and 416 of the Federal Aviation Act of 1958, as amended; 72 Stat. 743, 758 and 771, as amended; 49 U.S.C. 1324, 1373, and 1386.)

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND, *Secretary.*

[1] The surcharge provisions for services performed with B–727 aircraft will be applied to all other common-rated aircraft types.

Title 20—Employees' Benefits

CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Reg. No. 5, further amended]

PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED (1965-.....) [1]

Subpart D—Principles of Reimbursement for Provider Costs and for Services by Hospital-Based Physicians

DETERMINING REASONABLE COSTS FOR THERAPY SERVICES

On May 28, 1974, there was published in the FEDERAL REGISTER (39 FR 18467) a notice of proposed rulemaking with proposed amendments to Subpart D of Regulation No. 5 (20 CFR Part 405), regarding implementation of section 251 (c) of the Social Security Amendments of 1972, Pub. L. 92-603, as amended by section 17(a) of Pub. L. 93-233. On July 9, 1974, an extension of the comment period was granted (39 FR 25235) giving interested parties until July 27, 1974, to submit written comments or suggestions, thereon. Comments and suggestions received with regard to this Notice of Proposed Rule Making, responses thereto, and changes in the proposed regulations are summarized below.

Publication of guidelines in FEDERAL REGISTER. It has been recommended that the guidelines be published in the FEDERAL REGISTER prior to the effective date of the guidelines. Ordinarily, implementing instructions are sent directly to providers and intermediaries. However, in this case, it is appropriate to provide for more widespread notification via the FEDERAL REGISTER and we have adopted the recommendation. The guidelines will be published as a notice in the FEDERAL REGISTER prior to the beginning of the period to which they are applicable.

Allowance of exceptions to the guidelines. Many comments have been received to the effect that the guidelines do not reflect current market conditions for all providers. In order to provide for the most equitable evaluation of therapy services possible, a section has been added to provide that in certain circumstances, exceptions may be granted by the intermediary if the provider demonstrates to the satisfaction of the Social Security Administration that the guidelines are inappropriate to that provider.

Use of actual travel time for home health agencies. The recommendation was received and adopted that the proposed regulations be revised to permit a cost evaluation on the basis of actual travel time when services are performed for home health agencies. It is recognized that when services are performed for home health agencies, travel may be one of the major determinants of productivity, especially in sparsely populated areas. For this reason, the regulations have been revised so that the costs of therapy services provided under arrangements with home health agencies may be evaluated, at the option of the provider, by using necessary actual travel time in lieu of the standard travel allowance, if the provider maintains time records of visits. The travel time, of course, must be recorded by the therapist, and approved and maintained by the provider.

Effective date. Many comments were received recommending that the effective date of the regulations be delayed to allow for contract changes. Because the effective date of section 251(c) of Pub. L. 92-603, as amended by section 17(a) of Pub. L. 93-233, has been fixed by statute, the recommendation could not be adopted. However, an allowance has been made in the form of an exception where a provider has a binding contract with a therapist.

Suggestions and comments received but not adopted.

Unit of time vs. unit of services. A great number of those commenting disagreed with the methodology to evaluate the cost of therapy services by using cost per unit of time rather than cost per unit of service. The specific statutory language contained in section 251(c) of Pub. L. 92-603 provides that when therapy services are furnished under arrangements, reimbursement to the provider under the Medicare program "shall not exceed an amount equal to the salary which would reasonably have been paid for such services • • • if they had been performed in an employment relationship with such provider • • •." Moreover, both the statute (section 1861(v)(5)(B)) and the Senate Finance Committee report accompanying this legislation refer to a unit of service in lieu of a unit of time for limited part-time or intermittent service, which is an exception to the salary equivalence rule. To evaluate all therapy costs by using cost per unit of service would be inconsistent with the statute and the intent of Congress, which was to prevent program abuse through provision of many separately counted services by therapists contracting with providers who had little or no financial incentive to control therapy costs because these costs would be passed on in large part to Medicare and other payers. Moreover, these services are often furnished by persons who are salaried employees of a contractor who charges the provider for this service on a fee-for-service basis.

Definition of limited or intermittent part-time services. Some therapists have indicated that the establishment of 15 hours per week for "regular part-time" services is an arbitrary figure not founded on a reasonable basis. The statute refers to two categories of services: (a) Full-time and regular part-time services, and (b) limited or intermittent part-time services. Only when services are performed on a limited or intermittent part-time basis may the cost of these services be evaluated by units of service. It would seem reasonable to assume that if a provider required the services of a therapist on an average of at least two full days a week, the services were required on a regular part-time basis; thus, the limit for limited or intermittent part-time services was established at an average of less than 15 hours per week.

Fringe benefit and expense factor. Some comments indicated a misunderstanding about the extent to which overhead and fringe benefits are taken into account. The fringe benefit and expense factor includes an allowance for the fringe benefits an individual working as an employee receives in an employment relationship in addition to an allowance for the expenses an individual rendering services under arrangements for a provider would incur in rendering those services. It was never intended that overhead costs be substituted for fringe benefits but that this factor include both fringe benefits and overhead expenses.

Scope of regulations. Many who commented believed that the regulations applied only to physical therapists and were thus discriminatory. The regulations, in fact, apply to all therapy services and to the services of all health care specialists furnished under arrangements, not just the services of physical therapists. The initial guidelines, though, are being issued to evaluate the costs of physical therapy services furnished under arrangements inasmuch as physical therapy is the most common therapy service obtained under arrangements. Guidelines will be developed, as may be necessary, for the other services at a later date after consultation with the appropriate organizations. Until such guidelines are issued for a specific therapy, the costs of these therapy services will continue to be evaluated so that such costs do not exceed what a prudent and cost-conscious buyer would pay for the given services.

Use of Bureau of Labor Statistics (BLS) salary data. Many of those commenting argued against the use of BLS salary data for the following reasons:

The commenters believed the BLS data to be too limited because they reflect a sampling of only hospital departments. Congress recommended the use of BLS data to the Social Security Administration because the techniques employed by BLS are statistically valid, the BLS is an impartial source of information, and the data are readily available and are updated on a periodic basis. Guidelines derived from other statistically valid survey data may be used in lieu of the Social Security Administration guidelines, provided that the study designs, questionnaires, and instructions, as well as the resultant survey data are submitted to and approved in advance by the Social Security Administration and that the 75th percentile of the range of salaries paid to full-time employee therapists can be determined from the data. None of the major organizations has offered any data which establishes that BLS information is not reflective of the market.

The BLS salary data do not include salaries paid to supervisors, department heads or unit directors. However, the BLS data are appropriate for this purpose because in its report accompanying Pub. L. 92-603, the Senate Finance Committee instructed the Medicare program to set the salary equivalents at the 75th percentile of the range of salaries paid in the area to therapists working full time in an employment relationship, with an additional allowance for therapists whose duties are administrative or supervisory in nature. This allowance for supervisory or administrative duties, then, may be added to the salary equivalents only when the therapist actually performs supervisory or administrative duties for the provider in addition to performing therapy services.

Many who commented also claimed that the guidelines based on BLS data were inappropriate for nonurban areas. No evidence has been submitted to indicate that BLS statistics are not appropriate for nonurban areas. Survey data obtained indicate that salaries in the health care field are generally lower in the nonurban areas and no salary data to the contrary have been offered and, therefore, applying the higher urban salary rates to the nonurban areas as well does not disadvantage nonurban providers.

Filing of appeal when guidelines issued. Comments have been received that a provider should be allowed to file an appeal as soon as the guideline amounts are issued rather than waiting until the intermediary has made an initial determination on the cost report submitted after the close of the cost reporting period. An appeal cannot be filed by the provider until the initial determination has been made on the provider's cost report because the total costs for therapy services cannot be determined until that time.

Request for exception to guidelines when providers furnish services to other providers. Recommendations were received, but not adopted, that an exception to the guidelines be permitted when a hospital or other provider furnishes services under arrangements to another provider because of the overhead costs involved. In this type of situation, it does not appear appropriate to allow an exception when alternative methods of delivering these services are available at rates that would not exceed the guidelines.

Charges imposed on beneficiaries. A comment was received that if the amount paid under the guidelines is less than the actual amount charged to the provider by the contracting therapist, the provider will be forced to charge the patient for the excess. In order to receive payment by the Medicare program, a provider in its agreement with the Secretary agrees under section 1866(a)(1)(A) of the Social Security Act not to charge the patient for covered items and services. Therefore, no modification is being made as a result of this comment.

A number of editorial changes have also been made in the interest of clarity.

(Secs. 1102, 1814(b), 1833(a), 1861(v)(5), 1871 of the Social Security Act, 49 Stat. 647, as amended, 79 Stat. 294, as amended, 79 Stat. 302, as amended, 79 Stat. 313, as amended, 79 Stat. 331; (42 U.S.C. 1302, 1395f (b), 1395l(a), 1395x(v)(5), 1395hh), sec. 17(a), Pub. L. 93-233, 87 Stat. 967).

Effective date. These regulations will be effective March 10, 1975, and will be effective for cost-reporting periods beginning after the month in which final regulations become effective.

(Catalog of Federal Domestic Assistance Program Nos. 13.800, Health Insurance for the Aged—Hospital Insurance; and 13.801, Health Insurance for the Aged—Supplementary Medical Insurance)

Dated: DECEMBER 13, 1974.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: JANUARY 27, 1975.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

Part 405 of Chapter III of Title 20 of the Code of Federal Regulations is further amended by adding § 405.432 to read as set forth below:

§ 405.432 Reasonable cost of physical and other therapy services furnished under arrangements.

(a) *Principle.* The reasonable cost of the services of physical, occupational, speech, and other therapists, and services of other health specialists (other than physicians), furnished under arrangements (as defined in section 1861(w) of the Social Security Act) with a provider of services, a clinic, a rehabilitation agency or a public health agency, shall not exceed an amount equivalent to the prevailing salary and additional costs that would reasonably have been incurred by the provider or other organization had such services been performed by such person in an employment relationship, plus the cost of other reasonable expenses incurred by such person in furnishing services under such an arrangement. However, if the services of a therapist are required on a limited part-time basis, or to perform intermittent services, payment may be made on the basis of a reasonable rate per unit of service, even though this rate may be greater per unit of time than salary-related amounts, where the greater payment is, in the aggregate, less than the amount that would have been paid had a therapist been employed on a full-time or regular part-time salaried basis. Pursuant to section 17(a) of Pub. L. 93-233 (87 Stat. 967), the provisions of this section shall be effective for cost reporting periods beginning after March, 1975.

(b) *Definitions*—(1) *Prevailing salary.* The prevailing salary is the hourly salary rate based on the 75th percentile of salary ranges paid by providers in the geographical area, by type of therapy, to therapists working full time in an employment relationship.

(2) *Fringe benefit and expense factor.* The standard fringe benefit and expense factor is an amount that takes account of fringe benefits, such as vacation pay, insurance premiums, pension payments, allowances for job-related training, meals, etc., generally received by an employee therapist, as well as expenses, such as maintaining an office, appropriate insurance, etc., an individual not working as an employee might incur in furnishing services under arrangements.

(3) *Adjusted hourly salary equivalency amount.* The adjusted hourly salary equivalency amount is the prevailing hourly salary rate plus the standard fringe benefit and expense factor. This amount is determined on a periodic basis for appropriate geographical areas.

(4) *Travel allowance.* A standard travel allowance is an amount that will be recognized, in addition to the adjusted hourly salary equivalency amount.

(5) *Limited part-time or intermittent services.* Therapy services will be held to be on a limited part-time or intermittent basis if the provider or other organization furnishing the services under arrangements requires the services of a therapist or therapists on an average of less than 15 hours per week. This determination shall be made by dividing the total hours of service furnished during the cost reporting period by the number of weeks in which the services were furnished in the cost reporting period regardless of the number of days in each week in which services were performed.

(6) *Guidelines.* Guidelines are the amounts published by the Social Security Administration reflecting the application of paragraph (b)(1), (2), (3) and (4) of this section to an individual therapy service and a geographical area. Other statistically valid data may be used to establish guidelines for a geographical area, provided that the study designs, questionnaires and instructions, as well as the resultant survey data for determining the guidelines are submitted to and approved in advance by the Social Security Administration. Such data must be arrayed so as to permit the determination of the 75th percentile of the range of salaries paid to full-time employee therapists.

(7) *Administrative responsibility.* Administrative responsibility is the performance of those duties which normally fall within the purview of a department head or other supervisor. This term does not apply to directing aides or other assistants in rendering direct patient care.

(c) *Application.* (1) Under this provision, the Social Security Administration will establish criteria for use in determining the reasonable cost of physical, occupational, speech, and other therapy services and the services of other health specialists (other than physicians) furnished by individuals under arrangements with a provider of services, a clinic, a rehabilitation agency, or a public health agency. It is recognized that providers have a wide variety of arrangements with such individuals. These individuals may be independent practitioners or employees of organizations furnishing various health care specialists. This provision does not require change in the substance of these arrangements.

(2) Where therapy services are performed under arrangements at a provider site on a full-time or regular part-time basis, the reasonable cost of such services may not exceed the amount determined by taking into account the total

XUM
V40-27
FEB 7 75
XUM

number of hours of service rendered by the therapist, the adjusted hourly salary equivalency amount appropriate for the particular therapy in the geographical area in which the services are rendered, and a standard travel allowance.

(3) Where therapy services are performed under arrangements on a limited part-time or intermittent basis at the provider site, the reasonable cost of such services will be evaluated on a reasonable rate per unit of service basis, except that payment for these services, in the aggregate, during the cost reporting period, may not exceed the amount which would be determined to be reasonable under paragraph (c) (2) of this section, had a therapist furnished the provider or other organization furnishing the services under arrangements 15 hours of service per week on a regular part-time basis for the weeks in which services were rendered by the non-employee therapist.

(4) Where a home health agency furnishes services under arrangements at the patient's residence or in other situations where therapy services are not performed at the provider's site, the reasonable cost of such services will be evaluated as follows:

(i) *Time records available.* Where time records of home health visits are maintained by the provider, the reasonable cost of such services will be evaluated on a unit of time basis, by taking into account the total number of hours of service rendered by the therapist, the adjusted hourly salary equivalency amount appropriate for the particular therapy in the geographical area in which the services are rendered, and a standard travel allowance for each visit. However, where the travel time of the therapist is accurately recorded by the therapist and approved and maintained by the provider, the reasonable cost of such services may be evaluated, at the option of the provider, by taking into account the total number of hours of service rendered by the therapist, including travel time, and the adjusted hourly salary equivalency amount appropriate for the particular therapy in the geographical area in which the services are rendered. This option does not apply to services furnished by home health agencies under arrangements with providers other than home health agencies.

(ii) *No time records available.* Where time records are unavailable or found to be inaccurate, each home health agency visit is considered the equivalent of 1 hour of service. In such cases, the reasonable cost of such services will be determined by taking into account the number of visits made by the therapist under arrangements with such agency, the adjusted hourly salary equivalency amount appropriate for the particular therapy in the geographical area in which the services are rendered, and a standard travel allowance.

(iii) *Limited part-time or intermittent services.* Where, under paragraphs (c) (4) (i) or (ii) of this section, the provider required therapy services on an average of less than 15 hours per week, the services will be considered limited part-time or intermittent services, and the reasonable cost of such services will be evaluated on a reasonable rate per unit of service basis as described in paragraph (c) (3) of this section.

(5) These provisions are applicable to individual therapy services or disciplines by means of separate guidelines by geographical area and will apply to costs incurred after issuance of the guidelines but no earlier than the beginning of the provider's cost reporting period described in paragraph (a) of this section. Until a guideline is issued for a specific therapy or discipline, costs will be evaluated so that such costs do not exceed what a prudent and cost-conscious buyer would pay for the given service.

(d) *Notice of guidelines to be imposed.* Prior to the beginning of a period to which a guideline will be applied, a notice will be published in the FEDERAL REGISTER establishing the guideline amounts to be applied to each geographical area by type of therapy.

(e) *Additional allowances.* (1) Where a therapist supervises other therapists or has administrative responsibility for operating a provider's therapy department, a reasonable allowance may be added to the adjusted hourly salary equivalency amount by the intermediary based on its knowledge of the differential between therapy supervisors' and therapists' salaries in similar provider settings in the area.

(2) Where a therapist performing services under arrangements furnishes equipment and supplies used in rendering therapy services, the guideline amount may be supplemented by the cost of the equipment and supplies, provided the cost does not exceed the amount the provider, as a prudent and cost-conscious buyer, would have been able to include as allowable cost.

(f) *Exceptions.* The following exceptions may be granted but only upon the provider's demonstration that the conditions indicated are present:

(1) *Exception because of binding contract.* A provider will be excepted from the provisions of this section if it has a binding contract in writing with a therapist or contracting organization entered into prior to the date guidelines are published. Before the exception may be granted, however, the provider must submit the contract to its intermediary for a determination under this paragraph, subject to review and approval by the Social Security Administration regional office. Such an exception may be granted for the contract period, but not longer than 1 year from the date initial guidelines for the particular therapy are published.

(2) *Exception because of unique circumstances or special labor market conditions.* An exception may be granted under this section by the intermediary when a provider demonstrates that the costs for therapy services established by the guideline amounts are inappropriate to a particular provider because of some unique circumstances or special labor market conditions in the area.

(g) *Appeals.* A request by a provider for a hearing on the determination of an intermediary concerning the therapy costs determined to be allowable based on the provisions of this section, including a determination with respect to an exception under paragraph (f) of this section, shall be made to the intermediary only after submission of its cost report and receipt of the notice of amount of program reimbursement reflecting such determination, in accordance with the provisions of Subpart R of this Part 405 (20 CFR 405.1801 et seq.).

[FR Doc.75-3290 Filed 2-6-75;8:45 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 27—CANNED FRUITS AND FRUIT JUICES

Order Amending Canned Fruit Standards of Identity

The Commissioner of Food and Drugs published a proposal in the FEDERAL REGISTER of January 21, 1974 (39 FR 2368), based on a petition submitted by the California Canners and Growers, 3100 Ferry Building, San Francisco, CA 94106, to amend ten canned fruit identity standards so as to conform to the pattern of the canned plums standard as adopted by the Codex Alimentarius Commission. These are the United States identity standards for canned peaches (21 CFR 27.2), canned apricots (21 CFR 27.10), canned prunes (21 CFR 27.15), canned pears (21 CFR 27.20), canned seedless grapes (21 CFR 27.25), canned cherries (21 CFR 27.30), canned berries (21 CFR 27.35), canned fruit cocktail (21 CFR 27.40), canned pineapple (21 CFR 27.50) and canned figs (21 CFR 27.70).

Following a review of the comments received to the proposal and for the reasons set forth below the Commissioner is taking action essentially as proposed. However, as explained below, no action is being taken regarding the canned pineapple identity standard at this time. The principal features of this order as it relates to the other canned fruits is that it promotes consistency with the anticipated world-wide standards for these products and with the amendments proposed in the definition section for the canned fruits and fruit juices (21 CFR 27.1), and the canned plums identity standard (21 CFR 27.45) published elsewhere in this issue of the FEDERAL REGISTER. Adversely affected persons are invited to submit objections on or before March 10, 1975. In the absence of proper objections compliance with this order may begin on March 11, 1975, and all products shipped in interstate commerce after December 31, 1975, shall comply with this regulation except as to those portions which are stayed.

Seventeen letters were received in response to the proposal. Two letters supported the proposal as published. The comments in the remaining fifteen letters

and the Commissioner's conclusions with respect to them were as follows:

1. The National Red Cherry Institute (NRCI) requested that the canned cherry standard permit the optional use of safe and suitable artificial red coloring. The NRCI stated that it represents the growers of red tart cherries in Michigan, New York, Pennsylvania, and Wisconsin producing on the average 95 percent of the tart cherries harvested in the United States and that such growers have been adversely affected by decreased consumer acceptance of products packed in water or uncolored light to heavy syrup. NRCI further stated that such cherries turn a dull gray to tepid brown in color when heated during the canning process and that, if the products contain safe and suitable artificial red coloring, the cherries will have a color characteristic of the fresh fruit. NRCI submitted documentation that the use of safe and suitable red coloring will not conceal the blemishes that may be on the fruit due to hailmarks, windwhips, limbrubs, scald or bruising. It further stated that studies have shown that the use of approved red colors increased the intensity of the blemishes and such intensity increased during the storage life of the processed product.

The Commissioner is aware that, while the recommended international standard for canned cherries has not reached the final step of development, the current draft provides for the optional use of artificial red coloring. The Commissioner, however, concludes that before providing for such use in 21 CFR 27.30 a petition to amend the standard should be submitted for publication in the FEDERAL REGISTER so as to allow interested persons the opportunity to comment on the use of safe and suitable artificial coloring in canned cherries. Data demonstrating the problem of the decreased consumer acceptance of canned cherries packed in water or sirup should be included in support of the petition. The procedure for the filing of petitions requesting such amendments is set forth under 21 CFR 2.65.

2. The National Red Cherry Institute requested that the canned cherry standard provide for the term "red sour" as an optional alternative designation for "red tart".

The Commissioner concludes that since "red tart" is synonymous with "red sour", the term should be permitted as an alternative designation for the varietal type commonly referred to as "red sour".

3. The Del Monte Corporation suggested that the canned peach standard provide for an additional optional style of pack designated as "slices and pieces" in which the slices will be more than 50 percent by weight of the product. The product would be vacuum packed in a small amount of heavy sirup which is absorbed into the fruit. The Food and Drug Administration issued Del Monte a temporary marketing permit published in the FEDERAL REGISTER of October 18, 1973 (38 FR 28962), to test-market the product. Del Monte reported that the product has met with excellent consumer acceptance. Del Monte further stated that while it recognizes that the intent of the published proposal is to bring the United States identity standards for canned fruits into conformity with the Codex standards, and that the addition of a new style of peach ingredient would constitute a deviation from Codex, "this new style should be recognized because it is necessitated by the development of a wholly new canned peach product not in contemplation when the Codex standard was developed."

The Commissioner concludes that before a provision for "slices and pieces" as an optional style of pack for canned peaches is permitted, an amendment to the standard should first be proposed in the FEDERAL REGISTER to allow interested persons the opportunity to comment on the addition of "slices and pieces" as an optional style of pack. In addition, an appropriate amendment of the quality standard for canned peaches should also be proposed at the same time.

4. One comment suggested that the format for the canned plums standard be used as the format for all canned fruit standards. The California Canners and Growers commented that it was their intention in the petition to have the format for each identity standard as nearly the same as that for canned plums as circumstances peculiar to the fruit involved would permit.

It is the Commissioner's intention that the format of this order amending the canned fruit standards shall be the same as that of the canned plums standard.

5. Two comments requested that "clarified juice(s)" continue to be an optional packing medium for canned pears as provided in the present standard.

The Commissioner concurs with these comments and the regulations so provide. In addition § 27.20(c)(2) has been revised to include the recital covering the designation of clarified juice that has been concentrated which was inadvertently omitted from the proposal. This is consistent with the requirements already set out in the standard being revised.

6. The Pineapple Growers Association of Hawaii (PGAH), an association representing all processors of canned pineapple produced in the United States, objected to the amendment of the canned pineapple identity standard on the ground that it was proposed without recourse to the views and expert knowledge of the United States pineapple industry. The PGAH also filed a petition to amend the United States standards of identity, quality and fill of container for canned pineapple in consideration of the "Recommended International Standard for Canned Pineapple."

The Commissioner concludes that it is inappropriate at this time to issue an order ruling on the proposed amendment to the canned pineapple standard. He will hold the order ruling on the amendment in abeyance and consider it at a later date in conjunction with the petition of the PGAH.

7. The International Flavors and Fragrances, Inc. (IFF) took exception to the proposed amendment to the standard for canned berries in that there is no provision for the optional use of natural and artificial flavors. Added natural or artificial flavorings, the IFF stated, could compensate for some of the flavor lost in the canning process. Since artificial flavors often are less expensive than their natural counterparts, IFF added, flavor fortification could be effected without a significant cost increase to the consumer. Further, IFF stated that prohibiting the use of any flavors in canned berries imposes an unnecessary restraint on the quality and variety of available canned fruits.

The Commissioner concludes that safe and suitable natural and artificial flavors shall be optional ingredients of canned berries inasmuch as they are listed as optional ingredients of the other canned fruit standards being amended by this order. Canned pineapple will be dealt with at a later date.

8. Tri-Valley Growers recommended that the standards provide for fruit nectars as optional packing media. The proportion of pulp used in the nectar would be dependent upon the character of the pulp and the necessary quantity of water and sugar to achieve a good mouth feel. The sweetness level of the nectar would be at 14° to 16° Brix. Tri-Valley was issued a temporary permit, published in the FEDERAL REGISTER of October 26, 1973 (38 FR 29630), to market-test canned peaches, canned pears, and canned fruit cocktail packed in fruit nectars. The tests, though not completed, indicate, Tri-Valley stated, that consumers consider these products desirable items.

A proposed standard for canned fruit nectars was published in the FEDERAL REGISTER of October 1, 1964 (29 FR 13535). In response to the final order on that proposal, published in the FEDERAL REGISTER of May 7, 1968 (33 FR 6862), objections were filed and a public hearing was requested by adversely affected persons. The order was stayed, published in the FEDERAL REGISTER of July 27, 1968 (33 FR 10713). Among the issues to be resolved is the minimum percentage of fruit solids to be required in the nectars. An industry petition has been submitted to the office of the Hearing Clerk, Food and Drug Administration to amend the stayed standards in consideration of the "Recommended International Standard for Apricot, Peach, and Pear Nectars Preserved Exclusively by Physical Means."

The Commissioner is hopeful that the issues surrounding the stayed standard will be resolved and the United States will be able to adopt the recommended world-wide standard with relatively few deviations. The Commissioner concludes that it would be improper and inconsistent to provide for fruit nectars in canned fruits until the issues raised by the objections to the 1968 order have been resolved.

9. One comment suggested that the phrase which appears in each of the subject standards "• • • which imparts a characteristic to the finished food in addition to sweetness • • •" relating to

XUM
V40127
FEB 7 75
XUM

label declaration requirements of packing media should be revised in the interest of clarity so as to read "* * * which imparts a taste, flavor or other characteristic to the finished food in addition to sweetness * * *".

The Commissioner concurs in this suggested change and the regulations have been changed accordingly.

10. It was suggested that the word "carbohydrate" be deleted from the term "nutritive carbohydrate sweeteners" to identify the class of sweetening ingredients which may be used in preparing packing media. The stated basis for this deletion is that the term will then conform to the title of 21 CFR Part 26 and nomenclature promulgated by the Codex Alimentarius Commission.

The Commissioner does not agree with this suggestion. The Commissioner is not aware of any sweetener, presently regarded as suitable for use in preparing packing media for canned fruits, which would be excluded from such use by restricting the class of sweeteners to "safe and suitable nutritive carbohydrate sweeteners." On the other hand, the Commissioner is aware of certain "nutritive sweeteners," which are not "nutritive carbohydrate sweeteners", that are not permitted by either the Codex standard or the existing U.S. standards for canned fruits. No data are available indicating that such "nutritive sweeteners" are suitable for use in the canned fruits covered by these standards. Any interested person may submit a petition, supported by reasonable grounds to provide for the use of such "nutritive sweeteners". The Codex standard specifically lists and limits the sweetener ingredients to five nutritive carbohydrate sweeteners. The U.S. standard in permitting the class designation "safe and suitable nutritive carbohydrate sweeteners" is less restrictive and will permit greater flexibility in the choice of suitable sweeteners that can be used. The Commissioner concludes that the term "carbohydrate" should be retained for the purpose of identifying those nutritive sweeteners in Part 26 that can properly be used in the Part 27 standards.

11. The question has recently been raised as to whether or not the substances mannitol and sorbitol are included in the Commissioner's use of the term "carbohydrate."

The Commissioner is aware that different chemical text books and scientific dictionaries may differ in their definition of the term "carbohydrate." The Food and Drug Administration is of the opinion that mannitol and sorbitol are sugar alcohols and are not "carbohydrates." Thus, they are not included within the term "nutritive carbohydrate sweetener" whenever it is used in Food and Drug Administration regulations.

12. One comment pointed out that the present definitions in 21 CFR 27.1 for corn sirup, dextrose, dried glucose sirup and glucose sirup should be changed to reference the recently published standards of identity for these foods in 21 CFR Part 26 or the definitions in Part 26 should be repeated in 21 CFR 27.1.

The Commissioner agrees with this comment, and applicable paragraphs of each of the subject standards have been revised to provide that if a nutritive carbohydrate sweetener has been defined in both § 27.1 and in Part 26 it shall comply with the standard in Part 26 in lieu of any definition that may appear in § 27.1.

13. One comment pointed out that the standard for canned peaches provides for the preparation of the liquid packing media from any one or any combination of two or more safe and suitable nutritive carbohydrate sweetener(s) whereas the other standards provide for the use of any safe and suitable nutritive carbohydrate sweetener. The petitioner stated in commenting on the proposal that it was their intention to propose the use of any one or any combination of two or more safe and suitable nutritive carbohydrate sweetener(s) in each of the standards.

The Commissioner concurs that the standards should provide for the use of any one or any combination of two or more safe and suitable nutritive carbohydrate sweetener(s) and this is reflected in the order set out below.

14. Hoffman-LaRoche, Inc., requested that the standards permit the optional fortification of canned fruits with vitamin C to enable industry to develop food products that would be of greater nutritive value to the consumer.

The Commissioner concludes that such a request is beyond the scope of the proposal and should be filed as a petition to amend the standards.

Elsewhere in this same issue of the FEDERAL REGISTER, the Commissioner of Food and Drugs is publishing the order amending the definitions for canned fruits and fruit juices (21 CFR 27.1), and the standard of identity for canned plums (21 CFR 27.45) and establishing standards of quality (21 CFR 27.46) and fill of container (21 CFR 27.47) for canned plums based upon the canned plums standard adopted by the Codex Alimentarius Commission.

In consideration of the comments received and other relevant information, the Commissioner concludes that it will promote honesty and fair dealing in the interest of consumers to amend the identity standards for canned fruits and fruit juices as set forth below.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055–1056 as amended by 70 Stat. 919 and 72 Stat. 948; 21 U.S.C. 341, 371) and under authority delegated to the Commissioner (21 CFR 2.120); *It is ordered*, That Part 27 be amended as follows:

1. Section 27.2 is revised to read as follows:

§ 27.2 Canned peaches; identity; label statement of optional ingredients.

(a) *Ingredients.* Canned peaches is the food prepared from one of the fresh, frozen, or previously canned optional peach ingredients *Prunus persica* L., of commercial canning varieties, but excluding nectarine varieties, specified in paragraph (b) of this section, which may be packed as a solid pack or in one of the optional packing media specified in paragraph (c) of this section. Such food may also contain one, or any combination of two or more, of the following safe and suitable optional ingredients:

(1) Natural and artificial flavors.
(2) Spice.
(3) Vinegar, lemon juice, or organic acids.
(4) Peach pits, except in the cases of peeled whole peaches, in a quantity not more than 1 peach pit to each 227 grams (8 ounces) of finished canned peaches.
(5) Peach kernels, except in the cases of peeled whole peaches and except when the optional ingredient in paragraph (a) (4) of this section is used.
(6) Ascorbic acid in an amount no greater than necessary to preserve color. Such food is sealed in a container and before or after sealing is so processed by heat as to prevent spoilage.

(b) *Varietal types and styles.* The optional peach ingredients referred to in paragraph (a) of this section are prepared from mature peaches of the following optional varietal and color types and styles of peach ingredients; namely:

(1) *The optional varietal types.* (i) Freestone is the distinct varietal type where the pit separates readily from the flesh.

(ii) Clingstone is the distinct varietal type where the pit adheres to the flesh.

(2) *The optional color types.*—(i) *Yellow*—the varietal types in which the predominant color ranges from pale yellow to rich red orange.

(ii) *White*—the varietal types in which the predominant color ranges from white to yellow-white.

(iii) *Red*—The varietal types in which the predominant color ranges from pale yellow to orange red and with variegated red coloring other than that associated with the pit cavity.

(iv) *Green*—varietal types in which the flesh has a green tint even when mature.

(3) *The optional styles of the peach ingredients.*—(i) *Whole*—Consisting of whole peeled unpitted peaches.

(ii) *Halves*—consisting of peeled pitted peaches cut into two approximately equal parts.

(iii) *Halves and pieces*—consisting of a mixture in which the halves will be more than 50 percent by weight.

(iv) *Quartered*—consisting of peeled pitted peaches cut into four approximately equal parts.

(v) *Sliced*—consisting of peeled pitted peaches cut into wedge-shaped sectors.

(vi) *Diced*—consisting of peeled pitted peaches cut into cube-like parts.

(vii) *Pieces or irregular pieces*—consisting of peeled pitted peaches of irregular shapes and sizes.

(c) *Packing media.* (1) The optional packing media referred to in paragraph (a) of this section, as defined in § 27.1 are:

(i) Water.
(ii) Fruit juice(s) and water.
(iii) Fruit juice(s).

Such packing media may be used as such for any one or any combination of two or

more safe and suitable nutritive carbohydrate sweetener(s) may be added. Sweeteners defined in § 27.1 shall be as defined therein, except that a nutritive carbohydrate sweetener for which a standard of identity has been established in Part 26 of this chapter shall comply with such standard in lieu of any definition that may appear in § 27.1.

(2) When a sweetener is added as a part of any such liquid packing medium, the density range of the resulting packing medium, expressed as percent by weight of sucrose (degrees Brix) as determined by the procedure prescribed in § 27.1(m), shall be designated by the appropriate name for the respective density ranges, namely:

(i) When the density of the solution is 10 percent or more but less than 14 percent, the medium shall be designated as "slightly sweetened water"; or "extra light sirup"; "slightly sweetened fruit juice(s) and water"; or "slightly sweetened fruit juice(s)", as the case may be.

(ii) When the density of the solution is 14 percent or more but less than 18 percent, the medium shall be designated as "light sirup"; "lightly sweetened fruit juice(s) and water"; or "lightly sweetened fruit juice(s)", as the case may be.

(iii) When the density of the solution is 18 percent or more but less than 22 percent, the medium shall be designated as "heavy sirup"; "heavily sweetened fruit juice(s) and water"; or "heavily sweetened fruit juice(s)", as the case may be.

(iv) When the density of the solution is 22 percent or more but not more than 35 percent, the medium shall be designated as "extra heavy sirup"; "extra heavily sweetened fruit juice(s) and water"; or "extra heavily sweetened fruit juice(s)", as the case may be.

(d) *Labeling requirements.* (1) The name of the food is "peaches". The optional varietal type as set forth in paragraph (b)(1) of this section shall be a part of the name. The name of the food shall also include a declaration of any flavoring that characterizes the product as specified in § 1.12 of this chapter and a declaration of any spice or seasoning that characterizes the product; for example, "Spice Added", or in lieu of the word "Spice", the common name of the spice, "Seasoned with Vinegar" or "Seasoned with Peach Kernels". When two or more of the optional ingredients specified in paragraph (a)(2) through (5) of this section are used, such words may be combined as for example, "Seasoned with Cider Vinegar, Cloves, Cinnamon Oil and Peach Kernels".

(2) The color type and style of the peach ingredient as provided in paragraph (b)(2) and (3) of this section and the name of the packing medium specified in paragraph (c)(1) and (2) of this section, preceded by "In" or "Packed In" or the words "solid pack", where applicable, shall be included as part of the name or in close proximity to the name of the food. The terms "Cling" and "Free" may be used as optional designations for "Clingstone" and "Freestone" respectively. When the packing medium is prepared with a sweetener(s) which imparts a taste, flavor, or other characteristic to the finished food in addition to sweetness, the name of the packing medium shall be accompanied by the name of such sweetener(s), as for example in the case of a mixture of brown sugar and honey, an appropriate statement would be "_____ sirup if brown sugar and honey" the blank to be filled in with the word "light", "heavy", or "extra heavy" as the case may be. When the liquid portion of the packing media provided for in paragraph (c) (1) and (2) of this section consists of fruit juice(s), such juice(s) shall be designated in the name of the packing medium as:

(i) In the case of a single fruit juice, the name of the juice shall be used in lieu of the word "fruit";

(ii) In the case of a combination of two or more fruit juices, the names of the juices in the order of predominance by weight shall either be used in lieu of the word "fruit" in the name of the packing medium, or be declared on the label as specified in paragraph (d)(2) of this section; and

(iii) In the case of a single fruit juice or a combination of two or more fruit juices any of which are made from concentrate(s), the words "from concentrate(s)" shall follow the word "juice(s)" in the name of the packing medium and in the name(s) of such juice(s) when declared as specified in paragraph (d)(3) of this section.

(3) Whenever the names of the fruit juices used do not appear in the name of the packing medium as provided in paragraph (d)(2)(ii) of this section, such names and the words "from concentrate", as specified in paragraph (d)(2)(iii) of this section, shall appear in an ingredient statement pursuant to the requirements of § 1.8(d) of this chapter.

(4) Each of the optional ingredients used shall be declared on the label as required by the applicable sections of Part 1 of this chapter.

2. Section 27.10 is revised to read as follows:

§ 27.10 Canned apricots; identity; label statement of optional ingredients.

(a) *Ingredients.* Canned apricots is the food prepared from mature apricots of one of the optional styles specified in paragraph (b) of this section, which may be packed as solid pack or in one of the optional packing media specified in paragraph (c) of this section. Such food may also contain one, or any combination of two or more of the following safe and suitable optional ingredients:

(1) Natural and artificial flavors.
(2) Spice.
(3) Vinegar, lemon juice, or organic acids.
(4) Apricot pits, except in the cases of unpeeled whole apricots and peeled whole apricots, in a quantity not more than 1 apricot pit to each 227 grams (8 ounces) of finished canned apricots.
(5) Apricot kernels, except in the cases of unpeeled whole apricots and peeled whole apricots, and except when optional ingredient under paragraph (a)(4) of this section is used.
(6) Ascorbic acid in an amount no greater than necessary to preserve color. Such food is sealed in a container and before or after sealing is so processed by heat as to prevent spoilage.

(b) *Optional styles of the apricot ingredient.* The optional styles of the apricot ingredient referred to in paragraph (a) of this section are peeled or unpeeled:

(1) Whole.
(2) Halves.
(3) Quarters.
(4) Slices.
(5) Pieces or irregular pieces.

Each such ingredient, except in the cases of unpeeled whole apricots and peeled whole apricots, is pitted.

(c) *Packing media.* (1) The optional packing media referred to in paragraph (a) of this section, as defined in § 27.1 are:

(i) Water.
(ii) Fruit juice(s) and water.
(iii) Fruit juice(s).

Such packing media may be used as such or any one or any combination of two or more safe and suitable nutritive carbohydrate sweetener(s) may be added. Sweeteners defined in § 27.1 shall be as defined therein, except that a nutritive carbohydrate sweetener for which a standard of identity has been established in Part 26 of this chapter shall comply with such standard in lieu of any definition that may appear in § 27.1.

(2) When a sweetener is added as a part of any such liquid packing medium, the density range of the resulting packing medium expressed as percent by weight of sucrose (degrees Brix) as determined by the procedure prescribed in § 27.1(m) shall be designated by the appropriate name for the respective density ranges, namely:

(i) When the density of the solution is 10 percent or more but less than 16 percent, the medium shall be designated as "slightly sweetened water"; or "extra light sirup"; "slightly sweetened fruit juice(s) and water"; or "slightly sweetened fruit juice(s)", as the case may be.

(ii) When the density of the solution is 16 percent or more but less than 21 percent, the medium shall be designated as "light sirup"; "lightly sweetened fruit juice(s) and water"; or "lightly sweetened fruit juice(s)", as the case may be.

(iii) When the density of the solution is 21 percent or more but less than 25 percent, the medium shall be designated as "heavy sirup"; "heavily sweetened fruit juice(s) and water"; or "heavily sweetened fruit juice(s)", as the case may be.

(iv) When the density of the solution is 25 percent or more but not more than 40 percent, the medium shall be designated as "extra heavy sirup"; "extra heavily sweetened fruit juice(s) and water"; or "extra heavily sweetened fruit juice(s)", as the case may be.

(d) *Labeling requirements.* (1) The name of the food is "apricots". The name

XUM V40-27 FEB 7 75 XUM

of the food shall also include a declaration of any flavoring that characterizes the product as specified in § 1.12 of this chapter and a declaration of any spice or seasoning that characterizes the product; for example, "Spice Added", or in lieu of the word "Spice", the common name of the spice, "Seasoned with Vinegar" or "Seasoned with Apricot Kernels". When two or more of the optional ingredients specified in paragraph (a)(2) through (5), inclusive, of this section are used, such words may be combined as for example, "Seasoned with Cider Vinegar, Cloves, Cinnamon Oil and Apricot Kernels".

(2) The style of the apricot ingredient as provided in paragraph (b) of this section and the name of the packing medium as used in paragraph (c)(1) and (2) of this section, are preceded by "In" or "Packed In" or the words "solid pack", where applicable, shall be included as part of the name or in close proximity to the name of the food. The style of the apricot ingredient shall be preceded or followed by "Unpeeled" or "Peeled", as the case may be. "Halves" may be alternatively designated "halved", "quarters" as "quartered" and "slices" as "sliced". When the packing medium is prepared with a sweetener(s) which imparts a taste, flavor or other characteristic to the finished food in addition to sweetness, the name of the packing medium shall be accompanied by the name of such sweetener(s), as for example in the case of a mixture of brown sugar and honey, an appropriate statement would be "_____ sirup of brown sugar and honey" the blank to be filled in with the word "light", "heavy", or "extra heavy" as the case may be. When the liquid portion of the packing media provided for in paragraph (c)(1) and (2) of this section consists of fruit juice(s), such juice(s) shall be designated in the name of the packing medium as:

(i) In the case of a single fruit juice, the name of the juice shall be used in lieu of the word "fruit".

(ii) In the case of a combination of two or more fruit juices, the names of the juices in the order of predominance by weight shall either be used in lieu of the word "fruit" in the name of the packing medium, or be declared on the label as specified in paragraph (d)(3) of this section, and

(iii) In the case of a single fruit juice or a combination of two or more fruit juices any of which are made from concentrate(s), the words "from concentrate(s)" shall follow the word "juice(s)" in the name of the packing medium and in the name(s) of such juice(s) when declared as specified in paragraph (d)(3) of this section.

(3) Whenever the names of the fruit juices used do not appear in the name of the packing medium as provided in paragraph (d)(2)(ii) of this section, such names and the words "from concentrate," as specified in paragraph (d)(2)(iii) of this section, shall appear in an ingredient statement pursuant to the requirements of § 1.8(d) of this chapter.

(4) Each of the optional ingredients used shall be declared on the label as required by the applicable sections of Part 1 of this chapter.

3. Section 27.15 is revised to read as follows:

§ 27.15 Canned prunes; identity; label statement of optional ingredients.

(a) *Ingredients.* Canned prunes is the food prepared from dried prunes, which may be packed as a solid pack or in one of the optional packing media specified in paragraph (b) of this section. Such food may also contain one, or any combination of two or more, of the following safe and suitable optional ingredients:

(1) Natural and artificial flavors.
(2) Spice.
(3) Vinegar, lemon juice, or organic acids.
(4) Unpeeled pieces of citrus fruits.

Such food is sealed in a container and before or after sealing is so processed by heat as to prevent spoilage.

(b) *Packing media.* (1) The optional packing media referred to in paragraph (a) of this section, as defined in § 27.1 are:

(i) Water.
(ii) Fruit juice(s) and water.
(iii) Fruit juice(s).

Such packing media may be used as such or any one or any combination of two or more safe and suitable nutritive carbohydrate sweetener(s) may be added. Sweeteners defined in §27.1 shall be as defined therein, except that a nutritive carbohydrate sweetener for which a standard of identity has been established in Part 26 of this chapter shall comply with such standard in lieu of any definition that may appear in § 27.1.

(2) When a sweetener is added as a part of any such liquid packing medium, the density range of the resulting packing medium expressed as percent by weight of sucrose (degrees Brix) as determined by the procedure prescribed in § 27.1(m) shall be designated by the appropriate name for the respective density ranges, namely:

(i) When the density of the solution is less than 20 percent, the medium shall be designated as "slightly sweetened water"; or "extra light sirup"; "slightly sweetened fruit juice(s) and water"; or "slightly sweetened fruit juice(s)", as the case may be.

(ii) When the density of the solution is 20 percent or more but less than 24 percent, the medium shall be designated as "light sirup"; "lightly sweetened fruit juice(s) and water"; or "lightly sweetened fruit juice(s)", as the case may be.

(iii) When the density of the solution is 24 percent or more but less than 30 percent, the medium shall be designated as "heavy sirup"; "heavily sweetened fruit juice(s) and water"; or "heavily sweetened fruit juice(s)", as the case may be.

(iv) When the density of the solution is 30 percent or more but not more than 45 percent, the medium shall be designated as "extra heavy sirup"; "extra heavily sweetened fruit juice(s) and water"; or "extra heavily sweetened fruit juice(s)", as the case may be.

(c) *Labeling requirements.* (1) The name of the food is "prunes—prepared from dried prunes". The words "prepared from dried prunes" shall be in close proximity to the word "prunes" and shall be of the same style and not less than ½ of the point size of the type used for the word "prunes". The name of the food shall also include a declaration of any flavoring that characterizes the product as specified in § 1.12 of this chapter and a declaration of any spice or seasoning that characterizes the product; for example, "Spice Added", or in lieu of the word "Spice", the common name of the spice, "Seasoned with Vinegar" or "Seasoned with Unpeeled Pieces of Citrus Fruit". When two or more of the optional ingredients specified in paragraph (a)(2) through (4) of this section are used, such words may be combined as for example, "Seasoned with Cider Vinegar, Cloves, Cinnamon Oil and Unpeeled Pieces of Citrus Fruit."

(2) When the food is prepared with a packaging medium, the name of the packing medium specified in paragraph (b)(1) and (2) of this section, preceded by "In" or "Packed In" and the words "cooked", "stewed", or "prepared", shall be included as part of the name or in close proximity to the name of the food. When no packing medium is used, the words "solid pack" or "moist pack" or the word "moistened" followed by the words "without sirup" shall be included as part of the name or in close proximity to the name of the food. When the packing medium is prepared with a sweetener(s) which imparts a taste, flavor or other characteristic to the finished food in addition to sweetness, the name of the packing medium shall be accompanied by the name of such sweetener(s), as for example in the case of a mixture of brown sugar and honey, an appropriate statement would be "_____ sirup of brown sugar and honey", the blank to be filled in with the word "light", "heavy", or "extra heavy" as the case may be. When the liquid portion of the packing media provided for in paragraph (b)(1) and (2) of this _____ section consists of fruit juice(s), such juice(s) shall be designated in the name of the packing medium as:

(i) In the case of a single fruit juice, the name of the juice shall be used in lieu of the word "fruit",

(ii) In the case of a combination of two or more fruit juices, the names of the juices in the order of predominance by weight shall either be used in lieu of the word "fruit" in the name of the packing medium, or be declared on the label as specified in paragraph (c)(3) of this section, and

(iii) In the case of the single fruit juice or a combination of two or more fruit juices any of which are made from concentrate(s), the words "from concentrate(s)" shall follow the word "juice(s)" in the name of the packing medium and in the name(s) of such juice(s) when declared as specified in paragraph (c)(3) of this section.

(3) Whenever the names of the fruit juices used do not appear in the name of the packing medium as provided in paragraph (c)(2)(ii) of this section, such names and the words "from concentrate", as specified in paragraph (c)(2)(iii) of this section, shall appear in an ingredient statement pursuant to the requirements of § 1.8(d) of this chapter.

(4) Each of the optional ingredients used shall be declared on the label as required by the applicable sections of Part 1 of this chapter.

4. Section 27.20 is revised to read as follows:

§ 27.20 Canned pears; identity; label statement of optional ingredients.

(a) *Ingredients.* Canned pears is the food prepared from one of the fresh or previously canned optional pear ingredients *Pyrus communis* or *Pyrus sinensis* specified in paragraph (b) of this section which may be packed in one of the optional packing media specified in paragraph (c) of this section. Such food may also contain one, or any combination of two or more, of the following safe and suitable optional ingredients.

(1) Natural and artificial flavors.
(2) Spice.
(3) Vinegar, lemon juice, or organic acids.
(4) Artificial colors.

Such food is sealed in a container and before or after sealing is so processed by heat as to prevent spoilage.

(b) *Styles and forms of units.* The optional pear styles and forms of units referred to in paragraph (a) of this section are:

(1) Peeled or unpeeled whole.
(2) Peeled or unpeeled halves.
(3) Peeled quarters.
(4) Peeled slices.
(5) Peeled dice.
(6) Diced or cubed.
(7) Peeled pieces or irregular pieces.

Each such ingredient, except in the cases of peeled whole pears and unpeeled whole pears, is cored.

(c) *Packing media.* (1) The optional packing media referred to in paragraph (a) of this section, as defined in § 27.1 are:

(i) Water.
(ii) Fruit juice(s) and water.
(iii) Fruit juice(s).
(iv) Clarified juice.

Such packing media may be used as such or any one or any combination of two or more safe and suitable nutritive carbohydrate sweetener(s) may be added. Sweeteners defined in § 27.1 shall be as defined therein, except that a nutritive carbohydrate sweetener for which a standard of identity has been established in Part 26 of this chapter shall comply with such standard in lieu of any definition that may appear in § 27.1.

(2) If the concentration of clarified juice is such that the packing medium forms to the density range for one of the sirups under paragraph (c)(2)(i), (ii), (iii), or (iv) of this section, the concentrated clarified juice is considered to be light sirup, heavy sirup, or extra heavy sirup, as the case may be. When a sweetener is added as a part of any such liquid packing medium, the density range of the resulting packing medium expressed as percent by weight of sucrose (degrees Brix) as determined by the procedure in § 27.1(m) shall be designated by the appropriate name for the respective density ranges, namely:

(i) When the density of the solution is less than 14 percent, the medium shall be designated as "slightly sweetened water"; or "extra light sirup"; "slightly sweetened fruit juice(s) and water"; or "slightly sweetened fruit juice(s)", as the case may be.

(ii) When the density of the solution is 14 percent or more but less than 18 percent, the medium shall be designated as "light sirup"; "lightly sweetened fruit juice(s) and water"; or "lightly sweetened fruit juice(s)", as the case may be.

(iii) When the density of the solution is 18 percent or more but less than 22 percent, the medium shall be designated as "heavy sirup"; "heavily sweetened fruit juice(s) and water"; or "heavily sweetened fruit juice(s)", as the case may be.

(iv) When the density of the solution is 22 percent or more but not more than 35 percent, the medium shall be designated as "extra heavy sirup"; "extra heavily sweetened fruit juice(s) and water"; or "extra heavily sweetened fruit juice(s)", as the case may be.

(d) *Labeling requirements.* (1) The name of the food is "pears". The name of the food shall also include a declaration of any flavoring that characterizes the product as specified in § 1.12 of this chapter and a declaration of any spice or seasoning that characterizes the product; for example, "Spice Added", or in lieu of the word "Spice" the common name of the spice, "Seasoned with Vinegar". When two or more of the optional ingredients specified in paragraph (a)(2) and (3) of this section are used, such words may be combined as for example, "Seasoned with Cider Vinegar, Cloves, and Cinnamon Oil".

(2) The style and forms of units of the pear ingredient as provided in paragraph (b) of this section and the name of the packing medium specified in paragraph (c)(1) and (2) of this section, preceded by "In" or "Packed In" or the words "solid pack", where applicable, shall be included as part of the name or in close proximity to the name of the food. When the packing medium is prepared with a sweetener(s) which imparts a taste, flavor or other characteristic to the finished food in addition to sweetness, the name of the packing medium shall be accompanied by the name of such sweetener(s), as for example in the case of a mixture of brown sugar and honey, an appropriate statement would be "_____ sirup of brown sugar and honey" the blank to be filled in with the word "light", "heavy", or "extra heavy", as the case may be. When the liquid portion of the packing media provided for in paragraph (c)(1) and (2) of this section consists of fruit juice(s), such juice(s) shall be designated in the name of the packing medium as:

(i) In the case of a single fruit juice, the name of the juice shall be used in lieu of the word "fruit";

(ii) In the case of a combination of two or more fruit juices, the names of the juices in the order of predominance by weight shall either be used in lieu of the word "fruit" in the name of the packing medium, or be declared on the label as specified in paragraph (d)(3) of this section; and

(iii) In the case of a single fruit juice or a combination of two or more fruit juices any of which are made from concentrate(s), the words "from concentrate(s)" shall follow the word "juice(s)" in the name of the packing medium and in the name(s) of such juice(s) when declared as specified in paragraph (d)(3) of this section.

(3) Whenever the names of the fruit juices used do not appear in the name of the packing medium as provided in paragraph (d)(2)(ii) of this section, such names and the words "from concentrate", as specified in paragraph (d)(2)(iii) of this section, shall appear in an ingredient statement pursuant to the requirements of § 1.8(d) of this chapter.

(4) Each of the optional ingredients used shall be declared on the label as required by the applicable sections of Part 1 of this chapter.

5. Section 27.25 is revised to read as follows:

§ 27.25 Canned seedless grapes; identity; label statement of optional ingredients.

(a) *Ingredients.* Canned seedless grapes is the food prepared from one of the fresh or previously canned optional grape ingredients specified in paragraph (b) of this section, which may be packed in one of the optional packing media specified in paragraph (c) of this section. Such food may also contain one, or any combination of two or more, of the following safe and suitable optional ingredients:

(1) Natural and artificial flavors.
(2) Spice.
(3) Vinegar, lemon juice, or organic acids.

Such food is sealed in a container and before or after sealing is so processed by heat as to prevent spoilage.

(b) *Varietal types and styles.* The optional grape ingredients referred to in paragraph (a) of this section are prepared from stemmed grapes of the light or dark seedless varieties or from unstemmed clusters of such grapes. For the purposes of paragraph (d) of this section, the names of such optional grape ingredients are "light seedless grapes" or "dark seedless grapes", as the case may be, preceded by the words "unstemmed clusters" where applicable.

(c) *Packing media.* (1) The optional packing media referred to in paragraph (a) of this section, as defined in § 27.1 are:

(i) Water.
(ii) Fruit juice(s) and water.
(iii) Fruit juice(s).

XUM
V 40 127
FEB 7 75
XUM

Such packing media may be used as such or any one or any combination of two or more safe and suitable nutritive carbohydrate sweetener(s) may be added. Sweeteners defined in § 27.1 shall be as defined therein, except that a nutritive carbohydrate sweetener for which a standard of identity has been established in Part 26 of this chapter shall comply with such standard in lieu of any definition that may appear in § 27.1.

(2) When a sweetener is added as a part of any such liquid packing medium, the density range of the resulting packing medium expressed as percent by weight of sucrose (degrees Brix) as determined by the procedure prescribed in § 27.1(m) shall be designated by the appropriate name for the respective density ranges, namely:

(i) When the density of the solution is less than 14 percent, the medium shall be designated as "slightly sweetened water"; or "extra light sirup"; "slightly sweetened fruit juice(s) and water"; or "slightly sweetened fruit juice(s)", as the case may be.

(ii) When the density of the solution is 14 percent or more but less than 18 percent, the medium shall be designated as "light sirup"; "lightly sweetened fruit juice(s) and water"; or "lightly sweetened fruit juice(s)", as the case may be.

(iii) When the density of the solution is 18 percent or more but less than 22 percent, the medium shall be designated as "heavy sirup"; "heavily sweetened fruit juice(s) and water"; or "heavily sweetened fruit juice(s)", as the case may be.

(iv) When the density of the solution is 22 percent or more but not more than 35 percent, the medium shall be designated as "extra heavy sirup"; "extra heavily sweetened fruit juice(s) and water"; or "extra heavily sweetened fruit juice(s)", as the case may be.

(d) *Labeling requirements.* (1) The name of the food is "seedless grapes." The name of the food shall also include a declaration of any flavoring that characterizes the product as specified in § 1.12 of this chapter and a declaration of any spice or seasoning that characterizes the product; for example, "Spice Added," or in lieu of the word "Spice," the common name of the spice, or "Seasoned with Lemon Juice." When two or more of the optional ingredients specified in paragraph (a) (2) and (3) of this section are used, such words may be combined as for example, "Seasoned with Cider Vinegar, Cloves, and Cinnamon Oil."

(2) The color type and style of the grape ingredient as provided in paragraph (b) of this section and the name of the packing medium specified in paragraph (c) (1) and (2) of this section, preceded by "In" or "Packed In" or the words "solid pack," where applicable, shall be included as part of the name or in close proximity to the name of the food. When the packing medium is prepared with a sweetener(s) which imparts a taste, flavor or other characteristic to the finished food in addition to sweetness, the name of the packing medium shall be accompanied by the name of such sweetener(s), as for example in the case of a mixture of brown sugar and honey, an appropriate statement would be "---------- sirup of brown sugar and honey" the blank to be filled in with the word "light," "heavy," or "extra heavy" as the case may be. When the liquid portion of the packing media provided for in paragraph (c) (1) and (2) of this section consists of fruit juice(s), such juice(s) shall be designated in the packing medium as:

(i) In the case of a single fruit juice, the name of the juice shall be used in lieu of the word "fruit";

(ii) In the case of a combination of two or more fruit juices, the names of the juices in the order of predominance by weight shall either be used in lieu of the word "fruit" in the name of the packing medium, or be declared on the label as specified in paragraph (d) (3) of this section; and

(iii) In the case of a single fruit juice or a combination of two or more fruit juices any of which are made from concentrate(s), the words "from concentrate(s)" shall follow the word "juice(s)" in the name of the packing medium and in the name(s) of such juice(s) when declared as specified in paragraph (d) (3) of this section.

(3) Whenever the names of the fruit juices used do not appear in the name of the packing medium as provided in paragraph (d) (2) (ii) of this section, such names and the words "from concentrate", as specified in paragraph (d) (2) (iii) of this section, shall appear in an ingredient statement pursuant to the requirements of § 1.8(d) of this chapter.

(4) Each of the optional ingredients used shall be declared on the label as required by the applicable sections of Part 1 of this chapter.

6. Section 27.30 is revised to read as follows:

§ 27.30 Canned cherries; identity; label statement of optional ingredients.

(a) *Ingredients.* Canned cherries is the food prepared from one of the optional fresh or previously canned cherry ingredients specified in paragraph (b) of this section, which may be packed in one of the optional packing media specified in paragraph (c) of this section. Such food may also contain one, or any combination of two or more, of the following safe and suitable optional ingredients:

(1) Natural and artificial flavors.

(2) Spice.

(3) Vinegar, lemon juice, or organic acids.

Such food is sealed in a container and before or after sealing is so processed by heat as to prevent spoilage.

(b) *Varietal types and styles.* The optional cherry ingredients referred to in paragraph (a) of this section are prepared from mature pitted or unpitted cherries of the red tart or alternatively, red sour, light sweet or dark sweet varietal group.

(c) *Packing media.* (1) The optional packing media referred to in paragraph (a) of this section, as defined in § 27.1 are:

(i) Water.

(ii) Fruit juice(s) and water.

(iii) Fruit juice(s).

Such packing media may be used as such or any one or any combination of two or more safe and suitable nutritive carbohydrate sweetener(s) may be added. Sweeteners defined in § 27.1 shall be as defined therein, except that a nutritive carbohydrate sweetener for which a standard of identity has been established in Part 26 of this chapter shall comply with such standard in lieu of any definition that may appear in § 27.1.

(2) When a sweetener is added as a part of any such liquid packing medium, the density range of the resulting packing medium expressed as percent by weight of sucrose (degrees Brix) as determined by the procedure prescribed in § 27.1(m) shall be designated by the appropriate name for the respective density ranges, namely:

(i) In the case of sweet cherries:

(a) When the density of the solution is less than 16 percent, the medium shall be designated as "slightly sweetened water"; or "extra light sirup"; "slightly sweetened fruit juice(s) and water"; or "slightly sweetened fruit juice(s)," as the case may be.

(b) When the density of the solution is 16 percent or more but less than 20 percent, the medium shall be designated as "light sirup"; "lightly sweetened fruit juice(s) and water"; or "lightly sweetened fruit juice(s)," as the case may be.

(c) When the density of the solution is 20 percent or more but less than 25 percent, the medium shall be designated as "heavy sirup"; "heavily sweetened fruit juice(s) and water"; or "heavily sweetened fruit juice(s)," as the case may be.

(d) When the density of the solution is 25 percent or more but not more than 35 percent, the medium shall be designated as "extra heavy sirup"; "extra heavily sweetened fruit juice(s) and water"; or "extra heavily sweetened fruit juice(s)", as the case may be.

(ii) In the case of red tart cherries:

(a) When the density of the solution is less than 18 percent, the medium shall be designated as "slightly sweetened water"; "slightly sweetened fruit juice(s) and water"; or "slightly sweetened fruit juice(s)", as the case may be.

(b) When the density of the solution is 18 percent or more but less than 22 percent, the medium shall be designated as "light sirup"; "lightly sweetened fruit juice(s) and water"; or "lightly sweetened fruit juice(s)", as the case may be.

(c) When the density of the solution is 22 percent or more but less than 28 percent, the medium shall be designated as "heavy sirup"; "heavily sweetened fruit juice(s) and water"; or "heavily sweetened fruit juice(s)", as the case may be.

(d) When the density of the solution is 28 percent or more but not more than 45 percent, the medium shall be designated as "extra heavy sirup"; "extra heavily sweetened fruit juice(s) and water"; or "extra heavily sweetened fruit juice(s)", as the case may be.

(d) *Labeling requirements.* (1) The name of the food is "cherries". The optional varietal type as set forth in paragraph (b) of this section, preceded or followed by the word "pitted" when this is the fact, shall be a part of the name. The name of the food shall also include a declaration of any flavoring that characterizes the product as specified in § 1.12 of this chapter and a declaration of any spice or seasoning that characterizes the product; for example, "Spice Added", or in lieu of the word "Spice", the common name of the spice, or "Seasoned with Lemon Juice". When two or more of the optional ingredients specified in paragraph (a) (2) and (3) of this section are used, such words may be combined as for example, "Seasoned with Cider Vinegar, Cloves, and Cinnamon Oil".

(2) The color type and style of the cherry ingredient as provided in paragraph (b) of this section and the name of the packing medium specified in paragraph (c) (1) and (2) of this section, preceded by "In" or "Packed In" or the words "solid pack", where applicable, shall be included as part of the name or in close proximity to the name of the food. When the packing medium is prepared with a sweetener(s) which imparts a taste, flavor or other characteristic to the finished food in addition to sweetness, the name of the packing medium shall be accompanied by the name of such sweetener(s), as for example in the case of a mixture of brown sugar and honey, an appropriate statement would be "---------- sirup of brown sugar and honey" the blank to be filled in with the word "light", "heavy", or "extra heavy" as the case may be. When the liquid portion of the packing media provided for in paragraph (c) (1) and (2) of this section consists of fruit juice(s), such juice(s) shall be designated in the name of the packing medium as:

(i) In the case of a single fruit juice, the name of the juice shall be used in lieu of the word "fruit";

(ii) In the case of a combination of two or more fruit juices, the names of the juices in the order of predominance by weight shall either be used in lieu of the word "fruit" in the name of the packing medium, or be declared on the label as specified in paragraph (d) (3) of this section; and

(iii) In the case of a single fruit juice or a combination of two or more fruit juices any of which are made from concentrate(s), the words "from concentrate(s)" shall follow the word "juice(s)" in the name of the packing medium and in the name(s) of such juice(s) when declared as specified in paragraph (d) (3) of this section.

(3) Whenever the names of the fruit juices used do not appear in the name of the packing medium as provided in paragraph (d) (2) (ii) of this section, such names and the words "from concentrate", as specified in paragraph (d) (2) (iii) of this section, shall appear in an ingredient statement pursuant to the requirements of § 1.8(d) of this chapter.

(4) Each of the optional ingredients used shall be declared on the label as required by the applicable sections of Part 1 of this chapter.

7. Section 27.35 is revised to read as follows:

§ 27.35 Canned berries; identity; label statement of optional ingredients.

(a) *Ingredients.* Canned berries is the food prepared from any suitable variety of one of the optional berry ingredients specified in paragraph (b) of this section, which may be packed in one of the optional packing media specified in paragraph (c) of this section. It may contain safe and suitable natural and artificial flavors. It is sealed in a container and before or after sealing is so processed by heat as to prevent spoilage.

(b) *Varietal types.* The optional berry ingredients referred to in paragraph (a) of this section are prepared from stemmed fruit of the following optional varietal types of berry ingredient; namely:

(i) Raspberry varieties conforming to the characteristics of *Rubus idaeus* L. or *Rubus occidentalis* L.

(ii) Blackberries.

(iii) Blueberries.

(iv) Boysenberries.

(v) Dewberries.

(vi) Gooseberries.

(vii) Huckleberries.

(viii) Loganberries.

(ix) Strawberries.

(x) Youngberries.

(c) *Packing media.* (1) The optional packing media referred to in paragraph (a) of this section, as defined in § 27.1 are:

(i) Water.

(ii) Fruit juice(s) and water.

(iii) Fruit juice(s).

Such packing media may be used as such or any one or any combination of two or more safe and suitable nutritive carbohydrate sweetener(s) may be added. Sweeteners defined in § 27.1 shall be as defined therein, except that a nutritive carbohydrate sweetener for which a standard of identity has been established in Part 26 of this chapter shall comply with such standard in lieu of any definition that may appear in § 27.1.

(2) When a sweetener is added as a part of any such liquid packing medium, the four density ranges of the resulting packing media hereinafter specified for each berry ingredient, expressed as percent by weight of sucrose (degrees Brix) as determined by the procedure described in § 27.1(m), shall be designated by the appropriate name for each of the respective density ranges for each berry ingredient as:

(i) "Slightly sweetened water"; or "extra light sirup"; "slightly sweetened fruit juice(s) and water"; or "slightly sweetened fruit juice(s)", as the case may be.

(ii) "Light sirup", when the liquid used is water; "lightly sweetened fruit juice(s) and water"; or "lightly sweetened fruit juice(s)", as the case may be.

(iii) "Heavy sirup", when the liquid used is water; or "heavily sweetened fruit juice(s) and water"; or "heavily sweetened fruit juice(s)", as the case may be.

(iv) "Extra heavy sirup", when the liquid used is water; or "extra heavily sweetened fruit juice(s) and water"; or "extra heavily sweetened fruit juice(s)", as the case may be.

The density ranges referred to herein are:

Optional berry ingredient	Density ranges (i) Minimum	(i) Maximum less than	(ii) Minimum	(ii) Maximum less than	(iii) Minimum	(iii) Maximum less than	(iv) Minimum	(iv) Maximum not more than
Raspberries	11	15	15	20	20	27	27	35
Blackberries		14	14	19	19	24	24	35
Blueberries		15	15	20	20	25	25	35
Boysenberries		14	14	19	19	24	24	35
Dewberries		14	14	19	19	24	24	35
Gooseberries		14	14	20	20	26	26	35
Huckleberries		15	15	20	20	25	25	35
Loganberries		14	14	19	19	24	24	35
Strawberries		14	14	19	19	27	27	35
Youngberries		14	14	19	19	24	24	35

(d) *Labeling requirements.* (1) The name of the food is the appropriate name of the berry ingredient specified in paragraph (b) of this section.

(2) The name of the packing medium, as used in paragraph (c) (1) of this section preceded by "In" or "Packed In" as provided in paragraph (c) of this section and, in the case of raspberries other than red raspberries provided for in paragraph (b) of this section, the name of such packing medium and the color of such raspberry shall be included as part of the name or in close proximity to the name of the food. When the packing medium is prepared with a sweetener(s) which imparts a taste, flavor or other characteristic to the finished food in addition to sweetness, the name of the packing medium shall be accompanied by the name of such sweetener(s), as for example in the case of a mixture of brown sugar and honey, an appropriate statement would be "---------- sirup of brown sugar and honey" the blank to be filled in with the word "light", "heavy", or "extra heavy" as the case may be. When the liquid portion of the packing media provided for in paragraph (c) (1) and (2) of this sec-

XUM V40-27 FEB 7 75 XUM

tion consists of fruit juice(s), such juice(s) shall be designated in the name of the packing medium as:

(i) In the case of a single fruit juice, the name of the juice shall be used in lieu of the word "fruit";

(ii) In the case of a combination of two or more fruit juices, the names of the juices in the order of predominance by weight shall either be used in lieu of the word "fruit" in the name of the packing medium, or be declared on the label as specified in paragraph (c) of this section; and

(iii) In the case of a single fruit juice or a combination of two or more fruit juices any of which are made from concentrate(s), the words "from concentrate(s)" shall follow the word "juice(s)" in the name of the packing medium and in the name(s) of such juice(s) when declared as specified in paragraph (d)(3) of this section.

(3) Whenever the names of the fruit juices used do not appear in the name of the packing medium as provided in paragraph (d)(2)(ii) of this section, such names and the words "from concentrate", as specified in paragraph (d)(2)(iii) of this section, shall appear in an ingredient statement pursuant to the requirements of § 1.8(d) of this chapter.

(4) Each of the optional ingredients used shall be declared on the label as required by the applicable sections of Part 1 of this chapter.

8. Section 27.40 is revised to read as follows:

§ 27.40 Canned fruit cocktail; identity; label statement of optional ingredients.

(a) *Ingredients.* Canned fruit cocktail, canned cocktail fruits, canned fruits for cocktail, is the food prepared from the mixture of fresh, frozen, or previously canned fruit ingredients of mature fruits in the forms and proportions as provided in paragraph (b) of this section, and one of the optional packing media specified in paragraph (c) of this section. Such food may also contain one, or any combination of two or more, of the following safe and suitable optional ingredients:

(1) Natural and artificial flavors.

(2) Spice.

(3) Vinegar, lemon juice, or organic acids.

(4) Ascorbic acid in an amount no greater than necessary to preserve color.

Such food is sealed in a container and before or after sealing is so processed by heat as to prevent spoilage.

(b) *Varietal types and styles.* The fruit ingredients referred to in paragraph (a) of this section, the forms of each, and the percent by weight of each in the mixture of drained fruit from the finished canned fruit cocktail are as follows:

(1) *Peaches.* Any firm yellow variety of the species *Prunus persica* L., excluding nectarine varieties, which are pitted, peeled, and diced, not less than 30 percent and not more than 50 percent.

(2) *Pears.* Any variety, of the species *Pyrus communis* L. or *Pyrus sinensis* L., which are peeled, cored, and diced, not less than 25 percent and not more than 45 percent.

(3) *Pineapples.* Any variety, of the species *Ananas comosus* L., which are peeled, cored, and cut into sectors or into dice, not less than 6 percent and not more than 16 percent.

(4) *Grapes.* Any seedless variety, of the species *Vitis vinifera* L. or *Vitis labrusca* L., not less than 6 percent and not more than 20 percent.

(5) *Cherries.* Approximate halves or whole pitted cherries of the species *Prunus cerasus* L., not less than 2 percent and not more than 6 percent, of the following types:

(i) Cherries of any light, sweet variety; or

(ii) Cherries artificially colored red; or

(iii) Cherries artificially colored red and flavored, natural or artificial.

Provided, That each 127.5 grams (4½ ounces avoirdupois) of the finished canned fruit cocktail and each fraction thereof greater than 56.7 grams (2 ounces avoirdupois) contain not less than 2 sectors or 3 dice of pineapple and not less than 1 approximate half of the optional cherry ingredient.

(c) *Packing media.* (1) The optional packing media referred to in paragraph (a) of this section, as defined in § 27.1 are:

(i) Water.

(ii) Fruit juice(s) and water.

(iii) Fruit juice(s).

Such packing media may be used as such or any one or any combination of two or more safe and suitable nutritive carbohydrate sweetener(s) may be added. Sweeteners defined in § 27.1 shall be as defined therein, except that a nutritive carbohydrate sweetener for which a standard of identity has been established in Part 26 of this chapter shall comply with such standard in lieu of any definition that may appear in § 27.1.

(2) When a sweetener is added as a part of any such liquid packing medium, the density range of the resulting packing medium expressed as percent by weight of sucrose (degrees Brix) as determined by the procedure prescribed in § 27.1(m) shall be designated by the appropriate name for the respective density ranges, namely:

(i) When the density of the solution is 10 percent or more, but less than 14 percent, the medium shall be designated as "slightly sweetened water"; or "extra light sirup"; "slightly sweetened fruit juice(s) and water"; or "slightly sweetened fruit juice(s)", as the case may be.

(ii) When the density of the solution is 14 percent or more but less than 18 percent, the medium shall be designated as "light sirup"; "lightly sweetened fruit juice(s) and water"; or "lightly sweetened fruit juice(s)", as the case may be.

(iii) When the density of the solution is 18 percent or more but less than 22 percent, the medium shall be designated as "heavy sirup"; "heavily sweetened fruit juice(s) and water"; or "heavily sweetened fruit juice(s)", as the case may be.

(iv) When the density of the solution is 22 percent or more but not more than 35 percent, the medium shall be designated as "extra heavy sirup"; "extra heavily sweetened fruit juice(s) and water"; or "extra heavily sweetened fruit juice(s)", as the case may be.

(d) *Labeling requirements.* (1) The name of the food is "fruit cocktail". The name of the food shall also include a declaration of any flavoring that characterizes the product as specified in § 1.12 of this chapter and a declaration of any spice or seasoning that characterizes the product; for example, "Spice Added", or in lieu of the word "Spice", the common name of the spice, "Seasoned with Vinegar" or "Seasoned with Lemon Juice". When two or more of the optional ingredients specified in paragraph (a)(2) and (3) of this section are used, such words may be combined as for example, "Seasoned with Cider Vinegar, Cloves, Cinnamon Oil and Lemon Juice".

(2) The name of the packing medium as used in paragraph (c)(1) and (2) of this section, preceded by "In" or "Packed In" shall be included as part of the name or in close proximity to the name of the food. When the packing medium is prepared with a sweetener(s) which imparts a taste, flavor or other characteristic to the finished food in addition to sweetness, the name of the packing medium shall be accompanied by the name of such sweetener(s), as for example, in the case of a mixture of brown sugar and honey, an appropriate statement would be "_____ sirup of brown sugar and honey" the blank to be filled in with the word "light", "heavy", or "extra heavy" as the case may be. When the liquid portion of the packing media provided for in paragraph (c)(1) and (2) of this section consists of fruit juice(s), such juice(s) shall be designated in the packing medium as:

(i) In the case of a single fruit juice, the name of the juice shall be used in lieu of the word "fruit";

(ii) In the case of a combination of two or more fruit juices, the names of the juices in the order of predominance by weight shall either be used in lieu of the word "fruit" in the name of the packing medium, or be declared on the label as specified in paragraph (d)(3) of this section; and

(iii) In the case of a single fruit juice or a combination of two or more fruit juices any of which are made from concentrate(s), the words "from concentrate(s)" shall follow the word "juice(s)" in the name of the packing medium and in the name(s) of such juice(s) when declared as specified in paragraph (d)(3) of this section.

(3) Whenever the names of the fruit juices used do not appear in the name of the packing medium as provided in paragraph (d)(2)(ii) of this section, such names and the words "from concentrate", as specified in paragraph (d)(2)(iii) of this section, shall appear in

an ingredient statement pursuant to the requirements of § 1.8(d) of this chapter.

(4) Each of the optional ingredients used shall be declared on the label as required by the applicable sections of Part 1 of this chapter.

9. Section 27.70 is revised to read as follows:

§ 27.70 Canned figs; identity; label statement of optional ingredients.

(a) Canned figs is the food prepared from one of the optional fig ingredients specified in paragraph (b) of this section and one of the optional packing media specified in paragraph (c) of this section, to which lemon juice, concentrated lemon juice or organic acid(s) is added, when necessary to reduce the pH of the finished product to pH 4.9 or below. Such food may also contain one, or any combination of two or more, of the following safe and suitable optional ingredients:

(1) Natural and artificial flavoring.

(2) Spice.

(3) Vinegar.

(4) Unpeeled segments of citrus fruits.

(5) Salt.

Such food is sealed in a container and before or after sealing is so processed by heat as to prevent spoilage.

(b) The optional fig ingredients referred to in paragraph (a) of this section are prepared from mature figs of the light or dark varieties. Figs (or whole figs), split figs (or broken figs), or any combination thereof are optional fig ingredients. A "whole fig" is one which is whole, but may be slightly cracked, provided it retains its natural conformation without exposing the interior. A "split" or "broken" fig is one which is open to an extent that the seed cavity is exposed whether broken entirely into separate pieces.

(c) *Packing media.* (1) The optional packing media referred to in paragraph (a) of this section, as defined in § 27.1 are:

(i) Water.

(ii) Fruit juice(s) and water.

(iii) Fruit juice(s).

Such packing media may be used as such or any one or any combination of two or more safe and suitable nutritive carbohydrate sweetener(s) may be added. Sweeteners defined in § 27.1 shall be as defined therein, except that a nutritive carbohydrate sweetener for which a standard of identity has been established in Part 26 of this chapter shall comply with such standard in lieu of any definition that may appear in § 27.1.

(2) When a sweetener is added as a part of any such liquid packing medium, the density range of the resulting packing medium expressed as percent by weight of sucrose (degrees Brix) as determined by the procedure prescribed in § 27.1(m) shall be designated by the appropriate name for the respective density ranges, namely:

(i) When the density of the solution is 11 percent or more but less than 16 percent, the medium shall be designated as "slightly sweetened water"; or "extra light sirup"; "slightly sweetened fruit juice(s) and water"; or "slightly sweetened fruit juice(s)", as the case may be.

(ii) When the density of the solution is 16 percent or more but less than 21 percent, the medium shall be designated as "light sirup"; "lightly sweetened fruit juice(s) and water"; or "lightly sweetened fruit juice(s)", as the case may be.

(iii) When the density of the solution is 21 percent or more but less than 26 percent, the medium shall be designated as "heavy sirup"; "heavily sweetened fruit juice(s) and water"; or "heavily sweetened fruit juice(s)", as the case may be.

(iv) When the density of the solution is 26 percent or more but not more than 35 percent, the medium shall be designated as "extra heavy sirup"; "extra heavily sweetened fruit juice(s) and water"; or "extra heavily sweetened fruit juice(s)", as the case may be.

(d) *Labeling requirements.* (1) The name of the food is "figs". The words "broken" or "split" shall be a part of the name when the optional fig ingredient is a broken or split fig. The name of the food shall also include a declaration of any flavoring that characterizes the product as specified in § 1.12 of this chapter and a declaration of any spice or seasoning that characterizes the product; for example, "Spice Added", or in lieu of the word "Spice", the common name of the spice, "Seasoned with Vinegar" or "Seasoned with Unpeeled Segments of Citrus Fruits". When two or more of the optional ingredients specified in paragraph (a)(2) through (5), inclusive, of this section are used, such words may be combined as for example, "Seasoned with Cider Vinegar, Cloves, Cinnamon Oil and Unpeeled Segments of Citrus Fruits."

(2) The name of the packing medium as used in paragraph (c)(1) of this section, preceded by "In" or "Packed In", as provided in paragraph (c) of this section, shall be included as part of the name or in close proximity to the name of the food. When the packing medium is prepared with a sweetener(s) which imparts a taste, flavor or other characteristic to the finished food other than sweetness, as for example, a mixture of brown sugar and honey, the statement "_____ sirup of brown sugar and honey" the blank to be filled in with the word "light", "heavy", or "extra heavy", as the case may be, shall be included as part of the name or in close proximity to the name of the food. When the liquid portion of the packing media provided for in paragraph (c)(1) and (2) of this section consists of fruit juice(s), such juice(s) shall be designated in the name of the packing medium as:

(i) In the case of a single fruit juice, the name of the juice shall be used in lieu of the word "fruit";

(ii) In the case of a combination of two or more fruit juices, the names of the juices in the order of predominance by weight shall either be used in lieu of the word "fruit" in the name of the packing medium, or be declared on the label as specified in paragraph (d)(3) of this section; and

(iii) In the case of a single fruit juice or a combination of two or more fruit juices any of which are made from concentrate(s), the words "from concentrate(s)" shall follow the word "juice(s)" in the name of the packing medium and in the name(s) of such juice(s) when declared as specified in paragraph (d)(3) of this section.

(3) Whenever the names of the fruit juices used do not appear in the name of the packing medium as provided in paragraph (d)(2)(ii) of this section, such names and the words "from concentrate", as specified in paragraph (d)(2)(iii) of this section, shall appear in an ingredient statement pursuant to the requirements of § 1.8(d) of this chapter.

(4) Each of the optional ingredients used shall be declared on the label as required by the applicable sections of Part 1 of this chapter.

Any person who will be adversely affected by the foregoing order may at any time on or before March 10, 1975, file with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. Compliance with this order, which shall include any labeling changes required, may begin on March 11, 1975, and all products shipped in interstate commerce after December 31, 1975, shall comply with this regulation except as to any provisions that may be stayed by the filing of proper objections. Notice of the filing of objections or lack thereof will be published in the FEDERAL REGISTER.

(Secs. 401, 701, 52 Stat. 1046, 1055–1056 as amended by 70 Stat. 919, 72 Stat. 948; (21 U.S.C. 341, 371))

Dated: February 3, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

PART 27—CANNED FRUITS AND FRUIT JUICES

Definitions for Canned Fruits and Fruit Juices and Identity Standard for Canned Plums and Establishing Quality and Fill of Container Standards for Canned Plums

In the FEDERAL REGISTER of January 21, 1974 (39 FR 2377) the Commissioner of Food and Drugs, on his own initiative, proposed amendment of the definitions for canned fruits and fruit juices (21 CFR 27.1), amendment of the standard of identity for canned plums (21 CFR 27.45), and the establishment of standards of quality (21 CFR 27.46) and fill of container (21 CFR 27.47) for canned plums based upon the canned plums standard adopted by the Codex Alimentarius Commission.

Following a review of the comments received to the proposal and for the reasons set out below the Commissioner is taking action essentially as proposed and consistent with the Codex standard being considered.

The principal features of this order are: The elimination of the specific listing of sweeteners and proportionality requirements for such sweeteners; substituting a provision for the use of "safe and suitable nutritive carbohydrate sweeteners"; and establishing a standard of quality and fill of container for canned plums. Persons adversely affected are invited to submit objections on or before March 10, 1975. In the absence of proper objections compliance with this order may begin on March 11, 1975, and all products shipped in interstate commerce after December 31, 1975, shall comply with this regulation except as to any portions which are stayed.

Four letters containing a number of comments were received in response to the proposed amendment to the definitions section for canned fruits and fruit juices, and the identity standard for canned plums as well as the proposed establishment of standards of quality and fill of container for canned plums. Two of the comments supported the proposal. The remaining comments and the Commissioner's response to the comments are as follows:

1. One comment recommended that the identity standard provide for the optional use of sodium hexametaphosphate (SHMP) at a level equal to one-half of one percent in the finished food. The comment stated that a review of the substances "Generally Recognized as Safe" (GRAS), 21 CFR 121.101, indicates that SHMP may be used as a sequestrant and could also function as a preservative. Accompanying material submitted with the comment stated that there is evidence in the literature that SHMP can tenderize the skins of canned Italian plums and that the tenderizing effect was confirmed in limited tests on canned Stanley plums. It further stated that there also appears to be less color loss (the sirup is more red) in plums treated with SHMP.

Although SHMP is listed in 21 CFR 121.101(d)(6) as a sequestrant, the Commissioner is unaware of any history of its commercial use as a tenderizer or color enhancer in any food, pursuant to the proposal on general recognition of safety and prior sanctions for food ingredients, published in the FEDERAL REGISTER of September 23, 1974, (39 FR 34194). He therefore concludes that, in view of the inadequate support submitted to demonstrate that providing for the use of SHMP in canned plums for the requested use would promote honesty and fair dealing in the interest of consumers, the request is denied.

2. It was suggested that the word "carbohydrate" be deleted from the term "nutritive carbohydrate sweeteners" to identify the class of sweetening ingredients which may be used in preparing packing media. The stated basis for this deletion is that the term will then conform to the title of 21 CFR Part 26 and nomenclature promulgated by the Codex Alimentarius Commission.

The Commissioner does not agree with this suggestion. The Commissioner is not aware of any sweetener, presently regarded as suitable for use in preparing packing media for canned fruits, which would be excluded from such use by restricting the class of sweeteners to "safe and suitable nutritive carbohydrate sweeteners." On the other hand, the Commissioner is aware of certain "nutritive sweeteners," which are not "nutritive carbohydrate sweeteners," that are not permitted by either the Codex standard or the existing U.S. standards for canned fruits. No data are available indicating that such "nutritive sweeteners" are suitable for use in the canned fruits covered by these standards. Any interested person may submit a petition, supported by reasonable grounds to provide for the use of such "nutritive sweeteners." The Codex standard specifically lists and limits the sweetener ingredients to five nutritive carbohydrate sweeteners. The U.S. standard in permitting the class designation "safe and suitable nutritive carbohydrate sweeteners" is less restrictive and will permit greater flexibility in the choice of suitable sweeteners that can be used. The Commissioner concludes that the term "carbohydrate" should be retained for the purpose of identifying those nutritive sweeteners in Part 26 that can properly be used in the Part 27 standards.

3. The question has recently been raised as to whether or not the substances mannitol and sorbitol are included in the Commissioner's use of the term "carbohydrate."

The Commissioner is aware that different chemical text books and scientific dictionaries may differ in their definition of the term "carbohydrate." The Food and Drug Administration is of the opinion that mannitol and sorbitol are sugar alcohols and are not "carbohydrates." Thus, they are not included within the term "nutritive carbohydrate sweetener" whenever it is used in Food and Drug Administration regulations.

4. One comment pointed out that the present definitions in 21 CFR 27.1 for corn sirup, dextrose, dried glucose sirup and glucose sirup should be changed to reference the recently published standards of identity for these foods in 21 CFR Part 26 or the definitions in Part 26 should be repeated in 21 CFR 27.1.

The Commissioner agrees with this comment, and § 27.45(c) has been revised to provide that if a nutritive carbohydrate sweetener has been defined in both § 27.1 and in Part 26 it shall comply with the standard in Part 26 in lieu of any definition that may appear in § 27.1.

5. One comment suggested that the phrase in § 27.2(d)(2) "* * * which imparts a characteristic to the finished food in addition to sweetness * * *" relating to label declaration requirements of packing media should be revised in the interest of clarity to read "* * * which imparts a taste, flavor or other characteristic to the finished food in addition to sweetness * * *".

The Commissioner concurs in this suggested change and the regulation has been changed accordingly.

6. One comment suggested that the definitions for canned fruits and fruit juices contain the following definition for clarified juice: "The term clarified juice means the liquid expressed wholly or in part from peelings, shells, cores, or from the flesh or parts thereof, which is clarified and may be further refined or concentrated."

The Commissioner concludes that the definition for clarified juice suggested encompasses the definitions of clarified juice which appear in §§ 27.20 and 27.50 and that with minor modifications it should be incorporated into the definitions section for canned fruits and fruit juices.

7. The Commissioner concludes that the procedure for the determination of the drained weight of canned fruit, which is applicable to many of the canned fruit standards, should be included in the definitions for canned fruits and fruit juices under 21 CFR 27.1 rather than repeated in each of the standards where the procedure is required. The drained weight procedure has therefore been deleted from the fill of container standard for canned plums and a cross-reference in 21 CFR 27.47(a) is created to the procedure now set forth in 21 CFR 27.1(n). In addition § 27.1(n) has been revised to clarify the procedure and make it consistent with the Official Methods of Analysis of the Association of Official Analytical Chemists.

8. The Commissioner concludes that the definition of "blemishes" in the standard of quality under 21 CFR 27.46 (a)(1) should be revised to be more specific with respect to the types of blemishes common to plums. He concludes that canned plums are considered as containing blemishes when damaged by insects or when the appearance or eating quality is materially affected by friction, disease, external stone gum or discoloration.

The Commissioner also published a proposal in the FEDERAL REGISTER of January 21, 1974 (39 FR 2368), based on a petition submitted by the California Canners and Growers, 3100 Ferry Bldg., San Francisco, CA 94106, to amend other U.S. canned fruit identity standards so as to conform to the pattern of the proposed canned plums identity standard. These are the U.S. identity standards for canned peaches (21 CFR 27.2), canned apricots (21 CFR 27.10), canned prunes (21 CFR 27.15), canned pears (21 CFR 27.20), canned seedless grapes (21 CFR 27.25), canned cherries (21 CFR 27.30), canned berries (21 CFR 27.35), canned fruit cocktail (21 CFR 27.40), canned pineapple (21 CFR 27.50) and canned figs (21 CFR 27.70). The order ruling on this proposal is published elsewhere in this issue of the FEDERAL REGISTER.

In consideration of the comments received and other relevant information, the Commissioner concludes that it will promote honesty and fair dealing in the interest of consumers to amend the definitions for canned fruits and fruit juices and the standard of identity for canned plums and to establish standards of quality and fill of container for canned plums as set forth below.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055–1056, as amended by 70 Stat. 919 and 72 Stat. 948; 21 U.S.C. 341, 371) and under authority delegated to the Commissioner (21 CFR 2.120): *It is ordered*, That Part 27 be amended as follows:

1. In § 27.1 by adding new paragraphs (h), (i), (j), (k), (l), (m), (n), (o), and (p) to read as follows:

§ 27.1 Definitions.

* * * * *

(h) The term "water" means, in addition to water, any mixture of water and fruit juice in which the fruit juice(s) is less than 50 percent of such mixture, including any water contributed by the use of liquid nutritive carbohydrate sweeteners.

(i) The term "fruit juice(s) and water" means any mixture of fruit juice as herein defined and water, including any water contributed by the use of liquid nutritive carbohydrate sweeteners, in which the fruit juice(s) is 50 percent, or more, of such mixture except that water used in preparing equivalent single strength juice(s) from concentrate(s) shall not be considered to be a mixture of fruit juice and water.

(j) The term "fruit juice(s)" means single strength expressed juice(s) of sound, mature fruit(s). It may be fresh, frozen, canned, or made from concentrate(s). However, if it is made from concentrate(s), the juice(s) shall be reconstituted with water to not less than the soluble solids that such fruit juice had before concentration. Fruit juice(s) may be used singly or in combination. If a fruit juice(s) is used which is regulated by a standard of identity of this chapter, it shall conform to the compositional requirements prescribed by such standard prior to the addition of any sweetener which may be used.

(k) The term "clarified juice" means the liquid expressed wholly or in part from fruit peelings, fruit shells, fruit cores, or from the fruit flesh or parts thereof, which is clarified and may be further refined or concentrated.

(l) The term "solid pack" means the product contains practically all fruit with only the very little free flowing liquid that is expressed from the fruit and to which no packing media have been added.

(m) The procedure for determining the densities of the packing media means the following: The density of the packing medium, when measured 15 days or more after packing, or the density of the blended homogenized slurry of the comminuted entire contents of the container, when measured less than 15 days after canning, is determined according to "Official Method of Analysis of the Association of Official Analytical Chemists", 11th Ed., 1970, p. 526, section 31.011 (Solids) "By Means of the Refractometer—Official, Final Action" (and 47.012 and 47.015)[1] with result expressed as percent by weight of sucrose (degrees Brix) with correction for temperature to the equivalent at 20° C., but without correction for invert sugar or other substances.

(n) The procedure for determining drained weight is as follows: Tilt the opened container so as to distribute the contents evenly over the meshes of a circular sieve which has previously been weighed. The diameter of the sieve is 20.3 centimeters (8 inches) if the quantity of contents of the container is less than 1.4 kilograms (3 pounds) and 30.5 centimeters (12 inches) if such quantity is 1.4 kilograms (3 pounds) or more. The bottom of the sieve is woven-wire cloth which complies with the specifications for the No. 8 sieve set forth in the "Definitions of Terms and Explanatory Notes," p. xviii, of the "Official Methods of Analysis of the Association of Official Analytical Chemists," 11th Ed., 1970.[1] Carefully invert by hand all fruits having cups or cavities if they fall on the sieve with cups or cavities up. Cups or cavities in soft products may be drained by tilting sieve. Without further shifting the material on the sieve, incline the sieve at an angle of 17° to 20° to facilitate drainage. Two minutes after the drainage begins, weigh the sieve and drained fruit. The weight so found, less the weight of the sieve, shall be considered to be the weight of the drained fruit.

(o) Compliance means the following: Unless otherwise provided in a standard, a lot of canned fruits shall be deemed in compliance for the following factors, to be determined by the sampling and acceptance procedure as provided in paragraph (p) of this section, namely:

(1) *Packing medium density.* A lot shall be deemed to be in compliance for packing medium density based on the average sucrose value for all samples analyzed according to the sampling plans, but no container may have a sucrose value lower than that of the next lower category or 2 percent by weight sucrose (degrees Brix) lower if no lower category exists.

(2) *Quality.* The quality of a lot shall be considered acceptable when the number of defectives does not exceed the acceptance number in the sampling plans.

(3) *Fill of container.* A lot shall be deemed to be in compliance for fill of container (packing medium and fruit ingredient) when the number of defectives does not exceed the acceptance number (c) in the sampling plans.

(4) *Drained weight.* A lot shall be deemed to be in compliance for drained weight based on the average value of all samples analyzed according to the sampling plans.

(p) The sampling and acceptance procedure means the following:

(1) *Definitions*—(i) *Lot.* A collection of primary containers or units of the same size, type, and style manufactured or packed under similar conditions and handled as a single unit of trade.

(ii) *Lot size.* The number of primary containers or units in the lot.

(iii) *Sample size.* The total number of sample units drawn for examination from a lot.

(iv) *Sample unit.* A container, a portion of the contents of a container, or a composite mixture of product from small containers that is sufficient for the examination or testing as a single unit.

(v) *Defective.* Any sample unit shall be regarded as defective when the sample unit does not meet the criteria set forth in the standards.

(vi) *Acceptance number* (c). The maximum number of defective sample units permitted in the sample in order to consider the lot as meeting the specified requirements.

(vii) *Acceptable quality level (AQL).* The maximum percent of defective sample units permitted in a lot that will be accepted approximately 95 percent of the time.

(2) *Sampling plans:*

XUM V40127 FEB 7 75 XUM

Lot size (primary containers)	Size of container	
	Net weight equal to or less than 1 kilogram (2.2 pounds)	
	n	c
4,800 or less	13	2
4,801 to 24,000	21	3
24,001 to 48,000	29	4
48,001 to 84,000	48	6
84,001 to 144,000	84	9
144,001 to 240,000	126	13
Over 240,000	200	19
	Net weight greater than 1 kilogram (2.2 pounds) but not more than 4.5 kilograms (10 pounds)	
	n	c
2,400 or less	13	2
2,401 to 15,000	21	3
15,001 to 24,000	29	4
24,001 to 42,000	48	6
42,001 to 72,000	84	9
72,001 to 120,000	126	13
Over 120,000	200	19
	Net weight greater than 4.5 kilograms (10 pounds)	
	n	c
600 or less	13	2
601 to 2,000	21	3
2,001 to 7,200	29	4
7,201 to 15,000	48	6
15,001 to 24,000	84	9
24,001 to 42,000	126	13
Over 42,000	200	19

n=number of primary containers in sample.
c=acceptance number.

2. By revising § 27.45 to read as follows:

§ 27.45 Canned plums; identity; label statement of optional ingredients.

(a) *Ingredients.* Canned plums is the food prepared from clean, sound, and mature fruit of plum varieties conforming to the characteristics of *Prunus domestica* L., greengage varieties conforming to the characteristics of *Prunus italica* L., mirabelle or damson varieties conforming to the characteristics of *Prunus insititia* L., or cherry varieties conforming to the characteristics of *Prunus cerasifera* Ehrh. The food consists of one of the optional styles of the plum ingredient, specified in paragraph (b) of this section, and one of the optional packing media specified in paragraph (c) of this section. Such food may also contain one, or any combination of two or more of the following safe and suitable optional ingredients:

(1) Natural and artificial flavors.

(2) Spice.

(3) Vinegar, lemon juice, or organic acids.

(4) Artificial coloring.

Such food is sealed in a container and before or after sealing is so processed by heat so as to prevent spoilage.

(b) *Optional styles of the plum ingredient.* The optional plum ingredients specified in paragraph (a) of this section are:

(1) Whole peeled with or without pits;

(2) Whole unpeeled with or without pits;

(3) Halves peeled, without pits; and

(4) Halves unpeeled, without pits.

(c) *Packing media.* (1) The optional packing media referred to in paragraph (a) of this section, as defined in § 27.1 are:

(i) Water.

(ii) Fruit juice(s) and water.

(iii) Fruit juice(s).

Such packing media may be used as such or any one or any combination of two or more safe and suitable nutritive carbohydrate sweetener(s) may be added. Sweeteners defined in § 27.1 shall be as defined therein, except that a nutritive carbohydrate sweetener for which a standard of identity has been established in Part 26 of this chapter shall comply with such standard in lieu of any definition that may appear in § 27.1.

(2) When a sweetener is added as a part of any such liquid packing medium, the density range of the resulting packing medium expressed as percent by weight of sucrose (degrees Brix) as determined by the procedure prescribed in § 27.1(m) shall be designated by the appropriate name for the respective density ranges, namely:

(i) When the density of the solution is 11 percent or more but less than 15 percent, the medium shall be designated as "slightly sweetened water", or "extra light sirup", "slightly sweetened fruit juice(s) and water", or "lightly sweetened fruit juice(s)", as the case may be.

(ii) When the density of the solution is 15 percent or more, but less than 19 percent, the medium shall be designated as "light sirup", "lightly sweetened fruit juice(s) and water", or "lightly sweetened fruit juice(s)", as the case may be.

(iii) When the density of the solution is 19 percent or more, but less than 25 percent, the medium shall be designated as "heavy sirup", "heavily sweetened fruit juice(s) and water", or "heavily sweetened fruit juice(s)", as the case may be.

(iv) When the density of the solution is 25 percent or more, but less than 35 percent, the medium shall be designated as "extra heavy sirup", "extra heavily sweetened fruit juice(s) and water", or "extra heavily sweetened fruit juice(s)", as the case may be.

(d) *Labeling requirements.* (1) The name of the food is "plums" accompanied by the color designation "yellow" or "golden" or "red" or "purple", as appropriate, or the specific name of the variety or "Greengage plums", "Damson plums", "Cherry plums", "Mirabelle plums". The name of the food shall also include a declaration of any flavoring that characterizes the product as specified in § 1.12 of this chapter and a declaration of any spice or seasoning that characterizes the product; for example, "Spice Added", or in lieu of the word "Spice", the common name of the spice; "Seasoned with Vinegar". When two or more of the optional ingredients specified in paragraph (a) (2) and (3) of this section are used, such words may be combined as for example, "Seasoned with cider vinegar, cloves, and cinnamon oil".

(2) The style of the plum ingredient as provided in paragraph (b) of this section and the name of the packing medium specified in paragraph (c) (1) and (2) of this section, preceded by "In" or "Packed in" shall be included as part of the name or in close proximity to the name of the food. When the packing medium is prepared with a sweetener(s) which imparts a taste, flavor or other characteristic to the finished food in addition to sweetness, the name of the packing medium shall be accompanied by the name of such sweetener(s), as for example, in the case of a mixture of brown sugar and honey, an appropriate statement would be "-------- sirup of brown sugar and honey", the blank to be filled in with the word "light", "heavy", or "extra heavy", as the case may be. When the liquid portion of the packing media provided for in paragraph (c) (1) and (2) of this section consists of fruit juice(s), such juice(s) shall be designated in the name of the packing medium as:

(i) In the case of a single fruit juice, the name of the juice shall be used in lieu of the word "fruit".

(ii) In the case of a combination of two or more fruit juices, the names of the juices in the order of predominance by weight shall either be used in lieu of the word "fruit" in the name of the packing medium, or be declared on the label as specified in paragraph (d) (3) of this section, and

(iii) In the case of a single fruit juice or a combination of two or more fruit juices any of which are made from concentrate(s), the words "from concentrate(s)" shall follow the word "juice(s)" in the name of the packing medium and in the name(s) of such juice(s) when declared as specified in paragraph (d) (3) of this section.

(3) Whenever the names of the fruit juices used do not appear in the name of the packing medium as provided in paragraph (d) (2) (ii) of this section, such names and the words "from concentrate", as specified in paragraph (d) (2) (iii) of this section, shall appear in an ingredient statement pursuant to the requirements of § 1.8(d) of this chapter.

(4) Each of the optional ingredients used shall be declared on the label as required by the applicable sections of Part 1 of this chapter.

3. By adding the following new sections:

§ 27.46 Canned plums; quality; label statement of substandard quality.

(a) The standard of quality for canned plums is as follows:

(1) *Blemishes (damaged).* After draining in accordance with the procedure set out in § 27.1(n) not more than 30 percent by weight of the drained plums consists of plums which have been blemished or damaged by any of the following factors either singly or in combination: Damaged by insects; appearance or eating quality materially affected by friction, disease, external stone gum or discoloration.

(2) *Crushed or broken units in whole and halves styles.* In the case of the whole styles, not more than 25 percent by weight of the drained plums are deformed or broken to an extent that the normal shape of the fruit is seriously affected. In the case of the halves style, not more than 25 percent by weight of the drained plums are damaged or torn to such an extent that they are smaller than 50 percent of a plum half.

(3) *Blemishes and crushed or broken units.* Not more than 35 percent by weight of the drained plums consist of both blemishes as specified in subparagraph (1) of this paragraph and crushed or broken units in the case of the whole and halves styles as specified in subparagraph (2) of this paragraph.

(4) *Extraneous plant material.* Not more than one piece of stalk or stem from the plum tree or other harmless extraneous plant material per 200 grams (7 ounces) of drained plums.

(5) *Loose pits in whole style.* Not more than three loose pits per 500 grams (17.6 ounces) of drained plums.

(6) *Pits or pieces of pits in whole pitted and halves styles.* Not more than two pits or pieces of pits per 500 grams (17.6 ounces) of drained plums.

(b) Determine compliance as specified in § 27.1(o) of this chapter except that a lot shall be deemed to be in compliance for extraneous plant material, loose pits in whole style, and pits or pieces of pits in whole pitted and halves styles based on the average of all samples analyzed according to the sampling plans set out in § 27.1(p) of this chapter.

(c) If the quality of canned plums falls below the standard prescribed in paragraph (a) of this section, the label shall bear the general statement of substandard quality specified in § 10.7(a) of this chapter, in the manner and form therein specified; however, if the quality of the canned plums falls below standard with respect to only one of the factors of quality specified in paragraph (a) (1) through (6) of this section, there may be substituted for the second line of such general statement of substandard quality ("Good Food—Not High Grade") a new line, as specified after the corresponding designation of paragraph (a) of this section which the canned plums fail to meet, as follows:

(1) "Blemished";

(2) "Partly Crushed or Broken";

(3) "Blemished and Partly Crushed or Broken";

(4) "Contains Extraneous Plant Material";

(5) "Contains Loose Pits"; or

(6) "Contains Pits" or "Contains Pieces of Pits".

§ 27.47 Canned plums; fill of container; label statement of substandard fill.

(a) The standard of fill of container for canned plums is:

(1) The fill of the plums and packing medium, as determined by the general method for fill of container prescribed in § 10.6(b) of this chapter, is not less than 90 percent of the total capacity of the container.

(2) The drained weight of the plum ingredient as determined by the method prescribed in § 27.1(n) is not less than 50 percent for whole styles and 55 percent for halves styles based on the water capacity of containers as determined in § 10.6(a) of this chapter.

(b) Determine compliance for fill of container as specified in § 27.1(o) of this chapter.

(c) If canned plums fall below the standard of fill of container prescribed in paragraph (a) of this section, the label shall bear the statement of substandard fill specified in § 10.7(b) of this chapter, in the manner and form therein specified. If canned plums fall below the standard of fill of container in respect to drained weight, the words "Low drained weight" shall follow the general statement of substandard fill on the label.

Any person who will be adversely affected by the foregoing order may at any time on or before March 10, 1975, file with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, written objections thereto. Objections shall show wherein the person filing will be adversely affected by the order, specify with particularity the provisions of the order deemed objectionable, and state the grounds for the objections. If a hearing is requested, the objections shall state the issues for the hearing, shall be supported by grounds factually and legally sufficient to justify the relief sought, and shall include a detailed description and analysis of the factual information intended to be presented in support of the objections in the event that a hearing is held. Six copies of all documents shall be filed. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. Compliance with this order, which shall include any labeling changes required, may begin on March 11, 1975, and all products shipped in interstate commerce after December 31, 1975, shall comply with this regulation except as to any provisions that may be stayed.

(Secs. 401, 701, 52 Stat. 1046, 1055–1056 as amended by 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371.)

Dated: February 3, 1975.

SAM D. FINE,
Associate Commissioner for Compliance.

NOTE.—Incorporation by reference provisions approved by the Director of the Office of the Federal Register March 26, 1973.

[FR Doc.75-3519 Filed 2-6-75;8:45 am]

Title 24—Housing and Urban Development

CHAPTER II—OFFICE OF ASSISTANT SECRETARY FOR HOUSING PRODUCTION AND MORTGAGE CREDIT-FEDERAL HOUSING COMMISSIONER (FEDERAL HOUSING ADMINISTRATION), DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—MORTGAGE AND LOAN INSURANCE PROGRAMS UNDER NATIONAL HOUSING ACT

[Docket No. R-75-272]

PART 232—NURSING HOMES AND INTERMEDIATE CARE FACILITIES MORTGAGE INSURANCE

Subpart C—Eligibility Requirements-Supplemental Loans To Finance Purchase and Installation of Fire Safety Equipment

Correction

In FR Doc.75-2998, appearing on page 4980 in the issue for Monday, February 3, 1975 make the following changes:

1. The first and second lines in the second column should be transferred under the first line in the third column.

2. In the third line of the second column the last word now reading, "programs" should read, "program".

Title 29—Labor

CHAPTER V—WAGE AND HOUR DIVISION, DEPARTMENT OF LABOR

PART 529—EMPLOYMENT OF PATIENT WORKERS IN HOSPITALS AND INSTITUTIONS AT SUBMINIMUM WAGES

Special Wage Certificates

On September 4, 1974, notice of proposed rule making regarding a new Part 529, Title 29, Code of Federal Regulations was published in the FEDERAL REGISTER (39 FR 32037-32040). 29 CFR Part 529 governs the employment at subminimum wages under the Fair Labor Standards Act of patients, whose earning or productive capacity is impaired, in hospitals and institutions primarily engaged in the residential care of the sick, the aged, or the mentally ill or defective. Interested parties were given opportunity to submit comments until October 4, 1974.

Comments received have been carefully and consequently I adopt the proposed revision, effective immediately, subject only to the changes outlined below.

These regulations are necessary to implement the order of the United States District Court of the District of Columbia in "Souder v. Brennan," dated December 7, 1973, and to enable employers to secure the appropriate special wage certificates that the court's order contemplated. Accordingly, in order to implement this procedure and to avoid any hardship, these regulations are made effective immediately.

XUM

1. Table of contents is revised to show changes in various sections affected.

2. Paragraph (c) of § 529.1, is revised to add a statement that patient workers whose earning or productive capacity is not impaired shall be paid at least the statutory minimum wage.

3. Paragraph (b) of § 529.2, the definition of "patient worker" is broadened to include resident workers and nonresidents who are receiving treatment or care by the hospital or institution in which they are employed.

4. Paragraph (c) of § 529.2, intermediate care facilities is added as a further example of residential hospitals and institutions which come within the definition of "hospitals and institutions."

5. Paragraph (d) of § 529.2, the definition of "employment relationship" is revised to make it more definitive. Included in the definition are examples of activities which may be beneficial to the patients and are considered of no significant benefit to the institution, which do not result in an employment relationship.

6. Paragraph (h) of § 529.2, the definition of "work activities center" is revised to change the term "recorded plan of therapy" to read "recorded plan of therapy or care," and to eliminate the reference to the Administrator, the voluntary monitoring agency and the Advisory Committee on Sheltered Workshops.

7. Paragraph (i) of § 529.2 is revised by adding the term "maintaining approved labor standards" following the word "industry" to make it consistent with paragraph (f) of § 529.8.

8. Paragraph (j) of § 529.2 is revised to eliminate the voluntary monitoring agency.

9. Section 529.2 is revised to change the lettering of paragraphs (k) and (l) to (j) and (k), respectively.

10. Paragraph (a) of § 529.4 is revised to emphasize the first sentence.

11. Paragraph (c) of § 529.4 is revised to eliminate the reference to a voluntary monitoring agency.

12. Paragraph (f) of § 529.4 is revised to eliminate the reference to a voluntary monitoring agency.

13. Paragraph (h) of § 529.4 is revised to require that each patient workers' work performance be reviewed at 3 months intervals during the first 6 months of the employment relationship and semiannually thereafter, and that the reviews be made by staff members who observe the patient workers being rated on a continuing basis and who are familiar with appropriate nonhandicapped production standards. A subsection on deductions for services is added as paragraph (i).

14. Section 529.5 is deleted, and the numbering of all subsequent sections and references appropriately revised.

15. Paragraph (c) of §529.6 which was incorrectly designated (a) is properly designated "c."

16. Paragraph (e) of § 529.6 is revised to eliminate the reference to a voluntary monitoring agency.

17. In paragraph (i) of §529.8, the text is revised to provide for oral as well as written notification. The notification requirement is expanded to include both written and oral notification and the type of notification is changed to the patient worker's rights under the Act. Previously, only written notification was required and the notification consisted of the applicable minimum wage and the terms of the certificate.

18. Section 529.10, on records to be kept, is revised to add a new paragraph (d) to require records be maintained of production standards for an average nonhandicapped worker for the jobs being performed by patient workers in the hospital or institution, and to change the lettering of paragraph (d) through (i) to (e) through (j).

19. Section 529.14 is revised to make it more definitive.

20. Section 529.15, issuance of certificates for experimental purposes, is revised to limit the issuance of certificates under this section to not more than 1 year.

21. A new section is added, "§ 529.17 Review of regulations.," requiring the Wage and Hour Division, in cooperation with the Advisory Committee on Sheltered Workshops, to undertake a review of the administration and enforcement of these regulations approximately six months after they become effective.

22. In the previous text all references to gender were masculine. The new text is revised to make reference to both the masculine and feminine gender where required.

23. In addition, certain typographical errors have been corrected.

Accordingly, with these changes and additions, the proposed amendments are adopted as set forth below. Since there will not be time for hospitals or institutions to file applications and for these applications to be acted upon by the Wage and Hour Division before the effective date of this part, an application received in the appropriate Regional Office of the Wage and Hour Division by March 9, 1975 will be considered timely filed permitting, on the effective date of this Part, the employment of patient workers at the subminimum wages proposed in the application by the hospital or institution without certificate. This allowance is conditional upon: (a) Compliance with the provisions of Part 529; and (b) provision for the payment of back wages to patient workers if a certificate is denied or the minimum wage set in the certificate is higher than that paid by the hospital or institution.

Signed at Washington, D.C., this 3d day of February 1975.

BERNARD E. DELURY,
Assistant Secretary,
Employment Standards Administration.

AUTHORITY: Sec. 14, 52 Stat. 1068, as amended (29 U.S.C. 214, unless otherwise noted).

§ 529.1 Statutory language and scope of regulations.

(a) The Fair Labor Standards Act as amended, among other things, makes provision for the employment of handicapped persons at subminimum wages under certificate. This provision is now designated as section 14(c) of the Act. It reads as follows:

(c)(1) Except as otherwise provided in paragraphs (2) and (3) of this subsection, the Secretary of Labor, to the extent necessary in order to prevent curtailment of opportunities for employment, shall by regulation or order provide for the employment under special certificates of individuals (including individuals employed in agriculture) whose earning or productive capacity is impaired by age or physical or mental deficiency or injury at wages which are lower than the minimum wage applicable under section 6 of this Act but not less than 50 per centum of such wage and which are commensurate with those paid nonhandicapped workers in industry in the vicinity for essentially the same type, quality, and quantity of work.

(2) The Secretary, pursuant to such regulations as he shall prescribe and upon certification of the State agency administering or supervising the administration of vocational rehabilitation services, may issue special certificates for the employment of—

(A) handicapped workers engaged in work which is incidental to training or evaluation programs, and

(B) multihandicapped individuals and other individuals whose earning capacity is so severely impaired that they are unable to engage in competitive employment, at wages which are less than those required by this subsection and which are related to the worker's productivity.

(3)(A) The Secretary may by regulation or order provide for the employment of handicapped clients in work activities centers under special certificates at wages which are less than the minimum applicable under section 6 of this Act or prescribed by paragraph (1) of this subsection and which constitute equitable compensation for such clients in work activities centers.

(B) For purposes of this section, the term "work activities centers" shall mean centers planned and designed exclusively to provide therapeutic activities for handicapped clients whose physical or mental impairment is so severe as to make their productive capacity inconsequential.

(b) Authority to promulgate the regulations and issue the certificates referred to in section 14(c) has been delegated by the Secretary to the Administrator of the Wage and Hour Division (Secretary's Orders 13–71 and 15–71 (36 FR 8755 and 8756)).

(c) Patient workers whose earning or productive capacity is not impaired shall be paid at least the statutory minimum wage. For patient workers whose earning or productive capacity is impaired to the extent that they are not able to earn the statutory minimum wage, the regulations in this Part 529 govern certificates authorizing special minimum wages for patient workers in hospitals and institutions for the sick, the aged, and the mentally ill or defective with the following exceptions which are governed by Parts 524 and 525 of this chapter, as appropriate:

(1) Patients of hospitals or institutions working for employers other than the hospital or institution.

(2) Patients working in sheltered workshops, including work activities centers, as defined in Part 525, operated by the hospital or institution.

§ 529.2 Definitions.

(a) "Administrator" means the Administrator of the Wage and Hour Division, U.S. Department of Labor, or the Administrator's authorized representative.

(b) "Patient worker" or "resident worker," hereafter referred to as "patient worker," means a sick, aged or mentally ill or defective individual who receives treatment or care by a hospital or institution, whether he or she is a resident or not, and has an employment relationship with such establishment, other than in a sheltered workshop program.

(c) "Hospital or institution," hereinafter referred to as "institution," is a public or private, nonprofit or profit facility primarily engaged in (i.e., more than 50 percent of the income is attributable to) providing residential care for the sick, the aged, or the mentally ill or defective, including but not limited to nursing homes, intermediate care facilities, rest homes, convalescent homes, homes for the elderly and infirm, halfway houses, residential centers for drug addicts or alcoholics, and the like, whether licensed or not licensed.

(d) "Employment relationship" generally arises whenever a patient is suffered or permitted to work. The total facts surrounding a given situation, other than those factors specifically excluded in this subsection, determine whether the test is satisfied. A major factor in determining whether or not an employment relationship exists under this Part is whether the work performed is of any consequential economic benefit to the institution. Generally, work shall be considered to be of consequential economic benefit if it is of the type that nonhandicapped workers normally perform, in whole or in part, in the institution or elsewhere. A patient does not, however, become an employee merely if he or she performs personal housekeeping chores, such as maintaining his or her own quarters, or receives a token remuneration for his or her services. Nor does the patient become an employee if engaged in such activities as making craft products, where the patient voluntarily engages in such activity and the products become the property of the patient making them, or the funds resulting from the sale of the products are divided among the patients participating in that program or are used for purposes of purchasing materials consumed in making the craft products. On the other hand, determination of an employment relationship does not depend on the level of performance of the patient or whether the work is of therapeutic value to the patient.

(e) "Evaluation and training" means a program, authorized pursuant to section 14(c)(2)(A) of the Act, which provides competent instruction and supervision and is designed to determine a working patient's potential and to teach adjustment to a work environment or the skills related to one or more types of work. The duration of the evaluation and training depends on the total facts of the situation, but in no case shall exceed 12 months. Time spent in an employment relationship in the institution prior to the effective date of these regulations shall be counted in determining the duration a patient worker is in evaluation and training. (Any workweek during which there was regular and recurrent engagement in work, even though small in amount, which gave rise to an employment relationship, shall be considered as a week spent in evaluation and training.)

(f) "Group minimum wage" means the minimum wage authorized pursuant to section 14(c)(1) of the Act which shall apply to all patient workers who have completed the evaluation and training program, if one has been authorized for the institution under this part (where no such program has been authorized, the group minimum wage applies immediately upon a patient's entering into an employment relationship with the institution), except for patient workers who are: Entitled to a commensurate wage higher than the group minimum wage; subject to an individual exception; or subject to a work activities center certificate, as defined in this part.

(g) "Individual exception" means authorization, pursuant to section 14(c)(2)(B) of the Act, to pay a particular patient worker whose earning or productive capacity is severely impaired less than the group minimum wage.

(h) "Work activities center" is an administrative classification given to a facility which has an approved program (other than a work activities center program as defined in Part 525), authorized pursuant to section 14(c)(3) of the Act, which is planned and designed exclusively to provide work activities for patients whose physical or mental impairment is so severe as to render their productive capacity inconsequential. The work activities shall be part of a recorded plan of therapy or care for such patients. Such activities need not, however, be restricted to a particular physical or program area of the institution, nor to a particular type of work. No program shall qualify for a work activities center certificate under this part unless the productive capacity of each individual in the program is so severely impaired as to make that person incapable of earning as commensurate pay at least 25 percent of the minimum wage under section 6 of the Act, and the patient workers are participating in the program as a part of planned therapy.

(i) "Commensurate pay" (the term used in these regulations) is intended to have the same meaning as "equitable compensation" and "wages related to the worker's productivity," which terms are used in the statute, and means wages which are commensurate with those paid nonhandicapped workers in the institution or in industry maintaining acceptable labor standards in the vicinity for essentially the same type, quality, and quantity of work. So for example, the commensurate pay of a patient worker who is 75 percent as productive, considering quality and quantity, as the average nonhandicapped worker performing essentially similar work in the institution would be at least 75 percent of the wage paid to such nonhandicapped worker.

(j) "State agency" means the agency within the State which administers or supervises the administration of vocational rehabilitation services in any State of the United States, the District of Columbia, or any territory or possession of the United States.

(k) "The Act" means the Fair Labor Standards Act of 1938, as amended.

§ 529.3 Advisory Committee on Sheltered Workshops.

(a) The Advisory Committee on Sheltered Workshops, appointed periodically by the Secretary of Labor, shall advise and make recommendations to the Administrator concerning the administration and enforcement of this part and the need for amendments thereto and for such other purposes as may be desired by the Administrator.

(b) The Administrator may consult with the Advisory Committee on Sheltered Workshops prior to any action taken under this part and may afford the Committee 15 days, or such additional time as may be allowed, to present its views. The Administrator may also afford the Committee an opportunity to present its views in connection with any petition for review filed, any hearing held, and any petition for amendment of these regulations, or any proposed legislation by the Secretary of Labor pertaining to the problems dealt with in these regulations.

§ 529.4 Wage payments.

(a) A patient worker whose earning or productive capacity is not impaired

XUM V40127 FEB 7 75 XUM

shall be paid at least the statutory minimum wage. A patient worker whose earning or productive capacity is impaired to the extent that the individual is unable to earn at least the statutory minimum wage may be paid a subminimum wage but only after a certificate authorizing payment of such lower wage has been obtained from the Wage and Hour Division.

(b) Four types of certificates authorizing subminimum wages are available for patient workers in institutions: Evaluation and training, group minimum wage, individual exception, and work activities center. All but the individual exception are group certificates. Under a group certificate, the program is certificated and not the individual patient worker. In the case of the individual exception, authority to pay a subminimum wage must be obtained for each individual.

(c) Evaluation and training: Patient workers subject to an evaluation and training certificate shall receive at least commensurate pay; no minimum wage guarantee is required unless the Administrator, shall determine it is in the best interest of the patient workers that a minimum wage guarantee be set.

(d) Group minimum wage: Patient workers subject to a group minimum wage certificate shall receive at least the minimum wage authorized in the certificate or commensurate pay, whichever is higher. The group minimum wage shall not be less, and may be more, than 50 percent of the minimum wage under section 6 of the Act.

(e) Individual exception: A patient worker subject to an individual exception shall receive not less than the minimum wage authorized in the individual exception certificate issued for that patient worker or commensurate pay, whichever is higher. An individual exception shall not be less, and may be more, than 25 percent of the minimum wage under section 6 of the Act.

(f) Work activities center: Patient workers subject to a work activities center certificate shall receive at least commensurate pay; no minimum wage guarantee is required unless the Administrator, shall determine it is in the best interest of the patient workers that a minimum wage guarantee be set.

(g) Compensable time for a patient worker starts when the individual begins to perform work involving an employment relationship.

(h) Each patient worker's work performance shall be reviewed by the institution at three month intervals during the first 6 months in an employment relationship, and at least every 6 months thereafter and his or her wages adjusted accordingly. The review shall relate the patient worker's quantity and quality of performance to that of nonhandicapped workers receiving the prevailing wage in the institution for similar work or work requiring similar skills. If similar work or work requiring similar skills is not performed by nonhandicapped workers in the institution the prevailing wage paid nonhandicapped workers in the vicinity in industry maintaining acceptable labor standards shall be used. The review shall be made by a staff member or members who observe the patient worker(s) being rated on a continuing basis and who are familiar with appropriate nonhandicapped production standards.

(i) No part of the minimum wage and overtime earned by a patient worker can be deducted for the cost of room, board or services. The patient worker must receive his or her wages free and clear, except for legal payroll deductions. It is not the intention of these regulations, however, to preclude the institution thereafter from assessing or collecting the reasonable cost of room, board and other services actually provided to a patient worker to the extent permitted by applicable Federal or State law and on the same basis as it assesses and collects from nonworking patients.

§ 529.5 Application for certificates.

(a) Application for a certificate for an evaluation and training program, a group minimum wage, an individual exception, or a work activities center may be filed by any institution with the Regional Office or Caribbean Director of the administrative region or area of the Wage and Hour Division, U.S. Department of Labor, in which the institution is located. Application forms may be obtained from the appropriate Office.

(b) An application for an evaluation and training certificate and for an individual exception certificate for payment of a wage below 50 percent of the minimum wage under section 6 of the Act shall also be filed with the State agency. Before the Wage and Hour Division can act on such an application, the State agency must certify that the evaluation and training program meets the standards defined in § 529.2 or, in the case of an individual exception, that the individual's earning capacity is so severely impaired that he or she is unable to earn at least 50 percent of the minimum wage under section 6 of the Act.

(c) An institution initially applying for a certificate, other than an individual exception certificate, which does not have the information called for in the application, may be issued a temporary certificate if it meets the requirements of, and provides assurance of compliance with, this Part.

(d) Application for an individual exception certificate may be filed at the time of applying for a group minimum wage certificate or during the life of the certificate. The application must show, among other things, that the patient worker is unable to earn the minimum wage authorized in the group minimum wage certificate.

(e) An application for an individual exception filed before the patient worker has completed evaluation and training shall be considered timely. In such case, if action on the application is not completed before the expiration of the evaluation and training period, the minimum wage requested in the application by the institution (not less than 25 percent of the minimum wage) shall be the interim minimum wage.

§ 529.6 Criteria for consideration in issuance of certificates.

The following criteria will be considered by the Administrator in determining the necessity of issuing a certificate or certificates and the conditions to be specified therein:

(a) The present and previous earnings of the patient workers.

(b) Whether the patient workers are receiving commensurate pay.

(c) The nature and extent of the disabilities of the patient workers and the degree to which these factors affect earning or productive capacity of the patient workers.

(d) Whether the conditions required for certification under this part have been met.

(e) Whether the certification by the State agency has been made in accordance with this part.

§ 529.7 Issuance of certificates.

(a) Upon consideration of criteria specified in § 529.6, the Administrator may issue a certificate or certificates, as appropriate.

(b) If a certificate is issued, a copy shall be sent to the institution. If denied, the institution shall be notified in writing of the denial and the reasons therefor.

(c) A group minimum wage certificate may be issued for the entire institution or a department or departments of the institution.

§ 529.8 Terms and conditions of certificates.

(a) A certificate shall specify the terms and conditions under which it is granted.

(b) A certificate shall apply to every patient worker in the program for which the certificate is granted.

(c) A certificate shall be effective for a period to be designated by the Administrator, generally for a period of 1 year. Patient workers may be paid wages lower than the statutory minimum only during the effective period of a certificate.

(d) A group minimum wage certificate shall set a special minimum wage of not less than 50 percent of the minimum wage under section 6 of the Act. An individual exception certificate shall set a special minimum wage not less than 25 percent of the minimum wage under section 6 of the Act.

(e) An evaluation and training certificate and a work activities center certificate need not set a special minimum wage other than that required by paragraph (f) of this section or provided for by § 529.4.

(f) All patient workers subject to a certificate shall be paid wages commensurate with those paid nonhandicapped workers in the institution in which they are patients or in the vicinity in industry maintaining acceptable labor standards for essentially the same type, quality,

and quantity of work, but not less than the certificate rate applicable if such a rate has been authorized.

(g) Patient workers shall be paid not less than one and one half times the regular rate for all hours worked in excess of the maximum workweek applicable under section 7 of the Act.

(h) No patient worker shall be newly-employed under a certificate issued under these regulations while abnormal labor conditions, such as a strike, a lock-out, or other similar condition, exist in the institution.

(i) Each patient worker and his or her parent or guardian shall be informed promptly, orally and in writing, of his or her rights under the Act.

(j) The terms of any certificate may be amended for cause, upon request of the institution, or a patient worker or his or her parent or guardian, or upon the initiative of the Administrator.

§ 529.9 Renewal of certificates.

(a) Application may be filed for renewal of any certificate.

(b) If an application for renewal has been properly and timely filed prior to the expiration date of a certificate, the certificate shall remain in effect until the application for renewal has been granted or denied.

(c) Patient workers may be paid wages less than the statutory minimum after notice that the application for renewal has been denied, if review of such denial is requested in accordance with § 529.12: *Provided, however,* That if the denial is affirmed on review, the institution shall reimburse any person covered by the certificate in an amount equal to the difference between the applicable minimum wage and any lower wage paid such person subsequent to the effective date of denial.

§ 529.10 Records to be kept.

Every institution shall maintain and have available for inspection by the Administrator records of:

(a) Disability, which show the nature of each patient worker's disability.

(b) Productivity, which show the productivity of each patient worker on a continuing basis or at periodic intervals as defined in § 529.4(h).

(c) Prevailing wage, which show the prevailing wages paid nonhandicapped workers in the institution or in industry in the vicinity for essentially similar work to that performed by the patient workers.

(d) Production standards for an average nonhandicapped worker for each job being performed by a patient worker in the institution (for use as a norm in measuring patient worker productivity.)

(e) When an evaluation and training program is authorized by certificate, records showing which patient workers are in the evaluation and training program, and the total period of time each worker has been in such a category.

(f) When an institution holds both a work activities center certificate and a group minimum wage certificate, records showing which patient workers are under each certificate.

(g) Records showing the patient workers for whom individual exceptions have been authorized.

(h) In addition, the records required under all the applicable provisions of Part 516 of this chapter.

(i) Every institution having patient workers who are entitled to benefits under the Act shall at all times display a poster, as prescribed by the Administrator, in a conspicuous place in the institution where it may be observed readily by the patient workers and other workers in the institution.

(j) Records required by this section shall be kept for the periods specified in Part 516 of this chapter.

§ 529.11 Cancellation of a certificate.

(a) The Administrator may cancel any certificate for cause. A certificate may be canceled (1) as of the date of issuance, if it is found that fraud has been utilized in obtaining the certificate or in permitting a patient worker to be employed thereunder; (2) as of the date of violation, if it is found that any of the provisions of the Act or of the terms of the certificate have been violated; or (3) as of the date of notice of cancellation, if it is found that the certificate is no longer necessary in order to prevent curtailment of opportunities for employment, or that the requirements of this part have not been complied with.

(b) If a petition for review is filed under § 529.12, the effective date of the cancellation shall be postponed until action is taken thereon: *Provided, however,* That if the cancellation order is affirmed on review, the institution shall reimburse any person covered by the certificate in an amount equal to the difference between the applicable minimum wage and any lower wage paid such person subsequent to the effective date of cancellation.

(c) Except in cases of willfulness or those in which the public interest requires otherwise, before any certificate shall be canceled, facts or conduct which may warrant such action shall be called to the attention of the institution in writing and it shall be afforded an opportunity to demonstrate or achieve compliance with all lawful requirements.

§ 529.12 Review.

Any person aggrieved by any action of an authorized representative of the Administrator taken pursuant to this part may, within 60 days or such additional time as the Administrator may allow, file with the Administrator a petition for review. Such review, if granted shall be made either by the Administrator or by an authorized representative who took no part in the action under review, who may, to the extent it is deemed appropriate, afford other interested persons an opportunity to present data and views.

§ 529.13 Submission of information, investigations, and hearings.

The Administrator may require at any time the submission of such information, other than that specified elsewhere in this part, as is deemed appropriate, or may conduct an investigation, which may include a hearing, prior to taking any action pursuant to this part. To the extent it is deemed appropriate, the Administrator may provide an opportunity to other interested persons to present data and views.

§ 529.14 Relation to other laws.

No provision of this part, or of any certificate issued under this part, shall excuse noncompliance with any other Federal or State law or municipal ordinance establishing higher standards.

§ 529.15 Issuance of certificates for experimental purposes.

In addition to the issuance of certificates as provided in §§ 529.1 to 529.14, the Administrator may authorize the issuance of certificates to permit employment of patient workers in institutions at less than the applicable minimum wage under section 6 of the Act as part of experimental programs to increase employment opportunities for such persons. Such certificates shall be issued in such types of cases and on such terms and conditions within the scope of section 14 of the Act as the Administrator shall determine will best further any such experimental programs. Certificates issued under this section shall be limited to an effective period of not more than 1 year.

§ 529.16 Amendment of this part.

The Administrator may at any time upon his or her own motion or upon written request of any interested person setting forth reasonable ground therefor, and after opportunity has been given to interested persons to present their views, amend or revoke any of the terms of this part.

§ 529.17 Review of regulations.

Approximately six months after the effective date of this part, the Wage and Hour Division will undertake a review of its program for administration and enforcement of this Part in cooperation with the Advisory Committee on Sheltered Workshops.

[FR Doc.75-3585 Filed 2-6-75;8:45 am]

CHAPTER XX—OCCUPATIONAL SAFETY AND HEALTH REVIEW COMMISSION

PART 2300—REGULATIONS IMPLEMENTING THE FREEDOM OF INFORMATION ACT

On pages 12, 13, and 14 of the FEDERAL REGISTER of January 2, 1975 (40 FR 12), notice was published of regulations proposed to be issued implementing the Freedom of Information Act as amended. Comment was invited thereon.

The period for submission of such comment ended on February 1, 1975, with only two comments being received from outside the Commission.

One questioned how trade secret materials in case files will be handled. This is a matter covered by 29 U.S.C. 654 and 29 CFR 2200.11. There is no need for the inclusion of any other provision in these regulations.

The other comment suggested the time limit of 10 days for appealing the denial of a request under these regulations was

XUM V40127 FEB 7 75 XUM

too restrictive and suggested a 30-day limit instead. That suggestion has been accepted. 10 has been changed to 30 in the seventh line of § 2300.7(d) as published.

With the noted change the proposed regulations are adopted as set forth below.

Effective date. This part becomes effective on February 7, 1975.

Sec.

2300.1 Purpose and scope.
2300.2 Description of agency.
2300.3 Delegation of authority.
2300.4 Information policy.
2300.5 Copies of records.
2300.6 Procedure for obtaining information.
2300.7 Processing requests.
2300.8 Maintenance of statistics.

AUTHORITY: Sec. 12(g), Pub. L. 91-596, 84 Stat. 1604 (29 U.S.C. 661(f)), 5 U.S.C. 552 as amended November 21, 1974 (Pub. L. 93-502).

Dated: February 3, 1975.

ROBERT D. MORAN,
Chairman.

§ 2300.1 Purpose and scope.

The purpose of the provisions of this Part is to provide procedures to implement the Freedom of Information Act, 5 U.S.C. section 552, as amended November 21, 1974 (Pub. L. 93-502). The following provisions are applicable only to such items of information as relate to the agency or are items within its custody. They are not applicable to the rights of parties appearing in adversary proceedings before the Commission to obtain discovery from an adverse party. Such matters are governed by the Commission's Rules of Procedure which are published at 29 CFR 2200.1 et seq.

§ 2300.2 Description of agency.

(a) The Occupational Safety and Health Review Commission (OSAHRC) adjudicates contested enforcement actions under the Occupational Safety and Health Act of 1970 (84 Stat. 1590, 29 U.S.C. 651-677). Decisions of the Commission on such actions are issued only after the parties to the case are afforded an opportunity for a hearing in accordance with section 554 of Title 5, United States Code. All such hearings are conducted by an OSAHRC Administrative Law Judge at a place convenient to the parties and are open to the public.

(b) Except insofar as its decisions or its Rules of Procedure may be so construed, the Review Commission does not issue substantive rules of general applicability, statements of general policy or interpretations of general applicability. The Rules of Procedure appear in 29 CFR Part 2200. The decisions are published by the U.S. Government Printing Office. See §§ 2300.4(c) and 2300.5(a).

§ 2300.3 Delegation of authority.

The Director of Information and Publications is delegated the exclusive authority to act upon all requests for information, documents and records which are received from any person or organization.

§ 2300.4 Information policy.

(a) Except for matters specifically excluded by section 552(b) of Title 5, United States Code or other applicable statute, all documents and records maintained by this agency or within the custody thereof shall be available to the public upon request filed in accordance with these regulations.

(b) Any person may examine and copy any such document or record of this agency (or within the custody thereof) under conditions prescribed by the Director of Information and Publications at any time during normal operating hours so long as it does not interfere with the trial or disposition of a pending case.

(c) All final OSAHRC decisions, of general applicability (including concurring and dissenting opinions) are published by the Superintendent of Documents, U.S. Government Printing Office, in a series of bound volumes known as *OSAHRC Reports*. The Director of Information and Publications will be responsible for supervising the continued publication of this series on a current basis.

(d) Indexes to such decisions will be published by the said Superintendent of Documents under the supervision of the Director of Information and Publications and shall be updated at least quarterly.

(e) It shall be the responsibility of the Director of Information and Publications to insure that the full text of all decisions of general applicability and comprehensive and accurate indexes thereto are published as expeditiously as possible and in accordance with this regulation.

§ 2300.5 Copies of records.

(a) Copies of documents or records of this agency, or within the custody thereof, or information respecting the time and place of hearings will be furnished to any person or organization requesting the same in accordance with these regulations, except for copies of decisions or indexes thereto which are contained in *OSAHRC Reports*. These publications are available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

(b) The Director of Information and Publications may charge a fee for searching for and copying such documents or records.

(1) The fee for copies shall be $.10 per copy per page.

(2) The search charge shall be $5.00 per hour.

(c) All charges may be waived or reduced whenever it is in the public interest to do so.

(d) Copies of documents (including the hearing transcript) which have been filed in an OSAHRC case which, at the time of the request therefor, is pending in any United States Court should be requested from such Court.

(e) Requests by parties for copies of transcripts of hearings, which are made by or on behalf of any party to such hearings, shall be made to the official hearing reporter. If such a party is given the opportunity to purchase the transcript from the official reporter but does not do so, the Director of Information and Publications will respond affirmatively to a request for a copy or copies of the same submitted by such party or representative but may charge for this service at a rate equal to that which would have been charged by the official reporter at the time such party was given the opportunity to purchase such transcript.

§ 2300.6 Procedure for obtaining information.

(a) All persons or organizations requesting any information from OSAHRC or any record or document of this agency (or in the custody thereof) shall submit such request in writing to the Director of Information and Publications, OSAHRC, 1825 K Street, NW, Washington, D.C. 20006.

(b) All such requests should be clearly and prominently identified as a request for information under the Freedom of Information Act, and if submitted by mail or otherwise submitted in an envelope or other cover, should be clearly and prominently identified as such on the envelope or other cover.

(c) If a request does not comply with the provisions of the preceding paragraph, it shall not be deemed received by OSAHRC until the time it is actually received by the Director of Information and Publications.

§ 2300.7 Processing requests.

(a) The Director of Information and Publications shall respond promptly to all requests for information or for copies of records or documents which are submitted in accordance with this regulation but in no event shall such response be furnished later than ten (10) working days following receipt of such request.

(b) A request that is expected to involve assessed fees in excess of $50.00 will not be deemed to have been received until the requester is advised of the anticipated cost and agrees to bear it.

(c) In the event any request for information or for a copy of any document or record is denied, the Director of Information and Publications shall, within 10 working days of the receipt of the request, notify the requester of the denial. Such denial shall specify the reason therefor and also advise that the denial may be appealed to the head of the agency as specified hereinafter.

(d) Whenever any request for information, or for a copy of any document or record is denied by the Director of Information and Publications, an appeal may be filed with the Chairman of the Occupational Safety and Health Review Commission within 30 working days after the requester receives notification that the request has been denied. The appeal shall be in writing and the Chairman shall respond to the same in accordance with section 552(a)(6) of Title 5, United States Code, and within the time period set forth therein.

(e) Any person in the employ of this agency who receives a request for any information, document or record of this agency or within the custody thereof shall advise the requester to address such request to the Director of Information and Publications. If the request so received is in writing it shall be immediately referred for action to the Director of Information and Publications.

§ 2300.8 Maintenance of statistics.

(a) The Director of Information and Publications shall maintain records of

(1) The total amount of fees collected by this agency pursuant to this part;

(2) The number of denials of requests for records made pursuant to this part and the reason for each;

(3) The number of appeals from such and spirit of section 552 of Title 5, United together with the reason(s) for the action upon each appeal that results in a denial of information;

(4) The name(s) and title(s) or position(s) of each person responsible for each denial of records requested and the number of instances of participation for each;

(5) The results of each proceeding conducted pursuant to section 552(a)(4)(F) of Title 5, United States Code, including a report of the disciplinary action against the official or employee who was primarily responsible for improperly withholding records or an explanation of why disciplinary action was not taken;

(6) A copy of every rule made by this agency affecting or in implementation of section 552 of Title 5, United States Code;

(7) A copy of the fee schedule for copies of records and documents requested pursuant to this regulation; and

(8) All other information which indicates efforts to administer fully the letter for such calendar year and shall forth-States Code.

(b) The Director of Information and Publications shall annually, within 60 days following the close of each calendar year, prepare a report covering each of the categories of records to be maintained in accordance with the foregoing President of the Senate for referral to with submit the same to the Speaker of the House of Representatives and the President of the Senate for referral to the appropriate committees of the Congress.

Title 41—Public Contracts and Property Management

CHAPTER 5A—FEDERAL SUPPLY SERVICE, GENERAL SERVICES ADMINISTRATION

PART 5A-1—GENERAL

Subpart 5A-1.73—Preparation and Distribution of Contract Documents

PURCHASE ORDER NUMBERING

This change to the General Services Administration Procurement Regulations (GSPR) revises the procedures for numbering of purchase orders.

Section 5A-1.7301-1 is revised as follows:

§ 5A-1.7301-1 Assigning purchase order numbers.

(a) *Applicability.* The purchase order numbering system prescribed below shall apply to all purchase orders issued by FSS except for those issued by the Special Programs Division (FPZ) of the Office of Procurement and the Contract Operations Division (FJM) of the Office of Property Management. FPZ may use the agency requisition number in lieu of a case number.

(b) *Composition of purchase order number.* The purchase order number shall be a four-group, hyphenated number, such as 6PN-E-A5439-2B, and composed of the following elements:

(1) *Prefix.* The prefix shall consist of a three-position code identifying the buying activity, buying office, and buying program, in that order. Example: The prefix "6PN" identifies Region 6, Procurement, nonstock program.

(2) *Type of order.* The type of order shall be shown by an alpha code, as applicable, from the codes listed in § 5A-76.320. Example: The letter "E" indicates that the case involves "export-nonstock-regular surcharge." If an order using a code which includes a surcharge is canceled and results in termination charges, the replacement order shall use the code "F" to indicate that no surcharge is applicable.

(3) *Basic case number.* The basic case number shall be the basic purchase order number; i.e., the number "A5439" illustrated above. The basic case number shall be a five-position series of alpha numeric designations within the range of A0001 through Z9999, excluding I, O, and Q. Numbers shall be assigned and controlled by each buying activity. The numbers shall begin with A0001 at the beginning of every other fiscal year. If additional numbers are needed above Z9999, five-digit numbers ranging from 00001 through 99999 shall be used.

(4) *Suffix.* The suffix shall consist of one or two positions. The first position shall be an alpha or numeric identifying the number of the order written against the case file. The first purchase order shall be number "-1" with subsequent purchase orders numbered sequentially through 9. If the number of purchase orders exceeds 9, additional orders shall be identified by alphabetical designations A through Z, except I, O, and Q; i.e., number "10" would be "A," number "11," "B," etc. The second position shall be an alpha, from A through Z, except I, O, and Q, to identify amendments to a purchase order. Example: In the example number shown in (b), above, the first position number "2" indicates that this is the second purchase order written against the case. The alpha code "B" shown in the second position of the suffix, indicates that this is the second amendment to the purchase order.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Effective date. These regulations are effective on the date shown below.

Dated: January 21, 1975.

M. J. TIMBERS,
Commissioner,
Federal Supply Service.

[FR Doc.75-3514 Filed 2-6-75;8:45 am]

CHAPTER 9—ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

PART 9-7—CONTRACT CLAUSES

PART 9-16—PROCUREMENT FORMS

Standard Clauses and Contract Forms

These revisions to the AECPR's are being made to make the Safety and Health Clause mandatory as to text and to provide an alternative clause for non-GOCO contracts where the RDA elects not to assert its statutory authority to prescribe general occupational safety and health standards.

1. In Part 9-7, the Table of Contents is revised as follows:

Subpart 9-7.50 Use of Standard Clauses

* * * * * *

9-7.5004-12 Safety and Health.

* * * * * *

9-7.5006-47 [Reserved]

* * * * * *

AUTHORITY: Sec. 161 of the Atomic Energy Act of 1954, as amended, 68 Stat. 948, 42 U.S.C. 2201; sec. 205 of the Federal Property and Administrative Services Act of 1949, as amended, 63 Stat. 390, 40 U.S.C. 486.

Subpart 9-7.50 Use of Standard Clauses

2. In Subpart 9-7.50, Use of Standard Clauses, § 9-7.5004-12, [Reserved], is revised as follows:

§ 9-7.5004-12 Safety and Health.

(a) The clause set forth herein shall be included in all contracts and subcontracts for, and be made applicable to, work to be performed at a government-owned contractor-operated (GOCO) facility where the Energy Research and Development Administration has elected to assert its statutory authority to enforce occupational safety and health standards applicable to the working conditions of contractor and subcontractor employees.

SAFETY AND HEALTH

The contractor shall take all reasonable precautions in the performance of the work under this contract to protect the safety and health of employees and of members of the public and shall comply with all applicable safety and health regulations and requirements (including reporting requirements) of the Commission. In the event that the contractor fails to comply with said regulations or requirements of the Commission, the Contracting Officer may, without prejudice to any other legal or contractual rights of the Commission, issue an order stopping all or any part of the work; thereafter a start order for resumption of the work may be issued at the discretion of the Contracting Officer. The contractor shall make no claim for an extension of time or for compensation or damages by reason of or in connection with such work stoppage.

XUM V40127 FEB 7 75 XUM

(b) The clause set forth herein shall be included in those contracts or subcontracts for, and be made applicable to, work to be performed at a facility where the Energy Research and Development Administration does not elect to assert its statutory authority to enforce occupational safety and health standards applicable to the working conditions of contractor and subcontractor employees, but does need to enforce radiological safety and health standards pursuant to provisions of the contract or subcontract rather than by reliance upon Energy Research and Development Administration licensing requirements (including agreements with states under section 274 of the Atomic Energy Act).

RADIATION PROTECTION AND NUCLEAR CRITICALITY

The contractor shall take all reasonable precautions in the performance of work under this contract to protect the safety and health of employees and of members of the public against the hazards of ionizing radiation and radioactive materials and shall comply with all applicable radiation protection and nuclear criticality safety standards and requirements (including reporting requirements) of the Commission. In the event that the contractor fails to comply with said standards and requirements of the Commission, the Contracting Officer may, without prejudice to any other legal or contractual rights of the Commission, issue an order stopping all or any part of the work; thereafter a start order for resumption of the work may be issued at the discretion of the Contracting Officer. The contractor shall make no claim for an extension of time or for compensation or damages by reason of or in connection with such work stoppage.

Subpart 9–7.5 Use of Standard Clauses

§ 9–7.5006–47 [Reserved]

3. In Subpart 9–7.50, Use of Standard Clauses, § 9–7.5006–47, Safety, health, and fire protection, is deleted and reserved as follows:

Subpart 9–16.4 Forms for Advertised Construction Contracts

4. In Subpart 9–16.4, Forms for Advertised Construction Contracts, § 9–16.404–50, ERDA authorized additions to Standard Form 19, paragraph (b) (1) is revised as follows:

§ 9–16.404–50 ERDA authorized additions to Standard Form 19.

• • • • • •

(b) • • •

(1) Safety and health (§ 9–7.5004–12).

• • • • • •

5. In Subpart 9–16.4, Forms for Advertised Construction Contracts, § 9–16.404–52, ERDA additions to Standard Form 23A General Provisions (Construction Contract) (October 1969 edition), paragraph (a) (23) is revised as follows:

§ 9–16.404–52 ERDA additions to Standard Form 23A General Provisions (Construction Contract) (October 1969 edition).

(a) • • •

23. Safety and health (§ 9–7.5004–12).

• • • • • •

Subpart 9–16.7 Forms for Negotiated Architect-Engineer Contracts

6. In Subpart 9–16.7, Forms for Negotiated Architect-Engineer Contracts, § 9–16.703–50, Terms, conditions, and provisions, paragraph 22 is revised as follows:

§ 9–16.703–50 Terms, conditions, and provisions.

• • • • • •

22. Safety and health (§ 9–7.5004–12).

• • • • • •

Subpart 9–16.50 Contract Outlines

7. In Subpart 9–16.50, Contract Outlines, § 9–16.5002–4, Outline of a cost-plus-a-fixed-fee-construction contract, Article XVI is revised as follows:

§ 9–16.5002–4 Outline of a cost-plus-a-fixed-fee-construction contract.

• • • • • •

Article XVI—*Safety and health.* Insert contract clause set forth in § 9–7.5004–12.

• • • • • •

8. In Subpart 9–16.50, Contract Outlines, § 9–16.5002–5, Outline of a cost-plus-a-fixed-fee architect-engineer contract, Article XVII is revised as follows:

§ 9–16.5002–5 Outline of a cost-plus-a-fixed-fee architect-engineer contract.

• • • • • •

Article XVII—*Safety and health.* Insert contract clause set forth in § 9–7.5004–12.

• • • • • •

9. In Subpart 9–16.50, Contract Outlines, § 9–16.5002–9, Outline of cost-type contract for research and development with educational institutions, Article B–17 is revised as follows:

§ 9–16.5002–9 Outline of cost-type contract for research and development with educational institutions.

• • • • • •

Article B–17 *Safety and Health.*

If applicable, include one or both of the clauses set forth in § 9–7.5004–12.

• • • • • •

Effective date. This amendment is effective January 28, 1975.

Dated at Germantown, Maryland this 17th day of January 1975.

For the Energy Research and Development Administration.

JOSEPH L. SMITH,
Director, Division of Contracts.

NOTE.—This document is republished from the issue of January 28, 1975 (40 FR 4146).

CHAPTER 14—DEPARTMENT OF THE TREASURY

PART 14–3—PROCUREMENT BY NEGOTIATION

Subpart 14–3.3—Determinations, Findings, and Authorities

Correction

In FR Doc. 74–30119 appearing at page 44980, in the issue of Monday, December 30, 1974, in the fourth line of § 14–3.305–15(1) the word now reading, "contracts" should read, "contractors".

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE INTERIOR

Office of the Secretary

[43 CFR Part 2]

FREEDOM OF INFORMATION ACT

Proposed Uniform Fee Schedule for Requests

The Department of the Interior is considering adoption of a uniform fee schedule for requests made under the Freedom of Information Act. The schedule will apply to all constituent units of the Department. The Department does not currently have a Department-wide schedule setting specific fees.

The uniform fee schedule is proposed to be added as Appendix A to Part 2 of Title 43, Code of Federal Regulations. The current appendix to this part will be designated Appendix B.

The uniform fee schedule is proposed to include fees to be charged for manual searches for records, for duplicating of records and for computer services involved in producing records. These services are the only services required to be performed in connection with requests under the Freedom of Information Act for which charges are permitted by section 1(b)(2) of the recent amendments to that Act, Pub. L. 93–502, 88 Stat. 1561, to be charged. The proposed fees to be charged are based on the direct costs of performing these services.

The uniform fee schedule contains two fees for manual searches for records. One fee is to be charged for searches which can be performed by clerical personnel. The other fee is to be charged for searches which require the services of professional employees.

The fee proposed to be charged for clerical searches, $1.10 for each quarter hour, is based on an average hourly salary drawn from 1974 salary figures for all employees in the secretarial and clerk-typist job series and employees in grades 1 through 6 of the general job series. These employees are the employees believed most likely to be called upon to conduct clerical searches.

The fee proposed to be charged for searches conducted by professional employees, $2.10 for each quarter hour, is based on the actual 1974 average hourly salary for all employees in the GS–7 to GS–14 grade range. Because of the great diversity of the Department, it was deemed not possible to attempt to base the fees on the salaries paid to employees in particular job categories within this grade range.

Two fees are also proposed for duplication of requested records. The basic duplication fee is for duplication of average records, that is, records not requiring special handling. The second fee is to be charged in unusual cases involving duplication of records which, because of their age require special handling.

The basic duplicating fee is proposed to be $0.25 for the first page of copy and $0.05 for each page of copy thereafter. The $0.05 per page charge is calculated on the following basis. Three cents of the charge covers duplicating machine operating costs. This figure is based on the actual cost per copy of operating duplicating machines currently in use by the Department of the Interior, excluding certain machines used for large-volume multi-copy duplicating jobs which would not ordinarily be used in duplicating records in response to Freedom of Information requests. One cent of the charge covers personnel costs involved in operating a duplicating machine and one cent covers supplies, such as paper and duplicating fluid. The $0.25 charge for the first copy is designed to cover miscellaneous start-up costs associated with making copies, such as the personnel time involved in changing the paper being used in the duplicating machine.

The fee for duplicating of documents requiring special handling, which is proposed to be $0.25 for the first page of copy and $0.10 for each page of copy thereafter is designed primarily to be charged in connection with duplication of very old land records and other old documents. While many of these documents can be duplicated on standard equipment, they are, because of their age, quite fragile and their duplication thus requires the investment of a substantially greater amount of personnel time.

Several fee levels are proposed to be charged for computer services involved in responding to Freedom of Information requests. These varying fee levels appear required because the direct costs of providing computer services vary greatly depending on the size and complexity of the computer hardware involved and the configuration of that hardware. An additional factor precluding the establishment of a single fee for computer services is that, while earlier generation computers can process only a single job at a time, permitting billing on the basis of a flat hourly rate, later generation computers can process several jobs simultaneously, thus necessitating more sophisticated billing systems.

The fee to be charged for certification of documents is established by a statute of particular applicability to the Department of the Interior. 43 U.S.C. 1460.

A final paragraph is contained in the fee schedule to allow a charge for unanticipated types of services or material required to be provided in connection with Freedom of Information requests.

The proposed fee schedule contains a paragraph indicating that the schedule will be in effect from February 19, 1975, to November 30, 1975. The purpose of this provision is to provide for revision of the schedule ultimately adopted in the light of initial experience under it.

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should be addressed to: Assistant Solicitor—General Legal Services, Office of the Solicitor, U.S. Department of the Interior, Washington, D.C. 20240. All comments received on or before February 14, 1975, will be considered before action is taken on the proposed fee schedule.

Comments received will be available for examination at: Room 6525, U.S. Department of the Interior, 18th and C Streets NW., Washington, D.C.

Pursuant to the authority vested in the Secretary of the Interior by 5 U.S.C. 301 and 552 and 43 U.S.C. 1460, Part 2 of Title 43 of the Code of Federal Regulations is proposed to be amended by redesignating the Appendix thereto as Appendix B and adding an Appendix A to read as follows:

APPENDIX A

FEES

The following uniform fee schedule is applicable to all constituent units of the Department. It states the fees to be charged to members of the public for services performed in locating and making available records or copies thereof in connection with requests made under the Freedom of Information Act. It also states the fees to be charged for certification of documents.

(1) *Copies, basic fee.* For copies of documents other than documents requiring special handling because of their age or unusual dimensions: $0.25 for the first page of copy, $0.05 for each page of copy thereafter.

(2) *Copies, documents requiring special handling.* For copies of documents which require special handling because of their age: $0.25 for the first page of copy, $0.10 for each page of copy thereafter.

(3) [Reserved].

(4) [Reserved].

(5) *Clerical searches.* For each quarter hour, or portion thereof, spent by clerical personnel in locating a requested record or records: $1.10.

(6) *Nonclerical searches.* For each quarter hour, or portion thereof, spent by professional or managerial personnel in locating a requested record or records where the search cannot be performed by clerical personnel: $2.10.

(7) [Reserved].

(8) Certification. For each certificate of verification attached to authenticated copies of records furnished to the public: $0.25.

XUM
V40-27
FEB 7 75
XUM

(9) [Reserved].

(10) *Computerized records, computer time charges.* For services in processing requests for records maintained in computerized form (includes personnel cost):

(a) CDC 6500

(i) Batch use, central processing unit per hour, $160.00.

(ii) Batch use, Input/Output, per hour, $138.00.

(iii) Remote Terminals, central processing unit, per hour, $160.00.

(iv) Remote Terminals, Input/Output, per hour, $350.00.

(v) Remote Terminals, connect time, per hour, $5.00.

(vi) Plotters, $24.00.

(b) Burroughs 5500

(i) Computer time, per hour, $66.00.

(c) CYBER 74–28

(i) Central Memory, kiloword hour, $10.53.

(ii) Extended Core Storage, kiloword hour, $5.92.

(iii) Mass Storage, Input/Output, per 1000 physical records, $0.07.

(iv) Central processor, per second, $0.10.

(v) Magnetic Tape, Input/Output, per 1000 physical records, $3.01.

(vi) Card Input, per 1000 cards, $0.85.

(vii) Card Output, per 1000 cards, $11.75.

(viii) Printer, per 1000 lines, $0.66.

(ix) Interactive Terminal, connect time, per hour, $3.60.

(d) IBM 1130

(i) Computer time, per hour, $25.00.

(e) IBM 1620

(i) Computer time, per hour, $15.00.

(f) NCR 200

(i) In house batch, per hour, $19.00.

(ii) Remote batch, per hour, $22.00.

(g) DEC 1070

(i) *Basic charge for batch processing.* $4.00 per job plus $2.16 per 1000 disk accesses plus $260.00 per hour central processor charge.

(ii) *Core use charge.* In addition to the basic charges, a core use charge is added to each job. This charge is computed using the following formula: CPU Charge under aragraphm (i) multiplied by Words of Core, divided by 25,000.

(iii) *Terminal Access by COPE 1200.* Basic DEC 1070 charges plus $1.00 per job plus $20.00 per COPE 1200 machine resource unit, defined as follows: Lines printed, divided by 18,333, plus cards read, divided by 5,556, plus cards punched, divided by 2,500.

(iv) *Terminal access by Data 110 Model 78.* Basic DEC 1070 charges plus $1.00 per job plus $20.00 per model 78 machine resource unit, defined as follows: Lines printed, divided by 12,300, plus cards read, divided by 7,000, plus cards punched, divided by 4,500.

(v) The basic batch processing charge in paragraph (i) is based on highest priority use of the computer. Unless otherwise requested, Freedom of Information requests shall be processed on this basis. If the requester so specifies, a request will be processed on the following basis: $2.00 per job plus $1.26 per 1000 disk accesses plus $260.00 per hour central processor charge.

(h) IBM 360/65 and 370/155.

(i) *Basic charge for batch processing.* $16.00 per job plus $33.03 per 1000 tape access plus $11.01 per 1000 disk accesses plus $3.67 per 1000 drum accesses plus $1320.00 per hour central processor charge.

(ii) *Core use charge.* (A) If in any Job Step the amount of core reserved exceeds the amount of core used by more than 20K, the basic charges are increased for every Job Step by 1% for each 1K of such excess core reserved. If the excess condition exists in more than one Job Step, the maximum excess is applied to the charges for all Job Steps. The minimum charge is $10.00.

(iii) The basic batch processing charge in paragraph (i) is based on highest priority use of the computer. Unless otherwise requested, Freedom of Information requests shall be processed on this basis. If the requester so specifies, a request will be processed on any one of seven lower priority bases. The charge for each priority basis is as follows:

(A) *Priority A.* $7.50 per job plus $21.96 per 1000 tape accesses plus $7.32 per 1000 disk accesses plus $2.44 per 1000 drum accesses plus $880.00 per hour central processor charge.

(B) *Priority B and C.* $3.00 plus $10.98 plus $3.66 plus $1.22 plus $440.00 per hour central processor charge.

(C) *Priority D and E.* $1.50 plus $5.48 plus $2.50 plus $0.72 plus $260.00 per central processor charge.

(D) *Priority F.* $1.00 plus $3.24 plus $1.08 plus $0.36 plus $130.00 per central processor charge.

(11) *Computerized records, materials.* For materials used in processing requests for records maintained in computerized form:

(a) Paper. $7.00 per 1000 sheets.

(b) Cards. $1.50 per 1000 cards.

(12) [Reserved]

(13) [Reserved]

(14) *Other services.* When a response to a request requires services or materials other than the common ones described in this schedule, the direct cost of such services or materials to the Government may be charged, but only if the requester has been notified of such cost before it is incurred.

(15) *Effective dates.* This schedule applies to all requests made under the Freedom of Information Act between February 19, 1975 and November 30, 1975, inclusive.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

FEBRUARY 4, 1975.

CATTLE DESTROYED BECAUSE OF TUBERCULOSIS

Proposed Tuberculosis Indemnity Regulations

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that, pursuant to the provisions of sections 3, 4, 5, 11 and 13 of the Act of May 29, 1884, as amended, sections 1 and 2 of the Act of February 2, 1903, as amended, section 3 of the Act of March 3, 1905, as amended, and section 3 of the Act of July 2, 1962 (21 U.S.C. 111–113, 114, 114a, 114a–1, 120, 121, 125, and 134b), regulations to appear in a new Part 50 designated "Animals Destroyed Because of Tuberculosis" in Title 9, Code of Federal Regulations, are proposed to be issued to read as follows:

Statement of considerations. The purpose of this regulation is to separate indemnity regulations relating to cattle destroyed because of tuberculosis from those which relate to cattle destroyed because of brucellosis, thus establishing a separate set of indemnity regulations for each disease; to provide for the payment of indemnity for steers and nonregistered bulls affected with tuberculosis and for certain cattle which have been exposed to that disease; to provide for the independent appraisal of cattle destroyed; to provide alternate means of identifying tuberculosis exposed cattle being transported; to provide an alternate means of destroying tuberculosis affected cattle; to provide liberalized criteria for requiring cleaning and disinfection of tuberculosis infected and exposed premises and to limit extension of time periods provided for the removal of reactors and the cleaning and disinfection of tuberculosis infected and exposed premises.

It is proposed to add Part 50 to read as follows:

PART 50—ANIMALS DESTROYED BECAUSE OF TUBERCULOSIS

Sec.
50.1 Definitions.
50.2 Cooperation with States.
50.3 Payment to owners for cattle destroyed.
50.4 Determination of existence of or exposure to tuberculosis.
50.5 Record of tests.
50.6 Identification of cattle to be destroyed because of tuberculosis.
50.7 Destruction of cattle.
50.8 Payment of expenses for disposal of carcasses.
50.9 Appraisals.
50.10 Report of appraisals.
50.11 Report of salvage proceeds.
50.12 Claims for indemnity.
50.13 Disinfection of premises, conveyances, and materials.
50.14 Claims not allowed.
50.15 Part 53 of this chapter not applicable.

§ 50.1 Definitions.

For the purposes of this part, the following terms shall be construed, respectively, to mean:

(a) "Department": The United States Department of Agriculture.

(b) "Veterinary Services": Veterinary Services, Animal and Plant Health Inspection Service, USDA.

(c) "Deputy Administrator": The Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, USDA, or any other Veterinary Services official to whom authority has heretofore been delegated or may hereafter be delegated to act in his stead.

(d) "Veterinarian in Charge": The veterinary official of Veterinary Services, Animal and Plant Health Inspection Service, USDA, who is assigned by the Deputy Administrator to supervise and perform official animal health work of the Animal and Plant Health Inspection Service in the State concerned.

(e) "Veterinary Services Representative": A veterinarian or other person employed by Veterinary Services, Animal and Plant Health Inspection Services, USDA, in animal health activities who is authorized to perform the function involved.

(f) "State": A State, the District of Columbia, or a territory or possession of the United States; or a political subdivision thereof; which has executed a cooperative agreement with Veterinary Services, Animal and Plant Health Inspection Service, USDA, for the control and eradication of tuberculosis.

(g) "Accredited Veterinarian": An accredited veterinarian as defined in Part 160 of this chapter.

(h) "Mortgage": Any mortgage, lien or other security or interest that is recorded under State law or identified in the indemnity claim form filed under § 50.12 and held by any person other than the one claiming indemnity.

(i) "Person": Any individual, corporation, company, association, firm, partnership, society, or joint stock company, or any organized group of any of the foregoing.

(j) "Owner": Any person who has a legal or rightful title to cattle whether or not they are subject to a mortgage.

(k) "Destroyed": Condemned under State authority and destroyed by slaughter or by death otherwise.

(l) "Animals": Any mammalian species which may serve as a carrier or reservoir of tuberculosis.

(m) "Herd": Any group of animals (of like kind) maintained on common ground for any purpose, or two or more groups of animals (of like kind) under common ownership or supervision, geographically separated but which have an interchange or movement of cattle without regard to health status.

(n) "Herd Depopulation": Removal by slaughter or other means of destruction of all cattle in a herd or from specific premises or under common ownership prior to restocking with new animals.

(o) "Registered Cattle": Cattle for which individual records of ancestry are recorded and maintained, and for which individual registration certificates are issued and recorded by a recognized breed association whose purpose is the improvement of the breed.

(p) "Permit": A permit for movement of cattle direct to slaughter listing the disease, status and identification of the animal, where consigned, cleaning and disinfecting requirements, and proof of slaughter certification.

§ 50.2 Cooperation with States.

The Deputy Administrator has been delegated the authority to cooperate with the proper State authorities in the eradication of tuberculosis and to pay Federal indemnities for the destruction of cattle affected with or exposed to tuberculosis.

§ 50.3 Payment to owners for cattle destroyed.

(a) *Affected cattle.* The Department may pay owners an indemnity for cattle affected with tuberculosis not to exceed 90 percent of the difference between the appraised value of each animal so destroyed and the net salvage received by the owner; *Provided*, That no such payment may exceed $350 for each animal, *And provided, further*, That any joint State-Federal indemnity payment, plus salvage, does not exceed the appraised value of each animal.

(b) *Herd depopulation—cattle.* The Deputy Administrator has been delegated the authority to authorize the payment of Federal indemnity to owners of cattle destroyed because of tuberculosis not to exceed $100 for any nonregistered animal or $200 for any registered animal[1] which has been found to be exposed, is a part of a known infected herd, and when it has been determined by the Deputy Administrator that the destruction of all the cattle in the herd will contribute to the tuberculosis eradication program: *Provided*, That the joint State-Federal indemnity payment, plus salvage, does not exceed the appraised value of each animal.

(c) *Exposed cattle.* The Deputy Administrator has been delegated the authority to authorize the payment of Federal indemnity to owners of cattle destroyed because of tuberculosis not to exceed $100 for any nonregistered animal or $200 for any registered animal[1] which has been found to have been exposed by reason of association with tuberculosis cattle, and when it has been determined by the Deputy Administrator that the destruction of such exposed cattle will contribute to the tuberculosis eradication program: *Provided*, That the joint State-Federal indemnity payment, plus salvage, does not exceed the appraised value of each animal.

[1] Cattle presented for appraisal as registered shall be accompanied by their registration papers, or shall be paid for as nonregistered: *Provided, however*, That if the registration papers are temporarily not available or if the cattle are less than 3 years old and unregistered, the appropriate Veterinarian in Charge may grant a reasonable time for the presentation of their registration papers.

§ 50.4 Determination of existence of or exposure to tuberculosis.

(a) Cattle are classified as affected with tuberculosis on the basis of an intradermal tuberculin test or other test approved by the Deputy Administrator applied by a Federal, State or accredited veterinarian.

(b) Cattle are classified as exposed to tuberculosis when such animals are: (1) Part of a known infected herd qualifying for indemnity under § 50.3(b), or (2) found to have been exposed, having been part of a herd before infection was introduced prior to movement to the present premises and qualifying for indemnity under § 50.3(c), or (3) found to have been exposed by virtue of nursing a reactor dam and qualifying for indemnity under § 50.3(c): *Provided*, That cattle classified as exposed to tuberculosis shall be removed direct to slaughter.

§ 50.5 Record of tests.

When any animal in a herd of cattle is classified by a Veterinary Services or State representative or accredited veterinarian as a reactor to a test for tuberculosis, a complete test record shall be made for such herd, including the reactor tag number of each reacting animal and the registration name and number of each reacting registered animal. A form acceptable to Veterinary Services shall be used for the record of any herd having any reactor to a tuberculin test. A copy of the applicable test record shall be given to the owner of any such herd, and one copy of each such record shall be furnished to the appropriate State veterinarian's office.

§ 50.6 Identification of cattle to be destroyed because of tuberculosis.

Cattle to be destroyed because of tuberculosis must be identified within 15 days after being classified as reactors or otherwise condemned because of tuberculosis, except that the appropriate Veterinarian in Charge, for reasons satisfactory to him, may extend the time limit for identification to 30 days when request for such extension is received by him prior to the expiration date of the original 15-day period allowed.

(a) *Reactor cattle.* Reactor cattle shall be identified by branding the letter "T" on the left jaw not less than 2 nor more than 3 inches high and by tagging with an approved metal eartag bearing a serial number and inscription "U.S. Reactor" or a similar State reactor tag suitably attached to the left ear of each animal.

(b) *Exposed cattle.* Exposed cattle shall be identified by branding the letter "S" on the left jaw not less than 2 nor

XUM V40127 FEB 7 75 XUM

more than 3 inches high and by tagging with an approved metal tag bearing a serial number attached to the left ear of each animal; *Provided, however,* That they may be accompanied to slaughter by a Veterinary Services or State representative; or be shipped in vehicles closed with officials seals.

§ 50.7 Destruction of cattle.

(a) Cattle to be destroyed because of tuberculosis must be shipped direct to slaughter under permit to a Federal or State inspected slaughtering establishment or be disposed by of rendering, burial, or burning in an approved manner under supervision of a Department or State employee.

(b) *Time limit for destruction of cattle.* Cattle for which Federal indemnity may be paid because of tuberculosis must be destroyed and carcass disposal completed within 15 days after the date of appraisal, except that the appropriate Veterinarian in Charge, for reasons satisfactory to him, may extend the time limit for slaughter to 30 days when request for such extension is received by him prior to the expiration of the original 15-day period allowed.

§ 50.8 Payment of expenses for disposal of carcasses.

When slaughter of cattle affected with or exposed to tuberculosis at approved slaughtering establishments is not possible or practical, the Department may pay, when approved in writing by the Veterinarian in Charge, one-half the expenses for destruction, burial, incineration, rendering, or otherwise disposing of such cattle and one-half the expenses of transportation of such animals to the point where such disposal shall take place. Claims for such payment shall be made on forms furnished by Veterinary Services and shall be signed by a Veterinary Services or State representative or jointly and by the owner certifying his acceptance of the amount claimed. No charges for expenses of disposal or trucking by the owner shall be paid by the Department.

§ 50.9 Appraisals.

Cattle. Cattle to be destroyed because of tuberculosis under § 50.3 (a), (b), or (c) shall be appraised by a Veterinary Services or State representative, or independent professional appraiser at Veterinary Services expense where the Veterinarian in Charge deems necessary. When thus appraised, due consideration shall be given to their breeding value as well as to their dairy or meat value. Cattle presented for payment as registered shall be accompanied by their registration papers, or shall be paid for as nonregistered: *Provided, however,* That if the registration papers are temporarily not available or if the cattle are less than 3 years old and unregistered, the appropriate Veterinarian in Charge may grant a reasonable time for the presentation of their registration papers. The appraiser shall be responsible for their verification. Veterinary Services may decline to accept any appraisal that appears to be unreasonable or out of proportion to the market value of cattle of like quality.

§ 50.10 Report of appraisals.

Appraisals of cattle made in accordance with § 50.9 shall be recorded on forms furnished by Veterinary Services. The appraisal form shall be signed by the appraiser and by the owner certifying his acceptance of the appraisal. The "date of appraisal" shall be the date that the owner signs the appraisal form. The original of the appraisal form and as many copies thereof as may be required for Veterinary Services, the State, and the owner of the animals shall be sent to the appropriate Veterinarian in Charge.

§ 50.11 Report of salvage proceeds.

A report of the salvage derived from the sale of each animal on which a claim for indemnity may be made under the provisions of § 50.3 shall be made on a salvage form acceptable to Veterinary Services which shall be signed by the purchaser or his agent or by the selling agent handling the animals. If the cattle are sold by the pound, the salvage form shall show the weight, price per pound, gross receipts, expenses if any, and net proceeds. If the cattle are not sold on a per pound basis, the net purchase price of each animal must be stated on the salvage form and an explanation showing how the amount was arrived at must be submitted. In the event the animals are not disposed of through regular slaughterers or through selling agents, the owner shall furnish, in lieu of the salvage form, an affidavit showing the amount of salvage obtained by him and shall certify that such amount is all that he has received or will receive as salvage for said animals. In an emergency, a certificate executed by the appropriate Veterinarian in Charge will be acceptable in lieu of the owner's affidavit. The salvage shall be considered to be the net amount received for an animal after deducting freight, truckage, yardage, commissions, slaughtering charges, and similar costs. The original of the salvage form or the affidavit of the owner or certificate of the appropriate Veterinarian in Charge, furnished in lieu thereof, shall be furnished to the Veterinarian in Charge if it is not already in his possession. Additional copies may be furnished to the State officials, if required. Destruction of animals by burial, burning, or other disposal of carcasses shall be supervised by a Veterinary Services or State representative who shall prepare and transmit to the Veterinarian in Charge a report identifying the animals and showing the disposition thereof.

§ 50.12 Claims for indemnity.

Claims for Federal indemnity for cattle destroyed because of tuberculosis shall be presented on indemnity claim forms furnished by Veterinary Services, on which the owner of the animals covered thereby shall certify that the animals are or are not, subject to any mortgage as defined in this part. If the owner states there is a mortgage, the Veterinary Services indemnity claim form shall be signed by the owner and by each person holding a mortgage on the animals consenting to the payment of any indemnity allowed to the person specified thereon. Payment will be made only if the Veterinary Services indemnity claim form has been approved by a proper State official and if payment of the claim has been recommended by the appropriate Veterinarian in Charge or an official designated by him. On claims for indemnity made under the provisions of § 50.3, the Veterinarian in Charge or official designated by him shall record on the Veterinary Services indemnity claim form the amount of Federal and State indemnity payments that appear to be due to the owner of the animals. The owner of the animals shall be furnished a copy of the Veterinary Services indemnity claim form. The Veterinarian in Charge or official designated by him shall then forward the Veterinary Services indemnity claim form to the appropriate official for further action on the claim. No charges for holding the cattle on the farm pending slaughter or for trucking by the owner shall be so deducted or otherwise paid by the Department.

§ 50.13 Disinfection of premises, conveyances, and materials.

All premises, including all structures, holding facilities, conveyances, or materials which are determined by the appropriate Veterinarian in Charge to constitute a health hazard to humans or animals because of tuberculosis shall be properly cleaned and disinfected, in accordance with procedures approved by the Department, within 15 days after the removal of tuberculosis affected or exposed cattle except that the Veterinarian in Charge, for reasons satisfactory to him, may extend the time limit for disinfection to 30 days when request for such extension is received by him prior to the expiration date of the original 15-day period allowed.

§ 50.14 Claims not allowed.

Claims for compensation for cattle destroyed because of tuberculosis shall not be allowed if any of the following circumstances exist:

(a) If the claimant has failed to comply with any of the requirements of this part.

(b) If any part of the claimants' herd has not been tested for tuberculosis under Veterinary Services or State supervision.

(c) If there is substantial evidence that the owner or his agent has in any way been responsible for any attempt unlawfully or improperly to obtain indemnity funds for such animals.

(d) If at the time of test or condemnation, the cattle belonged to or were upon the premises of any person to whom they had been sold, shipped, or delivered for slaughter unless or until all of the cattle remaining on the premises or in the herd from which the tested or condemned cattle originated are tested or otherwise examined for tuberculosis in a manner satisfactory to the Deputy Administrator or his designated representative.

(e) If the cattle affected with tuberculosis have been added to the herd while the herd was under quarantine for tuberculosis.

§ 50.15 Part 53 of this chapter not applicable.

No claim for Federal indemnity for cattle destroyed because of tuberculosis shall hereafter be paid under the regulations contained in Part 53 of this chapter, but all such claims shall be presented and paid pursuant to and in compliance with the regulations contained in this part.

Any person who wishes to submit written data, views or arguments concerning this proposed regulation may do so by filing them with the Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Hyattsville, Maryland 20782 before March 12, 1975.

All written submissions made pursuant to this notice will be made available for public inspection at the Federal Building, 6505 Belcrest Road, Room 870, Hyattsville, Maryland 20782, during regular hours of business (8 a.m. to 4:30 p.m., Monday to Friday, except holidays) in a manner convenient to the public business (7 CFR 1.27(b)).

Comments submitted should bear a reference to the date and page number of this issue in the FEDERAL REGISTER.

Done at Washington, D.C., this 4th day of February, 1975.

J. M. HEJL,
Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

CATTLE DESTROYED BECAUSE OF BRUCELLOSIS

Proposed Brucellosis Indemnity Regulations

Notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that, pursuant to the provisions of sections 3, 4, 5, 11, and 13 of the Act of May 29, 1884, as amended, sections 1 and 2 of the Act of February 2, 1903, as amended, section 3 of the Act of March 3, 1905, as amended, and section 3 of the Act of July 2, 1962 (21 U.S.C. 111–113, 114, 114a, 114a–1, 120, 121, 125, and 134b), it is proposed that the heading for Part 51 be amended to read as set forth above and that Part 51, Title 9, Code of Federal Regulations, be amended to read as follows: (Proposed regulations, to appear as a new Part 50, relating to cattle destroyed because of tuberculosis are being simultaneously issued).

Statement of considerations. The purpose of this amendment is to clarify existing authority for the payment of brucellosis indemnity for cattle destroyed when certain herds are depopulated; to require appraisal of brucellosis exposed cattle for which indemnity is authorized; to provide for the payment of indemnity for nonregistered bulls destroyed; and to limit the extension of the 15-day periods for identification of reactors, destruction of infected and exposed cattle, and the cleaning and disinfection of infected and exposed premises, to an additional 15-day period.

Sec.
51.1 Definitions.
51.2 Cooperation with States.

AUTHORITY: Secs. 3, 4, 5, 11 and 13, Act of May 29, 1884; secs. 1 and 2, Act of Feb. 2, 1903; sec. 3, Act of Mar. 3, 1905 (21 U.S.C. 111–113, 114, 114a, 114a–1, 120, 121, 125, 134b).

§ 51.1 Definitions.

For the purposes of this part, the following terms shall be construed respectively, to mean:

(a) "Department": The United States Department of Agriculture.

(b) "Veterinary Services": Veterinary Services, Animal and Plant Health Inspection Service, USDA.

(c) "Deputy Administrator": The Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, USDA, or any other Veterinary Services official to whom authority has heretofore lawfully been delegated or may hereafter be delegated to act in his stead.

(d) "Veterinarian in Charge": The Veterinary official of Veterinary Services, Animal and Plant Health Inspection Service, USDA, who is assigned by the Deputy Administrator to supervise and perform official animal health work of the Animal and Plant Health Inspection Service in the State concerned.

(e) "Veterinary Services Representative": A veterinarian or other person employed by Veterinary Services, Animal and Plant Health Inspection Service, USDA, in animal health activities who is authorized to perform the function involved.

(f) "State": A State, the District of Columbia, or a territory or possession of the United States; or a political subdivision thereof; which has executed a cooperative agreement with Veterinary Services, Animal and Plant Health Inspection Service, USDA, for the control and eradication of brucellosis.

(g) "Accredited Veterinarian": An accredited veterinarian as defined in Part 160 of this chapter.

(h) "Mortgage": Any mortgage, lien or other security or interest that is recorded under State law or identified in the indemnity claim form filed under § 51.11 and held by any person other than the one claiming indemnity.

(i) "Person": Any individual, corporation, company, association, firm, partnership, society, or joint stock company, or any organized group of any of the foregoing.

(j) "Owner": Any person who has a legal or rightful title to cattle whether or not they are subject to a mortgage.

(k) "Destroyed": Condemned under State authority and destroyed by slaughter or by death otherwise.

(l) "Official vaccinate": A female bovine animal vaccinated subcutaneously against brucellosis while from 3 to 6 months (90 to 179 days) of age or a female bovine animal of a beef breed vaccinated subcutaneously against brucellosis while from 3 to 10 months (90 to 299 days) of age, under the supervision of a Federal or State veterinary official, with a vaccine approved by Veterinary Services, permanently identified as an official vaccinate; and reported at the time of vaccination to the appropriate State or Federal agency cooperating in the eradication of brucellosis: *Provided, however,* That a bovine animal vaccinated prior to July 1, 1972, in accordance with the existing definition of an official vaccinate as set forth in this part at the time of vaccination, shall be deemed to be an official vaccinate.

(m) "Herd": Any group of animals (of like kind) maintained on common ground for any purpose, or two or more groups of animals (of like kind) under common ownership or supervision, geographically separated but which have an interchange or movement of animals without regard to health status.

(n) "Herd depopulation": Removal by slaughter or other means of destruction of all cattle in a herd or from a specific premises or under common ownership prior to restocking with new animals, except that steers and spayed heifers maintained for feeding purposes may be retained on the premises if the Veterinarian in Charge finds such retention to be compatible with eradication efforts.

(o) "Registered cattle": Cattle for which individual records of ancestry are recorded and maintained, and for which individual registration certificates are issued and recorded by a recognized breed association whose purpose is the improvement of the breed.

(p) "Permit": A permit for movement of animals direct to slaughter listing the disease, status and identification of the animal, where consigned, cleaning and disinfecting requirements, and proof of slaughter certification.

§ 51.2 Cooperation with States.

The Deputy Administrator has been delegated the authority to cooperate with the proper State authorities in the eradication of brucellosis and to pay indemnities for the destruction of cattle affected with or exposed to brucellosis.

XUM
V40127
FEB 7 75
XUM

§ 51.3 Payment to owners for cattle destroyed.

(a) *Affected cattle.* Owners of cattle destroyed which are affected with brucellosis may be paid an indemnity by the Department not to exceed $50 for any grade animal or $100 for any registered animal,[1] except in Alaska, Hawaii, Puerto Rico, and Virgin Islands where no payment for any animal destroyed shall exceed $100. Appraisals and reports of salvage are not required. Proof of slaughter is required. Post-mortem reports will be accepted as proof of slaughter.

(b) *Herd depopulation.* The Deputy Administrator has been delegated the authority to authorize the payment of Federal indemnity to owners whose cattle are destroyed because of brucellosis not to exceed $50 for any nonregistered animal or $100 for any registered animal which has been found to be exposed, is a part of a known infected herd, and when it has been determined by the Deputy Administrator that the destruction of all cattle in the herd will contribute to the brucellosis eradication program. Proof of slaughter, appraisals, and reports of salvage are required. Post-mortem reports will be accepted as proof of slaughter. The joint State-Federal indemnity payment plus salvage may not exceed the appraised value of each animal.

(c) *Exposed cattle.* The Deputy Administrator has been delegated the authority to authorize the payment of Federal indemnity to owners for cattle destroyed because of brucellosis not to exceed $50 for any nonregistered animal or $100 for any registered animal which has been found to be exposed by reason of previous association with brucellosis affected cattle and it has been determined by the Deputy Administrator that the destruction of such exposed cattle will contribute to the brucellosis eradication program. Proof of destruction, appraisals, and reports of salvage are required. Post-mortem reports will be accepted as proof of slaughter. The joint State-Federal indemnity payment plus salvage may not exceed the appraised value of each animal.

§ 51.4 Determination of existence of or exposure to brucellosis.

Cattle are classified as affected with brucellosis on the basis of an agglutination or other test approved by the Deputy Administrator, applied by a Veterinary Services, State, or accredited veterinarian or by a nonveterinary technician under the supervision of a Veterinary Services or State veterinarian. Cattle are classified as exposed to brucellosis that are part of a known infected herd or that have been in contact with brucellosis infected cattle in marketing channels for periods of 24 hours or for periods of less than 24 hours if any of the infected cattle to which they are exposed have recently aborted, calved, or have a vaginal or uterine discharge.

§ 51.5 Record of tests.

When any animal in a herd of cattle is classified as affected with brucellosis, a complete test record shall be made for such herd, including the reactor tag number of each affected animal and the registration name and number of each affected registered animal. A form acceptable to Veterinary Services shall be used for the record of any herd having a reactor to a brucellosis test. A copy of the applicable test record shall be given to the owner of any such herd, and one copy of each such record shall be furnished to the appropriate State veterinarian's office.

§ 51.6 Identification of cattle to be destroyed because of brucellosis.

Cattle to be destroyed because of brucellosis must be identified within 15 days after being classified as reactors or otherwise condemned because of brucellosis. The appropriate Veterinarian in Charge for reasons satisfactory to him, may extend the time limit to 30 days when request for such extension is received by him prior to the expiration date of the original 15-day period allowed. Such cattle must be identified by branding the letter "B" on the left jaw not less than 2 nor more than 3 inches high and by tagging with an approved metal tag bearing a serial number and inscription "U.S. Reactor" or a similar State reactor tag suitably attached to the left ear of each animal.

§ 51.7 Destruction of cattle; time limit for slaughter.

(a) *Destruction.* Cattle to be destroyed because of brucellosis shall be sold under permit to a State or Federal slaughtering establishment approved for this purpose or to a State or Federal approved market for sale to such slaughtering establishment.

(b) *Time limit for slaughter.* Payment of indemnity may be made under this Part for cattle destroyed because of brucellosis only if the cattle are destroyed, slaughtered, or die otherwise within 15 days after the date of identification or appraisal except that the appropriate Veterinarian in Charge, for reasons satisfactory to him, may extend the time limit to 30 days when request for such extension is received by him prior to the expiration date of the original 15-day period allowed.

§ 51.8 Appraisals.

Cattle. Appraisals are not required for cattle affected with brucellosis which are to be destroyed and indemnities paid under § 51.3(a). Cattle affected with or exposed to brucellosis which are to be destroyed and indemnities paid under § 51.3(b) or (c) shall be appraised by a Veterinary Services or State representative or an independent professional appraiser at Veterinary Services expense when the Veterinarian in Charge deems necessary. When thus appraised, due consideration shall be given to their breeding value as well as to their dairy or meat value. Cattle presented for payment as registered shall be accompanied by their registration papers or shall be paid for as grades: *Provided, however,* That if the registration papers are temporarily not available or if the cattle are less than 3 years old and unregistered, the appropriate Veterinarian in Charge may grant a reasonable time for the presentation of their registration papers. The appraiser shall be responsible for their verification. Veterinary Services may decline to accept appraisals that appear to be unreasonable or out of proportion to the market value of cattle of like quality.

§ 51.9 Report of appraisals.

Appraisals of cattle made in accordance with § 51.8 shall be recorded on forms furnished by Veterinary Services. The appraisal form shall be signed by the appraiser and by the owner certifying his acceptance of the appraisal. The "date of appraisal" shall be the date that the owner signs the appraisal form. The original of the appraisal form and as many copies thereof as may be required for Veterinary Services, the State, and the owner of the animals shall be sent to the appropriate Veterinarian in Charge.

§ 51.10 Report of salvage proceeds.

A report of the salvage derived from the sale of cattle on which a claim for indemnity may be made under the provisions of § 51.3 shall be made on a salvage form acceptable to Veterinary Services which shall be signed by the purchaser or his agent or by the selling agent handling the animals. If the cattle are sold by the pound, the salvage form shall show the weight, price per pound, gross receipts, expenses if any, and net proceeds. If the cattle are not sold on a per pound basis, the net purchase price of each animal must be stated on the salvage form and an explanation showing how the amount was arrived at must be submitted. In the event the animals are not disposed of through regular slaughterers or through selling agents, the owner shall furnish, in lieu of the salvage form, an affidavit showing the amount of salvage obtained by him and shall certify that such amount is all that he has received or will receive as salvage for said animals. In an emergency, a certificate executed by the appropriate Veterinarian in Charge will be acceptable in lieu of the owner's affidavit. The salvage shall be considered to be the net amount received for an animal after deducting freight, truckage, yardage, commissions, slaughtering charges, and similar costs. An acceptable form furnished by the purchaser or selling agent, or the affidavit of the owner or certificate of the appropriate Veterinarian in Charge, furnished in lieu thereof, shall be furnished to the Veterinarian in Charge if it is not already in his possession. Additional copies may be furnished to the State officials, if required.

[1] Cattle presented for appraisal as registered shall be accompanied by registration papers, or shall be paid for as nonregistered: *Provided, however,* That if the registration papers are temporarily not available or if the cattle are less than 3 years old and unregistered, the appropriate Veterinarian in Charge may grant a reasonable time for the presentation of their registration papers.

§ 51.11 Claims for indemnity.

Claims for indemnity for cattle destroyed because of brucellosis shall be presented on indemnity claim forms furnished by Veterinary Services on which the owner of the animals covered thereby shall certify that the animals are or are not subject to any mortgage as defined in this part. If the owner states there is a mortgage, the Veterinary Services indemnity claim form shall be signed by the owner and by each person holding a mortgage on the animals, consenting to the payment of any indemnity allowed to the person specified thereon. Payment will be made only if the Veterinary Services indemnity claim form has been approved by a proper State official and if payment of the claim has been recommended by the appropriate Veterinarian in Charge or an official designated by him. On claims for indemnity made under the provisions of § 51.3, the Veterinarian in Charge or official designated by him shall record on the Veterinary Services indemnity claim form the amount of Federal and State indemnity payments that appear to be due to the owner of the animals. The owner of the animals shall be furnished a copy of the Veterinary Services indemnity claim form. The Veterinarian in Charge or official designated by him shall then forward the Veterinary Services indemnity claim form to the appropriate official for further action on the claim. No charges for holding the animals on the farm pending slaughter or for trucking by the owner shall be so deducted or otherwise paid by the Department.

§ 51.12 Disinfection of premises, conveyances, and materials.

All premises, including all structures, holding facilities, conveyances, and materials, contaminated because of occupation or use by brucellosis affected or exposed cattle shall be properly cleaned and disinfected with a disinfectant permitted by Veterinary Services in accordance with recommendations of the Veterinary Services or State inspector within 15 days from the date reactors were removed from the premises, except that the appropriate Veterinarian in Charge, for reasons satisfactory to him, may extend the time limit for disinfection to 30 days when request for such extension is received by him prior to the expiration date of the original 15-day period allowed, and except that certain premises may be exempted from such cleaning and disinfecting requirements by approval of the appropriate Veterinarian in Charge on written recommendations by the Veterinary Services or State inspector or when a written report by the Veterinary Services or State inspector determines that there are no buildings, holding facilities, conveyances, or other materials on the premises that would require such cleaning and disinfection.

§ 51.13 Claims not allowed.

Claims for compensation for cattle destroyed because of brucellosis shall not be allowed if any of the following circumstances exist:

(a) If the claimant has failed to comply with any of the requirements of this part.

(b) If the existence of any such disease in the cattle was determined as the result of an agglutination test applied by an accredited veterinarian and specific instructions for the administration of such test had not previously been issued to such veterinarian by the proper Veterinary Services and State authorities.

(c) If all eligible cattle in the claimant's herd have not been tested for brucellosis under Veterinary Services or State supervision.

(d) If the cattle are steers unless the steers are work oxen.

(e) If the cattle are classified as reactors and are unofficial vaccinates unless there is either a record of a negative blood agglutination test made not less than 30 days following the date of vaccination, or unless other Veterinary Services approved tests show the vaccinates are affected with virulent Brucellae.

(f) If there is substantial evidence that the owner or his agent has in any way been responsible for any unlawful or improper attempt to obtain indemnity funds for such cattle.

§ 51.14 Part 53 of this chapter not applicable.

No claim for indemnity for cattle destroyed because of brucellosis shall hereafter be paid under the regulations contained in Part 53 of this chapter, but all such claims shall be presented and paid pursuant to and in compliance with regulations contained in this part.

Any person who wishes to submit written data, views, or arguments concerning this proposed amendment may do so by filing them with the Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Hyattsville, Maryland 20782 before March 12, 1975.

All written submissions made pursuant to this notice will be made available for public inspection at the Federal Building, 6505 Belcrest Road, Room 870, Hyattsville, Maryland, during regular hours of business (8 a.m. to 4:30 p.m., Monday to Friday, except holidays) in a manner convenient to the public business (7 CFR 1.27(b)).

Comments submitted should bear a reference to the date and page number of this issue in the FEDERAL REGISTER.

Done at Washington, D.C., this 4th day of February 1975.

J. M. HEJL,
Deputy Administrator, Veterinary Services, Animal and ice.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social Security Administration

[20 CFR Part 404]

[Reg. No. 4]

FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE

Widow and Widower's Benefit Increase

Notice is hereby given pursuant to the Administrative Procedure Act (5 U.S.C. 553) that the amendments to the regulations set forth in tentative form below are proposed by the Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare. The proposed amendments reflect various provisions of Pub. L. 92-603. These include the following revisions.

(1) The maximum monthly benefit amount to which a widow or widower may be entitled is 100 percent of the deceased wage earner's primary insurance amount. Prior to enactment of Pub. L. 92-603, the highest monthly benefit amount was limited to 82½ percent of the deceased wage earner's primary insurance amount.

(2) The widow or widower's monthly benefit amount may be subject to a reduction if the deceased wage earner received a benefit prior to his reaching age 65. Section 404.330(b)(3) of these proposed amendments discusses the applicability of the provision.

(3) If no one else other than a widow or a widower is entitled to monthly benefits based on the deceased wage earner's earnings, such widow or widower is guaranteed no less than $84.50 reduced, if necessary, for months of entitlement prior to age 62.

(4) An individual may have his old-age insurance benefit increased if such individual's monthly benefit is not reduced (because of early retirement) at age 65. Section 404.305a describes the rules needed for this provision to be applicable.

(5) A nondisabled widower may now receive benefits at age 60. Prior to enactment of Pub. L. 92-603, such an individual had to be at least age 62 to be eligible for monthly benefits.

(6) Prior to enactment of Pub. L. 92-603, a divorced wife a divorced widow, and a surviving divorced mother had to meet certain dependency requirements in order to be eligible for monthly benefits. The proposed amendments to these regulations, reflecting the law, remove these dependency requirements. All of these amendments are effective for monthly benefits payable after December 1972.

Prior to the final adoption of the proposed amendments, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare, Fourth and Independence Avenue SW., Washington, D.C. 20201, on or before March 10, 1975.

Copies of all comments received in response to this notice will be available

XUM V40127 FEB 7 75 XUM

for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue SW., Washington, D.C. 20201.

The proposed amendments are to be issued under the authority contained in sections 202, 205, 1102, 49 Stat. 623, as amended, 53 Stat. 1368, as amended, 49 Stat. 647, as amended, 42 U.S.C. 402, 405, 1302.

(Catalog of Federal Domestic Assistance Program Nos. 13.802, 13.803, 13.805, Social Security—Disability Insurance, Social Security—Retirement Insurance, Social Security—Survivors Insurance)

Dated: December 23, 1974.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: January 31, 1975.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

Part 404 of Chapter III of Title 20 of the Code of Federal Regulations is amended as follows:

1. Section 404.305 is revised to read as follows:

§ 404.305 Old-age insurance benefits; rate of benefit.

The amount of the old-age insurance benefit to which an individual is entitled for any month is, except as provided in § 404.113a, equal to his primary insurance amount (see section 215(a) of the Act) for such month, subject to reduction under section 202(q) of the Act or subject to increase as provided in § 404.305a.

2. A new § 404.305a is added to read as follows:

§ 404.305a Increase in old-age insurance benefit amount on account of delayed retirement.

(a) *In general.* Effective with old-age insurance benefits payable for months beginning after 1972, an individual may be entitled to a delayed retirement credit which will increase the amount of his old-age insurance benefit, if:

(1) (i) The first month of entitlement to the old-age insurance benefit is no earlier than the month in which he attains age 65; or

(ii) The old-age insurance benefit at age 65 is not reduced under section 202(q) of the Act; and

(2) Such benefit is not based on a primary insurance amount determined under section 215(a)(3) of the Act. (See paragraph (f) of this section.)

(b) *Delayed retirement credit.* The amount of the delayed retirement credit is 1/12 of 1 percent of the individual's old-age insurance benefit (before any increase under this section) multiplied by the number of increment months (determined in accordance with paragraphs (c) and (d) of this section) to which he is entitled.

(c) *Increment months.* The number of increment months is equal to the total number of months which:

(1) Have elapsed in the period beginning with the month in which the individual attained age 65 or (if later) January 1971 and ending with the month immediately prior to the month in which he attained age 72, and

(2) With respect to which:

(i) He was fully insured as defined in §§ 404.108–404.113, and

(ii) He was not entitled to an old-age insurance benefit or suffered deductions under section 203(b) or 203(c) of the Act in amounts equal to the amount of such benefit.

(d) *When increment months are determined and effective date of increase.* For purposes of applying the delayed retirement credit provisions, a determination will be made under paragraph (c) of this section for each year, beginning with 1972, of the total number of an individual's increment months through the year for which the determination is made. The total so determined shall be applicable to the individual's old-age insurance benefits (before any increase under this section) beginning with benefits for January of the year following the year for which the determination is made. In the case of an individual who attains age 72 after 1972, the total number of increment months will be determined for the period ending with the month immediately before the month in which he attains age 72 and shall be applicable to his old-age insurance benefit beginning with the month in which he attains such age.

(e) *Benefits amounts affected.* The increase resulting from the delayed retirement credit does not affect the individual's primary insurance amount; it is applied only to his old-age insurance benefit. The increase payable to the individual does not apply to auxiliary benefits nor, after death, to survivors benefits nor does it affect the family maximum. The increase will be applied to the individual's old-age insurance benefit even if the family maximum is thereby exceeded.

(f) *Use of special minimum primary insurance amount.* If the individual's regular primary insurance amount as determined under section 215(a)(1) of the Act is lower than the special minimum primary insurance amount as determined under section 215(a)(3) of the Act but the regular primary insurance amount yields a higher old-age insurance benefit under the delayed retirement provision, the regular primary insurance amount will be used to establish the old-age insurance benefit for the individual. However, the special minimum primary insurance amount will be used for auxiliary benefits and the family maximum.

3. Section 404.313 is amended by revising paragraph (a)(3) to read as follows:

§ 404.313 Wife's insurance benefits; condition of entitlement.

(a) *Conditions of entitlement after August 1965.* The wife (as defined in § 404.1103) and every divorced wife (as defined in § 404.1105(a)) of an individual entitled to old-age or disability insurance benefits is entitled to wife's insurance benefits if she:

* * * * *

(3) In the case of a divorced wife:

(i) Is not married; and

(ii) With respect to entitlement to benefits for months prior to January 1973, at the time specified in paragraph (b) of this section, was receiving at least one-half of her support from such individual (see § 404.350), or was receiving substantial contributions from such individual pursuant to a written agreement (see § 404.351(a)), or there was in effect a court order for substantial contributions (see § 404.351(c)) to her support from such individual; and

* * * * *

4. Section 404.328 is amended by revising paragraph (a) to read as follows:

§ 404.328 Widow's insurance benefits; conditions of entitlement.

(a) *Conditions of entitlement after August 1965.* The widow (as defined in § 404.1104) and every surviving divorced wife (as defined in § 404.1105(b)) of an individual who died fully insured is entitled to widow's insurance benefits if she:

(1) Is not married (except as provided in paragraph (d) of this section); and

(2) (i) Has filed application for widow's insurance benefits (see Subpart G of this part); or

(ii) For months prior to January 1973, was entitled after attainment of age 62 to wife's insurance benefits on the basis of the wages and self-employment income of such individual for the month preceding the month in which he died; or

(iii) For months after December 1972, was entitled to wife's insurance benefits on the basis of the wages and self-employment income of such individual for the month preceding the month in which he died provided that:

(A) She has attained age 65, or

(B) She is not entitled to either old-age or disability benefits; or

(iv) Was entitled, on the basis of such wages and self employment income, to mother's insurance benefits for the month preceding the month in which:

(A) Prior to January 1973, she attained age 62, or

(B) After December 1972, she attained age 65; and

(3) (i) Has attained age 60, or

(ii) For benefits for months after January 1968, but only on the basis of an application filed in or after January 1968, has attained age 50 but is under age 60 and (A) is under a disability as defined in section 223(d) of the Act which began during the period specified

in paragraph (e)(1) of this section, and (B) has been under such disability through the waiting period as defined in paragraph (e)(2) of this section where such period is required; and

(4) Is not entitled to old-age insurance benefits or is entitled to an old-age insurance benefit which is less than:

(i) For months prior to January 1973, 82½ percent of the primary insurance amount of such deceased individual; or

(ii) For months after December 1972, the primary insurance amount of such deceased individual; and

(5) With respect to entitlement to benefits for months prior to January 1973, in the case of a surviving divorced wife who was not entitled to a wife's insurance benefit on the basis of the earnings record of such individual for the month preceding the month in which he died, at the time specified in paragraph (b) of this section,

(i) She was receiving at least one-half of her support from such individual (see § 404.350), or

(ii) She was receiving substantial contributions from such individual pursuant to a written agreement (see § 404.351(a)), or

(iii) there was in effect a court order for substantial contributions to her support from such individual (see § 404.351(c)).

* * * * *

5. Section 404.330 is amended by revising paragraphs (a) and (b) as follows:

§ 404.330 Widow's insurance benefits; rate of benefit.

(a) *For months prior to January 1973.* (1) *Basic benefit rate.* Except as provided in paragraphs (a)(2), (b), and (c) of this section, the amount of the widow's insurance benefit for any month prior to January 1973 is equal to 82½ percent of the primary insurance amount of the deceased individual upon whose earnings record such benefit is based. (See § 404.113a(c) for benefit rate under transitional insured status provision and § 404.352 for minimum survivor's insurance benefit rate.)

(2) *Benefit rate; entitlement prior to age 62.* If a woman becomes entitled to widow's insurance benefits for months prior to January 1973 before attainment of age 62, the amount of such benefit for each such month is equal to 82½ percent of the primary insurance amount of the deceased individual upon whose earnings record such benefit is based reduced in accordance with the provisions of section 202(q)(1) of the Act.

(b) *For months after December 1972.* (1) *Basic benefit rate.* Except as provided in paragraphs (a), (b)(2), (b)(3), and (c) of this section, the amount of the widow's insurance benefit for any month after December 1972 is equal to the primary insurance amount of the deceased individual upon whose earnings record such benefit is based. (See § 404.113a(c) for benefit rate under transitional insured status provision and § 404.352 for minimum survivor's insurance benefit rate.)

(2) *Benefit rate; entitlement prior to age 65.* If a woman becomes entitled to widow's insurance benefits (for any month after December 1972) before attainment of age 65, the amount of such benefit for each such month is equal to the primary insurance amount of the deceased individual upon whose earnings records such benefit is based reduced in accordance with the provisions of section 202(q)(1) of the Act.

(3) *Benefit rate; deceased wage earner entitled to reduced old-age insurance benefits prior to death.* Where a widow's benefit reduced under paragraph (b)(2) of this section is greater than 82½ percent of the primary insurance amount and the benefit rate to which the deceased wage earner would have been entitled if he were still living is lower than the rate described in paragraph (b)(2) of this section, the widow will receive the higher of:

(i) 82½ percent of the deceased wage earner's primary insurance amount, or

(ii) The benefit rate to which the deceased wage earner would have been entitled if he were still living.

* * * * *

6. Section 404.331 is amended by revising paragraphs (a)(3) through (7) and (c)(1) to read as follows:

§ 404.331 Widower's insurance benefits; conditions of entitlement.

(a) *Conditions of entitlement.* A man is entitled to widower's insurance benefits if:

* * * * *

(3) (i) He has attained age 60 (age 62 for months prior to January 1973), or

(ii) For benefits for months after January 1968, but only on the basis of an application filed in or after January 1968, has attained age 50 but is under age 60 (age 62 for months prior to January 1973) and (a) is under a disability as defined in section 223(d) of the Act which began during the period specified in paragraph (c)(1) of this section, and (b) has been under such disability throughout the waiting period as defined in paragraph (c)(2) of this section where such period is required; and

(4) He has not remarried since the death of his wife, except that if he remarries after attaining age 60 (age 62 for months prior to January 1973) the marriage is deemed not to have occurred for purposes of determining if he is entitled to widower's insurance benefits for months after August 1965 provided that he was entitled to such benefits for the month of August 1965 or an application for such benefits was filed after June 1965; and

(5) (i) He has filed an application (see Subpart G of this part) for widower's insurance benefits; or

(ii) was entitled to husband's insurance benefits based on his wife's earnings for the month before the month in which she died, and for monthly benefits payable after December 1972, and

(A) Has attained age 65, or

(B) Is not entitled to either retirement or disability benefits.

(6) He was, at a time specified in § 404.334, receiving at least one-half of his support (see § 404.350) from his wife, except as provided in paragraph (b) of this section, and within a 2-year period specified in § 404.334(c) submitted evidence that he was receiving such support; and

(7) He is not entitled to an old-age insurance benefit which equals or exceeds the amount of the widower's insurance benefits determined in accordance with paragraphs (a)(1) or (b)(1) of § 404.333.

* * * * *

(c) *Widower's entitlement based on disability.* (1) *When disability must begin.* For the purposes of paragraph (a)(3)(ii) of this section a widower must be under age 60 (age 62 for months prior to January 1973) and under a disability as defined in section 223(d) of the Act which began before the month he attained age 60 (age 62 for months prior to January 1973) or if earlier before the close of the 84th month following the latest of:

(i) The month in which the wage earner died, or

(ii) The month in which a previous entitlement to widower's insurance benefits on the basis of the earnings record of such individual terminated because his disability had ceased.

* * * * *

7. Section 404.333 is amended by revising paragraphs (a) and (b) to read as follows:

§ 404.333 Widower's insurance benefits; rate of benefit.

(a) *For months prior to January 1973.* (1) *Basic benefit rate.* Except as provided in paragraphs (a)(2), (b), and (c) of this section the amount of the widower's insurance benefit for any month prior to January 1973 is equal to 82½ percent of the primary insurance amount of his deceased wife upon whose earnings record such benefit is based. (See § 404.352 for minimum survivor's insurance benefit rate.)

(2) *Benefit rate; entitlement prior to age 62.* If a man becomes entitled to widower's insurance benefits (for any month prior to January 1973) before attainment of age 62, the amount of such benefit for each such month is equal to 82½ percent of the primary insurance amount of his deceased wife upon whose earnings record such benefit is based reduced in accordance with the provisions of section 202(q)(1) of the Act.

(b) *For months after December 1972.* (1) *Basic benefit rate.* Except as provided in paragraphs (a), (b)(2), and (c) of this section, the amount of the widower's insurance benefit for any month after December 1972 is equal to the primary insurance amount of the deceased individual upon whose earnings record such benefit is based. (See § 404.352 for minimum survivor's insurance benefit rate.)

(2) *Benefit rate; entitlement prior to age 65.* If a man becomes entitled to

XUM
V40127
FEB 7 75
XUM

widower's insurance benefits (for any month after December 1972) before attainment of age 65, the amount of such benefit for each such month is equal to the primary insurance amount of the deceased individual upon whose earnings record such benefit is based reduced in accordance with the provisions of section 202(q)(1) of the Act.

(3) *Benefit rate; deceased wage earner entitled to reduced old-age insurance benefits prior to death.* Where a widower's benefit reduced under paragraph (b)(2) of this section is greater than 82½ percent of the primary insurance amount and the benefit rate to which the deceased wage earner would have been entitled if shew ere still living is lower than the rate described in paragraph (b)(2) of this section, the widower will receive the higher of:

(i) 82½ percent of the deceased wage earner's primary insurance amount, or

(ii) The benefit rate to which the deceased wage earner would have been entitled if she were still living.

* * * * *

8. Section 404.335 is amended by revising paragraph (a)(6) to read as follows:

§ 404.335 Mother's insurance benefits; conditions of entitlement.

(a) *Conditions of entitlement after August 1965.* The widow and every surviving divorced mother as defined in § 404.1105(c) of an individual who died fully or currently insured is entitled to mother's insurance benefits if she:

* * * * *

(6) In the case of a surviving divorced mothers—

(i) The child referred to in subparagraph (2) of this paragraph is her son, daughter, or legally adopted child, and

(ii) The benefits referred to in such subparagraph are payable on the basis of such individual's earnings record, and

(iii) With respect to entitlement for months prior to January 1973, she was receiving at least one-half of her support from such individual (see § 404.350), or was receiving substantial contributions from such individual pursuant to a written agreement (see § 404.351(a)), or there was in effect a court order for substantial contributions to her support from such individual (see § 404.351(c) at the time of his death, or if he had a period of disability which did not end before the month in which he died, at the time such period began.

* * * * *

9. Section 404.350 is amended by revising paragraph (a) to read as follows:

§ 404.350 "One-half support" defined.

(a) *Applicability.* One of the requirements for entitlement to a husband's, widower's, or parent's insurance benefit under sections 202(c)(1)(C), 202(f)(1)(D), and 202(h)(1)(B)(i) of the Act, respectively, is that the person claiming such benefit was receiving at least one-half support from the insured individual at a specified time. (For exceptions to this requirement in the case of husband's or widower's insurance benefits see §§ 404.316(c) and 404.331(b).) Under the Social Security Amendments of 1965 (Pub. L. 89-97), a requirement for entitlement to a wife's insurance benefit as a divorced wife, a widow's insurance benefit as a surviving divorced wife, or a mother's insurance benefit as a surviving divorced mother is that, at a specified time, she was receiving at least one-half support from the insured individual, or she was receiving substantial contributions from such individual (pursuant to a written agreement), or there was in effect a court order for substantial contributions to her support from such individual. Pub. L. 92-603 removed these support requirements for entitlement to benefits as a divorced wife, a surviving divorced wife, and a surviving divorced mother effective with monthly benefits payable after December 1972. Under section 202(g)(1)(F) of the Act, prior to the 1965 amendments, one of the requirements for entitlement to a mother's insurance benefit as a former wife divorced (now designated as a surviving divorced mother and (under the law in effect prior she was receiving from her deceased former husband (pursuant to agreement or court order) at least one-half of her support. One-half support may be required in some cases to establish dependency of a child on a stepfather, stepmother, adopting father, or adopting mother and (under the law in effect prior to the Social Security Amendments of 1967 (Pub. L. 90-248)) to establish dependency of a child on a natural or adopting mother.

* * * * *

10. Section 404.351 is amended by revising paragraphs (a) and (c) to read as follows:

§ 404.351 Agreement, court order, and substantial contributions defined.

(a) *Agreement for substantial contributions after August 1965 and prior to January 1973.* For purposes of section 202(b)(1)(D), 202(e)(1)(D), and 202(g)(1)(F)(I)(II) of the Act, as in effect for months September 1965 through December 1972, the term "written agreement" means an agreement signed by the former husband providing for substantial contributions by him for the claimant's support. It must be in effect at the applicable time but it need not be legally enforceable. "Substantial contributions pursuant to a written agreement" means contributions (as defined in § 404.350(d)) that are regular and sufficient to constitute a material factor in the cost of the claimant's support. Generally, the claimant must actually be receiving the contributions at the applicable time. However, if the former husband had been making such contributions toward the claimant's support, but, prior to the applicable time, was either forced to stop making such contributions, or to decrease the amount of his contributions because of circumstances beyond his control (such as illness or unemployment), it may be determined that he was making substantial contributions at the applicable time if the former husband would have continued the contributions if he could and his failure to do so did not last for more than 9 months (either consecutive or intermittent) of the 12-month period ending with the applicable time.

* * * * *

(c) *Court order for substantial contributions after August 1965 and prior to January 1973.* For purposes of sections 202(b)(1)(D), 202(e)(1)(D), and 202(g)(1)(F)(I)(III) of the Act, as in effect for months September 1965 through December 1972, the term "court order for substantial contributions" means any court order, judgment, or decree of a court of competent jurisdiction which requires regular contributions that are a material factor in the cost of the claimant's support and which is in effect at the applicable time. If such contributions are required by a court order, this condition is met whether or not the contributions were actually made.

* * * * *

11. Section 404.352 is revised as follows:

§ 404.352 Minimum monthly survivor's insurance benefit amount.

(a) *General.* When only one individual is entitled to a survivor's insurance benefit for any month, the amount of such monthly survivor's insurance benefit, before any reduction under § 404.353, or section 202(q) of the Act, shall be not less than:

(1) $93.80 for months after May 1974;

(2) $90.50 for months after February 1974 and before June 1974;

(3) $84.50 for months after August 1972 and before March 1974;

(4) $70.40 for months after December 1970 and before September 1972;

(5) $64 for months after December 1969 and before January 1971;

(6) $55 for months after January 1968 and before January 1970;

(7) $44 for months after December 1964 and before February 1968;

(8) $40 for months after July 1961 and before January 1965.

(b) *Sole surviving widow(er)'s monthly benefit.* Effective January 1973, a widow or widower who is the sole survivor entitled to benefits will not receive less than $84.50 reduced for months of entitlement prior to age 62.

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 75-GL-3]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal aviation regulations so as to designate a transition area at Middlefield, Ohio.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before March 10, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

An instrument approach procedure has been developed for the Geauga County Airport, Middlefield, Ohio. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this approach procedure by designating a transition area at Middlefield, Ohio.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (39 FR 440), the following transition area is added:

MIDDLEFIELD, OHIO

That airspace extending upward from 700 feet above the surface within a 7-mile radius of the Geauga County Airport (Latitude 41°27'00" N., Longitude 81°03'48" W.); excluding the portion which overlies the Cleveland, Ohio transition area.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Ill., on January 20, 1975.

H. W. POGGEMEYER,
Acting Director, Great Lakes Region.

[FR Doc.75-3485 Filed 2-6-75;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 74-CE-24]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to designate a transition area at Ulysses, Kansas.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106. All communications received on or before March 10, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106.

An instrument approach procedure is being established to the Ulysses Airport, Ulysses, Kansas, using a City-owned NDB being installed on the airport. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this new approach procedure by designating a transition area at Ulysses, Kansas. The new procedure will become effective concurrently with the designation of the transition area.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (39 FR 440), the following transition area is added:

ULYSSES, KANSAS

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Ulysses, Kansas Municipal Airport (latitude 37°36'10" N., longitude 101°22'15" W.); within 3 miles each side of the 307° bearing from the Ulysses radio beacon (latitude 37°35'51" N., longitude 101°22'00" W.); extending from the 5-mile radius area 2.5 miles northwest.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Kansas City, Missouri, on January 3, 1975.

GEORGE R. LACAILLE,
Acting Director, Central Region.

[14 CFR Part 71]

[Airspace Docket No. 74-CE-35]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Salina, Kansas.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106. All communications received on or before March 10, 1975 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106.

The VOR Runway 17 instrument approach procedure to Salina Municipal Airport is being amended by lowering the procedure turn altitude. Consequently, it is necessary that the controlled airspace designated to protect the procedure be altered so as to compensate for the procedural change.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (39 FR 440), the following transition area is amended to read:

SALINA, KANSAS

That airspace extending upward from 700 feet above the surface within a 9-mile radius of Salina Municipal Airport (latitude 38°47'40" N., longitude 97°39'30" W.); within 4½ miles W and 9½ miles E of the Salina ILS localizer course, extending from 8 miles N to 18½ miles S of the ILS OM; and, within 5 miles each side of the Salina VORTAC 012° radial extending from the 9-mile radius area to 17½ miles N of the VORTAC, excluding the portion which overlies restricted area R-3601 and the McPherson, Kansas 700-foot floor transition area.

This amendment is proposed under the authority of section 307(a) of the Federal

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 20065; RM-2224]

TELEVISION BROADCAST STATIONS IN CERTAIN CITIES IN NEBRASKA

Order Extending Time for Filing Reply Comments

In the matter of amendment of § 73.606(b), Table of Assignments, Television Broadcast Stations (Alliance, Hay Springs, and Scottsbluff, Nebraska).

1. The Commission by the Chief, Broadcast Bureau, pursuant to delegated authority, has before it a request of Wyneco Communications, Inc., licensee of Station KSTF(TV), Scottsbluff, Nebraska, filed January 24, 1975, requesting a further extension of time from January 31, 1975, to February 15, 1975, to file reply comments in this proceeding.[1]

2. Wyneco advises that the requested extension is necessary for its economic consultant to complete his analysis of the financial reports of the proponent of the rule making, Duhamel Broadcasting Enterprises, for Station KDUH-TV, Hay Springs, Nebraska, as well as its parent, Station KOTA-TV, Rapid City, South Dakota, and its sister satellite, Station KHSD-TV, Lead, South Dakota, for the years 1958-1973, for inclusion in its reply comments. Wyneco explains that it was not until after the Commission's clarification on December 31, 1974, of its December 16, 1974 ruling authorizing Wyneco to examine the Duhamel financial reports for these years rather than only from 1970 through 1973, and notice from Duhamel on January 7, 1975, advising that it would not appeal the ruling, that it was in position to arrange for inspection and duplication of the pertinent Duhamel records, which it promptly did. However, since it did not receive copies of the reports until later, January 16, 1975, copies of which were promptly thereafter mailed to its out-of-town economic consultant, the brief additional time sought is needed to complete an analysis of the reports.

3. In the circumstances, the requested extension appears reasonable and since the economic position of the Duhamel Hay Springs station is among the important issues in this proceeding upon which meaningful comments would be helpful in reaching a decision on the Duhamel proposal, we believe that the public interest is served by granting the additional time.

4. *Accordingly, it is ordered,* That the date for filing reply comments in this proceeding is extended from January 31, 1975, to and including February 15, 1975.

5. This action is taken pursuant to authority found in sections 4(i), 5(d)(1) and 303(r) of the Communications Act of 1934, as amended, and §§ 0.281 and 1.46 of the Commission's rules.

Adopted: January 29, 1975.

Released: January 31, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

FEDERAL RESERVE SYSTEM

[12 CFR Part 225]

[Reg. Y]

BANK HOLDING COMPANIES

Nonbanking Activities

Pursuant to its authority under Sections 4(c)(8) and 5(b) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8) and 1844(b)), the Board proposes to amend § 225.4(c) of its Regulation Y to clarify the circumstances under which a bank holding company engaged in nonbank activities, directly or indirectly through a subsidiary, may acquire assets of another company without first obtaining Board approval pursuant to section 4(c)(8) of the Act.

On September 13, 1974, the Board issued an interpretation of Regulation Y regarding situations in which an acquisition of assets of a going concern by a bank holding company or its section 4(c)(8) nonbank subsidiary might require prior Board approval. The interpretation noted that, in determining whether Board approval is required in connection with an acquisition of assets, it is necessary to determine (a) whether the acquisition is made in the ordinary course of business[1] or (b) whether it constitutes the acquisition, in whole or in part, of a going concern.[2] Among the examples illustrating transactions where prior Board approval would generally be required was a transaction involving the "acquisition of all or substantially all of the assets of a company, or a subsidiary, division, department or office thereof."

Section 225.4(c)(3) of Regulation Y provides, in effect, that acquisitions of assets in the ordinary course of business do not require prior Board approval. It has come to the Board's attention that there may exist certain circumstances under which the above-mentioned portion of the Board's interpretation could be viewed as conflicting with § 225.4(c)(3) of Regulation Y, i.e., those instances in which the acquisition of all or substantially all of the assets of a company, or a subsidiary, division, department or office thereof is made in the ordinary course of business. In order to avoid any ambiguity, the Board proposes to formalize the relevant portion of the interpretation by an appropriate amendment to Regulation Y.

Under the present provisions of the regulation (12 CFR 225.4(c)(3)), a bank holding company may acquire assets "in the ordinary course of business" without prior Board approval. The proposed amendment would prohibit, without prior Board approval, the acquisition of all or substantially all of the assets of a company, or a subsidiary, division, department or office thereof, even if such acquisition were made in the ordinary course of business.

The proposed amended subparagraph (3) of § 225.4(c) of Regulation Y would read as follows:

§ 225.4 Nonbanking activities.

(c) *Tie-ins, alterations, relocations, consolidations.* • • • (3) except for acquisitions made in the ordinary course of business of less than substantially all of the assets of a company, or a subsidiary, division, department or office thereof,[1] no merger or acquisition of assets to which the acquired company is a party shall be consummated without prior Board approval, if thereafter the bank holding company will continue to own, directly or indirectly, more than 5 per cent of the voting shares of such company of its successor.

• • • • • •

To aid in the consideration of this matter by the Board, interested persons are invited to submit relevant data, views, comments, or argument. Any requests for a hearing on this matter should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing. The Board also hereby solicits suggestions and comments on the establishment of standards for determining when an acquisition of assets would constitute "substantially all" of the assets of a company, or a subsidiary, division, department or office thereof.

Any views or requests for hearing should be submitted in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than March 19, 1975.

By order of the Board of Governors, January 29, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75-3555 Filed 2-6-75;8:45 am]

[1] Published first at 40 FR 2449, January 13, 1975.

[1] Section 225.4(c)(3) of the Board's Regulation Y (12 CFR 225.4(c)(3)) generally prohibits a bank holding company or its subsidiary engaged in activities pursuant to authority of section 4(c)(8) of the Act from being a party to any merger "or acquisition of assets other than in the ordinary course of business" without prior Board approval.

[2] In accordance with the provisions of section 4(c)(8) of the Act and § 225.4(b) of Regulation Y, the acquisition of a going concern requires prior Board approval.

[1] An acquisition of assets, the effect of which would be to eliminate the seller as a viable competitor in any geographic market, in the line of business to which the assets pertain, would be viewed by the Board for the purposes of this subsection as being an acquisition of "substantially all" of the assets.

DEPARTMENT OF DEFENSE

Defense Supply Agency

INGERSOLL MILLING MACHINE CO.

Proposed Cancellation of Contracts and Debarment and Notice of Hearing

The following letter is published in accordance with the requirements of 41 CFR 60-1.26(b)(2)(i) and (ii):

DCAS-VO

Mr. EDSON GAYLORD, *President and Chairman of the Board,*
Ingersoll Milling Machine Company,
707 Fulton Avenue,
Rockford, Illinois 61103.

JANUARY 30, 1975.

DEAR MR. GAYLORD: The Ingersoll Milling Machine Company has agreed, pursuant to the Equal Employment Opportunity clause of United States Government contracts, to comply with all provisions of Executive Order 11246, as amended, and the rules, regulations and relevant orders of the Secretary of Labor, 41 Code of Federal Regulations (CFR), Chapter 60. The Defense Supply Agency is charged with responsibility for securing compliance with the referenced Order and regulations under Department of Defense Directive No. 1100.11.

On June 10, 1974, an onsite Equal Employment Opportunity compliance review was initiated at your Rockford, Illinois facility. During the course of the review it was determined that your Company did not have an acceptable written Affirmative Action Program (AAP) for the period January 30, 1974, to January 29, 1975. Your Company refused to provide relevant personnel records, and refused all assistance to develop the required program.

The Ingersoll Milling Machine Company is in violation of Executive Order 11246, as amended, and its implementing regulations which require contractors with 50 or more employees and a contract of $50,000 or more to develop a written AAP which is acceptable in accordance with the standards and guidelines set forth in 60-2.10 through 60-2.32.

The Commander, DCASR, Chicago issued a show cause letter on June 21, 1974, which stated the deficiencies found to exist and offered assistance to resolve them by mediation and negotiation. During the 30-day show cause period, a conciliation meeting was held with you but it failed to yield positive results. Subsequent to the show cause period, you advised DCASR, Chicago that your company is not interested in future Government business. To date there is no indication that your Company intends to change its position.

In view of your apparent noncompliance with the Order and applicable regulations, you are hereby notified of the proposed cancellation or termination of any existing United States Government contracts or subcontracts. It is also proposed that you be declared ineligible for further contracts and subcontracts with the United States Government. This action is pursuant to section 209 of the Order and 41 CFR 60-1.26(b). The Ingersoll Milling Machine Company may within 14 days after receipt of this notice file an answer to the allegations set forth in this letter and request a hearing on the issues with the Director, Defense Supply Agency, Cameron Station, Alexandria, Virginia 22314. The answer and request for a hearing should conform with the requirements of 41 CFR 60-1.26(b)(2)(iii).

Sincerely,

P. F. COSGROVE, JR.,
Rear Admiral, SC, USN,
Deputy Director.

NOTICE OF HEARING

The office of Contracts Compliance, Headquarters, Defense Supply Agency (DSA) requested and received approval from the Director, DSA to issue a Notice of Proposed Cancellation of Contracts and Debarment to the Ingersoll Milling Machine Company for its failure to respond to the 30-day show cause letter issued to that company June 21, 1974. The Ingersoll Milling Machine Company has been given 14 days after receipt of the Proposed Cancellation and Debarment Notice to answer the allegations therein, and request a hearing on the issues with the Directors, DSA.

[FR Doc.75-3595 Filed 2-6-75;8:45 am]

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

CIBA-GEIGY CORP.

Hearing

On December 13, 1974, the Drug Enforcement Administration published the proposed aggregate production quotas for 1975 for controlled substances in schedules I and II. 39 FR 43411. Among the production quotas was the quota for methylphenidate.

On January 8, 1975, Ciba-Geigy Corporation of Summit, New Jersey, requested a hearing on the quota for methylphenidate noting that "it is the owner of the methylphenidate patent and is the sole manufacturer and distributor of the product in the United States." Ciba-Geigy contended that "the production quota, as proposed, is insufficient to meet legitimate scientific and medical needs in the United States as evidenced by prescription purchases since January 1, 1974."

Title 21, Code of Federal Regulations, § 1303.11(c) provides in pertinent part that the Administrator "may, but shall not be required to, hold a public hearing" on the issues raised by objections to a proposed aggregate production quota and that, should he determine that a public hearing should be held, he shall "summarize the issues to be heard."

It is the opinion of the Administrator that a public hearing should be held in this matter on the issue framed by Ciba-Geigy as whether the proposed 1975 production quota for methylphenidate is "insufficient to meet legitimate scientific and medical needs in the United States as evidenced by prescription purchases since January 1, 1974."

Therefore, pursuant to section 306 of the Controlled Substances Act (21 U.S.C. 826) which requires that the Attorney General establish aggregate production quotas for drugs in schedules I and II, and which responsibility has been delegated to the Administrator in Title 28, Code of Federal Regulations, § 0.100, Notice is hereby given that a hearing will be held in this matter at 10 a.m. on April 7, 1975, or as soon thereafter as this matter may be heard, in room 1210 of the Drug Enforcement Administration, 1405 Eye Street NW., Washington, D.C.

Dated: January 28, 1975.

Administrator.

[FR Doc.75-3574 Filed 2-6-75;8:45 am]

[Docket No. 74-6]

FLEET PHARMACY, INC., AND WASHINGTON-MAIN MEDICAL PHARMACY

Revocation of Certificate of Registration

On May 16, 1974, the Drug Enforcement Administration issued an Order to Show Cause to Fleet Pharmacy, Inc., d/b/a Washington-Main Medical Pharmacy, 1842 South Main Street, Los Angeles, California, as to why its Certificate

XUM
V40-27
FEB 7 75
XUM

of Registration (DEA Registration AW 5915535) should not be revoked.

The basis for the issuance of the Order to Show Cause was that John D. Gardner, a corporate officer of Respondent corporation, who had been adjudged guilty on or about June 23, 1960 in the Superior Court of the State of California of violating section 11501, Health and Safety Code of the California General Statutes, a felony provision of said law relative to controlled substances, had intentionally and materially falsified his January 26, 1972 Application for Registration (which resulted in the issuance of BNDD Registration AF0318659 to Respondent) by indicating that he had never been convicted of a felony, under State or Federal law. The foregoing basis had been set forth in an Order to Show Cause issued to Respondent on May 12, 1973. See "Quality Medical Pharmacy; Fleet Pharmacy, Inc., d/b/a Washington-Main Medical Pharmacy; Ruby M. Beaman, d/b/a Quality Professional Pharmacy," 39 FR 12365, April 5, 1974. An additional underlying reason for the Order to Show Cause issued to Respondent on May 16, 1974 was that John D. Gardner had submitted his Application for Registration dated January 24, 1974 (which resulted in the issuance of DEA Registration AW5915535 to Respondent) in behalf of a suspended corporation and when he knew that a Final Order from the Administrator was forthcoming with reference to BNDD AF0318659. See "Quality Medical Pharmacy, et al.," 39 FR 12365, April 5, 1974.

Simultaneously with the institution of this proceeding, the Acting Deputy Administrator ordered the immediate suspension of Respondent's registration pending a final determination of the proceeding, pursuant to section 304(d) of the Controlled Substances Act, 21 U.S.C. 824(d).

Subsequently, by letter of May 21, 1974, counsel for Respondent requested a hearing in the matter, and a prehearing conference was held in Washington, D.C. on June 14, 1974. Thereafter, on August 6, 1974, a hearing on the merits was held before George A. Koutras, Administrative Law Judge, in Los Angeles, California. Following that hearing, Proposed Findings of Fact and Conclusions of Law, with supporting briefs, were submitted to Judge Koutras by counsel for the Government and the Respondent.

On November 18, 1974 Judge Koutras filed Recommended Findings of Fact and Conclusions of Law and his Recommended Decision with the Drug Enforcement Administration.

The Administrator, pursuant to § 1316.66, Title 21, Code of Federal Regulations, hereby adopts the findings of fact and also adopts in part the conclusions of law submitted by Judge Koutras.

Specifically, the Administrator finds that on or about June 23, 1960, John D. Gardner, President of Respondent corporation, was adjudged guilty at the Superior Court of the State of California, in and for the County of Los Angeles, of violating section 11501, Health and Safety Code of the California General Statutes, a felony provision of said law relative to controlled substances.

Furthermore, with reference to this finding of fact, it is the opinion of the Administrator that the Administrative Law Judge's Conclusion of Law, holding that 28 U.S.C. 2462 bars the use of Mr. Gardner's 1960 felony conviction as a basis for the revocation of Respondent's registration, is in error. The purpose of the Controlled Substances Act is to protect and promote the public health, and its primary aim is to ensure that those who engage in the dispensing of controlled substances do so in accordance with factors measuring conduct consistent with the public interest. Under these circumstances, the Administrator finds that the instant case is sufficiently distinguishable on its facts from "H. P. Lambert Co. v. Secretary of the Treasury," 354 F. 2d 819 (1st Cir. 1965), to make reliance on the Lambert holding inappropriate here. Therefore, it is the opinion of the Administrator that Mr. Gardner's conviction in 1960 of a felony relative to controlled substances serves as an independent basis for the revocation of Respondent's registration.

The Administrator adopts the Administrative Law Judge's finding that Mr. Gardner's denial of any prior felony convictions on Respondent's Application for Registration dated January 26, 1972, which resulted in the issuance of Respondent's prior Federal registration to dispense controlled substances (BNDD Registration AF0318659), constitutes a material false statement within the language of 21 U.S.C. 824(a)(1). This also serves as an independent statutory basis for the revocation of Respondent's registration.

The Administrator also takes notice of the fact that Mr. Gardner also denied any prior felony convictions on Respondent's Application for Registration dated January 24, 1974, which resulted in the issuance of DEA Registration AW-5915535. Likewise, the Administrator finds that this is a material false statement under 21 U.S.C. 824(a)(1).

In addition, the Administrator finds there is substantial evidence that, although Mr. Gardner admitted in the Application for Registration executed on January 24, 1974 and received by the Drug Enforcement Administration on March 7, 1974 that he had had a previous CSA Registration revoked or suspended, Mr. Gardner failed to attach a letter setting forth the circumstances of such action, as required by Item 5(c) of the Application. This Application had been submitted by Mr. Gardner under the name of a suspended corporation and when he knew in fact that a Final Order was forthcoming from the Administrator with reference to BNDD Registration AF0318659. This set in motion the unique combination of circumstances resulting in what was described in the Order to Show Cause as an "egregious administrative error", culminating in the issuance of DEA Registration AW5915535 to Respondent. In view of these facts, the Administrator finds that, on January 24, 1974 and March 7, 1974, and at all times within the instant proceedings held pursuant to the Order to Show Cause issued to Respondent on May 16, 1974, the Drug Enforcement Administration has been in the unusual position of dealing with a corporate entity which had been suspended on April 6, 1971, under the law of the State of California. The Administrator finds further that the use of the corporate name "Fleet Pharmacy, Inc." in the Application for Registration executed by John D. Gardner on January 24, 1974 was not only inaccurate but materially misleading. It would strain logic to hold that a registration obtained as a result of this set of circumstances could be anything but a nullity.

However, assuming for purposes of this Order that the Administrator could not make the finding on the basis of the record below that Respondent corporation had been placed under suspension pursuant to State law, the Administrator would nevertheless adopt, and herein does adopt, the Administrative Law Judge's conclusion that Respondent's corporate status does not bar revocation of its Federal controlled substances registration based on the actions of one of its corporate officers. Furthermore, the Administrator adopts the Administrative Law Judge's finding that there is substantial evidence on the record relative to substantial shortages and discrepancies in Respondent's controlled substances inventory, as well as its purchases and distribution of controlled substances, during a period when Respondent's controlled substances registration was suspended. The Administrator also adopts the finding by the Administrative Law Judge that there is substantial evidence of a general failure by Respondent to take the precautions required to prevent diversion of controlled substances into other than legitimate channels.

Therefore, in accordance with the provisions of § 1316.66, Title 21, Code of Federal Regulations, and in view of the foregoing, it is the Administrator's opinion that John D. Gardner, the President of Fleet Pharmacy, Inc., d/b/a Washington-Main Medical Pharmacy, was convicted of a drug related felony under California State law, to wit, the willful, unlawful and felonious sale of opium.

Further, that John D. Gardner did intentionally and materially falsify his applications for Fleet Pharmacy, Inc., d/b/a Washington-Main Medical Pharmacy, by indicating that he had never been convicted of a felony relating to a controlled substance.

Therefore, under the authority vested in the Attorney General by section 304 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 824), and redelegated to the Administrator of the Drug Enforcement Administration by § 0.100, as amended, Title 28, Code of Federal Regulations, and the Reorganization Plan No. 2 of 1973, the Administrator hereby orders that the Certificate of Registration of Fleet Pharmacy, Inc., d/b/a Washington-Main Medical Pharmacy (DEA Registration AW5915535) be, and hereby is revoked, effective the date of this Order.

Dated: January 28, 1975.

JOHN R. BARTELS, JR.,
Administrator, Drug Enforcement Administration.

JERDAN CHEMICAL CORP.

Importation of Controlled Substances Application

Pursuant to section 1008 of the Controlled Substance Import and Export Act (21 U.S.C. 958(h)), the Attorney General shall, prior to issuing a registration under this section to a bulk manufacturer of a controlled substance in schedules I or II, and prior to issuing a regulation under section 1002(a) authorizing the importation of such a substance, provide manufacturers holding registrations for the bulk manufacture of the substance an opportunity for a hearing.

Therefore in accordance with § 1311.42 of Title 21, Code of Federal Regulations, notice is hereby given that on December 9, 1974, Jerdan Chemical Corporation, 181 South Franklin Avenue, Valley Stream, New York 11581, made application to the Drug Enforcement Administration to be registered as an Importer of Methaqualone, a basic class controlled substance listed in schedule II.

Any person registered to manufacture Methaqualone in bulk may, on or before March 10, 1975, file written comments on or objections to the issuance of the proposed registration and may, at the same time, file written request for a hearing on the application (stating with particularity the objections or issues, if any, concerning which the person desires to be heard and a brief summary of his position on those objections or issues).

Comments and objections may be addressed to the Hearing Clerk, Office of Administrative Law Judge, Drug Enforcement Administration, Room 1130, 1405 Eye Street NW., Washington, D.C. 20537.

Dated: February 3, 1975.

JOHN R. BARTELS, JR.,
Administrator, Drug Enforcement Administration.

Manufacture of Controlled Substances Application

Section 303(a)(1) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 823(a)(1)) states:

The Attorney General shall register an applicant to manufacture controlled substances in schedule I or II if he determines that such registration is consistent with the public interest and with United States obligations under international treaties, conventions, or protocols in effect on the effective date of this part. In determining the public interest, the following factors shall be considered:

(1) Maintenance of effective controls against diversion of particular controlled substances and any controlled substance in schedule I or II compounded therefrom into other than legitimate medical, scientific, research, or industrial channels, by limiting the importation and bulk manufacture of such controlled substances to a number of establishments which can produce an adequate and uninterrupted supply of these substances under adequately competitive conditions for legitimate medical, scientific, research, and industrial purposes;

Section 1008 of the Controlled Substance Import and Export Act (21 U.S.C. 958(h)) provides that the Attorney General shall, prior to issuing a registration under this section to a bulk manufacturer of a controlled substance in schedules I or II, and prior to issuing a regulation under section 1002(a) authorizing the importation of such a substance, provide manufacturers holding registrations for the bulk manufacture of the substance an opportunity for a hearing.

Pursuant to § 1301.43 of Title 21 of the Code of Federal Regulations, notice is hereby given that on December 18, 1974, M.B.H. Chemical Corporation, 377 Crane Street, Orange, New Jersey 07051, made application to the Drug Enforcement Administration to be registered as a bulk manufacturer of Amobarbital, a basic class controlled substance listed in schedule II.

Any person registered to manufacture Amobarbital in bulk may, on or before March 10, 1975, file written comments on or objections to the issuance of the proposed registration and may, at the same time, file written request for a hearing on the application (stating with particularity the objections or issues, if any, concerning which the person desires to be heard and a brief summary of his position on those objections or issues).

Comments and objections may be addressed to the Hearing Clerk, Office of the Administrative Law Judge, Drug Enforcement Administration, Room 1130, 1405 Eye Street NW., Washington, D.C. 20537.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

WESTERN GASIFICATION CO. (WESCO) COAL GASIFICATION PROJECT AND EXPANSION OF NAVAJO MINE BY UTAH INTERNATIONAL INC.

Public Hearing on Draft Environmental Statement

Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental statement for the proposed WESCO Coal Gasification Project and the Expansion of the Navajo Mine by Utah International Inc. This statement (INT DES 74-107) was made available to the public on December 11, 1974.

The draft environmental statement deals with the proposed construction and operation of four coal gasification plants, the mine operation and the appurtenant facilities which are located about 20 miles southwest of Fruitland, New Mexico, on the Navajo Indian Reservation. The first plant, capable of producing 250 million cubic feet per day (MMCFD) of synthetic natural gas, would be operational in late 1977. All four plants, with a capacity of 1000 MMCFD, would be operational by 1983. Water for the project will be supplied from the Bureau of Reclamation's Navajo Reservoir.

A public hearing will be held in Window Rock, Arizona, at the Window Rock Civic Center on March 11, 1975, and in Farmington, New Mexico, at the City Council Meeting Room, 800 Municipal Drive, on March 12, 1975, to receive views and comments from interested organizations or individuals relating to the environmental impacts of this project. Both hearings will be held from 10:00 a.m. to 12:00 Noon, from 1:30 p.m. to 5:00 p.m. and from 7:00 p.m. to 10:00 p.m. Oral statements at the hearing will be limited to a period of ten (10) minutes. Speakers will not trade their time to obtain a longer oral presentation; however, the person authorized to conduct the hearing may allow any speaker to provide additional oral comment after all persons wishing comment have been heard. Speakers will be scheduled according to the time preference mentioned in their letter or telephone request whenever possible, and any scheduled speaker not present when called will lose his privilege in the scheduled order and his name will be recalled at the end of the scheduled speakers. Requests for scheduled presentation will be accepted up to 5:00 p.m., March 7, 1975, and any subsequent requests will be handled on a first-come-first-served basis following the scheduled presentation.

Organizations or individuals desiring to present statements at the hearing should contact Regional Director David L. Crandall, Bureau of Reclamation, Room 7201, 125 South State Street, Salt Lake City, Utah 84111, telephone (801) 524-5592, and announce their intention to participate. Written comments from those unable to attend, and from those wishing to supplement their oral presentation at the hearing should be received by March 19, 1975, for inclusion in the hearing record.

Dated: February 5, 1975.

G. G. STAMM,
Commissioner of Reclamation.

ELECTRIC UTILITY TASK GROUP COMMITTEE ON ENERGY CONSERVATION OF THE NATIONAL PETROLEUM COUNCIL

Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given of the following meeting:

The Electric Utility Group of the Committee on Energy Conservation of the National Petroleum Council will meet on February 26, 1975 at 9:30 a.m. in the National Petroleum Council's conference room, 1625 K Street, NW, Washington, D.C. The agenda includes the following items:

1. Review of progress on preparation of a report on Phase II of the current study on the possibilities for energy conservation in the United States and the impact of such measures on the future energy posture of the Nation. This study

XUM
V40127
FEB 7 75
XUM

was requested by the Secretary of the Interior on July 23, 1973. Phase I of the study was completed on September 10, 1974.

2. Discussion of instructions and guidance by the Coordinating Subcommittee of the Committee on Energy Conservation regarding Phase II of the study.

3. Discussion of any other matters pertinent to the overall assignment of the Task Group.

The meeting will be open to the public to the extent that space and facilities permit. Any member of the public may file a written statement with the Council either before or after the meeting. Interested persons who wish to speak at the meeting must apply to the Council and obtain approval in accordance with its established procedures.

The purpose of the National Petroleum Council is to provide advice, information and recommendations to the Secretary of the Interior, upon request, on any matter relating to petroleum or the petroleum industry.

Further information with respect to this meeting may be obtained from Ben Tafoya, Office of the Assistant Secretary-Energy and Minerals, Department of the Interior, Washington, D.C., telephone number 343–7976.

Dated: January 31, 1975.

C. K. MALLORY,
Deputy Assistant Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

BLACKFEET INDIAN LANDS IN MONTANA

Feed Grain Donations

Pursuant to the authority set forth in section 407 of the Agricultural Act of 1949 as amended (7 U.S.C. 1427) and Executive Order 11336, I have determined that:

1. The chronic economic distress of the needy members of the Blackfeet Indian Lands in Montana has been materially increased and become acute because of severe and prolonged drought creating a serious shortage of livestock feeds. These lands are reservations or other lands designated for Indian use and are utilized by members of the Indian tribes for grazing purposes.

2. The use of feed grain or products thereof made available by the Commodity Credit Corporation for livestock feed for such needy members of the tribes will not displace or interfere with normal marketing of agricultural commodities.

Based on the above determinations, I hereby declare the reservations and grazing lands of this tribe to be acute distress areas and authorize the donation of feed grain owned by the Commodity Credit Corporation to livestockmen who are determined by the Bureau of Indian Affairs, Department of the Interior, to be needy members of the tribe utilizing such lands. These donations by the Commodity Credit Corporation may commence upon signature of this notice and shall be made available through the duration of the existing emergency or to such other time as may be stated in a notice issued by the Department of Agriculture.

Signed at Washington, D.C. on February 3, 1975.

EARL L. BUTZ,
Secretary.

Domestic and International Business Administration

TELECOMMUNICATIONS EQUIPMENT TECHNICAL ADVISORY COMMITTEE

Partially Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. III, 1973), notice is hereby given that a meeting of the Telecommunications Equipment Technical Advisory Committee will be held Tuesday, March 11, 1975, at 10 a.m., in Room 3708, Main Commerce Building, 14th and Constitution Avenue NW., Washington, D.C.

The Committee was established on April 5, 1973, to advise the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving technical matters, world-wide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to telecommunications equipment, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

The Committee meeting agenda has four parts:

GENERAL SESSION

(1) Opening remarks by the Chairman.
(2) Presentation of papers or comments by the public.
(2) Present 123456
(3) Discussion and approval of Findings Volume of The Second Annual Report due March, 1975.

EXECUTIVE SESSION

(4) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The public will be permitted to attend the General Session, at which a limited number of seats will be available to the public. To the extent time permits members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (4), the Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on December 16, 1974, pursuant to section 10(d) of the Federal Advisory Committee Act that the matters to be discussed in the Executive Session should be exempt from the provisions of the Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552(b)(1), i.e., it is specifically required by Executive Order 11652 that they be kept confidential in the interest of the national security. All Committee members have appropriate security clearances.

Minutes of the open portion of the meeting will be available upon written request addressed to the Central Reference and Records Inspection Facility, Room 7043, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Room 1620, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202/967–4196.

In accordance with paragraph (4) of the Order of the United States District Court for the District of Columbia in "Aviation Consumer Action Project, et al., v. C. Langhorne Washburn, et al.," September 10, 1974, as amended, September 23, 1974 (Civil Action No. 1838–73), the Complete Notice of Determination to close portions of the meetings of the Telecommunications Equipment Technical Advisory Committee was published in the FEDERAL REGISTER (40 FR 1287, appearing in the issue of January 7, 1975, 74 FR Doc. 30275).

Dated: February 3, 1974.

RAUER H. MEYER,
Director, Office of Export Administration, Bureau of East-West Trade, U.S. Department of Commerce.

Consolidated Decision on Applications for Duty-Free Entry of EMI Scanner Systems

The following is a consolidated decision on applications for duty-free entry of EMI Scanner Systems pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892) et seq. (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 75–00112–33–90000. Applicant: Hospitals of the University of Pennsylvania, 3400 Spruce Street, Philadelphia, Pa. 19104. Article: EMI Scanner with Magnetic Tape System. Manufacturer: EMI Limited, United Kingdom. The article is intended to be used for investigating the early detection and pathogenesis of brain tumors, brain

infection and brain trauma. The article will also be used extensively in training medical students and postgraduate physician trainees in Neuroradiology, Neurology, Neurosurgery, as well as in Nuclear Medicine. The correlation with conventional neuroradiologic and radionuclide diagnostic examinations will be emphasized and the proper indications for various diagnostic modalities will be stressed. Application received by Commissioner of Customs: September 17, 1974. Advice submitted by the Department of Health, Education, and Welfare on: January 9, 1975. Article ordered: January 25, 1974.

Docket number: 75–00124–33–90000. Applicant: St. Luke's Hospital, 5535 Delmar, St. Louis, Missouri 63112. Article: EMI Scanner with Magnetic Tape System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used in research in neurosurgery and neuroradiology in reference to the behavior of glial tumors and its response to radiation treatment and chemopeutic agents. The response to various modalities of treatment will be measured by computerized axial transverse tomographic scanning. Application received by Commissioner of Customs: September 23, 1974. Advice submitted by the Department of Health, Education, and Welfare on: January 10, 1975. Article ordered: March 22, 1974.

Docket number: 75–00133–33–90000. Applicant: Swedish Medical Center, 501 East Hampden Avenue, Englewood, Colorado 80110. Article: EMI Scanner with High Resolution Option and Magnetic Tape System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used in studies of patients with neurological disorders. Patient phantom models (simulated cranium brain contents with known characteristics) will also be studied to determine the article's accuracy for localization of diagnostic changes that would be seen with calcium, tumor, cysts, liquid, fat, blood (liquid or clotted) in brain and skull disorders. Other research includes: (1) the study of the brain injured patients and other clinical population in the usual scanning method after injection of a radioisotope into the circulating blood and/or spinal fluid, and (2) the investigation of methods of patient immobilization during study with the article. Planned educational programs will involve (1) presentation of data developed from the brain injury unit, (2) dissemination of information of the value of EMI study and value of the diagnostic material obtained, and (3) training of technology personnel. Application received by Commissioner of Customs: September 24, 1974. Advice submitted by the Department of Health, Education, and Welfare on: January 10, 1975. Article ordered: March 1, 1974.

Docket number: 75–00137–33–90000. Applicant: St. Vincent Medical Center, 2131 West Third Street, Los Angeles, California 90057. Article: EMI Scanner and Magnetic Tape System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used for studies of patients with posterior fossa brain tumors especially cerebello-pontine angle tumors. The studies will be clinically oriented so that the information gathered would be of potential benefit to the patients themselves as well as to future patients. The areas of study will include, among others, surgical planning in relation to tumor size, surgical planning in relation to ventricular size and ventricular size in post-operative course with respect to complications. Application received by Commissioner of Customs: September 26, 1974. Advice submitted by The Department of Health, Education, and Welfare on: January 10, 1975. Article ordered: January 9, 1974.

Docket number: 75–00145–33–90000. Applicant: Scott and White Clinic, Division of Radiology, 2501 South 31st Street, Temple, Texas 76501. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used in the following research projects: (1) A cooperative study to determine whether the addition of procarbozine to CCNU and Radiation Therapy adds to the response rate and duration of response as compared to CCNU and Radiation Therapy alone in the treament of malignant cerebral gliomas.

(2) Extent of cerebral infarction resulting from the intracranial arterial spasm that frequently follows subarachnoid hemorrhage from intracranial aneurysms.

(3) Study the development and spontaneous regression or persistence of hydrocephalus in patients with blood in the intracranial subarachnoid spaces following head injury, craniotomy, or spontaneous subarachnoid hemorrhage.

(4) Evaluation of the treatment of cystic craniopharyngiomas by injection of radioactive material or transphenoidal marsupialization.

(5) Assessment of the effects of steroid therapy and hyperosmolar therapy in the treatment of closed head injuries with cerebral contusions and edema.

(6) Studies of patients with CSF shunts by serial scan to systematically evaluate the actual functioning of the shunts.

(7) Assessment of the extent of hydrocephalus in dogs before and after treatment with serial EMI scans.

(8) Development of a technique that will allow the computer to recognize abnormal densities in the various anatomical slices and further, predict possible diagnoses based on location and abnormal density.

(9) Investigate alternate means of data reduction to provide better quality information display for diagnosis.

The article will also be used extensively for educational purposes. Application received by Commissioner of Customs: October 1, 1974. Advice submitted by the Department of Health, Education, and Welfare on: January 15, 1975. Article ordered: January 31, 1974.

Docket number: 75–00154–33–90000. Applicant: Community Memorial Hospital of San Buenaventura, Loma Vista Road at Brent Street, Ventura, California 93003. Article: EMISCAN 80 Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used in the education of radiologists, neurosurgeons, and neurologists. Application received by Commissioner of Customs: October 7, 1974. Advice submitted by The Department of Health, Education, and Welfare on: January 15, 1975. Article ordered: November 30, 1973.

Docket number: 75–00159–33–90000. Applicant: Children's Cancer Research Foundation, Inc., 35 Binney Street, Boston, Mass. 02115. Article: EMI Scanner System with Magnetic Tape Machine and High Definition Display. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used for investigation of central nervous system problems and for the assessment of absorption differences in various types of intracerebral tissues and fluids. The article will also be used to train medical students, interns and residents in the most up-to-date techniques for evaluating intracerebral abnormalities. Application received by Commissioner of Customs: October 15, 1974. Advice submitted by the Department of Health, Education, and Welfare on: January 15, 1975. Article ordered: December 6, 1973.

Docket number: 75–00162–33–90000. Applicant: Henry Ford Hospital, 2799 West Grand Blvd., Detroit, Michigan 48202. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used in the following investigations:

(1) The differential radiodensity of a portion of the brain affected by a stroke and a similar portion affected by a brain tumor in different individuals.

(2) Investigation of low pressure hydrocephalus.

(3) Investigation of epileptic patients to try and better define the focus of excitation.

(4) Definition of the area of brain damage from a stroke by distinguishing the actual area of damage from the much wider area of surrounding edema.

(5) Evaluation of various treatments for malignant brain tumors.

(6) Diagnosis of immediate life threatening conditions such as subdural and epidural hematomas. Application received by Commissioner of Customs: October 18, 1974. Advice submitted by the Department of Health, Education, and Welfare on: January 15, 1975. Article ordered: November 27, 1973.

Docket number: 75–00163–33–90000. Applicant: The Methodist Hospital, 6516 Bertner Drive, Houston, Texas 77025. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use article: The article is intended to be used in studies of tumors

XUM
V40-27
FEB 7 75
XUM

of the brain in patients. In particular, the subtle absorption between normal and abnormal brain tissue will be examined and charted. Patients with a wide variety of suspected central nervous system disease will be evaluated on this article. The diagnosis will be correlated with current available techniques to understand the best diagnostic approach to patients. In addition, the article will be used for training residents in radiology, neuroradiology, neurosurgery, neuroradiology fellows in nuclear medicine, neuroradiology and radiation physics, clinicians and research scientists through evaluation of patients with neuroradiological diseases. Application received by Commissioner of Customs: October 23, 1974. Advice submitted by the Department of Health, Education, and Welfare on: January 15, 1975. Article ordered: April 9, 1973.

Docket number: 75-00166-33-90000. Applicant: Montefiore Hospital Association of Western Pennsylvania, 3459 Fifth Avenue, Pittsburgh, Pa. 15213. Article: EMI Scanner System, Magnetic Tape System and High Density Display Unit. Manufacturer: EMI Ltd., United Kingdom. Intended use of article: The article is intended to be used in research to evaluate the effectiveness of computerized transaxial tomography in the diagnosis of neurological disease. The article will also be used to teach the application, interpretation, and analysis of computerized transaxial tomography to technical personnel and radiologists in the University Health Center of Pittsburgh. Application received by Commissioner of Customs: October 23, 1974. Advice submitted by the Department of Health, Education, and Welfare on: January 15, 1975. Article ordered: May 1, 1974.

Docket number: 75-00186-33-90000. Applicant: University of Alabama Hospitals, Department of Diagnostic Radiology, 619 South Nineteenth St., Birmingham, Alabama 35233. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used for detection and evaluation of primary and secondary tumors. Comparisons will be made evaluating the accuracy of detection between the Computer Assisted Tomography (CAT) and conventional radiographic methods (brain scan, pneumonencephalogram and arteriography). Stroke patients will be studied at various intervals following the onset of symptoms to determine CAT's potential and accuracy in early detection of strokes. The article will also be used for the evaluation of infants with hydrocephalus and congenital anomalies and follow-up examination of the above conditions post-treatment. Evaluation of CAT's diagnostic capability through statistical analysis of the data print-out sheets as compared to the photographic printout. Application received by Commissioner of Customs: October 29, 1974. Advice submitted by the Department of Health, Education, and Welfare on: January 15, 1975. Article ordered: April 16, 1974.

Docket Number: 75-00190-33-90000. Applicant: Tallahassee Neurological Foundation, Inc., 2412 W. Plaza Drive, Eastwood Plaza, Tallahassee, Florida 32303. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used for the study of the human brain in patients who have lost the ability to speak. The objectives to be pursued in the course of the investigation include precise identification of areas of brain damage which result in various types of aphasia. Application received by Commissioner of Customs: October 29, 1974. Advice submitted by the Department of Health, Education, and Welfare on: January 15, 1975. Article ordered: March 12, 1974.,

Comments: No comments have been received with respect to any of the foregoing applications. Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for such purposes as these articles are intended to be used, is being manufactured in the United States. Reasons: Each foreign article is a newly developed system which is designed to provide precise transverse axial X-ray tomography. The Department of Health, Education, and Welfare (HEW) advised in its respectively cited memoranda that the sensitivity and the non-invasive methodology of each article are pertinent to the purposes for which each foreign article is intended to be used. HEW also advised that it knows of no domestic instrument of equivalent scientific value to any of the articles to which the foregoing applications relate for such purposes as these articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

A. H. STUART,
Director,
Special Import Programs Division.

SANDIA LABORATORIES ET AL.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, by February 27, 1975.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket number: 75-00314-75-01700. Applicant: Sandia Laboratories, Kirtland AFB, East, Albuquerque, NM 87115. Article: Laser Amplifier, Model SF-210-45. Manufacturer: Quantel, France. Intended use of article: The article is intended to be used in research on extremely short (under one billionth of a second) X-ray pulses generated when high power laser pulses are focussed on metallic surface. One purpose of this research is to develop a beam of coherent X-ray, etc., an X-ray laser beam. Application received by Commissioner of Customs: January 15, 1975.

Docket Number: 75-00315-99-74000. Applicant: Rutgers University, Department of Biology, Queens Campus, New Brunswick, N.J. 08930. Article: FS-3 Portable Reflection-Refraction Seismograph and Accessories. Manufacturer: Huntec Ltd., Canada. Intended use of article: The article is intended to be used to acquaint students with the principles, operations, and applications of reflection and refraction geophysical wavesounding techniques, in the courses of Engineering, Geology, Advanced Engineering Geology, Geophysical Methods, and Advanced Exploration Geophysics. Application received by Commissioner of Customs: January 15, 1975.

Docket Number: 75-00316-33-46500. Applicant: University of Cincinnati, Department of Pathology, College of Medicine, 1206 Medical Science Building, 231 Bethesda Ave., Cincinnati, Ohio 45267. Article: Ultramicrotome, Model Om U3 with AO Stereoscopic Microscope. Manufacturer: C. Reichert Optische Werke, Austria. Intended use of article: The article is intended to be used for research in which several different tissues from human biopsies and experimental animals will be examined. These include renal, liver and skin biopsies for diagnostic purposes and occasionally malignant tumors which present problems in differential diagnosis. Cell cultures (WI 38-human lung fibroblast; HELA, embryonic and adult renal parenchymal; and "L" cells) will also be examined. Application received by Commissioner of Customs: January 15, 1975.

Docket number: 75-00317-33-90000. Applicant: North Carolina Baptist Hospitals, Inc., 300 South Hawthorne Road, Winston-Salem, North Carolina 27103. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article s intended to be used for detecting lesions and/or other abnormalities in the brain of patients who are suspected of having lesions and/or abnormalities. A cooperative study is being drawn up to compare the results of brain scans, plan skull films, electroencephalograms, and ultrasound scans to the results of the EMI scans in patients with central nervous system disorders. In addition, the article will be made an integral part of the training program of residents in Radiology, Neurology, and Neurosurgery. Application received by Commissioner of Customs: November 22, 1974.

Docket number: 75-00318-33-90000. Applicant: Virginia Commonwealth University, 520 North 12th Street, Richmond, Virginia 23298. Article: EMI Scanner System with Magnetic Tape Storage System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The foreign article, a new development in the field of Diagnostic Radiologic equipment, is intended for use in research as well as for training of physicians and radiologic technologists in its use. Application received by Commissioner of Customs: January 15, 1975.

Docket number: 75-00319-60-46040. Applicant: United States Department of Agriculture, Agricultural Research Service, U.S. Grain Marketing Research Center, 1515 College Ave., Manhattan, Kansas 66502. Article: Electron Microscope, Model EM 201. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for studies of the structure, physiology, and mode of action of selected bacterial insect pathogens. Viral control of insect pests will also be investigated. A fine-structural analysis is to be conducted to identify and classify insect sensory organs with the objective of determining which sensory structure can be altered to prevent the feeding and mating responses. Application received by Commissioner of Customs: January 15, 1975.

Docket number: 75-00320-33-90000. Applicant: University of Texas Medical Branch, 915 Strand, Galveston, Texas 77550. Article: EMI Scanner with Magnetic Tape Storage System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used to examine the various structures contained within the skull and face, in determining the effectiveness of the use of this machine on human patients with a variety of neurological and brain disease. Application received by Commissioner of Customs: January 15, 1975.

Docket number: 75-00321-56-17500. Applicant: University of Washington, Department of Oceanography WB-10, Seattle, Washington 98195. Article: Recording Current Meter, Model 4. Manufacturer: Ivar Aanderaa, Norway. Intended use of article: The article is intended to be used in experiments involving the continuous year-long monitoring of currents and gross thermal and salinity structure of waters entering the Arctic Ocean through the Bering Strait. Application received by Commissioner of Customs: January 15, 1975.

Docket number: 75-00323-80-46040. Applicant: Bureau of Mines, Virginia & Cudahy Streets, Bartlesville, Oklahoma 74003. Article: Electron Microscope, Model JEM 100B/SEG. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used to obtain count and size distribution information for aerosol and particulate matter in diesel exhaust. This material is primarily carbon particles with trace quantities of condensed-ring hydrocarbon. Trace metals, such as platinum and other heavy metals together with sulphur compounds, may also be present and subject to analytical determination. Application received by Commissioner of Customs: January 15, 1975.

A. H. STUART,
Director, Special Import Programs Division.

National Oceanic and Atmospheric Administration

CONSERVATION OF NORTH PACIFIC FUR SEALS

Availability of Draft Environmental Impact Statement

Section 108(b), 16 U.S.C. 1378(b) of the Marine Mammal Protection Act of 1972 (the Act) requires the Secretary of Commerce, in consultation with the Secretary of State, to study the provisions of the Act, as they relate to North Pacific fur seals, and the provisions of the Interim Convention on Conservation of North Pacific Fur Seals, to determine what modifications, if any, should be made to the provisions of the Convention, or of the Act, or both, to make the Convention and the Act consistent with each other.

The Convention as amended will continue in force until October 1975 and thereafter until the entry into force of a new or revised fur seal convention between the parties, or until October 1976, whichever comes earlier. The 1969 agreement extending the Convention requires that the parties meet not later than early in 1975 to determine what further agreements may be desirable. Representatives of the member governments of Japan, Canada, U.S.S.R., and the United States will meet to initiate the renegotiation of the Convention beginning March 17, 1975, immediately following the annual meeting of the Fur Seal Commission in Washington, D.C. The United States intends to negotiate a new convention which will essentially continue the present management arrangements and amend the Convention's management objectives to provide for the maintenance of the health and stability of the marine ecosystem and in other ways bring the language of the Convention into conformity with the Marine Mammal Protection Act of 1972.

It has been determined that renegotiating the Interim Convention would constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969. Therefore, a draft environmental impact statement (DEIS) has been prepared. The DEIS was transmitted to the Council on Environmental Quality on January 24, 1975.

Copies of the DEIS are available at the Office of the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235.

A public hearing will be held in Washington, D.C., to discuss any comments which may be helpful in the preparation of a final environmental impact statement (FEIS). The FEIS will be prepared after the convention's negotiations have been completed, but prior to ratification of any agreement by the United States.

The hearing will be held on February 26, 1975, at 9 a.m. in the Penthouse Conference Room, Page Building No. 1, 2001 Wisconsin Avenue NW., Washington, D.C. 20235. The hearing record will remain open for 15 days following the hearing for the submission of additional comments to the Director.

Dated: February 4, 1975.

JACK W. GEHRINGER,
Acting Director,
National Marine Fisheries Service.

Office of the Secretary

VOLUNTARY APPLIANCE EFFICIENCY PROGRAM

Meeting

On January 15, 1975, President Ford in a supplement to his State of the Union Message directed the Energy Resources Council to develop energy efficiency goals for major appliances and to obtain agreements within six months from the major manufacturers of these appliances to comply with the goals. The goal is a 20 percent average improvement by 1980 for all major appliances, including air conditioners, refrigerators and other home appliances. Achievement of these goals would save the equivalent of over one-half million barrels of oil per day by 1985. If agreement cannot be reached, the President will submit legislation to establish mandatory appliance efficiency standards.

The Secretary of Commerce has been asked by President Ford to contact all appliance manufacturers to seek their support in arriving at an effective means to meet this goal.

The Secretary, therefore, invites industry leaders and senior officials of all companies who make room air conditioners, refrigerators, combination refrigerator-freezers, freezers, water heaters, clothes washers, clothes dryers, dishwashers, kitchen ranges and ovens, and television receivers to a meeting at the

XUM
V40127
FEB 7 75
XUM

Department of Commerce, Room 6802, on February 20 at 10 a.m.

At this meeting a proposed program will be presented for consideration and comment by the industry.

Those desiring to attend this meeting should notify the Assistant Secretary, Science and Technology, Department of Commerce, Room 3864, Main Commerce Building, Washington, D.C. 20230, prior to the day of the meeting, indicating companies and products they will represent.

This meeting is open to all members of the public and press.

Dated: February 1, 1975.

BETSY ANCKER-JOHNSON,
Assistant Secretary for Science and Technology.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

RIGHT TO READ STATE GRANTS PROGRAM

Closing Date for Receipt of Applications

Notice is hereby given that pursuant to the authority contained in the Cooperative Research Act, Pub. L. 83-531, as amended, 20 U.S.C. 331, applications are being accepted for new grants under the Right to Read State Grants Program.

Applications must be received by the U.S. Office of Education Application Control Center on or before March 24, 1975.

A. *Applications sent by mail.* An application sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Avenue SW., Washington, D.C. 20202, Attention: 13.533. An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) The Application was sent by registered or certified mail not later than March 19, 1975, as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing day by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.

3. *Hand delivered applications.* An application to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets SW, Washington, D.C. 20202. Hand delivered applications will be accepted daily between the hours of 8:30 a.m. and 4 p.m. Washington, D.C., time except Saturdays, Sundays, or Federal Holidays. Applications will not be accepted after 4 p.m. on the closing date.

C. *Authority.* The regulations applicable to this program include the Office of Education General Provisions Regulations (45 CFR Part 100a), the General Regulations for Right to Read (45 CFR Part 151, Subpart A; published in the FEDERAL REGISTER on June 20, 1974, at 39 FR 22147), and proposed regulations for the State Grants Program published in the FEDERAL REGISTER on December 27, 1974, at 39 FR 44774.

D. *Program information and forms.* Information and application forms may be obtained from the Right to Read Program, U.S. Office of Education, Room 2131, 400 Maryland Avenue SW, Washington, D.C. 20202.

(20 U.S.C. 331a(a)(1))

Dated: January 30, 1975.

T. H. BELL,
U.S. Commissioner of Education.

Office of the Assistant Secretary for Health

PRESIDENT'S BIOMEDICAL RESEARCH PANEL

Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the first meeting of the President's Biomedical Research Panel on February 24 and 25, 1975, in Room 2010, New Executive Office Building.

The entire meeting will be open to the public from 9:30 a.m. to 5 p.m. on February 24, 1975, and from 9 a.m. to 5 p.m. on February 25, 1975. The agenda includes orientation of Panel members, formalization of ad interim staff, schedule and location of future meetings, interpretation of mandate, definition of tasks and assignment of priorities. Attendance by the public will be limited to space available. Members of the public who wish to participate in this meeting must file a written request with the Executive Director 10 days before the date of the meeting, giving the name and address of the person to be contacted, and summarizing the nature of the proposed participation.

All requests for information, including the roster of Panel members, should be directed to Ms. Anne Ballard (301-496-7526), Room 125, Westwood Building, 9000 Rockville Pike, Bethesda, Maryland 20014.

Substantive program information will be provided by Dr. Charles U. Lowe, Executive Director of the Panel (301-496-5035), Building 31, Room 4B-59, 9000 Rockville Pike, Bethesda, Maryland 20014.

C. U. LOWE,
Executive Director.

Office of the Assistant Secretary for Planning and Evaluation

ANALYSIS OF UTILIZATION OF MEDI-CAL SERVICES THROUGH DATA USED FROM PAID CLAIMS SYSTEM

Program Results

Pursuant to section 608 of the Economic Opportunity Act of 1964, as amended, 42 U.S.C. 2946, this agency announces the results, findings, data or recommendations reported as a result of activities associated with HEW project entitled "Analysis of Utilization of Medi-Cal Services through Use of Data from the Paid Claims System."

This final report evaluates the Medicaid program in the U.S. as a whole and for the State of California. The first part of this study based primarily on aggregate State data from the National Center for Social Statistics for 1969 and 1970 analyzes the determinants of interstate variations in the utilization of health services by AFDC children and adults as well as APTD adults. The study employs multiple regression techniques to analyze the underlying behavioral determinants of these interstate variations. The main conclusions from the empirical analysis of this part of the study are:

1. Hospital bed availability does not affect the use of hospital inpatient services by Medicaid eligibles.

2. The distribution of physicians affects the use of both inpatient and ambulatory facilities.

3. Reimbursement arrangements have strong effects on hospital and medical service expenditures.

4. The use of physician services by Medicaid eligibles is quite responsive to income.

The second part of this study based on 2 percent samples of paid claims from the State of California for 1969 and 1970, analyzes the effects of resource availability and the San Joaquin Foundation on the utilization of services by California Medicaid eligibles. Micro data from the 2-percent sample are aggregated into county averages and a regression model is employed. The most important findings from this part of the study are:

1. The utilization of physician visits, prescription drugs, laboratory, X-ray, and other diagnostic services is quite sensitive to changes in the overall supply of physicians in urban counties but not in rural counties.

2. Surgery rates are quite responsive to the availability of surgeons.

3. Admission rates are positively related to bed availability in urban but not rural counties.

4. Black and Spanish-surnamed individuals generally use less services than other Medicaid eligibles.

5. Medicaid eligibles in urban counties are less likely to visit an office-based physician but had more total visits than those in rural counties.

6. Utilization controls imposed by the San Joaquin Foundation through peer review had no major utilization or cost-reducing effects.

A copy of this report will be filed with the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151, and copies may be obtained through that office.

Dated: February 4, 1975.

WILLIAM A. MORRILL,
Assistant Secretary for Planning and Evaluation.

URBAN EXPERIMENT FOLLOW-ON STUDY

Program Results

Pursuant to section 606 of the Economic Opportunity Act of 1964, as amended, 42 U.S.C. 2946, this agency announces the results, findings, data, or recommendations reported as a result of the activities associated with HEW project entitled, "Urban Experiment Follow-On Study."

This research was devoted to further exploration of a number of issues which arose from the analysis presented in the "Final Report of the New Jersey Negative Income Tax Experiment." The results were reported in a series of short papers.

The finding of an unexpected positive experimental differential in hours and earnings (experimentals worked or earned at a statistically significantly greater level than controls) for the black subsample which appeared in the "Final Report" was subject to further investigation.

It was found that there were significan differences between experimentals and controls in family size and total firmly labor force participation at pre-enrollment, with experimentals having larger families and higher participation rates. Attempts were made to determine whether these pre-enrollment differences explained the positive experimental differentials. However, the positive experimental effects persisted even after correction for these pre-enrollment differences.

Future work will pursue these leads further.

The various approaches used in the "Final Report" to estimate the effects of the welfare alternatives on the experimental results were reviewed and new models for estimating these effects were proposed.

In the "Final Report" all analysis was done on a restricted sample of 693 continuous husband-wife families. In this Follow-On Study analysis was done on wider samples (including as many as 1100 families) to determine whether major differences in results would be obtained with less restricted samples. The only differences which appeared were, with the less restricted sample, larger and more significant negative experimental differentials for the Spanish sub-sample for total family hours and earnings and for wives' hours and earnings.

A number of issues regarding the analyses of total family labor supply response were pursued using variations of the models reported in the "Final Report." Most importantly, results estimated for only quarters 1-12. (In the "Final Report," results for heads and wives were based primarily on analysis of quarters 3-10 whereas the total family result was on the basis of quarters 1-12. This reanalysis for the family puts all the analysis on a comparable time period base and leaves conclusions essentially the same as in the "Final Report.")

A new set of tables was prepared to replace those reported in "Summary Report: New Jersey Graduated Work Incentive Experiment," U.S. Department of Health, Education, and Welfare, December 1973. These revised tables put the tables in the text and those in the appendix on a comparable basis (both adjusted by the same regression equation specification).

Many of the proposed models reported in these papers will be further tested and developed in subsequent research.

A copy of this report (in production) will be filed with the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151, and copies may be obtained through that office.

Dated: February 4, 1975.

WILLIAM A. MORRILL,
Assistant Secretary for Planning and Evaluation.

Office of the Secretary

ASSISTANT REGIONAL DIRECTOR FOR HUMAN DEVELOPMENT

Organization, Functions, and Delegations of Authority

Part 1 of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health, Education, and Welfare is amended to add to Chapter 1E80, 38 FR 17262, June 29, 1973, Assistant Regional Director for Human Development, the responsibility for certain rehabilitation service program responsibilities heretofore assigned to the Regional Commissioner of Social and Rehabilitation Service. Delegations of authority in existence at the time this notice is approved continue in effect until superseded by new delegations. The amended Chapter reads as follows:

Section 1E-80-00-Mission. The Assistant Regional Director for Human Development is responsible for planning, directing, coordinating, implementing and monitoring Regional Office of Human Development programs within the framework of the policies and guidelines set forth by the Assistant Secretary for Human Development. However, pursuant to section 101(a) of the Rehabilitation Act Amendments of 1974, Pub. L. 93-516, certain basic authorities of Titles I, II, and III of the Rehabilitation Act of 1973, as amended, have been delegated directly by the Commissioner to the Director, Office of Rehabilitation Services, Region 1-10. The responsibilities of the ARD are to ensure effective planning and monitoring of these activities.

Section 1E-80-10-Organization. The Office of the Assistant Regional Director for Human Development includes:

Director, Office of Child Development, Region 1-10
Director, Office on Aging, Region 1-10
Director, Office of Youth Development, Region 1-10
Director, Office of Rehabilitation Services, Region 1-10

Section 1E-80-20-Functions. The Assistant Regional Director for Human Development:

(1) Serves under the direct line of authority of the Regional Director.

(2) Serves as the representative of the Assistant Secretary for Human Development and the Regional Director in direct official dealings with other Federal agencies, State and local activities related to Human Development Programs, and reports progress and status to the Regional Director and the Assistant Secretary for Human Development.

(3) Recommends program priorities and policy or procedural changes to the Assistant Secretary for Human Development through the Regional Director.

(4) Works with other elements of the Regional Office to ensure that all areas of OHD program operations in the Region receive necessary assistance, including programmatic and administrative management assistance to perform their mission effectively and efficiently.

(5) Maintains working relationships with other Federal agencies, State and local governments and institutions, and develops ways in which their plans and programs and those of the Department can actively complement each other.

(6) Ensures intra-departmental coordination between the Office of Human Development, other elements of the Office of the Regional Director, and the principal operating components of the Department on Human Development matters; serves as the advocate for those interests represented in the Office of Human Development with the other elements of the Department.

Dated: January 31, 1975.

CASPAR W. WEINBERGER,
Secretary.

ASSISTANT SECRETARY FOR HUMAN DEVELOPMENT

Statement of Organization, Functions, and Delegations of Authority

Part 1 of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health, Education, and Welfare is amended to add to Chapter 1R, "Assistant Secretary for Human Development," (39 FR 11614, March 29, 1974), the following changes: These changes include (1) addition of rehabilitation services functions to the Office of Human Development mission statement, (2) addition of the Rehabilitation Services Administration to the

XUM
V 40 27
FEB 7 75
XUM

Office of Human Development organization structure, (3) addition of RSA summary mission statement, (4) a listing of delegations of program authorities to the Assistant Secretary for Human Development, and (5) continuation of administrative and program authorities within RSA. The amended portions of Chapter 1R read as follows:

1R00. *Mission.* Serves as the principal staff adviser to the Secretary and the Under Secretary on matters dealing with special populations served by the Department, including the aging, children, youth, Native Americans, the mentally retarded, the handicapped, and those living in rural areas; recommends to the Secretary actions and strategies for improving coordination and government-wide effectiveness in these areas; provides responsive and effective programs for groups of people and ensures that other Department programs also recognize and serve the needs of these people; directs, coordinates, and manages Human Development programs ordering priorities within the Office of Human Development. Provides executive leadership in the planning, development and coordination of those OHD programs which provide services for the handicapped, including the disabled social security applicants and beneficiaries, the developmentally disabled, the blind, and welfare applicants and recipients. Serves as the designee of the Secretary on the Architectural and Transportation Barriers Compliance Board pursuant to section 502(a), Rehabilitation Act of 1973, as amended by Title I of Pub. L. 93–516.

1R10. *Organization.* The Office of the Assistant Secretary for Human Development, headed by the Assistant Secretary for Human Development who reports directly to the Secretary, consists of:

A. Immediate Office of the Assistant Secretary for Human Development.
B. Office of Administration and Management.
C. Office for the Handicapped Individuals.
D. President's Committee on Mental Retardation.
E. (Reserved)
F. Office of Child Development.
G. Office of Youth Development.
H. Administration on Aging.
I. Office of Rural Development.
J. Office of Native American Programs.
K. Office of Manpower.
L. Office of Planning and Evaluation.
M. Rehabilitation Services Administration.

1R20. *Functions.* (Added) M. Acts as principal agency for carrying out the Rehabilitation Act of 1973 and the Randolph-Sheppard Act, and provides leadership in planning, developing, and coordinating Department programs which provide services for the handicapped, including disabled social security applicants, and beneficiaries, the developmentally disabled, the blind, and welfare applicants and recipients in accordance with Federal statutes.

1R30. *Delegations of Authorities.* (a) Except as provided in Section 1A–30 of DHEW Organization Manual and in this Section, the Assistant Secretary for Human Development is delegated the following authorities by the Secretary:

1. The authority vested in the Secretary by the Juvenile Delinquency Prevention Act (43 U.S.C. 3801 et seq.).
2. The authority vested in the Secretary by the Older Americans Act of 1965 (42 U.S.C. 3001 et seq.).
3. The authority under Title V of the Economic Opportunity Act of 1964, as amended by section 8(a), the Headstart, Economic Opportunity and Community Partnership Act of 1974.
4. Such authority with respect to research, demonstration and training projects under section 426 of the Social Security Act to the extent of the funds appropriated to the Office of Child Development for this purpose.
5. The authority vested in the Secretary by Titles I, II, III, and IV of the Rehabilitation Act of 1973, Pub. L. 93–112, as amended, by the Rehabilitation Act Amendments of 1974, Pub. L. 93–516.
6. The authority vested in the Secretary by Pub. L. 732, 74th Congress, the Randolph-Sheppard Vending Stand Act, as amended by the Rehabilitation Act Amendments of 1974, Pub. L. 93–516.
7. The authority vested in the Secretary under Parts B, C, and D of Title I and the functions relating to developmental disabilities under Title IV of the Mental Retardation Facilities and Community Mental Health Centers Construction Act of 1963, as amended by Pub. L. 91–517, the Developmental Disabilities Service and Facilities Construction Act.
8. Such of the authority under the Public Health Service Act, as amended, as is necessary to carry out the functions exercised, as of August 1, 1967, by the Division of Mental Retardation, authorized by section 303(a), 42 U.S.C. 242a, to make hospital improvement project grants, including institutional improvement project grants and inservice training project grants to hospitals or other institutions for the mentally retarded (such grants require post approval by the National Advisory Mental Health Council and to be paid in advance or by way of reimbursement as may be determined by, and on such conditions as found necessary by, the Assistant Secretary, Human Development).
9. The authority vested in the Secretary by Title V, section 513 of the Public Health Service Act, as amended by Pub. L. 91–296, to conduct evaluation of developmental disabilities programs authorized by Pub. L. 88–164, the Mental Retardation Facilities Construction Act, as amended, and section 303 of the Public Health Service Act.
10. The authority vested in the Secretary by letter dated September 1, 1960, to the Secretary of the Treasury from the Director, Bureau of the Budget, authorizing the carrying out of programs under section 104(k) (now sec. 104(b)(3)) of the Agricultural Trade Development and Assistance Act of 1954, as amended (7 U.S.C. 1704(b)(3)), insofar as this authority pertains to the mission of the Rehabilitation Services Administration: *Provided,* That this authority shall be exercised in accordance with applicable policies and procedures established by appropriate authorities to insure consistency with basic foreign policy and with related Federal programs.
11. The authority vested in the Secretary by section 4 of the International Health Research Act of 1960, Pub. L. 86–610; 74 Stat. 364, 22 U.S.C. 2102, with respect to responsibilities relating to the mission of the Rehabilitation Services Administration: *Provided, however,* That this authority shall be exercised in accordance with applicable policies and procedures established by appropriate authorities to insure consistency with basic foreign policy and with related Federal programs.
12. The authority vested in the Secretary by section 222(d) of the Social Security Act (42 U.S.C. 422(d)), authorizing vocational rehabilitation services to SSDI Beneficiaries from Social Security Trust Funds.
13. The authority vested in the Secretary by sections 1611(e)(13) and 1633 of the Social Security Act, to enter into and administer agreements with State vocational rehabilitation agencies for the referral of certain SSI recipients medically determined to be drug addicts or alcoholics to a treatment facility and for the monitoring of the treatment of such individuals. This includes the authority to approve institutions or facilities to be utilized for such treatment. The following restrictions shall apply with respect to the exercise of this authority:

i. This delegation must be exercised in accordance with all applicable regulations and Social Security Administration policies.

ii. In States where the State vocational rehabilitation agency has refused to enter into an agreement with OHD, the Commissioner of Social Security retains authority to enter into agreements under section 1633 with other appropriate State agencies to carry out the provisions of section 1611(e)(3) of the Social Security Act, as amended, and to approve or disapprove institutions or facilities for the purpose of providing for the referral and monitoring of treatment received by drug addicts and alcoholics at such institutions or facilities.

iii. The authority to terminate agreements with State vocational rehabilitation agencies shall be exercised jointly by SSA and OHD.

iv. All model agreements shall be developed jointly by SSA and OHD, and approved by the Office of the General Counsel.

b. *Limitations on authority.* i. No State plan or amendment thereto submitted pursuant to any statute administered by the Assistant Secretary for Human Development shall be finally disapproved without prior consultation and discussion by the Assistant Secretary for Human Development with the Secretary.

ii. An application for designation as a State licensing agency under the Act of June 30, 1936, as amended (Randolph-Sheppard Act, 20 U.S.C. ch 6A), shall not be disapproved, nor shall a designation made pursuant to that Act be revoked, without prior consultation and discussion by the Assistant Secretary with the Secretary.

iii. The authority delegated for Titles I, II, and III of the Rehabilitation Act of 1973, shall be redelegated to the Commissioner, Rehabilitation Services Administration, in compliance with provisions of section 101(a), Rehabilitation Act Amendments of 1974, Pub. L. 93–516. The authority delegated for Title IV of the Rehabilitation Act of 1973 may be redelegated.

iv. The authority delegated for the Randolph-Sheppard Vending Stand Act, as amended, shall be redelegated to the Commissioner, Rehabilitation Services Administration, in compliance with section 203(a)(1) of the Randolph-Sheppard Act Amendments of 1974 (Title II, Pub. L. 93–516).

(c) *Continuation of Authorities.* All regulations, rules, orders, authorities or statements of policy or interpretation heretofore issued with respect to the Rehabilitation Services Administration are continued in full force and effect until such time as they are specifically modified or superseded.

Dated: January 31, 1975.

CASPAR W. WEINBERGER,
Secretary.

OFFICE OF EDUCATION

Statement of Organization, Functions, and Delegations of Authority

Part 2 (Office of Education) Section 2B, Organization and Functions, of the Statement of Organization, Functions and Delegations of Authority for the Department of Health, Education, and Welfare is hereby amended to attain the purposes of the Education Amendments of 1974, Section 422 by providing the special educational training programs for teachers of Indian children and fellowships for Indian students in graduate and professional programs. Therefore, the statement published in the FEDERAL REGISTER on November 21, 1973 at 38 FR 32157 is hereby amended as follows:

The statement under the heading Bureau of Indian Education is deleted in its entirety and a new statement is added to read as follows:

OFFICE OF INDIAN EDUCATION

The Office of Indian Education administers programs of grants to local educational agencies for elementary and secondary school programs designed to meet the special educational needs of Indian children, and administers grants and, where applicable, contracts with eligible institutions, organizations or agencies for special programs and projects to improve educational opportunities for Indian children and for special programs to improve educational opportunities for adult Indians. Responsible for programs designed to prepare individuals for teaching or administering programs for Indian children and for awarding fellowships to Indian students in graduate and professional programs. Also coordinates other efforts to improve educational opportunities for Indians at all educational levels.

Dated: February 3, 1975.

JOHN OTTINA,
Assistant Secretary for Administration and Management.

[FR Doc.75–3559 Filed 2–6–75;8:45 am]

REHABILITATION SERVICES ADMINISTRATION

Statement of Organization, Functions, and Delegations of Authority

Part 1 of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health, Education, and Welfare is amended to add to Chapter 1R, Assistant Secretary for Human Development, a new Subchapter in accordance with section 101(a) Rehabilitation Act Amendments of 1974, Pub. L. 93–516. The new Subchapter, 1R94, Rehabilitation Services Administration follows:

1R94.00 *Mission.* Acts as principal agency for carrying out Titles I, II, and III of the Rehabilitation Act of 1973, as amended, and the Randolph-Sheppard Act, as amended, administers Title IV of the Rehabilitation Act of 1973, as amended, and provides leadership in the planning, development, and coordination with other OHD programs, including disabled social security applicants and beneficiaries, the developmentally disabled, the blind, and welfare applicants and recipients in accordance with the provisions of the Vocational Rehabilitation Act of 1973, as amended; Title II of the Social Security Act, as amended; the Randolph-Sheppard Act as amended; Parts B, C, and D of the Developmental Disabilities Services and Facilities Construction Act; and sections 301 and 303 of the Public Health Service Act. Within the authorities delegated to it, the Administration: Establishes program goals and objectives; develops standards, program policies, criteria, and guidelines; provides direction and professional consultation to rehabilitation services staff in the regional offices; and assists them in the guidance and leadership of State and local organizations; conducts a program of research and demonstrations to evolve new approaches toward more meaningful lives for the handicapped; directs and promotes a training program to provide skilled manpower for working with those who are handicapped or disabled; maintains relationships with a variety of Federal, State, and local organizations who serve or have an impact upon the handicapped; evaluates progress in meeting the needs of the handicapped and both stimulates national action and takes action to promote improvements; reviews and prepares legislative, administrative, and management actions affecting agency programs and services, and public information operations, and coordinates its activities and programs with other concerned OHD organizations. The Rehabilitation Services Administration has assigned functional responsibilities to various offices and divisions as follows:

1R94.10. *Organization.* The Rehabilitation Services Administration is under the direction of a Commissioner who reports directly to the Assistant Secretary for Human Development. RSA consists of the following organizational elements which report directly to the Commissioner, RSA:

A. Office of Planning and Policy Development.
B. Office of Rehabilitation Research and Demonstration.
C. Division of Special Populations.
D. Office for the Blind and Visually Handicapped.
E. Office for Deafness and Communicative Disorders.
F. Division of Developmental Disabilities.
G. Division of Service Systems.
H. Division of Manpower Development.
I. Division of Planning and Management Assistance.
J. Division of Monitoring and Program Analysis.
K. Division of State Program Financial Operations.
L. Budget Division.

1R94.20 *Functions.* A. Office of Planning and Policy Development provides leadership, under the Commissioner, in policy formulation, program planning and program budgeting for the agency. Designs and directs evaluation activities of all RSA programs in accordance with OHD evaluation policy guidance. Provides direction in overall program planning, program budgeting, provision of information needs of the agency, coordination of agency programs and development of legislative initiatives. Conducts policy and legislative analyses and gives direction to the formulation of agency goals and regulations.

B. *Office of Rehabilitation Research and Demonstrations.* Directs and manages the overall Research and Demonstrations program of the Rehabilitation Services Administration so that it is responsive to program goals and needs, and to overall OHD policy guidance on R&D objectives. Rehabilitation Research and Demonstration grants or contracts are made for the purpose of planning and conducting research, demonstration and related activities which bear directly on the development of methods, procedures, and devices to assist in the provision of vocational rehabilitation services to handicapped individuals. Such projects may include medical and other scientific, technical, methodological, and other investigations into the nature of disability, methods of analyzing it, and restorative techniques; studies and analyses of industrial vocational, social psychological, economic, and other factors affecting rehabilitation of handicapped individuals; special problems of homebound and institutionalized individuals; studies and analyses of architectural and engineering design adapted to meet the special needs of handicapped individuals;

XUM
V40127
FEB 7 75
XUM

and related activities which hold promise of increasing knowledge and improving methods in the rehabilitation of handicapped individuals and individuals with the most severe handicaps. Responsible for preparation and implementation of a yearly and five-year plan for domestic and international rehabilitation research and demonstrations consistent with legislation and policy and priority guidelines set by the OHD. Suggests new and expanded program goals to meet the needs of the handicapped, especially the severely disabled. Maintains relationships with Rehabilitation Services Administration-related research organizations including the National Science Foundation, The National Academy of Sciences and other domestic and international agencies. Conducts research and demonstrations under provisions of Pub. L. 86–610 and section 202(b)5 of the Rehabilitation Act of 1973 as well as interchange of experts and technical assistance under the same provisions.

C. *Division of Special Populations.* Provides for the full development of projects, programs and services for individuals and groups who suffer from specific disabilities, except for blindness and visual handicaps, for deafness and communicative disorders, and for developmental disabilities, or who share common conditions or characteristics, medical or otherwise, which permit categorical identification. Reviews project grant applications as assigned to the Division in accordance with agency guidelines, appropriate evaluative criteria, and central-regional office responsibilities. Assumes leadership for the achievement of agency missions as assigned by the Commissioner on the basis of the division's particular expertise. Provides leadership and consultation to regional offices, State agencies, and other grantees in the development and expansion of rehabilitation programs and services for all disability groups, except for the blind and visually handicapped, for those suffering from deafness and communicative disorders, and those with developmental disabilities. Develops and implements program strategies and approaches to reach public assistance recipients and the disabled residents of target poverty communities (e.g. migratory agricultural workers). Within assigned area of responsibility, collaborates with other appropriate agency staff in the development of guidelines, manual issuances and other directives for existing programs serving various disability groups and for those programs mandated by legislative amendment such as vocational education and juvenile delinquency. Develops appropriate techniques to facilitate client participation in the formulation of program objectives within the agency and at the State agency and other grantee level.

D. *Office for the Blind and Visually Handicapped.* Provides for the full development of projects, programs, and services for individuals who suffer from blindness and visual handicaps. Reviews project grant applications as assigned to the Office for the Blind and Visually Handicapped in accordance with agency guidelines, and appropriate evaluative criteria. Assumes leadership for achievement of agency missions as assigned by the Commissioner on the basis of the office's special expertise. Provides leadership and consultation to regional offices, State agencies, and other grantees in the development and expansion of rehabilitation programs and services for the blind and visually handicapped. Maintains liaison and consultation with national organizations of and for the blind and with the blind community nationwide to serve as a focal point and to provide increased leadership and advocacy for the Nation's blind and visually handicapped. In collaboration with other appropriate agency staff, develops and implements program strategies and approaches to reach blind public assistance recipients and the blind and visually handicapped residents of target poverty communities (e.g., migatory agricultural workers). Within assigned area of responsibility, collaborates with the other appropriate agency staff in the development of guidelines, manual issuances, and other directives for existing programs serving the blind and visually handicapped and for those programs mandated by legislative amendment, such as vocational education and juvenile delinquency. Develops appropriate methods to facilitate client participation in the formulation of program objectives within the agency and at the State agency and other grantee level.

E. *Office for Deafness and Communicative Disorders.* Provides for the full development of projects, programs, and services for individuals who suffer from deafness and communicative disorders. Reviews project grant applications as assigned to the Office for Deafness and Communicative Disorders in accordance with agency guidelines and appropriate evaluative criteria. Assumes leadership for achievement of agency missions as assigned by the Commissioner on the basis of the office's special expertise. Provides leadership and consultation to regional offices, State agencies, and other grantees in the development and expansion of rehabilitation programs and services for those persons suffering from deafness and communicative disorders. Maintains liaison and consultation with national organizations of and for the deaf and with the deaf community nationwide to serve as a focal point and to provide increased leadership and advocacy for the Nation's deaf and those suffering from communicative disorders. In collaboration with other appropriate agency staff, develops and implements program strategies and approaches to reach those persons suffering from deafness and communicative disorders who are on public assistance as well as such persons who are resident in target poverty communities (e.g., migratory agricultural workers). Within assigned area of responsibility, collaborates with other appropriate agency staff in the development of guidelines, manual issuances, and other directives for existing programs serving those suffering from deafness and communicative disorders and for those programs mandated by legislative amendment, such as vocational education and juvenile delinquency. Develops appropriate methods to facilitate client participation in the formulation of program objectives within the agency and at the State agency and other grantee level.

F. *Division of Developmental Disabilities.* Provides leadership, coordination, and guidance for agency programs applicable to individuals with mental retardation and other developmental disabilities. Provides guidelines for and assists academic institutions, state agencies and local community organizations in the planning, administration, and delivery of services, construction of facilities, and in the operation and improvement of resources for the developmentally disabled through the use of specialized or the special adaptation of generic services directed toward the alleviation of a developmental disability or toward the social, personal, physical, or economic habilitation or rehabilitation of an individual affected by such a disability. Provides a central point for information on developmental disabilities programs and services. Reviews State plans and project grant applications as assigned to the Division of Developmental Disabilities, in accordance with agency guidelines and appropriate evaluative criteria. Provides leadership and consultation to regional offices, State agencies and other grantees in the development and expansion of programs and services for the developmentally disabled. Within assigned area of responsibility, collaborates with other appropriate agency staff in the development of guidelines, manual issuances and other directives for existing and new programs serving those with developmental disabilities. Assists in the development of comprehensive State agency planning methods and procedures which embrace services and programs for the developmentally disabled.

G. *Division of Service Systems.* Develops and supports the introduction of program approaches, techniques and methods leading to the establishment and improvement of service delivery mechanisms which are responsive to agency client needs. Reviews project grant applications as assigned to the Division of Service Systems, in accordance with agency guidelines, appropriate evaluative criteria, and central-regional office responsibilities. Assumes leadership for the achievement of agency missions assigned by the Commissioner on the basis of the division's particular expertise. Develops comprehensive agency programs, designs and models, and prepares manual chapters and standards to facilitate improved client service and to coordinate public and private programs. Assists the Division of Planning and Management Assistance in developing a program of technical consultation and assistance to other departments, regional offices, State agencies, and other

grantees to accomplish the Division mission. Provides leadership in the development of new projects with industry under the legislative mandate and promotes employer interest in hiring the handicapped. Collaborates in development of demonstration programs to test concepts in community multiservice delivery, linkage development, and special purpose centers. Prepares pertinent inputs to the management information system. Provides consultative assistance in the architectural aspects and design of public and non-profit facilities provided for the diagnosis, treatment, education, vocational training care, and provision of maintenance services for the disabled. Within assigned area of responsibility, collaborates with other appropriate agency staff in the development of guidelines, manual issuances and other directives for existing and new programs for the support of service delivery system.

H. *Division of Manpower Development.* Provides and expands training opportunities and materials for professional, technical, and subprofessional persons to meet the manpower requirements of State and other agencies responsible for providing rehabilitation and habilitation services. Reviews project grant applications as assigned to the Division of Manpower Development in accordance with agency guidelines and appropriate evaluative criteria. Assumes leadership for the achievement of agency missions as assigned by the Commissioner on the basis of the division's particular expertise. Develops guidelines and analytic procedures to measure the need for and progress in the training of all manpower training programs financed under agency appropriations. Works with State agencies and the Division of Planning and Management Assistance to assess requirements and develop plans and programs for training professional and paraprofessional staff to meet manpower needs in agency supported programs. Stimulates grant applications from educational and other institutions. Prepares and disseminates guidance materials for volunteers to serve in agency sponsored programs. Encourages the development of innovative instructional materials and methods. Plans and conducts short-term training courses for the purpose of generating new knowledge in program areas of high priority to the Department and the agency.

I. *Division of Planning and Management Assistance.* Provides non-financial technical support and assistance to regional offices, State agencies and other grantees across agency programs. Develops planning and management procedures and methods of common application and implements such systems leading to improvement in overall program performance and goal achievement. Provides leadership in development of planning, operations, and management tools and methods to serve State agency and other grantee programs. With the assistance of the divisions concerned with program development, designs and provides consultative assistance in implementation of new program techniques through manual chapter instructions, guide materials, and on-site visits. Provides staff support and assistance to facilitate decentralization of agency functions in cooperation with field operations staff. Evaluates and assists State agencies in the development of comprehensive state plans.

J. *Division of Monitoring and Program Analysis.* Develops and applies evaluative tools and indicators for the purpose of measuring State agency and other grantee program performance. Makes appropriate recommendations and reports leading to program changes, policy decisions, and legislative amendments. Designs and maintains information systems needed for management and program decision-making. Conducts statistical analysis and studies of individuals comprising the handicapped population and State agency program operations. Develops and implements a program monitoring system of all agency financial operations and services. Conducts analyses, makes reports and appropriate recommendations concerning State agency and other grantee program performance and goal achievement including the Program Administrative Review (PAR). Conducts on-site evaluations and investigations of State agency programs and other grantee operations, including Research and Training Centers, university sponsored training programs, etc. Makes recommendations to upgrade and improve the agency data base and information systems. Provides leadership in conducting decision analyses and review of the essential data requirements of the agency leading to the design of management information systems. Collaborates with component agencies of OHD and the department in the development of data systems to meet the needs of other bureau executives and administrators. Provides direction in the administration and implementation of the agency program of data reduction, factor analysis and statistical reporting. Prepares data reports and publications for various departments, State agencies, and other user groups, in cooperation with public information staff.

K. *Division of State Program Financial Operations.* Provides for the financial management of RSA formula grant programs. Provides support services in financial management with RSA and to regional offices, State agencies and across all agency programs. Develops a financial plan for the administration of RSA project grants. Develops procedures, provides leadership, and evaluates the development and implementation of program and financial planning activities of the PPBS type by State agencies. Assists State agencies in developing capabilities to provide program financial inputs to overall RSA short and long-term program planning. Consolidates the administration of agency grant programs. Assists the Budget Division in the formulation, justification and execution of the legislative budget including the budgetary call for estimates from State agencies. In cooperation with the Division of Planning and Management Assistance, provides financial consultative support to regional offices and State agencies, including preparation of pertinent manual chapters, forms, and other assistance. Applies statutory formulae for allotment of funds across all agency appropriations. Makes analyses of and coordinates all audit reports for the agency.

Monitors the accuracy and timeliness of State agency fiscal reports and financial data. Designs and develops systems for processing program financial data and reports, and interprets administrative and fiscal policies and procedures governing the use of formula grants funds, including the cost principles to be applied in the preparation of grant applications and budgets. Makes special studies of problem areas in the application of fiscal management policies, procedures and standards. Prepares uniform terminology standards of policies and procedures for grants administration and fiscal management. Reviews new legislation and legislative proposals relating to grants to determine their conformance with established grant policies and recommends policy revisions when necessary. Establishes and maintains working relationships with other Federal agencies, grantee institutions and State agencies in order to develop and coordinate grant policies and procedures. Establishes and maintains proper fiscal management, including the accountability of funds, for grant programs administered by RSA which are delegated to Regional Offices.

L. *Budget Division.* Provides budgetary services and assistance to the agency and maintains associated liaison services with the OHD. In conjunction with the Division of State Program Financial Operations and in cooperation with other program units, formulates, justifies, and executes the legislative budget. Provides technical assistance in ensuring implementation of HD budgetary directives. Assists the Division of State Program Financial Operations in preparation of financial reports and summaries, and adoption of improved internal financial analysis procedures and methods. Cooperates with other program units in the formulation of short and long-term program financial planning methods.

1R94.30 *Delegation of Authority.* Except as provided in sec. 1A–30 of the DHEW Organizational Manual and in sec. 400(b) of the Rehabilitation Act of 1973, and pursuant to the provisions of sec. 3(a) of the Rehabilitation Act of 1973, as amended by sec. 101(a) of the Rehabilitation Act Amendments of 1974, the Commissioner, Rehabilitation Services Administration, has been delegated the authority to administer Titles I, II, and III, of the Rehabilitation Act of 1973, Pub. L. 93–112 (29 U.S.C. 701 et seq. Chap. 16), as amended by the Rehabilitation Act Amendments of 1974. The Commissioner also has been delegated the authority to administer Title IV of the Rehabilitation Act of 1973, as amended; and pursuant to sec. 2(a)(1) of the Randolph-Sheppard Act, as amended by sec. 203(a)(1), Title II, Pub. L. 93–516, the authority to administer the Randolph-Sheppard Act, as amended.

PHYSICAL THERAPY SERVICES

Schedule of Guidelines

SCHEDULE OF GUIDELINES UNDER HEALTH INSURANCE PROGRAM

Notice is hereby given that the schedule of guidelines for evaluating the costs of physical therapy services furnished under arrangements in the Medicare program has been established by the Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare. This schedule is applicable to cost reporting periods beginning after the month in which final regulations implementing section 251(c) of Pub. L. 92-603 (i.e., 20 CFR 405.432) become effective.

SCHEDULE OF GUIDELINES FOR PHYSICAL THERAPY SERVICES FURNISHED UNDER ARRANGEMENTS

ADJUSTED HOURLY SALARY EQUIVALENCY AMOUNTS AND STANDARD TRAVEL ALLOWANCES FOR QUALIFIED PHYSICAL THERAPISTS (FULL TIME, REGULAR PART TIME, OR HOME VISITS)

(THIS SCHEDULE IS NOT TO BE USED FOR PHYSICAL THERAPY ASSISTANTS OR AIDES.)

	Adjusted hourly salary equivalency amount	Standard travel allowance
Alabama	$9.00	$4.50
Alaska [1]	[1] 12.00	6.00
Arizona	9.60	4.80
Arkansas	7.70	3.85
California	9.60	4.80
Colorado	7.70	3.85

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[Docket No. 13542; Notice No. 74-5D]

AIRWORTHINESS REVIEW PROGRAM

Availability of Conference Summary

From December 2 through 11, 1974, the Federal Aviation Administration conducted a conference in Washington, D.C., as a part of the 1974-1975 Airworthiness Review Program. Information relating to the objectives of the program, to its operation, and specifically to that conference are contained in the following notices that have been published in the FEDERAL REGISTER:

Notice No. 74-5 (39 FR 5785) February 15, 1974;

Notice No. 74-5A (39 FR 18662) May 29, 1974;

Notice No. 74-5B (39 FR 38594) October 11, 1974; and

Notice No. 74-5C (39 FR 41319) November 26, 1974.

The FAA now announces the availability of a document, entitled Conference Summary. That document contains:

(1) The committee chairmen's summaries of the agenda item discussions that took place at the conference;

(2) Copies of certain addresses given at the opening and closing plenary sessions of the conference; and

(3) A list of those who registered for the conference.

As indicated in Notice No. 74-5B copies of the Conference Summary are being forwarded to those persons who registered at the Conference, and a copy has been placed in the Rules Docket for the 1974-1975 Airworthiness Review Program. In addition, copies are being forwarded to other persons who have indicated an interest in the Program. A limited number of copies of the Conference Summary may remain after this distribution. Until the supply is exhausted, a copy may be obtained by writing the Federal Aviation Administration, Flight Standards Service, Attention: Airworthiness Review Staff, AFS-70, 800 Independence Avenue SW., Washington, D.C. 20591.

This notice is issued under the authority of section 313(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on February 4, 1975.

C. R. MELUGIN, Jr.,
Acting Director,
Flight Standards Service.

National Highway Traffic Safety Administration

HIGHWAY SAFETY PROGRAMS

Semi-Annual Qualification Testing of Evidential Breath Measurement Devices

In accordance with the National Highway Traffic Safety Administration Standard for Devices to Measure Breath Alcohol, published in the FEDERAL REGISTER November 5, 1973 (38 FR 30459), qualification testing of evidential breath testers is scheduled to be performed during February and March 1975. Manufacturers wishing to submit devices for evaluation must apply for a test date, not later than February 18, 1975, to the Transportation Systems Center, Kendall Square, Cambridge, Massachusetts 02142, Attention A. L. Flores/641.

(23 U.S.C. 402, 403)

Issued on January 31, 1975.

FRED W. VETTER, JR.,
Associate Administrator,
Traffic Safety Programs.

ATOMIC ENERGY COMMISSION

HARRISONVILLE TEST ANNEX

Trespassing on Commission Property

Correction

FR Doc. 75-2424, which appeared on page 4194 of the issue for Tuesday, January 28, 1975, was inadvertently placed under the Nuclear Regulatory Commission. It should have been carried under the Atomic Energy Commission as set forth above, and in the text of the document Nuclear Regulatory Commission should be amended to read "Atomic Energy Commission" wherever it appears.

CIVIL AERONAUTICS BOARD

[Docket No. 27468; Order 75-2-14]

COACH PASSENGERS

Order Regarding Free Alcoholic Beverages Service

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 4th day of February, 1975.

As stated in a press release issued on November 13, 1974, the Board is concerned that the practice recently instituted by some carriers of serving free alcoholic beverages in coach service will have an adverse economic impact on the price of air transportation. Although the Board had been informed that the carriers involved would discontinue free service of hard liquor to coach passengers early in 1975, the carriers have now decided to continue this practice. Each carrier claims that competition requires continuation of its own free beverage policy, including the service of complimentary wine or champagne with meals.

The Board has received hundreds of letters from air passengers and from Congressmen and Senators with respect to this practice, principally stating opposition of nonusers to being charged for the service in their air fares. Certainly, the erosion of revenues incurred by not charging for alcoholic beverages in the coach compartment, coupled with the continued expense of providing such service, can only add to the already substantial cost squeeze faced by the carriers. Particularly at this time of scarce resources and rising costs, it is highly questionable for the carriers to compete for traffic by indulging in such giveaways.

While as a general proposition the provision of in-flight amenities has been viewed as a matter left to carrier discretion, we cannot ignore instances where complimentary services that are not integral to air transportation might adversely affect air fares. We are therefore requiring by this order that the trunkline air carriers submit data relating to the costs of providing in-flight alcoholic beverage service in coach class, in order that we shall have sufficient information to evaluate the effect of continuation or proliferation of the free-drink policy and to determine what further Board action may be necessary to assure that passenger fares are not affected.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 407(a) thereof:

It is ordered, That:

1. The carriers listed in paragraph 2 below shall file with the Board's Docket Section, within 30 days from the date of this order, five copies of the information set forth in Appendix A attached hereto.

2. This order shall be served upon American Airlines, Inc., Braniff Airways, Inc., Continental Air Lines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., National Airlines, Inc., Northwest Airlines, Inc., Pan American World Airways, Inc., Trans World Airlines, Inc., United Air Lines, Inc., and Western Air Lines, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

APPENDIX A.—*Alcoholic beverage report domestic 50-State operations, carrier:*

Data	Calendar year 1973	1974	Estimated 1975 [1]

[Docket No. 27464]

HUGHES AIRWEST

Application for Amendment of Certificate of Public Convenience and Necessity

FEBRUARY 4, 1975.

Notice is hereby given that the Civil Aeronautics Board on February 3, 1975, received an application, Docket 27464, from Hughes Air Corp. d/b/a Hughes Airwest for amendment of its certificate of public convenience and necessity for route 76 to provide Oakland-Las Vegas/Phoenix nonstop service.

The applicant requests that its application be processed under the expedited procedures set forth in Subpart M of Part 302 (14 CFR Part 302).

[SEAL] EDWIN Z. HOLLAND,
Secretary.

OVERSEAS NATIONAL AIRWAYS, INC., ET AL.

Enforcement Proceeding; Postponement of Hearing

The Enforcement Attorney has requested a two to three week postponement of the hearing in this proceeding because of conflicting commitments in other proceedings. The Enforcement Attorney states that attorneys for the respondents have been contacted and do not object to the requested postponement.

Accordingly, the hearing now scheduled for February 25, 1975 (40 FR 2464, January 13, 1975), is hereby postponed to March 18, 1975, at 10 a.m. (local time), in Room 911, Universal Building, 1825 Connecticut Ave. NW., Washington, D.C., before the undersigned.

Dated at Washington, D.C., February 3, 1975.

[SEAL] ALEXANDER N. ARGERAKIS,
Administrative Law Judge.

COUNCIL ON ENVIRONMENTAL QUALITY

ADVISORY COMMITTEE ON ALTERNATIVE AUTOMOTIVE POWER SYSTEMS

Meeting

Notice is hereby given that the Council on Environmental Quality's Advisory Committee on Alternative Automotive Power Systems will hold its next meeting in Washington, D.C., on February 13 and 14, 1975. The sessions, which are open to the public will commence both days at 9 a.m. in Room 2010, New Executive Office Building, 726 Jackson Place NW.

This meeting will focus primarily upon the role of the Alternative Automotive Power Systems program under the newly formed Energy Research and Development Administration.

A list of advisory committee members is available from, and requests for additional information should be made to: Barrett J. Riordan, Council on Environmental Quality, 722 Jackson Place NW., Washington, D.C. 20006.

GARY WIDMAN,
General Counsel.

[FR Doc.75-3545 Filed 2-6-75;8:45 am]

ENVIRONMENTAL IMPACT STATEMENTS

Availability

Environmental impact statements received by the Council on Environmental Quality from January 27 through January 31, the date of receipt for each statement is noted in the statement summary. Under Council Guidelines the minimum period for public review and comment on draft environmental impact statements is forty-five (45) days from this FEDERAL REGISTER notice of availability. (March 24, 1975) The thirty (30) day period for each final statement begins on the day the statement is made available for review from the originating agency. Back copies will also be available at cost, from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

DEPARTMENT OF AGRICULTURE

Contact: David Ward, Acting Coordinator, Environmental Quality Activities, Office of the Secretary, U.S. Department of Agriculture, Room 331-E, Administration Building, Washington, D.C. 20250, (202) 447-3965

FOREST SERVICE

Final

South Fork Payette River Planning Unit, Boise National Forest, Boise County, Idaho, January 30: The statement concerns the

XUM V40-27 FEB 7 75 XUM

land use plan for the 232,541 acre South Fork Payette River Planning Unit in Boise National Forest. The unit is divided into four management areas and will be developed according to one of three alternatives. Adverse effects on vegetation soil, scenic, wildlife and watershed values are expected (44 pages). Comments made by: (ELR Order No. 50155.)

RURAL ELECTRIFICATION ADMINISTRATION

Final

Minnkota Power Transmission Line, several counties, Minnesota, January 28: Comments made by: USDA, DOT, FPC, DOI, EPA. (ELR Order No. 50131.)

SOIL CONSERVATION SERVICE

Draft

Big Mortar-Snuff Box Swamp Watershed Project, Long and McIntosh Counties, Georgia, January 27: The project proposes conservation land treatment measures, dikes, peripheral canals, streambank erosion control, and fish and wildlife measures in Long and McIntosh Counties, Georgia. Flood protection will be provided for approximately 50,389 acres of forest and agricultural land. Clearing operations will lower wildlife habitat values on approximately 1,160 acres, project canals will replace about 250 acres of forest land. The increased access possible on about 49,340 acres of forest land may increase the fire hazard (37 pages). (ELR Order No. 50124.)

Deer Creek Watershed, Worth County, Iowa, January 29: Proposed is a project for watershed protection, flood prevention, and drainage in Worth County, Iowa. The project will provide drainage outlets to 27,300 acres for a minimum of 50 years. The aquatic habitat will be lost in 15 miles and reestablished in a modified form. Crop production will be lost on 5 acres, and forest production on 26 acres. (ELR Order No. 50139.)

DEPARTMENT OF COMMERCE

Contact: Dr. Sidney R. Galler, Deputy Assistant Secretary for Environmental Affairs, Department of Commerce, Washington, D.C. 20230, (202) 967-4335.

ECONOMIC DEVELOPMENT ADMINISTRATION

Final

S & S Corrugated, New York, January 27: Proposed is the granting of financial assistance to the S & S Corrugated Paper Machinery Co. in Brooklyn, in order to construct a building and to purchase machinery and equipment for the expansion of production capacity. A number of residents of the area have already moved due to related property condemnations. Comments made by: DOI, DOT, AHP, EPA, one State agency and the applicant. (ELR Order No. 50129.)

DEPARTMENT OF DEFENSE

AIR FORCE

Contact: Dr. Billy Welch, Room 4D 873, The Pentagon, Washington, D.C. 20330, (202) OX 7-9297.

Final

Over the Horizon Radar (OTH), (2), Somerset and Washington Counties, Maine, January 31: Proposed is the design and construction of an OTH-B radar system in the United States. A prototype system would be built and tested in Maine until 1979, and if successful, a larger operational OTH-B radar will be built. Adverse impacts include interference with radio and TV reception, air, noise, and water pollution, and the commitment of 650 acres of productive land to the receiver site (380 pages). Comments made by: HEW, DOC, EPA, DOI, State and local agencies and concerned citizens. (ELR Order No. 50157.)

ARMY

Contact: Mr. George A. Cunney, Jr., Acting Chief, Environmental Office, Directorate of Installations, Office of the Deputy Chief of Staff for Logistics, Washington, D.C. 20310, (202) OX 4-4269.

Final

Blackbird Control, Army Installations, Kentucky and Tennessee, January 27: The statement refers to the proposed reduction of blackbird populations that have established winter roosts at Fort Campbell, Kentucky, and Milan Army Munition Plant, Tennessee. The roosts would be treated with Compound PA-14, Avian Stressing Agent, a biodegradable wetting agent. Operations would be conducted in cooperation with the Department of the Interior. An increase in soil insect populations may result. If the operation is successful, disposal of bird carcasses may be a problem: at Fort Campbell they would be removed to a landfill; at Milan they would be left to decay. Army has requested a waiver of a portion of the thirty day waiting period, to be ended February 3, 1975, or after. Comments made by: EPA, USDA, DOC, DOT, HEW, concerned citizens and organizations. (ELR Order No. 50117.)

ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attn: DAEN-PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, (202) 693-7168.

Draft

Lost River Mining Project, Permit Application, Alaska, January 27: The statement refers to the permit application of The Lost River Mining Corporation Limited for construction of a marine terminal to facilitate removal of 1,750,000 tons of ore per year for a minimum of 16 years. The marine terminal is part of a larger complex, community, airport, and surface transportation system. Adverse impacts include loss of undetermined number of plants and animals, total loss of Rapid River Valley, and the release of an undetermined amount of pollutants into the atmosphere (Alaska District). (ELR Order No. 50118.)

Keenwick West Addition, Sussex County, Delaware, January 27: The statement refers to a permit action filed by William G. Adkins of Adkins Realty, concerning a permit for the dredging of six unbulkheaded lagoons which would be in connection with Roy Creek. The project will provide recreational areas near Fenwick Island. Adverse impacts include disrupted bottom biota and construction on wildlife habitat (Philadelphia District) (78 pages). (ELR Order No. 50123.)

Pebble Beach-Indianola Development Permit, Ocean County, New Jersey, January 29: The statement concerns the permit application by the Mayer Corp. for the Dredging and bulkheading of the Peble Beach-Indianola area. The proposed action will allow the construction of approximately 393 single family residences in the northern portion of the largely completed site. Adverse impacts include destruction of marsh salt, elimination of vegetation and habitat on wetlands and low and upland forests, and temporary turbidity, noise and erosion (Philadelphia District). (ELR Order No. 50132.)

Transmission Cable Permit Application, Long Island, Nassau County, New York, January 30: The proposed action is the issuance of a construction permit to the Long Island Lighting Company and Con Edison to dredge, excavate, dispose of material, backfill, and install two steel conduits and associated cables across Long Island Sound, and to install five steel conduits across Hempstead Harbor, New York. Adverse impacts include the destruction of benthic organisms through dredging, and the blasting of 600 feet of rock (New York District) (50 pages). (ELR Order No. 50154.)

Gallipolis Locks and Dam Replacement, Ohio River, Ohio and West Virginia, January 27: The statement refers to the modernizing of the existing dam and replacing the existing navigation locas with new locks in a bypass canal. The plan entails adding a bulkhead system to the existing piers, the construction of two 1200' X 110' chambers, dredging and excavation. Deposition of the excavated material will eliminate 535 acres of agricultural land. Industrial development in the Ohio Valley will also replace agricultural land on the flood plain (Huntington District). (ELR Order No. 50120.)

Huron Harbor, Operations and Maintenance, Erie County, Ohio, January 27: The project entails maintenance of the 3523-foot west pier, the 1450-foot east breakwater, the 200-foot steel sheet pile shore protection and the existing 25-foot project depth in the lake approach and entrance channel. Polluted sediments dredged from the harbor will be deposited in an open lake dumping site in 1975 and in a diked disposal facility (now under construction) in 1976. Adverse impacts include annual disruption of the aquatic ecosystem, adverse effects upon water quality, recreation, aesthetics, and boat traffic during dredging (Buffalo District). (ELR Order No. 50121.)

Freeport Harbor, Diked Disposal Facility, Ohio, January 27: Proposed is the construction and operation of a 100 acre diked disposal facility to receive polluted sediments from Fairport Harbor, Ohio. The facility is designed to accomodate 360,000 cu. yds. of material annually for 10 years. Fishing and water recreation areas of Lake Erie at Fairport will be reduced by 100 acres (Buffalo District). (ELR Order No. 50128.)

Final

Upper Mississippi River, 9 Ft. Channel, Pools 11-2, January 29: The final statement addresses the combined impacts of operation and maintenance dredging on the navigation system from Guttenburg, Iowa (Pool 11) to Saverton, Missouri (Pool 22). For the draft analysis, separate draft statements were filed for each of the eleven pools involved; the pools are situated along a 314 mile stretch of the river. The statement indicates that the disposal of dredged material will lower water quality and will adversely affect land disposal sites (Rock Island District) (four volumes). Comments made by: EPA, USDA, DOD, HUD, DOI, DOT, USCG, FPC, State and local agencies. (ELR Order No. 50134.)

Carence J. Brown Dam and Reservoir, Clark County, January 29: Proposed is the completion of the remaining five percent of construction, operation, and maintenance activities at the dam, which is located on Buck Creek and the mainstem of the Mad River, in the Miami River Basin. The project will result in the creation of a 2,120 acre seasonal lake, for the purposes of floodcontrol, water quality, recreation, and fish and wildlife activities. Five miles of free flowing stream, 50 acres of flood plain forest, 2,000 acres of agricultural land, and the 340 acre Reid Memorial Park will be inundated (Louisville District). Comments made by: (ELR Order No. 50137.)

Dillingham Small Boat Harbor, Alaska, January 29: Proposed is the maintenance dredging of the Dillingham Small Boat Harbor to authorized dimensions. Typical maintenance involves the dredging of 60,000 cu. yds. of material annually. Adverse impact includes that resulting from the disturbance of marine biota, and from the commitment of land to spoil disposal. Comments made by: DOI, DOC, USCG, EPA, State agencies. (ELR Order No. 50135.)

Intracoastal Waterway, Jacksonville to Miami, several counties, Florida, January 29: The statement refers to the proposed removal of 172,000 cu. yds. of shoal material from the channel, and placing it in diked upland areas and as nourishment on a county beach south of Jupiter Inlet. There will be adverse impact to marine life, with turtle nests at the nourishment site perhaps being destroyed.

Comments made by: USCG, USDA, DOT, DOC, OEO, State agencies. (ELR Order No. 50133.)

Saint John River Flood Protection, Fort Kent, Aroostook County, Maine, January 30: The statement refers to the local flood protection project designed to afford protection to the residents of Fort Kent, Aroostook County. The plan selected calls for the construction of an earth dike on the Saint John River, a pumping station and appurtenances, a pressure conduit and a raised roadway at Fort Kent. Adverse impacts are the loss of part of the shore line, and temporary noise and dust associated with construction (Waltham District) (61 pages). Comments made by: DOI, EPA, HUD, HEW, State agencies. (ELR Order No. 50153.)

Coal Unloading, Lake Superior and Ishpeming RR, Michigan, January 27: The statement refers to the proposed granting of a permit by the Corps of Engineers for construction by the Lake Superior and Ishpeming Railroad of a new coal unloading facility in the Upper (Presque Isle) Harbor at Marquette, Michigan. Negative factors resulting from the construction would include increased water turbidity and reduced visual attractiveness (St. Paul District). Comments made by: DOC, DOI, USCG, FPC, State agencies and concerned citizens. (ELR Order No. 50126.)

ENVIRONMENTAL PROTECTION AGENCY

Contact: Mr. Sheldon Meyers, Director, Office of Federal Activities, Room 3630, Waterside Mall, Washington, D.C. 20460. 202-755-0940.

Final

Crabtree Creek, Wake County, N.C., January 30: The statement refers to the awarding of grant funds for the construction of an interceptor sewer line to service the upper drainage basin of Crabtree Creek. The present EPA grant offer is $2,445,750 of a total estimated cost of $5,300,000 for approximately 92,000 linear feet of pipe sized from 48" to 12", 12,000 linear feet of 20" force main, and one pumping station. Construction erosion and sedimentation and objectionable odors may result (231 pages). Comments made by: (ELR Order No. 50156.)

GENERAL SERVICES ADMINISTRATION

Contact: Mr. Andrew E. Kauders, Executive Director of Environmental Affairs, General Services Administration, 18th and F Streets, NW., Washington, D.C. 20405, 202-343-4161.

Final

Social Security Administration Facilities, Baltimore, Baltimore County, Md., January 14: Proposed is the consolidation of Social Security Administration office and data processing facilities at two sites, one adjacent to SSA headquarters in Woodlawn, the other, Metro West, in the Orchard-Biddle Neighborhood Development Project in Baltimore. The former facility will comprise 697,000 gross square feet, the latter 1,335,000 gross square feet, including structural parking for 500 vehicles (two volumes). Comments made by: HUD, OEO, OMB, GSA, DOT, DOI, AHP. (ELR Order No. 50072.)

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Acting Director, Office of Environmental Quality, Room 7206, 451 7th Street SW., Washington, D.C. 20410, 202-755-6295.

Draft

Church-Muaser Urban Renewal Program, Lancaster County, Pa., January 29: The statement concerns the redevelopment of 120.2 acres of land containing 1,261 structures (1,132 residential) and 1,402 dwelling units. Of these, clearance is planned for 443 structures, and rehabilitation for 92 percent of the remaining 818. Adverse impacts include the temporary or permanent relocation of families and businesses and possible damage through demolition to adjacent properties. (ELR Order No. 50138.)

Water Mill Lane Project, Long Island: As a result of the Environmental Impact Statement and comments made by other agencies, as well as fiscal constraints, the HUD Regional Office will be issuing a letter of rejection concerning the Water Mill Lane Project, Long Island, N.Y., to CEQ and all those agencies who commented on the Draft Environmental Impact Statement. HUD does not intend to issue a Final EIS on the project.

The Council on Environmental Quality announced January 30, 1975, receipt of the first draft environmental impact statement prepared under new procedures in the Housing and Community Development Act of 1974 which requires cities to undertake the environmental reviews previously done at the Federal level by the Department of Housing and Urban Development. The new procedures are part of a general effort in the Act to give greater responsibility and authority to localities over housing, renewal, and other projects. The first EIS was filed by the City of San Francisco on its community development and housing plans for 1975.

Section 104(h) of the Housing and Community Development Act of 1974 transfers the Federal environmental review responsibilities of HUD to local communities which apply for block grant funds under Title I of the Act.

The draft EIS prepared by the Planning Department of the City of San Francisco represents the City's proposal for distribution of its block grant funds, and puts priority on rehabilitation of existing housing, development of neighborhood centers, renovation of recreation facilities, improvements in traffic control, and beautification projects in residential areas.

Chairman Russell W. Peterson of the Council noted that this new approach of delegating environmental responsibilities to the 1700 urban areas eligible for block grants under the Act makes a strong step in the direction of achieving a better urban environment. "The cities now have the opportunity to use these Federal funds as their citizens think best, with a minimum amount of second-guessing from Washington, and with assurance that the community has reviewed and discussed the full environmental effects of alternative ways of spending these funds."

Draft

Community Development and Housing Proposal, Block Grant, San Francisco, Calif., January 30: The statement refers to the anticipated allocation of $28.6 million in federal funds to the city of San Francisco. Of that amount, $9.5 million has already been committed to continue existing redevelopment, concentrated code enforcement and Model Cities projects. Another $12.5 million will be spent toward the completion of other existing programs, and $6.6 million used to begin new projects. Adverse impacts include the displacement of families and construction disruption. (ELR Order No. 50158.)

DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240, 202-343-3891.

Final

Proposed Chugach N.F. Additions, Alaska, January 29: The statement refers to the proposed addition of 672,000 acres of public lands to the Chugach National Forest. Management would be in accordance with the laws, rules, and regulations applicable to the Forest Service. Short term exploration of the Forest resources will be limited in order to maintain a sustained yield of goods and services (416 pages). Comments made by: USDA, DOD, DOC, EPA, DOT, DOI, and state agencies and organizations. (ELR Order No. 50143.)

BUREAU OF OUTDOOR RECREATION

Final

Proposed Fortymile National Wild River, Alaska, January 29: Proposed is the legislative designation of 375 miles of the Fortymile River drainage system and an adjacent 320,000 acres of land along the United States-Canada border as a component of the National Wild and Scenic Rivers System. Administration would be by the Bureau of Land Management. Mining in scenic and recreational river areas will be permitted under regulations to provide safeguards against pollution and unnecessary impairment of the scenery. The overall affect of the action would be the preservation of existing scenic, recreational, historic, and water quality values (422 pages). Comments made by: USDA, DOD, DOC, EPA, HEW, HUD, DOT, DOI, and state agencies. (ELR Order No. 50144.)

Proposed Unalakleet Wild River, Alaska, January 29: The statement refers to the proposed legislative designation of 60 miles of the Unalakleet River and 104,000 acres of adjacent land in the Norton Sound region of northwest Alaska as a component of the National Wild and Scenic Rivers System. Inclusion of the land will have the overall effect of preserving the existing scenic, recreational, and water quality values of the river. Adjacent lands would be retained in their existing primitive condition (386 pages). Comments made by: USDA, DOD, DOC, EPA, HEW, HUD, DOT, DOI, and state agencies. (ELR Order No. 50145.)

Proposed Birch Creek National Wild River, Alaska, January 29: The statement refers to the legislative designation of a 135 mile segment of Birch Creek and 200,000 acres of adjacent land in the center of Interior Alaska as a component of the National Wild and Scenic Rivers System. The overall effect of the action is the preservation of existing scenic, recreational, and water quality values (404 pages). Comments made by: USDA, DOD, DOC, EPA, HEW, HUD, DOT, DOI, and state agencies. (ELR Order No. 50146.)

BUREAU OF SPORTS FISHERIES AND WILDLIFE

Final

Proposed Alaska Coastal National Wildlife Refuge, Alaska, January 29: The statement refers to the proposed legislative designation of 65,000 acres of public lands along the coast of Alaska as the Alalik, Barren Islands, Bering Sea, Chukchi Sea, Kodiak, and Shumagin Islands National Wildlife Refuges. (This would amount to the establishment of four new refuges, and additions to the other two.) Additional lands within the area of ecological concern would be acquired by the Secretary of the Interior, should they become available. The lands of the Refuges would be withdrawn from all forms of appropriations under the public land laws, including the mineral leasing laws (678 pages). Comments made by: AHP, DOD, DOC, EPA, DOT, DOI, and State agencies (ELR Order No. 50140.)

Proposed Noatak National Arctic Range, Alaska, January 29: The statement refers to the proposed designation of 7.5 million acres of public lands in the Noatak and Squirrel River basins of northwestern Alaska as the Noatak National Ecological Range. The Range would be managed by the BLM, and be placed under a twenty year development moratorium. Additionally, 265 miles of the Noatak River would be designated as a component of the National Wild and Scenic Rivers System. The ecological range would be closed to all forms of appropriation under the public laws; comprehensive studies would be made of the area's natural resource values, including minerals and wilderness; the Secretary would report his findings to Congress in 20 years. Comments made by: USDA, DOD, DOC, EPA, DOT, DOI, and state agencies. (ELR Order No. 50141.)

Arctic National Wildlife Refuge, Alaska, January 29: The statement refers to the proposed addition of four million acres of public lands to the Arctic National Wildlife Refuge, and the legislative designation of the combined area as the Arctic National Wildlife Refuge. The Secretary of the Interior would be authorized to acquire private lands, and to withdraw the area from all forms of entry and appropriation under the public lands laws, including the mining and mineral leasing laws. The Refuge would be further studied for possible inclusion in the National Wilderness Preservation System. The action will result in the denial of intensive resource development (668 pages). Comments made by: USDA, DOD, DOC, EPA, DOT, DOI, and State agencies. (ELR Order No. 50147.)

Proposed Togiak National Wildlife Refuge, Alaska, January 29: The statement refers to the proposed designation of 214,600 acres of public interest lands and 2,626,500 acres of national interest lands, 587,300 acres of refuge replacement lands and 2,800 acres of public domain lands, as well as the 247,700 acre Cape Newenham National Wildlife Refuge, as the Togiak National Wildlife Refuge. The Refuge would be administered by BSFW, and would be studied for possible inclusion in the National Wilderness Preservation System. Additionally, 60 miles of the Kanektok River would be designated as a Wild River. Potential long-term adverse impact would result from the denial of intensive resource development (546 pages). Comments made by: AHP, USDA, DOD, DOC, EPA, FPC, DOT, DOI, and State agencies. (ELR Order No. 50148.)

Proposed Yukon Delta National Wildlife Refuge, Alaska, January 29: The statement refers to the proposed legislative designation of 4.7 million acres of public lands adjacent to the Clarence Rhode National Wildlife Refuge as the Yukon Delta National Wildlife Refuge. Public lands within an area of ecological concern, including the Clarence Rhode National Wildlife Range and the Hazen Bay Migratory Waterfowl Refuge would be acquired by the Secretary of the Interior, should they become available. The lands would be withdrawn from all forms of appropriation under public land laws, including the mining and mineral leasing laws; the Yukon Refuge would be studied for possible inclusion in the National Wilderness Preservation System (257 pages). Comments made by:. USDA, DOD, DOC, HUD, HEW, EPA, FPC, GSA, DOI, DOT, and State agencies. (ELR Order No. 50150.)

Selawik National Wildlife Refuge, Alaska, January 29: Proposed is the legislative designation of 1.4 million acres of public lands east of Kotzebue Sound as the Selawik National Wildlife Refuge. (Included would be the Chamisso National Wildlife Refuge.) The Secretary of the Interior would be granted authority over all navigable waters within the Refuge, and would be authorized to purchase private inholdings as they become available. The lands of the Refuge would be withdrawn from all forms of appropriation under public land laws, including mining and mineral lease laws; and the Refuge would be studied for possible inclusion in the National Wilderness Preservation System (632 pages). Comments made by: USDA, DOC, DOD, EPA, DOT, DOI, and State agencies. (ELR Order No. 50151.)

NATIONAL PARK SERVICE

Final

Proposed Gates of the Arctic National Park, Alaska, January 29: The statement refers to the proposed Congressional designation of the Arctic National Wilderness Park and the Nunamiut National Wildlands. Included in the proposal is the designation of the Noatak, Alatna, Tinayuk, Killik (including Easter Creek), and the North Fork of the Koyubuk River as Wild Rivers. A master plan for administration of the areas is considered in the statement (686 pages). Comments made by: USDA, DOC, COE, DOI, DOT, EPA, and State agencies and organizations. (ELR Order No. 50142.)

Proposed Katmai National Park, Alaska, January 29: The statement refers to the proposed Congressional establishment of a 4,660,000 acre Katmai National Park on the Alaska Peninsula, 200 miles from Anchorage. The park would include the waters and lands of the present Katmai National Monument, and other lands selected in accordance with provisions of the Alaska Native Claims Settlement Act. Also proposed is a master plan for management and development of the park (652 pages). Comments made by: DOI, DOT, DOC, USDA, DOD, COE, EPA, and State agencies and organizations. (ELR Order No. 50149.)

Proposed Mount McKinley National Park, Alaska, January 29: The statement refers to a proposal that Congress legislatively add land and water parcels to Mount McKinley National Park, increasing the size of the Park from the present 1,939,493 acres to 5,150,000 acres. Also proposed is a master plan for the administration of the Park, and the continuation of a cooperative planning and management zone to the south and east of the Park. The proposal may affect wildlife, scenic and geologic features, natural resources development, and recreation (687 pages). Comments made by: DOT, DOC, DOI, USDA, COE, EPA, and State and local agencies and organizations. (ELR Order No. 50152.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, 400 7th Street SW., Washington, D.C. 20590, 202-426-4357.

FEDERAL AVIATION ADMINISTRATION

Final

Roane County Airport, Spencer, W. Va., January 27: The project involves the construction of a new general aviation airport in Roane County. A runway, stub taxiway, parking apron, and access road will be constructed. There will also be installation of lighting and VASI. The most significant adverse impact will be an increase in the noise level (46 pages). Comments made by: USDA, DOI, HUD, DOC, HEW, EPA, FPC, COE, and State and local agencies. (ELR Order No. 50125.)

FEDERAL HIGHWAY ADMINISTRATION

Final

U.S. 30-95, I-80N to Gayway Junction, Idaho, January 27: Proposed is the construction of 3.65 miles of four lane U.S. 95 and U.S. 30 on a common alignment from the I-80N Interchange to Gayway Junction. A portion of the alignment will bypass Fruitland. Adverse impact will include the relocation of two homes, and the loss of some right-of-way. Comments made by: HUD, HEW, DOI, and State agencies and concerned citizens. (ELR Order No. 50119.)

N.H. Route 101-A, N.H., January 27: The project involves the construction of New Hampshire Rte 101-A from Amherst to Nashua in Hillsborough County. The 4-lane facility will have a length of 4 miles. Adverse impacts include increased noise levels, acquisition of 15 acres of land, and displacement of 9 families and 4 businesses. Comments made by: EPA, HUD, DOI, HEW, USDA, and State and local agencies. (ELR Order No. 50127.)

Texas SR 35, Tex., January 29: The proposed project is the construction of 6.9 miles of SR 35. The project will require an unspecified amount of agricultural and timber land. Eleven families and 3 businesses will be displaced. The facility will traverse the San Bernard and Brazos Rivers and Dry Creek which will require structure crossings. Adverse impacts will include increased water pollution and loss of wildlife (171 pages). Comments made by: COE, DOT, USDA, HUD, DOI, EPA, and State and local agencies. (ELR Order No. 50136.)

GARY L. WIDMAN,
General Counsel.

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

TOKAMAK FUSION TEST REACTOR FACILITIES, PRINCETON, NEW JERSEY

Availability of Draft Environmental Statement

Notice is hereby given that a Draft Environmental Statement, Tokamak Fusion Test Reactor Facilities, Princeton, New Jersey (WASH-1544) was issued February 3, 1975, pursuant to the Energy Research and Development Administration's (ERDA) implementation of the National Environmental Policy Act of 1969. The Statement was prepared in support of legislative action related to the ERDA request for appropriation of funds for Fiscal Year 1976 for the project.

Copies of the Draft Statement have been distributed for review and comment to Federal and New Jersey State and local agencies and local organizations and individuals. Copies of the Draft Statement are available for public inspection in the ERDA's Public Document Rooms at 1717 H Street NW., Washington, D.C.; Albuquerque Operations Office, Kirtland Air Force Base East, Albuquerque, New Mexico; Chicago Operations Office, 9500 South Cass Avenue, Argonne, Illinois; Idaho Operations Office, 550 Second Street, Idaho Falls, Idaho; Oak Ridge Operations Office, Federal Building, Oak Ridge, Tennessee; Richland Operations Office, Federal Building, Richland, Washington; San Francisco Operations Office, 1333 Broadway, Oakland, California; Savannah River Operations Office, Savannah River Plant, Aiken, South Carolina.

Comments and views concerning the Draft Statement are requested from other interested agencies, organizations and individuals. Single copies of the Draft Environmental Statement will be furnished for review and comment upon request addressed to W. H. Pennington, Office of the Deputy Assistant Administrator for Environment and Safety, U.S. Energy Research and Development Administration, Washington, D.C. 20545, (301) 973-4241. Comments should be sent to the same address.

Comments on the Draft Environmental Statement will be considered in the preparation of the Final Environmental Statement if received by March 31, 1975.

Dated at Germantown, Md., this 31st day of January 1975.

For the Energy Research and Development Administration.

JAMES L. LIVERMAN,
Acting Deputy Assistant Administrator for Environment and Safety.

FARM CREDIT ADMINISTRATION

[Farm Credit Administration Order No. 783]

DEPUTY GOVERNOR, ADMINISTRATION

Order of Precedence of Certain Officers to Act as Deputy Governor, Authority and Administration

JANUARY 31, 1975.

1. The Deputy Governor, Administration, shall, subject to the jurisdiction and control of the Governor of the Farm Credit Administration, execute and perform all power, authority, and duties relative to Farm Credit Administration budget, personnel, information, and other internal, administrative support services, and activities relating to Farm Credit System personnel and information programs, and to all matters incidental thereto, and to administration of all provisions of law pertinent thereto.

2. In the event the Deputy Governor, Administration, Farm Credit Administration, is absent or is not able to perform the duties of his office for any other reason, the officer who is highest on the following list and who is available to act is hereby authorized to exercise and perform all functions, powers, authority, and duties of the Deputy Governor, Administration, pertaining to the functions of his office:

(1) Director, Administrative Division.
(2) Director, Personnel Division.
(3) Director, Information Division.

3. This order shall be effective on January 1, 1975.

W. M. HARDING,
Governor,
Farm Credit Administration.

[FR Doc.75-3520 Filed 2-6-75;8:45 am]

[Farm Credit Administration Order No. 784]

DEPUTY GOVERNOR, CREDIT AND OPERATIONS

Delegation of Authority

JANUARY 31, 1975.

Whereas, the Governor of the Farm Credit Administration is authorized by the Farm Credit Act of 1971 (§§ 1.13, 2.10, 5.18; 85 Stat. 587, 597, 621) to issue and amend or modify Federal charters and the bylaws of institutions of the Farm Credit System, approve mergers and consolidations of Federal land bank associations and of production credit associations, and consolidations or divisions of the territories they serve; and approve consolidations of boards of directors and of management agreements; and

Whereas, the Governor is authorized by said Act (§ 5.13; 85 Stat. 620) to exercise and perform his powers through such other officers and employees of the Farm Credit Administration as he shall designate;

Now, therefore, It is hereby ordered, effective on the day and date above written, that the Deputy Governor, Credit and Operations, be and he hereby is authorized and empowered, with respect to Federal land bank associations and production credit associations, to (1) amend or modify charters; (2) amend or modify bylaws; (3) approve agreements of merger or consolidation; (4) approve consolidations or divisions of territories they serve; (5) approve consolidations of boards of directors; (6) approve management agreements.

This order shall be effective on January 31, 1975, and revokes Farm Credit Administration Order No. 750 (37 FR 7646).

W. M. HARDING,
Governor,
Farm Credit Administration.

[FR Doc.75-3521 Filed 2-6-75;8:45 am]

[Farm Credit Administration Order No. 785]

DEPUTY GOVERNOR, FINANCE AND RESEARCH

Authority and Order of Precedence of Certain Officers to Act as Deputy Governor, Finance and Research

JANUARY 31, 1975.

1. The Deputy Governor, Finance and Research, shall, subject to the jurisdiction and control of the Governor of the Farm Credit Administration, execute and perform all power, authority, and duties relative to functions of the Farm Credit Administration in the Areas of Farm Credit System financing and agricultural and financial research and to all matters incidental thereto, and the administration of all provisions of law pertinent thereto.

2. In the event the Deputy Governor, Finance and Research, Farm Credit Administration, is absent or is not able to perform the duties of his office for any other reason, the officer who is highest on the following list and who is available to act is hereby authorized to exercise and perform all functions, powers, authority, and duties of the Deputy Governor, Finance and Research, pertaining to the functions of his office:

(1) Director, Finance Division.
(2) Director, Research Division.

3. This order shall be effective on January 1, 1975, and revokes Farm Credit Administration Order No. 773, dated July 19, 1974 (39 FR 27607).

W. M. HARDING,
Governor,
Farm Credit Administration.

[FR Doc.75-3522 Filed 2-6-75;8:45 am]

FEDERAL COMMUNICATIONS COMMISSION

[FCC 75-103]

AERONAUTICAL RADIO SERVICES

Potential Interference From Cable Television Systems

JANUARY 31, 1975.

The Commission is calling attention to a potential radio interference problem to VHF aeronautical radionavigation and radiocommunication operations which may be caused by the operation of malfunctioning cable television facilities employing the same frequencies.

Although cable television systems do not normally have signal leakage of sufficient electromagnetic energy to have any effect on radiocommunication services, recent studies and tests have indicated the possibility that damage to or improper termination of the shielded cables employed could result in signals sufficiently strong to disrupt aeronautical radio services in the frequency band 108-136 MHz. These aeronautical services include radiocommunications in the band 118-136 MHz, Instrument Landing Systems (ILS) using 108-112 MHz, and Visual Omnidirectional Range (VOR) stations using the band 108-118 MHz. Those frequency bands are allocated both nationally and internationally for these uses and provide services essential to the safety and protection of life and property in the air.

Commission concern is primarily focused on the possibility of delays in locating and repairing damaged or improperly terminated cable that has excessive signal leakage. Further coordinated tests are being undertaken to explore and evaluate the problem in greater detail and to develop any solutions which appear necessary. Participants in these tests include representatives of federal agencies and industry. The Commission will follow these developments closely and may initiate further actions in the future.

XUM V40127 FEB 7 75 XUM

In the interim, the operators of cable television systems using the band 108–136 MHz are cautioned to exercise special care to avoid cable system malfunctions which result in abnormally high signal leakage in that frequency band. If such interference occurs, the Commission would expect to apply its longstanding policy of requiring the operation of the interfering source to be immediately discontinued and not resumed until the problem had been effectively corrected. Operators may wish to give preference to the use of alternate frequencies, where possible, pending the outcome of these tests and studies.

Action by the Commission January 28, 1975. Commissioners Wiley (Chairman), Lee, Reid, Hooks, Quello, Washburn, and Robinson.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.75-3539 Filed 2-6-75;8:45 am]

EQUIPMENT TYPE ACCEPTANCE ACTIVITY

Change in Location

JANUARY 28, 1975.

The Federal Communications Commission's equipment type acceptance activity has been transferred from its Washington, D.C., offices to its Laboratory Division, which is located near Laurel, Maryland. The Commission's equipment type approval activity will continue to be conducted at its Laboratory Division.

Applicants or others desiring information by telephone concerning equipment type acceptance or type approval may reach the Commission's Laboratory Division at (301) 725–1585.

Type acceptance and type approval applications which are sent by mail should continue to be addressed to: Federal Communications Commission, Washington, D.C. 20554. Such applications when delivered in person to the Commission should continue to be delivered to the Commission's Fee Collection Office, Room 217, 1919 M Street NW., Washington, D.C. It is emphasized that such applications should not be mailed or delivered to the Commission's Laboratory.

Correspondence concerning type acceptance and type approval of equipment, other than applications and filings which contain fee payments, may be addressed to: Federal Communications Commission, P.O. Box 40, Laurel, Maryland 20810.

The Commission's equipment certification activity (for equipment subject to certification under Parts 15 and 18 of the rules) remains at its Washington, D.C. offices.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.75-3538 Filed 2-6-75;8:45 am]

PBX STANDARDS ADVISORY COMMITTEE

Notice of Public Meeting

FEBRUARY 3, 1975.

In accordance with Pub. L. 92-463, announcement is made of a public meeting of the Technical Standards Subcommittee of the PBX Standards Advisory Committee to be held March 4–5, 1975 at 1919 M Street NW, Room 752, Washington, D.C. The meeting will commence at 10 a.m.

1. *Purpose.* The purpose of this Subcommittee is to prepare recommended standards and procedures to permit the interconnection of customer-provided and maintained PBX equipment to the public switched network without the need for carrier-provided connecting arrangements.

2. *Activities.* As at prior meetings, Subcommittee members and observers present their suggestions and recommendations regarding the various aspects of technical criteria and standards that should be considered with respect to the interconnection of PBX equipment to the public telephone network.

3. *Agenda.* March 4—*Meeting of Glossary Task Group.*

a. Review of draft glossary.
b. Plans for updating document.

March 5—*Meeting of Technical Standards Subcommittee.*

a. Review of status of task groups.
(1) Interface criteria.
(2) Equipment test standards.
(3) Glossary.
b. Plans for completion of documentation and reports to FCC.
c. Future assignments and schedules.

4. *Public participation.* The public is invited to attend this meeting. Any member of the public wishing to file a written statement with the Committee, may do so before or after the meeting.

It is suggested that those desiring more specific information, contact the Interconnection Branch, Common Carrier Bureau on 202–632–6920.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.75-3540 Filed 2-6-75;8:45 am]

[Docket Nos. 20335, 20336; FCC 75-75; File Nos. 8951-C2-P-(4)-70; 6808-C2-P-(4)-70]

RAM BROADCASTING OF FLORIDA, INC. AND TEL-CAR CORP.

Applications for Consolidated Hearing on Stated Issues

1. The Commission has before it for consideration applications filed by Tel-Car Corporation (Tel-Car) on April 16, 1970, and by RAM Broadcasting of Florida, Inc. (RAM), on April 23, 1970, for new air-ground radio service in the Domestic Public Land Mobile Radio Service (DPLMRS) in the Miami, Florida area. Both applications are for a signalling frequency of 454.675 MHz and base frequencies of 454.725, 454.775, 454.825, and 454.900 MHz. Also before the Commission are (a) an amendment to its application filed by Tel-Car on April 16, 1973; (b) a further amendment filed by Tel-Car on January 16, 1974; (c) an amendment to its application filed by RAM on January 23, 1974; (d) a Petition to Dismiss Tel-Car's application filed by RAM on January 23, 1974; (e) Tel-Car's Opposition To the Petition To Dismiss; and (f) RAM's reply thereto.

2. RAM's Petition To Dismiss argues that an amendment filed in January, 1974, by Tel-Car indicating it is now controlled by Digital Paging Systems, Inc. is a major amendment under the terms of the notice of proposed rulemaking, Docket 19905, 44 F.C.C. 2d 556 (1973), and as such is subject to the "cut off" provisions of Commission §§ 21.30(b) and 1.227. In the notice of proposed rulemaking, the Commission proposed to amend its definition of a major amendment to explicitly include a substantial change in ownership of an applicant. Pending final adoption, the proposed rules were to be effective not only for applications subsequently amended, but also to previously amended pending applications. Special waivers, however, would be granted to preclude unfair results. 44 F.C.C. 2d at 560. RAM argues that the waiver sought by Tel-Car is inappropriate here since Tel-Car had notice that such a change would be a major amendment, the notice of proposed rulemaking having been released in December, 1973, and the Tel-Car amendment having been filed in January, 1974. RAM is in error. The Tel-Car application was first amended on April 16, 1973, to indicate the change in control. A copy of this amendment apparently was served on counsel for RAM. The January 1974, amendment merely restated the earlier amendment and also provided additional information requested by the Commission.

3. We feel a waiver is appropriate and hereby grant it. The application amended in April 1973, had already been on file for three years. The amendment was filed 9 months prior to the issuance of the notice of proposed rulemaking. A dismissal of Tel-Car's application, after nearly five years, would be the type of unfair result foreseen in the notice of proposed rulemaking and therein provided for. See Racom, Inc., 48 F.C.C. 2d 217 (1974); "Vegas Instant Page," F.C.C. 75–21, released January 13, 1975.

4. Insofar as the contents of the two applications are concerned, they propose to use the same frequencies in the same area. They are thus mutually exclusive. Since both applicants appear to be legally, financially and technically qualified to construct and operate the proposed facilities, a comparative hearing must be held to determine which applicant is the better qualified to operate the proposed facilities in the public interest. "Ashbacker Radio Corp. v. F.C.C." 326 U.S. 327 (1945).

5. We are currently examining the comparative criteria used in the DPLMRS. Until we announce changes in those criteria, we will continue to consider, where they are asserted, significant differences between the applicants as to charges, maintenance, personnel, practices, classifications, regulations and facilities under the general comparative issue (Issue 1). See Vegas Instant Page, supra. Since rates for this service are governed by one interstate tariff, we do not believe comparative evidence on rates is warranted. In Arlington Telephone Co., 27 F.C.C. 2d 1 (1971), one of the applicants for air-ground service would have provided day-to-day management functions by contracting with a local individual who was not an employee of the applicant. Since there was no general comparative issue set forth in Arlington, we included as a separate issue the effect such an arrangement might have on the efficiency of the proposed service. Here, RAM also proposes to provide management and maintenance services through local contractors and not local employees. Since we have a general comparative issue (#1), there is no need for a specific Arlington issue. If the parties feel there are significant service-affecting differences in their proposed local arrangements, proof of such differences may be offered under Issue 1.

6. In view of the foregoing: *It is ordered*, That pursuant to sections 309 (d) and (e) of the Communications Act of 1934 as amended, (47 U.S.C. section 309 (d) and (e)) that the captioned applications of RAM Broadcasting of Florida, Inc., and Tel-Car Corporation are designated for hearing in a consolidated proceeding upon the following issues:

1. To determine on a comparative basis the nature and extent of the services proposed by each applicant.

2. To determine, in light of the evidence adduced pursuant to the above issue, what disposition of the above-captioned applications would best serve the public interest, convenience and necessity.

7. *It is further ordered*, That the hearing shall be held at the Commission offices in Washington, D.C., at a time and place and before an Administrative Law Judge, to be specified in a subsequent order.

8. *It is further ordered*, That the Chief, Common Carrier Bureau, is made a party to the proceeding.

9. *It is further ordered*, That applicants may avail themselves of an opportunity to be heard by filing with the Commission pursuant to § 1.221(c) of the rules within twenty days of the release date hereof, a written notice stating an intention to appear on the date set for the hearing and present evidence on the issues specified in this Memorandum Opinion and Order.

Adopted: January 21, 1975.

Released: February 3, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.75-3541 Filed 2-6-75;8:45 am]

[Docket Nos. 20300, 20301; File Nos. BP-19587, 19733]

TECHE BROADCASTING CORP. AND PHILLIPS RADIO, INC.

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Teche Broadcasting Corporation, Bayou Vista, Louisiana, Requests: 1170 kHz, 250 W, Day, Docket No. 20300, File No. BP-19587; Phillips Radio, Inc., Berwick, Louisiana. Requests 1170 kHz, 1 kW, DA-Day, Docket No. 20301, File No. BP-19733; For Construction Permits.

1. The Commission, by the Chief, Broadcast Bureau, acting pursuant to delegated authority, has under consideration the above-captioned applications which are mutually exclusive in that they seek the same frequency in nearby communities.

2. The respective proposals, although for different communities, would serve substantial areas in common. Consequently, in addition to determining, pursuant to section 307(b) of the Communications Act of 1934, as amended, which of the proposals would better provide a fair, efficient and equitable distribution of radio service, a contingent comparative issue will also be specified.

3. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

4. *Accordingly, it is ordered*, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the respective proposals and the availability of other primary aural service (1 mV/m or greater in the case of FM) to such areas and populations.

2. To determine, in light of section 307(b) of the Communications Act of 1934, as amended, which of the proposals would better provide a fair, efficient and equitable distribution of radio service.

3. To determine, in the event it is concluded that a choice between the applications should not be based solely on considerations relating to section 307(b), which of the operations proposed in the above-captioned applications would, on a comparative basis, better serve the public interest.

4. To determine, in light of the evidence aduced pursuant to the foregoing issues which, if either, of the applications should be granted.

5. *It is further ordered*, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

6. *It is further ordered*, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: January 6, 1975.

Released: January 30, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

[FCC 75-116]

1979 WORLD ADMINISTRATIVE RADIO CONFERENCE

Public Participation in Preparation

JANUARY 31, 1975.

The Commission, on January 10, 1975, released a notice of inquiry looking toward possible revisions to the international Radio Regulations to be considered in 1979 by the World Administrative Radio Conference. (Docket 20271).

As has been the case in preparation for previous international conferences of a general or specialized nature, the Commission wishes to obtain the maximum public input in developing the United States positions for the 1979 WARC. In view of the significance of the 1979 WARC to this country, and particularly since the conference results are expected to develop the international frequency allocation framework for the remainder of this century, it is important that such preparation be more intensive than that obtained solely through normal administrative procedure.

An internal organization is being established to coordinate the Commission's efforts in planning for the 1979 Conference. It is desired that an opportunity for public participation in such effort be extended at the working group levels. Accordingly, notice is hereby given of a meeting scheduled for 9:30 a.m. on February 21, 1975, in the Commission's meeting room, Room 856, 1919 M Street

XUM
V40-27
FEB 7 75
XUM

NW., which will be open to the public. The meeting will be held for the purpose of presenting a briefing on the Commission organization and for offering an opportunity for public participation as observers in the preparatory effort.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] VINCENT J. MULLINS,
Secretary.

[1] Action by the Commission January 29, 1975. Commissioners Wiley (Chairman), Lee, Reid, Hooks, Quello, Washburn and Robinson.

FEDERAL POWER COMMISSION

[Docket No. E-9225]

ELECTRIC ENERGY, INC.

Filing for Reimbursement Pursuant to FPC Rate Schedule

JANUARY 31, 1975.

Take notice that on January 24, 1975, Electric Energy, Inc. (EEI), tendered for filing as a rate schedule supplement a statement of charges under § 4.06 of rate schedule FPC No. 4. EEI states that the filing is for the purpose of reimbursement of allocated net costs of property replacements. EEI states the changes will amount to approximately 0.03 mills per KWH of surplus power or $67,680.30 for the year.

EEI states that copies of the filing have been mailed to the affected customers.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. All such petitions or protests should be filed on or before February 18, 1975. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3491 Filed 2-6-75;8:45 am]

[Docket No. CP75-209]

EL PASO NATURAL GAS CO.

Petition for a Declaratory Order

JANUARY 30, 1975.

Take notice that on January 20, 1975, El Paso Natural Gas Company (El Paso), P.O. Box 1492, El Paso, Texas 79978, filed in Docket No. CP75-209 pursuant to § 1.7 (c) of the Commission's rules of practice and procedure a petition for a declaratory order resolving certain questions and removing certain uncertainties in connection with the expiration of a 50-year fixed term lease currently held by Gulf Oil Corporation which will expire on July 14, 1975.

The petition states that on July 14, 1925, Gulf Production Company, the corporate predecessor of Gulf Oil Corporation (Gulf), as lessee, executed a 50-year fixed term oil and gas lease with W. N. Waddell, et al., lessors. It is stated that by the terms of said 50-year fixed term lease, Gulf obtained the exclusive right of exploiting 45,771 acres of land in Crane County, Texas, and producing oil and gas therefrom, and that the leasehold estate expires fifty years after date of execution, which is July 14, 1975, whereupon the mineral rights, including the rights to natural gas production, shall revert to the reversionary mineral interest owners.

The petition further states that Gulf and other leasehold interest owners of said 50-year fixed term lease make percentage-type sales to Warren Petroleum Corporation (Warren), a division of Gulf, of certain quantities of casinghead gas produced from the acreage covered by the said 50-year fixed term lease. On January 26, 1951, El Paso, as buyer, and Gulf, as seller, executed a residue gas purchase agreement by which El Paso agreed to buy surplus residue gas from Gulf's natural gasoline extraction plant in Crane County, Texas, called the Waddell Gasoline Plant. On March 1, 1972, El Paso and Warren entered into an additional residue gas purchase agreement concerning certain quantities of residue gas from the Waddell Gasoline Plant. El Paso states that pursuant to these gas purchase contracts, El Paso takes delivery of approximately 60,000 Mcf daily of surplus residue gas into its pipeline system at the outlet at the Waddell Gasoline Plant and transports it through its jurisdictional facilities for subsequent resale in interstate commerce. El Paso further states that it is informed by Warren that approximately 25,000 Mcf daily of such surplus residue gas is attributable to production from wells on land leased by Gulf and other leasehold interest owners to El Paso pursuant to the said 50-year fixed term lease.

The petition indicates that El Paso has become aware that the reversionary interest owners[1] are soliciting proposals from intrastate gas transmission companies for the purchase of their shares of natural gas produced after July 14, 1975, from the acreage covered by said 50-year fixed term lease.

Therefore, El Paso is petitioning the Commission for a declaratory order resolving the following questions: (i) Given the fact that, according to Texas law, a certain 50-year fixed term lease automatically terminates on July 14, 1975, and the mineral rights thereunder revert to the reversionary interest owners, must Gulf Oil Corporation and other lessees under said certain 50-year fixed term lease, who have been selling gas produced from said lease on a percentage-of-the-proceeds basis to Warren Petroleum Corporation for resale in interstate commerce, obtain abandonment authorization pursuant to section 7(b) of the Natural Gas Act and § 154.91 of the Commission's regulations under the Natural Gas Act in order to cease such sales to Warren and effectuate the transfer by reversion to Exxon Corporation, Southland Royalty Company, and other reversionary interest owners of the mineral rights under said certain 50-year fixed term lease? (ii) Given the facts set forth in (i), without prior Commission authorization, may Exxon Corporation, Southland Royalty Company, and other reversionary interests divert natural gas from its present movement in interstate commerce to delivery and sale in intrastate commerce? (iii) Given the facts set forth in (i), without prior Commission authorization, may Warren Petroleum Corporation reduce its sales in interstate commerce of residue natural gas to El Paso, the present level of which is attributable in part to production from the lease in question?

Any person desiring to be heard or to make any protest with reference to said petition should, on or before February 19, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3492 Filed 2-6-75;8:45 am]

[Docket No. CI75-430]

H. L. BROWN, JR., ET AL.

Application

JANUARY 31, 1975.

Take notice that on January 23, 1975, H. L. Brown, Jr. et al. (Applicant) PO. Box 2237, Midland, Texas 79701, filed in Docket No. CI75-430 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon the sale of natural gas in interstate commerce to Texaco Inc. from certain wells in the Poquito Field located in Ward and Winkler Counties, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that under a certain percentage-of-proceeds contract with Texaco Inc. dated December 1, 1963, Applicant sells gas-well gas to Texaco Inc. and that Applicant receives a percentage of the proceeds derived by Texaco Inc. from the sale of liquid products and residue gas attributable to Applicant's gas-well gas. Applicant states that due to the cost it incurs in compression of gas for delivery to Texaco Inc. and the low price received from Texaco Inc. Applicant entered into negotiations with Texaco Inc. to obtain additional gas revenue. Applicant indicates that Texaco Inc. has agreed to enter into a Gas Processing Agreement with Applicant and that Applicant has in turn entered into a Gas Purchase Contract (Residue) with the purchaser from Texaco Inc., Northern Natural Gas Company, for the sale of gas-well gas. Applicant alleges that under this arrangement there has been no change in the service being performed but it will result in a change in the gas purchaser and an increase in the price of gas based on the Commission's Opinion No. 699 issued June 21, 1974, as amended by Opinion No. 699-H issued December 4, 1974. Applicant asserts that without such an increase in rate it will be forced to abandon its well due to uneconomical production.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 20, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction converred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3489 Filed 2-6-75;8:45 am]

[1] El Paso states that Southland Royalty Company, soliciting on behalf of the estate of the estate of Warren Wright and the Penn interests, collectively represents 80 percent of the term lease gas, and that Exxon's interest represents 14 percent of the term lease gas.

[Docket No. E-9023]

INTERSTATE POWER CO.

Conference

FEBRUARY 5, 1975.

Take notice that on Friday, February 14, 1975, a conference of all interested parties in the above-referenced docket will be convened at 11 a.m. in Room No. 8402 of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426.

The conference will be held pursuant to § 1.18 (Conferences, Offers of Settlement) of the Commission's rules of practice and procedure (18 CFR 1.18). Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, their attendance at the conference will not be deemed to authorize their intervention or to make them a party to these proceedings.

In accordance with the provisions of § 1.18 of the rules, all parties will be expected to come fully prepared to discuss the merits of all issues concerning the lawfulness of Interstate's proposed tariff changes, any procedural matters preparatory to a full evidentiary hearing, or to make commitments with respect to such issues and any offers of settlement or stipulations discussed at the conference. Failure to attend the conference shall constitute a waiver of all objections to stipulations and agreements reached by the parties in attendance at the conference.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3638 Filed 2-5-75;2:52 pm]

[Docket No. RP73-43, PGA 75-2]

MID-LOUISIANA GAS CO.

Order Accepting Filing and Suspending Proposed PGA Rate Change

JANUARY 31, 1975.

On December 20, 1974, Mid-Louisiana Gas Company (Mid-Louisiana) tendered for filing Eleventh Revised Sheet No. 3a to FPC Gas Tariff, First Revised Volume No. 1, providing for a purchased gas adjustment to rate schedules G-1, SG-1, I-1 and E-1, to reflect the current cost of gas purchased by Mid-Louisiana. The proposed adjustment would provide for a PGA decrease of 2.90¢ per Mcf under rate schedules G-1, SG-1, and I-1 which reflects the net effect of an increase of 6.51¢ per Mcf in the cost of gas and 9.41¢ per Mcf reduction in the surcharge to recoup the balance in Mid-Louisiana's unrecovered purchased gas cost account. The proposed adjustment would also provide for a PGA increase of 11.80¢ per Mcf under Rate Schedule E-1 which tracks an increase by United Gas Pipe Line Company (United) under rate schedule PL-C.

Mid-Louisiana points out that United Gas Planning Company (United), from whom it purchases significant volumes of gas, filed on December 18, 1974 a modification of the purchased gas adjustment to its rates to be effective January 1, 1975. Mid-Louisiana states that United's rates to it have a saginificant impact upon Mid-Louisiana's purchased gas adjustment to its rates to be effective February 1, 1975. In order to include the impact upon Mid-Louisiana of United's modified rates, Mid-Louisiana requests a waiver of the 45-day notice requirement and requests the Commission to permit Eleventh Revised Sheet No. 3a to become effective February 1, 1975.

Mid-Louisiana's December 20, 1974 filing was noticed on January 14, 1975, with comments, protests, or petitions to intervene to be filed on or before January 27, 1975. No comments have been filed.

Our review of Mid-Louisiana's December 20, 1974 filing indicates that it is based in part on small producer purchases at rates in excess of Opinion No. 699-H[1] rate levels. Therefore the proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or otherwise unlawful. Accordingly, we shall accept Mid-Louisiana's December 20, 1974 purchased gas adjustment for filing, suspend it for one day to become effective February 2, 1975, subject to refund. Our acceptance of Mid-Louisiana's filing is, however, expressly subject to any reduction which may be necessary to reflect any changes in the United rates being tracked herein. With regard to the question of small producer purchases, we note that the Supreme Court has recently remanded the small producer rulemaking in order for the Commission to enunciate the standards in determining the justness and reasonableness of the prices for small producer purchases.[2] We believe, therefore, that it would be premature to establish a hearing schedule in this docket at this time.

Further review of Mid-Louisiana's December 20, 1974 filing indicates that the claimed adjustments reflecting costs other than those costs associated with small producer purchases in excess of rates established in opinion No. 699-H are justified and comply with the standards set forth in Docket No. R-406. Accordingly, Mid-Louisiana may file within fifteen days of the issuance of this order, a revised tariff sheet to be effective on February 1, 1975 which eliminates the effect of the small producer purchases in excess of Opinion No. 699-H rate levels.

The Commission finds. (1) It is necessary and appropriate in the public interest and to aid in the enforcement of the Natural Gas Act that Mid-Louisiana's December 20, 1974 filing tendering Eleventh Revised Sheet No. 3a to its FPC Gas Tariff, First Revised Volume No. 1 be accepted for filing, suspended

[1] Opinion No. 699-H, Docket No. R-389-B, issued December 4, 1974.

[2] Federal Power Commission v. Texaco, Inc., et al., Dockets Nos. 72-1490 and 72-1491, Opinion issued June 10, 1974.

XUM
V40127
FEB 7 75
XUM

for one day, and permitted to become effective on February 2, 1975, subject to refund.

(2) The claimed adjustments, other than those associated with small producer purchases at rates in excess of the rate levels established by Opinion No. 699–H, have been reviewed and have been found to be in compliance with the standards set forth in Docket No. R–406.

(3) Good cause exists to grant Mid-Louisiana's request for waiver of the 45-day notice requirement in § 154.38(4)(v) of our Regulations.

The Commission orders. (A) Mid-Louisiana's Eleventh Revised Sheet No. 3a to its FPC Gas Tariff, Original Volume No. 1, is hereby accepted for filing, suspended for one day, and permitted to become effective February 2, 1974, subject to refund, pending further Commission order in this docket.

(B) Within fifteen (15) days of the issuance of this order Mid-Louisiana may file, to become effective February 1, 1975, a substitute tariff sheet reflecting that portion of Mid-Louisiana's rates as filed December 20, 1974, which reflect increased costs other than those increased costs associated with small producer purchases in excess of the rate levels prescribed in Opinion No. 699–H.

(C) Mid-Louisiana's request for waiver of the 45-day notice requirements of § 154.38(4)(v) of our regulations is hereby granted.

(D) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75–3493 Filed 2–6–75;8:45 am]

[Docket No. E–9063]

MISSOURI POWER AND LIGHT CO.

Compliance Filing

JANUARY 30, 1975.

Take notice that on January 23, 1975 Missouri Power and Light Company (MP&L), pursuant to Paragraph (A) of the order issued December 31, 1974 in the above docket, tendered clarifying data in support of the loss factor used in its proposed fuel adjustment computations. MP&L states that the loss factor employed was 2.5 percent, which is the loss factor relating to wholesale losses and not total system losses as noted in the Municipal Electric Service Wholesale Rate. The language in "C" of the MESWR Rate should read, "a factor to adjust for wholesale system losses" rather than, "a factor to adjust for system losses." MP&L further states that the fuel adjustment in Order No. 517 arrives at a cents per Kwh fuel cost which is the same as cents per Kwh fuel cost as submitted in the fuel adjustment of this filing, and that MP&L is therefore in compliance with Order No. 517.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 14, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[Docket No. E–7942]

NANTAHALA POWER AND LIGHT CO.

Motion To Terminate Proceedings and Withdraw Consolidation

JANUARY 31, 1975.

Take notice that on January 17, 1975, Nantahala Power and Light Company tendered for filing a motion to terminate the proceedings in Docket No. E–7942 and to withdraw a previous motion for consolidation in Docket No. E–9181.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 14, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75–3495 Filed 2–6–75;8:45 am]

[Docket No. RP71–125 (PGA 75–5B), Docket No. RP74–96]

NATURAL GAS PIPE LINE COMPANY OF AMERICA

Rate Change

JANUARY 30, 1975.

Take notice that on January 17, 1975, Natural Gas Pipe Line Company of America (Natural), tendered for filing Second Substitute Eighteenth Revised Sheet No. 5 to Natural's FPC Gas Tariff, Third Revised Volume No. 1. The proposed effective date is January 1, 1975.

Natural states that the purpose of its January 17, 1975, filing is to revise Natural's prior PGA tracking filing of December 19, 1974. Natural further states that the January 17, 1975, filing reflects the necessary revisions to its PGA unit adjustment as a result of United Gas Pipe Line's rate revisions (Docket No. RP72–122, PGA 75–1) filed on January 13, 1975, to become effective January 1, 1975.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 14, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75–3496 Filed 2–6–75;8:45 am]

[Docket No. E–9140]

NEW ENGLAND POWER SERVICE CO.

Order Granting Intervention

JANUARY 31, 1975.

On December 16, 1974, Rhode Island Consumers' Council (RICC) filed a timely petition to intervene in this proceeding. On December 27, 1974, New England Power Company filed an answer with this Commission which stated, inter alia, that it does not oppose the petition to intervene filed by RICC. No other party filed an answer to RICC's petition. We believe that the participation of the petitioner may be in the public interest.

The Commission finds. Participation by petitioner Rhode Island Consumers' Council in this proceeding may be in the public interest and good cause exists for permitting such intervention.

The Commission orders: Rhode Island Consumers' Council is hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission:. *Provided, however,* That the participation of such intervenor shall be limited to matters affecting rights and interests specifically set forth in its petition to intervene: *And provided, further,* That the admission of such intervenor shall not be construed as recognition by the Commission, that it might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(B) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[FR Doc.75–3497 Filed 2–6–75;8:45 am]

[Projects Nos. 619 and 2105]

PACIFIC GAS AND ELECTRIC CO.

Application for Modification of Company Reservoirs

JANUARY 30, 1975.

Public notice is hereby given that application for Modification of Company Reservoirs was filed July 1, 1974, revised September 25, 1974, under the Federal Power Act (16 U.S.C. 791a–825r) by Pacific Gas and Electric Company (Correspondence to: Mr. J. F. Roberts, Jr., Vice President-Rates and Valuation, Pacific Gas and Electric Company, 77 Beale Street, San Francisco, California 94106) for Bucks Creek Project No. 619 and Upper North Fork Feather River Project No. 2105 located in Plumas County, California.

Applicant seeks Commission approved of its proposal to modify the operation of eight company reservoirs, including two reservoirs at Project No. 619 and one at Project No. 2105. The modifications would permit applicant to increase the storage capacity of several of the reservoirs and provide a total increase in generation of 34,801,000 kwh annually. Applicant proposes to implement the modifications on a five-year temporary basis.

At Project No. 619, two reservoirs will be affected At Three Lakes, applicant proposes to install 2.2 feet of flashboard during the period April through October. This modification would increase the reservoir area by about 4 acres and would increase the annual generation by 241,000 kwh. At Bucks Lake, applicant proposes to install 2.0 feet of flashboards during the period April through October. This modification would increase the reservoir area by about 25 acres and would increase the annual generation by 9,514,000 kwh.

At Project No. 2105, the Butt Valley Reservoir, applicant proposes to install 2 feet of flashboards during the period April through October. This modification would increase the reservoir area by about 1,622 acres if the reservoir water surface is at the top of the flashboards and would increase the annual generation by 171,000 kwh.

Any person desiring to be heard or to make protest with reference to said application should on or before March 17, 1975 file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75–3499 Filed 2–6–75;8:45 am]

[Docket No. RP75–57]

PACIFIC GAS TRANSMISSION CO.

Rate Change

JANUARY 31, 1975.

Take notice that on January 27, 1975, Pacific Gas Transmission Company (PGT) tendered for filing a notice of a change in rate for its interstate pipeline system containing the following revised tariff sheets:

ORIGINAL VOLUME NO. 1

Sixth Revised Sheet No. 6
Sixth Revised Sheet No. 13

PGT states that the tendered revised tariff sheets provide for an increase in PGT's rate of return on net investment base to 10.00 percent and that no other change in PGT's Cost of Service Tariff is proposed. The proposed effective date is February 26, 1975.

The filing will affect the rates at which natural gas is purchased from PGT, under Rate Schedule PL–1, by its only customer Pacific Gas and Electric Company. The filing will also affect the rates charged Northwest Pipeline Corporation for transportation of natural gas under Rate Schedule T–1.

According to PGT, recent changes in financial conditions have rendered the return on PGT's common equity inadequate, especially in view of the substantial increase in risk to which PGT contends it is exposed as a result of this Commission's revocation of cost of service treatment for Canadian gas costs in Docket No. RP73–111.

PGT states further that copies of the filing have been served upon all of its affected customers and interested state regulatory commissions.

Any person desiring to be heard or to protest said notice should file a petition to intervene or protest with the Federal Power Commission, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR, 1.8, 1.10). All such petitions or protests should be filed on or before February 18, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75–3498 Filed 2–6–75;8:45 am]

[Dockets Nos. RP73–36, PGA75–2, RP73–108, AP75–1]

PANHANDLE EASTERN PIPE LINE CO.

Order Accepting for Filing and Suspending Proposed Rate Filing and Setting Advance Payments for Hearing

JANUARY 31, 1975.

On December 13, 1974, Panhandle Eastern Pipe Line Company (Panhandle) tendered for filing a proposed increase of $43.3 million annually in rates and charges[1] to reflect increased producer purchased gas costs, new advance payments[2], a demand charge adjustment surcharge, rate increase from Trunkline Gas Company, and a surcharge filed pursuant to Opinion No. 699–G to clear the deferred purchased gas account. Panhandle proposed a February 1, 1975, effective date.

The filing was noticed with comments due on or before January 17, 1975. On January 17, 1975, the Commission Staff filed comments with respect to nine of the advance payments included in Panhandle's filing.[3] Staff stated that the advances, which are subject to Order Nos. 465 and 499, had not been shown to be reasonably related to costs to be incurred by the producer within a reasonable time from the date the advances were made and thus may not be reasonable and appropriate under Order Nos. 465 and 499. We agree. Accordingly, we shall set a hearing to determine the reasonableness and appropriateness of the advances listed in Appendix A below as hereinafter ordered. This proceeding shall be docketed as Docket Nos. RP73–108 and AP75–1.

Our review of the producer purchased gas portion of the filing indicates that it contains small producer and emergency purchases at rates in excess of the rate levels established in Opinion No. 699–H.[4] Therefore, the proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or otherwise unlawful. Accordingly, we shall accept rate increase for filing, suspend it for one day until February 2, 1975, when it shall be permitted to become effective, subject to refund.

With regard to the issue of small producer purchases, we note that the Supreme Court has recently remanded the small producer rulemaking in order for the Commission to enunciate the standards in determining the justness and reasonableness of the prices for small producer purchases.[5] With regard to the emergency purchases, we note that the legality of Commission Order Nos. 491 and 491–B is presently subject to judicial review.[6] Accordingly, we believe it would be premature to establish a hearing schedule with respect to these issues at this time. This proceeding shall be docketed as Dockets Nos. RP73–36 and PGA75–2.

[1] Twelfth Revised Sheet No. 3–A to FPC Gas Tariff, Original Volume No. 1. Panhandle also filed Alternate Twelfth Revised Sheet No. 3–A which did not anticipate, inter alia, the action we are taking with respect to Panhandle's advance payments. Accordingly, we shall take no action on Alternate 12th Revised Sheet No. 3–A.

[2] These advance payments are proposed to be tracked pursuant to Article V of the settlement agreement approved by the Commission in Docket No. RP73–108.

[3] See Appendix A below.

[4] Issued December 4, 1974, in Docket No. R–389–B.

[5] "Federal Power Commission v. Texaco, Inc., et al.", Docket Nos. 72–1490 and 72–1491, Opinion issued June 10, 1974.

[6] "Consumer Federation of America v. F.P.C.", CADC, Docket No. 73–2009, petition filed September 21, 1973.

XUM
V40127
FEB 7 75
XUM

Further review of Panhandle's filing indicates that the claimed increased producer purchased gas costs other than those producer purchased gas costs associated with that portion of emergency and small producer purchases in excess of the rate levels prescribed in Opinion No. 699–H are fully justified and comply with the standards set forth in Docket No. R–406. Moreover, our review of the advance payments in Panhandle's filing, other than those listed in Appendix A below, indicates that they are reasonable and appropriate. Accordingly, we shall permit Panhandle to file a revised tariff sheet to become effective February 1, 1975, which would reflect only that portion of Panhandle's filing which reflects (1) costs other than those costs associated with that portion of small producer and emergency purchases in excess of the costs levels prescribed in Opinion No. 699–H; (2) costs associated with the advance payments not listed in Appendix A below; and (3) the impact, if any, of rates made effective as of February 1, 1975, by Trunkline pursuant to the Commission's order issued January 31, 1975, in Dockets Nos. RP73–35 and PGA75–1.

The Commission finds. It is necessary and appropriate in the public interest and to aid in the enforcement of the Natural Gas Act that;

(1) Panhandle's Twelfth Revised Sheet No. 3–A be suspended for one day until February 2, 1975, when it shall become effective, subject to refund.

(2) The Commission enter upon a hearing to determine the reasonableness and appropriateness of the advances contained in Appendix A below.

(3) The claimed increased producer purchased gas costs other than those increased producer purchased gas costs associated with that portion of small producer and emergency purchases in excess of the rate levels prescribed in Opinion No. 699–H be approved as being in compliance with the standards set forth in Docket No. R–406.

The Commission orders. (A) Panhandle's twelfth revised sheet No. 3–A is accepted for filing, and suspended for one day until February 2, 1975, when it shall become effective, subject to refund, pending further Commission action in Docket Nos. RP73–36 and PGA75–2 with respect to the small producer and emergency purchases in excess of opinion No. 699–H rate levels and pending Commission action in the advance payment hearing hereinafter ordered in Docket Nos. RP73–108 and AP75–1.

(B) Within 15 days of the date of issuance of this order Panhandle may file a substitute tariff sheet to become effective February 1, 1975, which reflects (1) increased producer purchased gas costs other than those increased producer purchased gas costs associated with that portion of small producer and emergency purchases in excess of the rate levels prescribed in Opinion No. 699–H; (2) the advance payments in the filing other than those listed in Appendix A below; and (3) the impact, if any, of increased costs made effective by Trunkline as of February 1, 1975, pursuant to the Commission's order issued January 31, 1975.

(C) Pursuant to the authority of the Natural Gas Act, particularly sections 4, and 5, thereof, and the Commission's rules and regulations, a hearing shall be held to determine the reasonableness and appropriateness of the advances contained in Appendix A below.

(D) On or before March 4, 1975, Panhandle shall file its direct case. On or before April 8, 1975, the Commission Staff shall serve its prepared testimony and exhibits. Prepared testimony and exhibits of intervenors shall be served on or before April 29, 1975. Company Rebuttal shall be served May 13, 1975. Cross-examination of the evidence shall commence on May 28, 1975, at 10 a.m., e.d.t. in a hearing room at the Federal Power Commission, Washington, D.C. 20426.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5 (d)), shall preside at the hearing in this proceeding, shall prescribe necessary procedures not provided for by this order, and shall otherwise conduct the hearing in accordance with the terms of this order and the Commission's rules and regulations.

(F) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

APPENDIX A.—*Panhandle Eastern Pipe Line Co., advance payment contracts to be set for hearing*

Producer	Date of advance	Amount of advance
1. Exeter Oil Co.	Sept. 24, 1974	$2,000,000
2. H & L Operating Co. et al.	Jan. 31, 1974	108,000
3. H & L Operating Co. et al.	May 1, 1974	102,000
4. Joseph I. O'Neill Jr.	(1)	750,000

[Docket Nos. AR64–1, etc., RI74–29]

PANHANDLE PRODUCING CO., ET AL.

Refunds

JANUARY 31, 1975.

Take notice that on December 23, 1974, and January 22, 1975, Colorado Interstate Gas Company (CIG) reports of intended disposition of refunds in the above-captioned docket. In its December 23, 1974, filing, CIG states that it received $683,497.57 from Panhandle Producing Company. In the January 22, 1975, filing CIG states that it received $88,938.53 from Phillips Petroleum Company. As to both filings, CIG states that, pursuant to its Settlement Agreement in Docket No. RP73–93, it plans to flow through the refunds related to gas purchases during the period August 31, 1966, to September 30, 1970, by crediting amounts to its unrecovered cost of purchased gas account. These amounts are $535,110.25 and $2,434.86, respectively.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 18, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75–3501 Filed 2–6–75;8:45 am]

[Docket No. R–389–B]

PIPELINE PRODUCTION AREA RATES

Order Clarifying Opinion No. 699–H

JANUARY 31, 1975.

El Paso Natural Gas Company on January 14, 1975, filed a request for immediate clarification of the effective date of the 35¢ per Mcf rate established for certain sales from the Rocky Mountain Area in Opinion No. 699–H, issued December 4, 1974, in the above-entitled proceeding. The effective date for any proposed increased rates filed on or before January 31, 1975, pursuant to Opinion No. 699–H for sales from the Rocky Mountain Area subject to the 35¢ per Mcf ceiling is June 21, 1974.

Northwest Pipeline Corporation (Northwest) and Consoliated Gas Supply Corporation (Consolidated) on January 2 and January 3, 1975, respectively, sought clarification with respect to the applicability of the national rate prescribed in Opinion No. 699–H to pipeline and pipeline affiliate production. The basic purpose of including pipeline production in Opinion No. 699–H, mimeo pp. 47–50, was to permit pipelines to charge the same rate for gas produced by them from leases acquired prior to October 7, 1969, which came within the general categories covered in that opinion as they were permitted to charge with respect to leases acquired on or after October 7, 1969. Northwest and Consolidated contend, however, that they are entitled to higher rates than those prescribed in Opinion No. 699–H for their production in the Rocky Mountain and Appalachian Areas, respectively, from leases acquired prior to October 7, 1969. Our determination in Opinion No. 699–H does not preclude a pipeline from showing in a pipeline rate case that it is entitled to special relief from that opinion in the form of a higher rate for its own production or that of its affiliate.

The Commission orders. (A) The effective date for any proposed increased rate filed on or before January 31, 1975, pursuant to Opinion No. 699–H for sales from the Rocky Mountain Area subject to the 35¢ per Mcf ceiling is June 21, 1974.

(B) Opinion No. 699–H does not preclude a pipeline from showing in a pipeline rate case that it is entitled to special relief from that opinion in the form of a higher rate for its own production or that of its affiliate.

By the Commission.

[Docket No. E–8878]

POTOMAC EDISON CO.

Filing of Settlement Agreement

JANUARY 31, 1975.

Take notice that on January 23, 1975, a Settlement Agreement between the Potomac Edison Company and the Town of Front Royal, Virginia was tendered for filing.

The Settlement Agreement provides that Front Royal shall accept the proposed revisions in Potomac Edison's rate schedule No. 12, Schedule WS–HV as filed by Potomac Edison in Docket No. E–8878 and that the revised rates will become effective February 1, 1975, subject to the company conforming its fuel clause with the Commission's order in rulemaking Docket No. 479 within sixty (60) days from the date of issuance of that order.

The proposed tariff increases the charges to Front Royal (based upon the billing data for the 12-month period ending May 1975) by approximately $55,320 annually effective April 1, 1975.

Any person desiring to be heard or to protest said settlement agreement should file comments with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, on or before February 20, 1975. Comments will be considered by the Commission in determining the appropriate action to be taken. Copies of this agreement are on file with the Commission and are available for public inspection.

[FR Doc.75–3502 Filed 2–6–75;8:45 am]

[Docket No. E–9164]

SIERRA PACIFIC POWER CO.

Cancellation

JANUARY 30, 1975.

Take notice that on January 22, 1975, Sierra Pacific Power Company (Sierra), pursuant to Southern California Edison's (Edison) filing of November 18, 1974, in the above docket, tendered for filing a Notice of Cancellation of its Certificate of Concurrence (FPC Rate Schedule No. 9) with Southern California Edison Company FPC Rate Schedule No. 49.

Sierra states that no service has been provided under this rate schedule from Edison since October 18, 1974, and none is contemplated in the future.

Copies of this filing were served upon Edison, the Public Service Commission of Nevada, and the Public Utilities Commission of the State of California.

Any person desiring to be heard or to protest said cancellation should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.18, 1.10). All such petitions or protests should be filed on or before February 14, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this notice are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75–3503 Filed 2–6–75;8:45 am]

[Docket No. E–9231]

SOUTHERN CALIFORNIA EDISON CO.

Filing of Initial Rate Schedule and Request for Waiver

JANUARY 31, 1975.

Take notice that on January 27, 1975, Southern California Edison Company (Edison) tendered for filing on October 3, 1974, Transmission Service Agreement with the City of Los Angeles (City), where in the event of certain outages of City's transmission facilities, Edison accepts and delivers City's scheduled Mojave and Navajo Generating Station energy to Los Angeles on an interruptible basis, less one percent for transmission losses. Edison charges City 0.6 mills per Kwh for providing emergency routing for Mojave and Navajo generation.

Edison states that service was initiated on January 16, 1974, and Edison requests that the notice provisions of the Commission's regulations be waived and the filing be permitted to become effective as of January 16, 1974.

Any person desiring to be heard or to make any protest with reference to said application should on or before February 14, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The Application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75–3504 Filed 2–6–75;8:45 am]

[Docket No. RP75–56]

TEXAS GAS PIPE LINE CORP.

Proposed Changes in FPC Gas Tariff

JANUARY 31, 1975.

Take notice that Texas Gas Pipe Line Corporation (TGPLC), on January 24, 1975, tendered for filing proposed changes in its FPC Gas Tariff First Revised Volumes No. 1 and Original Volume No. 2. The proposed changes would increase revenues from jurisdictional sales and service by $1,644,141 based on the 12-month period ending October 31, 1974, as adjusted. TGPLC states that the principal reasons for the proposed rate increases are increased purchased gas costs, other increased operating expenses and to offset a net operating revenue deficiency. TGPLC has requested a proposed effective date of March 10, 1975.

TGPLC states that copies of its filing were served upon the company's jurisdictional customers.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 13, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are now on file with the Commission and are available for public inspection.

[Docket Nos. RP74–25, RP72–156, PGA75–2, PGA75–2A]

TEXAS GAS TRANSMISSION CORP.

Order Accepting for Filing and Suspending Proposed Rate Increase

JANUARY 31, 1975.

On December 16, 1974, Texas Gas Transmission Corporation (Texas Gas) tendered for filing a purchased gas cost

XUM
V40-27
FEB 7 75
XUM

adjustment (PGA) increase[1] (Docket No. RP72-156 PGA 75-2) pursuant to its PGA clause which reflects an increase in the current cost of purchased gas, a surcharge to recover both the $6,241,940 balance in the deferred purchased gas cost account as of October 31, 1974, and $1,287,839 in estimated costs to be incurred up to the proposed February 1, 1975, effective date as a result of producer rate increases filed pursuant to Opinion No. 699-H, and a surcharge to recover the $1,141,698 balance in the deferred demand charge adjustment account as of October 31, 1974.

On December 23, 1974, Texas Gas amended its December 16, 1974, filing[2] to reflect a revised rate increase filed by United Gas Pipe Line Company (United) and Texas Eastern Transmission Corporation (TETCO) which became effective on January 2, 1975. As a result of Texas Gas' December 23, 1974, filing, the total rate increase to be effective February 2, 1975, is $37,723,047. Both the December 16, 1974, and December 23, 1974, filings were based in part on emergency purchases at rate levels in excess of Opinion No. 699-H.

Furthermore, in Docket No. RP74-25, the Commission, issued an order on December 20, 1974, which approved Texas Gas' settlement rates. Accordingly, Texas Gas on December 26, 1974, filed the RP74-25 settlement rates adjusted to reflect the cumulative effect of its PGA rate increase filings of December 16, 1974, and December 23, 1974, as previously discussed.[3] Since Fifth Substitute Tenth Revised Sheet No. 7, filed December 26, 1974, reflects the total rate increases of Texas Gas' three filings, we are required to act only on the December 26, 1974, filing. Accordingly, the December 16, 1974, and December 23, 1974, filings shall be deemed withdrawn.

All three filings were noticed with comments, protests and petitions to intervene due on or before January 23, 1975. To date, no comments, protests or petitions to intervene have been received by this Commission.

As stated previously, our review of Texas Gas' December 26, 1974, filing indicates that it is based in part upon emergency purchases at rates in excess of the rate levels established by Opinion No. 699-H.[4] Therefore, the proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable unduly discriminatory or otherwise unlawful. Accordingly, we shall accept Texas Gas' December 26, 1974, filing, suspend it for one day to become effective February 2, 1975, subject to refund.

With regard to emergency purchases, we note that the legality of Commission Order Nos. 491 and 491-B is presently subject to judicial review.[5] We believe, therefore, that it would be premature to establish a hearing schedule in this docket at this time.

Further review of Texas Gas' December 26, 1974, filing indicates that the claimed increased costs other than those costs associated with that portion of emergency purchases in excess of the rate levels prescribed in Opinion No. 699-H are fully justified and comply with the standards set forth in Docket No. R-406. Accordingly, Texas Gas may file a substitute tariff sheet to become effective February 1, 1975, reflecting increased costs other than that portion of those increased costs associated with emergency purchases in excess of the rate levels prescribed in Opinion No. 699-H referred to in this order.

The Commission finds. It is necessary and appropriate in the public interest and to aid in the enforcement of the Natural Gas Act that:

(1) Texas Gas' Fifth Substitute Tenth Revised Sheet No. 7, filed December 26, 1974, be accepted for filing, suspended and permitted to become effective February 2, 1975.

(2) The claimed increased costs other than those increased costs associated with that portion of emergency purchases in excess of the rate levels prescribed in Opinion No. 699-H have been reviewed and found fully justified and in compliance with the standards set forth in Docket No. R-406.

The Commission orders. (A) Texas Gas' Fifth Substitute Tenth Revised Sheet No. 7, filed December 26, 1974, is hereby accepted for filing, suspended and permitted to become effective February 2, 1975, subject to refund, pending further Commission order in this docket.

(B) Within 15 days of the issuance hereof, Texas Gas may file to become effective February 1, 1975, a substitute tariff sheet reflecting that portion of Texas Gas' rates as filed December 26, 1974, which reflect increased costs other than those increased costs associated with that portion of emergency purchases which are in excess of the rate levels prescribed in Opinion No. 699-H.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-3507 Filed 2-6-75;8:45 am]

[Docket No. RP73-35, PGA 75-1]

TRUNKLINE GAS CO.

Order Accepting for Filing and Suspending Proposed PGA Increase

JANUARY 31, 1975.

On December 13, 1974, Trunkline Gas Company (Trunkline) tendered for filing a purchased gas cost adjustment (PGA) increase[1] pursuant to its PGA clause which reflects an increase of 3.07¢ per Mcf to track increases in the current cost of purchased gas and a 4.16¢ per Mcf surcharge to recover both the $3,228,450 deferred purchased gas cost balance as of October 31, 1974, and approximately $4,524,312 in estimated costs to be incurred by the proposed February 1, 1975, effective date as a result of rate increases filed pursuant to Opinion No. 699 (Alternate 1). The rates described above include small producer and emergency purchases at rate levels in excess of Opinion No. 699. Furthermore, Trunkline's December 13, 1974, filing included another tariff sheet[2] proposed to become effective February 1, 1975, which eliminates the effect of small producer and emergency purchases at rates in excess of Opinion No. 699. (Alternate 2)

Trunkline's December 13, 1974, filing was noticed with comments, protests and petitions to intervene due on or before January 6, 1975. To date, no comments, protests or petitions to intervene have been received by this Commission.

Our review of Trunkline's Alternate 1 proposal indicates that, while it contains no small producer rate in excess of Opinion No. 699-H, it is based in part upon emergency purchases at rates in excess of the rate levels established by Opinion No. 699-H.[3] Therefore, the proposed rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or otherwise unlawful. Accordingly, we shall accept Trunkline's Alternate 1 tariff proposal, suspend it for one day to become effective February 2, 1975, subject to refund. As to Trunkline's Alternate 2 tariff sheets, those sheets shall be deemed to have been withdrawn without prejudice to the company's right to file a substitute tariff sheet to become effective February 1, 1975, reflecting increased costs other than that portion of those increased costs associated with emergency purchases in excess of the rate levels prescibed in Opinion No. 699-H referred to in this order.

With regard to emergency purchases, we note that the legality of Commission Order Nos. 491 and 491-B is presently subject to judicial review.[4] We believe, therefore, that it would be premature to establish a hearing schedule in this docket at this time. Further review of Trunkline's December 13, 1974, filing indicates that the claimed increased costs other than those costs associated with that portion of emergency purchases in excess of the rate levels prescribed in Opinion No. 699-H are fully justified and comply with the standards set forth in Docket No. R-406.

The Commission finds. It is necessary and appropriate in the public interest and to aid in the enforcement of the Natural Gas Act that:

(1) Trunkline's Eleventh Revised Sheet No. 3-A to its FPC Gas Tariff, Original Volume No. 1, filed December 13, 1974, be accepted for filing, suspended and permitted to become effective February 2, 1975.

(2) The claimed increased costs other than those increased costs associated with that portion of emergency purchases in excess of the rate levels prescribed in Opinion No. 699-H have been reviewed and found fully justified and in compliance with the standards set forth in Docket No. R-406.

The Commission orders. (A) Trunkline's Eleventh Revised Sheet No. 3-A to its FPC Gas Tariff, Original Volume No. 1, filed December 13, 1974, be accepted for filing, suspended and permitted to become effective February 2, 1975.

(B) Within 15 days of the issuance hereof, Trunkline may file to become effective February 1, 1975, a substitute tariff sheet reflecting that portion of Trunkline's rates as filed December 13, 1974, which reflect increased costs other than those increased costs associated with that portion of emergency purchases which are in excess of the rate levels prescribed in Opinion No. 699-H.

(C) The Secrtary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

UNITED GAS PIPE LINE CO.

Order Accepting for Filing and Making Subject To Refund in Part, Proposed PGA Rate Increase

JANUARY 31, 1975.

On January 13, 1975, United Gas Pipe Line Company (United) tendered for filing proposed revised tariff sheets,[1] and proposed alternate revised tariff sheets[2] to its FPC Gas Tariff, First Revised Volume No. 1. United's proposed revised sheets were filed in response to our December 31, 1974 order which accepted United's proposed purchased gas adjustment (PGA) increase for filing, suspended it for one day to become effective January 2, 1975, subject to refund, and conditioned its acceptance upon United's modifying the filing to eliminate all costs attributable to producer rate changes which did not become effective prior to January 1, 1975. In addition, we permitted United to file a substitute sheet to become effective January 1, 1975, without a refund obligation, which reflected the elimination of all costs associated with small producer and emergency purchases in excess of Opinion No. 699-H rate levels.

At the time of the instant filing, there was pending Commission action a substitute PGA filing[3] proposed by United which reflected United's PGA increase as adjusted to include a one-time special surcharge[4] designed to reflect the impact of Opinion No. 699 (excluding Opinion No. 699-H) producer increases incurred during the period June 21, 1974, through December 31, 1974. Accordingly, in the event that we subsequently approved the inclusion of the special surcharge in United's PGA filing, United filed alternate revised sheets in the instant filing which reflect the PGA increase with the special surcharge but as modified in accordance with the aforementioned conditions of our December 31, 1974 order. Alternate Twenty-First Revised Sheet No. 4, proposed to be effective for the single day, January 1, 1975, reflects United's PGA increase with the special surcharge as adjusted: (1) To eliminate $1,130,177 attributable to small producer and emergency purchases in excess of Opinion No. 699-H rate levels; (2) to eliminate $43,754,321 attributable to producer rate changes which did not become effective by January 1, 1975; and (3) to reflect a Surcharge Adjustment recalculated after deleting $54,217 attributable to purchased gas costs associated with small producer and emergency purchases in excess of Opinion No. 699-H rate levels. Alternate twenty-second Revised Sheet No. 4, to be effective as of January 2, 1975, reflects United's PGA increase with the special surcharge as adjusted to eliminate the $43,754,321 of producer rate changes which did not become effective by January 1, 1975.

By order issued January 17, 1975, we approved the inclusion of the special surcharge in United's PGA filing, but inadvertently omitted reference to the conditions imposed by our December 31, 1974 order. Since United's proposed alternate revised sheets comply with the intent of both our December 31, 1974 and January 17, 1975 orders, we believe it is appropriate to accept these proposed alternate sheets for filing subject to the conditions hereinafter ordered.

Notice of United's filing was issued on January 22, 1975, with protests, notices of intervention, and petitions to intervene due on or before February 3, 1975. To date no comments have been received, but as the period for such comments has not yet expired, our action in this order is taken without prejudice to any future action regarding United's filing which may be taken in response to any timely comments which may be received.

Further, we note that our December 31, 1974, order made all costs associated with nonjurisdictional purchases which are at issue in the rate proceeding pending in Docket No. RP74-83, and all costs associated with purchases from affiliates which are the subject of the proceedings in Docket Nos. RP70-13, et al., subject to the ultimate disposition of the proceedings in those two respective dockets. To the extent that United's instant filing includes such costs, it is made subject to the disposition of the proceedings in the aforementioned dockets.

The Commission finds. (1) Good cause exists to accept United's alternate Twenty-First Revised Sheet No. 4 for filing to be effective January 1, 1975, subject to the conditions hereinafter ordered.

(2) Good cause exists to accept United's alternate Twenty-Second Revised Sheet No. 4 for filing to be effective January 2, 1975, subject to refund and subject to the conditions as hereinafter ordered.

The Commission orders. (A) United's alternate Twenty-First Revised Sheet No. 4 to its FPC Gas Tariff, First Revised Volume No. 1, tendered on January 13, 1975, is hereby accepted for filing and made effective as of January 1, 1975, subject to the conditions as hereinafter ordered.

(B) United's alternate Twenty-Second Revised Sheet No. 4 to its FPC Gas Tariff, First Revised Volume No. 1, tendered on January 13, 1975, is hereby accepted for filing and made effective as of January 2, 1975, subject to refund and subject to the conditions as hereinafter ordered.

(C) United's Twenty-First Revised Sheet No. 4 and Twenty-Second Revised Sheet No. 4 to its FPC Gas Tariff, First Revised Volume No. 1, tendered on January 13, 1975, are hereby deemed withdrawn.

(D) Acceptance of United's alternate Twenty-First Revised Sheet No. 4 and alternate Twenty-Second Revised Sheet No. 4 is granted without prejudice to any future action regarding such sheets which may be taken in response to timely filed comments.

(E) The inclusion of any costs in the instant filing associated with nonjurisdictional purchases which are at issue in the rate proceeding in Docket No. RP74-83 and the inclusion of any costs associated with the purchases from affiliates which are the subject of the proceedings in Docket No. RP70-13, et al., will be subject to the ultimate disposition of the proceedings in those two respective dockets.

(F) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Dockets Nos. CP75-211, CP75-212, and CP75-213]

WESTERN GAS INTERSTATE CO.

Application

JANUARY 30, 1975.

Take notice that on January 22, 1975, Western Gas Interstate Company (Applicant), 1506 Fidelity Union Tower, Dallas, Texas 75201, filed in Dockets Nos. CP75-211, CP75-212, and CP75-213 applications pursuant to section 7 of the Natural Gas Act, as implemented by paragraphs (g), (c) and (b), respectively, of § 157.7 of the regulations thereunder (18 CFR 157.7 (g), (c) and (b)), for authorization for the construction, relocation, removal or abandonment during the twelve-month period following the date of requested Commission authorization and operation of field compression and related metering and appurtenant facilities, for a certificate of public convenience and necessity authorizing the construction, also during the twelve month period following requested Commission authorization, and operation of facilities for rearrangements of minor gas-sales or transportation facilities, and for a certificate of public convenience and necessity authorizing the construction, during the same time period, and operation of gas purchase facilities, respectively, all as more fully set forth in the applications, which are on file with the Commission and open to public inspection.

The respective purposes of these applications are (1) to augment Applicant's ability to act with reasonable dispatch in the construction and abandonment of facilities which will not result in changing Applicant's system saleable capacity or service from that authorized prior to the filing of the applications, (2) to enable Applicant to act with reasonable dispatch in making miscellaneous minor rearrangements on its system without the delay incident to the filing and processing of numerous individual certificate applications, and (3) to augment Applicant's ability to act with reasonable dispatch in contracting for and connecting to its pipeline system supplies of natural gas.

Applicant states that the total cost for the abandonment, removal and relocation, and construction of field compression facilities will not exceed $500,000, with no single project to exceed 25 percent of the total authorization, that the total cost of construction of the miscellaneous rearrangements of gas-sales and transportation facilities will not exceed $100,000, and that the total cost of construction of gas purchase facilities will not exceed $100,000, with no single project to exceed 25 percent of the total authorization. Applicant further states that the costs will be financed from funds on hand and by short term borrowing from Applicant's parent company, Southern Union Gas Company.

Any person desiring to be heard or to make any protest with reference to said applications should on or before February 19, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, hearings will be held without further notice before the Commission on these applications if no petitions to intervene are filed within the time required herein, if the Commission on its own review of the matters finds that grants of the certificates and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearings.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-3510 Filed 2-6-75;8:45 am]

FEDERAL RESERVE SYSTEM

BBHC, LTD.

Order Approving Formation of Bank Holding Company and Retention of Insurance Agency Activities

BBHC, Ltd., Anamosa, Iowa, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bankholding company through acquisition of 80 percent of the voting shares of Onslow Savings Bank, Onslow, Iowa ("Bank"). Applicant has also applied, pursuant to section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to continue to engage in the activities of a general insurance agency in a community with a population not exceeding 5,000 persons. Such activities have been determined by the Board to be closely related to banking (12 CFR § 225.4(a)(9)(iii)(a)).

Notice of the applications, affording opportunity for interested persons to submit comments and views, has been given in accordance with sections 3 and 4 of the Act (39 FR 40541). The time for filing comments and views has expired, and the applications and all comments received have been considered in light of the factors set forth in section 3(c) of the Act, and the considerations specified in section 4(c)(8) of the Act.

Applicant was recently organized for the purpose of becoming a bank holding company through acquisition of Bank and of engaging in general insurance agency activities. Bank is the only bank in Onslow (population of 350 persons), an agriculturally oriented community located in east-central Iowa. Upon acquisition of Bank (deposits of $3.8 million),[1] Applicant would control the 580th largest bank in Iowa, holding .04 per cent of total deposits in commercial banks in the State.

Bank is the smallest of six banks in the relevant banking market,[2] with approximately 4.3 per cent of the total commercial bank deposits therein. The largest banking organization in the market controls 52.2 percent of the deposits in the market. A principal of Applicant together with his brother are principals in Lesernal Corporation, Anamosa, Iowa, a registered one-bank holding company, which owns approximately 57 per cent of Citizens Savings Bank, Anamosa, Iowa ("Citizens Bank"). In addition, those individuals also hold, directly and indirectly, interests in three other banks in Iowa: City National Bank of Cedar Rapids, Cedar Rapids; Farmers Savings Bank, Martelle ("Farmers Bank"); and The Exchange State Bank, Springville. Citizens Bank and Farmers Bank are each located in the relevant banking market and rank as the second and fifth largest banks in the market with 17.7 and 4.4 per cent of the total market deposits, respectively. Inasmuch as the proposed transaction is essentially a reorganization of Bank's ownership and in view of the nature and duration of the relationship of Applicant's principal and his brother to the other banks in the market, consummation of the proposal would not eliminate existing or potential competition, nor have an adverse effect on other area banks. Accordingly, it is concluded that competitive considerations are consistent with approval of this application.

The financial condition, managerial resources, and future prospects of Bank are regarded as satisfactory and consistent with approval of the application. The management of Applicant is satisfactory, and Applicant's financial condition and future prospects, which are dependent upon profitable operations of both Bank and the insurance agency, appear favorable. Although Applicant will incur debt in connection with the proposal, its projected income from Bank and the insurance agency activities should provide sufficient revenue to service the debt without impairing the financial condition of Bank. Accordingly, considerations relating to banking factors are consistent with approval of the application. Applicant proposes to increase Bank's services by providing an afterhours depository, extending banking hours, and providing trust services. Therefore, considerations relating to the convenience and needs of the community to be served, with respect to the acquisition of Bank, are consistent with approval of the application. It has been determined that consummation of the transactions would be in the public interest and that the application to acquire Bank should be approved.

[1] All banking data are as of December 31, 1973.

[2] The relevant banking market is approximated by Jones County and a small southwestern portion of Dubuque County.

Applicant recently acquired the only insurance agency in Onslow and currently engages in the sale of all general lines of insurance (except life insurance) from Bank's premises. Onslow is a town with a population not exceeding 5,000 persons and the operation of a general insurance agency in such a community is an activity the Board has found to be closely related to banking (§ 225.4(a)(9)(ii)(a) of Regulation Y). There is no evidence in the record indicating that Applicant's retention of its general insurance agency business would result in any undue concentration of resources, unfair competition, conflicts of interests, unsound banking practices, or other adverse effects on the public interest. On the other hand, approval of the application would enable Applicant to continue to offer the residents of the Onslow area a convenient source of insurance services, which result is regarded as being in the public interest.

Based on the foregoing and other considerations reflected in the record, it has been determined that the considerations affecting the competitive factors under section 3(c) of the Act and the balance of the public interest factors required to be considered under section 4(c)(8) of the Act both favor approval of Applicant's proposals.

Accordingly, the applications are approved for the reasons summarized above. The acquisition of Bank shall not be made (a) before the thirtieth calendar day following the effective date of this order or (b) later than three months after the effective date of this order unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Chicago, pursuant to delegated authority. The determination as to Applicant's insurance activities is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of the holding company or any of its subsidiaries as the Board finds necessary to insure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder or to prevent evasion thereof.

By order of the Secretary of the Board, acting pursuant to delegated authority from the Board of Governors, effective January 29, 1975.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75-3551 Filed 2-6-75;8:45 am]

CORONADO, INC.

Order Approving Formation of Bank Holding Company and Acquisition of a General Insurance Agency

Coronado, Inc., Sterling, Kansas, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) ("Act") of formation of a bank holding company through acquisition of 85 per cent or more of the voting shares of The Farmers State Bank, Sterling, Kansas ("Bank"). The factors that are considered in acting upon this application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant has also applied, pursuant to section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire 89.8 per cent of the voting shares of The Farmers State Agency, Inc., Sterling, Kansas ("Agency"). Applicant would thereafter engage in the conduct of a full service insurance agency business that would include the sale of life insurance, health and accident insurance, fire, casualty, and surety insurance on the premises of Bank, which is located in a community of less than 5,000 people. Such activity has been determined by the Board in § 225.4(a)(9)(iii) of Regulation Y to be permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Notice of the applications, affording opportunity for interested persons to submit comments and views has been duly published (39 FR 40333 (1974)). The time for filing comments and views has expired, and the Board has considered the applications and all comments received in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)), and the considerations specified in section 4(c)(8) of the Act 12 U.S.C. 1843(c)(8)).

Applicant is a nonoperating Kansas corporation organized for the purpose of becoming a bank holding company through the acquisition of Bank; and of acquiring the insurance business of Agency. Bank holds deposits of $6 million, representing approximately 16.3 per cent of the commercial bank deposits in the relevant market area (approximated by Rice County), and is the second largest of ten commercial banks operating in the Rice County banking market.[1] Inasmuch as this proposal merely represents a transfer of the ownership of Bank from a family to a corporation controlled by that same family and Applicant has no present banking subsidiaries, the acquisition of Bank would not eliminate any significant existing or potential competition, increase the concentration of banking resources, and would not have any adverse effects on competition within the banking market. Accordingly, the Board concludes that competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Applicant are dependent upon those of the bank to be acquired and are regarded as satisfactory, particularly in view of Applicant's plan to inject $160,000 of additional capital into Bank. These considerations relating to banking factors are consistent with approval of the application. The same conclusion applies with respect to considerations relating to the convenience and needs of the communities to be served. It is the Board's judgment that consummation of the holding company formation would be consistent with the public interest and that the application to acquire Bank should be approved.

Also incident to the reorganization, Applicant proposes to operate a general insurance agency business, pursuant to § 225.4(a)(9)(iii) of Regulation Y, by acquiring the insurance business presently owned and operated by the owners of Bank. It does not appear that the acquisition of Agency would have any adverse effects on competition. Moreover, approval of the proposal would enable Applicant to continue to offer Bank's customers a convenient source of insurance services, which result the Board considers to be in the public interest. There is no evidence in the record indicating that consummation of the proposal would result in any undue concentration of resources, unfair competition, conflicts of interest, unsound banking practices, or other adverse effects upon the public interest.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the considerations affecting the competitive factors under section 3(c) of the Act and the balance of the public interest factors that the Board is required to consider under section 4(c)(8) both favor approval of Applicant's proposals.

On the basis of the record, the applications are approved for the reasons summarized above. The acquisition of Bank shall not be made before the thirtieth calendar day following the effective date of this Order; and neither the acquisition of Bank nor the acquisition of Agency shall be made later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Kansas City pursuant to delegated authority. The determination as to Applicant's insurance activities is subject to the conditions set forth in § 225.4(c) of Regulation Y as

[1] All banking data are as of June 30, 1974, unless otherwise indicated.

well as to the Board's authority to require reports by, and to make examinations of, bank holding companies and their subsidiaries and to require such modification or termination of the activities of a bank holding company or any of its subsidiaries as the Board may find necessary to assure compliance with the provisions and purposes of the Act and of the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[2] effective January 29, 1975.

MOUNTAIN BANKS, LTD.

Acquisition of Bank

Mountain Banks, Ltd., Colorado Springs, Colorado, has applied for the Board's approval under § 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 80 per cent or more of the voting shares of Mountain National Bank of Aurora, Aurora, Colorado, a proposed new bank. The factors that are considered in acting on the application are set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit views in writing to the Reserve Bank to be received not later than February 24, 1975.

Board of Governors of the Federal Reserve System, January 30, 1975.

TEXAS AMERICAN BANCSHARES INC.

Acquisition of Bank

Texas American Bancshares Inc., Fort Worth, Texas, has applied for the Board's approval under § 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of Gulf Southern National Bank, Houston, Texas. The factors that are considered in acting on the application are set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than March 4, 1975.

GENERAL ACCOUNTING OFFICE

REGULATORY REPORTS REVIEW

Receipt of Proposals

The following request for clearance of a questionnaire intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on February 4, 1975. See 44 U.S.C. 3512 (c) and (d). The purpose of publishing this information in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of the request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; and the frequency with which the information is proposed to be collected.

Written comments on the proposed CPSC questionnaire are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments must be received on or before February 25, 1975, and should be addressed to Mr. Monte Canfield, Jr., Director, Office of Special Programs, United States General Accounting Office, 425 I Street NW., Washington, D.C. 20548.

Further information about the questionnaire may be obtained from the Regulatory Reports Review Officer, 202-376-5425.

CONSUMER PRODUCT SAFETY COMMISSION

Request for clearance of a new single-time questionnaire directed to domestic manufacturers of sleepwear subject to the Standards for Flammability of Children's Sleepwear (FF 3-71), Sizes 0-6X, and (FF 5-74), Sizes 7-14. The purpose of the mailing is to disseminate the Standards and Regulations, to measure compliance, and to aid the Commission in its selection of firms to be inspected. Potential respondents are 1000 sleepwear manufacturers. Respondent burden is estimated at ½ man-hour per respondent. Response is mandatory under FTC section 6A and CPSA section 27.

NORMAN F. HEYL, *Regulatory Reports Review Officer.*

[FR Doc.75-3598 Filed 2-6-75;8:45 am]

REGULATORY REPORTS REVIEW

Receipt of Proposals

The following request for clearance of a report intended for use in collecting information from the public was received by the Regulatory Reports Review Staff, GAO, on February 3, 1975. See 44 U.S.C. 3512(c) & (d). The purpose of publishing this notice in the FEDERAL REGISTER is to inform the public of such receipt.

The notice includes the title of the request received, the name of the agency sponsoring the proposed collection of information, and the frequency with which the information is proposed to be collected.

Written comments on the proposed FTC form are invited from all interested persons, organizations, public interest groups, and affected businesses. Because of the limited amount of time GAO has to review the proposed form, comments must be received on or before February 25, 1975, and should be addressed to Mr. Monte Canfield, Jr., Director, Office of Special Programs, United States General Accounting Office, 425 I Street NW., Washington, D.C. 20548.

Further information about the item on this notice may be obtained from the Regulatory Reports Review Officer, 202-376-5425.

FEDERAL TRADE COMMISSION

Request for review and clearance of a new single-time letter survey entitled "Survey of Recreational Land Developers." Potential respondents are fifty large recreational land developers active in Pennsylvania, Maryland, Delaware, Virginia, and the District of Columbia. Respondent burden is estimated to average 4 man-hours per response.

NORMAN F. HEYL, *Regulatory Reports Review Officer.*

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

STANDARDS ADVISORY COMMITTEE ON COKE OVEN EMISSIONS

Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. App. I), notice is hereby given that the Standards Advisory Committee on Coke Oven Emissions, established under section 7(b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (29 U.S.C. 656), will hold meetings on March 4 and 5, and on March 18 and 19, 1975, in Washington, D.C.

The meetings are open to the public and all interested persons are encouraged to attend. The meetings announced in this notice, as well as a meeting on February 11 and 12 which was annuonced in the FEDERAL REGISTER on Friday, January 3, 1975 (40 FR 845), will be held in the following locations:

February 11 and 12—Room 218 ABCD, Main Labor Building, 14th and Constitution Avenue NW., Washington, D.C., 10 a.m.—February 11, 9 a.m.—February 12.

March 4—Room 102 ABCD, Main Labor Building, 14th and Constitution Avenue NW., Washington, D.C., 10 a.m.

March 5—Conference Room B, Departmental Auditorium, Constitution Avenue between 12th and 14th Streets NW., Washington, D.C., 9 a.m.

March 18 and 19—Room 216 ABCD, Main Labor Building, 14th and Constitution Avenue NW., Washington, D.C., 10 a.m.—March 18, 9 a.m.—March 19.

These meetings will be the fifth, sixth, and seventh of this ad hoc committee which began its deliberations on November 6, 1974. The committee will submit its recommendations within 200 days of the date of its initial meeting.

It is anticipated that the committee will hear public presentations in February and will begin discussing and drafting recommendations during the March meetings. Because the committee recommendations are due in late May, oral presentations before the committee will be restricted after the February meeting.

Although persons desiring to make an oral presentation to the committee may submit a written request to be heard to the Committee Management Officer at least three days prior to the date of the meeting at which the person wishes to appear, these parties are encouraged to submit such comments in writing rather than request oral participation.

Any member of the public wishing to submit written presentations to the committee may do so by filing such a statement, together with 20 duplicate copies, with the Committee Management Officer. Such submissions will be provided to the members of the committee and will be included in the record of the meeting.

The committee has previously requested relevant information or data on employee exposure to coke oven emissions, feasible analytical methods, engineering methods available for control of emissions, and medical surveillance. It is important that the committee receive any such information as quickly as possible.

Communications and questions should be addressed to:

Jeanne W. Ferrone, Committee Management Office, U.S. Department of Labor, Occupational Safety and Health Administration, 1726 M Street NW., Room 200, Washington, D.C. 20210. Phone: 202-961-2248, 2487.

All materials which have been submitted to or developed by the committee since the beginning of its deliberations, as well as the official record of all committee proceedings, are available for public inspection and copying at the above location.

Signed at Washington, D.C., this 4th day of February 1975.

JOHN STENDER, *Assistant Secretary of Labor.*

Wage and Hour Division

[Administrative Order No. 637]

INDUSTRY COMMITTEES FOR VARIOUS INDUSTRIES IN PUERTO RICO

Appointment To Investigate Conditions and Recommend Minimum Wage Rates; Notice of Hearings

1. Pursuant to section 5 of the Fair Labor Standards Act of 1938, as amended, (29 U.S.C. 205), Reorganization Plan No. 6 of 1950 (3 CFR 1949–53 Comp., p. 1004), and 29 CFR 511, I hereby appoint the following industry committees for the indicated industries:

Committee number:	*Industry*
125–A	Chemical, Petroleum and related products industry, in Puerto Rico.
125–B	Construction industry in Puerto Rico.

2. These industries are defined as follows:

(A) The chemical, petroleum, and related products industry in Puerto Rico is defined as:

(a) The manufacture or packaging of chemicals, drugs, medicines, toilet preparations, cosmetics, and related products; the mining or other extraction or processing of any mineral used in the production of the foregoing; and the mining or other extraction of petroleum, coal or natural gases and the manufacture of products therefrom: *Provided, however,* That the industry shall not include any activity included in the food and kindred products industry; the stone, clay and glass products and nonmetallic mining industry; and the metal, machinery, transportation equipment, and allied products industry, as defined in the wage orders for those industries, and any activities performed in the capacity of a public utility.

(b) The products of this industry include, among others: Primary plastic materials such as sheets, rods, tubes, filaments, granules, powders, and liquids; soap and glycerin; cleaning and polishing preparations; paints, varnishes, colors, dyes, inks, putty, and fillers; industrial alcohol, wood distillation and naval stores; fertilizers; vegetable and animal oils and fats; candles; glue and gelatin; compressed and liquified gases; insecticides and fungicides; salt; explosives, fireworks and pyrotechnics; coke and coke-oven by-products; paving mixtures and blocks containing asphalt, creosote, or tar; fuel briquettes; roofing felts and coatings; and asphalt tile and linoleum.

(B) The construction industry in Puerto Rico, to which this part shall apply, is defined as: The design, construction, reconstruction, alteration, repair and maintenance of buildings, structures, and other improvements on land; the assembling at the construction site and the installation of machinery and other facilities in or upon such improvements; and the dismantling, wrecking, or other demolition of such improvements: *Provided, however,* That the construction industry shall not include any activity carried on by an establishment in Puerto Rico for its own use to which another wage order for the primary business of such establishment would otherwise be applicable.

3. Pursuant to section 8 of the Fair Labor Standards Act of 1938 (29 U.S.C. 208), Reorganization Plan No. 6 of 1950 (3 CFR 1949–1953 Comp., p. 1004), and 29 CFR Part 511, I hereby:

(a) Convene the above-appointed industry committees;

(b) Refer to the industry committees the question of the minimum rates of wages to be fixed for the above-mentioned industries in Puerto Rico.

(c) Give notice of the hearings to be held by the several committees at the times and place indicated. The committees shall investigate conditions in the industries, and the committees, or any authorized subcommittee thereof, shall hear witnesses and receive such evidence as may be necessary or appropriate to enable the committees to perform their duties and functions under the aforementioned Act.

Industry Committee No. 125–A will meet in executive session to commence its investigation at 9 a.m. and begin its public hearing at 10 a.m. on Monday, March 10, 1975.

Following this hearing, Industry Committee No. 125–B will immediately convene to conduct its investigation and begin its public hearing.

The hearings will take place in the offices of the Wage and Hour Division on the seventh floor of the Condominio San Alberto Building, 1200 Ponce De Leon Avenue, Santurce, P.R.

Each industry committee shall recommend to the Administrator of the Wage and Hour Division of the Department of Labor the highest minimum wage rates for the industry which it determines, having due regard to economic and competitive conditions, will not substantially curtail employment in the industry, and will not give any industry in Puerto Rico a competitive advantage over any industry in the United States outside of Puerto Rico, the Virgin Islands, or American Samoa; except that each committee shall recommend the minimum rates prescribed in section 6(a) or section 6(b), unless there is substantial documentary evidence, including pertinent unabridged profit and loss statements and balance sheets for a representative period of years which establishes that the industry or a predominant portion thereof, is unable to pay the wage.

4. The rate or rates recommended by the committees shall not exceed the rates prescribed by section 6(a) of the Act, namely, $2.10 an hour for the period ending December 31, 1975; and $2.30 an hour after December 31, 1975, for those classifications covered before the Fair Labor Amendments of 1966; nor those rates prescribed by section 6(b) of the Act, namely, $2.00 an hour for the period ending December 31, 1975; $2.20 an hour during the year beginning January 1, 1976; nor $2.30 an hour after December 31, 1976, for those classifications brought under the Act by the Fair Labor Standards Amendments of 1966.

5. Whenever an industry committee finds that a higher minimum wage may be determined for employees engaged in certain activities in the industry than may be determined for other employees in that industry, the committee shall recommend such reasonable classifications within the industry as it determines to be necessary for the purpose of fixing for each classification the highest minimum wage rate that can be determined for it under the principles set forth herein and in 29 CFR 511.10 which will not give a competitive advantage to any group in the industry. No classification shall be made, however, and no minimum wage rate shall be fixed solely on a regional basis or on the basis of age or sex. In determining whether there should be classifications, within an industry, in making such classification, and in determining the minimum wage rates for such classifications, the industry committee shall consider, among other relevant factors, the following: (a) Competitive conditions as affected by transportation, living, and production costs; (b) wages established for work of like or comparable character by collective labor agreements negotiated between employers and employees by representatives of their own choosing; and (c) wages paid for work of like or comparable character by employers who voluntarily maintain minimum wage standards in the industry.

6. The Administrator shall prepare an economic report for the industry committees containing such data as she is able to assemble pertinent to the matters referred to them. Copies of such reports may be obtained at the national and Puerto Rican offices of the Wage and Hour Division of the U.S. Department of Labor as soon as they are completed and prior to the hearings. The industry committees shall take official notice of the facts stated in the economic reports to that extent that they are not refuted at the hearing.

7. The procedure of industry committees shall be governed by 29 CFR Part 511. Interested persons wishing to participate in the hearings shall file prehearing statements, as provided in 29 CFR 511.8 containing the data specified in that section not later than 10 days before the hearing date, i.e., February 28, 1975.

Signed at Washington, D.C., this 31st day of January 1975.

PETER J. BRENNAN,
Secretary of Labor.

[FR Doc.75-3586 Filed 2-6-75;8:45 am]

[Administrative Order No. 636]

INDUSTRY COMMITTEE FOR VARIOUS INDUSTRIES IN THE VIRGIN ISLANDS

Appointment To Investigate Conditions and Recommend Minimum Wage Rates; Notice of Hearings

1. Pursuant to section 5 of the Fair Labor Standards Act of 1938, as amended, (29 U.S.C. 205), Reorganization Plan No. 6 of 1950 (3 CFR 1949–53 Comp. p. 1004), and 29 CFR 511, I hereby appoint Special Industry Committee No. 16 for the Virgin Islands for the classifications defined below.

These classifications shall not include any employee employed in the Virgin Islands by the United States or by the government of the Virgin Islands, by an establishment which is a hotel, motel, or restaurant, or by any retail or service establishment which employed such employee primarily in connection with the preparation or offering of food and beverages for human consumption, either on the premises, or by such services as catering, banquet, box lunch, or curb or counter service, to the public, to employees, or to members or guest of members of clubs.

2. These classifications are defined as follows:

(a) *The pre-1966 coverage classification.* This classification includes all activities of employees in the Virgin Islands which were within the purview of section 6 of the Fair Labor Standards Act of 1938 prior to the effective date of the Fair Labor Standards Amendments of 1966.

(b) *1966 coverage classifications.* The classifications in this paragraph (b) include only those activities of employees in the Virgin Islands which were brought within the purview of section 6 of the Fair Labor Standards Act of 1938 by the Fair Labor Standards Amendments of 1966 or by section 906 of the Education Amendments of 1972.

(1) *The Agriculture classification.* This classification is defined as farming in all its branches, including the cultivation and tillage of the soil, dairying, the production, cultivation, growing, and harvesting of any agricultural or horticultural commodities, the raising of livestock, bees, fur-bearing animals, or poultry, and any practices (including any forestry or lumbering operations) performed by a farmer or on a farm as an incident to or in conjunction with such farming operations, including the preparation for market, delivery to storage or natural state, or canning of agricultural or horticultural commodities for dling, packing, storing, compressing, pasteurizing, drying, preparing in their raw or natural state, or canning of agriucultural or horicultural commodities for market, or making cheese or butter or other dairy products; the operation of a country elevator, including such an establishment which sells products and services used in the operation of a farm; the ginning of cotton for market; and the transportation and preparation for transportation of fruits and vegetables, whether or not performed by a farmer, from the farm to a place of first processing or first marketing.

(2) *The other activities classification.* This classification is defined as all activities of employees in the Virgin Islands, including the activities of those preschool employees which were brought within the purview of section 6 of the Fair Labor Standards Act by section 906 of the Education Amendments of 1972, other than those activities included in the agriculture classification defined in subparagraph (1) of this paragraph.

(c) *The 1974 coverage classifications.* The classifications in this paragraph (c) include only those activities of employees in the Virgin Islands which were brought within the purview of section 6 of the Fair Labor Standards Act of 1938 by the Fair Labor Standards Amendments of 1974.

(1) *The domestic service classification.* This classification is defined as service of a household nature performed by an employee in or about the private home of the person by whom he or she is employed. A private home is a fixed place of abode of an individual or family. A separate and distinct dwelling maintained by an individual or a family in an apartment house or hotel may constitute a private home. However, a dwelling primarily used as a boarding or lodging house for the purpose of supplying such services to the public as a business enterprise is not a private home. Domestic service in and about a private home includes, but is not limited to, services performed by persons employed as cooks, butlers, valets, maids, housekeepers, governesses, janitors, laundresses, caretakers, handymen, gardeners, footmen, grooms and chauffeurs.

(2) *The motion picture theater classification.* This classification is defined as the activities of employees of motion picture theaters.

(3) *The retail and service classification.* This classification is defined as the activities of employees employed in retail and service establishments that are parts of covered enterprises and that have an annual volume of sales that is less than $250,000 but not less than $225,000 after January 1, 1975, and is not less than $200,000 after January 1, 1976, and in any amount after January 1, 1977. (Retail and service establishments with $250,000 or more in annual sales volume are covered under the pre-1974 provision of the Fair Labor Standards Act of 1938).

3. Pursuant to section 8 of the Fair Labor Standards Act of 1938 (29 U.S.C. 208), Reorganization Plan No. 6 of 1950 (3 CFR 1949–1953 Comp., p. 1004), and 29 CFR Part 511, I hereby:

(a) Convene the above-appointed Industry Committee;

(b) Refer to the Committee the question of the minimum rates of wages to be fixed for the above-mentioned classifications in the Virgin Islands.

(c) Give notice of the hearing to be held by the Committee at the times and places indicated below. The Committee shall investigate conditions in the classifications, and the Committee, or any authorized subcommittee thereof, shall hear witnesses and receive such evidence as may be necessary or appropriate to enable the Committee to perform its duties and functions under the aforementioned Act.

The Committee will meet in executive session to commence its investigation at 9:30 a.m. and begin its public hearing at 11 a.m. on Monday, March 3, 1975, at Government House, Christianstead, St. Croix, Virgin Islands. The public hearing will continue on March 4, 1975.

Upon completion of its proceedings in St. Croix, the Committee will move its proceedings to the College of the Virgin Islands, St. Thomas, Virgin Islands where the hearing will resume at 9:30 a.m. on Wednesday, March 5, 1975.

The Committee shall recommend to the Administrator of the Wage and Hour Division of the Department of Labor the highest minimum wage rates for the industry which it determines, having due regard to economic and competitive conditions, will not substantially curtail employment in the industry, and will not give any industry in the Virgin Islands a competitive advantage over any industry in the United States outside of Puerto Rico, the Virgin Islands, or American Samoa; except that the Committee shall recommend the minimum rates prescribed in section 6(a) or section 6(b), unless there is substantial documentary evidence, including pertinent unabridged profit and loss statements and balance sheets for a representative period of years which establishes that the industry or a predominant portion thereof, is unable to pay the wage.

4. The rate or rates recommended by the Committee shall not exceed the rates prescribed by section 6(a) of the Act, namely, $2.10 an hour for the period ending December 31, 1975; and $2.30 an hour after December 31, 1975, for those classifications covered before the Fair Labor Standards Amendments of 1966; nor those rates prescribed by section 6(b) of the Act, namely, $2.00 an hour for the period ending December 31, 1975; $2.20 an hour during the year beginning January 1, 1976; nor $2.30 an hour after December 31, 1976, for those classifications brought under the Act by the Fair Labor Standards Amendments of 1966; except, however, the rate or rates recommended for agricultural employees shall not exceed those rates prescribed by section 6(a) (5) of the Act, namely, $1.80 an hour for the period ending December 31, 1975; $2.00 during the year beginning January 1, 1976; $2.20 during the year beginning January 1, 1977, and $2.30 an hour after December 31, 1977.

5. Whenever the Committee finds that a higher minimum wage may be determined for employees engaged in certain activities in the industry than may be determined for other employees in that industry, it shall recommend such reasonable classifications within the industry as it determines to be necessary for the purpose of fixing for each classification the highest minimum wage rate that can be determined for it under the principles set forth herein and in 29 CFR 511.10 which will not give a competitive advantage to any group in the industry. No classification shall be made, however, and no minimum wage rate shall be fixed solely on a regional basis or on the basis of age or sex. In determining whether there should be classifications, within an industry, in making such classification, and in determining the minimum wage rates for such classifications, the Committee shall consider, among other relevant factors, the following: (a) competitive conditions as affected by transportation, living, and production costs; (b) wages established

for work of like or comparable character by collective labor agreements negotiated between employers and employees by representatives of their own choosing; and (c) wages paid for work of like or comparable character by employers who voluntarily maintain minimum wage standards in the industry.

6. The Administrator shall prepare an economic report for the Committee containing such data as she is able to assemble pertinent to the matters referred to it. Copies of such reports may be obtained at the national and Puerto Rican offices of the Wage and Hour Division of the U.S. Department of Labor as soon as they are completed and prior to the hearings. The Committee shall take official notice of the facts stated in the economic reports to the extent that they are not refuted at the hearing.

7. The procedure of the industry committee shall be governed by 29 CFR Part 511. Interested persons wishing to participate in the hearing shall file prehearing statements, as provided in 29 CFR 511.8 containing the data specified in that section not later than 10 days before the hearing date, i.e., February 21, 1975.

Signed at Washington, D.C., this 31st day of January 1975.

PETER J. BRENNAN,
Secretary of Labor.

INTERSTATE COMMERCE COMMISSION

[Notice 691]

ASSIGNMENT OF HEARINGS

FEBRUARY 4, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after February 7, 1975.

MC 72253 Sub 42, The Aetna Freight Lines, Inc., now being assigned April 1, 1975 (1 day), at Birmingham, Alabama, in a hearing room to be designated later.

MC 73165 Sub 348, Eagle Motor Lines, Inc., now being assigned April 2, 1975 (3 days), at Birmingham, Alabama, in a hearing room to be designated later.

MC 72243 Sub 42, The Aetna Freight Lines, Inc., now being assigned April 7, 1975 (1 wk.), at Birmingham, Alabama, in a hearing room to be designated later.

MC-F-12090, Cedar Rapids Steel Transportation, Inc.—Purchase—The Kinnison Trucking Company and MC 114273 Sub 158, Cedar Rapids Steel Transportation, Inc.; now being assigned April 2, 1975 (3 days), at Columbus, Ohio, in a hearing room to be designated later.

MC-C-8339, Quick Air Freight, Inc., et al. v. Mt. Vernon Aviation, now being assigned April 1, 1975 (1 day), at Columbus, Ohio, in a hearing room to be designated later.

MC-F-12199, General Highway Express, Inc.—Purchase—Roethlisberger Transfer Co.; MC 97841 Sub 20, General Highway Express, Inc., and No. F.D. 27697, General Highway Express, Inc.—Securities; now being assigned April 7, 1975 (1 week), at Columbus, Ohio, in a hearing room to be designated later.

MC 113678 Sub 547, Curtis, Inc., now being assigned April 1, 1975, at Omaha, Nebr., in a hearing room to be later designated.

MC-C-8435, The Rock Island Motor Transit Company—Investigation of Practices, now being assigned April 3, 1975, at Omaha, Nebr., in a hearing room to be later designated.

MC 95084 Sub 106, Hove Truck Line, MC 119493 Sub 116, Monkem Company, Inc., now being assigned April 4, 1975, at Omaha, Nebr., in a hearing room to be later designated.

MC 113678 Sub 546, Curtis, Inc., now being assigned April 7, 1975, at Omaha, Nebr., in a hearing room to be later designated.

No. 36056, Oklahoma Intrastate Rail Freight Rates and Charges, now being assigned April 1, 1975 (4 days), at Oklahoma City, Oklahoma, in a hearing room to be designated later.

MC 108207 Sub 408, Frozen Food Express, Inc., now being assigned April 7, 1975 (1 day), at Dallas, Texas, in a hearing room to be designated later.

MC 115840 Sub 98, Colonial Fast Freight Lines, Inc., now being assigned April 8, 1975 (1 day), at Dallas, Texas, in a hearing room to be designated later.

MC 52460 Sub 147, Ellex Transportation, Inc., now being assigned April 9, 1975 (3 days), at Dallas, Texas, in a hearing room to be designated later.

MC 53965 (Sub-No. 101), Graves Truck Line, Inc., now being assigned April 1, 1975 (2 weeks), at Garden City, Kansas in Wheat Lands Motor Inn, 1311 E. Fulton.

MC 116915 Sub 13, Eck Miller Transportation Corporation, application dismissed.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.75-3596 Filed 2-6-75;8:45 am]

[AB 10 (Sub-No. 2)]

NORFOLK AND WESTERN RAILWAY CO.

Abandonment Between Waterville and Delphos in Lucas, Wood, Henry, and Putnam Counties, Ohio

Upon consideration of the record in the above-entitled proceeding, and of a staff-prepared environmental threshold assessment survey which is available to the public upon request; and

It appearing, that no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. sections 4321, et seq.; and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby, directed to publish the appended notice in a newspaper of general circulation in Lucas, Wood, Henry, and Putnam Counties, Ohio, on or before February 26, 1975, and certify to the Commission that this has been accomplished.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 30th day of January 1975.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD,
Secretary.

[AB 10 (Sub-No. 2)]

NORFOLK AND WESTERN RAILWAY COMPANY ABANDONMENT BETWEEN WATERVILLE AND DELPHOS IN LUCAS, WOOD, HENRY AND PUTNAM COUNTIES, OHIO

The Interstate Commerce Commission hereby gives notice that by order dated January 30, 1975, it has been determined that the proposed abandonment of the Norfolk and Western Railway Company's line between Waterville and Delphos, Ohio, a distance of 55.8 miles, which has been amended to exclude the southern 5.5 mile segment between Delphos and Douglas, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332 (2) (c) of the NEPA.

It was concluded, among other things, that the environmental impacts of the proposed action are considered insignificant because increases in air pollution and fuel consumption which may result from the subsequent increase in highway traffic would be minimal due to the small amount of involved traffic. There are no major development plans in the area that are dependent on this line for direct rail service. The ecological and historic impacts associated with the proposed action have been determined to be minor or absent. Furthermore the Ohio Department of Natural Resources and the Toledo, Lake Erie, and Western Railway, Inc., have expressed desires to purchase certain segments of the line for use as a linear trail consistent with the existing Buckeye Trail and excursion train operation respectively.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-2086.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C., 20423, on or before March 12, 1975.

This negative environmental determination shall become final unless good and sufficient reason demonstrating why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

Title 24—Housing and Urban Development

CHAPTER V—OFFICE OF ASSISTANT SECRETARY FOR COMMUNITY DEVELOPMENT, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-75-307]

PART 570—COMMUNITY DEVELOPMENT BLOCK GRANTS

Subpart E—Applications and Criteria for Discretionary Grants

Notice was given on November 27, 1974 (39 FR 41492), that the Department of Housing and Urban Development was proposing to amend Title 24 of the Code of Federal Regulations by adding Subpart E to Part 570 of Chapter V. The Department herewith publishes its regulations for Subpart E—Applications and Criteria for Discretionary Grants.

These regulations deal with the distribution and application process for these discretionary grants as more fully defined in § 570.104, Funds for discretionary grants. There are four basic sources of funds authorized by Title I of the Housing and Community Development Act of 1974. The first source is entitlement grants described in the November 13, 1974, FEDERAL REGISTER publication. The other three sources of funds are the urgent needs fund, general purpose funds for metropolitan and nonmetropolitan areas, and the Secretary's fund, which are all described in these proposed regulations.

The urgent needs fund is authorized by section 103(b) of the Act. This fund, referred to in § 570.104(b) of the November 13, 1974, FEDERAL REGISTER publication as the "transition funds," will be hereafter called the "urgent needs fund."

General purpose grants made for metropolitan and nonmetropolitan areas are authorized by section 103(a) of the Act, and the amounts are established under section 106 (d) and (f) of the Act.

The Secretary's fund is authorized by section 107 of the Act and is available for the following purposes: New communities; areawide projects; Guam, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands; innovative projects; federally recognized disasters; and correction of inequities resulting from the allocation provisions of section 106 of the Act.

The Department has received more than 100 responses to the November 27, 1974 publication. All comments received were given consideration and many of the changes incorporated in these regulations reflect the suggestions received from the public. The principal changes are set forth below.

A number of comments were received suggesting that the requirement for preapplications be dropped because of the time restraints on funding in Fiscal Year 1975. The language of § 570.400(b) has been changed to encourage the submission of preapplications while permitting applicants to submit full applications without a preapplication.

A new subparagraph has been added to § 570.400(c) to clarify what may be encompassed by an application and to make it clear that subsequent years' funding is not precluded for activities proposed in the application.

Most of the comments received addressed the problem of meeting the requirements of OMB Circular No. A-95. The revised language of § 570.400(d) allows for a reduction in the time of the A-95 review process for Fiscal Year 1975 submissions.

Language has been added to § 570.400 (e) to permit applicants to be reimbursed pursuant to a letter to proceed, for the cost of planning an application for discretionary block grants once the application has been approved by HUD.

Several changes have been made in the criteria for funding applications for urgent community development needs described in § 570.401. The significant change in this section reflects the intent of the Department to ensure that applicants for urgent needs funding have made maximum use of available resources to meet their urgent community development needs before making their application to HUD. Application requirements have been clarified by minor language changes.

The criteria for funding applications for general purpose funds for metropolitan and nonmetropolitan areas have been substantially revised in § 570.402(b). The revised criteria accurately reflect the Congressional intent that community development block grants be used to assist in the development of viable urban communities and expand economic opportunities principally for persons of low and moderate income. In addition, the Department has added another criterion to encourage the submission of joint applications between States and units of general local governments or two or more units of general local government for activities designed to implement areawide housing and community development plans. Additional instructions have also been provided in § 570.402(e) with respect to applications submitted by States.

In response to a number of comments, language has been added at § 570.402(f) to explain the process HUD will follow in the reallocation of funds and the timing of such reallocation.

The language describing eligible applicants for the discretionary funds available to new communities has been expanded to define more clearly which entities can apply for such funds in § 570.403(b)(3). Also, applicants as defined in § 570.403(b) (1), (2) and (3) are eligible to apply for funds available under §§ 570.401, 570.402, 570.406 and 570.407.

A number of significant changes have been made in § 570.406—Innovative Projects. The list of selection criteria described in § 570.406(b) has been expanded to include several new criteria. In addition, the basis for the Department's review of proposals is explained in § 570.406(b)(4). Application and reporting requirements have also been expanded upon to clarify applicants' responsibility in these respects.

Many comments were received suggesting that the discretionary funding available for federally recognized disasters be made available to localities where such disasters had occurred prior to the effective date of the Act. The Department did not respond affirmatively to these comments as the intent of the statute was clearly to assist communities affected by such disasters subsequent to the effective date of the Act. However, in response to many comments on this subject the Department has expanded the definition of federally recognized disasters in § 570.407 (a) to include those disasters requiring Federal emergency assistance and for those disasters recognized by other Federal agencies pursuant to their statutory authority. Priorities will be given in the use of these discretionary funds to those needs caused by Presidentially declared major disasters.

Additional criteria for funding were added to § 570.408—Inequities Funding to indicate the Department's intent to give consideration to other circumstances which might give rise to a need for discretionary funding. For localities subject to the phase-in provision, the new criterion in § 570.408(b)(3) is added. If the hold harmless amount is significantly lower than the average amount approved by HUD for the fiscal years immediately preceding or subsequent to the base period, such applicants may be considered for funding. In addition, the Department recognizes that substantial decreases in anticipated levels of available discretionary funding for metropolitan areas caused by the implementation of the provision governing urban counties for applicants may result in some inequities in funding that can be corrected by the provision of this Subpart.

Accordingly, Title 24 is amended as follows: A new Subpart E—Applications and Criteria for Discretionary Grants is added to Part 570 to read as set forth hereinafter:

Subpart E—Applications and Criteria for Discretionary Grants

Sec.
570.400 General.
570.401 Urgent needs fund.
570.402 General purpose funds for metropolitan and nonmetropolitan areas.
570.403 New communities.
570.404 Areawide projects [Reserved]
570.405 Guam, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands.
570.406 Innovative projects.
570.407 Federally recognized disasters.
570.408 Inequities funds.

AUTHORITY: Title I of the Housing and Community Development Act of 1974 (Pub. Law 93-383; sec. 7(d), Department of HUD Act (42 U.S.C. 3535(d)).

Subpart E—Applications and Criteria for Discretionary Grants

§ 570.400 General.

(a) *Applicability of rules and regulations.* The policies and procedures set forth in Subpart A, B, C, F, G, H, I, and J of this Part shall apply to this subpart and to the funds described in § 570.104, except to the extent that they are specifically modified or augmented by the contents of this subpart, including specified exemptions described herein. The HUD Environmental Review Procedures contained in 24 CFR Part 58 also apply to this subpart, unless otherwise specifically provided herein.

(b) *Preapplications.* Preapplications will be accepted for metropolitan and nonmetropolitan discretionary balances described in § 570.402. Applicants are encouraged to submit preapplications but, because of the time constraints in Fiscal Year 1975, a full application that was not preceded by a preapplication will nevertheless be considered without prejudice by HUD. The purpose of the preapplication is basically: (1) To determine how well the application compares with similar applications from other jurisdictions, and (2) to discourage applications which have little or no chance for Federal funding before applicants incur significant expenditures for preparing an application.

(i) *Submission requirements.* Preapplications shall be submitted on HUD forms to the appropriate HUD Area Office. The preapplication shall consist of a brief description of the applicant's community development needs, the activities proposed to meet those needs, and the general location and estimated cost of the proposed activities. The applicant's statement shall address the specific criteria under which it requests priority consideration for funding under § 570.402(b).

(ii) *HUD review of preapplications.* HUD will review preapplications based upon the appropriate criteria set forth in this subpart, to determine how well an application is likely to compete with other applications for the same discretionary funds submitted by other jurisdictions. Applicants will be advised of HUD's determinations and judgments on the preapplication, and of the availability of funds for that particular fiscal year. Notwithstanding the nature of such advice, any eligible applicant may submit an application under the provisions of this subpart.

(3) *Preapplication submission dates.* The Secretary will establish from time to time the earliest and latest dates for submission of preapplications for each fiscal year. For Fiscal Year 1975, the earliest date for submission of a preapplication shall be January 1, 1975; the latest date shall be March 1, 1975.

(c) *Applications*—(1) *Submission requirements.* Applications shall be submitted on HUD forms to the appropriate HUD Area Office. Specific submission requirements are contained in the following sections of this subpart which describe each discretionary fund. To the maximum extent possible, and with the prior concurrence of the Secretary, documentation submitted in support of an application previously submitted for funding under this part will be accepted and need not be resubmitted with an application for a discretionary grant.

(2) *Scope of application.* An application may include any number of eligible activities up to the maximum dollar amount established by the Secretary for applications submitted under this subpart. An application may be for any reasonable period of time necessary to complete the proposed activities. For new activities to be carried out with a discretionary grant the applicant shall apply for discretionary funds in an amount which, along with any other resources that may be available, will be adequate to complete the activities. While a recipient remains eligible for discretionary grant funding in subsequent years, an applicant shall not assume that additional funding will be available in subsequent years to continue or expand activities. An application may not, however, be only for planning purposes, as defined in § 570.200(a)(12).

(3) *Application submission dates.* The Secretary will establish from time to time the earliest and latest dates for submission of applications for discretionary grants for each fiscal year. For Fiscal Year 1975 the earliest and latest dates shall be as follows:

(i) General purpose funds for metropolitan and nonmetropolitan areas—March 15, 1975 through May 15, 1975;

(ii) Urgent needs fund—January 1, 1975 through May 15, 1975;

(iii) Secretary's fund:

(A) New communities—February 1, 1975 through May 15, 1975;

(B) Areawide projects—reserved;

(C) Guam, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands—February 1, 1975 through May 15, 1975;

(D) Innovative projects—February 1, 1975 through April 20, 1975;

(E) Federally recognized disasters—January 1, 1975 through June 30, 1975; and

(F) Inequities—February 1, 1975 through May 15, 1975.

(d) *Meeting the Requirements of OMB Circular No. A-95*— (1) *Preapplications.* Applicants must comply with the procedures set forth in OMB Circular No. A-95 which include the requirements of paragraph 7, Part I, for submission of a preapplication to the appropriate State and areawide clearinghouses at the same time that it is submitted to HUD. Although HUD has up to 45 days to respond to a preapplication, the Department expects to respond to all preapplications within 20 days of the closing date for the receipt of preapplications. Clearinghouse comments should be received by HUD within 15 days of receipt of a preapplication in order that HUD may respond promptly to preapplications. This period may be informally extended by mutual agreement between HUD and a clearinghouse, provided it will not delay the HUD response. However, any comment by a clearinghouse during the preapplication stage will not be considered a substitute for review under the regular procedures of Part I to A-95 unless the clearinghouse so indicates.

(2) *Final applications.* For final applications the Office of Management and Budget has granted for first year submissions only, an exception to the length of review time. Under the exception, a preapplication submission in accordance with the preceding subparagraph will meet the normal A-95 requirement that applicants notify clearinghouses of the intent to apply for assistance and the subsequent clearinghouse review of such notification. Therefore, for first year submissions only, final applications will be subject only to the A-95 requirement that clearinghouses be provided 30 days for review of the completed final application. Final applications submitted under this subpart which have not been preceded by a preapplication are subject to the requirements of 570.300(c).

(3) *Indian tribes.* Applications from federally recognized Indian tribes are not subject to the regular A-95 requirements. However, Indian tribes may voluntarily participate in the A-95 Project Notification and Review System and are encouraged to do so. HUD will notify the appropriate State and areawide clearinghouses of any applications from federally recognized Indian tribes upon their receipt.

(e) *Advances of funds.* Applicants are not authorized to receive an advance of funds from discretionary grants, as described in § 570.302, except for Guam and the Virgin Islands which may receive an advance of funds in an amount not to exceed ten percent of their hold harmless amounts. In response to a request by a unit of general local government, the Secretary may, however, in cases of demonstrated need, issue a letter to proceed authorizing an applicant to incur costs for the planning and preparation of an application for funds available under this subpart. Reimbursement for such costs will be dependent upon HUD approval of such application.

(f) *Review of applications for discretionary grants*—(1) *Acceptance of application.* HUD will accept an application for review, *Provided*, That:

(i) It has been received before the close of business on the final date established by HUD for submission of applications for each fiscal year;

(ii) The application is complete, as required in this subpart;

(iii) The required certifications have been properly executed; and

(iv) The applicant has attached or enclosed any comments or recommendations made by or through state and areawide clearinghouses or has stated that no comments or recommendations have been received.

(2) *Timing of review.* While the Secretary is not required by the Act to review and approve a discretionary grant application within any specified time period, the Secretary will make every effort to complete his review of all such applications within 75 days.

(3) *Notification to applicants.* The Secretary will notify the applicant in writing that the application has been approved, partially approved, or disapproved. If an application is partially approved or disapproved, the applicant will be informed of the specific reasons for partial approval or disapproval. The Secretary may make conditional approvals, as provided in § 570.306(e).

(g) *Program amendments.* Recipients shall request prior HUD approval for program amendments wherever the amendment results from changes in the scope or the objective of the approved program.

(h) *Performance Report.* Except for new communities and innovative projects, each recipient shall, upon completion of the activities carried out with the discretionary grant, or upon submission of a subsequent discretionary grant ap-

XUM

FEB 7 75
XUM

plication, whichever is earlier, submit a performance report as described in § 570.906(b), and shall meet the requirements of § 570.906(c) concerning notice of the availability of the report for examination by the public.

§ 570.401 Urgent needs fund.

(a) *Eligible applicants.* Eligible applicants are States, and units of general local government as defined in § 570.3(v). For the purpose of this section, the second sentence in § 570.3(v) includes those entities described in § 570.403(b) (1), (2) and (3).

(b) *Criteria for Selection.* The Secretary shall make grants for the purpose of facilitating an orderly transition to the community development block grant program and to provide for urgent community development needs which cannot be met through the allocation provisions of § 570.102, § 570.103, and § 570.104(c), giving priority to the following:

(1) The analysis performed by the unit of general local government (and concurred in by HUD) of its ongoing projects or program undertaken pursuant to Title I of the Housing Act of 1949 indicates that the entitlement amount is: (i) Insufficient, over a three-year period beginning January 1, 1975, to complete the program or project plan as approved by HUD; or (ii) in any one of those three years the entitlement amount will be insufficient to maintain the progress schedules adopted locally for achievement of the program and the inability to maintain such progress will seriously and adversely affect the Federal interest in the project or program.

(2) A unit of general local government participated in the planned variations demonstration assisted under the provisions of the Demonstration Cities and Metropolitan Development Act of 1966 and will suffer a significant decrease in the level of ongoing activities funded under the planned variations demonstration.

(3) A state or unit of general local government, as a result of cost increases due to circumstances beyond its control, has been unable to complete an ongoing project assisted under one or more of the following terminated categorical programs: (i) Water and sewer facilities under section 702 of the Housing and Urban Development Act of 1965; (ii) neighborhood facilities under section 703 of the Housing and Urban Development Act of 1965; (iii) open-space land under Title VII of the Housing Act of 1961; and the Secretary's analysis of the financial capacity of the unit of general local government indicates a lack of available resources locally or otherwise to finance completion of the project and the Federal investment in the project as of January 1, 1975 warrants the incremental Federal assistance required to complete the project.

(c) *Application requirements.* Applications for funds to meet urgent community development needs shall be submitted by States and units of general local government to the HUD Area Office serving the locality. The required documentation establishing the basis for grants under this section shall be supplied by applicants at the request of the HUD Area Office. Planned Variation cities requesting funds under criterion (2) shall comply with the application requirements outlined in § 570.303. Applicants under criteria (1) and (3) shall submit documentation, in a manner prescribed by HUD, justifying and documenting the urgent need for funds under this section, and shall provide the certifications required by § 570.303(e)(1), (3), (4), (5), (6), and (8).

§ 570.402 General purpose funds for metropolitan and nonmetropolitan areas.

(a) *Eligible applicants.* Eligible applicants are States, and units of general local government as defined in § 570.3(v), excluding metropolitan cities, urban counties and units of general local government which are included in urban counties as described in § 570.105(b)(3)(ii) and (iii). For the purpose of this section, the second sentence in § 570.3(v) includes those entities described in § 570.403(b)(1), (2) and (3).

(b) *Criteria for selection.* In selecting among applications, priority will be extended to those applications showing the following conditions, and proposing activities which directly or indirectly relate to these conditions:

(1) Extent of substandard housing conditions determined as follows:

(i) for metropolitan areas, the proportion and extent of overcrowded housing as defined in § 570.3(l) and expressed as a percentage of the total housing units in the unit of general local government; and

(ii) for nonmetropolitan areas, the proportion and extent of housing units lacking plumbing as published by the United States Bureau of the Census for 1970 for rural areas and expressed as a percentage of the total housing units in the unit of general local government.

(2) The proportion and extent of poverty as defined in § 570.3(j) and expressed as a percentage of the total population for the unit of general local government.

(3) An extraordinarily high rate of growth or a severe and rapid decline in population and economic activity, either one of these conditions resulting primarily from the impact of national policy decisions or direct Federal program decisions, and where the program is designed to offset or mitigate the effects of sudden spurts or declines in growth.

(4) Conditions which represent an imminent threat to public health or safety.

Additional priority may be extended where there are joint and voluntary cooperation agreements between States and units of general local government or two or more units of general local government and the activities are designed to implement housing and community development plans that are Statewide or areawide in scope, provided that one or more of the participants in the agreement also meets at least one of the other criteria listed in this subsection. Area Offices of HUD are authorized at their discretion (but not required) to set maximum grant limits for each fiscal year, related to the total amount of discretionary balance available in that year to a given metropolitan area or to the nonmetropolitan portion of a State. A judgmental factor which may be applied by each Area Office is an estimate of the capacity of the applicant to complete the proposed activities within the estimated cost.

(c) Application requirements. Applicants for general purpose funds for metropolitan and nonmetropolitan areas shall meet the application requirements in § 570.303.

(d) Waiver of Application requirements. The provisions of § 570.304 shall also apply to applications under this section.

(e) Applications submitted by States. States (including the Commonwealth of Puerto Rico) may apply for general purpose funds for metropolitan and nonmetropolitan areas to carry out eligible activities in metropolitan and nonmetropolitan areas, respectively.

(1) Separate applications are required for nonmetropolitan areas and for each separate metropolitan area for which a State seeks funds.

(2) The geographical area to be covered by the application shall be the jurisdiction of the unit or units of general local government in which the proposed activity or activities are to be located or carried out. This policy pertains particularly to the community development plan summary, as described in § 570.303(a), and the housing assistance plan, as described in § 570.303(c). The State application shall indicate that the housing assistance plan has been adopted by the unit or units of general local government.

(3) A State may not apply for activities to be located in or carried out in metropolitan cities, urban counties or units of general local government which are included in urban counties, unless such funds have been reallocated in accordance with the provisions of § 570.107.

(4) A State may apply for activities to be carried out pursuant to State authority or pursuant to an agreement with one or more units of general local government.

(f) *Reallocation of funds.* When funds are reallocated in accordance with the provisions of § 570.107, the policies and criteria of this section shall apply except that metropolitan cities, urban counties and units of general local government which are included in urban counties shall be eligible applicants for reallocated funds. In Fiscal Year 1975, funds will be reallocated as soon as practicable after May 15, 1975.

§ 570.403 New communities.

(a) *General.* This Section covers grants made in behalf of activities and projects to be undertaken in direct support of a new community (which term means a new community approved by the Secretary under Title VII of the Housing and Urban Development Act of 1970 or Title IV of the Housing and Urban Development Act of 1968), and reflected in a current new community development plan (the development plan which forms an attachment to each new community project agreement by and between each developer and the United States, as the same may be revised and amended from time to time).

(b) *Eligible Applicants.* States, and units of general local government which meet the definition contained in § 570.3(v) may apply under this subsection for grants made on the basis of the provisions of this section. For the purpose of this section, the second sentence in § 570.3(v) includes:

(1) A State land development agency or local public body or agency with authority to act as a developer of a new community.

(2) Any community association (including any homes association), or other similar nonprofit organization established in a new community under covenants approved by the Secretary in connection with approved new community development projects, or any community authority established under State law for similar purposes, or any of the foregoing organizations otherwise approved by the Secretary which is legally and administratively qualified to carry to successful completion those projects for which grant assistance is sought by the applicant.

(3) A private new community developer or any subsidiary thereof organized in a form satisfactory to the Secretary: *Provided,* That a request has been made to an appropriate unit of general local government or a non-profit organization to apply for and serve as grantee for the direct benefit of the new community, and such request has been denied, or in the judgment of the New Communities Administration (NCA) of HUD, no acceptable response has been received within a reasonable period of time.

(c) *Application Requirements*—(1) *General.* The requirements of this paragraph shall be applicable only for the geographic area within the new community. The requirements set forth in this paragraph are designed to supplement application procedures and approval requirements of the new communities program under which applicants will have already provided substantial information to the Secretary.

(2) *Activities Program.* The application shall include a brief description of the activities and costs to be funded from the grants for the program year. The application shall identify separately any activities not previously submitted to and approved by NCA.
approved by the New Communities Administration (NCA) of the Department of Housing and Urban Development as part of Title IV or Title VII documentation. The estimated costs and general location of these latter activities are to be shown.

(3) *Certifications.* The Applicant shall submit certifications in such form as HUD will prescribe, providing the assurances required under § 570.303(e) (1), (3), (4) if applicable, (5) and (6) with respect to activities undertaken with funds under this Part.

(4) *Environmental review requirements.* (i) For activities proposed by an applicant eligible under § 570.403(b)(2) or (3), no new environmental review or clearances will be required by virtue of any such activity's proposed funding under this part if the activity is a part of a previously approved project for which environmental review clearances have been completed, which clearances adequately covered such activity, and for which circumstances, including the availability of additional data or advances in technology, have not changed significantly.

If NCA determines that an additional review is required, environmental review shall be conducted by HUD pursuant to HUD Handbook 1390.1.

(ii) For activities proposed by an applicant eligible under § 570.403(b), other than under § 570.403(b)(2) or (3), environmental reviews shall be conducted by the applicant pursuant to 24 CFR Part 58, or, if applicable, by HUD in accordance with § 570.603.

(5) *Clearinghouse review.* Applicants must comply with the procedures set forth in OMB Circular A–95 (requiring review by a clearinghouse) only where the proposed Title I funded activities have not previously been the subject of clearinghouse review.

(6) *Performance report.* Progress in execution activities funded under the Act shall be reported to NCA as a part of the quarterly and annual reporting and review procedures.

(d) *Review and approval of applications.* All applications for grants to assist new community development projects pursuant to this section shall be submitted to NCA through the appropriate HUD Area Office.

(1) *Scope of review.* NCA will review the application, based upon data and information supplied by the developer of the new community project and other independent reviews conducted by NCA staff or others at NCA request, to determine pertinent facts and goals and their consistency with information contained in the Project Agreement, Development Plan, and other documents submitted by the developer or obtained by NCA in the project review process. The review will include application of the selection criterion in paragraph (d)(2) of this section.

(2) *Criterion for selection.* The criterion to be used in selecting among applications and activities is whether the grants are necessary to achieve new community objectives.

(e) *Grant administration.* The provisions of Subpart F, Grant Administration, shall be applicable to applicants, except that private developers shall not be required to comply with the competitive bidding requirements of subsections 3c (5), (6) and (8) of Attachment O, FMC Circular 74–7, which is incorporated in § 570.507.

(f) *Program management.* Program management shall be accomplished within the framework of NCA project management, including the financial and physical progress reports required by NCA administrative procedures.

(g) *Remedies for non-compliance.* The provisions of §§ 570.911, 570.912, and 570.913 shall apply, except that the provisions of § 570.912, dealing with securing compliance through State governors, shall not apply to private developers, or prospective grantees controlled by private developers.

§ 570.404 Areawide projects [Reserved]

§ 570.405 Guam, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands.

(a) *Eligible applicants.* Eligible applicants are Guam, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands.

(b) *Criteria for funding.* Applicants may submit applications for discretionary grants for the full range of eligible activities described in § 570.200. The Secretary will establish for each fiscal year an amount for which each eligible applicant may apply. For Fiscal Year 1975, the following shall apply:

(1) Guam and the Virgin Islands shall each receive their hold-harmless amount as calculated pursuant to § 570.103(c). Guam and the Virgin Islands may also apply for funds to cover urgent needs not met by the hold-harmless amounts.

(2) The Secretary shall establish a funding level for American Samoa and the Trust Territory of the Pacific Islands, taking into account their needs and their local administrative capacity.

(c) *Application requirements.* Applicants shall meet the application requirements in § 570.303.

§ 570.406 Innovative projects.

(a) *Eligible applicants.* Eligible applicants are States, and units of general local government as defined in § 570.3(v). For the purpose of this section, the second sentence in § 570.3(v) includes those entities described in § 570.403(b)(1), (2) and (3).

(b) *Criteria for selection.* (1) *Definition.* An innovative community development project is one which encompasses a concept, system, or procedure that is unique, advances the state of the community development art and has the potential for transferability. Where a proposed project is one which has been demonstrated or is in use elsewhere, the applicant will be expected to show the key variables of the project within the applicant's jurisdiction which will be significantly different from previous projects or that the circumstances and environment for its adaptation are different. In general, a project will not be considered as meeting innovative criteria if it does not potentially advance the state of technology.

(2) *Selection priorities.* Each year HUD may establish areas of national significance which will be given priority in the review of application for funds under this section. In Fiscal Year 1975 priority will be given to projects which address one or more of the following areas:

(i) *Public service productivity.* Efforts to make local government service more

XUM V40127 FEB 7 75 XUM

effective, more efficient and less costly, and which are designed to mitigate the effects of inflation.

(ii) *Community development energy conservation.* Projects designed to enhance the rational use of energy for community development.

(iii) *Neighborhood preservation.* Projects which maximize the use of existing housing stock and community development and other resources for neighborhood preservation.

(3) *Other criteria.* In addition to the above criteria, HUD will consider the degree to which applications:

(i) Benefit persons of low and moderate income.

(ii) Integrate and relate the provision of housing to the provision of public facilities and/or supportive social services.

(iii) Demonstrate improved policy-planning-management capacity.

(iv) Demonstrate the involvement of both the public and private sectors.

(v) Encourage and reinforce the creation of community and neighborhood development organizations with the staff and ability to attract and involve public and private resources.

(vi) Serve as a prototype for improving community development activities, the demonstration of which would not otherwise be undertaken without Federal assistance.

(vii) Promote an increase in the diversity and vitality of neighborhoods.

(viii) Address problem areas common to a substantial number of communities.

(ix) Demonstrate activities which can be replicated by and transferred to a substantial number of communities.

(4) *Other review factors.* In addition, each application will be evaluated by such criteria as:

(i) The overall technical merit of the proposed project including the specific impact of the innovation.

(ii) The unique capabilities, related experiences, facilities or techniques which the applicant possesses and offers for achieving the objectives of the project.

(iii) The unique qualification capabilities and experience of proposed key personnel.

(iv) The availability of discretionary grant funding for innovative projects in light of competing needs.

(c) *Application requirements.* Applications shall be submitted to HUD's Office of Policy Development and Research through the appropriate HUD Area Office. Applications shall be in a format prescribed by HUD and shall include the following:

(1) A one page abstract summarizing the proposal and indicating where else in HUD or any other Federal agency the application has been sent within the last two years.

(2) A narrative describing the proposed project and how it conforms to the criteria for selection.

(3) The certifications required by § 570.303(e)(1), (3), (4), (5), (6), and (8) with respect to activities to be undertaken with funds under this Part. In addition, the applicant must certify that citizens likely to be affected by the project, particularly low and moderate income persons, have been provided an opportunity to comment on the application.

(d) *Reports.* In lieu of the annual performance report cited in § 570.906, recipients shall submit the following:

(i) *Outline for Final Project Report.* Midway through completion of the project (or at an alternate point in time as specified by HUD) each recipient shall prepare a detailed outline of the final project report under guidelines provided by HUD.

(ii) *Draft Report.* The recipient shall submit to HUD, six copies of a draft of the final project report with all readily reproducible charts, tables, graphs, and appendices that are to be included in the final report. In addition, each recipient shall meet the requirements of § 570.906 (c) concerning notice of the availability of the report for examination by the public with the exception that reports need only be available to be copied by the public.

(iii) *Final Report.* The report shall describe in appropriate detail the objectives of the project and how they were met, the methods and techniques that were used, the types of problems encountered during project execution and the methods used to resolve them and the conclusions and recommendations that are to be drawn from the demonstration project. The final report shall be in a form and manner prescribed by HUD.

(e) *Records.* Recipients must comply with the requirements of § 570.907, excluding § 570.907(b). In lieu of this exception, recipients shall maintain records describing the process used to provide an opportunity for citizens to comment on the application.

§ 570.407 Federally recognized disasters.

(a) *General.* Grants under this section shall be for the purpose of meeting emergency community development needs caused by federally recognized disasters. For purposes of this section, "federally recognized disasters" means any hurricane, tornado, storm, flood, high-water, wind-driven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, drought, fire, explosion, or other catastrophe in any part of the United States which (1) in the determination of the President, pursuant to the Disaster Relief Act of 1974 (42 U.S.C. 5121n.), (i) causes damage of sufficient severity and magnitude to warrant major disaster assistance under such Act, above and beyond emergency services by the Federal Government, to supplement the efforts and available resources of States, local governments and disaster relief organizations in alleviating the damage, loss, hardship, or suffering caused thereby, or (ii) requires Federal emergency assistance to supplement State and local efforts to save lives and protect public health and safety or to avert or lessen the threat of a major disaster, or (2) in the determination of a Federal agency requires disaster or emergency assistance pursuant to the statutory authority of such Federal agency.

(b) *Eligible Applicants.* Eligible applicants are States, and units of general local government as defined in § 570.3 (v). For the purpose of this section, the second sentence in § 570.3(v) includes those entities described in § 570.403(b) (1), (2) and (3).

(c) *Criteria for Funding.* Within the limits of available funds, applications will be funded on the basis of the following criteria:

(1) Severity and magnitude of the federally recognized disaster, with priority given to needs caused by Presidentially declared major disasters.

(2) Community development needs identified which are essential for the immediate restoration or maintenance of community health, safety, or economic stability and resources are not available from other sources to meet these community development needs in a timely fashion.

(d) *Application Requirements.* An application should be submitted within 120 days after either the Presidential declaration or other Federal recognition that disaster or emergency assistance is required. The application shall describe the emergency needs, the proposed program of activities, sources of funds and the level of funding requested. If the emergency nature of the needs requires, satisfaction of selected application requirements may be postponed or waived by the Secretary. Applications shall be submitted to the appropriate HUD Area Office in a form and manner prescribed by HUD to ensure coordination with respect to other disaster relief and emergency measures undertaken or being considered.

§ 570.408 Inequities funds.

(a) *General.* Funds are available under this subpart to correct in whole or in part inequities resulting from the allocation provisions of Section 106 of the Act.

(b) *Eligible applicants.* Eligible applicants are States, and units of general local government as defined in the first sentence of § 570.3(v) or in § 570.403(a).

(c) *Criteria for selection.* The Secretary shall make grants to eligible applicants, giving priority to the following: Applications for funds available under this subpart shall be reviewed by the Secretary in accordance with the following criteria:

(1) Funding under this subpart is necessary to correct a technical error in the computation of a locality's entitlement amount.

(2) Funding under this subpart is needed by an applicant, meeting the criteria as specified in § 570.401(b) for urgent needs funds.

(3) Funding under this subpart is necessary to compensate for the fact that the applicant's hold harmless amount as calculated pursuant to § 570.103(c) is significantly lower than the average

amount of funds approved by HUD for applicable programs in such governmental unit during the fiscal years immediately preceding and immediately following the base period of Fiscal Years 1968 through 1972, and the applicant is subject to the phase-in provisions of § 570.102(c).

Grants may also be made under this section whenever implementation of the provisions of § 570.105 regarding the qualification of urban counties results in a significant decrease in the anticipated levels of funding available for discretionary grants in metropolitan areas in accordance with § 570.104(c)(1).

(d) *Application requirements.* Applicants shall meet all application requirements in § 570.303.

DAVID O. MEEKER, Jr.,
Assistant Secretary for Community Planning and Development.

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

Modifications and Supersedeas Decisions To General Wage Determination Decisions

General wage determination decisions. General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138), and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and supersedeas decisions to general wage determination decisions. Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138), and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

POWER EQUIPMENT OPERATORS

GROUP 1: Cranes, escalated rate on crane, derricks, booms, $.01 per hour, per foot, after 80 feet of boom including jib, overhead cranes, gradall, cherry pickers (and similar types, over 15 ton lifting capacity (require oiler), mechanics, central concrete mixing plant operator, road pavers (27E-dual drum-tri batchers), blacktop plant operators and plant engineers, 3 drum hoist, derricks, hydro cranes, shovels skimmer scoops, koehring scoopers, draglines, backhoe, hoptoes-crane-tupe that require oilers, derrick boats, pile drivers and skid rigs, clamshells, locomotive cranes, dredge cranes (crawler mobile) and stationary, crane-type backfiller, drott yumbo and similar types considered as cranes, caisson rigs (require oilers)-dozer, tourna-dozer, work boats, ross carrier and helicopter

GROUP 2: Trench machine, pumpcrete-belt crete-squeeze cretes-screw-type pumps and gypsum bulker and pump, dinkeys, power launches, tournapulls (all), multiple unit, earth movers, $.25 per hour for each scoop over one, scoops (all sizes), push cats, endloaders (all types), side boom, P-H one pass soil-cement machine (and similar types wheel tractors (industrial or farm type w/dozer-hoe-end-loader or other attachments), pugmill with pump backfillers, asphalt surfacing machine, euclid loader, forklifts, formless finishing machine, jeeps w/ditching machine, or other attachments, tune-luger rock crushers, automatic cement and gravel batching plants, mobile drills (soil testing and similar types),(require oiler), flasherty spreader or similar types (require oiler), heavy equipment greaser (top greaseron spread), gurries and similar type), 1 and 2 drum hoists (buck hoists and similar types freight and passenger elevators Chicago boom, boring machine and pipe jacking, machine, hydro boom, starting engineer on pipeline, C.M.I. and similar types (require oiler) straw blower, hydro seeder and F.W.D. and similar types

GROUP 3: Tractor (track type) without power unit pulling rollers, rollers on asphalt, brick or macadam, concrete breakers, concrete spreaders, mule pulling rollers, center stripper, cement finishing machines, barber greene or similar loaders, vibro tamper (all similar types), self-propelled, winch or boom truck, mechanical bull floats, mixer over 3 bags to 27E, tractor pulling power blade or elevating grader, porter rex rail, clary screed, pugmill (without pump) screed man on laydown machine, firemen and spray machine on paving

IL75-2035 P. 8

POWER EQUIPMENT OPERATORS (Cont'd)

GROUP 4: Air compressor, all air and steam valves, power subgrader, oil distributor, straight tractor, trac-air without attachments, curb machines, truck crane oilers, and truck type hoptoe oilers

GROUP 5: Herman Nelson heater, Dravo, Warner, Silent glo, and similer types, one engineer will operate 1-5 and after 5, two operators will be required, self-propelled concrete saws, assistant heavy equipment greaser on spread, roller, 5 tons and under on earth or gravel, form grader, pump 1 or 2, generator (1) or (2), welding machine (1) or (2)-300 amp. or over, mixer (3) bag and under (standard capacity), bulk cement plant, crawler crane and skid rig oilers

POWER EQUIPMENT OPERATORS	Basic Hourly Rates	Fringe Benefits Payments H & W	Pensions	Vacation	App. Tr.
GROUP A	$9.89	.46	.80		.11
GROUP B	9.73	.46	.80		.11
GROUP C	9.38	.46	.80		.11
GROUP D	8.57	.46	.80		.11
GROUP E	8.24	.46	.80		.11
GROUP F	7.48	.46	.80		.11

CLASSIFICATION DEFINITIONS

GROUP A - A-frames, air compressor on steel erection, rotary drills used on caisson work for foundations and sub-structure work, boiler or compressor operator mounted on crain (piggyback operation), boom trucks (all types), cableways, cherry pickers, combination concrete mixer and tower, concrete pumps, cranes (all types), derricks (all types), draglines, dredge (dipper, clam or suction) 3 man crew, elevating grader or euclid loader, floating equipment, gradalls, helicopter operator and helicopter winch operator when hoisting builders materials, hoes (all types), hoisting engines (two or more drums), lift slab or panel jack operator, locomotives (all types), maintenance engineer (mechanic or welder), mixer paving (multiple drum), mobile concrete pumps with boom, panelboard (all types on site), pile driver, power shovels, side booms, slip form pavers, straddle carriers (building construction on site), hammerhead tower cranes, trench machines (over 24" wide), tug boat.

GROUP B - Asphalt paver, bulldozer, C.M.I. type equipment, endloaders, Kohlman type loaders (dirt loading), lead greaseman, mucking machines, power grader, power scoops, power scrapers, push cat.

GROUP C - Air compressor (pressureizing shafts or tunnels), asphalt rollers, fork lifts, hoist (one drum), house elevators, man lift, power boilers (over 15 lbs. pressure), pump operators installing well points or other type of dewatering system, pumps (4" and over discharge), submersible pumps (4" and over discharge), trenchers 24" and under.

GROUP D - Compressors on building construction, conveyers (building material), generators, gunnite machines, mixers (capacity more than one bag), mixers (one bag capacity, side loader), post driver, post hole digger, pavement breaker (hydraulic or cable), road widening trencher, rollers, welder operator.

GROUP E - Backfillers & tampers, batch plant, bar and joint installing machines, bull floats, burlap and curing machines, clefplanes, concrete spreading mach., crushers, deck hands, drum firemen (asphalt), farm type tractors pulling attachments, finishin machines, form trenchers, high pressure pumps over 1/2" discharge, hydro seeders, self propelled power spreader, self propelled sub-grader, tire repairman, tractors pulling sheeps foot roller or grader, vibratory compactors (with integral power).

GROUP F - Oiler, helper, signalman, inboard & outboard motor boat launch, light plant operator, power driven heaters (oil fired), power boilers (less than 15 lbs. pressure, pumps under 4" discharge, submersible pumps under 4" discharge.

GROUP 5:	10.28	.85*	1.05	.60	.24

LABORERS

GROUP 1: Asphalt ironers and rakers; Backo, wacker and similar type tampers; Buggymobile; Chainsaw, faller, logloader and bucker; Compactors of all types; Concrete and magnesite mixer 1/2 yd. and under; Concrete pan work; Concrete saw; Concrete sander; Cribber and/or shoring; Cut granite curb setter; Form raisers; slip forms; Green cutters, Headerboardmen, hubsetters, aligners; Jackhammer Ops.; Jacking of pipe over 12 in.; Jackson and similar type compactors; Kettlemen, potmen and men applying asphalt, lay-Kold, creosote, lime, caustic and similar type materials; Lagging, sheeting, whaling, bracing, trench-jacking, hand-guided lagging hammer; Magnesite, epoxyresin, fiberglass, and mastic workers (wet or dry); Pavement breakers and spaders, incl. tool grinder; Pipelayers, caulkers, banders, pipewrappers, conduit layers, plastic pipelayers; Post hole diggers - air, gas and electric; Power broom sweepers; Power tampers of all types (except as shown in Group 2); Ram set gun and stud gun; Riprap-stonepaver and rock-slinger, incl. placing of sacked concrete and/or sand (wet or dry); Rotary scarifier, multiple head concrete chipper; Davis Trencher - 300 or similar type (and all small trenchers); Roto and ditch witch; Rototiller; Sandblasters, potman, gunman, nozzleman; Signalling and rigging; Tank cleaners; Tree climbers; Vibra-screed - bull float in connection with laborers' work; Vibrators; Dri-pak-it machine; High pressures blow pipe (1 1/2" or over, 100 lbs. pressure or over); Hydro seeder and similar type; Laser beam in connection with laborers' work

GROUP 1(a): Joy drill Model TUM-2A; Gardencr-Denver Model DH143 and similar type drills; Track drillers; Jack Leg drillers; Diamond drillers; Wagon drillers; Mechanical drillers - all types regardless of type or method of power; Multiple unit drills; Blasters and powdermen; All work of loading, placing and blasting of all powder and explosives of whatever type regardless of method used for such loading and placing; High scalers (incl. drilling of same); Tree topper; Bit grinder

GROUP 1(b): Burning and Welding

GROUP 1(c): Laborers on general construction work on or in bell hole footings and shaft

GROUP 1(d): Contra Costa County Only: Pipelayers, Caulkers, Banders, Pipewrappers, Conduit Layers and Plastic pipelayers; Pressure pipe tester, no joint pipe & stripping of same, incl. repair of voids, Precast manhole setters, cast in place, manhole form setters

GROUP 2: Asphalt Shovelers; Cement dumpers and handling dry cement or gypsum; Choke-setter and rigger (clearing work); Concrete bucket dumper and chuteman; Concrete chipping and grinding; Concrete Laborers (wet or dry); Driller's helper; Chuck Tender; Nipper; Guinea Chaser (Stakeman); Grout Crew; High Pressure Nozzleman, adductors; Hydraulic Monitor (over 100 lbs. pressure); Loading and unloading, carrying and handling of all rods and materials for use in reinforcing concrete

LABORERS (Cont'd)

construction; Pittsburgh Chipper, and similar type brush shredders; Sloper; Singlefoot, hand held, pneumatic tamper; All pneumatic, air, gas, and electric tools; Jacking of pipe under 12 in.

GROUP 3: All cleanup work of debris, grounds and buildings incl. but not limited to street cleaners; Cleaning and washing windows; Construction Laborers incl. bridge and general laborers; Dumpman, load spotter; Fire watcher; Street cleaners; Gardeners, horticultural and landscape laborers; Jetting; Limbers; Brush loaders; Pilers, Maintenance landscape laborers on new construction; Maintenance, repair trackmen and road beds; Streetcar and railroad construction track laborers; Temporary air and water lines, Victaulic or similar; Tool room attendant; Fence erectors; Guardrail erectors; Pavement markers (button setters)

LABORERS (Tunnel and Shaft Work)

GROUP 1: Diamond Driller; Groundmen; Gunite or Shotcrete Nozzlemen; Rodmen; Shaft Work and Raise (below actual or excavated ground level)

GROUP 2: Bit Grinder; Blaster, Drillers, Powdermen-heading; Cherry Pickermen - where car is lifted; Concrete Finisher in Tunnel; Concrete Screed man; Grout Pumpman and Potman; Gunite and Shotcrete Gunmen and Potmen; Headermen; High Pressure Nozzleman; Miners - Tunnel, including top and bottom man on shaft and raise work; Nipper Nozzleman on slick line; Sandblaster-potman (work assignment interchangeable); Steel Form Raisers and Setters; Timberman, Retimberman - wood or steel or substitute materials therefore; Tugger

GROUP 3: Cabletender; Chucktender; Powderman-primer house; Vibratormen, Pavement Breakers

GROUP 4: Bull Gang - Muckers, Trackmen; Concrete Crew - includes rodding and spreading; Dumpmen (any method); Grout Crew; Reboundmen; Swamper

LABORERS (Wrecking Work)

GROUP 1: Skilled wrecker (Removing and salvaging of sash, windows, doors, plumbing and electric fixtures

GROUP 2: Semi-skilled wrecker (Salvaging of other building materials)

GROUP 3: General laborer (Includes all cleanup work, loading, lumber, loading and burning of debris)

POWER EQUIPMENT OPERATORS
(Piledriving)

GROUP 1: Assistant to Engineer (Fireman, Oiler, Deckhand)

GROUP 1-A: Compressor Operator

GROUP 1-B: Truck Crane Oiler

GROUP 2: Tugger Hoist (hoisting material only)

GROUP 2-A Compressor operator (2-7); Generator (100 K. W. or over); Pump (2-7); Welding Machine (2-7) powered other than by electricity)

GROUP 3: Deck Engineer; Fork Lift; A-Frame; Self-propelled Boom Type Lifting Device

GROUP 3-A: Heavy Duty Repairman and/or Welder

GROUP 4: Operating Engineer in lieu of Assistant to Engineer tending boiler or compressor attached to crane piledriver; Operator of Piledriving Rigs, Skid or Floating and Derrick Barges; Operator of diesel or gasoline powered crane piledriver (w/o boiler) up to and incl. 1 cu. yd.; Truck Crane (up to and incl. 25 tons hoisting material only)

GROUP 5: Operator of Diesel or Gasoline powered Crane Piledriver without boiler, over 1 cu. yd.; Operator of Crane (w/steam, flash boiler, pump or compressor attached); Operator of steam powered Crawler or Universal type driver (Raymond or similar type); Truck Crane (over 25 tons hoisting material or performing piledriving work)

POWER EQUIPMENT OPERATORS
(Except Piledriving and Steel Erection)

POWER EQUIPMENT OPERATORS (AREAS I & II)
(Except Piledriving and Steel Erection)

GROUP 1: Assistants to Engineers (Brakeman; Fireman; Heavy Duty Repairman Helper; Oiler; Deckhand; Signalman; Switchman; Tar Pot Fireman); Partsman (Heavy Duty Repair shop parts room)

GROUP 2: Compressor Op.; Concrete Mixer (up to and incl. 1 yd.); Conveyor Belt Operator (tunnel); Fireman Hot Plant; Hydraulic; Monitor; Mechanical Conveyor (handling building materials); Mixer Box Op. (concrete plant); Pump Operator; Spreader Boxman (with screeds); Tar Pot Fireman (power agitated)

GROUP 3: Box Operator (bunker); Helicopter Radioman (signalman); Motorman; Locomotive; Oiler; Rodman or Chainman; Ross Carrier (construction job site); Gofomist Operator; Screedman (except asphaltic concrete paving); Self-propelled, automatically applied concrete curing machine (on streets, highways, airports and canals); Trenching Machine (Maximum digging capacity 3 ft. depth); Tugger Hoist, single drum; Truck Crane Oiler

GROUP 4: Ballast Jack Tamper; Ballast Regulator; Ballast Tamper Multipurpose; Boxman (asphalt plant); Elevator Op. (inside); Fork Lift or Lumber Stacker (construction job site); Line Master; Lubrication and Service Engineer (mobile and grease rack); Material Hoist (1 drum); Shuttlecar; Tie Spacer; Towermobile

GROUP 5: Compressor Op. (2 to 7); Concrete Mixers (over 1 yd.); Concrete Pumps or Pumpcrete Guns; Generators (100 K.W. or over); Grouting Machine; Press-weld (air-operated); Pumps (2 to 7); Welding Machines (powered other than by electricity) (2 to 7)

GROUP 6: BLH Lima Road Pactor or similar; Boom Truck or Dual Purpose A-Frame Truck; Concrete Batch Plants (wet or dry); Concrete Saws (self-propelled unit) on streets, highways, airports and canals; Drilling and Boring Machinery, vertical and horizontal (not to apply to waterliners, wagon drills or jackhammers); Gradesetter, Grade Checker (mechanical or otherwise); Highline Cableway Signalman; Locomotives (steam or over 30 tons) Maginnis Internal Full Slab Vibrator (on airports, highways, canals and warehouses); Mechanical Finishers (concrete) (Clary, Johnson, Bidwell Bridge Deck or similar types); Mechanical Burm, Curb and/or Curb and Gutter Machine, concrete or asphalt; Portable Crusher; Post Driver (H-1500 and similar); Power Jumbo Operator (setting slip forms, etc. in tunnels); Roller; Screedman (Barber-Greene and similar) (asphaltic concrete paving); Self-propelled Compactor (single engine); Self-propelled Pipeline Wrapping Machine, Perault, CMC, or similar types); Slip Forms Pumps (lifting device for concrete forms); Small Rubber Tired Tractors; Surface Heater

POWER EQUIPMENT OPERATORS (AREAS 1 & 11) (Cont'd)
(Except Piledriving and Steel Erection)

GROUP 7: Concrete Conveyor or Concrete Pump, Truck or Equipment mounted (boom length to apply); Concrete Conveyor, building site; Deck Engineers; Dual Drum Mixer; Fuller Kenyon Pump and similar types; Gantry Rider (or similar); Hydra-Hammer (or similar); Instrument Man; Material Hoist (2 or more drums); Mechanical Finishers or Spreader Machine (asphalt, Barber-Greene and similar; Mine or Shaft Hoist; Mixermobile; Pavement Breaker with or without Compressor Combination; Pavement Breaker, Truck mounted with Compressor Combination; Pipe Bending Machine (pipelines only); Pipe Cleaning Machine (tractor propelled and supported); Pipe Wrapping Machine (tractor propelled and supported); Refrigeration Plant; Roller Operator (finish asphalt); Self-propelled boom type lifting device (center mount) (10 tons or less M.R.C); Self-propelled Elevating Grade Plane; Slusher Op.; Small Tractor (with boom) Soil Tester; Truck type Loader

GROUP 8: Amor-Coater (or similar); Asphalt Plant Engineer; Cast-in-place Pipe Laying Machine; Combination Slusher and Motor Op.; Concrete Batch Plant (multiple units); Dozer; Heading Shield Op.; Heavy Duty Repairman and/or Welder; Ken Seal Machine (or similar); Kolman Loader; Loader (up to 2 yds.); Mechanical Trench Shield; Portable Crushing and Screening Plants; Push Cat; Rubber Tired Earth-moving Equipment (up to and incl. 45 cu. yds. "struck" m.r.c., Euclids, T-Pulls, DW-10, 20, 21, and similar; Rubber Tired Dozer; Self-propelled Compactor with Dozer; Sheepfoot; Timber Skidder (Rubber tired or similar equipment); Tractor drawn Scraper; Tractor Trenching Machine; Tri-Batch Paver; Tunnel Hole Boring Machine; Welder; Woods-mixer (and other similar Pugmill equipment)

GROUP 9: Canal Finger Drain Digger; Chicago Boom; Combination Mixer and Compressor (gunite); Combination Slurry Mixer and/or Cleaner; Highline Cableway (5 tons and under); Lull Hi-Lift or similar (20 ft. or over); Mucking Machine (rubber tire, rail or track type); Tractor (with boom) (D-6 or larger and similar)

GROUP 10: Boom-type Backfilling Machine; Bridge Crane; Cary-Lift (or similar); Chemical Grouting Machine; Chief of Party; Combination Backhoe and Loader (up to and incl. 1/2 cu. yd. m.r.c.); Derrick (2 ops. required when swing engine remote from hoist); Derrick Barges (except excavation work); Do-Mor Loader; Adams Elegrader; Elevating Grader; Heavy Duty Rotary Drill Rig (incl. Caisson foundation work and Robbins type drills); Koehring Skooper (or similar); Lift Slab Machine (Vagtborg and similar types); Loader (2 yds. up to and incl. 4 yds.); Locomotive (over 100 tons) (single or multiple units); Multiple Engine Earthmoving Machine (Euclids, Dozers, etc.) (no tandem scraper); Pre-Stress Wire Wrapping Machine; Reservoir-Debris Tug (self-propelled floating); Rubber-tired Scraper, Self-loading(Paddle wheels, etc.); Shuttle Car (reclaim station); Single Engine Scraper over 45 yds.; Soil Stabilizer (P & H or equal); Sub-grader (Gurries or other automatic type); Tractor, Compressor Drill Combination; Track laying type earth moving machine (single engine with tandem scrapers); Train loading station; Vacuum Cooling Plant; Whirley Crane (up to and incl. 25 tons)

POWER EQUIPMENT OPERATORS (AREAS 1 & 11) (Cont'd)
(Except Piledriving and Steel Erection)

GROUP 10-A: Backhoe (hydraulic) (up to and incl. 1 cu. yd. m.r.c.); Backhoe (cable) (up to and incl. 1 cu. yd. m.r.c.); Combination Backhoe and Loader over 1/2 cu. yd. m.r.c.); Continuous Flight Tie Back Auger (up to and incl. 1 cu. yd.) (crane attached); Cranes (not over 25 tons, hammerhead and gantry); Grade-alls (up to and incl. 1 cu. yd.); Power Shovels, Clamshells, Draglines, (up to and incl. 1 cu. yd. m.r.c.); Power Blade (single engine); Self-propelled Boom-type Lifting Device (center mount) (over 10 tons); Self-propelled Boom-type Lifting Device (center mount) (over 15 tons)

GROUP 11: Automatic Concrete Slip Form Paver; Automatic Railroad Car Dumper; Canal Finger Drain Backfiller; Canal Trimmer; Canal Trimmer w/ ditching attachments; Cranes (over 25 tons up to and incl. 125 tons); Continuous Flight Tie Back Auger over 1 cu. yd. (incl. crane); Drott Travelift 650-A-1 or similar (45 tons or over); Highline Cableway (over 5 tons); Loader (over 4 yds., up to and incl. 12 cu. yds.); Power Blade (multi-engine); Power Shovels, Clamshells, Draglines, Backhoes, Grade-alls (over 1 yd. and up to and incl. 7 cu. yds. m.r.c.); Rubber-tired earth moving machines (multiple propulsion power units and two or more scrapers) (up to and incl. 75 cu. yds. "struck" m.r.c.); Self-propelled Compactor (with multiple propulsion power units); Single engine Rubber-tired Earthmoving Machines (with tandem scrapers); Slip Form Paver (concrete or asphalt); Tandem Cats; Tower Cranes Mobile; Trencher (pulling attached shield); Universal Liebher and Tower Cranes (and similar types); Wheel Excavator (up to and incl. 750 cu. yd. per hour); Whirley Crane (over 25 tons

GROUP 11-A: Band Wagons (in conjunction with Wheel Excavator); Cranes (over 125 tons); Loader (over 12 cu. yds.; up to and incl. 18 cu. yds.); Power Shovels and Draglines (over 7 cu. yds., m.r.c.); Rubber Tired Multi-Purpose Earth Moving Machines (2 units over 75 cu. yds. "struck" m.r.c.); Wheel excavator (over 750 cu. yds. per hour)

GROUP 11-B: Loader (over 18 cu. yds.)

GROUP 11-C: Operator of Helicopter (when used in erection work); Remote controlled earthmoving equipment

CALIFORNIA
AREA DEFINITIONS for
POWER EQUIPMENT OPERATORS

**AREA 2: All areas not included within Area 1 as defined below.

*AREA 1: All areas included in the description defined below which is based upon townahip and range lines of Areas 1 and 2.

Commencing in the Pacific Ocean on the extension of the Southerly line of Township 19S.
Thence Easterly along the Southerly line of Township 19S, crossing the Mt. Diablo meridian to the S.W. corner of township 19S, range 6E, Mt. Daiblo base line and meridian,
Thence Southerly to the S.W. corner of township 20S, range 6E,
Thence Easterly to the S.W. corner of township 20S, range 13E,
Thence Southerly to the S.W. corner of township 21S, range 13E,
Thence Easterly to the S.W. corner of township 21S, range 17E,
Thence Southerly to the S.W. corner of township 22S, range 17E,
Thence Easterly to the S.E. corner of township 22S, range 17E,
Thence Southerly to the S.W. corner of township 23S, range 18E,
Thence Easterly to the S.E. corner of township 23S, range 18E,
Thence Southerly to the S.W. corner of township 24S, range 19E, falling on the Southerly line of Kings County, thence Easterly along the Southerly boundary of Kings
County and the Southerly boundary of Tulare County, to the S.E. corner of township 24S, range 29E,
Thence Northerly to the N.E. corner of township 21S, range 29E,
Thence Westerly to the N.W. corner of township 21S, range 29E,
Thence Northerly to the N.E. corner of township 13S, range 28E,
Thence Westerly to the N.W. corner of township 13S, range 28E,
Thence Northerly to the N.E. corner of township 11S, range 27E,

CALIFORNIA
AREA DEFINITIONS for
POWER EQUIPMENT OPERATORS (cont'd)

*Area 1 (cont'd)
Thence Westerly along the Northerly line to township 10N, into the Pacific Ocena.
Area 1 also includes that portion of Northern California included within the following line:
Commencing at the Northerly boundary of the state of California at the N.W. corner of township 48N, range 7W, Mt. Diablo baseline and meridian:
Thence Southerly to the S.W. corner of township 44N, range 7W,
Thence Easterly to the S.E. corner of township 44N, range 7W,
Thence Southerly to the S.W. corner of township 43N, range 6W,
Thence Easterly to the S. E. corner of township 43N, range 5W,
Thence Northerly to the N.E. corner of township 48N, range 5W, on the Northerly boundary of the state of California,
Thence Westerly along the Northerly boundary of the state of California to the point of beginning.

SUPERSEDEAS DECISION

STATE: California

COUNTIES: Alameda, Alpine, Amador, Calaveras, Contra Costa, Del Norte, Eldorado, Fresno, Humboldt, Marin, Mariposa, Merced, Monterey, Napa, Nevada, Placer, Sacramento, San Benito, San Francisco, San Joaquin, San Mateo, Santa Clara, Santa Cruz, Shasta, Solano, Sonoma, Sutter, Tehema, Tuolumne, Yolo, and Yuba

DECISION NUMBER: CA75-5016
DATE: Date of Publication
Supersedes Decision No. AR-1038 dated September 27, 1974, in 39 FR 34945
DESCRIPTION OF WORK: Residential Construction consisting of single family homes and garden type apartments up to and including 4 stories.

RIGGERS: WELDERS: Receive rate prescribed for craft performing operation to which rigging or welding is incidental.					

PAID HOLIDAYS:

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Employer contributes 4% of basic hourly rate for over 5 years service and 2% of basic hourly rate for 6 months to 5 years as Vacation Pay Credit. Six Paid Holidays: A throuth F.

b. 1st year employment employer contributes $.14 per hour to Vacation; 2nd year thru 5th year $.30 per hour; 6th year and thereafter $.46 per hour.

c. Employer contributes $.75 1st 5 years; $.90 after 5 years to Vacation Fund.

LABORERS

GROUP 1: Asphalt ironers and rakers; Barko, wacker and similar type tampers; Buggymobile; Chainsaw, faller, logloader and bucker; Compactors of all types; Concrete and magnesite mixer 1/2 yd. and under; Concrete pan work; Concrete saw; Concrete sander; Cribber and/or shoring; Cut granite curb setter; Form raisers; slip forms; Green cutters, Headerboardmen, hubsetters, aligners; Jackhammer Ops.; Jacking of pipe over 12 in.; Jackson and similar type compactors; Kettlemen, potmen and men applying asphalt, lay-Kold, creosote, lime, caustic and similar type materials; Lagging, sheeting, whaling, bracing, trenchjacking, hand-guided lagging hammer; Magnesite, epoxyresin, fiberglass, and mastic workers (wet or dry); Pavement breakers and spaders, incl. tool grinder; Pipelayers, caulkers, banders, pipewrappers, conduit layers, plastic pipelayers; Post hole diggers - air, gas and electric; Power broom sweepers; Power tampers of all types (except as shown in Group 2); Ram set gun and stud gun; Riprap-stonepaver and rock-slinger, incl. placing of sacked concrete and/or sand (wet or dry); Rotary scarifier, multiple head concrete chipper; Davis Trencher - 300 or similar type (and all small trenchers); Roto and ditch witch; Rototiller; Sandblasters, potman, gunman, nozzleman; Signalling and rigging; Tank cleaners; Tree climbers; Vibra-screed - bull float in connection with laborers' work; Vibrators; Dri-pak-it machine; High pressures blow pipe (1 1/2" or over, 100 lbs. pressure or over); Hydro seeder and similar type; Laser beam in connection with laborers' work

GROUP 1(a): Joy drill Model TAM-2A; Gardener-Denver Model DH143 and similar type drills; Track drillers; Jack Leg drillers; Diamond drillers; Wagon drillers; Mechanical drillers - all types regardless of type or method of power; Multiple unit drills; Blasters and powdermen; All work of loading, placing and blasting of all powder and explosives of whatever type regardless of method used for such loading and placing; High scalers (incl. drilling of same); Tree topper; Bit grinder

GROUP 1(b): Burning and Welding

GROUP 1(c): Laborers on general construction work on or in bell hole footings and shaft

GROUP 1(d): Contra Costa County Only: Pipelayers, Caulkers, Banders, Pipewrappers, Conduit Layers and Plastic pipelayers; Pressure pipe tester, no joint pipe & stripping of same, incl. repair of voids, Precast manhole setters, cast in place, manhole form setters

GROUP 2: Asphalt Shovelers; Cement dumpers and handling dry cement or gypsum; Choke-setter and rigger (clearing work); Concrete bucket dumper and chuteman; Concrete chipping and grinding; Concrete Laborers (wet or dry); Driller's helper; Chuck Tender; Nipper; Guinea Chaser (Stakeman); Grout Crew; High Pressure Nozzleman, adductors; Hydraulic Monitor (over 100 lbs. pressure); Loading and unloading, carrying and handling of all rods and materials for use in reinforcing concrete

GA75-5016 P. 18

LABORERS (Cont'd)

construction; Pittsburgh Chipper, and similar type brush shredders; Sloper; Singlefoot, hand held, pneumatic tamper; All pneumatic, air, gas, and electric tools; Jacking of pipe under 12 in.

GROUP 3: All cleanup work of debris, grounds and buildings incl. but not limited to street cleaners; Gleaning and washing windows; Construction laborers incl. bridge and general laborers; Dumpman, load spotter: Fire watcher; Street cleaners; Gardeners, horticultural and landscape laborers; Jetting; Limbers; Brush loaders; Pilers, maintenance landscape laborers on new construction: Maintenance, repair trackmen and road beds; Streetcar and railroad construction track laborers; Temporary air and water lines, Victaulic or similar; Tool room attendant; Fence erectors; Guardrail erectors; Pavement markers (button setters)

LABORERS (Gunite)

GROUP 1: Nozzleman (incl. Gunman, Potman); Rodmen; Groundman

GROUP 2: Reboundman

GROUP 3: General laborers

POWER EQUIPMENT OPERATORS (AREAS I & II)
(Except Piledriving and Steel Erection)

GROUP 1: Assistants to Engineers (Brakeman; Fireman; Heavy Duty Repairman Helper; Oiler; Deckhand; Signalman; Switchman; Tar Pot Fireman); Partsman (Heavy Duty Repair shop parts room)

GROUP 2: Compressor Op.; Concrete Mixer (up to and incl. 1 yd.); Conveyor Belt Operator (tunnel); Fireman Hot Plant; Hydraulic; Monitor; Mechanical Conveyor (handling building materials); Mixer Box Op. (concrete plant); Pump Operator; Spreader Boxman (with screeds); Tar Pot Fireman (power agitated)

GROUP 3: Box Operator (bunker); Helicopter Radioman (signalman); Motorman; Locomotive; Oiler; Rodman or Chainman; Ross Carrier (construction job site); Rotomist Operator; Screedman (except asphaltic concrete paving); Self-propelled, automatically applied concrete curing machine (on streets, highways, airports and canals); Trenching Machine (Maximum digging capacity 3 ft. depth); Tugger Hoist, single drum; Truck Crane Oiler

GROUP 4: Ballast Jack Tamper; Ballast Regulator; Ballast Tamper Multi-purpose; Boxman (asphalt plant); Elevator Op. (inside); Fork Lift or Lumber Stacker (construction job site); Line Master; Lubrication and Service Engineer (mobile and grease rack); Material Hoist (1 drum); Shuttlecar; Tie Spacer; Towermobile

GROUP 5: Compressor Op. (2 to 7); Concrete Mixers (over 1 yd.); Concrete Pumps or Pumpcrete Guns; Generators (100 K.W. or over); Grouting Machine; Press-weld (air-operated); Pumps (2 to 7); Welding Machines (powered other than by electricity) (2 to 7)

GROUP 6: BLH Lima Road Pactor or similar; Boom Truck or Dual Purpose A-Frame Truck; Concrete Batch Plants (wet or dry); Concrete Saws (self-propelled unit) on streets, highways, airports and canals; Drilling and Boring Machinery, vertical and horizontal (not to apply to waterliners, wagon drills or jack-hammers); Gradesetter, Grade Checker (mechanical or otherwise); Highline Cableway Signalman; Locomotives (steam or over 30 tons) Maginnis Internal Full Slab Vibrator (on airports, highways, canals and warehouses); Mechanical Finishers (concrete) (Clary, Johnson, Bidwell Bridge Deck or similar types); Mechanical Burm, Curb and/or Curb and Gutter Machine, concrete or asphalt; Portable Crusher; Post Driver (M-1500 and similar); Power Jumbo Operator (setting slip forms, etc. in tunnels); Roller; Screedman (Barber-Greene and similar) (asphaltic concrete paving); Self-propelled Compactor (single engine); Self-propelled Pipeline Wrapping Machine, Perault, CPC, or similar types); Slip Forms Pumps (lifting device for concrete forms); Small Rubber Tired Tractors; Surface Heater

POWER EQUIPMENT OPERATORS (AREAS I & II) (CONT'D)
(Except Piledriving and Steel Erection)

GROUP 7: Concrete Conveyor or Concrete Pump, Truck or Equipment mounted (boom length to apply); Concrete Conveyor, building site; Deck Engineers; Dual Drum Mixer; Fuller Kenyon Pump and similar types; Gantry Rider (or similar); Hydra-Hammer (or similar); Instrument Man; Material Hoist (2 or more drums); Mechanical Finishers or Spreader Machine (asphalt, Barber-Greene and similar; Mine or Shaft Hoist; Mixermobile; Pavement Breaker with or without Compressor Combination; Pavement Breaker, Truck mounted with Compressor Combination; Pipe Bending Machine (pipelines only); Pipe Cleaning Machine (tractor propelled and supported); Pipe Wrapping Machine (tractor propelled and supported); Refrigeration Plant; Roller Operator (finish asphalt); Self-propelled boom type lifting device (center mount) (10 tons or less M.R.C); Self-propelled Elevating Grade Plane; Slusher Op.; Small Tractor (with boom) Soil Tester; Truck type Loader

GROUP 8: Amor-Coater (or similar); Asphalt Plant Engineer; Cast-in-place Pipe Laying Machine; Combination Slusher and Motor Op.; Concrete Batch Plant (multiple units); Dozer; Heading Shield Op.; Heavy Duty Repairman and/or Welder; Ken Seal Machine (or similar); Kolman Loader; Loader (up to 2 yds.); Mechanical Trench Shield; Portable Grushing and Screening Plants; Push Cat; Rubber Tired Earth-moving Equipment (up to and incl. 45 cu. yds. "struck" m.r.c., Euclids, T-Pulls, DW-10, 20, 21, and similar; Rubber Tired Dozer; Self-propelled Compactor with Dozer; Sheepfoot; Timber Skidder (Rubber tired or similar equipment); Tractor drawn Scraper; Tractor Trenching Machine; Tri-Batch Paver; Tunnel Mole Boring Machine; Welder; Woods-mixer (and other similar Pugmill equipment)

GROUP 9: Canal Finger Drain Digger; Chicago Boom; Combination Mixer and Compressor (gunite); Combination Slurry Mixer and/or Cleaner; Highline Cableway (5 tons and under); Lull Hi-Lift or similar (25 ft. or over); Mucking Machine (rubber tire, rail or track type); Tractor (with boom) (D-6 or larger and similar)

GROUP 10: Boom-type Backfilling Machine; Bridge Crane; Cary-Lift (or similar); Chemical Grouting Machine; Chief of Party; Combination Backhoe and Loader (up to and incl. 1/2 cu. yd. m.r.c.); Derrick (2 ops. required when swing engine remote from hoist); Derrick Barges (except excavation work); Do-Mor Loader; Adams Elegrader; Elevating Grader; Heavy Duty Rotary Drill Rig (incl. Caisson foundation work and Robbins type drills); Koehring Skooper (or similar); Lift Slab Machine (Vagtborg and similar types); Loader (2 yds. up to and incl. 4 yds.); Locomotive (over 100 tons) (single or multiple units); Multiple Engine Earthmoving Machine (Euclids, Dozers, etc.) (no tandem scraper); Pre-Stress Wire Wrapping Machine; Reservoir-Debris Tug (self-propelled floating); Rubber-tired Scraper, Self-loading (Paddle wheels, etc.); Shuttle Car (reclaim station); Single Engine Scraper over 45 yds.; Soil Stabilizer (P & H or equal); Sub-grader (Curries or other automatic type); Tractor, Compressor Drill Combination; Track laying type earth moving machine (single engine with tandem scrapers); Train loading station; Vacuum Cooling Plant; Whirley Crane (up to and incl. 25 tons)

POWER EQUIPMENT OPERATORS (AREAS I & II) (cont'd)
(Except Piledriving and Steel Erection)

GROUP 10-A: Backhoe (hydraulic) (up to and incl. 1 cu. yd. m.r.c.); Backhoe (cable) (up to and incl. 1 cu. yd. m.r.c.); Combination Backhoe and Loader over 1/2 cu. yd. m.r.c.); Continuous Flight Tie Back Auger (up to and incl. 1 cu. yd.) (crane attached); Cranes (not over 25 tons, hammerhead and gantry); Grade-alls (up to and incl. 1 cu. yd.); Power Shovels, Clamshells, Draglines, (up to and incl. 1 cu. yd. m.r.c.); Power Blade (single engine); Self-propelled Boom-type Lifting Device (center mount) (over 10 tons); Self-propelled Boom-type Lifting Device (center mount) (over 15 tons)

GROUP 11: Automatic Concrete Slip Form Paver; Automatic Railroad Car Dumper; Canal Finger Drain Backfiller; Canal Trimmer; Canal Trimmer w/ ditching attachments; Cranes (over 25 tons up to and incl. 125 tons); Continuous Flight Tie Back Auger over 1 cu. yd. (incl. crane); Drott Travelift 650-A-1 or similar (45 tons or over); Highline Cableway (Over 5 tons); Loader (over 4 yds., up to and incl. 12 cu. yds.); Power Blade (multi-engine); Power Shovels, Clamshells, Draglines, Backhoes, Grade-alls (over 1 yd. and up to and incl. 7 cu. yds. m.r.c.); Rubber-tired earth moving machines (multiple propulsion power units and two or more scrapers) (up to and incl. 75 cu. yds. "struck" m.r.c.); Self-propelled Compactor (with multiple propulsion power units); Single engine Rubber-tired Earthmoving Machines (with tandem scrapers); Slip Form Paver (concrete or asphalt); Tandem Cats; Tower Cranes Mobile; Trencher (pulling attached shield); Universal Liebher and Tower Cranes (and similar types); Wheel Excavator (up to and incl. 750 cu. yd. per hour); Whirley Crane (over 25 tons

GROUP 11-A: Band Wagons (in conjunction with Wheel Excavator); Cranes (over 125 tons); Loader (over 12 cu. yds., up to and incl. 18 cu. yds.); Power Shovels and Draglines (over 7 cu. yds. m.r.c.); Rubber Tired Multi-Purpose Earth Moving Machines (2 units over 75 cu. yds. "struck" m.r.c.); Wheel excavator (over 750 cu. yds. per hour)

GROUP 11-B: Loader (over 18 cu. yds.)

GROUP 11-C: Operator of Helicopter (when used in erection work); Remote controlled earthmoving equipment

CA75-5016 P. 23

CALIFORNIA
AREA DEFINITIONS for
POWER EQUIPMENT OPERATORS

**AREA 2: All areas not included within Area 1 as defined below.

*AREA 1: All areas included in the description defined below which is based upon township and range lines of Areas 1 and 2.

Commencing in the Pacific Ocean on the extension of the Southerly line of Township 19S.
Thence Easterly along the Southerly line of Township 19S, crossing the Mt. Diablo meridian to the S.W. corner of township 19S, range 6E, Mt. Daiblo base line and meridian,
Thence Southerly to the S.W. corner of township 20S, range 6E,
Thence Easterly to the S.W. corner of township 20S, range 13E,
Thence Southerly to the S.W. corner of township 21S, range 13E,
Thence Easterly to the S.W. corner of township 21S, range 17E,
Thence Southerly to the S.W. corner of township 22S, range 17E,
Thence Easterly to the S.E. corner of township 22S, range 17E,
Thence Southerly to the S.W. corner of township 23S, range 18E,
Thence Easterly to the S.E. corner of township 23S, range 18E,
Thence Southerly to the S.W. corner of township 24S, range 19E, falling on the Southerly line of Kings County, thence Easterly along the Southerly boundary of Kings County and the Southerly boundary of Tulare County, to the S.E. corner of township 24S, range 29E,
Thence Northerly to the N.E. corner of township 21S, range 29E,
Thence Westerly to the N.W. corner of township 21S, range 29E,
Thence Northerly to the N.E. corner of township 13S, range 28E,
Thence Westerly to the N.W. corner of township 13S, range 28E,
Thence Northerly to the N.E. corner of township 11S, range 27E,
Thence Westerly to the N.W. corner of township 11S, range 27E,
Thence Northerly to the N.E. corner of township 10S, range 26E,
Thence Westerly to the N.W. corner of township 10S, range 26E,
Thence Northerly to the N.E. corner of township 9S, range 25E,
Thence Westerly to the N.W. corner of township 9S, range 25E,
Thence Northerly to the N.E. corner of township 8S, range 24E,
Thence Westerly to the N.W. corner of township 8S, range 24E,
Thence Northerly to the N.E. corner of township 6S, range 23E,
Thence Westerly to the S.E. corner of township 5S, range 19E,
Thence Northerly to the N.E. corner of township 3S, range 19E,
Thence Westerly to the N.W. corner of township 3S, range 19E,
Thence Northerly to the N.E. corner of township 3S, range 18E,
Thence Westerly to the N.W. corner of township 3S, range 18E,
Thence Northerly to the N.E. corner of township 2S, range 17E,
Thence Westerly to the N.W. corner of township 2S, range 17E,
Thence Northerly crosing the Mt. Diablo baseline to the N.E. corner of township 2N, range 16E,
Thence Westerly to the N.W. corner of township 2N, range 16E,
Thence Northerly to the N.E. corner of township 3N, range 15E,
Thence Westerly to the N.W. corner of township 3N, range 15E,
Thence Northerly to the N.E. corner of township 4N, range 14E,

Thence Southerly to the S.W. corner of township 11N, range 12W,
Thence Easterly to the S.E. corner of township 11N, range 12W,
Thence Southerly along the Eastern line of range 12W to the Pacific Ocean excluding that portion of Northern California within Santa Clara County included within the following line:
Commencing at the N.W. corner of township 6S, range 3E, Mt. Diablo baseline and Meridian:
Thence in a Southerly direction to the S.W. corner of township 7S, range 3E,
Thence in a Easterly direction to the S.E. corner of township 7S, range 4E,
Thence in a Northerly direction to the N.E. corner of township 6S, range 4E,
Thence in a Westerly direction to the N.W. corner of township 6S, range 3E, to the point of beginning which portion is a part of Area 2.
Area 1 also includes that portion of Northern California within the following lines:
Commencing in the Pacific Ocean on an extension of the Southerly line of township 2N, Humboldt baseline and meridian:
Thence Easterly along the Southerly line of township 2N to the S.W. corner of township 2N, range 1W,
Thence Southerly to the S.W. corner of township 1N, range 1W,
Thence Easterly along the Humboldt baseline to the S.W. corner of township 1N, range 2E,
Thence Southerly to the S.W. corner of township 2S, range 2E,
Thence Easterly to the S.E corner of township 2S, range 2E,
Thence Southerly to the S.W. corner of township 4S, range 3E,
Thence Easterly to the S.E. corner of township 4S, range 3E,
Thence Northerly to the N.E. corner of township 2S, range 3E,
Thence Westerly to the N.W. corner of township 2S, range 3E,
Thence Northerly crossing the Humboldt baseline to the S.W. corner of township 1N, range 3E,
Thence Easterly along the Humboldt baseline to the S.E. corner of township 1N, range 3E,
Thence Northerly to the N.E. corner of township 9N, range 3E,
Thence Westerly to the N.W. corner of township 9N, range 2E,
Thence Northerly to the N.E. corner of township 10N, 1E,

CA75-5016 P. 26

CALIFORNIA
AREA DEFINITIONS for
POWER EQUIPMENT OPERATORS (cont'd)

*Area 1 (cont'd)
Thence Westerly along the Northerly line to township 10N, into the Pacific Ocena.
Area 1 also includes that portion of Northern California included within the following line:
Commencing at the Northerly boundary of the state of California at the N.W. corner of township 48N, range 7W, Mt. Diablo baseline and meridian:
Thence Southerly to the S.W. corner of township 44N, range 7W,
Thence Easterly to the S.E. corner of township 44N, range 7W,
Thence Southerly to the S.W. corner of township 43N, range 6W,
Thence Easterly to the S. E. corner of township 43N, range 5W,
Thence Northerly to the N.E. corner of township 48N, range 5W, on the Northerly boundary of the state of California,
Thence Westerly along the Northerly boundary of the state of California to the point of beginning.

BUILDING CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments H & W	Pensions	Vacation	App. Tr.
Power Equipment Operators					
Group A					
Backhoe operators, clamshell operator, conc. mix operator, cent. mix plant, conc. pump operator-Ridley or similar type, crane operator (truck, tower, crawler, or locomotive), derrick operator, dragline operator, drill operator-caisson foundation type, elevating grader operator, fork-lift operator that comes within the jurisdiction of the Operating Engineers hoisting engine operator, locomotive operator, mechanics-heavy duty, oilers on cranes with earth boring drill attached with a separate power source, concrete paving mixer operator, pile driver operator, rock crusher operator, shovel operator, trenching machine operator over 6 ft. depth capacity, well point system operator (including the operation of all pumps on project operated by the contractor) generator operator-75 K. VA and over, tugger hoist operator, winch truck operator, hoisting material, air compressor operator, 365 C.F.M. and over furnishing air simultaneously for more than one contractor.	8.10	.35	.20		.07
Group B					
Bulldozer operator, dozer shovel operator, drill operator-Quarry master type, firemen-stationary or portable, motor grader operator, motor scraper operator (pans), pusher dozer operator, self-propelled compactor operator with blade, tractor operator with special equipment, trenching machine operator up to and including 6 ft. depth capacity.	7.75	.35	.20		.07
Group C					
Air compressor operator 600 cu. ft. and over, air compressor operator batt. of two, 300 cu. ft. and over, hydrohammer operator, concrete batch plant operator.	6.18	.35	.20		.07
Group D					
Oiler-truck or locomotive cranes	6.53	.35	.20		.07
Group E					
Oiler-unspecified, pump operator over 4" up to batteries of 4, welding machine operator, batteries of two 300 amps and over.	5.63	.35	.20		.07
Group F					
Concrete mixer operator skip types except paving mixers, concrete finishing machine operator, concrete paving machine operator, roller operator, well drill operator	5.98	.35	.20		.07
Group G					
Air compressor operator up to and including 300 cu. ft. or one machine over 300 but less than 600 cu. ft. conveyor operator, belt type, sand blasting machine operator, water pump operator 4" or less water pump operator over 4" (one only), welding machine operator 300 amps and over	4.96	.35	.20		.01

GA75-1019 P.4

BUILDING CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payment H & W	Pensions	Vacation	App.
LABORERS:					
Group A					
Batch plant men; buggy rollers (Ga.); cleaners (brick or lumber), clearing of right of way and building site (hand tools), concrete curer-sealer and liquid hardner, conveyer operator (used by tenders of plasterers and bricklayers), electrician laborer, excavator, backfiller grader (hand), forklift operator, walk type tending bricklayers and plasterers, form oiler, form stripper, metal pan handler, plumber-laborer, pipe doper, precast slab layer (floors, roofs, walks, curbs), concrete puddlers, rail porter, railroad track laborer, reinforcing steel handler, scaffolds and staging for masons and plasterers, erecting and removing scarifyer, concrete (mechanical and hand), sheeting and shoring laborers, steam jennies (used in cleaning equipment), tenders (all crafts), truck spotter dumper, winch handler (manual), wrecking buildings and miscellaneous structures.	5.30	.20	.25		.05
Group B					
Bucket-dumpman (concrete), mixer-mortar, grout clay, etc. (hand or machine), power post hole digger, power cleaning machine operator, power wheelbarrow, mortar mixer-hose for gypsum roofs, plastering, asbestos fiber sound proofing, etc.	5.42	.20	.25		.05
Group C					
Burner-demolition, chain saw operator, power concrete saw operator, steel form setter, sewer pipe layer, varner, wiper, potman, slip form raiser (steel or wood) jack or screw type.	5.52	.20	.25		.05
Group D					
Wagon drill operator (track or wheel type) and like used in drilling for blasting.	5.60	.20	.25		.05
Group E					
Powderman-helper	5.80	.20	.25		.05
Group F					
Powderman, nozzleman (concrete pneumatic)	6.20	.20	.25		.05
Group G					
Caisson holeman 25c above rate for classification working: chimney or stacks isolated.					

GA75-1019 P.5

BUILDING CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments: H & W	Pensions	Vacation	App. Tr.
Truck Drivers:					
Trucks up to and including 2½ tons, tractor farm types	5.75	.15			
Trucks from 2½ tons up to and including 5 tons all low-boys and other trailer pulled by tractors except farm type tractor with ratings up to and including 5 tons.	5.85	.15			
Trucks over 5 tons including all euclids up to and including 10 tons.	6.10	.15			
Euclids over 10 tons	6.15	.15
